CATALOG

2018, SUMMER TERM

JULY 9, 2018 – SEPTEMBER 21, 2018

Students are expected to abide by all of the policies stated in the Frontier Nursing University (FNU) Catalog. These policies are subject to change at any time and, unless otherwise noted, the revised or additional policies will apply to all students. Students will be notified of changes to the FNU Catalog via the Banyan Tree web portal (<http://portal.frontier.edu>) and the Announcements Forum. Upon being notified of changes, students are responsible for downloading and reading the most recent version of the FNU Catalog.

Accreditations

Frontier Nursing University (FNU) is accredited by the **Commission on Colleges of the Southern Association of Colleges and Schools** to award master's degrees and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about accreditation of FNU.

Frontier Nursing University is licensed by the **Kentucky Council of Postsecondary Education** (1024 Capital Center Drive, Suite 320, Frankfort, KY 40601; Tel: 502-573-1555) to offer a Doctor of Nursing Practice degree and both certificates and a Master of Science in Nursing (MSN) for nurse-midwifery, family nurse practitioner, women's health care nurse practitioner specialties and psychiatric-mental health nurse practitioner specialties.

The nurse-midwifery post-graduate certificate program and master's program and doctor of nursing practice degree are accredited by the **Accreditation Commission for Midwifery Education (ACME)**, 8403 Colesville Road, Suite 1550, Silver Spring, MD 20910-6374; Tel: 240-485-1802, www.midwife.org/acme, <http://www.midwife.org/acme>, acme@ACNM.org

The Doctor of Nursing Practice, the Master of Science in Nursing program and the post-graduate certificates, including the nurse-midwifery, family nurse practitioner, psychiatric mental health nurse practitioner, and women's health care nurse practitioner tracks are accredited by the **Accreditation Commission for Education in Nursing (ACEN)**.

Guaranty Bond

The Guaranty Bond is maintained on file in the office of the Executive Vice President for Finance and Facilities of FNU at 2050 Versailles Road, Versailles, KY 40383. The Guaranty Bond is available for review upon request during normal business hours by any and all interested parties.

Civil Rights Notice of Non-Discrimination

Frontier Nursing University (FNU) is in full compliance with section 602 of Title VI of the Civil Rights Act of 1964. The FNU staffing policies, education programs and services rendered are administered uniformly without regard to and does not discriminate on the basis of race, color, religion, national origin, sex, physical or mental disability, sexual orientation, citizen status, pregnancy, genetic information, age, past, present, or future service in the Uniformed Services of the United States whether the individual is a smoker or nonsmoker, or any other basis prohibited by local, state, or federal law. The following person has been designated to handle inquiries regarding the nondiscrimination policies:

FNU Human Resource Manager
Title IX Coordinator

About Frontier Nursing University

Mission

Frontier Nursing University is a private, non-profit, non-residential graduate school of nursing offering community-based, distance education programs leading to the Doctor of Nursing Practice degree, the Master of Science in Nursing Degree and/or post-graduate certificates in advanced practice nursing specialties. Our mission is to educate nurses to become competent, entrepreneurial, ethical and compassionate nurse-midwives and nurse practitioners who are leaders in the primary care of women and families with an emphasis on underserved and rural populations.

Adopted FNU Board of Directors 1/5/2011

This mission is accomplished by:

- Offering a structured off-campus program of nurse-midwifery and nurse practitioner graduate and certificate education to nurses who choose to learn in their community and/or learn best through self-directed, independent study.
- Preparing nurse-midwives and nurse practitioners to establish and/or manage a practice including innovative methods of providing primary care services.
- Providing commitment and collaboration between FNU's centralist academic structure and community-based clinical preceptors.
- Contributing to faculty and student development of scholarship in the areas of midwifery and advanced practice nursing education, practice and service.

Adopted FNU Board of Directors 10/17/2008

Vision Statement

Continually improve our status as a center of excellence for Midwifery and Nurse Practitioner Education.

Values

C	Compassion
I	Innovation
R	Reflection
C	Community
L	Legacy
E	Excellence
U	Uniqueness
P	Primary Care

Elaboration of the Vision

- Continue leadership in educating nurse-midwives and nurse practitioners to work in rural and other underserved areas.
- Maintain excellence in educating nurse-midwives and nurse practitioners in primary care.
- Demonstrate innovation in community-based distance education through the Community of Inquiry (CoI) model.
- Foster a culture of respect and service throughout the community.
- Plan for responsible and sustainable growth.
- Maintain responsible business and fiscal stewardship.
- Advance the legacy of Mary Breckinridge and the Frontier Nursing Service.

adopted Board of Directors 1/5/2011

Philosophy

The faculty of Frontier Nursing University (FNU) ascribe to a philosophy that includes the following beliefs:

Person

Individuals are unique, holistic beings, complex in nature with innate worth and dignity. As integrated biophysical, psychological, spiritual and socio-cultural beings, they are in constant interaction with an internal/external environment. Individuals have inherent power to be self-directed, to adapt behavior to work towards the highest potential for wellness, and to attain personal meaning for their lives within the context of their families and communities.

Environment

An individual's environment is comprised of biophysical, psychological, sociocultural and spiritual dimensions. The way in which an individual responds to the environment affects a person's level of wellness. The environment can be altered to positively affect a person's health.

Health

Health is a dynamic process reflecting one's biophysical, psychological, socio-cultural and spiritual state. Health is maximized when an individual's optimum level of wellness is promoted, maintained or restored.

FNU fosters a commitment to holistic care and facilitates the development of assessment and management skills necessary for practice in an advanced health care provider role. Comprehensive, safe, and culturally sensitive primary health care, that emphasizes prevention, is a right of all people. It addresses the ongoing and evolving needs of the family and the community. When individuals, families and communities are active in planning and developing health care systems to meet their needs, providers and institutions become more sensitive to their concerns.

Nursing

Nursing is the diagnosis and treatment of human responses to actual or potential health problems. A primary focus of nursing is health promotion and disease prevention.

Nursing is a relational practice that applies theoretical knowledge that includes the discipline of nursing, the sciences as well as arts and humanities.

Advanced practice nursing focuses on providing specialized care to clients in a variety of settings. The advanced practice nurse uses expanded knowledge and skills that require increased depth of critical thinking to address complex health care challenges. The scope of practice includes independent decision-making and management. Advanced practice nursing requires excellent communication skills needed to develop therapeutic relationships with clients and in order to effectively participate in consultation, collaboration or referral within a system of health care delivery.

Education

FNU assumes that undergraduate nursing education includes the science of nursing and incorporates knowledge from the humanities, and behavioral, physical, and social sciences.

In a perspective that places family needs in the center, the art and science of nurse-midwifery and nurse practitioner education evolves from a solid base of knowledge and skills acquired through a combination of study, observations and experiences that provide the way for safe and thoughtful health care, wherein choices and control reside within the family.

FNU supports multi-disciplinary collaboration both in education and practice. Inherent in the commitment to service and education is the obligation to participate in research. It is through research that valuable insights are made into clinical practice, teaching-learning methods and primary health care delivery.

Education at FNU is further based on the beliefs that:

- Nurse-midwifery and nurse practitioner education has essential content that is shared across the curriculum. The communication and collaboration of the faculty in the development and operations of the programs of FNU exemplify this belief.
- Learning occurs at a rate which varies with individuals. Learning is effective when self-directed, and with students assuming major responsibility for their own learning practice and evaluation. Learning is enhanced by essential structure that supports progress, motivation, and allows for various effective teaching strategies.
- Learning professional skills and responsibilities is enhanced through a clearly defined program of study implemented by master professional preceptors regardless of geographic location.
- Adult learners are self-motivated. They draw upon multiple experiences, which may not fit traditional learning structures. Faculty members guide a community of learners.
- Community-based education meets the needs of those learners for whom conventional residential education programs are not available or who learn best through directed independent study.
- The goal of the faculty of FNU is to foster autonomous learners who have the skills to think critically. Critical thinking skills are necessary for accurate assessment, diagnosis and management of client problems.
- The faculty/student relationship is characterized by mutual respect, responsibility and growth. Faculty and students share responsibility for creating a climate of mutual trust and open communication. Faculty offer support, facilitate learning and are role models for students.

Statement of Scholarship

Scholarship at Frontier Nursing University (FNU) is defined as those activities that systematically advance the teaching, research, and practice of midwifery, family nursing and women's health care through rigorous inquiry. We concur with Boyer's (1990) assertion that:

"Theory leads to practice. But practice also leads to theory. And teaching at its best shapes both research and practice. Surely scholarship means engaging in original research. But the work of the scholar also means stepping back from one's investigation, looking for connections, building bridges between theory and practice and communicating one's knowledge effectively to students."

At FNU, the scholarship of teaching, research and practice are all valued equally. We believe that the integration of teaching, research and practice creates the optimal environment for educating students. As described by Boyer, scholarship at FNU may include the following activities:

Discovery - the pursuit of inquiry and investigation in search of new knowledge.

Integration - making connections across disciplines and advancing knowledge through synthesis.

Application – applying knowledge to the social issues of the times in a dynamic process that generates and tests new theory and knowledge

Teaching – transmitting, transforming and extending knowledge

For our work to be considered scholarly it must meet the following criteria as described by Boyer (1990):

1. Clear goal;
2. Adequate preparation (investigation of what is known);
3. Appropriate method (disciplined and systematic);
4. Significant contribution;
5. Effective presentation;
6. Reflective critique.

We continue to explore a broad definition of the term "scholarly work" that includes a wide variety of activities that contribute to the advancement of knowledge. We are committed to using these six criteria to define and evaluate

our scholarly work. References Boyer, E. (1990). *Scholarship reconsidered: Priorities for the professoriate*. Princeton, NJ: The Carnegie Foundation for the Advancement of Teaching.

Scholarly Agenda 2012

The faculty of FNU has established a scholarly agenda that is consistent with the mission of FNU:

Our mission is to provide a high quality education that prepares nurses to become competent, entrepreneurial, ethical and compassionate nurse-midwives and nurse practitioners who will provide primary care for women and families residing in all areas with a focus on rural and medically underserved populations.

Thus, the scholarly agenda at FNU has two separate but interrelated foci:

Focus One

Improve health care services and the health status of women, children and families with a special emphasis on rural and underserved communities.

Focus Two

Develop and evaluate methods for educating nurse-midwives and nurse practitioners with a special emphasis on distance and online education.

Rev. 12-4-12

History

The Frontier Graduate School of Midwifery was started in 1939 by the Frontier Nursing Service (FNS) as a part of its demonstration project in the care of the mother and child in rural areas of Kentucky. When FNS began using nurse-midwives in the United States in 1925, it was able to secure a qualified staff in only two ways, by sending the American nurses to Great Britain for graduate training or by enlisting British nurses already qualified as midwives. In the early years, the FNS offered scholarships to American nurses to go to Great Britain for training in nurse-midwifery, and recruited British nurse-midwives.

From the beginning, Mary Breckinridge viewed nurse-midwifery as central to health care. When World War II started in 1939, a number of the British members of the FNS staff wished to return to their homes. Under war conditions, it was not possible to continue to send American nurses to Great Britain. The FNS immediately put into operation its plan for a graduate school of nurse-midwifery. The Frontier Graduate School of Midwifery enrolled its first class November 1, 1939. Frontier Nursing University has been in continuous operation since that time.

As the number of births decreased in Leslie County during the 1980s it became difficult to support a traditional midwifery program. In 1989 the nurse-midwifery program was transferred to the University of New Mexico. That class graduated on October 27, 1991 under the flag of Frontier Nursing University (FNU). During this time period, the Community-based Nurse-midwifery Education Program (CNEP) began as a pilot project funded by the PEW Foundation. The development of the CNEP was originally a cooperative effort of the Maternity Center Association (MCA), the National Association of Childbearing Centers (NACC), Frances Payne Bolton School of Nursing, Case Western Reserve University (FPBSON/CWRU) and the Frontier Nursing Service (FNS). The goal was to enable nurses to remain in their communities while obtaining graduate education as nurse-midwives and ultimately increase the number of practicing nurse-midwives working in underserved areas. The pilot project was very successful. In 1990, FNU recognized that the CNEP model of education matched its own goals and mission. The President of the School and the Board of Directors voted to adopt the CNEP as its nurse-midwifery education program in 1991. Since then CNEP has graduated over 1,775 nurse-midwives.

In the late 1960s as birth control options became more available and a wider array of health care treatment options were developed, the Frontier Nursing Service recognized that a different type of provider was needed. This provider would not provide birthing services but would provide a wide array of primary and chronic health care services to the entire family.

At this time FNU developed the first family nurse practitioner (FNP) program in the United States. In 1970, the name of the School was changed to Frontier School of Midwifery and Family Nursing to reflect the addition of the

FNP program. The last classes to graduate from the traditional nurse-midwifery and family nurse practitioner programs were in August of 1990. The family nurse practitioner program was discontinued at that time at the school focused on developing the distance learning nurse-midwifery education program.

The Community-Based Nurse-Midwifery Education Program was so successful in providing the opportunity for graduate education to nurses living in their own communities, the school leadership decided to re-establish the family nurse practitioner program using the same community-based model. The Community-based Family Nurse Practitioner (CFNP) education program was established in 1999. With the acceptance of CFNP class 1 in 1999, FNU came full circle in its mission to educate nurses to provide primary care that is comprehensive, safe, and culturally sensitive. In 2003 FNU transitioned the programs from certificate programs to begin an Master of Science in Nursing (MSN) program with two tracks: nurse-midwifery and family nurse practitioner. In 2005, FNU added the Women's Health Care Nurse Practitioner track to the MSN options and added post-graduate certificates for all three tracks.

In October 2004, the members of the American Association of Colleges of Nursing (AACN) endorsed the Position Statement on the Practice Doctorate in Nursing which called for moving the level of preparation necessary for advanced nursing practice roles from the master's degree to the doctorate level by the year 2015. FNU moved forward with plans to include the addition of a Post-Master's Doctor of Nursing Practice (PM-DNP) in the program offerings in 2007. The first class of DNP students enrolled in October 2008. The introduction of the PM-DNP ensures that FNU remains a leading institution in advanced practice nursing education and offers quality programs at all levels to nurse-midwives and nurse practitioners throughout the country.

On July 1, 2011 the Frontier School of Midwifery and Family Nursing officially changed its name to Frontier Nursing University to better reflect its status as a graduate school of nursing.

In 2014, Frontier Nursing University began offering a newly developed curriculum for nurses who wish to become nurse-midwives and nurse practitioners. The new curriculum begins by completing a Master of Science in Nursing degree and then offers a seamless transition to a Companion Doctor of Nursing Practice (DNP) degree. This curriculum is designed to prepare nurse-midwives and nurse practitioners to be excellent clinicians and to have the expertise needed to translate evidence into best practices so that mothers, babies, and families receive the highest quality care. The goals include that the student becomes a leader in the health care system and influences the system to provide high quality patient care.

The new DNP program was designed to confer a Master of Science in Nursing (MSN) degree and offer a seamless transition to the Doctor of Nursing Practice (DNP) degree. The advantage to this program is that students can elect to complete both the MSN and the DNP degree without interrupting their studies. Conferring the MSN allows the students to sit for the national certification exam and begin their work as clinicians in their communities. This meets our mission of providing care in rural and underserved areas. When students complete the requirements for the MSN they may choose to continue in the DNP program or step out with the MSN. This is the ideal curriculum for nurses who want either a MSN degree or an MSN plus Doctor of Nursing Practice degree. This plan furthers the FNU tradition of leadership in the education of nurse-midwives and nurse practitioners.

In 2016, in an effort to meet the need of a shortage of mental health workers, the Psychiatric-Mental Health Nurse Practitioner specialty track was developed. This would be the fourth speciality track for the MSN program. The first class was admitted January 1, 2017.

School Song

Verse 1:

And therefore we have come, to join hands and hearts together
To give gentle care to families, united we learn. (Chorus)

Verse 2:

And when we have completed, this task that we have before us
Our culture of caring will circle the globe. (Chorus)

Chorus:

For the babies and for the mothers, the fathers and for the brothers,
The sisters and all the others, we come here to learn.

Frontier Nursing Service

Mary Breckinridge established the Frontier Nursing Service (FNS) in Leslie County, Kentucky in 1925, introducing the first nurse-midwives to the United States. Riding horses up mountains, through fog, flood, or snow the FNS nurses brought modern healthcare to one of the poorest and most inaccessible areas in the U.S. Mary Breckinridge demonstrated that care provided by nurse-midwives acting as both public health nurses and midwives to the total family would drastically cut infant and maternal mortality and also morbidity and mortality for the entire community. A more detailed account of FNS may be found at their website: [Frontier Nursing Service](#)

Department of Midwifery and Women's Health

Description

The Department of Midwifery and Women's Health offers the Community-based Nurse-midwifery Education Program (CNEP) and the Community-based Women's Health Care Nurse Practitioner (CWHCNP) Education Program. The department has clinical sites across the United States with more added regularly. Frontier Nursing University knows that the CNEP and CWHCNP programs of study have led and will continue to lead the effort to improve healthcare for women and babies.

Students in the CNEP receive a MSN with a nurse-midwifery concentration and can choose to seamlessly continue to complete the Companion Doctor of Nursing Practice (DNP) degree. A post-graduate certificate option in nurse-midwifery is also available for students who have already completed a MSN. CNEP graduates are eligible to take the national certification examination given by the American Midwifery Certification Board (AMCB) as soon as they complete all requirements for the MSN or post-graduate certificate.

Students in the CWHCNP program receive a MSN with a women's health care nurse practitioner concentration and can choose to seamlessly continue to complete the Companion Doctor of Nursing Practice (DNP) degree. A post-graduate certificate option as a WHCNP is also available. CWHCNP program graduates are eligible to take the national certification examination for women's health care nurse practitioners given by the National Certification Council (NCC) as soon as they complete all requirements for the MSN or post-graduate certificate.

Purpose

The purpose of the Department of Midwifery and Women's Health is to significantly increase the numbers of nurse-midwives and women's health care nurse practitioners to meet the needs of women and families residing in all areas with a particular focus on rural and underserved areas as well as those choosing birth center care by:

- Offering a structured off campus education program for nurse-midwives and women's health care nurse practitioners to nurses who choose to learn in their community and who learn best through self-directed independent study.
- Preparing nurse-midwives and women's health care nurse practitioners to establish and manage a practice, service or free standing birth center.
- Commitment and collaboration between FNU's centralist academic structure and community-based clinical preceptors.
- Demonstrating innovative non-traditional models for completion of graduate education through our community-based distance education program.

Philosophy

Health is a dynamic process reflecting one's physical, mental, and psycho-social state. Together these parameters determine a person's well-being and risk of illness.

Comprehensive, safe and culturally sensitive primary health care that emphasizes prevention is a right of all people. It begins with the individual and addresses the ongoing and evolving needs of the family and the community.

Continuity of care for the childbearing family and for women throughout their childbearing years and beyond with emphasis on education, safety, comfort, and satisfaction, is the right of every woman. It is our firm belief that women have access to safe and sensitive health care where they are active participants in their care.

Education for nurse-midwives and women's health care nurse practitioners that is offered by a qualified faculty with a curriculum comparable or superior to academic standards established by the professions may take place in a variety of settings.

Active clinicians in a variety of settings can be prepared to serve as preceptors.

Learning occurs at a rate which varies with individuals. It is effective when self-directed with students assuming major responsibility for their own learning practice and evaluation.

Adult learners are self-motivated drawing upon multiple experiences which may not fit traditional learning structures.

The community is the classroom for the student. Community-based education meets the needs of those learners for whom conventional residential programs are not available, or who learn best through self-directed study, and provides a rich learning environment for the student.

The faculty-student relationship consists of mutual respect, responsibility, and growth. Faculty and students share responsibility for creating a climate of mutual trust and open communication.

CNEP and CWHCNP are joint ventures between students, their families, and faculty. We are a “community” dedicated to the goal of improving the quality and accessibility of healthcare to women and children by increasing the numbers of nurse-midwives and women’s health care nurse practitioners who can provide safe, sensitive care to women and families.

The Department of Midwifery and Women’s Health Care is committed to the recruitment and retention of faculty and students from cultural ethnic minorities who express their dedication to service within their own communities.

Objectives

The objectives of the Department of Midwifery and Women’s Health is to prepare graduates who will be able to:

- Demonstrate safe, culturally sensitive health care for newborns and women across the lifespan.
- Use critical and reflective thinking skills to provide evidence based care.
- Lead knowledge generation in clinical practice to improve outcomes.
- Emulate the hallmarks of midwifery and women’s health care practice.
- Apply ethical principles to guide and evaluate decisions.
- Demonstrate an understanding of the political and economic environment within which nurse-midwives and women’s health care nurse practitioners provide care.
- Evaluate health care practice through peer review and quality improvement initiatives.
- Advocate for empowerment of women, families and communities.
- Establish and maintain quality services in birth centers or other practice settings in a fiscally sound and financially responsible manner.
- Mentor and teach nurse-midwifery students or women’s health care nurse practitioner students In the clinical setting.
- Demonstrate leadership to initiate and guide change in clinical practice.
- Demonstrate Information literacy skills in complex decision making.
- Demonstrates an understanding of the appropriate use of technology to implement and evaluate health care.

Department of Family Nursing

Description

The purpose of the Department of Family Nursing is to prepare family nurse practitioners to care for families residing in rural or other underserved areas by offering a structured off-campus Community-based Family Nurse Practitioner (CFNP) program with an across the lifespan population focus. This program of study is structured for nurses for whom traditional programs are not accessible or who learn best through self-directed independent study.

Students in the CFNP receive a MSN with a family nurse practitioner (FNP) concentration and can choose to seamlessly continue to complete the Companion Doctor of Nursing Practice (DNP) degree. A post-graduate certificate option with a family nurse practitioner concentration is also available. CFNP graduates are eligible to take the national certification examination given by either the American Nurse Credentialing Center (ANCC) or the American Academy of Nurse Practitioners Certification Program (AANPCP) upon completion of all requirements for either the MSN or post graduate certificate.

Purpose

The purpose of CFNP specialty track is to educate nurse practitioners to meet the needs of families residing in all areas with a particular focus on rural and underserved areas, by:

- Offering a structured off-campus program of nurse practitioner education to nurses who, choose to learn in their community, learn best through self-directed independent study.
- Preparing nurse practitioners that can apply sound practice management strategies.
- Commitment and collaboration between FNU's centralist academic structure and community-based clinical nurse practitioner preceptors.
- Demonstrating innovative non-traditional models for completion of graduate education.

Philosophy

Health is a dynamic process reflecting one's physical, mental and socio-cultural state. Together these parameters determine a person's well-being and risk for illness.

Comprehensive, safe and culturally sensitive primary health care that emphasizes prevention is a right of all people. It begins with the individual and addresses the ongoing and evolving needs of the family and the community.

Nurse practitioner education, when it is offered by a qualified faculty and with a curriculum comparable or superior to academic standards established by the profession, may take place in a variety of settings.

Nurse practitioners in a variety of settings can be prepared to serve as preceptors.

Learning occurs at a rate which varies with individuals. It is effective when self-directed with students assuming major responsibility for their own learning practice and evaluation.

Adult learners are self-motivated, drawing upon multiple experiences which may not fit traditional learning structures.

The community is the classroom for the NP student. Community-based education meets the needs of those learners for whom conventional nurse practitioner programs are not available, or who learn best through self-directed independent study, and provides a rich learning environment for the student.

The faculty-student relationship is a reflection of the nurse practitioner/client relationship in that it consists of mutual respect, responsibility, and growth. Faculty and students share responsibility for creating a climate of mutual trust and open communication.

CFNP educational processes are a joint venture between students, their families, and faculty. We, too, are a “community,” dedicated to the goal of improving the quality and accessibility of health care by educating nurse practitioners that can provide safe, sensitive care to individuals and families.

The Department of Family Nursing is committed to the recruitment and retention of faculty and students from cultural and ethnic minorities who express their dedication to service within their own communities.

Objectives

The objectives of the Department of Family Nursing are to prepare graduates who will be able to:

- Deliver safe, culturally sensitive health care to clients across the lifespan.
- Apply critical and reflective thinking skills to provide evidence based care.
- Lead knowledge generation in clinical practice to improve health outcomes.
- Emulate characteristics of a professional.
- Apply ethical principles to guide and evaluate decisions.
- Demonstrate an understanding of the political and economic environment within which primary care is provided.
- Evaluate nurse practitioner practice through peer review and quality improvement initiatives.
- Advocate for empowerment of clients, families and communities.
- Establish and maintain quality primary care services in a fiscally sound and financially responsible manner.
- Mentor and teach family nurse practitioner students in the clinical setting.
- Demonstrate leadership to initiate and guide change in clinical practice.
- Demonstrate information literacy skills in complex decision making.
- Demonstrates an understanding of the appropriate use of technology to implement and evaluate health care.

Academic Offerings

In January 2014, FNU introduced a new curriculum that incorporated DNP Essentials into the MSN and PGC degree. At the same time, FNU introduced a “companion DNP” program of study designed specifically for students who completed the FNU MSN and PGC degree with the incorporated DNP Essentials. Students who entered the FNU MSN and PGC degree prior to January 1, 2014 followed a curriculum that did not include the DNP Essentials. Student who entered the FNU MSN after January 1, 2014 followed a curriculum that included the DNP Essentials.

In January 2017, FNU modified the Post Graduate Certificate program (PGC) of study. Students who entered the PGC degree prior to January 1, 2014 followed a curriculum that did not include the DNP Essentials. Students who entered the PGC between January 1, 2014 and January 1, 2017 followed a curriculum that included the DNP Essentials. Students who entered the PGC degree after January 1, 2017 followed a curriculum that did not include the DNP Essentials.

Current Program offerings include:

- Doctor of Nursing Practice (DNP)
- Master of Science in Nursing (MSN)
 - Curriculum includes DNP Essentials
- Post-Graduate Certificate (PGC)
 - Curriculum does not include DNP Essentials
- ADN Bridge Entry Option (for all students entering FNU with an Associate Degree in nursing and no Bachelor's degree in any field)

See the descriptions below for details about each program option.

Doctor of Nursing Practice

Description

The FNU DNP program is a post-graduate program designed for family nurse practitioners, women's health care nurse practitioners, certified nurse-midwives, pediatric nurse practitioners, adult nurse practitioners, geriatric nurse practitioners and psychiatric-mental health nurse practitioners to improve skills in the areas of leadership, clinical scholarship, evidence-based practice and clinical evaluation. All students entering the DNP program must be registered nurses who have completed a master's degree in nursing or a related field and are nationally certified as a nurse-midwife or nurse practitioner. The DNP program builds upon and expands these nurse-midwife or nurse practitioner competencies.

The DNP curriculum has been carefully constructed to incorporate the eight essential competencies delineated by the American Association of Colleges of Nursing (AACN). The competencies address the following:

- Scientific underpinning for practice.
- Organizational and systems leadership for quality improvement and systems thinking.
- Clinical scholarship and analytical methods for evidence-based practice.
- Information systems/technology and patient care technology for the improvement and transformation of health care.
- Health care policy for advocacy in health care.
- Inter-professional collaboration for improving patient and population health outcomes.
- Clinical prevention and population health for improving the nation's health.
- Advanced nursing practice.

FNU offers two curricular paths to earning the DNP. Each path has its own eligibility for entry:

Entry into the Post-Master's DNP is available to applicants who:

- completed the MSN program at FNU that did not include the DNP Essentials, entered prior to January 1, 2014.
- completed the PGC program of study at FNU that did not include the DNP Essentials, entered prior to January 1, 2014 or entered after January 1, 2017. Students who began the PGC at FNU between January 1, 2014 and January 1, 2017 completed a curriculum that included the DNP Essentials.
- completed a MSN somewhere other than FNU.

Entry into the Companion DNP program is only available to FNU graduates who:

- completed the MSN program at FNU that included the DNP Essentials, entered after January 1, 2014 (Classes 108, 111, 114, 117, 119 and above).
- completed the PGC program of study at FNU that included the DNP Essentials, entered between January 1, 2014 and January 1, 2017 (Classes 119 - 154). Applicants who completed the PGC at FNU will have their transcripts evaluated prior to admission to determine appropriate program of study.

Purpose

The purpose of the DNP program at FNU is to prepare nurse practitioner and nurse-midwife leaders who will evaluate and improve primary care practice.

The ultimate goal of the program is to improve the health care and the health status of populations with a focus on rural and underserved communities.

Philosophy

The Doctor of Nursing Practice Program draws on the clinical expertise of the faculty and students to prepare nurses at the highest clinical level to use their knowledge and clinical expertise to impact the health care of not only the individual but also the health care of the community, the region, and the nation. The PM-DNP program produces nursing leaders who focus on improving the health care system, improving access to care for the poor and underserved and promoting the outcomes of NM and NP practice through the use of clinical scholarship and evidence based practice.

Objectives

Graduates of the Doctor of Nursing Practice program will:

- Develop an advanced level of competence for practice that provides consumers with excellent primary care in an area of specialty.
- Demonstrate advanced levels of clinical scholarship.
- Critically analyze complex clinical situations and health care systems to promote optimal outcomes.
- Evaluate and apply conceptual models, theories, and research in order to improve the health status of diverse individuals and populations, with a focus on rural and underserved communities.
- Design, deliver, direct, evaluate and disseminate evidence-based practices to include research, statistics and epidemiological principles.
- Analyze the social, cultural, political and economic environment within the healthcare system.
- Apply ethical principles to guide and evaluate decisions.
- Demonstrate competence as a clinical educator.
- Demonstrate leadership to initiate and guide change in clinical practice.
- Advocate for empowerment of clients, families and communities. (Health Policy)
- Demonstrate information literacy skills in complex decision making.
- Demonstrate an understanding of the appropriate use of technology to implement and evaluate health care.

On-Campus Attendance

Students entering the DNP program via the traditional admissions process have one (1) required on-campus activity. Prior to beginning the curriculum, all PM-DNP students will attend an in-person Bound, an orientation to the DNP and to the University. While at Bound, students participate in activities for their first term as a doctoral student at FNU and are oriented to the rest of their coursework.

All FNU alumni entering the DNP program via streamlined admission (as described in the Admission Policies section of this catalog) will virtually attend meetings during the orientation Bound. Streamline admission students are not required to physically attend a Bound prior to beginning the program.

FNU alumni who were actively enrolled as a student within the last two years but who are not eligible for streamline admission may request to be excused from in-person Bound attendance and instead virtually attend meetings during the orientation Bound.

The required trips to Campus are special events in the FNU experience and each student is expected to participate fully in all required activities. The student is responsible for all content, skills, and costs of making up or completing the program objectives if any time is missed. To receive credit for class work missed for any reason, the student must fulfill the objectives by special arrangement with the DNP Program Director. If a student knows they will need to miss any campus sessions, the DNP Program Director should be contacted prior the campus visit to discuss the possibility of special arrangements.

Students are expected to stay on campus for the required trips. Exceptions may can be made for students to stay off campus for students who are nursing mothers or have health reasons which prohibit overnight stay on campus. Students seeking permission to stay off campus should notify the DNP Program Director with an explanation for the request. Requests should be made at least 2 weeks before the expected date of arrival.

PM-DNP Curriculum Overview

The PM-DNP program is 28 semester credits. These include 8 credits (360 contact hours) of clinical practicum. The curriculum is delivered using distance education strategies. Students will present the oral presentation of their quality improvement projects to their practice stakeholders, student colleagues, and faculty.

The PM-DNP is designed for FNU graduates who began and completed the MSN or PGC program at FNU prior to January 1, 2014, FNU graduates who completed the PGC program of study at FNU starting January 1, 2017 or after, and individuals who completed a MSN somewhere other than FNU. Information about admission into the PM-DNP program can be found in the Admissions Policies section.

PM-DNP Program Plan: Advancing Leadership and Scholarship **(20 didactic credits – 8 clinical credits)**

PC702 Epidemiology and Biostatistics (3-0)
PC711 Nurse as Educator (3-0)
PC713 Principles of Independent Practice (3-0)
PC718 Evidence Based Practice (3-0)
PC728 Leadership and Organizational Dynamics (3-0)
PC729 Health Policy and Advocacy (2-0)
PC740 DNP Clinical Scholarship Planning (1-3)
PC741 DNP Clinical Scholarship Implementation (1-4)
PC742 DNP Clinical Scholarship Dissemination (1-1)

****Post master's DNP students who meet the following criteria are exempt from taking PC713 Principles of Independent Practice:**

- Frontier Nursing University CNEP, CFNP, or CWHCNP alumni and
- Completed the last course in the professional role series (NM638 or NP636) in Fall of 2013 or later

Students have the option of completing the 28 credits of the PM-DNP program will by following either a 4-term, 5-term or 6-term program of study.

Companion DNP Curriculum Overview

Starting January 1, 2014, Frontier's MSN curriculum was designed to integrate many of the DNP Essentials allowing FNU graduates completing the MSN to continue seamlessly in the Companion DNP (CDNP) program. The Companion DNP is only available to FNU graduates who began and completed the MSN program at FNU

after January 1, 2014 (Class 108, 111, 114, 117, 119 and above). The Companion DNP is also available to FNU graduates who began and completed the PGC program at FNU between January 1, 2014 and January 1, 2017. FNU graduates who began the PGC at FNU on or after January 1, 2017 completed the PGC program of study that did not incorporate the DNP Essentials and are therefore not eligible to continue to the CDNP. Information about admission into the CDNP program can be found in the Admissions Policies section.

FNU graduates may begin the Companion DNP coursework immediately after completing the MSN or PGC degree or take time off between the completion of the MSN or PGC and the beginning of the CDNP. The length of time taken between completing the MSN or PGC and starting the CDNP will determine the necessary steps for admission into the CDNP program. Information about streamlined entry into the CDNP or admission into the CDNP program after a break in studies can be found in the Admissions Policies section.

All students enrolled in the Companion DNP must pass the certification examination for nurse-midwife or nurse practitioner licensure no later than the end of the first term of the Companion DNP.

If an FNU CNEP graduate chooses to do the WHNP Certificate for CNEP Grads program, the student may choose to begin the Companion DNP coursework simultaneously with the WHNP Certificate coursework. FNU CNEP graduates wishing to do the WHNP Certificate separate from the Companion DNP may complete the WHNP Certificate during the allowable stop-out period between earning the MSN and beginning the Companion DNP or after completing the Companion DNP. FNU students are not allowed to complete any other FNU academic program simultaneously with the Companion DNP.

Companion DNP Program Plan: Advancing Leadership and Scholarship **(11 didactic credits – 8 clinical credits)**

PC711 Nurse as Educator (3-0)
PC728 Leadership and Organizational Dynamics (3-0)
PC729 Health Policy and Advocacy (2-0)
PC740 DNP Clinical Scholarship Planning (1-3)
PC741 DNP Clinical Scholarship Implementation (1-4)
PC742 DNP Clinical Scholarship Dissemination (1-1)

Students have the option of completing the 19 credits of the CDNP by following either a 3-term, 4-term or 5-term program of study.

Master of Science in Nursing

Description

Frontier Nursing University (FNU) offers a Master of Science in Nursing (MSN) degree and post-master's certificates leading to education as a certified nurse-midwife (CNM), family nurse practitioner (FNP), and/or a women's health care nurse practitioner (WHCNP). FNU seeks to meet the needs of prospective nurse-midwives and nurse practitioners who do not want to leave their home communities to obtain the graduate education they desire to fulfill their professional aspirations. Didactic coursework is delivered using web-based, distance education courses allowing students to achieve their higher education goals without leaving home for classes. Using clinics, hospitals, and preceptors in their own community allows students to get the hands-on clinical experience required for these exciting health care professions. Two on-campus sessions are required, including an orientation prior to beginning studies, and intensive skill workshops prior to beginning the clinical practicum.

Starting in January 2014, Frontier Nursing University (FNU) offers a program plan for the Master of Science in Nursing (MSN) degree with integrated DNP Essentials. Because selected DNP Essentials are taught during the MSN, the Frontier MSN graduate has the option to seamlessly transition to a Companion Doctor of Nursing Practice (DNP) degree at FNU, a shorter program of study than the post-master's DNP. Details about the Companion DNP degree can be found in the Doctor of Nursing Practice section of this catalog.

The MSN degree is designed for nurses who have either a baccalaureate degree or an associate degree in nursing and are seeking to obtain national certification as a certified nurse-midwife (CNM), family nurse practitioner (FNP), psychiatric-mental health nurse practitioner (PMHNP) and/or a women's health care nurse practitioner (WHCNP). Students with an associate degree in nursing must enter through the ADN Bridge option. Students completing the MSN are eligible to sit for the appropriate national certification exam.

Purpose

The purpose of the MSN with the addition of the DNP Essentials at FNU is to prepare nurse practitioner and nurse-midwife clinicians and leaders who will practice, evaluate and improve primary health care.

The ultimate goal of the program is to improve the health care and the health status of populations with a focus on rural and underserved communities.

Philosophy

The MSN produces nursing leaders who focus on improving the health care system, improving access to care for the poor and underserved and promoting the outcomes of certified nurse-midwives (CNMs) and nurse practitioners (NPs) practice through the use of clinical scholarship and evidence based practice.

Health is a dynamic process reflecting one's physical, mental, and psychosocial state. Together these parameters determine a person's well-being and risk of illness.

Comprehensive, safe and culturally sensitive primary health care that emphasizes prevention is a right of all people. It begins with the individual and addresses the ongoing and evolving needs of the family and the community.

Continuity of care for with emphasis on education, safety, comfort, and satisfaction, is the right of every family. It is our firm belief that families should have access to safe and sensitive health care where they are active participants in their care.

Education for nurse-midwives and nurse practitioners that is offered by a qualified faculty with a curriculum comparable or superior to academic standards established by the professions may take place in a variety of settings.

Active clinicians in a variety of settings can be prepared to serve as preceptors.

Adult learners are self-motivated drawing upon multiple experiences which may not fit traditional learning structures.

The community is the classroom for the student. Community-based education meets the needs of those learners for whom conventional residential programs are not available, or who learn best through self-directed study, and provides a rich learning environment for the student.

The faculty-student relationship consists of mutual respect, responsibility, and growth. Faculty and students share responsibility for creating a climate of mutual trust and open communication.

The educational programs are joint ventures between students, their families, and faculty. We are a "community" dedicated to the goal of improving the quality and accessibility of healthcare to women and children by increasing the numbers of nurse-midwives and women's health care nurse practitioners who can provide safe, sensitive care to women and families.

Objectives

The objectives of MSN Program with integrated DNP Essentials are to prepare graduates who will be able to:

1. Deliver safe, culturally sensitive health care to clients across the lifespan.
2. Apply critical and reflective thinking skills to provide evidence based care.

3. Emulate characteristics of a professional.
4. Apply ethical principles to guide and evaluate decisions.
5. Analyze the social, cultural, political and economic environment within the healthcare system.
6. Evaluate nurse midwifery/ nurse practitioner practice through peer review and quality improvement.
7. Advocate for empowerment of clients, families and communities. (Health Policies)
8. Establish and maintain quality health services in a fiscally sound and financially responsible manner.
9. Demonstrate information literacy skills in complex decision making.
10. Demonstrate an understanding of the appropriate use of technology to implement and evaluate health care.
11. Demonstrate leadership to initiate and guide change in clinical practice.

The objectives of the Companion DNP Plan are to provide the opportunity for students to:

1. Develop an advanced level of competence for practice that provides consumers with excellent primary care in an area of specialty.
2. Demonstrate advanced levels of clinical scholarship.
3. Critically analyze complex clinical situations and health care systems to promote optimal outcomes.
4. Evaluate and apply conceptual models, theories and level of evidence to improve the health status of diverse individuals and populations with a focus on rural and underserved communities.
5. Design, deliver, direct, evaluate and disseminate evidence-based best practices to include research, statistics and epidemiological principles.
6. Demonstrate competence as a clinical educator.

On-Campus Attendance

MSN students have two (2) required on-campus activities.

Prior to beginning the curriculum, all MSN students will attend an in-person Bound, an orientation to the MSN and to the University. While at Bound, students participate in activities designed to prepare them for their first term as graduate students at FNU and are oriented to the rest of their coursework.

After completing didactic management coursework and prior to beginning clinical, students return to campus for an intensive Clinical Bound. Following successful completion of all Clinical Bound courses, students will transition into their clinical coursework.

The required trips to Campus are special events in the FNU experience and each student is expected to participate fully in all required activities. The student is responsible for all content, skills, and costs of making up or completing the program objectives if any time is missed. To receive credit for class work missed for any reason, the student must fulfill the objectives by special arrangement with the Associate Dean, Program Director or Clinical Director. If a student knows they will need to miss any campus sessions, the Associate Dean or Clinical Director should be contacted prior the campus visit to discuss the possibility of special arrangements.

Students are expected to stay on campus for the required trips. Exceptions may can be made for students to stay off campus for students who are nursing mothers or have health reasons which prohibit overnight stay on campus. Students seeking permission to stay off campus should notify the appropriate Associate Dean with an explanation for the request. Requests should be made at least 2 weeks before the expected date of arrival.

Sequencing of the MSN Program of Study

Frontier Bound Orientation

All students are required to come to Hyden, Kentucky for Frontier Bound, an orientation to Frontier Nursing University (FNU). During the three-day session, students meet members of their faculty and staff, their advisor, and their fellow students. Time is spent learning skills needed for distance learning, making lifelong friends, reviewing courses, asking questions, and beginning to plan how to be a Frontier student after returning home. Frontier Bound is an experience in fun, learning, and friendship. During Frontier Bound, students stay on the

historic FNU campus and are pampered with delicious home-cooked meals. Students must attend all Frontier Bound sessions in order to be eligible to enroll in their selected program of study.

Students who may be excused from Frontier Bound include: students who are returning FNU alumni who were actively enrolled as a student within the last two years or current students who are transferring from one specialty track to another.

To obtain an excuse from Frontier Bound, the student must make an appointment with the Associate Dean or Program Director of their specialty track at time of admission. The Associate Dean or Program Director will evaluate the student's knowledge of current Frontier Bound content and the individual student's needs. Based on the evaluation, the Associate Dean or Program Director may excuse the student or require attendance at Frontier Bound.

Levels I and II: Foundations for Practice and Clinical Management for Specialty Care

Students complete coursework for Levels I and II in their community. This web-based course of study is completed in 4-8 terms depending on whether the student is full-time or part-time. Students are in frequent contact with their faculty and fellow students through email, discussion forums, virtual meeting platforms, and phone. They also receive guidance and support from their Academic Advisor and Associate Dean.

Level III: Clinical Bound

Clinical Bound is designed to develop and validate beginning clinical skills. To be eligible to attend Clinical Bound, students must have completed all prerequisite courses and submitted at least one clinical site for credentialing. Submission of a minimum of one clinical site must be completed prior to the registration period in which the student is registering for Clinical Bound courses. If no clinical sites are submitted for credentialing, the student will not be allowed to register for or attend Clinical Bound. Students return to Hyden, Kentucky for this five-day skills-intensive experience which includes the completion of two, one-credit courses. During this period the student is validated as having acquired the skills necessary to begin a community-based clinical practicum. There is also time for informal communication between faculty and students. Upon successful completion of the Level III, students are eligible to begin their clinical practicum.

Level IV: Clinical Practicum

After attending Clinical Bound, students begin their clinical practicum. Students provide nurse practitioner or nurse-midwifery services in their community for four to ten months under the guidance of a master clinician preceptor. The FNU Regional Clinical Faculty (RCF) will provide guidance and support during this time to the student and the preceptor. In addition, the RCF evaluates both the clinical site and preceptor to insure excellence before the student begins the clinical experience. There are required clinical experiences that will assist the student in developing necessary clinical skills. Students may choose, or be required, to use more than one clinical site in order to receive a variety of clinical experiences. Where the volume of clients will not make the experience goals possible, the student will be expected to use more than one clinical site.

MSN Program Plan Core Curriculum

All MSN students in every specialty track complete the following Core Curriculum courses in addition to the specific courses required by the specialty track.

MSN Core Curriculum courses + MSN Specialty Track management courses = MSN completed

Level I: Foundations for Practice

(12 didactic credits – 0 clinical credits)

PC700 Communication and Introduction to Scholarly Writing (3-0)

PC701 Principles of Health Promotion (3-0)

PC705 Advanced Pathophysiology (3-0)

PC706 Advanced Physical Assessment (3-0)

Level II: Clinical Management for Specialty Care

(12 didactic credits – 0 clinical credits)

PC702 Epidemiology and Biostatistics (3-0)

PC718 Evidence Based Practice (3-0)

PC707 Advanced Pharmacology Across the Lifespan (3-0)

PC713 Principles of Independent Practice (3-0)

Level III: Clinical Bound**(1 didactic credits – 0 clinical credits)**

PC714 Clinical Bound: Skills for Advanced practice (1-0)

Nurse-Midwifery MSN Program of Study

In the Community-based Nurse-Midwifery Education Program (CNEP), students complete a modular course of study over two to three years. The classroom is the community in which the student lives. During the clinical practicum, CNEP students work closely with the certified nurse-midwives (CNMs) in their community. The FNU has preceptor sites across the United States with more added on a regular basis.

The CNEP curriculum has a strong academic and clinical basis. In addition, the CNEP curriculum is unique in that it educates students not only to be nurse-midwives, but also to be entrepreneurs focusing on community assessment, market research, birth center development, and budgeting for a successful practice. The CNEP also has a strong primary care component which prepares students to take care of women across the lifespan. The Master of Science in Nursing (MSN) degree and a post-master's certificate are offered in the nurse-midwifery specialty track.

AABC “How to Start a Birth Center” Workshop

All CNEP students are required to complete the “How to Start a Birth Center” workshop offered by the American Association of Birth Centers (AABC) as a program graduation requirement. CNEP students must complete either the in-person workshop or online workshop course prior to graduation from the MSN or Post-Graduate certificate portion of the program.

FNU covers the registration fee for CNEP students and will only pay for one workshop registration per student. If a student does not attend a workshop for which they are registered, fails to cancel their registration in time for FNU to avoid being charged, or does not complete the online workshop within the allotted twelve (12) week timeframe, the student will be responsible for the registration fee for the workshop they do complete. Students are responsible for all other costs (materials, AABC membership, travel, etc.) excluding the registration fee. AABC provides FNU with an official roster of attendance for the in-person workshop and a course completion notification for those doing the online workshop.

MSN Program Plan CNEP Curriculum Overview**MSN Core Curriculum - see MSN Program Plan Core Curriculum section above for course details****(25 didactic credits – 0 clinical credits)****Level II: Clinical Management for Specialty Care****(22 didactic credits – 0 clinical credits)**

NM700 The Role of the Nurse-Midwife in Health Care Delivery Systems (3-0)

NM701 Women's Health (3-0)

NM702 Midwifery Care during Pregnancy (3-0)

NM703 Primary Care of Women (3-0)

NM704 Midwifery Care during Labor and Birth (3-0)

NM705 Midwifery Care of Postpartum Women and Newborns(3-0)

NM706 Advanced Midwifery Care of Childbearing Women and Newborns (4-0)

Level III: Clinical Bound**(1 didactic credits – 0 clinical credits)**

NM711 Skills for Nurse-Midwifery Care (1-0)

Level IV: Clinical Practicum**(1 didactic credit – 15 clinical credits)**

NM712 Nurse-Midwifery Clinical I (0-3)
NM713 Nurse-Midwifery Clinical II (0-3)
NM714 Nurse-Midwifery Clinical III (0-3)
NM715 Nurse-Midwifery Clinical IV (0-3)
NM716 Nurse-Midwifery Clinical V (0-3)
NM717 Nurse-Midwifery Final Comprehensive Review (1-0)

Completion of AABC “How to Start a Birth Center” Workshop

MSN Completed: 64 credits (24 core credits + 24 didactic management credits + 15 clinical credits)

Family Nurse Practitioner MSN Program of Study

In the Community-based Family Nurse Practitioner (CFNP) education program, students complete a modular course of study over two to three years. The classroom is the community in which the student lives. During the clinical practicum, CFNP students work closely with a family nurse practitioner and other primary care providers in their community.

The CFNP curriculum has a strong academic and clinical basis. In addition, the CFNP curriculum is unique in providing a strong foundation in understanding the business of primary care. This includes assessing a community to discover the primary care needs, learning how to develop a plan for having a fiscally viable practice, and working within the license and insurance regulations of the student’s state. Women’s health, including care of the childbearing woman, is a strong component of the program. The Master of Science in Nursing (MSN) degree and a post-master’s certificate are offered in the family nurse practitioner specialty track.

MSN Program Plan CFNP Curriculum

MSN Core Curriculum - see MSN Program Plan Core Curriculum section above for course details
(25 didactic credits – 0 clinical credits)

Level II: Clinical Management for Specialty Care**(19 didactic credits – 0 clinical credits)**

NP700 The Role of the Nurse Practitioner (3-0)
NP702 Primary Care I (3-0)
NP703 Women’s Health and Childbearing (4-0)
NP704 Primary Care: Pediatrics (3-0)

Women's Health Care Nurse Practitioner MSN Program of Study

In the Community-based Women's Health Care Nurse Practitioner (CWHCNP) Education Program, students complete a modular course of study over two to three years. The classroom is the community in which the student lives. During the clinical practicum, CWHCNP students work closely with women's health care nurse practitioners, nurse-midwives, family nurse practitioners, and other primary care providers in their community.

The CWHCNP curriculum has a strong academic and clinical basis. In addition, the CWHCNP curriculum is unique in providing a strong foundation in understanding the business of women's health care. This includes assessing a community to discover the primary care needs, learning how to develop a plan for having a fiscally viable practice, and working within the license and insurance regulations of the student's state. The Master of Science in Nursing (MSN) degree and a post-master's certificate are offered in the women's health care nurse practitioner specialty track.

Psych-Mental Health Nurse Practitioner MSN Program of Study

In the Psychiatric-Mental Health Nurse Practitioner (PMHNP) education program, students complete a modular course of study over two to three years. The classroom is the community in which the student lives. During the clinical practicum, PMHNP students work closely with a PMHNP and other psychiatric and behavioral health care providers in their community.

The PMHNP curriculum has a strong academic and clinical basis. In addition, the PMHNP curriculum is unique in providing a strong foundation in understanding the business of primary behavioral health care. This includes assessing a community to discover the primary behavioral health needs, learning how to develop a plan for having a fiscally viable practice, and working within the license and insurance regulations of the student's state. Using integrated behavioral healthcare models and approaches across the lifespan, care of the seriously mentally

ill and addictions medicine are strong components of the program. The Master of Science in Nursing (MSN) degree and a post-master's certificate are offered in the PMHNP specialty track.

Post-Graduate Certificate

Description

This program option is designed for applicants who have an MSN and are nationally certified as an APRN as a nurse practitioner or a nurse-midwife. The plan will include completion of all course work for a post-graduate certificate (PGC) that will allow the student to sit for the certification examination as a certified nurse-midwife (CNM), family nurse practitioner (FNP), psych-mental health nurse practitioner (PMHNP) or a women's health care nurse practitioner (WHCNP).

Purpose

The purpose of the PGC at FNU is to prepare nurse practitioner and nurse-midwife clinicians and leaders who will practice, evaluate and improve primary health care in an additional specialty. The ultimate goal of the program is to improve the health care and the health status of populations with a focus on rural and underserved communities.

Philosophy

The PGC program plan allows NPs and CNMs an opportunity to expand their scope of practice and produces nursing leaders who focus on improving the health care system, improving access to care for the poor and underserved and promoting the outcomes of NM and NP practice through the use of clinical scholarship and evidence based practice.

Objectives

The objectives of the PGC Program are to prepare graduates who will be able to:

- Deliver safe, culturally sensitive health care to clients across the lifespan.
- Apply critical and reflective thinking skills to provide evidence based care.
- Emulate characteristics of a professional.
- Apply ethical principles to guide and evaluate decisions.
- Analyze the social, political and economic environment within the healthcare system.
- Evaluate nurse midwifery/nurse practitioner practice through peer review and quality improvement.
- Advocate for empowerment of clients, families and communities.
- Establish and maintain quality health services in a fiscally sound and financially responsible manner.
- Assume responsibility for the clinical education of nurse midwifery/nurse practitioner students.
- Demonstrate information literacy skills in complex decision making.
- Demonstrate an understanding of the appropriate use of technology to implement and evaluate health care.
- Demonstrate leadership to initiate and guide change in clinical practice.

On-Campus Attendance

PGC students have two (2) required on-campus activities.

Prior to beginning the curriculum, all PGC students will attend an in-person Bound, an orientation to the PGC and to the University. While at Bound, students participate in activities designed to prepare them for their first term as certificate students at FNU and are oriented to the rest of their coursework.

After completing didactic management coursework and prior to beginning clinical, students return to campus for an intensive Clinical Bound. Following successful completion of all Clinical Bound courses, students will transition into their clinical coursework.

The required trips to Campus are special events in the FNU experience and each student is expected to participate fully in all required activities. The student is responsible for all content, skills, and costs of making up or completing the program objectives if any time is missed. To receive credit for class work missed for any reason, the student must fulfill the objectives by special arrangement with the Associate Dean, Program Director or Clinical Director. If a student knows they will need to miss any campus sessions, the Associate Dean or Clinical Director should be contacted prior the campus visit to discuss the possibility of special arrangements.

Students are expected to stay on campus for the required trips. Exceptions may can be made for students to stay off campus for students who are nursing mothers or have health reasons which prohibit overnight stay on campus. Students seeking permission to stay off campus should notify the appropriate Associate Dean with an explanation for the request. Requests should be made at least 2 weeks before the expected date of arrival.

PGC Program Plan Nurse-Midwifery Curriculum

Students who did not complete the required courses for Admission may have those courses added to an individualized program of study by the Associate Dean. See Admission Criteria for the Post-Graduate Certificate section of this catalog for details.

Level II: Clinical Management for Specialty Care

Post-Graduate Certificate Completed: 32 credits (20 didactic + 12 clinical)

ADN Bridge Entry Option

Description

The ADN Bridge Entry Option allows registered nurses with an associate's degree as the highest degree earned to enter the FNU Master of Science in Nursing (MSN) program without earning a bachelor's degree. Bridge students are admitted to one of the following speciality tracks: Nurse-Midwifery, Family Nurse Practitioner, or Psychiatric-Mental Health Nurse Practitioner.. The ADN Bridge Entry Option is congruent with the mission of FNU and adheres to *The Essentials of Baccalaureate Education for Professional Nursing Practice* outlined by the American Association of Colleges of Nursing. Following successful completion of all Bridge courses, students

seamlessly transition into their MSN program coursework. A Bachelor of Science in Nursing degree is not conferred as part of the ADN Bridge Entry Option.

On-Campus Attendance

Bridge students have three (3) required on-campus sessions during the program: Bridge Bound, Crossing the Bridge, and Clinical Bound:

- Prior to beginning the Bridge curriculum, all Bridge students attend Bridge Bound in Hyden, which is an orientation to the Bridge curriculum and the University. In the fourth term of the Bridge year, students return to campus for Crossing the Bridge, when they present their community health projects as part of N409 Community Health Practicum as well as participate in advising, curriculum, credentialing, and role sessions. All Bridge students participate in a structured peer mentoring program while on campus, during which the Crossing students mentor the Bound students.
- After completing didactic management coursework in the MSN program, and prior to beginning clinicals, students return to campus for an intensive Clinical Bound. Following successful completion of all Clinical Bound courses, students seamlessly transition into their clinical coursework.

Bridge Year Curriculum Overview

The ADN Bridge entry option is comprised of eight courses (24 credits). Bridge curriculum consists of seven courses (21 credits) taken in the first four terms at FNU. Additionally, In the Bridge year, students also take PC700 (3 credits), which is a core course taken by all FNU students. Students complete the Bridge courses in their communities after attending Bridge Bound. Following successful completion of all Bridge courses, students seamlessly transition into their clinical specialty coursework. No Bachelor of Science in Nursing degree is awarded as part of the Bridge Entry Option. A student who withdraws from the university after completion of all Bridge coursework will not be required to repeat the Bridge coursework if readmitted to FNU. Details about the MSN curriculum can be found in the Master of Science in Nursing section.

Bridge Year

(22 didactic credits – 2 clinical credits)*

N400 Physical Assessment (3-0)

N404 Statistics (3-0)

N405 Nursing Theory (3-0)

N406 Leadership (3-0)

N408 Community Health Nursing (3-0)

N409 Community Health Nursing Practicum (1-2) *Includes presentation given during Crossing*

N410 Nursing Research (3-0)

PC700 Communication and Introduction to Scholarly Writing (3-0)*

**Although completed in the Bridge Year, PC700 is a requirement in the MSN curriculum.*

Additional Programs

MSN Graduates Returning to Complete a Second Specialty

All FNU graduates wishing to return to complete a post-graduate certificate in a second specialty must complete the application process. Transcripts are not required when applying to complete a post-graduate certificate in a second specialty track unless credits from another school are being evaluated for transfer. All applications will go through the Admissions Committee process.

CNEP Graduates without an MSN Returning to Complete a Second Specialty

CNEP graduates who have not completed a MSN must complete the second specialty track as a master's completion program of study. All FNU students must graduate with either an MSN, a post-graduate certificate, a DNP or a PM-DNP. Post-baccalaureate certificates are no longer offered by FNU.

MSN Completion for CNEP Graduates

The FNU offers a Master of Science in Nursing (MSN) completion option for CNEP graduates without a master's degree. There are two programs of study depending on when the CNEP was completed.

MSN Completion Program of Study for Graduates of CNEP Classes 1-29

PC705 Advanced Pathophysiology (3-0)
PC701 Principles of Health Promotion (3-0)
NM703 Primary Care of Women (3-0)
PC718 Evidence Based Practice (3-0)

MSN Completion Program of Study for Graduates of CNEP Classes 30-40

PC701 Principles of Health Promotion (3-0)
PC718 Evidence Based Practice (3-0)

WHCNP Post-Graduate Certificate for CNEP Graduates

FNU CNEP graduates with a master's degree have the option of completing a post-graduate certificate as a Women's Health Care Nurse Practitioner. The Women's Health Care Nurse Practitioner (CWHCNP) Post-Graduate Certificate for CNEP Graduates provides additional supervised clinical experience in women's health care and primary health care for CNEP graduates who wish to become certified as WHCNP's by the National Certification Council (NCC).

This program requires completion of an additional four credit hour clinical course in women's health and primary care (WH639 for graduates of Class 30 and higher, N599 for graduates prior to Class 30). Upon completion of this course, a PGC will be awarded and graduates will be eligible to take the NCC Women's Health Care Nurse Practitioner Examination. Please note due to this certificate program being less than 33 weeks in length, students are not eligible to receive federal financial aid for these clinical courses. See Admissions Policies Section for more information.

Refresher program for Nurse-Midwives

FNU offers a refresher program for nurse-midwives who have been out of midwifery practice and current certification through the American Midwifery Certification Board (AMCB). The student will be admitted as a non-matriculating student if it is determined that the Program of Study will consist of 4 classes or fewer. If more than 4 classes are required, the student will register as a Post-Graduate Certificate matriculating student.

[Click here for non-matriculating student application](#)

NOTE: as part of application process – a CV and active nursing license should be included.

Upon admission, the student will meet with the Associate Dean of Midwifery and Women's Health to discuss an individualized program of study based upon the midwife's experience, length of time out of practice, and intended scope of practice. The guidelines and competencies established by the ACNM will be utilized in the formation of the individualized program of study. At minimum, the program of study would include advanced didactic coursework focusing on the appropriate area of practice and clinical experiences with the same focus.

The minimal course requirements for any refresher student who is returning to full scope practice include (but are not limited to):

NM706 Advanced Midwifery Care of Childbearing Women and Newborns- 4 credit hours
NM716 Nurse-Midwifery Clinical V (final clinical course)- 3 credit hours
Minimum of 15 precepted births
Minimum of 15 precepted births

Other minimums for visit types will be established by Clinical Director and/or Associate Dean

NM717 (Comps and Certification Exam Review)- 1 credit hour

All clinical policies regarding site selection, site credentialing, preceptor credentialing, and student credentialing apply. CNMs in the FNU NM Refresher program may utilize MDs to supervise required births during their clinical course. The use of MDs to supervise births does not apply to CNEP MSN or PGC students.

After meeting with the Associate Dean of Midwifery and Women's Health, the student will meet with admissions, Bursar, credentialing, and the appropriate Regional Clinical Faculty as assigned by the Clinical Director of Midwifery. The student will be required to complete the comprehensive exam course. If deficiencies are noted, additional coursework and/or clinical may be required to complete the refresher. When all requirements are successfully completed, a letter of completion will be issued to the student. Completion of the FNU refresher coursework does not guarantee the student will meet state, certifying body, licensure or employer related requirements.

Refresher program for Master's prepared Women's Health Nurse Practitioners

FNU offers a refresher program for Women's Health Nurse Practitioners who are masters prepared, have been out of practice and have up-to-date certification through the National Certification Corporation (NCC). The student will be admitted as a non-matriculating student if it is determined that the Program of Study will consist of 4 classes or fewer. If more than 4 classes are required, the student will register as a Post-Graduate Certificate matriculating student.

[Click here for non-matriculating student application](#)

NOTE: as part of application process – a CV and active nursing license should be included.

Upon admission, the student will meet with the Associate Dean of Midwifery and Women's Health to discuss an individualized program of study based upon the NP's experience, length of time out of practice, and intended scope of practice. At minimum, the program of study would include advanced didactic coursework focusing on the appropriate area of practice and clinical experiences with the same focus. See examples below. Note that the actual program of study will be individually developed.

Example: For a WHNP who has been continually practicing but has not been doing any obstetrical care and needs a refresher in this area of practice only:

WH707 Antepartum Complications and Comprehensive Postpartum Care - 4 credit hours

WH716 (final clinical course) – 3 credit hours

WH717 - Women's Health Comprehensive Review- 1 credit hour

Example: For a WHNP who has been completely out of practice for an extended period of time or who has not practiced after graduation:

NM701 Women's Health- 3 credit hours

NM703 Primary Care of Women- 3 credit hours

WH707 Antepartum Complications and Comprehensive Postpartum Care - 4 credit hours

WH716 (clinical course)- 3 credit hours

WH717- Women's Health Comprehensive Review- 1 credit hour

All clinical policies regarding site selection, site credentialing, preceptor credentialing, and student credentialing apply.

After meeting with the Associate Dean of Midwifery and Women's Health, the student will meet with the Registrar, Bursar, credentialing, and the appropriate Regional Clinical Faculty. The student will also be assigned an academic advisor. Upon completion of the individualized program of study, a letter of completion will be issued to the student. Completion of the FNU refresher coursework does not guarantee that the student will meet state, certifying body, licensure, or employer related requirements.

Courses for Non-Matriculating Students

Frontier Nursing University (FNU) offers graduate and continuing education courses for healthcare professionals. These online courses offer the opportunity to develop new knowledge and skills to expand the scope of clinical practice, to refresh the knowledge and skills of experienced advanced practice nurses, to gain the graduate credits necessary for prescriptive authority, or to become a better preceptor.

Courses are offered four times each year and start at the beginning of each term. Candidates should choose a term when they have the time to devote to the course work. Individuals are permitted to take up to two courses per term and may not take more than a total of two courses as a non-matriculated student at FNU. Seasoned faculty who are pioneers in distance education for nurse-midwives and nurse practitioners developed and teach these courses, taking into consideration the unique needs of adult learners.

Graduate Courses

Non-matriculating students can review the course descriptions in the FNU Catalog. Not all current FNU courses are available for non-matriculating students. Course that are available to non-matriculating students are N400 Physical Assessment, N404 Statistics, and PC702 Epidemiology and Biostatistics. The Associate Deans can be contacted to request possible approval for other desired course(s). The registration form for non-matriculating students is obtained by contacting the Admissions Office on the Hyden Campus at (606) 672-2312. Non-matriculated students are required to complete the Banyan Tree 101 Canvas course prior to starting any course work. All course work is started at the beginning of a term (see FNU Academic Calendar). Student must register for the courses 6 weeks prior to the beginning of the term in order to complete the requirements for the Banyan Tree 101 course and obtain the textbook. Courses which include secure exams require the use of an electronic proctor device.

Continuing Education Courses

FNU's preceptor training program, the Gift of Precepting, is available at:

<http://www.frontier.edu/giftofprecepting/index.html>. Registration is required and is found under the Pre-course Instruction tab located in the menu of the left side of the page. This course meets the American College of Nurse-Midwives (ACNM) requirements for preceptor training and is approved by the ACNM Education Department for CEUs. This is an excellent source of information about precepting health professions students.

Building a Practice in Your Home Community is an interactive web-based course designed to teach the managerial skills necessary to own and operate a health care practice. This course was developed in collaboration with Partnerships for Training of the Robert Wood Johnson Foundation and George Washington University. It is available online at <http://learn.gwnursing.org/Education/practice/index.htm>

Student Support

Since its beginning in community-based education in 1989, the FNU faculty has discovered that community-based learners have special needs. This is why FNU offers so many different avenues of support for students.

Faculty Support

Every didactic course has a Course Coordinator, a faculty member responsible for the design of the course as well as providing support to students to maximize learning and assist students in meeting the course learning objectives. All FNU faculty members keep regular office and appointment hours each week and have a phone dedicated to FNU, allowing students to have easy access to them. Each FNU student is assigned a Regional Clinical Faculty (RCF) upon admission. The RCF can assist students in securing a clinical site and work with students and preceptors during the clinical practicum.

Academic Advising

Each FNU student is assigned an Academic Advisor upon admission. The Academic Advisor will remain with a student from the point of admission through to graduation to provide guidance on successfully completing the program of study. Advising staff assist students in understanding university academic policy and work closely with

faculty to design, develop, and implement retention activities. For more information visit: <https://portal.frontier.edu/web/fnu/advising>.

Student Services

The purpose of Student Services is to foster student learning and development by providing highest quality services that enhance students' educational experiences and that prepare students to fulfill the mission of Frontier Nursing University. Student Services staff members assist faculty in developing, planning and implementing new student orientation Bounds, help students understand the process for identifying a preceptor and securing a clinical site, provide recruitment and retention activities for a diverse study body, collaborates with faculty to provide opportunities for students to develop cross-cultural competencies and skills for success in a diverse healthcare system, and coordinates the university Commencement ceremony. For more information visit <http://www.frontier.edu/student-services>.

PRIDE (Promoting Recruitment and Retention to Increase Diversity in Nurse-Midwifery and Nurse Practitioner Education) Program

The PRIDE program is designed to promote diversity in nursing and midwifery by recruiting and retaining underrepresented students with the goal of becoming nurse-midwives or nurse practitioners. The PRIDE Program partners with institutions around the country to provide advanced practice nursing and midwifery to students who may not otherwise have access to graduate level programs in their area.

As a PRIDE member, students may attend Diversity Impact weekend on campus to reconnect with staff, faculty and classmates while learning more about issues related to diversity in nursing and midwifery. PRIDE students attend meetings once a term to explore issues relevant to diversity in the nursing and midwifery workforce, share experiences as a nurse and student with other students and discover resources to assist in the goal of becoming a nurse-midwife or nurse practitioner. Interested students may learn more on the PRIDE webpage (www.frontier.edu/PrideProgram) and can submit their application to the PRIDE program coordinator via email.

S.A.G.E. (Supporting Achievement in Graduate Education) Mentoring Program

The SAGE peer mentoring program was developed by students, for students. The birth of the program was from students who felt that they could reach out to others because they have "been there, done that." SAGE is designed to provide a supportive network to students as they adjust academically and emotionally to graduate distance learning. All FNU students are encouraged to join SAGE and remain a part of the mentoring network even as alumni. Interested students should visit <http://www.frontier.edu/student-services/sage-mentoring> to submit the membership application.

Student Council

The Student Council is composed of elected student members from each FNU class who agree to act as class representatives. The mission of the Student Council is to help each FNU student's experience to be as positive as possible. The Student Council believes that each individual is an integral part of the success of FNU. The Student Council encourages active student involvement in the issues that affect students and serves as student advocates to this end. The Student Council aims to achieve their mission through promoting good communication between students, faculty and administration. For further information about the Student Council, visit: <http://www.frontier.edu/student-services/student-council>.

Banyan Tree Communications Portal

FNU uses its own private communications portal, known as the Banyan Tree (BT). It allows users to access other students, faculty, or alumni on topics ranging from course updates, case studies, discussion groups, and assignments and practice issues to family and fun topics. With a computer, internet service and a good sense of humor, the members of the FNU community are always in touch. FNU has created a prerequisite electronic communication course: Banyan Tree 101 (BT101), which is taught with a hands-on approach with step-by-step instructions. BT101 was designed carefully to be non-threatening and non-intimidating. Additional instruction and practice are part of Frontier Bound. Students have access to technical support as necessary during regular business hours.

Library Services

The Alice Whitman Memorial Library is the academic library for Frontier Nursing University (FNU). A collection of books, journals, and audiovisuals is available to students and faculty whether on-campus or off-campus. FNU provides access to a large number of remote resources including bibliographic and full-text databases, online journals and texts, tutorials, and other relevant Websites. The FNU Director of Library Services acquaints all new students to the library as part of orientation and is available for student meetings by phone or email. More information about the library can be found at: <https://portal.frontier.edu/web/fnu/library>.

Alumni Association of Frontier Nursing University

The purpose of the FNU Alumni Association is to promote FNU, increase loyalty of alumni, and create a mutually beneficial relationship between the institution and alumni. The Alumni Association represents over 2,000 alumni who have graduated from FNU since its inception in 1939. Further information about the Alumni Association can be found at: <http://www.frontier.edu/alumni>.

Admissions Policies

Prerequisite Health Requirements for all FNU programs

A current health examination must be completed prior to attendance at any Frontier Bound or Clinical Bound and kept current (within one year) throughout the clinical experience. This health examination must include documentation of vaccination or immunity to Rubella, Measles, Mumps, Hepatitis B, Varicella, and freedom from tuberculosis in a communicable stage.

Technical and Performance standards

Upon admission all students verify in writing that they are able to meet the following technical and performance standards with or without accommodation. The technical and performance standard are:

- **Observational:** Candidates must be able to observe demonstrations of physical and psychosocial nursing interventions. Candidates must be able to accurately assess the health status of patients. Observation and assessment of patients require the functional use of the senses of vision and hearing, as well as other sensory modalities.
- **Communicative:** The candidate must be able to communicate effectively and efficiently in oral and written forms with patients and with members of the health care team. The foci of nursing communication are gathering assessment data, patient teaching and the provision of emotional support for patients and their families.
- **Motor:** Candidates must have sufficient motor function to elicit information from patients by palpation, auscultation, percussion and other diagnostic maneuvers. Candidates must be able to execute motor movements reasonably required to provide general care and emergency treatments to patients. Such actions require moderate motor strength, coordination of both gross and fine muscular movements, equilibrium and functional use of the senses of touch and vision.
- **Intellectual:** Candidates must have the ability to measure, calculate, reason and analyze; they must be able to synthesize and apply complex information. Candidates must be fully alert and attentive and free of non prescribed controlled substances at all times in clinical settings.
- **Behavioral/Social:** Candidates must possess a level of emotional health that allows full utilization of intellectual abilities, the exercise of good judgment, prompt completion of all responsibilities attendant to the nursing diagnosis and care of patients, and the development of mature, empathetic and effective nurse-patient relationships. Candidates must be able to function effectively under stress.

Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics and the Nurse Practice Act is required.

Background Checks

All applicants will be required to complete a background check as the final step in the admissions process. Applicants will be admitted pending the successful completion of the background check. The background check must be completed after the admissions decision is made and prior to attendance at Frontier Bound. Applicants with felony convictions will not be admitted. Applicants with other types of convictions will be considered on an individual basis. This does not apply to non-matriculating applications or applicants from the FNU WHCNP specialty who completed a background check through FNU credentialing within twelve months.

Illness and/or Injury

If a student is sick or injured during their enrollment at FNU, they should be seen in the nearest emergency room or health care clinic as appropriate. This would include any Bloodborne Pathogen Exposure. Students are required to carry health insurance or be a member of a health care sharing program and will be personally responsible for any and all health care costs while enrolled at the FNU.

Admissions Criteria for the Doctor of Nursing Practice (DNP)

FNU offers two curricular paths to earning the DNP. Each path has its own eligibility for entry and Admissions requirements:

Entry into the Post-Master's DNP is available to applicants who:

- completed the MSN program at FNU that did not include the DNP Essentials, entered prior to January 1, 2014.
- completed the PGC program of study at FNU that did not include the DNP Essentials, entered prior to January 1, 2014 or entered after January 1, 2017. (Students who began the PGC at FNU between January 1, 2014 and January 1, 2017 completed a curriculum that included the DNP Essentials.)
- completed a MSN somewhere other than FNU.

Entry into the Companion DNP program is only available to FNU graduates who:

- completed the MSN program at FNU that included the DNP Essentials, entered after January 1, 2014 (Classes 108, 111, 114, 117, 119 and above).
- completed the PGC program of study at FNU that included the DNP Essentials, entered between January 1, 2014 and January 1, 2017 (Classes 119 - 154). Applicants who completed the PGC at FNU will have their transcripts evaluated prior to admission to determine appropriate program of study.

Admission Criteria for the Post-Master's DNP (PM-DNP)

Applicants are expected to meet the following criteria for admission to Frontier Nursing University (FNU):

- Hold a Master of Science Degree in Nursing (MSN) or a Master's in Nursing (MN or MS) from nursing program that is accredited by an accreditation agency approved by the Department of Education to complete institutional accreditation. Certified nurse-midwives, family nurse practitioners, women's health care nurse practitioners, pediatric nurse practitioners, adult nurse practitioners, geriatric nurse practitioners and psychiatric mental health nurse practitioners with a master's degree in a related field will be considered for admission on an individual basis with submission of a portfolio along with the application.
- Be a registered nurse with a national certification as a certified nurse-midwife, a family nurse practitioner, a women's health care nurse practitioner, a pediatric nurse practitioner, an adult nurse practitioner, or a geriatric nurse practitioners and with a current, active, license in the United States with no encumbrances.
- Have a minimum of one year of RN experience.
- Have a grade point average (GPA) of 3.0 from the Master's program.
- Submit official transcripts from all post-high school educational experiences. (FNU graduates are exempt from this requirement)
- Professional references on FNU [-supplied forms](#).
 - FNU graduates who have a time period of two, or more, terms since conferring their MSN to date of DNP application are required to provide two professional references.
 - Applicants new to FNU are required to submit three professional references
- Frontier Nursing University seeks to admit applicants who have the necessary oral and written English language skills for successful graduate level work. Frontier Nursing University offers academic support programs for all students; however there is no university operated support program specifically for students needing assistance with the English language. Applicants whose primary language is not English and/or who have completed their tertiary education (level equivalent to U.S. college or university) in a non-English speaking institution, must take the internet based TOEFL (iBT) and achieve the following minimum scores: Reading 22, Listening 22 Speaking 26 and Writing 24. To be considered official, test scores must be sent directly from the testing agency to the university. Frontier Nursing University's TOEFL code is 5692. Please provide this code to TOEFL when taking the exam to ensure test results are expedited to the University.
 - "Primary language" is defined as an individual's first acquired language and/or the language of educational instruction. The TOEFL requirement may be waived for students whose primary language is not English who present an official transcript of satisfactory academic work

- completed in English at an accredited American college or university, or a college or university in another country where English is the primary language.
 - Additionally, for applicants whose primary language is not English, one of the three required professional letters of recommendation for admission must attest to the applicant's ability to adequately function in English in a professional clinical setting.
- Applicants residing outside the continental United States are required to meet with the appropriate Program Director to develop a plan for completion of the program and for a review of policy related to international clinical sites. This plan must be formally written and approved by the Program Director prior to admission into the university.

Requirements

Statistics is not included as a core course on the DNP program of study but is a course requirement for the degree.

- Applicants having successfully completed an undergraduate upper division level, graduate level, or an Advanced Placement statistics course, approved by the College Board within 10 years of beginning coursework with FNU, are not required to take statistics again after admission to the program. Applicants must submit an official transcript reflecting completion of this course as part of their admissions packet.
- Applicants who have NOT successfully completed an undergraduate upper division level, graduate level or Advanced Placement statistics course within the last 10 years of beginning coursework with FNU will have the course incorporated into their program of study.

All applicants must:

Submit a resume or curriculum vitae

Submit a narrative statement of applicant's goals for a project that will: 1) improve the current health care system, 2) promote quality practice or, 3) make a difference in the delivery of care for rural and underserved populations.** Engage in a personal Interview via the telephone with the Program Director (scheduled if all other criteria have been met)

** Narrative Statement of Goals for a Project

Include with your application materials a brief (several paragraphs) statement about your commitment to being a leader in your field by contributing to the improvement of a health care practice or system. Indicate a particular area of interest that you believe can be improved as a result of your completion of a practice-focused doctoral project. Use this essay as an opportunity to communicate to the admission committee your goals as a nurse-midwife or nurse practitioner for changing healthcare, improving the delivery of care for rural and underserved, improving current practice, and/or the education process. The admission committee will evaluate your essay from the perspective of your writing skills and your vision for a project.

Applicants with questions regarding their qualifications for admission to FNU should contact the FNU Admissions Counselor at: admissionscounselor@frontier.edu.

Each applicant is evaluated individually. The FNU Faculty Admissions Committee makes all admission decisions.

Streamlined Entry to the Post-Master's DNP (PM-DNP) for FNU Graduates who completed the MSN or PGC without the DNP Essentials

All FNU students are encouraged to complete the DNP. Qualified students may begin the PM-DNP coursework in a streamlined fashion immediately after completing the FNU MSN or PGC degree. Streamlined entry into the PM-DNP is only available to students who:

- began the MSN or PGC program at FNU prior to January 2014 (Class 118 and below, Bridge 105 and below)
- began the PGC program at FNU January 2017 or after.

To qualify for streamlined entry into the PM-DNP, students must:

- Complete the FNU MSN or PGC degree prior to beginning the PM-DNP coursework
- FNU graduates who have a time period of one term, or less, from date of DNP application are required to provide one professional reference.

- Enter the PM-DNP within one (1) term after the term in which the MSN or PGC is conferred. If the MSN or PGC is conferred between two terms, the term immediately following the degree conferral will be considered the first term of the allowed stop-out period.
- Pass the certification examination for nurse-midwife or nurse practitioner licensure by the end of the first term of the PM-DNP. If the certification examination for nurse-midwife or nurse practitioner licensure is not obtained by the end of the first term of the PM-DNP, students will be unable to continue in PM-DNP coursework and must take an Academic Hiatus. Students will not be able to resume DNP coursework until licensure is obtained.

Procedures for streamlined entry into the PM-DNP:

- FNU students wishing to streamline entry into the PM-DNP should contact their academic advisor no later than the start of their final term in the MSN or PGC.
- Students will register for the first term of PM-DNP coursework during the registration period of their final MSN or PGC term or during the registration period of their stop-out term.
- Students whose MSN or PGC degree is not officially conferred by the last day of add/drop will have their registration for the PM-DNP canceled and will be required to take the allowable one (1) term stop-out.

FNU students who take a stop-out for more than one (1) term after the term in which the MSN or PGC is conferred must submit an application for Admission to the PM-DNP program.

If a CNEP student chooses to do the WHNP Certificate for CNEP Grads program, the student may choose to begin the PM-DNP coursework in a streamlined fashion simultaneously with the WHNP Certificate coursework. CNEP students wishing to do the WHNP Certificate separate from the PM-DNP may complete the WHNP Certificate during the allowable stop-out period between earning the MSN and beginning streamlined entry to the PM-DNP or after completing the PM-DNP. Students are not allowed to complete any other FNU academic program simultaneously with the PM-DNP.

Admissions Criteria for the Companion DNP (CDNP)

Starting January 1, 2014, Frontier's MSN curriculum was designed to integrate many of the DNP Essentials allowing students completing the MSN to continue seamlessly in the Companion DNP (CDNP) program. The Companion DNP is only available to FNU graduates who completed the MSN program at FNU that included the DNP Essentials, entered after January 1, 2014 (Classes 108, 111, 114, 117, 119 and above) and FNU graduates who completed the PGC program at FNU that included the DNP Essentials, entered between January 1, 2014 and January 1, 2017 (Classes 119 - 154). Applicants to the CDNP who completed the PGC at FNU will have their transcripts evaluated prior to admission to determine appropriate program of study.

Students may begin the Companion DNP coursework immediately after completing the MSN. Alternately, students or take time off between the completion of the MSN and the beginning of the CDNP. The length of time taken between completed the MSN and starting the CDNP will determine the necessary steps for admission into the CDNP program.

- Current FNU MSN students and eligible PGC students may enter the CDNP in a streamlined fashion.
- Recent FNU MSN graduates and eligible PGC graduates who take the allowable one (1) term "stop-out" may enter the CDNP in a streamlined fashion.
- FNU MSN graduates and eligible PGC graduates who take more than a one (1) term "stop-out" will enter the program via an Admissions application.

Streamlined Entry to the Companion DNP (CDNP) for FNU Graduates who completed the MSN or PGC that included the DNP Essentials

Eligible FNU graduates may begin the Companion DNP coursework in a streamlined fashion either immediately after completing the MSN degree or eligible PGC degree or after taking an allowable one (1) term "stop out." If the MSN or PGC is conferred between two terms, the term immediately following the degree conferral will be considered the first term of the allowed stop-out period.

Current FNU students and recent FNU graduates wishing to streamline entry into the Companion DNP should:

- contact their academic advisor no later than the start of their final term in the MSN.
- register for the first term of Companion DNP coursework during the registration period of their final MSN term or during the registration period of their stop out term.
- complete the FNU MSN or PGC degree prior to beginning the PM-DNP coursework.*
- obtain certification and licensure by the end of the first term of the Companion DNP.

*Current FNU students whose MSN or PGC degree is not officially conferred by the last day of add/drop will have their registration for the Companion DNP canceled and will be required to take the allowable one (1) term stop-out. Students who do not obtain certification and licensure by the end of the first term of the Companion DNP will be unable to continue in Companion DNP coursework and must take an Academic Hiatus. Students will not be able to resume DNP coursework until certification is obtained.

Application Entry to the Companion DNP (CDNP) for Eligible FNU MSN & PGC Graduates

FNU graduates eligible for the Companion DNP who take more than the allowable one (1) term “stop-out” after the term in which the MSN or PGC is conferred must submit an application for Admission to the PM-DNP program. This application is not a competitive process. The process is designed to re-start the FNU academic record and determine needs for re-orienting students to academic life at FNU.

Applicants are expected to meet the following criteria for admission to Frontier Nursing University (FNU):

- Be an FNU graduate who followed the MSN or PGC program of study that incorporated the DNP Essentials.
- Be a registered nurse with a national certification as a certified nurse-midwife, a family nurse practitioner, a women’s health care nurse practitioner with a current, active, license in the United States with no encumbrances.
- Submit three professional references on FNU [supplied forms](#).
- Applicants residing outside the continental United States are required to meet with the appropriate Program Director to develop a plan for completion of the program and for a review of policy related to international clinical sites. This plan must be formally written and approved by the Program Director prior to admission into the university.

All applicants must:

- Submit a resume or curriculum vitae
- Submit a narrative statement of applicant’s goals for a project that will: 1) improve the current health care system, 2) promote quality practice or, 3) make a difference in the delivery of care for rural and underserved populations.**

** Narrative Statement of Goals for a Project

Include with your application materials a brief (several paragraphs) statement about your commitment to being a leader in your field by contributing to the improvement of a health care practice or system. Indicate a particular area of interest that you believe can be improved as a result of your completion of a practice-focused doctoral project. Use this essay as an opportunity to communicate to the admission committee your goals as a nurse-midwife or nurse practitioner for changing healthcare, improving the delivery of care for rural and underserved, improving current practice, and/or the education process. The admission committee will evaluate your essay from the perspective of your writing skills and your vision for a project.

Applicants with questions regarding their qualifications for admission to FNU should contact the FNU Admissions Counselor at: admissionscounselor@frontier.edu.

Each applicant is evaluated individually. The FNU Faculty Admissions Committee makes all admission decisions.

Admission Criteria for the MSN

Applicants are expected to meet the following criteria for admission to Frontier Nursing University (FNU):

- Be a registered nurse with educational preparation from a nursing program that is accredited by an accreditation agency approved by the Department of Education to complete institutional accreditation.
- Registered nurses with an associates degree in nursing and a baccalaureate degree or Registered nurses with a baccalaureate or higher degree in nursing will be considered for admission to the MSN Program.
- Registered nurses without a baccalaureate or higher degree in nursing, who have completed a diploma or associate degree nursing program and have a bachelor's degree in another discipline, will be considered for admission to the MSN Program with the additional requirement of a **portfolio** of relevant employment and academic experience.
- Registered nurses who have an Associate Degree in Nursing but no baccalaureate degree in any discipline will be considered for admission via the ADN Bridge Entry Option for the MSN.
- Have a **grade point average (GPA) of 3.0** from the most recent degree (nursing or related field) earned.
- Be a **registered nurse with a current, active, license in the United States with no encumbrances**. If assignment to a clinical practice site requires that the student practice in another state, then the student is required to meet licensing requirements according to statutes and obtain the appropriate license.
- Have **one year of nursing experience**. For RNs with less than one year of RN experience, the Admissions Committee may consider other significant experience in health care including working as a doula, childbirth educator, and/or lactation consultant.
- Submit **three professional references** including at least two from nursing supervisors or CNM/NP/MD/DO colleagues and no more than one from a peer on **FNU [supplied forms](#)**.
- Applicants who have been enrolled in an MSN or DNP in another institution but have not finished their degree are asked to:
 - Include in their application essay information about why they want to leave the current MSN program and enter Frontier.
 - Have one of their three professional references be from the Clinical Director or advisor from their current MSN program.
- Frontier Nursing University seeks to admit applicants who have the necessary oral and written English language skills for successful graduate level work. Frontier Nursing University offers academic support programs for all students; however there is no university operated support program specifically for students needing assistance with the English language. Applicants whose primary language is not English and/or who have completed their tertiary education (level equivalent to U.S. college or university) in a non-English speaking institution, must take the internet based TOEFL (iBT) and achieve the following minimum scores: Reading 22, Listening 22 Speaking 26 and Writing 24. To be considered official, test scores must be sent directly from the testing agency to the university. Frontier Nursing University's TOEFL code is 5692. Please provide this code to TOEFL when taking the exam to ensure test results are expedited to the University.
 - "Primary language" is defined as an individual's first acquired language and/or the language of educational instruction. The TOEFL requirement may be waived for students whose primary language is not English who present an official transcript of satisfactory academic work completed in English at an accredited American college or university, or a college or university in another country where English is the primary language.
 - Additionally, for applicants whose primary language is not English, one of the three required professional letters of recommendation for admission must attest to the applicant's ability to adequately function in English in a professional clinical setting.
- Applicants residing outside the continental United States are required to meet with the appropriate Associate Dean to develop a plan for completion of the program and for a review of policy related to international clinical sites. This plan must be formally written and approved by the Associate Dean prior to admission into the university.

Requirements

Statistics and Physical Assessment are not included as core courses on the programs of study but are course requirements for the degree.

STATISTICS

- Applicants having successfully completed an undergraduate upper division level, graduate level, or an Advanced Placement statistics course, approved by the College Board within 10 years of beginning

coursework with FNU, are not required to take statistics again after admission to the program. Applicants must submit an official transcript reflecting completion of this course as part of their admissions packet.

- Applicants who have NOT successfully completed an undergraduate upper division, graduate level, or Advanced Placement statistics course within the last 10 years of beginning coursework with FNU will have the course incorporated into their program of study.

PHYSICAL ASSESSMENT

- Applicants having successfully completed a three credit undergraduate upper division level or graduate level physical assessment course are not required to take physical assessment again after admission to the program. Content integrated into other courses will NOT meet FNU requirements. A two (2) credit physical assessment course may be considered acceptable upon review of the course description via the course syllabus. Applicants must submit an official transcript reflecting completion of this course as part of their admissions packet.
- Applicants who have NOT successfully completed an undergraduate upper division or graduate level physical assessment course will have the course incorporated into the program of study.

Applicants with questions regarding their qualifications for admission to FNU should contact the FNU Admissions Counselor at: admissionscounselor@frontier.edu.

Each applicant is evaluated individually. The FNU Faculty Admissions Committee makes all admission decisions.

Admission Criteria for the MSN via the ADN Bridge Entry Option

Applicants are expected to meet the following criteria for admission to the MSN at Frontier Nursing University (FNU):

- Be a registered nurse with educational preparation from a nursing program that is accredited by an accreditation agency approved by the Department of Education to complete institutional accreditation.
- Possess an Associates Degree in Nursing
- Registered nurses who have an Associate Degree in Nursing but no baccalaureate degree in any discipline will be considered for admission via the ADN Bridge Entry Option for the MSN.
- Have a **grade point average (GPA) of 3.0** from the most recent degree (nursing or related field) earned.
- Be a registered nurse with a current, active, license in the United States with no encumbrances. If assignment to a clinical practice site requires that the student practice in another state, then the student is required to meet licensing requirements according to statutes and obtain the appropriate license.
- Have one year of nursing experience. For RNs with less than one year of RN experience, the Admissions Committee may consider other significant experience in health care including working as a doula, childbirth educator, and/or lactation consultant.
- Submit three professional references including at least two from nursing supervisors or CNM/NP/MD/DO colleagues and no more than one from a peer on FNU-supplied forms.
- Frontier Nursing University seeks to admit applicants who have the necessary oral and written English language skills for successful graduate level work. Frontier Nursing University offers academic support programs for all students; however there is no university operated support program specifically for students needing assistance with the English language. Applicants whose primary language is not English and/or who have completed their tertiary education (level equivalent to U.S. college or university) in a non-English speaking institution, must take the internet based TOEFL (iBT) and achieve the following minimum scores: Reading 22, Listening 22 Speaking 26 and Writing 24. To be considered official, test scores must be sent directly from the testing agency to the university. Frontier Nursing University's TOEFL code is 5692. Please provide this code to TOEFL when taking the exam to ensure test results are expedited to the University.
 - "Primary language" is defined as an individual's first acquired language and/or the language of educational instruction. The TOEFL requirement may be waived for students whose primary language is not English who present an official transcript of satisfactory academic work completed in English at an accredited American college or university, or a college or university in another country where English is the primary language.

- Additionally, for applicants whose primary language is not English, one of the three required professional letters of recommendation for admission must attest to the applicant's ability to adequately function in English in a professional clinical setting.
- Applicants residing outside the continental United States are required to meet with the appropriate Program Director to develop a plan for completion of the program and for a review of policy related to international clinical sites. Admission Criteria for the Post-Graduate Certificate (PGC)

Applicants are expected to meet the following criteria for admission to Frontier Nursing University (FNU):

- Meet all prerequisite health requirements. Contact the Admissions Counselor with any questions about meeting this requirement.
- Have a master's or higher degree in nursing and certified in one of the APRN roles listed below. The degree must be granted from a nursing program that is accredited by an accreditation agency approved by the U.S. Department of Education:
 - acute care nurse practitioner (ACNP)
 - adult nurse practitioner (ANP)
 - certified nurse-midwife (CNM)
 - family nurse practitioner (FNP)
 - geriatric-adult nurse practitioner (GANP)
 - geriatric nurse practitioner (GNP)
 - neonatal nurse practitioner (NNP)
 - pediatric nurse practitioner (PNP)
 - psychiatric mental health nurse practitioner (PMHNP)
 - women's health care nurse practitioner (WHCNP)
- Have a grade point average (GPA) of 3.0 from the most recent degree (nursing or related field) earned.
- Hold a current, active Registered Nurse license in the United States with no encumbrances. If assignment to a clinical practice site requires that the student practice in another state, then the student is required to meet licensing requirements according to statutes and obtain the appropriate license.
- Submit three professional references including at least two from nursing supervisors or CNM/NP/MD/DO colleagues and no more than one from a peer on FNU-supplied forms.
- Frontier Nursing University seeks to admit applicants who have the necessary oral and written English language skills for successful graduate level work. Frontier Nursing University offers academic support programs for all students; however there is no university operated support program specifically for students needing assistance with the English language. Applicants whose primary language is not English and/or who have completed their tertiary education (level equivalent to U.S. college or university) in a non-English speaking institution, must take the internet based TOEFL (iBT) and achieve the following minimum scores: Reading 22, Listening 22 Speaking 26 and Writing 24. To be considered official, test scores must be sent directly from the testing agency to the university. Frontier Nursing University's TOEFL code is 5692. Please provide this code to TOEFL when taking the exam to ensure test results are expedited to the University.
 - "Primary language" is defined as an individual's first acquired language and/or the language of educational instruction. The TOEFL requirement may be waived for students whose primary language is not English who present an official transcript of satisfactory academic work completed in English at an accredited American college or university, or a college or university in another country where English is the primary language.

- Additionally, for applicants whose primary language is not English, one of the three required professional letters of recommendation for admission must attest to the applicant's ability to adequately function in English in a professional clinical setting.
- Applicants residing outside the continental United States are required to meet with the appropriate Clinical Director to develop a plan for completion of the program and for a review of policy related to international clinical sites. This plan must be formally written and approved by the Clinical Director prior to admission into the university.
- Graduates of other types of nursing master's programs may apply for *transfer credit* but are not eligible for the Post-Graduate Certificate option.

Requirements

Students must have had the content listed in the following courses in their prior MSN program. Prior transcripts will be reviewed. If the student has not completed any of the specified graduate content from the list below, the course(s) will be added to the required program of study for that student. Course descriptions and syllabi may be requested to assist in this evaluation. Course content must cover the lifespan. These courses do not count against the transfer credit limit.

- PC705 Advanced Pathophysiology (3-0)
- PC706 Advanced Physical Assessment (3-0)
- PC707 Advanced Pharmacology (3-0)

Students are responsible for understanding state specific educational requirements for licensure.

Applicants admitted into the Post-Graduate Certificate program can transfer credits according to the Course Transfer Policy and Procedure. The coursework approved as required courses (listed above) does not count toward the maximum allowable transfer credit.

Applicants with questions regarding their qualifications for admission should contact an FNU Admissions Officer at: admissionscounselor@frontier.edu.

Each applicant is evaluated individually. The FNU Faculty Admissions Committee makes all admission decisions.

Admission Criteria for the MSN Completion for CNEP Graduates

- CNEP graduate
- Certification by the American Midwifery Certification Board, the ACNM Certification Council, or the ACNM (See <https://frontier.edu/admissions/statistics-requirements/> for the course requirements)

Enrollment Procedure for the MSN Completion for CNEP Graduates

1. Applicants complete the online [MSN Completion Application Form](#).
2. **Statistics**
 - a. Applicants having successfully completed an undergraduate upper division level, graduate level, or an Advanced Placement statistics course, approved by the College Board within 10 years of beginning coursework with FNU, are not required to take statistics again after admission to the program.
 - b. Applicants who have NOT successfully completed an undergraduate upper division level, graduate level, or Advanced Placement statistics within the last 10 years of beginning coursework with FNU will have the course incorporated into their program of study.
3. FNU transcript is reviewed for individualized program of study.
4. Once the program of study has been finalized, a letter of acceptance and an invoice will be sent.
5. Upon receiving the letter of acceptance and invoice, the applicant will make an appointment with the Student Advisor to complete the [MSN Completion Program of Study](#) and will begin the Banyan Tree 101 (BT101) course.

Admission Criteria for the Women's Health Care Nurse Practitioner Post-Graduate Certificate for CNEP Graduates

- CNEP graduate
- Master's or higher degree in nursing granted from a school that is accredited by an accreditation agency approved by the Department of Education to complete institutional. Applicants with a master's degree in public health from a regionally accredited school will be considered.

Enrollment Procedure for the Women's Health Care Nurse Practitioner Post-Graduate Certificate (PGC) for CNEP Graduates

The CNEP graduate completes the [Application for Women's Health Certificate for CNEP Graduates](#). Once the application for enrollment has been submitted, the applicant will receive details from Admissions outlining the necessary steps for enrollment. Clinical Credentialing will also be notified. The Banyan Tree 101 (BT101) course must be retaken if there has been a new version of Banyan Tree since the student was last enrolled.

Admission Criteria for Non-Matriculating Students

- Health care professional
- Bachelor's degree

Enrollment Procedure for Non-Matriculating Students

1. Applicants complete the [Application for Non-Matriculating Students](#) and send this signed form with tuition and applicable fees (application fee, Banyan Tree 101 (BT101) fee, and technology fee) to the FNU Registrar.
2. Upon receipt of the application, tuition, and fees, the Registrar sends a letter of acceptance that is copied to the Information Technology staff (IT staff). The student may begin the Banyan Tree 101 (BT101) course at this time.
3. Upon completion of the Banyan Tree 101 (BT101) course, the student registers for the course.
4. Courses must be started at the beginning of a term.

<https://docs.google.com/document/d/1cQL9nHUYLXzJCXyFBxHnNkw-sqhNk7hGERBDODgeDXg/edit>

Admissions Cycle

The Admissions Committee considers applicants in an ongoing process after each applicant's file is complete. Classes begin several times each year. A current Admissions Calendar can be found at <http://www.frontier.edu/admissions/admissions-calendar>.

Transcript Evaluation/Verification Process for International Students

Transcript Evaluation/Verification Process for all international students*

1. A detailed, course-by-course foreign transcript evaluation is required even if the foreign coursework has been accepted by a college or university in the United States (U.S.). In all instances, original, official documentation is required—we do not accept scanned, email, or facsimile copies.
2. The transcript evaluation company should be a member of the National Association of Credential Evaluation Services (NACES).

See a list of NACES members of NACE here: www.naces.org

*Frontier Nursing University recommends utilizing World Education Services (WES) (<http://www.wes.org/>).

3. The evaluation should include the following information:
 - date the report was completed;

- name, date of birth and gender;
- a summary of evaluation;
- country of education,
- name of institution,
- type of program,
- dates of attendance,
- title of credential,
- date the credential was awarded,
- the U.S. equivalency of the credential, comments, if any,
- a list of all the courses completed as part of the postsecondary programs described in the evaluation report.
- the list of courses should identify the title, the equivalent U.S. grade, the equivalent U.S. semester credits and the equivalent U.S. level of education for each course, and grade point average (GPA).

Clinical Site Selection

FNU students have a long tradition of identifying their own clinical sites usually in their communities. This process has worked well since 1989. Applicants who have a commitment from a preceptor should provide this information with their application. During the Frontier Bound orientation, we will provide information to students that will assist you in locating preceptors. Bridge students will receive this information during Crossing the Bridge session, just prior to starting their respective MSN programs. The information will include names of preceptors we have used in the past in your area of the country. We will also review the process of credentialing preceptors and clinical sites which is the responsibility of the Clinical Credentialing office but important for students to understand. We highly recommend finding appropriate preceptors early in the program. The process of credentialing sites can take several months and some states require advance notice and approval for students to complete clinical in their states. Once you receive a commitment from a preceptor, you will complete a Clinical Site Credentialing Request form (located on the Banyan Tree Portal, under Student Links) and send it to your RCF for approval. Upon approval the RCF will forward the approval to Clinical Credentialing Coordinator in the Lexington Office. The Clinical Credentialing Coordinator will send the identified preceptor a copy of the preceptor packet that includes the information needed for a preceptor to work with a FNU student. Please note that first degree relatives cannot serve as a student's preceptor.

Suggestions for finding clinical preceptors include:

Nurse-Midwifery Applicants Site Selection

- Use the CNM locator at: <http://www.midwife.org/find.cfm> to find potential clinical sites.
- Contact the American College of Nurse-Midwives (ACNM) at (240) 485-1800 or <http://www.midwife.org> to obtain the name and contact information for the Chairperson of the local ACNM chapter. Attend a chapter meeting and talk with the local CNMs about clinical site opportunities.

Nurse Practitioner Applicants Site Selection

- Use the search resource for NPs at: <http://www.npclinics.com> to find potential clinical sites.
- Contact the state nursing organization and ask for the Chairperson for the regional or statewide nurse practitioner group. Call this person to obtain the names of local NPs.
- Attend the next regional NP meeting and talk with the local NPs about clinical opportunities.

Once an applicant has identified a potential clinical site, send the preceptor a letter of introduction and purpose that is accompanied by the applicant's Curriculum Vitae/resume. Include the FNU website address (www.frontier.edu) in the letter of introduction. The applicant should state her or his commitment to remaining in the home community for the clinical practicum, if that is the case. Follow up the letter with a phone call 1-2 weeks later. It is important to give a potential site a realistic idea of the date the applicant will be entering clinical. Many sites have commitments to other students or practice constraints that make commitment to a date very important. For a guideline, use 12-18 months from Frontier Bound for full-time students and 18-24 months from Frontier Bound for part-time students.

When a potential preceptor has been identified, the applicant should send a completed Clinical Site Credentialing Request form to the RCF. Upon approval of the site the RCF will send the form to FNU credentialing office. A

preceptor packet will be sent to the preceptor. The packet includes information concerning how FNU supports the preceptors, credentials them, and provides them with preceptor training. The sooner the preceptor is identified the better this process works. Please remember that we will have a session at Frontier Bound to discuss this process and address any further questions that you may have.

Course Transfers and Challenges

FNU students are eligible to transfer 12 credits into their program of study from a school that is accredited by an accrediting agency recognized by the U.S. Secretary of Education. Challenge mechanisms are available for many academic courses.

For further information please review the FNU Course Transfer Policy and Procedure, Challenge Policy for Academic Courses.

Computer Skills Proficiency

FNU students are expected to be able to use a computer independently. Students are not expected to be computer experts, but there is a minimum level of computer skill that is necessary to successfully complete education at FNU. Below is a brief overview of expected computing skills.

Basic Computer Skills

- Re-size windows, have multiple windows open and move between them
- Navigate through the computer's file/folder system
- Use the Search or Find File function to find files
- Identify name and version of computer software
- Install new software on the computer
- Use the Help menus
- Distinguish file types (e.g., Identify whether a file is JPG or GIF)
- Create and name a new folder in Windows
-

Internet Skills

- "Surf the web" and identify the address (URL) of the web page being viewed
- Utilize Internet Tools (e.g., clear history or change security settings)
- Send/receive email and attachments

Software and Word Processor Skills

- Create and edit a document using Microsoft Word
- Create and edit a spreadsheet using Microsoft Excel
- Create and view a presentation in Microsoft PowerPoint
- Open and print a document in Adobe Acrobat Reader
- Copy, cut and paste sections of text
- Format text/character size (10pt, 12 pt), font (Times, Arial)
- Use bullets, lists and table functions
- Adjust margins and tabs
- Create headers and footers, paginate and create page breaks
- Zip and unzip documents

Less than Proficient Skills

If students are not proficient in a skills area, FNU requests that they take additional training. Simply put, FNU does not want the computer to be a barrier to a student's education. There are mechanisms available to enhance students' learning experience and avoid wasting their precious time struggling with the computer. [Click here for Computer Learning Resources suggestions.](#)

Technology Requirements

As a distance learning program, FNU relies on technology, which is why it is so important for students to have the right equipment to ensure their success. FNU requires that all students own a laptop, a mobile device, and have a reliable Broadband internet connection. Although it is suggested that students obtain the highest quality products available to them, the following are the minimum technology requirements for the program:

Laptop Hardware Requirements:

Component	The “minimum” requirement is for a student who may already own a laptop.	The “preferred” specification is for the student who is purchasing a new laptop.
Processor	Intel Pentium / Core 2 Duo processor or higher AMD Athlon II / Turion processor or higher	Intel Core i5 or higher AMD Phenom II or higher
Memory	4 GB or more	8 GB or more
Hard Disk	20 GB of free space	Solid State Drive with 20GB of free space
Video Card	1024x768 resolution or higher, 16-bit color depth or higher with connector for stand-alone display	256 MB dedicated to video memory with connector for stand-alone (extended desktop) display
Laptop Display	11-inch or better	15-inch or better
Sound Card	Any type with microphone input and speakers	Any type with microphone input and speakers
Headset	Analog headset with microphone	USB headset with microphone
Webcam	800x600 resolution, 30 frames per second	HD or 720p resolution, 30 frames per second
Mouse & Keyboard	Any type	Any type
Network Hardware	10/100 Mbps Ethernet	10/100/1000 or Gigabit Ethernet
Wireless	802.11g	802.11n / 802.11ac
Operating System**	Windows 7, Mac OS X 10.9 Mavericks or Chrome OS	Windows 10, Mac OS X 10.11 El Capitan, or Chrome OS

Laptop Software Requirements:

- Microsoft Windows 7, 8, 8.1, or 10

- 10.9 (Mavericks)
- OS X Yosemite (10.10)
- OS X El Capitan (10.11)
- Chrome OS 42+ running Intel or ARM processor with 2 GB RAM

Web Browsers that can be utilized:

- Microsoft Internet Explorer 10 or higher
- Mozilla Firefox
- Google Chrome
- Apple Safari

Other Software:

- Microsoft Office 2013 or higher including Excel, Word, PowerPoint, Microsoft Office 2011 for Mac or higher including Excel, Word, PowerPoint
 - Please visit the [Microsoft Store](#) for educational discounted prices.
- Adobe Acrobat Reader
- (http://www.adobe.com/go/EN_US-H-GET-READER)
- Adobe Flash Player
- (http://www.adobe.com/go/EN_US-H-GET-FLASH)
- Windows Media Player 11 or higher
- (<http://www.microsoft.com/windows/windowsmedia/player/11/default.aspx>)
- Apple QuickTime Player for Windows
- (<http://www.apple.com/quicktime/download/>)
- Apple iTunes for Windows
- (<http://www.apple.com/itunes/download/>)
- Please be sure to protect your investment with Antivirus Software!
 - Free Virus and Malware protection options are available:
 - [Sophos Antivirus](#)
 - [Avira Antivirus](#)
 - [MalwareBytes](#)

Internet Connection Requirements:

Broadband Internet connection (DSL or cable modem); upload/download speeds of 1.5Mb down/768Kb up minimum (the faster, the better). Please test your internet speeds by running a speedtest at: [SpeedTest.net](#) to determine if your internet service meets this requirement.

Chromebooks:

The use of Google Chromebooks can be used for most FNU online activities but certain limitations are evident when a course requires submissions in Microsoft Office. If you decide to use a Chromebook for your coursework, please ensure that you have access to Microsoft Office from another machine for specific course assignment requirements.

Password:

The use of a strong password is required at FNU. All new users are issued a strong password during the new account creation process. If you decide to change your password, all passwords are required to be at least 8 characters long, containing at least 1 uppercase, 1 number, and we recommend the use of at least 1 special character.

Mobile Requirement:

Courses at FNU are enhanced with media that can be downloaded to your mobile device. Additionally, both your coursework and clinical rotation will involve using mobile applications. Therefore it is required for students to own a mobile device so that they may take advantage of these offerings. Both Android (version 2.2 or higher) and Apple (iOS 7 or higher) devices are supported. Devices should have a minimum of 16GB of memory.

There are a variety of devices that will satisfy this requirement so you may be wondering which is best. Unfortunately we can't really answer that question since it's a very personal choice, but here are some things to consider:

- Operating System
- Device and Screen Size
- Data plan/phone service

Keep in mind that technology changes very quickly and certain mobile applications provided by FNU may update their minimum device requirements. The technology requirements web page is updated as soon as possible when these requirements change. If your device is no longer supported, you may need to purchase a new device.

Please bring both your laptop and mobile device with you to Frontier Bound. Both will be used in various sessions. You will have a hands-on, small group session with the IT Staff where you can ask technology questions and troubleshoot any problems with the devices.

If you have any further questions or need assistance in determining the appropriate equipment, please contact our [Support Desk](#). We look forward to helping your student experience memorable and rewarding.

What's the difference?

All devices offer internet browsing and handheld computing with third-party applications ("apps."). The iPhone, of course, also offers wireless phone service. With an iPhone, users can access the Internet over the cellular network, but must pay a monthly data fee along with the phone bill. With a standard tablet, users must be connected to a wireless network in order to access the Internet, but there is no monthly fee. The iPad has an option for either.

Which device is best?

Device selections are diverse and will depend on students' individual needs and preferences.

Preparing for Bounds

It is required that students bring a laptop and mobile device to Frontier Bound, to be used in various sessions. Students will have a group session with the IT staff to assist with technology questions and troubleshoot any problems with the devices.

If you have any further questions or need assistance in determining the appropriate equipment please email **support@frontier.edu** or call Support at (859) 899-2525. We look forward to helping make your student experience memorable and rewarding.

Scanning Requirement:

Due to the nature of distance learning it is often necessary for students to submit signed documents, hand-written pages, or a digital copy of a paper certificate. In order to accommodate these needs the University recommends that each student either 1) become proficient in the use of a digital camera (the one in a current iPhone is acceptable) to appropriately digitize paper documents or 2) have ready access to a digital scanner for digitization. A scanner or printer with an integrated scanner may offer a better quality and an easier to implement solution than trying to utilize a camera as a scanner. In either case, the resulting file must be completely legible, submitted as a low to medium resolution JPG file, and typically smaller than 1MB per page.

Banyan Tree 101 (BT101) Requirement Prior to Starting Any Courses

Prior to starting any course, all new students, faculty, and staff must take Banyan Tree 101 (BT101), unless it has been completed within one year or the student has been enrolled in a FNU program within a year. BT101 must be retaken if there has been a new version of the Banyan Tree since the student was actively enrolled. The BT101 course teaches electronic communication skills that are essential to success at FNU.

Applicants Who Are Registered Nurses with a Bachelor's Degree in another Field

Applicants who are registered nurses with a bachelor's degree in another field will be required to submit a portfolio. In addition, their transcripts will be reviewed to determine if they have completed the required prior coursework. After review of the portfolio and the transcripts, the need for additional coursework in undergraduate nursing theories and research will be determined.

Instructions for Portfolio (Non-BSN Applicants Only)

Applicants with a baccalaureate degree in a discipline other than nursing must submit a portfolio detailing their employment and academic experiences. Applicants are expected to provide the information and meet the requirements listed below. It is important to carefully respond in detail to all of the items. Admission depends on a clear description of the applicant's achievements. Applicants who do not meet all performance requirements but whose credentials reveal potential ability for graduate study may be referred to a committee for recommendations pertaining to their acceptance. In some instances, applicants may be required to fulfill prerequisites designated by the committee.

When assembling your portfolio the following information should be included in a notebook or folder.

1. Curriculum Vitae including:

- Formal education, degree(s) obtained and major, school attended, dates.
- All nursing and other positions held
- Any relevant CE programs/courses taken.
- Any published professional articles (in journals, hospital/agency publications, school newspapers, etc.).
- Presentations before staff, patient/family and other groups including educational seminars presented to peers as part of job responsibilities (date, title, location).
- Honors/awards received.
- Membership in professional and other organizations—offices held, dates of membership.
- Community service: name of organization, description of activities.

2. A formal paper divided into six sections.

This paper is an essential aspect of the admission process and will be carefully evaluated in order to make a decision on your direct entry into the MSN program. Follow the guidelines carefully, speaking to all items. The paper will be evaluated on content, clarity of presentation, grammar, punctuation, etc.

Section 1. Description of the theoretical basis of your practice

This description may be eclectic drawing on knowledge from behavioral, biologic and other theories, including one of a nurse theorist.

- Give two examples of application in practice.

Section 2. Description of teaching and counseling aspects of your practice

- Give three principles of teaching and describe how these have been applied using three examples of patient, family, or group teaching activities.
- Give three principles of counseling and describe how they have been applied in your work with patients/clinics or staff, or groups. Give at least three examples.

Section 3. Description of collaborative activities, with all members of the health team

- Define collaboration.
- Describe how collaboration is applied in your practice using three examples.

Section 4. Description of leadership and change

- Define and describe leadership.
- Give three examples of how you have functioned as a leader in your position (you do not need to have had a "formal" leadership position, a staff nurse can be a leader).
- Describe inhibitors and facilitators of change. Describe how you have participated in change giving two examples.

Section 5. Description of research knowledge/activities

- Describe content related to research that you have had in your nursing program and in your other collegiate programs. This can include courses in research or content related to reading and evaluating research that was incorporated into the courses such as sociology, biology, etc. Identify courses and content specifically.
- Describe how you incorporate research findings into your practice. Give one example.
- Describe any clinical research activities in which you have participated or which you have facilitated.

Section 6. Personal philosophy of nursing

- Describe your personal philosophy of nursing.
- Include an analysis of how nursing and general education in the baccalaureate or higher degree program has influenced this philosophy.

Academic and General School Policies

Academic Evaluation Methods

A variety of evaluation measures are used in the didactic courses, including graded assignments, examinations, and class participation. The evaluation measures for the Clinical Bound courses will also include demonstration of skills. Daily and monthly developmental assessment tools (DDATs and MDATs) will be used during the Clinical Practicum. Clinical progress will be evaluated through a collaborative effort among the student, preceptor, and Regional Clinical Faculty. A grade of A or B (equivalent of at least 80%) must be achieved in all courses.

Academic Freedom Policy

Frontier Nursing University is a private, non-profit, non-residential community-based, distance education graduate school offering a Master of Science in Nursing Degree, a Doctor of Nursing Practice degree and post-graduate certificates in advanced practice specialties. The mission is to provide a high quality education that prepares nurses to become competent, entrepreneurial, ethical and compassionate nurse-midwives and nurse practitioners who will provide primary care to women and families residing in all areas with a focus on rural and medically underserved populations. This mission is optimally accomplished in an atmosphere of free inquiry and discussion, referred to as academic freedom. FNU honors the following statements related to academic freedom.

There are three aspects of academic freedom and three aspects of academic responsibility. As a learned person each faculty member recognizes that people will judge the profession and FNU by what is stated in a teaching situation and in public.

As scholars, faculty members are entitled to full freedom to study, discuss, investigate, conduct research and publish in their areas and as appropriate to their respective roles and responsibilities. They are responsible for developing and improving their scholarly competence, practicing intellectual honesty, and seeking and stating the truth as they see it. Respect for the scholarly endeavors of other faculty and students, including their right to express their opinions, is necessary for all to have academic freedom.

As teachers, faculty members are entitled to freedom in discussing their subject but care should be taken in teaching controversial matter that has no relation to the subject. Faculty should present in their courses that which is described in the catalog and is approved by the faculty in their collective responsibility for the curriculum.

As a member of a profession, they are responsible for teaching the content that the profession deems necessary for the development of new professionals.

As citizens, faculty members have the right to express their opinions without institutional censorship or discipline. Faculty members should remember that as learned members of their community, the community may judge their profession and their institution by their opinions. They should make sure their statements are accurate and that they speak as private citizens and not for Frontier Nursing University.

Academic Hiatus Policy

FNU encourages continuous enrollment and progression towards program completion. However, FNU recognizes some circumstances may force students to interrupt their studies temporarily. Students may petition the university to take a one term academic hiatus (AH); but are limited to a total of two terms AH every 365 days. Students wishing to take an AH in back-to-back terms must submit the petition request prior to each individual term (i.e. a single petition request form cannot be approved for both term). Students should explore all possible options (such as taking a lower credit load) prior to deciding on an AH.

Planned leaves that are requested before the start of the term are considered non-emergency hiatus. Leaves requested after the beginning of the term may be granted for documented emergency situations which preclude the ability to effectively attend school (see **Emergency Academic Hiatus**).

Academic Hiatus (Non-emergency)

It is strongly recommended that a planned Academic Hiatus be requested *before* the beginning of the term for which the AH is being requested. The deadline to request an Academic Hiatus (Non-Emergency) is the last day of the add/drop period for the affected term. Students should reference the **Tuition & Fees** section of the catalog before requesting an Academic Hiatus on or after the first day of the term.

Requesting an Academic Hiatus (Non-emergency)

1. The student must first discuss their request for an AH with their assigned Professional Advisor. In certain situations, the student may also be advised to speak with the Associate Dean (MSN and PGC students) or Program Director (PM-DNP students) prior to deciding on an AH.
 - a. Students wishing to take an AH in back-to-back terms (i.e. two AH in a row) must consult with the Associate Dean prior to deciding on an AH.
2. The student must also discuss their request for an AH with their assigned Financial Aid Counselor to discuss the effects an AH will have on their financial aid.
 - a. The student will be withdrawn from the Financial Aid Program during the Academic Hiatus time period. The grace period for student loan repayment begins upon the last date of academic engagement (i.e. the last date of the term prior to the AH). All students must discuss with Financial Aid Office the implications of the AH on their loan repayment schedule. The student will complete the Status Change process per instructions in Self-Service.
3. The student will complete the Status Change process per instructions in Self-Service.
4. If a student does not enroll for a term and does not fill out a petition for an AH via the Status Change process in Self-Service prior to the last day of the add/drop period, the student will be officially withdrawn from FNU and must reapply and be readmitted to FNU.
5. If the AH is approved, the Associate Dean will notify the student and all impacted parties at FNU, including but not limited to the Professional Advisor, Faculty Mentor, Regional Clinical Faculty, Registrar, Financial Aid Director and the Accounting Department.

Emergency Academic Hiatus (EAH)

FNU recognizes that in rare cases, students encounter emergencies that require an academic hiatus after a term begins. Leaves that start after the beginning of the term may be granted for emergencies of a serious or compelling nature such as an accident, traumatic event, sudden illness, death in the student's immediate family, pregnancy complications, or the early birth of a child which would preclude the ability to effectively attend school. Other unusual or very special cases will be considered on their merit by the Administrative Team Student Review Committee at the request of the student's Associate Dean (MSN and PGC students) or Program Director (PM-DNP students). All "serious and compelling" situations require the appropriate documentation. Documentation may include: verification of accident or illness (such as a letter from the treating provider or copies of medical bills), a letter from a licensed counselor, death certificate, or other appropriate documentation.

Students approved for an Emergency Academic Hiatus after the beginning of a term and on/before the last day of a term, will be withdrawn from all courses for the term. Students interested in requesting an EAH but who qualify for an I or IP grade (see **Incomplete Grading Policy**) should consult with the Associate Dean (MSN and PGC students) or Program Director (PM-DNP students) to determine if the best option is an EAH or petitioning for the I or IP grade. An Emergency Academic Hiatus counts as one of the two allowable academic hiatus' in a 365 day period. Students who do not have a reasonable expectation to return to their studies within this timeframe will be counseled to withdraw from the institution (see **Withdraw from FNU**).

Requesting an Emergency Academic Hiatus

1. The student must first discuss their request for an EAH with the Associate Dean or Program Director.
 - a. It is recommended that the student ensure all contact information is current in Self Service in the event that FNU must contact the student during the request process or during the EAH.

2. The student must also contact the Financial Aid Director to discuss the effects an EAH will have on their financial aid. The student should also contact the Bursar to learn how/if the EAH will impact their tuition and billing.
3. The student must send a letter, along with the appropriate documentation of the “serious and compelling” situation, to the Associate Dean explaining the EAH request. The letter should include a statement that he/she has met with Financial Aid and the Bursar and understands the financial implications of the EAH.
4. The Associate Dean or Program Director will take the request to FNU Administrative Team Student Review Committee for review and decision.
5. The Associate Dean or Program Director will notify the student of the decision immediately after review.
6. The student must complete the Status Change process per instructions in Self-Service immediately. If the AH is approved, the Associate Dean or Program Director will notify the student and all impacted parties at FNU, including but not limited to the Professional Advisor, Faculty Mentor, Regional Clinical Faculty, Registrar, Financial Aid Director and the Accounting Department.

If an emergency AH was granted for sudden illness or pregnancy (childbirth or complications from) the student must submit medical clearance documentation to the Associate Dean or Program Director from a licensed healthcare provider. The release shall identify the date the student may return to school (didactic or clinical) along with any restrictions.

While on Academic Hiatus (non-Emergency) and Emergency Academic Hiatus

It is recommended students on AH stay in touch with classmates, their Professional Advisor, and their Associate Dean. Students continue to have access to the Banyan Tree Portal, FNU email, and the support of all of the FNU community while on AH.

While on AH, students may not do any coursework, submit any assignments or take any examinations. Students are strongly encouraged to not begin an AH with an incomplete grade in any of their courses. In the event this is unavoidable, the student must meet with the Course Coordinator upon return from the AH to discuss the course in which they have an incomplete grade. If the course has been significantly revised, the Course Coordinator may require the student to start the course over with the new course content, readings, assignments, and exams. It is the student’s responsibility to notify her/his Regional Clinical Faculty and preceptor of the AH.

Financial Aid Responsibilities Related to an Academic Hiatus (non-Emergency) and Emergency Academic Hiatus

If a student holds or has held a federal Stafford or Grad PLUS loan they will be withdrawn from the student loan program and will not be eligible for loan disbursements during their AH. A federal withdrawal calculation will be completed and may result in FNU and the student refunding unearned funds to the Direct Loan Program. Please see the Tuition Policies Related to Academic Hiatus in the Tuition and Fees section of this Catalog for complete details about how tuition and financial aid are affected by an AH. Students who have been withdrawn from the Federal Financial Aid Program will enter their grace period. In the event a student enters loan repayment during AH and isn’t financially prepared to make payments they must contact their lender to discuss their options. To view a Financial Aid Question/Answer section on AH and how it affects a student’s financial aid visit the Financial Aid FAQ.

Return from an AH

- The student must submit the Status Change form in Self-Service to request their return from AH no later than the last day of the add/drop period. Students returning from AH will not be eligible to enroll in courses until the return from AH Status Change form has been processed. Therefore, students are strongly encouraged to submit this form prior to the start of the term.
- If an emergency AH was granted for sudden illness or pregnancy (childbirth or complications from) the student must submit medical clearance documentation to the Associate Dean or Program Director from a licensed healthcare provider. The release shall identify the date the student may return to school (didactic or clinical) along with any restrictions.
- The student must consult with his/her professional advisor to review and approve the revised Program of Study.

- If a student does not enroll for a term and does not fill out a petition for an AH via the Status Change process in Self-Service prior to the last day of the add/drop period, the student will be officially withdrawn from FNU and must reapply and be readmitted to FNU.

Other Student Responsibilities Related to an AH

Because students are not eligible to do any coursework, submit assignments or take examinations while on AH, students are strongly encouraged to not begin an AH with an incomplete grade in any of their courses. In the event that this is unavoidable, the student must meet with the Course Coordinator upon return from the AH to discuss the course in which they have an incomplete grade. If the course has been significantly revised, the Course Coordinator may require the student to start the course over with the new course content, readings, assignments, and exams. It is the student's responsibility to notify her/his Regional Clinical Faculty and preceptor of the AH.

If a student holds or has held a federal Stafford or Grad PLUS loan they will be withdrawn from the student loan program and will not be eligible for loan disbursements during their AH. A federal withdrawal calculation will be completed and may result in FNU and the student refunding unearned funds to the Direct Loan Program. Please see the **Tuition Policies Related to Academic Hiatus** in the Tuition and Fees section of this Catalog for complete details about how tuition and financial aid are affected by an AH. Students who have been withdrawn from the Federal Financial Aid Program will enter their grace period. In the event a student enters loan repayment during AH and isn't financially prepared to make payments they must contact their lender to discuss their options. To view a Financial Aid Question/Answer section on AH and how it affects a student's financial aid visit the [Financial Aid FAQ](#).

Accommodations for Military Service

Students who have military service responsibilities (active duty or reserves) shall notify the appropriate Associate Dean/Program Director upon admission. In the event there is a change in duty status (for example a reservist being called up for active duty) that interrupts coursework the student will communicate with the Course Coordinator and the appropriate Associate Dean/Program Director to formulate an action plan. Documentation of change in military status and projected timeframe may be requested. Consideration for active duty and completion of clinical hours will be evaluated on a case-by-case basis. FNU supports military service and will make every effort and reasonable allowance to allow students to complete their program successfully.

Americans with Disabilities Act (ADA) and Section 504 Policy

It is the policy of FNU that no otherwise qualified individual with a disability shall, solely by reason of his/her disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. FNU does not discriminate in admission to, access to, or participation in its programs or activities. FNU's policies and practices will not discriminate against students with disabilities, and will make accessible to qualified individuals with disabilities its facilities, programs and activities.

- As used in this policy and the implementing administrative guidelines, "an individual with a disability" means a person who has, had a record of, or is regarded as having a physical or mental impairment that substantially limits one or more major life activities.
- An impairment that is episodic in nature or in remission may be considered a disability if it would substantially limit a major life activity when active.
- The determination of whether an impairment substantially interferes with a major life activity must be made without regard to the ameliorative effects of mitigating measures such as medication, medical supplies, equipment or appliances, low vision devices (not including ordinary eyeglasses or contact lenses), prosthetics (including limbs and devices), hearing aids and cochlear implants or other implantable hearing devices, mobility devices, oxygen therapy equipment or supplies, assistive technology, reasonable accommodations or auxiliary aids or services or learned behavior or adaptive neurological modifications.

Identification of Disability and Request for Accommodation

A student has no obligation to inform FNU that he/she has a disability; however, if a student requests that an accommodation be provided, the student must identify himself or herself as having a disability. The disclosure of a disability is voluntary.

Every student who is identifying a disability and seeking a reasonable accommodation must provide documentation that he/she has a disability i.e. that is an impairment that substantially limits a major life activity, and supports the need for a reasonable accommodation. The documentation must identify how a student's ability to function is limited as a result of his/her disability. The primary purpose of the documentation is to establish a disability in order to help FNU work interactively with the student to identify appropriate services and/or accommodations. The focus is on whether the information adequately documents the existence of a current disability and the need for reasonable accommodation. Documentation may also be requested to determine if a device or practice used by the student reduces or eliminates the effects of the student's impairment.

The student may be asked to provide documentation from an appropriate healthcare provider or qualified specialist including specific information which documents and supports the existence or diagnosis of the impairment, as well as specific information about the accommodations which may be needed. The documentation must indicate that the impairment substantially limits a major life activity. Students submitting documentation that is more than five (5) years old or is deemed insufficient in meeting the necessary requirements listed above will be asked to submit a current or more specific FNU documentation form.

The documentation regarding the impairment and the accommodation that is being requested must be provided in writing to the ADA/504 Coordinator. A form, [Documentation of Disability](#), is available for use in this regard.

Procedures

Upon receipt of a request for a reasonable accommodation and the necessary documentation FNU will engage in an interactive process with the student to determine the existence of a disability and if necessary the reasonable accommodation which will allow the student to participate in FNU's programs. FNU is not required to provide accommodations that will alter or waive essential academic requirements or that will fundamentally alter the nature of a service, program or activity. Upon conclusion of the interactive process, the determination of whether there is a disability which affects a major life activity and/or the reasonable accommodation shall be documented.

Confidentiality

All records pertaining to a student or employee's disability including the request for accommodation and documentation of a disability, evaluation and diagnosis shall be kept confidential. The information will be shared only with those faculty members and others who are required to have access to this information. Any accommodations that are required for examinations will be shared with external testing servicing provider used by FNU.

ADA/504 Coordinator

FNU's ADA/504 Coordinator is:

Abby McCarthy
Director of Student Retention and Records
Phone: (859) 899-2542
abby.mccarthy@frontier.edu

Assignment of Credit Hours

Frontier Nursing University has sound policies and procedures that conform to federal and state regulations and commonly accepted practices for distance education in higher education for defining a credit hour and determining the amount of credit awarded for courses and programs.

The definition of a credit hour is relevant to the preparation of curricula at Frontier Nursing University. Goals of establishing credit hour equivalency include: (1) enabling students to meet program objectives and graduate in a timely manner by ensuring that student workload is sufficient, but not excessive, for the credit hours assigned and (2) allowing faculty to design and deliver courses requiring an appropriate amount of faculty and student time.

Although Frontier Nursing University operates on the basis of four terms per year, the decision was made to use semester credits, rather than quarter credits, as a basis for credit calculation. The reason for this is that semester credits are the most commonly used measure of student engagement across U.S. institutions of higher education. Earned semester credits are more easily interpreted than quarter credits if, for example, a Frontier Nursing University graduate applies to a doctoral or other program at another institution.

The number of semester credit hours is proportional to student workload of activities designed to learn and master knowledge, skills, and abilities to meet course and program objectives. Examples of learning and evaluation activities include, but are not limited to: attending synchronous, web-based, faculty-facilitated sessions; interacting with faculty and other students in online forums, completing readings, study guides, formal writing assignments, reflection assignments and other structured learning activities, watching instructional videos created by faculty or outside experts; taking ungraded and graded quizzes and examinations; completing clinical hours and clinical skill competencies, and other out-of-class work associated with a course. Student variables such as capability, motivation, and background will have a strong impact on the amount of time required by an individual student to complete assigned work. Therefore, the guidelines in this policy should be considered to be principles that are not to be interpreted as strict rules.

For didactic coursework, one credit hour should equate to approximately 60 hours of total work to complete the course. This is based on a traditional formula for semester credits of one hour of class time and three hours of study time for each credit every week, for 15 weeks. Therefore, a three-hour course should take a student approximately 180 hours to complete. This guideline is not intended to require that student workload be measured; rather, it is a guideline that is applied when determining the number of credit hours to be assigned to a course.

For clinical coursework, one credit hour should equate to a minimum of 45 hours of clock time in clinical activities to complete the course. Therefore, the required 15 hours for the Clinical Practicum should require a minimum of 675 hours of clinical hours to complete. In the clinical area, students are expected to record total hours. They must meet the required minimum number of hours, the required minimum clinical experiences, and established clinical competencies to complete the clinical courses.

The following table outlines the approximate number of hours of study per week correlated to credits per term. The total hours for the number of credits are divided by 11 weeks.

Study Hours per Week		
Credits	Didactic (credits x 60 hours/11 weeks)	Clinical (credits x 45 hours/11 weeks)
2	11	8
3	17	12
4	22	16
5	28	20
6	33	25
7	39	29
8	44	33
9	50	37

10	55	41
----	----	----

The intent of this policy is to ensure that student workload for a given number of credit hours is appropriate for the credit hours assigned. However, it must be recognized that a uniform workload across all curricula for identical numbers of credit hours is not possible. By the nature of the curricula involved and the national expectations of advanced practice nursing education, and the skills and experience of the student, two courses with the same number of credit hours can be significantly easier or more difficult for a particular student. With these exceptions in mind, the definition of a credit hour carries with it significant flexibility while ensuring that a student's overall course Load will be commensurate with the number of credit hours being taken.

Breast Pump Availability

A Medela Symphony electric breast pump is available for students' use. The student is responsible for the accessory kit (cups, tubing, bottles). Contact the Hyden Academic Resource Coordinator at (606) 672-2312 to arrange for its use.

Breastfeeding Infants on Campus

Students may be able to bring their breastfeeding infants that are 18 months of age or less to campus when accompanied by an appropriate care provider and based on available space. The student must obtain permission from the Hyden Campus Manager prior to the scheduled on-campus event. If housing is not available on campus, rooms may be available at Wendover, the historic home of Mary Breckinridge. FNU does not provide transportation from campus to Wendover. Additional fees will apply.

1. The care provider, infant and student will be assigned housing at FNU if available on a first come, first serve basis.
2. Only breastfeeding infants and one care provider per breastfeeding infant may accompany the student.
3. If no housing is available on-site, a room on campus will be available for care providers and breastfeeding infants for use during class hours.
4. The infant may not be taken into the classroom during class hours. If the infant needs to nurse during class hours, the student must return to the assigned room or the assigned outside areas for that purpose.
5. The student will be responsible for obtaining any class information that is missed.
6. During meals, the infant and care provider can access the Haggin dining room and living room. The care provider cannot visit other buildings while on campus.
7. Please see the **Tuition and Fees** section of the Catalog for current fees for accommodations and meals for the care providers.
8. Space is limited, therefore only one room/apartment can be provided for the Mother, baby and care provider. We only have twin size beds on campus, however both mother and care provider will have separate twin beds.
9. We do not have cribs/baby beds on campus. We suggest that you bring a portable crib for the breastfeeding infant.

Case Days

Case Management Days are seminars organized by the Regional Clinical Faculty. They provide opportunities for group learning and networking within the region. Students doing their clinical practicum present cases to facilitate group discussion of management options and to promote the pathways of critical thinking. All FNU students, preceptors, other FNU faculty, students from other schools, and anyone interested are invited to attend. A student may participate in a Case Day in any community in which it is being held.

Challenge Policy for Academic Courses

Challenge mechanisms are available for many academic courses at the discretion of the student's Associate Dean. Students must have had similar content in a prior academic graduate program. Courses that are challenged require tuition payment equal to that of taking the entire course. Intent to challenge a course must be

declared at the time of enrollment in FNU and will be included as a part of the student's program of study. Students may challenge a maximum of six (6) credits total.

The challenge option includes an assessment of theory and content contained within the most currently revised didactic course. This may include examinations and/or other required assignments as defined by the Course Coordinator responsible for that content area. The Course Coordinator and student will identify an agreed upon deadline to have all challenge coursework completed and graded.

Students should review the course syllabus being challenged to guide their study prior to the challenge examinations. FNU course syllabi can be found on the FNU portal. A passing score of 80% on the challenge enables the student to receive a passing grade and credit for a didactic course. A score of less than 80% on the challenge will result in a failing grade and requires the student to take the course during the standard term at the regular rate of tuition and submit all required graded assignments and examinations in the second attempt.

THE FOLLOWING COURSES ARE AVAILABLE FOR CHALLENGE:

- PC700 Communication and Introduction to Scholarly Writing
- PC701 Principles of Health Promotion
- PC702 Epidemiology and Biostatistics
- PC705 Advanced Pathophysiology
- PC706 Advanced Physical Assessment, Clinical Reasoning and Documentation
- PC707 Advanced Pharmacology Across the Lifespan
- PC711 Nurse as Educator
- PC718 Evidence Based Practice
- PC728 Leadership and Organizational Dynamics
- PC729 Health Policy and Advocacy
- N404 Statistics
- NM700 Role of the Nurse-Midwife
- NM701 Women's Health
- NM703 Primary Care of Women
- NP700 Role of the Nurse Practitioner
- NP703 Women's Health and Childbearing
- NP704 Primary Care Pediatrics

PROCEDURE

1. The student should first consult with his or her Academic Advisor who can assist with determining the student's potential eligibility and need for course challenge.
2. The student may then submit the official request for course challenge to the Associate Dean or Program Director. If the student is deemed to have adequate prior knowledge of the courses content and is approved for course challenge, the Associate Dean or Program Director will consult with the Course Coordinator to determine the challenge plan.
3. Once the challenge plan is determined, the Associate Dean or Program Director will inform the student, Course Coordinator, Registrar, and Bursar of the course challenge approval.
4. The course challenge plan will be coordinated between the student and the Course Coordinator and will include a timeline for submission of requirements.
5. The student will contact the FNU Bursar to remit payment for the challenge.
6. Once payment is received, the Registrar will add the course to the student's transcript and the Associate Dean or Program Director will coordinate access to the course.
7. Once the student completes the course challenge requirements and the course grade will be submitted by the Course Coordinator to the Registrar.
8. If the course challenge is not successful, the Associate Dean and Academic Advisor will coordinate procedures for retaking the course in the Program of Study.

Commencement Ceremony Participation

FNU celebrates graduates at an annual Commencement ceremony. The event takes place in Kentucky during the fall and any student whose degree was officially conferred since the previous year's Commencement is invited to participate. See the Graduation Requirements section of this catalog for more details on requirements for degree conferral.

Graduates attending Commencement are encouraged to invite family and friends to join the celebration. Students earning multiple degrees from FNU may choose to participate in the Commencement ceremony after each degree or wait and participate once after all degrees are earned.

Communications Policy

Communication in FNU is a vital part of our relationships with each other and with FNU as a whole. Students must conduct themselves in a professional manner in both written and verbal communication. Professional communication is the responsibility of the student. By choosing to disregard the communication expectations listed here, the student risks being placed on a Performance Plan for communication issues. Dismissal from FNU for infractions of the Communication Policy may result if unprofessional behaviors continue.

To meet the expectations for professional communication, students are required to:

- Display courtesy to faculty and staff regarding their office hours. Messages may be left on voicemail during "off" hours, but must show regard and awareness of the different time zones.
- Communicate with faculty, staff and other students in a respectful way even when problems may exist.
- Utilize proper channels when approaching a problem. If a problem arises, students must discuss the issues with the involved faculty member first.
- Take responsibility for communication errors when they occur without making excuses.
- Respond to any faculty or staff email or phone contact within three (3) business days.
- Meet with faculty or staff within three (3) days of the faculty or staff's request for a meeting with a student.
- Communicate at least once per term at the mid-term with the Student Advisor by either phone or email to update the Student Advisor on course progress and plan registration for the following term.
- Abide by all communication policies stated in specific courses or as listed in the course forums in Canvas.
- Submit name, address, and phone number changes within 14 days using the form in the FNU Directory
- Use the Banyan Tree, and FNU email for all official correspondence with FNU and between FNU members. Outside vendors (e.g., Hotmail, EarthLink, etc.) may not be used. Communications using non-Banyan Tree services cannot be verified by FNU, will not be considered official, and may be discarded.
- Abide by electronic communications etiquette, using appropriate language. Please refer to the Banyan Tree 101 (BT101) course for electronic communications etiquette.
- Check the Banyan Tree for email and forum messages at least twice each week while enrolled in FNU.
- Use the out of office setting when they will be unable to answer Banyan Tree email for more than 72 hours.

Email Signature

All Frontier students are required to use the following template for email signatures on their frontier.edu email accounts. This includes all emails sent from the frontier.edu email, regardless of its origination (PC, smartphone, mobile device, tablet, etc.):

[Your full name], [Your degrees]

[Your frontier email address]

[Your program, class #]

Frontier Nursing University

[Phone with area code]

[state of residence] [time zone]

Academic Advisor: [Academic Advisor's name]

RCF: [RCF's name]

Projected Clinical Bound date: [Term, Year]

Example:

Sally Smith, BSN, RN

Sally.Smith@frontier.edu

CNEP Class 1

Frontier Nursing University

(606) 672-2312

State of Residence: KY (EST)

Professional Advisor: Jane Doe

RCF: Dane Joe*

Projected Clinical Bound date: Spring 2013*

**For PM-DNP students, omit the RCF name and Projected Clinical Bound date.*

Please refer to the Banyan Tree 101 (BT101) course for details on creating an email signature on your PC. Students may need to consult a user's manual for creating an email signature on other devices (smartphones, tablets, mobile devices, etc.). Should you include any additional information or content, it must appear after the signature and be of a professional nature. Consider that the entire signature will be included in all correspondence sent via email.

Areas of the Banyan Tree that must be checked at least twice each week are:

- Email.
- FNU Portal page for important announcements.
- Course Forums in Canvas (for currently enrolled courses).

Social Media

Expectations for professional communication extend to social media sites such as Facebook, Twitter, Flickr, blogs, message boards, etc. Online social media sites provide a great way for students to connect, collaborate, and communicate, and FNU supports this interaction. FNU encourages students to use these technologies wisely by following these guidelines:

- Be aware that these sites are very public. Before posting something, ask yourself if you would want your friends, family, instructors, patients, or potential employers to see it.
- Be safe online. Do not share personal information or passwords. Use privacy settings to protect your information.
- Be careful about what you say. Do not post something illegal, libelous, or potentially harmful.
- Follow copyright guidelines when posting work that is not your own. Give attribution (when paraphrasing or using short quotations) or verify that you have permission to use the work (when using a work in its entirety).
- Note that images and pictures may also be protected under copyright laws. Verify that you have permission to use an image or that it is covered under a Creative Commons license. If posting images that include other people, seek their permission first.
- Adhere to the requirements already stated in the Communications Policy regarding respectful communication.

As health care professionals, students also have a duty to respect their role as care-givers and to protect patients' privacy and the reputation of FNU. Students may NOT:

- Post any information or images relating to patient encounters on social media sites.
- Post content including assignments and examinations from FNU courses.
- Represent themselves as another person.
- Post pictures or descriptions that demonstrate participation of students, faculty, or staff engaging in behavior that could impact their professional reputation.

If you have questions relating to online conduct, please contact the Director of Recruitment and Retention.

The Final Comprehensive Review Course

The Final Comprehensive Review course provides a review of the student's educational experience and assesses student preparedness for board certifying exams. The course consists of content review and exams which are taken with the FNU remote proctor software.

If a student has previously been approved for paper exams, please refer to the **Examination Security Policy and Procedure for Paper Based Proctored Exams**, outlined in the catalog.

It is recommended that the Final Comprehensive Review course is taken during the term in which the student is registered for his/her final clinical course. The grade for the Final Comprehensive Review course will be reported to the Registrar and to the student within one calendar week of course completion. If a student does not achieve a passing grade in the Final Comprehensive Review Course, the student will be placed on a performance plan and will be required to retake the course the following term. The degree will not be conferred until a student has completed the Final Comprehensive Review course.

Continuous Registration Policy

Students must be either registered for courses or on an official academic hiatus every term until their degrees are awarded. Students are not registered during the current term for courses in which they took a grade of incomplete during the preceding term, thus finishing an incomplete course but not registering for any new courses does not meet the requirement for continuous registration. Failure to register for courses or be on an official academic hiatus for any term (Winter, Spring, Summer, Fall) constitutes withdrawal from FNU. Responsibility to maintain registration rests with the student.

Copying

A copier is provided for students' use when in residence on campus. The charge is \$.05 per page. Fees should be paid to the secretary prior to leaving FNU. As an educational institution, FNU must follow copyright law to the letter. If students have any questions regarding copyright, they should contact the FNU Librarian.

Course Registration Policy and Procedure

The registration period for the following term will occur during weeks seven and eight of the current term. All students must meet the following conditions before online registration can be completed:

1. The student must communicate with their Advisor. After this communication occurs, the Advisor will mark the student as eligible to register for the upcoming term.
2. The student must register within the dates of the open registration period. These occur during weeks seven and eight of each term and are announced on the web portal page. The student must have a Self-Service account in order to register <http://selfservice.frontier.edu/> (Students need to sign up only once for their entire academic career).
3. Students must follow their program of study unless prior approval has been obtained from the appropriate Associate Dean (during the didactic period) or Clinical Director (during clinical).
4. Maximum didactic course load for any student is 9 credit hours AND maximum 3 courses. The maximum clinical course load for any student is 13 hours. Anything exceeding these criteria must be approved by the appropriate Associate Dean or Clinical Director.

Only when all conditions have been met will you be able to register online.

Procedure for Online Registration:

Go to the portal page and on the left side is a button that says Self Service. Click on that button.

1. Enter your Frontier username/password and hit the login button.
2. Click on the Register Tab.
3. Click on Traditional Courses.

4. Click on the registration period.
5. When you first enter, your course cart will be empty. Click on "Section Search" to add a course.
6. Enter a course code (without any spaces) in the course code box and click search.
7. Click on ADD to add the course to your course cart.
8. A popup will appear. If you need to enter more courses click on view cart, otherwise you can click on Proceed to Registration.
9. Review your course cart. If you would like to add another course, click "Add Section". If you would like to remove a specific course you can click on "Remove" and if you are finished you can click on the "Register" button to proceed to registration.
10. When you have proceeded to registration you have one last chance to look at all of the courses in your course cart. If everything is properly accounted for, click on the Next button.
11. If you have not encountered any errors, you only need to click on the "Finished" button and you will be enrolled in your courses for the upcoming term.

If you encounter an error message during the finalization process, please contact Technical Support by emailing Support@frontier.edu.

Students who register after the registration period ends will be charged a Late Registration Fee.

Access to Courses

Students have access to all course syllabi. Students may not be actively working in a course unless they are registered for that course. Students must be aware that courses may change from term to term including content, books, and required assignments. Faculty will post the final version of each syllabus two weeks prior to the start of the next term. Students are encouraged to review the course syllabus prior to the start date. Books should be ordered to ensure receipt prior to the beginning of the term. Textbooks for courses will be listed six (6) weeks prior to the next term on the online bookstore: <http://frontier.textbookx.com/>

Adding and Dropping Courses

Students may add or drop a course until Monday of week two (2) of the term. A change in registration becomes effective only when the [Add/Drop Form](#) is completed by the student and submitted to the Registrar. All Add/Drop forms must be submitted by midnight on Monday of week two (2) of the term. The student should also send a copy of the Add/Drop form to the Student Advisor and the Course Coordinator. If a student drops all of their registered courses then it is considered a **withdrawal from FNU**.

Enrollment Following Frontier Bound

Students who attend the required in-person, on-campus Frontier Bound are expected to enroll in FNU at the beginning of the next term. Students who are unable to enroll in courses the term following Frontier Bound must formally withdraw from FNU. In order to be considered for admission they will need to reapply to the program and pay the current application fee. If there are no changes that would affect the admission decision, the student will be offered admission if they re-apply within six (6) months following the Frontier Bound they attended. Students may use their previous admission materials except for the application form if applying within the six (6) months after the Frontier Bound and if there are no changes that would need to be considered by the Admissions Committee. If the student enrolls in FNU within six (6) months after attending Frontier Bound, they would not have to attend Frontier Bound again.

Students who enter an academic program via streamlined admission and who are unable to enroll in courses the term following virtual attendance at Frontier Bound may choose to formally withdraw or request an Academic Hiatus. See the Academic Hiatus policy for more details.

Withdrawal from a Course

Withdrawal from a course is a serious decision that has multiple academic and financial consequences. Students who withdraw from courses in multiple terms are at risk for failure to make Satisfactory Academic Progress.

Continued enrollment in the program and financial aid may be jeopardized when the requirements are not met for Satisfactory Academic Progress.

The number of courses from which a student can withdraw (outside of an approved Emergency Academic Hiatus) is three. Withdrawal from a fourth course will result in review by the Administrative Team for possible dismissal. Students who need to withdraw from all courses in a term after the beginning of a term must request an Emergency Academic Hiatus (see **Emergency Academic Hiatus** policy). A student who withdraws from a course at any time in the term or for any reason after the add/ drop period, will be charged full tuition for a course retake when they re-enroll in the course.

All course withdrawals require a change in the student's Program of Study which is done in collaboration with the student's Advisor.

1. The first time that a student requests a course withdrawal, the student will meet with their Advisor to discuss the situation requiring withdrawal and to revise the Program of Study. The student should have a specific plan for dealing with any academic or personal issues that are identified in this discussion.
2. The second time that a student requests to withdraw from a course the student must discuss the need for withdrawal with the Advisor prior to withdrawing from the course. The student will then submit a written Learning Plan to the Associate Dean for approval that addresses a desire and concrete plan to avoid additional course withdrawals.
3. If a student requests a third withdraw from a course the student must meet with the Associate Dean and will be placed on a Performance Plan to address any new or continuing academic or personal issues.
4. Withdrawal from a fourth course will result in review by the Administrative Team for possible dismissal.

A student may withdraw from a specific course only one time and may have access to a course a maximum of two times. Access to a course is defined as 1) completion of a course (regardless of grade) or 2) a course withdrawal. Dropping a course during the add/drop period is not considered "course access." This means, however, that if a student withdraws from a course, re-enrolls, and then fails the course, the student will be unable to complete the course and may be dismissed from the University. Exceptions to this policy must be considered only for extreme circumstances beyond the student's control and will be approved by the Administrative Team at the request of the student's Associate Dean.

Process for Withdrawal from a Course:

1. Meet with the advisor to discuss any options.
2. Complete the [course withdrawal form](#).
3. Submit course withdrawal form to advisor, course coordinator of affected course, registrar and Associate Dean.
4. Meet with Advisor and Associate Dean to revise program of study.

The assignment of grades for course withdrawals is as follows:

Course Withdrawal Before Eight Weeks (or 56 calendar days) into the Term

Students may withdraw from a course for any reason up to the 56th calendar day of the term. Students must consult with their Advisor, complete the Course Withdrawal form, and send it via email to the Registrar by midnight of the 56th calendar day of the term. The Course Coordinator and the student's Advisor should be copied on this email. Students who withdraw before the 56th calendar day of the term shall receive a grade of "W." The withdrawal date is the date on the email sent to the Registrar with the Course Withdrawal form attached.

Withdrawal from a course that is a corequisite for other courses in which the student is concurrently enrolled will necessitate the formation of a signed Performance Plan. The Performance Plan will include the requirement that the co-requisite course be successfully completed in the subsequent term.

The withdrawal policy does not apply to Clinical Bound courses (PC714, NM711, NP711, and WH711). For these courses, withdrawal may only occur before starting the coursework for the given course on campus. Exceptions will be considered in circumstances that qualify for Emergency Academic Hiatus and with supporting documentation.

Course Withdrawal After Eight Weeks (or 56 calendar days) into the Term

After the 56th calendar day of the term students who withdraw from a course will receive a failing course grade (WF). The student that has “serious or compelling reasons” may withdraw with a “W” recorded on their transcript from a course (or courses). The standard of “serious and compelling” applies to situations, such as illness or accident, clearly beyond the student’s control.

Examples of serious and compelling reasons include:

- An extended absence due to a verifiable accident, illness, or personal problem serious enough to cause withdrawal from FNU.
- An extended absence due to a death in the student’s immediate family.

Other unusual or very special cases will be considered on their merit by the Administrative Team at the request of the student’s Associate Dean.

All “serious and compelling” situations require the appropriate documentation. Documentation may include: verification of accident or illness (such as a letter from the treating provider or copies of medical bills), a letter from a licensed counselor, death certificate, or other appropriate documentation.

The following situations DO NOT fall under the intent of “serious and compelling”:

- Grade anticipated in class is not sufficiently high, or student is doing failing work (including plagiarism).
- Failure to access online courses, complete assignments, or take an exam.
- Dissatisfaction with the course material, instructional method, or instructor.
- Course is harder than expected.
- Pressure of other courses, employment, and/or participation in other activities.
- A change of specialty track.
- Lack of awareness of the withdrawal process or procedures.

Students must file a petition with their Associate Dean for each course, stating their serious and compelling reasons for withdrawal with appropriate documentation included. Petitions shall be approved by the student’s Associate Dean. Upon approval, the Associate Dean will submit the petition and the grade of “W” to the Registrar with a copy to the student’s Advisor and the Course Coordinator for that course. The petition will be placed in the student’s file.

When a student withdraws from a course, they must pay for the course again if and when they re-enroll in that course. A student may withdraw from a specific course only one time. Exceptions to this policy will be considered only for extreme circumstances beyond the student’s control and will be approved by the Administrative Team at the request of the student’s Associate Dean.

*Documentation: All petitions for withdrawal after 56 calendar days must be accompanied by documentation of the “serious and compelling” reasons for withdrawal. Documentation may include: verification of accident or illness (such as a letter from the treating provider or copies of medical bills), a letter from a licensed counselor, death certificate, and other like documentation as appropriate.

Course Transfer Policy and Procedure

FNU students are eligible to transfer 12 credits into their program of study if the credits were taken from a school that is accredited by an accrediting agency recognized by the U.S. Department of Education. Courses will be eligible for consideration of transfer credit if the student has completed a course with a B or better with equivalent content in a prior academic graduate program. Coursework completed on a pass/fail or satisfactory/unsatisfactory basis will not be considered for transfer unless the course was only offered to students on a pass/fail or satisfactory/unsatisfactory basis and it is clear from the transcript that a pass or satisfactory grade is equivalent to a B or better. Graduate level courses applied to undergraduate degrees are not eligible for transfer. Variables that influence course transfer include the age of the course and the student’s certification and clinical practice experience. To be considered for transfer, courses must be less than 5 years old OR part of a previously completed graduate degree.

Students may submit one to two previous courses to transfer for a single FNU course, e.g. submitting a biostatistics course syllabus and an epidemiology course syllabus to transfer for the FNU Epi & Biostats course. More than two previous courses intended to transfer for a single FNU course will not be considered for transfer credit. Students with a content background in a particular subject but who do not have a specific course to transfer, e.g. a degree in nursing education wishing to obtain credit for FNU's Nurse as Educator course, should consider the Challenge Policy for Academic Courses.

Only didactic MSN, PGC, and DNP courses may be transferred. Clinical, Bridge Year, and DNP project courses may not be transferred. Grades from transferred courses do not factor into the FNU GPA. The course transfer fee for review of materials is assessed, whether or not a course is accepted for transfer credits. Transfer credits are to be calculated in determining Satisfactory Academic Progress.

Students are strongly encouraged to submit all transfer course requests prior to attending Bound orientation. Students should not register for a course for which they intend to request transfer credits until the transfer course review has been completed by the Associate Dean or Program Director. If a student registers for a course and subsequently requests transfer credit for the same course, the student will be responsible for meeting all university deadlines regarding courses registration and billing, including the course add/drop deadline, course withdrawal deadline, grading policies, and tuition refund policies. If a student receives a final grade of F in an FNU course, requests for transfer credit review for previously completed coursework to replace the failed course will not be considered.

Courses that **are eligible** for consideration of transfer credit for the MSN, PGC, and DNP include:

- PC700 Communication and Introduction to Scholarly Writing
- PC701 Principles of Health Promotion
- PC702 Epidemiology and Biostatistics
- PC705 Advanced Pathophysiology
- PC706 Advanced Physical Assessment, Clinical Reasoning and Documentation
- PC707 Advanced Pharmacology Across the Lifespan
- PC711 Nurse as Educator
- PC718 Evidence Based Practice
- PC728 Leadership and Organizational Dynamics
- PC729 Health Policy and Advocacy
- NM700 Role of the Nurse-Midwife
- NM701 Women's Health
- NM703 Primary Care of Women
- NP700 Role of the Nurse Practitioner
- NP703 Women's Health and Childbearing
- NP704 Primary Care Pediatrics

NOTE that graduate level Pathophysiology, Pharmacology and Physical Assessment are requirements for PGC students and do not count toward the 12 credit hour limit for transfer credit.

Clinical, Bridge Year, and DNP project courses are not eligible for transfer.

Procedure

1. The student reviews the FNU Course Descriptions and FNU syllabi prior to applying for transfer. Course descriptions can be found in the [FNU Catalog](#) and the most recent FNU syllabi can be accessed via the [FNU Portal](#).
2. The student notes any course(s) that are similar in content and credits to graduate level courses previously completed in a graduate level program with a grade of B or higher.
3. For each course that is to be reviewed for transfer, the student submits a completed Course Transfer Form, Official Transcript (if not already submitted at the point of Admission to FNU), Course Description and Course Syllabus to the Registrar for the course being considered.
4. The student remits the transfer review fee.

5. The Associate Dean or Program Director reviews the submitted materials and confers with the student if needed. The Associate Dean or Program Director will notify the student, Registrar and the appropriate Advisor of the decision.

Transferability of Frontier Credit to Other Institutions

Frontier Nursing University develops the curriculum based on a policy which assigns workload for a credit hour. This definition of a credit hour at FNU is found in this catalog under Assignment of Credit. This standard along with the institutional accreditation of FNU provides an increased possibility that credits would be able to be transferred to another institution. That said, students should be aware that transfer of credit is always the responsibility of the receiving institution. Any student interested in transferring credit hours should check with the receiving institution directly to determine to what extent, if any, credit hours can be transferred.

Degree Completion Policy

Students are expected to earn their degree within the parameters of Satisfactory Academic Progress. Students will have the following timeframes to complete their degree. All of these timeframes include any time out of school such as an Academic Hiatus or Emergency Academic Hiatus.

- Students enrolled in the MSN must complete the MSN coursework within five years.
- Students enrolled in the Companion DNP must complete the DNP coursework within two years.
- Pre-2014 MSN students must complete their degree or certificate within 5½ years.
- Students enrolled in the ADN Bridge Entry Option sequence must complete all Bridge sequence courses within two years. After Crossing the Bridge, the MSN must be conferred within five years from the date of Crossing the Bridge. A student who withdraws from the university after completion of all Bridge coursework will not be required to repeat the Bridge coursework if readmitted to FNU.
- Students enrolled in the PM-DNP must complete all PM-DNP courses within two years.
- The MSN Completion for CNEP Graduates must be completed within 1 ½ years of enrollment into the completion program.
- The WHCNP Post-Graduate Certificate for CNEP Graduates must be completed within one year
- Students enrolled in the PGC must complete their program of study within twice the timeframe outlined in the individualized Program of Study.

Students who do not complete coursework within the timeframe as noted above will be brought forward to the administrative team to determine eligibility to continue at FNU. If approved to continue, the student may be required to complete additional coursework.

Programs of Study for Students First Enrolled Starting Winter 2014

All students enrolled starting Winter term 2014 may choose between between two program plans to complete their degree, Plan A or Plan B. Students choosing Plan A will complete 5-9 credits per term. Students choosing Plan B will complete 4-6 credits per term. Students completing Plan A can expect to study at least 30-50 hours per week while students completing Plan B can expect to study at least 22-33 hours per week.

Students will declare their intended Plan at the start of the degree. Students are allowed to switch between Plan A and Plan B as desired during the program, keeping in mind the maximum allowable timeframes as stated in the **Degree Completion Policy**. Students will work with their academic advisor to maintain appropriate progress towards degree completion.

Degree Completion Timeframes

Program of Study	Plan A Program Length in Number of Terms*	Plan B Program Length in Number of Terms*
MSN	8	11
Companion DNP	3	4

PGC (all tracks)	Individualized based on transferable credits and specialty track	Individualized based on transferable credits and specialty track
Bridge Year	4	NA
PM-DNP	5	6

* Students must complete the degree according to the maximum allowable timeframes as stated in the **Degree Completion Policy**.

Digital Millennium Copyright Act Notice

NOTICE TO COPYRIGHT OWNERS

FNU respects the intellectual property of others, and we ask our users to do the same.

If you believe that your work has been copied in a way that constitutes copyright infringement, you must provide FNU's Copyright Agent the following information, which must be in writing:

1. A physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.
2. Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works at a single online site are covered by a single notification, a representative list of such works at that site.
3. Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit FNU to locate the material.
4. Information reasonably sufficient to permit FNU to contact the complaining party, such as an address, telephone number, and, if available, an email address at which the complaining party may be contacted.
5. A statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law.
6. A statement that the information in the notification is accurate, and under penalty of perjury, that the complaining party is authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

FNU's Designated Agent for Notice of claims of copyright infringement is Frost Brown Todd, LLC:

By U.S. mail: Frost Brown Todd, LLC
Cynthia Stewart
400 West Market Street, 32nd Floor
Louisville, KY 40202

By Fax: (502) 581-1087

Dismissal from FNU

Students dismissed from FNU will be withdrawn from all current coursework and any registration for new courses is canceled at the time of dismissal. Students are responsible for any tuition and fees incurred prior to dismissal. Students may choose to appeal the dismissal (see **Appeal of Dismissal**). Students may not participate in any coursework during an appeals process. Students dismissed from FNU may re-apply to FNU no sooner than six (6) months after the dismissal date.

Dismissal from FNU is a decision made by the Administrative Team. Reasons for dismissal include, but are not limited to, the following:

- Two course failures.
- Infraction of the Honor Code.

- Infraction of the Harassment Policy.
- Infraction of the Drug and Alcohol Policy.
- Infraction of the Tobacco Use Policy.
- Infraction of the policy regarding Limitations to Attending Births While Enrolled in FNU Programs
- Infraction of the policy regarding Advanced Practice as an enrolled FNU Student Failure to meet FNU time deadlines, including payment of tuition and fees.
- Unsatisfactory academic performance.
- Failure to maintain Satisfactory Academic Progress
- Unsatisfactory clinical performance including, but not limited to, dismissal from a clinical site.
- Unprofessional conduct in relation to interaction with others (student, faculty, staff, preceptor, client).
- Violations of the Communication Policy including persistent deficiencies in written or verbal communication.
- Failure of a performance plan.
- Withdrawing from a course for the fourth time.
- Starting a clinical site prior to completion of credentialing the site, preceptor, and/or student.
- Failure to maintain a current and unencumbered RN license.

The student will be notified by email (via their frontier.edu email account) upon identification of the reason for the potential dismissal. At the time the potential dismissal is identified, the student will be put on probation and will not be allowed to continue in current coursework or register for future courses. The student will remain financially responsible for current to date assessed tuition and fees but no new tuition and fees will be charged to the student while on probation.

The Administrative Team will review the potential dismissal within ten (10) business days of when the student is notified that they are being brought forth for dismissal. The student will be notified by email (via their frontier.edu email account) of the scheduled date of the Administrative Team meeting at which the possibility of dismissal will be reviewed.

The student may submit a written statement to the Administrative Team including any explanation the student wishes the Administrative Team to consider. This statement must be sent by email (via their frontier.edu email account) to the Associate Dean at least three (3) business days (Monday through Friday) before the date of the scheduled Administrative Team.

The student will be notified of the decision of the Administrative Team in writing by email (via their frontier.edu email account) immediately following the Administrative Team meeting. If the decision is to dismiss, a certified letter will be sent within five (5) business days of the Administrative Team meeting. The dismissal date recorded on the student transcript will be the date of the Administrative Team's decision.

Appeal of Dismissal

A dismissal decision of the Administrative Team may be appealed by letter to the President within ten (10) business days after the date of dismissal notification. The appeal must be sent to the President in writing and shall state the justification for the appeal. An appeal will only be heard if the appeal is made on the basis of bias, an error in the application of policy, or for lack of due process. A copy of the Administrative Team minutes pertinent to a student's dismissal is available to the student upon request. If the President determines the appeal is being made on the basis of bias, an error in application of policy, or lack of due process then an Academic Standards Committee (ASC) will be convened. The ASC shall examine all data pertaining to the appeal and make written recommendations to the President of FNU. The decision of the President shall be communicated to the student in writing and is the final decision.

Students dismissed from FNU are withdrawn from all current coursework and any registration for future coursework is canceled at the time of dismissal. Students are not eligible to complete any coursework during the appeal process. If a student's dismissal is overturned as a result of appeal, the student will be reinstated to the university and enrolled in coursework for the term immediately following the successful appeal.

Academic Standards Committee

- The President or Dean of Nursing may convene an Academic Standards Committee (ASC) upon an appeal of a dismissal or a grade appeal that is not mediated at the Associate Dean level. The ASC will consist of a three-person committee of faculty members who were not involved directly in the assignment of the grade or the original decision to dismiss. The ASC will include at least one faculty member with senior academic faculty experience (defined at the President's or Dean's discretion).
- The student will be granted the opportunity to address the ASC by telephone conference call and/or by written statement.
- In the case of appeals or course grades, the ASC shall examine all data pertaining to the appeal and make written recommendations to the President of FNU. All attempts at resolution of the issue are to be documented in minutes.
- In the case of appeals of dismissal, the purpose of the ASC review is to assure that there was no bias, no error of application of policy, and that the student received due process. The purpose of the ASC is not to review the dismissal decision, but to review the procedures and processes that were used to arrive at the decision.
- The Associate Dean who handled the Appeal of Course Grade or an Administrative Team member involved in the decision to dismiss will be available to the ASC during the conference call for questions and/or clarification.
- The ASC members will review all documentation pertaining to the grade assignment or dismissal. These documents will also be made available to the student.
- The appeal process shall be completed within 45 days after receipt of the student's letter to the President requesting an appeal of dismissal or 45 days after the President or Dean is notified of an appeal of a course grade.
- The recommendation of the ASC shall be communicated to the President or Dean who will then inform the student via both email and by certified letter of his/her decision.

Estimating the Timeline for Beginning the MSN Clinical Practicum

It is important that students give the preceptor a realistic idea of when they will be ready to begin MSN clinicals. Expectations may change as students move through Levels I and II and plan to attend Clinical Bound. Many sites have commitments to other educational programs or internal constraints that impact their scheduling of a FNU student. Students are responsible for communicating with the Primary Preceptor and the Regional Clinical Faculty (RCF), as well as the Clinical Director if changes occur with their original timeline. The student may need to renegotiate clinical time if their actual timeline varies from the original agreement with the preceptor. During Levels I and II periodic contacts with the RCF and the Primary Preceptor are recommended, as well as the required contacts with the Student Advisor.

FNU Evaluations

All FNU evaluation forms submit directly into a secure database. Course faculty and Associate Deans are able to view an anonymous report containing totals and comments, without student names.

Course faculty and Associate Deans cannot see who submitted any evaluation. Course Coordinators use the Course Evaluation reports in the course revision process to improve the next version of the course. The Associate Deans are able to view course evaluation reports to look for trends related to teaching, faculty performance and course effectiveness. The staff member responsible for verifying completion of course evaluations is only able to see a tracking report that includes the student's name, class number, and a list of courses that have been evaluated, but not the student's course evaluations.

FNU must have complete student evaluations in order to complete our institutional effectiveness plan. In order to collect evaluation data the following policies apply:

- Students must complete all course evaluations as the last assignment in each course. Failure to complete the evaluation will result in an Incomplete (I) grade. The student needs to notify their instructor once they have completed the evaluation so the instructor can change the grade.
- Students may start the Clinical Practicum after completing all Clinical Bound evaluations.

Examination Policies

FNU endeavors to maintain a secure testing environment to facilitate exam integrity. The University adheres to the standards of academic integrity as articulated by the FNU Honor Code Policy. Cheating on examinations is contrary to both academic integrity standards and to ethical standards as articulated in the FNU Honor Code Policy.

All electronic examinations are accessible to students according to dates set by the Course Coordinator. If a student experiences a problem during an exam and cannot resume access to the examination in a reasonable amount of time, the student should immediately open a ticket with [FNU Technical Support](https://portal.frontier.edu/web/fnu/support) (<https://portal.frontier.edu/web/fnu/support>).

If the score on an examination is below 80%, this constitutes an examination failure. Please refer to the FNU Grading and Failure Policy.

Examination Policy for Remotely Proctored Exams

Frontier Nursing University (FNU) will assure accurate student identification along with test integrity and security in the administration of examinations in a distance learning setting via remote proctoring. The proctoring process includes: an identity validation of the student taking the test, maintenance of examination integrity by blocking other software or hardware during testing, and monitoring of student behavior during examinations to demonstrate that inappropriate behavior is not taking place.

Examinations are proctored through a computer-assisted proctoring service chosen by FNU. Students taking online examinations are required to use this system. Online examinations will not be available to students unless the proctoring system is used or specific designated testing accommodations are in place for that student.

Currently proctored examinations utilize a standard webcam and microphone and are delivered through a Chrome web browser extension. The system automatically flags audio and video to be reviewed for any possible Honor Code and Exam Policy violations that may have occurred during an examination.

1. Students will affirm the Honor Code statement once in each course that has proctored examinations.
2. Students will use the proctoring software selected by FNU for all examinations.
3. Examinations are confidential material. Students may not make a copy of any examination in any form including handwriting questions onto their own paper, discussing questions in course forums or in social media, or copying questions into email. If students want to discuss specific examination questions with faculty, students should make an appointment for a live discussion with the faculty member. **Students should not email any specifics of examination questions to anyone, including faculty.**
4. Students may not discuss the contents of any examination with anyone other than the responsible faculty. Examples of honor code violations could include but are not limited to: discussing examination contents with others at any time before, during, or after an examination, receiving any type of assistance (except from FNU tech support or FNU faculty) during the examination, having someone else take the examination under the student's username and password, emailing specific exam items, or copying any part of an examination in any form. An Honor Code Violation is considered grounds for dismissal from FNU.

Rules for Taking an Examination

Students are expected to learn and follow the rules for taking examinations using the computerized proctoring system. The online testing environment should mimic the "in class" testing environment, and must conform to the following:

- A quiet, secure, fully lighted room for the examination.
- Lighting must be "daylight" quality and overhead is preferred if at all possible. If overhead is not possible, the light source should not be behind the student.
- No other people in the room at any time during the examination.
- No communicating with others by any means, with the exception of contact with FNU IT support staff or Proctorio support staff or the faculty member.

- No talking aloud during the examination.
- No leaving the room at any time for any reason.
- Nothing on the desk/table except the computer. All other books, papers, notebooks or other materials, unless specifically permitted in written guidelines for a particular examination, must be removed. You may use the electronic whiteboard provided by Proctorio, but a physical whiteboard is no longer allowed.
- No other electronic devices in the room, including devices that serve as a hotspot. If a mobile hotspot is used, it must be set up outside the testing room prior to starting the camera and taking the exam.
- No writing visible on desk or on walls.
- No music or TV playing.
- No use of headphones.
- All other computer monitors must be powered off.
- The webcam and microphone must be operational.
- A proper ID (driver's license or FNU ID) must be clearly shown at the beginning of each exam.
- During a room/desk scan, the complete desk and surrounding areas must be clearly shown.

Using the computer proctoring system allows students to have 5 minutes after the examination has been completed to review the examination and see the correct answer to any missed questions. Some courses may offer an alternative to the 5-minute review, to best meet the needs of students. The student will not be allowed to make any changes to the examination during this time period. All testing conditions and the Honor Code remains in effect during this review.

Examination Violations

All examination videos will be reviewed and made available to the faculty and to program administrators. If any suspicious activity is determined to be an exam rules policy violation, the faculty will notify the student so that the behavior can be corrected for subsequent exams. Additionally, the faculty will record the violation on the institutional secure exam violation report. If any suspicious exam activity is determined to be a potential Honor Code Policy violation, it will be reported to the appropriate FNU Course Coordinator who will determine if an infraction occurred. If there is suspicion of cheating, this is a potential Honor Code violation that will be addressed according to the policy (please refer to the Honor Code Policy).

Once the student has been notified of a violation, the student is expected to review all of the rules for exams and adhere to them in all future exams. If a student repeatedly violates the rules for taking a proctored examination, whether it is the same rule or a different rule, the student will be asked to complete a Learning Plan, be placed on a Performance Plan, or be referred for possible dismissal from FNU as appropriate to the context of the situation. Depending on the severity of the examination violation, the student may be referred immediately for possible dismissal from FNU.

Examination Security Policy and Procedure for Paper Based Proctored Exams

This policy is in effect only for students with an authorized accommodation that includes the necessity of a paper based exam. See [Americans with Disabilities & Learning Disabilities](#)

- Students are not to discuss the contents of any examination with anyone other than the responsible faculty.

- A test is not to be opened by the student until the student and the proctor are ready for the student to take the examination.
- Examinations are treated as confidential material. This means students do not make a copy of any examination in any form.
- Only the proctor is responsible for receiving and photocopying examinations. Students may never be involved in this process.
- The proctor must prepare an examination for mailing. The student may only handle a completed examination after the proctor has placed it in an envelope and both the proctor and student have signed the sealed flap.
- The use of a computer is not acceptable for any examinations.

FNU relies on examination proctors to ensure the academic integrity of the University's examinations. By agreeing to proctor examinations, the proctor takes personal responsibility for the security of the examination material. Acting as a proctor for a nurse-midwifery or nurse practitioner student is an act of professional volunteerism. Without such volunteerism, FNU would not be successful. The examination proctor may be a nurse-midwife or nurse practitioner in the clinical setting where the FNU student will acquire clinical experience or a nursing supervisor or administrator, an educator, a testing administrator, a military officer of higher rank than the student, or a librarian. Testing centers may be used, although they often require a fee. Any financial obligation associated with securing a proctor will be the responsibility of the student. Other types of individuals may serve as proctors with approval from the student's Associate Dean. The proctor cannot have a personal relationship with the student. A personal relationship is defined as a relative, close friend, a person the student is dating, or any person living in the same household as the student.

The FNU student identifies an appropriate examination proctor and supplies the proctor with the [Proctor Approval Application](#). If the student's clinical preceptor is going to be the proctor, the preceptor must still complete the Proctor Approval Application. Other CNMs or NPs in the proctor's practice or office personnel may not be substituted unless they have also completed the Proctor Approval Application. After the proctor has applied and been approved, the FNU ADA Coordinator sends the proctor a letter announcing the approval.

If a proctor's address changes, the proctor must contact the ADA Coordinator. Address changes for proctors cannot be submitted by students.

Examinations will be automatically sent to the proctor at the end of the Add/Drop period. Students who live outside the United States or who plan to take examinations in the first two weeks of the term should contact their Associate Dean to discuss the possibility of special arrangements for the mailing of their examinations. Students who need to change proctors after a term has begun should contact the ADA Coordinator immediately. The ADA Coordinator will work closely with the student and course faculty to determine immediate needs regarding pending exam deadlines. The student is responsible for identifying a new proctor and submitting the necessary [Proctor Approval Application](#) as soon as possible but no more than ten (10) days after the loss of the original proctor. Once a new proctor is approved, the student's examinations will be mailed to the proctor within two (2) business days. If a student withdraws from a course, the proctor will be notified in writing and must destroy all examinations for that course.

The proctor provides the student with a quiet room, devoid of reference materials and computers, where a closed book examination may be completed. After the examination is completed the proctor ensures the examinations secure return for grading by course faculty in a sealed envelope. It is the student's responsibility to provide the course faculty grader's name and address and mailing materials and to pay any charges for copying and for mailing. The student should bring a stamped and addressed envelope to the examination. The proctor's return address should be on the envelope, not the student's.

The student is responsible for signing the Written Proctored Exam Security Statement, Honor Code Affirmation and returning the signed copy with each exam. Exams received without this signed statement will not be graded.

Specific duties of the proctor begin with the receipt of the examination. The proctor:

1. Checks the examination(s) to ensure that each has the correct number of legible pages.
2. Contacts the FNU ADA Coordinator at (606) 672-2312 for assistance if an examination is incomplete or poorly photocopied.

3. Keeps the examination(s) in a locked, secure place until administration.
4. Ensures that the examination site is free of distractions and reference materials. Students may bring writing implements and blank paper to the examination, but no books, laptop computers, notes, or other references.
5. Reviews the number of questions, possible number of points, and time allotted for the test with the student before administering.
6. Reminds the student periodically during the examination of time limits.
7. Photocopies the completed examination. The student should not be involved in the photocopying process.
8. Places the photocopy of the examination in a sealed envelope and locks it in a secure area.
9. Signs the statement on the examination indicating that the Examination Security Policy and Procedure have been followed.
10. Places the original examination in the stamped envelope addressed to the examination grader, which was provided by the student. The return address should be that of the proctor.
11. Seals the envelope and signs the sealed flap of the envelope.
12. Has the student sign the sealed flap of the envelope if the student will be mailing the examination. The student's signature on the sealed flap of the envelope is not required if the proctor will be mailing the examination.
13. Mails the envelope to the faculty grader within one business day of the examination's administration. The proctor may permit the student to mail the examination only if after the envelope has been sealed it is signed by both the proctor and the student. It is recommended that examinations be sent via Priority Mail with Delivery Confirmation. Do not send material by overnight mail, certified mail, or any other mechanism that requires a signature. If the faculty member is not at home, it can delay receipt of the examination and can result the examination being returned to the proctor.
14. Destroys the examination photocopy after the student receives the examination grade. The student should notify the proctor as soon as the grade is received.
15. In the event that a student withdraws from a course, takes an Academic Hiatus, changes proctors, or withdraws from FNU after the examinations have been mailed, the proctor will be notified in writing and must destroy all examinations.

Gender Change

Students can request a change in gender be made to their academic record. To request an official gender change to the academic record, please contact the Registrar, registrar@frontier.edu for processing. Students receiving financial aid should contact FNU Financial Aid to determine if additional documentation may be required.

Grading Policies

Graded Assignments

Graded Assignments may include papers, oral presentations, forum assignments, open-book post-tests, worksheets, and any other type of assignment sent to faculty for feedback and a grade. Submission instructions (e.g., APA format) should be followed. Most Graded Assignments are completed by the individual student and must represent their individual work. Some Graded Assignments may be specifically designated as appropriate for group work. Students who have questions about whether a Graded Assignment is to be completed by an individual or group should seek clarification from the course faculty. Collaborative work on an individual Graded Assignment is an Honor Code Violation and may result in dismissal from FNU.

The course policy for assignments (graded or ungraded) is stated in the instructions for each course. The faculty for each course determines whether or not there are options for resubmission based on the course objectives. Please read course instructions carefully.

Faculty will make every attempt to return all graded assignments within five business days of the due date. This excludes holidays and weekends. This guideline may be extended by a Course Coordinator if the assignment includes a lengthy written paper which may take extensive grading time. Any extensions of this timeline will be clearly stated in the course.

Grading and Failure Policy and Procedure

A grade of less than 80% constitutes an assignment or examination failure. In courses that have exams, students must achieve a passing total exam average (80% or better), in addition to a passing course average (80% overall), in order to earn a passing grade for the course.

When a student fails an exam or assignment, the University's goal is to help students master the content and learn appropriate study, writing, and test taking habits so that assignment and examination failures do not recur. To this end, the following procedures will be followed:

1. Anytime a student receives below an 80% on an exam or assignment the course faculty will notify the student and offer a review so the student can understand all content and develop strategies for success.
2. The student will make an appointment with the course faculty who will:
3. Review the exam/assignment to discuss the content the student was unable to master.
4. Discuss reasons for the poor performance and ideas for improvement.
5. Refer students to the ARC and Student Services as indicated to assist with study tips, test taking issues, and time management.
6. Write an email to the student's advisor regarding the interaction with the student.

Grading System

The marks used in all official reports of students' grades are: A, B, F, W, WF, T, I and IP. The performance level and quality points assigned to those grades are as follows:

Grade	Performance Level	Quality Points per Term
A	Consistently Outstanding 90-100%	4
B	Satisfactory 80-89%	3
F	Failure	0
W	Withdraw	0
WF	Withdraw Failing	0
T	Transfer	0
I	Incomplete (<i>temporary mark</i>)	0
IP	In Progress (<i>temporary mark</i>)	0

All credits are based on a term system. A grade of A or B (equivalent of at least 80%) must be achieved in all courses. The designations W (prior to the 56th day of a term) or WF (after the 56th day of a term) will be recorded to indicate passing or failure in those instances in which a student withdraws from a course before completing the work. (see **Withdrawal from a Course**). If a course is repeated, the original grade remains on the transcript. Only the grade for the most recent course completion is computed in the grade point average (GPA).

An Incomplete (I) grade is used only for academic courses. (see **Incomplete Grade Policy**). An In Progress (IP) grade is used only for clinical courses. It denotes that the clinical course is in progress but the course is not yet complete. (see **In Progress (IP) Grade Policy**). A grade of I or IP does not remain on the transcript but is replaced by the completion grade.

Grading

Final course grades are mathematically rounded up.

- A = 100-89.50
- B = 89.49- 79.50
- F =79.49 or less

Assignment and exam grades are not rounded up and remain as decimal points in the electronic grade book.

The final average of all exams is not rounded up. It must equal 80.00% to pass.

Good academic standing is defined by all of the following:

- The student is making Satisfactory Academic Progress (SAP) as defined by the SAP policy.
- The student has no current Performance Plan in effect or is making satisfactory progress toward resolution of Performance Plan.
- GPA of 3.0.

Reporting of Grades

In accordance with the Family Educational Rights Privacy Act (FERPA), also known as the Buckley Amendment, all students' grades are treated as confidential information. At the completion of each term, the faculty members send students' grades to the Registrar. A student may request a current transcript from the Registrar at any time.

Incomplete (I) Grade Policy

- An "Incomplete" (I) grade will be assigned only if a majority of the work for an academic course has been completed and there is still the opportunity for the student to be successful in the course. The Course Coordinator determines what constitutes the majority of work for a course.
- There must be evidence that the student can successfully complete the course if given an Incomplete grade.
- Students must submit the [Petition for Incomplete Grade form](#) to the Course Coordinator no later than the last day of the term as publicized in the FNU academic calendar. The requirements necessary to complete the course and a timeline for the student to complete the coursework must be defined by the student on the Petition for Incomplete Grade form.
- An Incomplete Fee will be charged for each course that is given an Incomplete grade. (see [Tuition and Fees](#)).
- The deadline for finishing the Incomplete coursework is the 30th day of the term following when the Incomplete occurs as publicized in the FNU academic calendar.
- Per the Academic Hiatus policy, students are not permitted to do any coursework, submit any assignments or take any examinations while on AH. Students are strongly encouraged not to begin an AH with an incomplete grade in any of their courses. (see [Academic Hiatus Policy](#)).
- Upon completing the requirements, the Course Coordinator will submit a new grade to the Registrar. The Registrar will then replace the Incomplete grade with an IA, IB, or IF.
- An Incomplete grade may not be removed by re-enrolling in the course.
- An Incomplete grade is a temporary grade that converts to an F if all course requirements are not completed by the incomplete deadline in the next term. All work must be turned in by the incomplete deadline. It is strongly suggested that students turn work in much earlier particularly if it is a type of assignment that allows for feedback and possible revisions. Faculty members are allowed 5 business days to grade any submitted work. On the date of the Incomplete deadline as published in the FNU Catalog, all work is considered final and no further course work from the student will be accepted.
- If a student withdraws from the institution without completing the Incomplete course(s), the grade will be changed to a WF. Under compelling circumstances, the student may petition the Administrative Team for the grade to be a W.

Procedure for Obtaining Permission for an Incomplete (I) Grade

1. Complete the Petition for Incomplete Grade form and submit to the Course Coordinator no later than 5:00 pm EST on the last day of the term. Bridge students still in the Bridge year courses (PC700, N400, N404, N405, N406, N408, N409 and N410) must also submit the Incomplete Grade form to the Bridge Director.
2. The Course Coordinator will grant the Incomplete if the incomplete requirements are met as stated in the course.
3. The Course Coordinator will submit the Incomplete grade to the Registrar, Academic Advisor and Instructional Designer via incompletegrades@frontier.edu with the petition form attached. The student will be copied on this message.

In-Progress (IP) Grade Policy

- An "In Progress" (IP) grade will be assigned to a clinical course that is in progress but not yet complete in a given term. There must be evidence that the student can successfully complete the clinical course if given an IP grade.
- Students may be granted an IP no later than the last day of the term as publicized in the FNU academic calendar.
- An IP grade to converted to a permanent grade by the last day of the term subsequent to the term in which the student registered for the course.

- Students who have completed all other coursework and are pursuing only the IP grade(s) in a given term (i.e. no other course registration in the term) will be charged a technology fee in the term while they finish the IP. See **Tuition and Fees**.
- Per the Academic Hiatus policy, students are not permitted to do any coursework, submit any assignments, take any examinations, or participate in clinical while on AH. Students are encouraged not to begin an AH with an In Progress grade in any of their courses. See **Academic Hiatus Policy**.
- Upon completing the requirements of the clinical course or at the end of the IP period, the RCF will submit a new grade to the Registrar. The Registrar will then replace the IP grade with an A, B, or F.
- An IP grade is a temporary grade that converts to an F if all course requirements are not completed by the end of the IP period. All work must be turned in by the IP deadline. With the support of their RCF, students may petition for extension to an IP grade.
- If a student withdraws from the institution without completing the IP course(s), the grade will be changed to a WF. Under compelling circumstances, for example clinical progression, inability to find site or preceptor, the student may petition the Administrative Team for the grade to be a W.

Individual Academic Work, Study Groups, and Study Buddies

- All Graded Assignments and examinations must represent individual effort. The exceptions to this are explicit in the course instructions.
- Copies of Graded Assignments must not be sent to or received from anyone other than the faculty.
- A student's work is her or his own work. It is not work that another student did. It is not work done after reviewing an instructor's critique on work returned to another student. It is not work that a student copied from an article or text without appropriate citation.
- Students should be very clear about what assignments are graded and what activities are not graded (for example, Study Guide and Let's Practice). Graded Assignments must be completed independently unless the instructions explicitly and specifically permit group work. Non-graded activities may be worked on with a study buddy or a study group, most Graded Assignments may not.
- If a student has any doubt about whether a specific assignment may be done jointly with another student, this should be discussed with the Course Faculty.
- Students are permitted to share resources with study groups and/or study buddies, but Graded Assignments, unless specified or approved prior to submission as group work, should reflect the individual student's level of understanding of the content area because this is the basis for the student's practice upon entering the profession.
- Each student must process the information gathered by the study group or study buddy and make sure the information is complete and accurate. Each student must individually form their own opinions by completing the Required Readings, course activities (Study Guide and Let's Practice), Graded Assignments, and examinations.

Course Failure Policy

In the event of a course failure:

- One (1) course failure will result in the initiation of an academic Performance Plan. (see the **Learning and Performance Plans**).
- Two (2) course failures within a degree (MSN* or DNP) program or post-graduate certification program will result in dismissal from FNU. An exception to this is the Final Comprehensive Review Course NM717, NP717, and WH717; failure of the Final Comprehensive Review Course does NOT count as a second course failure under this policy.

All course failure(s) will be reflected on the student's transcript (see the **Grading System Policy**). Students may choose to appeal a grade (see the **Appeal of Course Grades**). Students may choose to appeal dismissal (see the **Appeal of Dismissal**).

*The Bridge Program is an entry into the MSN program. A course failure in the bridge year (if applicable) carries into the MSN program.

Appeal of Course Grades

Students may appeal a course grade by contacting the Course Coordinator. If the student and Course Coordinator are unable to reach agreement about the grade, the Associate Dean should be contacted. Course grades must be appealed no later than the end of the term following the term in which the grade was received. For example, a grade from the Spring Term must be appealed no later than the end of the Summer Term. All examinations and assignments for a course will be destroyed at the end of the term following the term in which the student completed the course.

The Associate Dean's responsibility is to strive to mediate a resolution that is satisfactory to all parties involved. Appeals that are not resolved satisfactorily for all parties through discussions should be communicated in writing to the Dean of FNU. The Dean will convene the Academic Standards Committee (ASC).

The ASC shall examine all data pertaining to the appeal and make written recommendations to the Dean of FNU. All attempts at resolution of the issue are to be documented in minutes. The decision of the Dean shall be communicated to the student in writing and is the final decision.

Graduation Requirements

To be eligible for any degree a student must complete the following graduation requirements in addition to the specific course requirements for each degree program. The course requirements for each degree program can be found in the Academic Offerings section of this catalog. The graduation date indicated on the student transcript and diploma will be the date that all graduation requirements are completed. FNU processes graduations on a rolling basis throughout the year. It is important to note that once a student has met all FNU graduation requirements he/she is no longer covered by FNU's liability insurance and is no longer eligible for financial aid. No further clinical experiences may be obtained as an FNU student once graduation requirements have been met.

- Submission of final grades for all required courses. Incomplete (I) and In-Progress (IP) grade are temporary grades, not final grades (see the Incomplete Grade Policy and Procedure).
- No overdue financial balances on the student account.

The following graduation requirements are specific to the completion of the degrees indicated.

MSN and Post-Graduate Certificate:

- Receipt of all end of clinical paperwork including the signed Declaration of Safety (DOS) from the primary preceptor, the final Stage 4 MDAT from the RCF, and the completed End of Clinical Record.
- CNEP Students ONLY: Proof of attendance for the AABC "How to Start a Birth Center" Workshop. AABC provides FNU with the roster of attendees after each workshop.

Grievance Procedure

Grievances should always be resolved at the most immediate level possible.

If the grievance relates to an academic course, the student should begin by communicating the problem to the individual course faculty member involved. If that is not successful, then they should take the matter to the Course Coordinator, and if still unsuccessful to the appropriate Associate Dean. If the situation pertains to a clinical course, it should be discussed with the Clinical Director.

For problems related to clinical matters, the student should consult the Regional Clinical Faculty first and if unsuccessful proceed to their Clinical Directors. The student's Clinical Director is always available to discuss any situation with the student during this process. The Clinical Director's responsibility is to strive to mediate a resolution that is satisfactory to all parties involved.

Grievances that are not resolved satisfactorily for all parties through discussions should be communicated in writing to the Dean of FNU. The Dean may choose to convene the Honor Code Council or the Academic Standards Committee depending on the nature of the grievance.

The Council or the Committee shall examine all data pertaining to the grievance and make written recommendations to the Administrative Team (for Honor Code Councils) or the Dean (for Academic Standards Committees) of FNU. All attempts at resolution of the issue are to be documented in minutes. The decision of the Dean shall be communicated to the student in writing and is the final decision.

Harassment Policy

Frontier Nursing University does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities.

We expect all of our students, faculty, and staff to be treated with fairness, respect, and dignity. Harassment of any of these individuals will not be tolerated. Any form of harassment related to an individual's race, color, sex, religion, national origin, age, or disability is a violation of this policy and will be treated as a disciplinary matter, including the possibility of dismissal.

The term harassment includes:

- Slurs and any other offensive remarks, jokes, graphic material, or other offensive verbal written or physical conduct.
- Sexual advances, requests for sexual favors, unwelcome or offensive touching, and other verbal, graphic, or physical conduct of a sexual nature.

If students have questions about what constitutes harassing behavior, they should contact their Associate Dean or the Frontier Nursing University (FNU) Human Resources Manager (606-672-2312). If a student feels they are being harassed, they should immediately notify the Student Council Representative, Student Advisor, or another member of the faculty or administration with whom they feel comfortable discussing the situation. Alternatively, the student may call the FNU Human Resources Manager (606-672-2312).

Faculty should notify the appropriate Associate Dean or refer to the FNU Employee Handbook and follow the procedure there. It is FNU policy to investigate all reported violations.

Honor Code Policy

There are unique opportunities in the adult-learner, self-paced, distance model of education to demonstrate the highest standards of ethical behavior and conduct. There are also unique opportunities to violate these standards. FNU regards academic honesty and scholarly integrity to be essential to the education of our students; violations are not tolerated. No student shall claim credit for another's work or accomplishments or use another's ideas in a written paper or presentation without appropriate citations and references. Students may be dismissed for violation of FNU standards of conduct.

Violations of the expected standards of conduct include, but are not limited to, the following:

- **Cheating:** Cheating is the attempt to gain improper advantage in an academic evaluation. Among the forms that this kind of dishonesty can take are: obtaining a copy of an examination before it is officially available, learning an examination question from another student before taking the examination, or consulting an unauthorized source during an examination. These sources could include electronic sources, paper sources, or human sources. Submitting part or all of work done by another student as one's own work is also cheating. This also includes sharing your own work with other students in any form (via email, posting on the internet, etc.).
- **Plagiarism:** Plagiarism is the representation of another person's ideas or writing as one's own. The most obvious form of this kind of dishonesty is the presentation of another person's ideas as something one has written. Paraphrasing another's writing without proper acknowledgment may also be considered plagiarism. See the **Plagiarism Policy and Procedure** for further information and clarification.
- **Unprofessional Conduct:** Including lying, misrepresenting the truth, and falsifying records (including, but not limited to, the clinical log).
- **Criminal Conduct:** Such as stealing, drunkenness, or illegal drug use while on the Hyden Campus or in a clinical site.

It is the student's responsibility to behave in an honorable and ethical manner.

It is also the student's responsibility to report any suspected violation to a Student Council Representative.

Any student or faculty member may bring suspected honor code violations to the attention of the Associate Dean.

If a student brings forward a suspected honor code violation, the Associate Dean will review the evidence including:

1. Consulting with the appropriate Course Coordinator.
2. Either the Associate Dean or the Course Coordinator will discuss the issue with the involved students.
3. Course Coordinator and Associate Dean will then discuss the situation and determine if there is sufficient evidence to send this to administrative team.

If a faculty member suspects an honor code violation the following steps will be followed:

1. Course Faculty will discuss with the Course Coordinator.
2. Course Coordinator will review the evidence.
3. Course Coordinator will discuss the issue with the involved students.
4. Course Coordinator will discuss with Associate Dean and determine if there is sufficient evidence to send this to administrative team.

When a suspected honor code violation is brought forward to the Administrative Team, the following process will be followed.

The Administrative Team will initiate a review of the information from the Course Coordinator, Program Director and/or the Associate Dean for their specialty track to determine if there is evidence to support the charge. The student will be given the opportunity to submit a written statement to the Administrative Team to be considered as part of the determination of a possible honor code violation. If there is adequate evidence that an honor code violation may have occurred, then the Administrative Team will:

1. Notify the accused student in writing that such a charge has been made.
2. Convene the Honor Code Council.

Honor Code Council Procedure

In the adult-learner model, the primary guardians of the FNU Honor Code are the students themselves. The students, therefore, have the responsibility for monitoring appropriate behavior and for resolution of violations. The Honor Code Council will consist of six Student Council Representatives and a faculty facilitator. If the required number of students cannot be recruited from the Student Council Representatives, students may be recruited from the general student body at the discretion of the faculty facilitator with input from the Student Council. The faculty facilitator will be a faculty member who was not involved in the Honor Code Violation allegation. The role of the faculty facilitator is to counsel the students regarding the process and FNU policy. The entire process from the date of the reported charge to the date of final decision of the Administrative Team and notification of the students involved should be as expedient as possible. The review will not take greater than 45 days.

1. After a possible Honor Code Violation has been reported, the Administrative Team will make the decision to convene an Honor Code Council (HCC).
2. The Associate Dean for their specialty track will notify the student(s) in question, via email, that:
 - a. An Honor Code Council (HCC) is being convened and will be provided with details concerning the nature of the charges.
 - b. Student(s) are allowed to continue coursework until the issue is resolved. Faculty will not submit any final grades for the courses that are involved in the alleged honor code violation. If the review is still in progress at the end of the term, students will receive an Incomplete for any courses that are involved in the alleged honor code violation. If the process extends across terms, students will be allowed to enroll in the courses for their next term. Once the review of the possible violation is completed by the Administrative Team, Faculty may submit grades earned by the student during the honor code process.

- i. For any course in which it is determined that an honor code violation did occur, the final grade will be an F.
 - ii. For students who are dismissed by the Administrative Team for an honor code violation, any course that was involved in the honor code violation will also receive a failing grade.
 - iii. In the event there is a question regarding academic integrity of a course grade (possible Honor code violation) that is discovered after the course is complete and the grade is submitted, the course grade will be revised and placed on suspension by using incomplete for didactic courses or in progress for clinical courses until the work in question is either cleared or found in violation of the FNU Honor Code.
 - iv. In the event a student withdraws from FNU before the honor code question is resolved, the course grade will convert to W.
- c. Student(s) can make a written statement to the HCC with an explanation and clarification of the circumstances related to the charge. They will need to send these materials to the Chief Operations Officer.
- d. Student(s) will have a chance to make a verbal statement to the HCC during a conference call.
3. When the Chief Operations Officer receives the written statement(s) from the student(s) in question, s/he, or her/his designee, will remove the student's name(s) from the documents, changing the name(s) to "Student A, "Student B", etc.
4. The Chief Operations Officer, or her/his designee, will recruit seven members of the student council and schedule a conference call. One of these seven students acts as an alternate in case a student needs to withdraw from the HCC. If seven members of the student council are not available, then members of the student body will be asked to volunteer.
5. Before the conference call, the Chief Operations Officer, or her/his designee, will email the HCC regarding the suspected infraction. This will include the student's statements (with names redacted) as well as any other related documentation (also with names redacted) that pertains to the case. At this time the HCC will be notified of the date and time of the HCC meeting.
6. The HCC will then meet, via conference call, to investigate the charges.
 - a. The HCC will first come up with a list of questions that they have for the student(s) in question.
 - b. Then the faculty facilitator will call Student A and join her/him into the conference call. The faculty facilitator will ask the student the HCC's questions, informing them that they do not have to answer any of the questions. Student A will then have an opportunity to make a verbal statement. The faculty facilitator will ensure that Student A has been disconnected from the call and then follow this same procedure for Student B, if appropriate.
 - c. The HCC will then investigate the charges and make a decision regarding whether or not an Honor Code Violation has been committed.
 - d. The faculty facilitator will record the minutes and forward them to the Administrative Team.

Intellectual Property Policy for FNU Students

Student work products, produced by course requirement and used as a basis of grading, remain the property of the student. A student working with a faculty member on a faculty member's project is considered to be doing faculty work and is covered under the faculty policy.

International Health Experience

FNU has an International Health subcommittee which offered an international health experience for selected students and faculty in Guatemala and Haiti during 2006-2011. This program is not currently being offered through Frontier.

Learning Plans and Performance Plans

Learning Plans

If a student experiences a specific problem in either a didactic or clinical course, the student may be asked by the Associate Dean (if the situation relates to a didactic course), the Clinical Director (if the situation relates to a clinical course), Program Director (PM-DNP students), Course Coordinator, Course Faculty, Regional Clinical

Faculty, or Preceptor to write a Learning Plan. This student generated plan will identify the problem, the resources needed to resolve the issue, and a time frame for resolution. Examples of situations where Learning Plans may be initiated include delayed academic progress, problems with clinical skills, delayed submission of academic work, examination failures, second course withdrawal (excluding approved EAH), or issues regarding communication. The Learning Plan is written by the student in consultation with the Course Coordinator, Course Faculty, Regional Clinical Faculty, Clinical Director, Program Director, or Associate Dean. Learning Plans for a second course withdrawal will be written by the student in consultation with the Associate Dean (MSN and PGC students) or Program Director (PM-DNP students). Learning Plans are designed to improved student success by addressing a specific issue within a course and are not recorded on the student's academic record. Failure to participate in the Learning Plan process is grounds for initiating a Performance Plan.

Performance Plans

A Performance Plan is initiated when a student is having a serious or multifaceted problem in either didactic coursework or clinical performance related, but not limited, to academic performance, academic progress, and communication. Performance Plans are implemented to address and provide support in an area in which the student must improve in order to be academically and/or clinically successful. Examples of situations that prompt a Performance Plan include failure of a didactic course, third course withdrawal (excluding approved EAH), unsafe clinical care, failure of multiple tests and/or assignments, prolonged or arrested academic progress, poor communication, plagiarism, or professional issues. Performance Plans are recorded on the student's academic record. Additional tuition and/or added term fees may be incurred if academic or clinical remediation extends beyond the original anticipated timeframe for program completion.

Performance Plans Initiated by Didactic Course Failure

The Performance Plan process for didactic course failure will begin once the final grade of F is posted to the student's transcript. Students will establish the Performance Plan with their professional advisor no later than the last day of drop/add the following term (or 1 week after an I grade changes to an F). A required component of the Performance Plan is for students to establish a Course Success Plan with the Course Coordinator of the repeated course no later than 2 weeks after the start of the term (or 1 week after an I grade changes to an F). The Performance Plan will largely focus on life factors, i.e. time management related to school/home/work responsibilities or test anxiety, and the Course Success Plan will focus on specific academic areas of improvement, i.e. improving performance on a specific type of assignment or techniques to improve comprehension of specific concepts. The Course Coordinator of the failed course will be contacted and participate in formulating the Course Success Plan. A Performance Plan initiated by a didactic course failure will be considered completed when the student successfully completes the repeated course. Because a second course failure results in academic dismissal, there is no escalation to a second Performance Plan due to a repeated course failure. Failure to participate in the process or agree to the terms of a Performance Plan is grounds for review for dismissal from FNU.

Performance Plans Initiated by Communication, Professionalism, Third Course Withdrawal, Plagiarism, and Clinical Issues

The Performance Plan process for all situations other than a didactic course failure will be initiated by the Associate Dean (MSN, including ADN Bridge Entry, and PGC students in didactic coursework), Clinical Director (MSN and PGC students in clinical coursework), or Program Director (PM-DNP students). A Performance Plan initiated by communication, professionalism, plagiarism, and clinical issues may be initiated at any point in time and is not strictly related to academic success in a course. A Performance Plan will be considered completed when the student successfully meets the objectives set forth in the Performance Plan within the established timeframe as designated in the Performance Plan. Failure to meet the objectives set forth in the Performance Plan within the established timeframe will result in a re-evaluation of the plan, escalation to a second Performance Plan, or review for potential dismissal from FNU. Failure to participate in the process or agree to the terms of a Performance Plan is grounds for review for dismissal from FNU.

Licensure

All students are required to maintain a current and unencumbered RN license while enrolled at FNU. If assignment to a clinical practice site requires that the student practice in another state, then the student is required to meet licensing requirements according to statutes and obtain the appropriate license.

Limitations to Attending Births while Enrolled in FNU Programs

FNU students may not attend births as the provider unless licensed as a CM or a CNM except with the direct supervision of the preceptor during the Clinical Practicum. Violation of this policy will result in automatic dismissal from FNU.

Students must not catch a baby even if it is suggested by a supervising physician or certified nurse-midwife.

Out of Hospital Births

Frontier Nursing University encourages students to be exposed to birth outside the hospital and accepts the American College of Nurse-Midwives Position Statement on Homebirth that provides for safety of mother and baby. If students plan to observe a birth in a birth center or home or function in the role of RN, birth assistant, and or doula, etc. it must be with a licensed provider who has malpractice insurance coverage.

An FNU student cannot be present at out of hospital Vaginal Birth after Caesarean (VBAC), multiple gestation, or breech birth. Students should contact the Clinical Director or Associate Dean to discuss this and receive approval before attending any out-of-hospital birth.

Advanced Practice as an Enrolled FNU Student

FNU students may not practice in an unlicensed advanced practice role while enrolled as a student in a FNU. Practicing as an unlicensed nurse practitioner or midwife could have serious implications for the FNU malpractice coverage, and the viability of FNU. Practicing as an unlicensed advanced practice nurse while enrolled as a Frontier student, except with the direct supervision of the preceptor during the Clinical Practicum, will result in automatic dismissal from FNU.

Name Change

Once a student is enrolled at FNU their name cannot be changed unless legal documentation is provided (marriage license, divorce papers, passport, driver's license, etc.). To request an official name change, please send legal documentation of the name change to the Registrar, registrar@frontier.edu.

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act of 1974 (FERPA), ensures students have the right to privacy in their education records and affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day Frontier Nursing University (FNU) receives a request for access.
 - A student should submit to the Registrar a written request that identifies the record(s) the student wishes to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Registrar, the student will be advised of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.
 - A student who wishes to ask FNU to amend a record should write the FNU Registrar, clearly identify the part of the record the student wants changed, and specify why it should be changed.
 - If FNU decides not to amend the record as requested, FNU will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
 - The right to provide written consent before FNU discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

- FNU discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by FNU in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom FNU has contracted as its agent to provide a service instead of using FNU employees or officials (such as an attorney, auditor, collection agent, or clinical site); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for FNU.
- 3. The right to file a complaint with the U.S. Department of Education concerning alleged failures by FNU to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

Disclosure of Directory Information

The Family Educational Rights and Privacy Act (FERPA), allows FNU to disclose appropriately designated "directory information" without written consent, unless a student has advised FNU to the contrary. The primary purpose of directory information is to allow FNU to include this type of information in certain school publications.

Publication examples include:

- The FNU Directory
- Newsletter Articles
- Alumni Listings
- Commencement programs
- Student Council Lists

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a student's prior written consent. Outside organizations include, but are not limited to, organizations such as the American College of Nurse-Midwives or the American College of Nurse Practitioners and/or companies that publish textbooks or make commencement pins and regalia.

If a student does not want FNU to disclose directory information without their prior written consent, the student must notify FNU in writing by the first day of each term. The notice should be sent directly to the Registrar. This notification will result in the student's name not being included in course roster lists or the school directory. The result is that the student will be responsible for directly assuring that everyone who needs their contact information has that information.

FNU has designated the following information as directory information:

- Student's name
- Participation in officially recognized activities (For example: Student Council, SAGE mentoring)
- Address
- Telephone listing
- Electronic mail (email) address
- Photograph
- Degrees, honors, and awards received
- Major field of study
- Dates of attendance

Pets on Campus

No pets allowed on campus. Only service animals are permitted.

Plagiarism Policy and Procedure

Plagiarism is the representation of another person's ideas or writing as one's own. Plagiarism is an infraction of academic integrity prohibited by the FNU Honor Code.

The **most serious form of plagiarism** involves an entire work or section of work taken verbatim from another source and submitted it as original work. A serious breach in academic integrity will result in the student being referred to the Administrative Team/Student Review for a possible Honor Code Violation, which may result in the convening of an Honor Code Council. An Honor Code violation can lead to dismissal from Frontier Nursing University.

Any of these examples are considered plagiarism and constitute a serious breach of academic integrity:

1. Submitting a paper, examination, or assignment written by another.
2. Word-for-word copying of another's writing from the internet, hard copy text, and/or personal communication, without enclosing the copied passage in quotation marks and acknowledging the source in the appropriate APA format.
3. The use of a unique term or concept taken from another source without acknowledging that source.
4. The paraphrasing or abbreviated restating of someone else's ideas without acknowledging that person.*
5. Falsely citing a reference that was never actually consulted, or making up a citation.
6. Falsely reporting data that was never actually collected or that showed contrary results.
7. Unacknowledged multiple authors or collaboration on a project or paper.

Minor examples of plagiarism - Writing Errors

The following examples are considered minor breaches of academic integrity:

1. Missing citations
2. Verbatim copying of a single sentence
3. Poor adaptation of a sentence with a citation present
4. Pasting of a sentence with an incorrect citation that does not designate the material as being a direct quote.

Because continually submitting work with writing errors constitutes plagiarism, when an instance of plagiarism is determined by the faculty to be a writing error and not a serious example of plagiarism, the following steps will be taken:

1. Course faculty examine the student's academic record to determine if the student has had a previous statement entered about writing errors or possible plagiarism.
2. Course Coordinator to send an email to the student describing the concern of possible plagiarism and include the passage(s) in question. The email should ask the student to provide the original passage, the passage in question, the original source, an explanation of how they approached citing this passage, and if the student had any outside help with the passage or citation (for every passage in question). The email should also request a meeting with the student to discuss the information.
3. Student must review the plagiarism policy and honor code statement before the meeting.
4. Course Coordinator meets with the student and decides if plagiarism occurred, and if so, the type of plagiarism.
5. Course Coordinator determines if the offense is serious enough to be brought to the attention of the ADs. If so, the information will be sent via email to the ADs for further investigation and decision to take the issue to Honor Code Council.
6. Course Coordinator enters the information into the student's academic record with an alert to the Academic Advisor.

Prerequisites and Planning for Clinical Bound

Clinical Bound Prerequisites

The prerequisites to attending Clinical Bound are:

- The student must meet all prerequisite health requirements.
- Successful completion of all courses that are prerequisite to Clinical Bound.

- Completion of Level I and Level II Course Evaluations.
- Completion of Clinical Bound preparatory course readings and assignments.
- Submission of registration materials to the Hyden Campus
- Completion of Pre-Clinical Interview with Regional Clinical Faculty (RCF)
- Certification in Basic Cardiac Life Support (BCLS) offered by either the American Heart Association or Red Cross must be current and remain current throughout the Clinical Practicum for all students. ACLS certification cannot be substituted for BCLS certification.
- Certification in Neonatal Resuscitation offered by the American Academy of Pediatrics and American Heart Association must be current and remain current throughout the Clinical Practicum for nurse-midwifery students.
- Student must have an identified clinical site that has been submitted to the Clinical Credentialing Department. This must be accomplished before the registration period in which the student is registering for Clinical Bound courses. Students cannot be registered for Clinical Bound until a site has been identified and submitted to Clinical Credentialing.

Note that successful completion of the Clinical Bound PC course (sequenced first in Clinical Bound schedule) is required before progression to the specialty Clinical Bound courses is allowed. If a student is unable to successfully complete the Clinical Bound PC course, they must withdraw from their specialty Clinical Bound course.

Clinical Bound Planning

All students will have a phone meeting with their Student Advisor two terms before they intend to attend Clinical Bound to discuss their academic progress and the plan to complete all prerequisites prior to the scheduled Clinical Bound. The Advisor reviews progress with the student and sets realistic goals regarding attending Clinical Bound. The student is reminded that the RCF needs to be contacted for a pre-clinical interview prior to attending Clinical Bound. Clinical sites are submitted to credentialing to begin the credentialing process (preferably 6 months before the planned Clinical Bound session).

The student contacts the appropriate RCF as soon as sites are identified to review the clinical plan and to have clinical sites approved and submitted to credentialing by the RCF. The student meets with the RCF up to 3 terms before going to Clinical Bound to get an assigned CB date. The student has to have approved sites before being assigned a specific CB date. If the student needs to change CB dates, the student must send a request letter to the RCF and to the appropriate Associate Dean and Clinical Director for review. It is the student's responsibility to notify their RCF, their preceptor, Credentialing, and the Hyden campus if there is any change to their CB date.

Any physical limitations and/or needed accommodations that may affect a student's full participation in clinical must be discussed with the Associate Dean and Clinical Director prior to Clinical Bound.

Clinical Prerequisites

- The student must meet all prerequisite health requirements and keep Tuberculosis status updated yearly while in clinical.
- Successful completion of all courses that are prerequisite to Clinical Courses.
- Completion of Clinical Bound Course Evaluations.
- Certification in Basic Cardiac Life Support (BCLS) offered by the American Heart Association or Red Cross must be current and remain current throughout the Clinical Practicum for all students. ACLS certification cannot be substituted for BCLS certification.
- Certification in Neonatal Resuscitation offered by the American Academy of Pediatrics and American Heart Association must be current and remain current throughout the Clinical Practicum for nurse-midwifery students.
- Complete background check.
- Review individual site contracts with credentialing. The student is responsible for any site specific requirements that are described in the Clinical Site Agreement and must meet those requirements at their own expense.
- Have final approval for each clinical site from RCF before attending first day of clinical at the site.
- Mobile clinical resources are provided by the FNU Library one time only for a subscription period of one year (which begins upon registration of the application).

Probation (formerly Suspension)

A student who is on probation is not allowed access to any course work or to any forums. They will retain access to the email system and the portal page including FNU Catalog and directory.

Professional Conduct

FNU recognizes that honor is an individual's achievement and cannot be imposed by others. The efforts of each individual affect the group — the “all for one, one for all” principle. The benefits of honorable conduct by each individual, whether student, faculty, staff, or administration, are obvious. The reputation of FNU is enhanced by honorable conduct and the value of the education received in FNU is increased. Conversely, FNU's reputation and the value of an FNU education could be damaged by violations.

FNU expects the highest ethical standards from its students. The nurse practitioner and nurse-midwifery professions demand that individuals be prepared to practice competently and safely and be accountable for all their behaviors. Integrity, moral soundness, honesty, uprightness in character and actions—these are a few of the definitions of professional conduct. Integrity is the most critical characteristic students bring to FNU and it will be the most critical characteristic they will take with them into professional practice.

Research

Students who are planning to complete a research requirement and desiring to utilize FNU related data must review the Policies and Procedures Related to Research and complete a research application. These documents are available from the Office of Research.

Safety and Security While on the Hyden Campus

When students are in residence at the Hyden campus, a security officer will be on duty in the Guard House from 10 pm to 6 am. When faculty and students are present, only authorized students, faculty, and staff will gain entrance to the FNU grounds during these hours. Students, faculty, and staff will be required to identify themselves to the security officer upon entering the FNU grounds when the security guard is in attendance. The security officer will notify the city police department immediately of any infraction of the law. All students, faculty, and staff are expected to cooperate with the security officer.

FNU is not liable for student's' personal possessions on the school campus. While on the Hyden campus students should take the following actions to protect themselves and their belongings:

1. Do not walk or jog alone.
2. Stay away from isolated areas.
3. Stay near lighted areas.
4. Do not carry large amounts of cash.
5. Do not display expensive jewelry.
6. Keep doors locked when alone and during the night hours.
7. Do not let strangers in any FNU buildings.
8. Lock valuables when not attended.
9. Lock car doors.
10. Report suspicious persons or activities to the security officer.

The Guard House phone number is (859) 899-2699. If students feel threatened in any way, they should call 911 immediately. Report any vandalism or theft to the Site Manager during weekdays.

Pursuant to the provisions of the Federal Crime and Campus Security Act of 1990, FNU makes crime rates and statistics available as well as security policies and procedures to interested parties. To receive a copy of this information, please contact the Director of Human Resources on campus, (606) 672-2312. As of the date of this publication, no crime has been reported on the FNU school property.

Satisfactory Academic Progress Policy

All students at Frontier Nursing University (FNU) must make reasonable and timely advancement toward completion of their degree or certificate. This is known as Satisfactory Academic Progress (SAP).

Satisfactory Academic Progress is evaluated from the first courses attended by a matriculated student at FNU, regardless of whether or not the student received financial aid for these courses. In order to be considered making Satisfactory Academic Progress, all students must meet the following criteria:

- A. Cumulative Grade Point Average: All students enrolled at FNU must maintain a minimum grade point average of 3.0. Students with less than a 3.0 at the completion of any term will be reported to the Associate Dean by the Registrar. Students will be placed on Academic Warning with a Performance Plan in place. Failure to bring the grade point average to at least 3.0 in the following term will result in dismissal from FNU. Attaining a grade point average of less than 3.0 at the end of a term more than once while enrolled in a program of study will result in dismissal from FNU.
- B. Satisfactory completion of a course results in a grade of A or B. Courses with the following grades do not count toward total credits completed: I - Incomplete; W - Withdrawal; IP - In Progress and F - Failed.
- C. Cumulative Credits Earned: Matriculated students completing five (5) credits or more will be considered full-time status in a given term. Matriculated students completing four (4) credits or less will be considered part-time status in a given term. A student's status may change from full-time to part-time status within a given term due to course withdraw. In regards to SAP (Satisfactory Academic Progress), cumulative credits earned is reviewed at the end of each term that the individual student is enrolled.
 - Course enrollment must be in courses counting toward the student's degree.
 - Courses with the following grades do not count toward total credits completed: I - Incomplete; W - Withdrawal; IP - In Progress and F - Failed. Except for "F," none of these grades are included in the GPA calculation.
 - Repeated Courses: When a student is permitted to repeat a course, both the original and repeat enrollments will be noted on the student's transcript. However, only credit and grade points earned for the most recent grade are counted in computing the grade point average and determining the number of credits successfully completed.
 - Transfer credits will be used to satisfy credit requirements for meeting this criterion. Transfer credits will be counted as both hours attempted and hours completed.
- D. Complete the degree or certificate within the following maximum time frame:
 - Students enrolled in the MSN must complete by the following maximum time frame:
 - ☐ CWHNP – 179% - Students must maintain a cumulative completion rate equal to or exceeding 56% of the credits attempted. Transfer credits should be calculated as attempted and successfully completed.
 - ☐ CFNP – 186% - Students must maintain a cumulative completion rate equal to or exceeding 54% of the credits attempted. Transfer credits should be calculated as attempted and successfully completed.
 - ☐ CNEP – 193% - Students must maintain a cumulative completion rate equal to or exceeding 52% of the credits attempted. Transfer credits should be calculated as attempted and successfully completed.
 - Students completing the ADN Bridge Entry Option must complete the Bridge year at the following maximum time frame:
 - ☐ CFNP – 150% - Students must maintain a cumulative completion rate equal to or exceeding 67% of the credits attempted.
 - ☐ CNEP – 150% - Students must maintain a cumulative completion rate equal to or exceeding 67% of the credits attempted.

SAP (Satisfactory Academic Progress) Calculation Example:

Course Code	Course Name	Term	Credits	Grade
-------------	-------------	------	---------	-------

PC700	Communication and Intro to Schol. Writing	Summer 2015	3	T
PC701	Principles of Health Promotion	Summer 2015	3	A
PC702	Epidemiology & Biostats	Fall 2015	3	A
NP700	The Role of the Nurse Practitioner	Fall 2015	3	A
PC703 or PC718	Evidence Based Practice	Fall 2015	3	W
PC705	Advanced Pathophysiology	Fall 2015	3	A
PC706	Advanced Physical Assessment	Winter 2016	3	I
PC707	Advanced Pharmacology Across the Lifespan	Winter 2016	3	A

Attempted 24
Credits

Successfully Completed 18 *W, I or IP grades are not counted as successfully completed courses; I and IP grades are counted as successful only after they have been converted to a passing grade.*

SAP 18 /24 = 75%
Percentage

Degree Completion

Students are expected to earn their degree within the parameters of Satisfactory Academic Progress in order to maintain federal financial aid eligibility. For further information, please review the **Degree Completion Policy**.

Satisfactory Academic Progress Warning

Students who do not meet the standards of Satisfactory Academic Progress at the end of the term will automatically be placed on warning for the following term. If a student is placed on warning due to an I or IP grade, their Satisfactory Academic Progress will be reassessed once the I or IP grade is replaced with the grade of an A or B. The I or IP grade must be replaced within the time frame stated in the catalog. The warning will be lifted once the grade is replaced and the student has met SAP.

Satisfactory Academic Progress Probation

At the end of the warning period term, students must again be making Satisfactory Academic Progress as outlined above or the student will be placed on probation and brought to the Administrative Team for consideration for dismissal.

Financial Aid Implications

To be eligible for financial aid from federal, state, and most FNU funding a student must be making Satisfactory Academic Progress as defined in this policy. Note that the federal government limits the total amount of aid that any student is eligible to borrow during their enrollment in higher education. This policy does not address that limit as it changes periodically. Check with the Financial Aid Director for more information.

Students on warning are eligible to receive financial aid during the one term warning period. At the end of the warning period, students must be making Satisfactory Academic Progress as outlined above or the student will be placed on probation with financial aid being terminated. The student will be brought to the

Administrative Team for consideration for dismissal. Students will be removed from warning or probation if they are again making Satisfactory Academic Progress.

Appeals

Students who fail to meet Satisfactory Academic Progress standards and placed on probation, losing their financial aid eligibility can appeal this decision. The appeal must be made in writing and should be accompanied by appropriate supporting documentation. Appeals should be submitted to the Financial Aid Office. Acceptable reasons for appeal might include injury or illness of the student, illness or death of an immediate relative of the student, or other extenuating circumstances beyond the student's control. Appeals will be brought to the Administrative Team for action. Decisions will be communicated to the student within 14 days of the time the appeal was submitted.

Student Attendance at the Beginning of the Term

At the beginning of every term, student attendance will be verified in each course. The Course Coordinator will post a thread in the course forum named Roll Call. Every student is required to respond to the Roll Call during the first 72 hours of the term (by midnight of the third calendar day of the term). This is the final step in course registration. Students who do not respond to the Roll Call thread will void their registration and automatically be dropped from the course. Students who are dropped from all courses for which they are registered will be withdrawn from FNU. Students who request to re-enroll in a course after failing to respond to roll call will be charged a course re-enrollment fee. See the **Tuition and Fees** section of this Catalog for current fees.

Student Loan Deferments

Student Loan Deferments are processed by the Registrar's office. Please allow a five (5) business day turnaround time for the completion of paperwork. Please note it is the student's responsibility to ensure that lenders receive the completed paperwork and to ensure that their status is current with all lenders.

Substance Use

Alcohol & Drug Prevention Program & Policy

Under the "Drug Free Workplace Act of 1988" and the "Drug Free Schools and Communities Act Amendments of 1991" Frontier Nursing University is required to notify all employees and students of its specific alcohol and drug policy program. The elements of the policy and program include consequences that may follow the use of alcohol and other drugs, and sanctions that may be applied both by the University and by external authorities. The law requires that individuals be notified of possible sources of assistance for problems that may arise as a result of use.

This policy is intended to educate members of the University community about the health risks associated with the use and abuse of alcohol and other drugs and about the resources available for counseling and therapy. In addition, in order to assure a work and learning environment that promotes the University's mission and proper function, the University prohibits unlawful possession, use, or distribution of alcohol or illicit drugs by faculty, staff, or students. Federal and state sanctions also apply to such conduct.

Prevention strategies include efforts to change inappropriate community norms regarding alcohol and other drug use, to alter environmental factors that support inappropriate use, and to provide information and skills regarding sensible use.

FNU reserves the right to test for drugs and/or alcohol those students who could reasonably be suspected of drug or alcohol abuse, based on appearance, smell, speech, irrational or unusual behavior, or carelessness or disregard for the safety of others. This suspicion may be raised by students, faculty, staff, preceptors, or other concerned parties. Urine or blood samples would be obtained under the supervision of an appropriate health care professional. Results of any drug/alcohol test may be shared with the members of the Administrative Team and may result in disciplinary actions up to and including dismissal. The drug/alcohol tests will not be conducted if an individual refuses to submit, however, refusal to submit may result in immediate referral to the Administrative Team for dismissal.

Health Risks

The use or abuse of alcohol and other drugs increase the risk for a number of health related and other medical, behavioral, and social problems. These include acute health problems related to intoxication or overdose (blackouts, convulsions, coma, death); physical and psychological dependence; malnutrition; long-term health problems, including cirrhosis of the liver, organic brain damage, high blood pressure, heart disease, ulcers, and cancer of the liver, mouth, throat, and stomach; contracting diseases, such as AIDS, through the sharing of hypodermic needles; pregnancy problems including miscarriages, stillbirths and learning disabilities; fetal alcohol syndrome (physical and mental birth defects); psychological or psychiatric problems; diminished behavior (hangovers, hallucinations, disorientation, slurred speech); unusual or inappropriate risk-taking which may result in physical or emotional injury, or death; violent behavior towards others, such as assaults and rape; accidents caused by operating machinery while impaired; impaired driving resulting in alcohol and drug-related arrest, traffic accidents, injuries, and fatalities; negative effects on academic or work performance; conflict with co-workers, classmates, family, friends, and others; conduct problems resulting in disciplinary actions, including loss of employment; and legal problems including imprisonment.

Counseling and Treatment Programs

The University encourages individuals with alcohol or other drug-related problems to seek assistance. If a student is enrolled in or seeks counseling for alcohol or other drug-related problems, he/she is required to discuss the situation with the appropriate Associate Dean, Program Director or Clinical Director to formulate a plan for support during the educational process.

Access this link for [Confidential Assistance](#) for Frontier Nursing University students, faculty and staff members.

Counseling and Support Services

Additional information on local, state, and national resources can be accessed by clicking the [Confidential Assistance](#) link.

University Sanctions

Unlawful possession, use, manufacture, or distribution of alcohol or illicit drugs by faculty, staff, or students may lead to sanctions within the University, the severity of which shall increase as the seriousness of the violation increases. Consequences may include:

- A verbal or written disciplinary warning, with notice that repetition of the offense or continuation of the offense may result in a more serious sanction up to and/or including separation from the University;
- Required completion of an appropriate rehabilitation program, at the student's expense, in order to continue enrollment or employment;
- Required ongoing plan of support for the student which may include ongoing drug testing and reporting;
- Suspension from the University (student) or from employment (employee) or from a specific University activity or facility for a fixed period of time or until completion of specified conditions, such as completion of an appropriate rehabilitation program, at the individual's expense;
- Expulsion from the University (student) or termination of employment (faculty and staff)

Other Appropriate Sanctions: External Sanctions

Unlawful possession, use, manufacture, or distribution of alcohol or illicit drugs may also lead to a referral to the appropriate local, state, and/or federal authorities for prosecution for a misdemeanor or felony, depending on the nature of the offense. The sanctions for such offenses may include fines and/or imprisonment.

For example, under federal laws trafficking in drugs such as heroin or cocaine may result in sanctions up to and including life imprisonment for a first offense involving 100 grams or more. Fines for such an offense can reach \$4 million. Offenses involving lesser amounts, 10-99 grams may result in sanctions up to and including 20 years imprisonment and fines of up to \$20 million. A first offense for trafficking in marijuana may lead to sanctions up to life imprisonment for an offense involving 1,000 kg or more or up to 5 years imprisonment for an offense involving less than 50 kg. Such an offense carries with it fines that can reach \$4 million for an individual offender.

In Kentucky, first offense driving under the influence of alcohol or a controlled substance will result in a fine of \$200 - \$500 and imprisonment in the county jail for 2 – 30 days. A second offense within a five year period will

result in a fine of \$300 - \$500, imprisonment in the county jail for 7 days – 6 months, and possibly community service labor for 10 days to 6 months.

Employee Reporting Requirement

Under the Drug-Free Workplace Act of 1988, in addition to the other requirements of this policy, a faculty or staff member who works in any capacity under a federal grant or contract must notify his or her University supervisor or department head, in writing, of his or her conviction for a violation of any criminal drug statute no later than five calendar days after such conviction. This applies to direct charge employees and to the indirect charge employees who perform any support or overhead functions related to the grant.

Distribution of Policy

A copy of this policy statement shall be located in the FNU catalog which is available to all faculty, staff, and students via the Banyan Tree Portal Page.

Review of University Program and Policy

Biennially, the University shall review its “Alcohol and Drugs Prevention Program and Policy” to determine the program’s and policy’s effectiveness and implement changes, if needed, and to ensure that the University’s disciplinary sanctions are consistently enforced.

To be under the influence of drugs or alcohol while providing patient care could jeopardize the health and safety of clients and would be a prime cause for the Administrative Team to recommend dismissal.

A complete copy of the Frontier Nursing University Substance Abuse Policy and Comprehensive Substance Abuse Testing Program is available to any student. This may be obtained by calling the Director of Human Resources on the Hyden Campus at (606) 672-2312.

Tobacco Use Policy

Introduction

Frontier Nursing University is committed to the prevention of illness and injury through the provision and maintenance of healthy and safe conditions on its premises and due diligence in its activities.

Frontier Nursing University endeavours to provide a healthy and hazard-free environment and minimize risks by adherence to all relevant legislation, and where appropriate, through the development and implementation of additional internal standards, programs and procedures.

Frontier Nursing University recognizes scientific evidence indicating that tobacco products are harmful to one’s health and to the health of others through exposure to secondhand smoke. Tobacco use, such as smoking, dipping and chewing, can cause many illnesses such as cardiovascular and respiratory diseases and cancer. In fact, cigarette smoking is the leading cause of preventable death and disability worldwide. Non-users exposed to secondhand tobacco smoke can also incur illnesses such as asthma, bronchitis, cancer, chronic pulmonary and cardiovascular diseases.

Frontier Nursing University recognizes tobacco as an addictive substance and is committed to providing information aimed at providing protection from secondhand tobacco smoke while supporting those addicted to nicotine with resources for smoking cessation services such as counseling and medications.

Purpose

The purpose of this policy is to:

- ❖ provide protection from secondhand tobacco smoke
- ❖ communicate smoking and tobacco use restrictions
- ❖ recognize that tobacco is an addictive substance, and provide tobacco cessation support to members of the campus community who are addicted to tobacco products
- ❖ prevent tobacco uptake, and promote a tobacco-free lifestyle and tobacco cessation
- ❖ reduce the ability of tobacco companies to normalize tobacco products and tobacco use
- ❖ reduce fire risks

Scope

This policy applies to anyone on the Frontier Nursing University Versailles campus.

All events hosted on Frontier Nursing University Versailles Campus are subject to this policy.

Definitions

“Smoking” means inhaling, exhaling, burning, carrying or possessing any lighted tobacco product, including cigarettes, cigars, beedi, pipe tobacco, water-pipes, hookahs or any other lighted tobacco products, as well as any product consumed in a similar manner; or the use of a vaping device with or without nicotine or tobacco products, electronic cigarette or any other device intended to simulate lighted tobacco use.

“Tobacco products” means cigarettes, cigars, pipe tobacco, hookah, smokeless tobacco, snuff, chewing tobacco, smokeless pouches, dissolvable tobacco products like orbs (dissolvable tobacco pellets), sticks, and strips or any other forms of ignitable or smokeless tobacco.

“University property” means the Frontier Nursing University Versailles Campus including the interiors and exteriors of all buildings, land, parking facilities, university-owned or -leased vehicles (regardless of location), athletic facilities.

Policy Statements

PART A: Sale and Promotion of Tobacco Products

Frontier Nursing University prohibits the promotion, advertising, or sale of any tobacco products or related paraphernalia on Frontier Nursing University owned, rented or leased property.

In addition and in accordance with the federal Tobacco Act, corporate tobacco sponsorship of Frontier Nursing University events or groups is prohibited.

Frontier Nursing University, employees, students and retailers operating in buildings owned, rented or leased by Frontier Nursing University are prohibited from entering into contractual agreements with tobacco companies or companies that promote tobacco.

PART B: Support for Tobacco Cessation

Students: All students can get tobacco cessation assistance from local state funded programs. Tobacco cessation medications (prescription and over-the counter) are usually covered in personal insurance plans.

PART C: Designated Tobacco Use Areas

There are no outdoor Designated Tobacco Areas at Frontier Nursing University Versailles Campus, smoking and smokeless tobacco use are prohibited on campus, including all properties and vehicles owned, rented or leased by Frontier Nursing University. All forms of tobacco use in personal vehicles on the Versailles campus is prohibited. All persons who wish to smoke, vape, or use tobacco products will be directed to an adjacent property to use tobacco products.

Signs at building entrances and the main points of entry to the Versailles campus (i.e., building entrances, campus entry, parking lots, walking trails, etc.) shall indicate the non-tobacco status of the university.

There will be a Designated Tobacco Area at Frontier Nursing University Hyden Campus in the interim until Frontier Nursing University operations are moved to the Versailles Campus. Tobacco users will be allowed to use tobacco products at a designated area adjacent to the tool shed. Smoking receptacles will be placed appropriately to dispose of tobacco products.

Wendover will have designated tobacco use areas.

Compliance with Tobacco Use Policy

Student failure to comply with the tobacco use policy will invoke disciplinary action. The first offense will result in a verbal and written warning and further explanation of the policy by the Administrative person on campus. A second offense may result in a request to leave the property. Other disciplinary actions will be outlined according to the performance plan policy as outlined in the University catalog.

Education about Tobacco Use Policy

The Tobacco Free Campaign will issue an announcement about the new initiative along with a timeline of events and go-live date of the policy. Education and promotional items will be utilized to increase awareness to all stakeholders of the new initiative.

Students will receive information on the tobacco free policy upon admission to the University, in the catalog. In addition, students attending campus for Campus tours, Frontier Bound, Clinical Bound, Crossing the Bridge, PMHNP Bound, PM-DNP Bound, and graduation will receive information in their event material.

Frontier Nursing University Tobacco Free Ambassadors program is aimed at creating an environment of campus ownership and responsibility for maintaining a tobacco free campus. This is a university wide initiative comprised of staff, faculty and students who are empowered to educate the campus community about the FNU Tobacco Free policy, encourage and monitor compliance. The Tobacco Free Ambassador program will utilize an evidence-based smoking cessation module along with simulations on how to effectively approach and educate tobacco users about the policy. Tobacco Free Ambassadors will recognize tobacco users with positive reinforcement incentives and provide friendly reminders and information to students, employees, and visitors using tobacco products on the campus. These interactions are central to promoting a healthier campus.

PART D: Participation of Tobacco Companies in Job Recruitment Fairs

Companies that manufacture, distribute or sell tobacco products are excluded from participating in campus career fairs and other recruitment activities.

PART E: Contracts with Tobacco Companies

Frontier Nursing University will not knowingly accept funding or other forms of support, including research grants, staff positions, or student scholarships, from tobacco companies or from any agencies or foundations in which the tobacco industry has an influence, either directly or indirectly.

PART F: Investments in Tobacco Companies

The Frontier Nursing University Board of Directors has adopted a socially responsible investment policy and does not invest, directly or indirectly, in any tobacco company.

Transcript Requests

The permanent academic record of all students enrolled at Frontier Nursing University and all alumni is maintained in the Office of the Registrar. Transcripts are available from the Registrar only upon student or alumnus written and signed request. No transcript will be provided for any student who has outstanding financial obligations to FNU. Requests for transcripts can be made online and the request will be completed once payment has been made:

<https://frontierschool.wufoo.com/forms/official-transcript-request-form/>

The current fee for transcripts can be found in the **Tuition and Fees** section of the FNU catalog.

Transfer from One Specialty Track to Another

Students may request a track change between specialties within the same degree at any time. In order to be considered for the track change, the student must be in good academic standing. All requests for changing tracks between specialties should be submitted and fees paid by the last day of registration (end of week 8) in the term before the student begins the new curriculum.

ADN Bridge Entry Option students will confirm their intended track at Crossing. Any track changes that occur after Crossing will adhere to the established policy for changing tracks.

Procedure

1. Discuss possible change of track with Advisor.
2. Request interviews with current and prospective Associate Deans (ADs) or Program Director (PD) to discuss and explain reasons for requesting a track change between departments. Student must have the approval of both ADs and/or PD in order to proceed with the change of track between departments. Students changing tracks within a single department only need approval from their current AD.
3. Complete Status Change Form- Track Change and remit payment of the administrative fee before end of registration period (end of week 8) in the term before the new Program of Study begins.
4. The academic advisor for the student's new track will set up the new Program of Study with the student and will consult with the appropriate AD or PD as needed.

Withdrawal from FNU

A student may decide to withdraw from FNU at any time. This decision should be discussed with the appropriate Associate Dean to explore alternative options. Once the final decision has been made, a letter or email shall be sent to the FNU Registrar in Hyden, Kentucky with copies to the Dean, the Associate Dean, the Student Advisor, the Regional Clinical Faculty, and the Clinical Preceptor. The date of the withdrawal will be determined by the postmark on the envelope of a written withdrawal request, the sent date of a withdrawal request transmitted by email, or a later date specified by the student.

Clinical Practicum Policies

The policies in this section apply to all FNU clinical students. Policies are listed separately for easy reference. All other FNU policies also apply to students during the Clinical Practicum.

Checklist for Beginning the Clinical Practicum

The complete timeline for MSN & PGC students preparing for Clinical Bound and entry into clinical can be found in the Clinical Bound 101 Course in Canvas. The complete timeline for DNP students preparing for entry into clinical can be found in the DNP Clinical Prep 101 in Canvas. The timeline and course in Canvas contain the most accurate and up-to-date requirements. Attendance at Clinical Bound is not required for the following students:

- Current students continuing in the DNP program
- CNM/CMs in the CNEP Refresher program
- Former CNEP graduates pursuing the women's health post-graduate certificate (PGC)

Prior to beginning the Clinical Practicum students will:

- Contact their Regional Clinical Faculty (RCF) to discuss clinical site preparation and requirements prior to completing and submitting the Clinical Site Approval Form (CSAF).
 - The CSAF is submitted through the Community Map, Instructions for completing the CSAF can be found on the Credentialing Department Home Page and in CB 101 (Canvas).
 - The RCF will assign a Clinical Bound date once the student has at least one approved clinical site submitted.
 - Students with no clinical sites submitted by the end of Add/Drop week will be ineligible to register for or attend Clinical Bound.
 - DNP students submit the Clinical Site Approval Form in the DNP Clinical Prep 101 in Canvas.
 - Potential clinical sites must be credentialed before students can begin clinical experiences at the site.
- Complete all required Clinical Compliance requirements [see Clinical Compliance section]
- Review the Clinical Practicum Policies in the FNU Catalog.
- Review CB 101 to prepare for Clinical Bound and the clinical practicum
- Contact preceptor to finalize arrangements for clinical.
- Arrange a pre-clinical orientation meeting with preceptor before or after Clinical Bound.
- Schedule the Transition to Clinical Interview with RCF prior to attending Clinical Bound. Complete necessary forms and upload to RCF before scheduled interview.

Clinical Compliance Requirements

All FNU students completing a clinical practicum are required to maintain current Clinical Compliance throughout the clinical experience. Documentation for all Clinical Compliance requirements is completed via Castlebranch.

The following Clinical Compliance requirements must be on file with FNU before students are permitted to register for courses during their CB term. Failure to complete clinical compliance requirements within the timeframe stated in CB101 will result in a block preventing registration for Clinical Bound and all courses taken at CB.

Clinical sites may have additional requirements, in which students are required to complete in order to rotate at the site.

- Unencumbered nursing license in all states, or eligible for nursing compact state licensure, where clinicals will be completed unless the student is rotating at a site that permits any US nursing license. (military, Indian Health Services, etc). RN license verification must be completed through Nursys Quick Confirm.
- Certification in Basic Cardiac Life Support (BCLS/BLS) for adults, pediatrics, and infants offered by either the American Heart Association (AHA, preferred), an approved AHA course provider, or the American Red Cross. Must be current and remain current throughout the Clinical Practicum for all students. ACLS is not a substitute. AHA certification cards issued by a course instructor must meet the criteria described by the AHA.

- Clinical background check (see Background Check Policy and Procedure section of this Catalog for additional details).
- Complete all sections of the FNU Student Health Verification Form including documentation of vaccinations or titers per the guidelines in the Health Form Guidelines and Checklist. Non-university forms will not be accepted. FNU Student Health Verification Form cannot be older than 12 months at any time during the clinical practicum. It is the student's responsibility to keep these documents current.
- OSHA/HIPAA training module and the HIPAA Agreement Form in CB 101.
- Documentation that the student is enrolled in a personal health insurance plan or maintains membership through a health sharing program in lieu of personal health insurance. Clinical sites may not accept health sharing membership programs.
- FNU records release form.
- If DNP students are employed in their clinical site, they do not have to maintain current clinical compliance for the university but must adhere to all any requirements of their employer.

For Nurse-Midwifery students:

- Maintain current neonatal resuscitation certification through the American Academy of Pediatrics (AAP) or an AAP approved course. All lessons must be completed.
- Maintain current certification in fetal monitoring skills throughout your clinical practicum. Current certification is defined as completion of:
 - AWHONN Introduction to Fetal Heart Monitoring Online Course
 - AWHONN Fetal Heart Monitoring Simulation (FHMSIM) Course
 -
- Clinical site(s) must include hospital birth experience. Out of hospital birth experience in an approved home birth practice or a birth center accredited by the Commission for the Accreditation of Birth Centers (CABC) is also recommended (but not required). Your clinical plan needs to be approved by your RCF in coordination with the Clinical Director.

For Women's Health Care Nurse Practitioner Students:

- Maintain current certification in fetal monitoring skills throughout your clinical practicum. Current certification is defined as completion of:
 - AWHONN Introduction to Fetal Heart Monitoring online Course
 - AWHONN Fetal Heart Monitoring Simulation (FHMSIM) Course
 - Either to be completed within 12 months preceding the anticipated clinical practicum start date.

Background Check Policy and Procedure

All FNU students are required to have a background check prior to starting their clinical practicum. The process for obtaining the background check is outlined in the CB 101 course in Canvas. This should be done the term prior to attending clinical bound. A background check cannot be older than 12 months at any time during the clinical practicum. Occasionally, a clinical site will require a specific type of background check. If this is the case, the student will be notified of this with instructions as soon as the FNU Clinical Credentialing Coordinator is made aware through the contract review process.

Any findings on the pre-clinical licensure or background check will be reported to the Clinical Director who will report the information to the preceptor(s) and the clinical site(s) for their review.

Clinical Requirements for MSN and Post-Graduate Certificates (PGC)

The integration of practice and theory is the hallmark of the FNU Clinical Practicum in advanced practice nursing. During the clinical experience a student is expected to master the clinical skills necessary to become a safe beginning level nurse-midwife or nurse practitioner. FNU students must complete a minimum number of clinical hours, a minimum number of calendar weeks in which clinical is done, minimum requirements for clinical experiences in all areas of practice as evidenced by completion of required clinical visits, a signed declaration of safety, and the RCF's final approval. The FNU minimum clinical experience for MSN students is 675 clinical hours

and sixteen (16) weeks of clinical. The FNU minimum clinical experience for post-graduate students is 540 clinical hours with fourteen (14) weeks of clinical. These minimum clinical requirements apply to all specialty tracks. FNU students should plan to complete clinical in two to three terms. This allows time for coursework and adequate time to integrate didactic work and clinical skills.

The inclusion of a clinical immersion experience has been shown to help develop student assimilation into the role of advanced practice nurses. FNU requires a combination of a minimum number of hours for the clinical practicum as well as specific clinical experiences in each specialty track. RCFs may specify limitations on hours, types of experiences, etc. at their discretion in consultation with the Clinical Director (CD).

- Clinical experiences may overlap such that one patient encounter could count for two categories, but a single visit may not count for more than two categories.
- When observing patient care during the orientation process in a preceptor site, students may count this time toward the clinical hour requirement.
- Patient visits cannot be counted toward required clinical experiences if they are only observed with the exception of four births for nurse-midwifery students.
- Students may count four hours toward the clinical hour requirement for attending a Case Day. Students may count six hours, rather than four for attending, toward the clinical hour requirement for presenting at an in-person Case Day.
- For virtual case days: clinical students in attendance count actual hours in the meeting, and presenters count actual attendance hours plus two (2) hours' time for preparation time.
- Students may count a maximum of two Case Days toward the clinical hour requirement (not to exceed 10 hours total).
- Students may count attendance at staff meetings in the clinical site toward the clinical hour requirement (not to exceed four hours total).
- Students may count up to four hours toward the clinical hour requirement for attending a professional organization meeting; with a maximum of two professional organization meetings toward the clinical hour requirement. The RCF must approve these meetings prior to attendance for these to count.
- Students may count up to 4 hours of clinical orientation if required by the site.
- Students may not count continuing education programs or review courses toward the clinical hour requirement.
- In no instance may a student record more than 18 hours of non-direct patient care as defined above

Any student who will out of clinical must inform the RCF if the absence from clinical continues for more than 14 days the Clinical Director is to be informed.

Nurse-Midwifery Required Clinical Experiences

Minimum number of clinical hours per week:

- 16/week in NM712-716 for students who attended CB prior to Winter term 2019
- 20/week in NM712-715 and 30/week in NM716 for students who attended CB Winter term 2019 or after

Maximum number of clinic/office hours per week: 32 dependent upon call schedule.

Please meet with your RCF to discuss any proposed exceptions.

- 10 preconception care visits
- 30 new antepartum visits
- 140 return antepartum visits
- 40 labor management experiences
- 40 births (including 4 observations, at least 5 continuity clients, at least 5 without epidurals)
- 40 newborn assessments
- 20 breastfeeding support visits
- 40 postpartum visits (2 hours to 14 days)
- 30 postpartum visits (2 to 8 weeks)
- 40 common health problems
- 30 family planning visits
- 35 non-postpartum gynecologic visits
- 15 perimenopausal/postmenopausal visits

Women's Health Care Nurse Practitioner Required Clinical Experiences

Minimum number of clinical hours per week:

- 16/week WH712-716 for students who attended CB prior to Winter term 2019
- 20/week in WH712-715 and 30/week in WH716 for students who attended CB Winter term 2019 or after

Maximum number of clinic/office hours per day: 10

Maximum number of clinic/office hours per week: 40

Please meet with your RCF to discuss any proposed exceptions.

- 30 new antepartum visits
- 120 return antepartum visits
- 25 postpartum visits (< 8 wks)
- 300 gynecologic care visits
- 25 post/perimenopausal visits
- 100 primary care visits

Family Nurse Practitioner Required Clinical Experiences

Minimum number of clinic hours per week:

- 16/week in NM712-716 for students who attended CB prior to Winter term 2019
- 20/week in NM712-715 and 30/week in NM716 for students who attended CB Winter term 2019 or after

Maximum number of clinic/office hours per day: 10

Maximum number of clinic/office hours per week: 40

Please meet with your RCF to discuss any proposed exceptions.

- 5 Newborn exams
- 15 two weeks to 5 years well exams
- 15 two weeks to 5 years episodic exams
- 15 six to 12 years well exams
- 15 six to 12 years episodic exams
- 5 13 to 19 years well exams
- 5 13 to 19 years episodic exams
- 275 Adult episodic or wellness care
- 25 Geriatric episodic or wellness care (age >65)
- 30 Women's health visit (Speculum/bi-manual exams)
- 125 Client visits for chronic illness care
- 25 Geriatric chronic illness care (age >65)
- 10 New antepartum
- 30 Return antepartum

Psych-Mental Health Nurse Practitioner Required Clinical Experiences

Minimum number of clinic hours per week:

- 16/week in NM712-716 for students who attended CB prior to Winter term 2019
- 20/week in NM712-715 and 30/week in NM716 for students who attended CB Winter term 2019 or after

Maximum number of clinic/office hours per day: 10

Maximum number of clinic/office hours per week: 40

Please meet with your RCF to discuss any proposed exceptions.

- 10 Child or adolescent psychiatric intakes
- 20 Adult psychiatric intakes
- 10 Older person psychiatric intakes
- 20 Acute/Crisis Care Management
- 250 Medication Management
- 50 Pediatric/adolescent medication management
- 50 Substance Disorder Management
- 50 Seriously Mentally ill continuity care
- 15 Group therapy sessions
- 20 Individual Patients for continuity therapy sessions
- 20 Supervision encounters
- Case Days (consultation)
- Telepsych - Optional, no more than 20% of total clinical time may be spent doing telepsych

Required Clinical Experiences for CWHCNP (CNEP graduates only enrolled in WH639/N599)

Minimum number of clinic hours per week: 24

- 16/week in WH639/N599 for students who begin clinical prior to Winter term 2019
- 20/week in WH639/N599 for students who begin clinical during or after Winter term 2019.

Maximum number of clinic/office hours per day: 10

Maximum number of clinic/office hours per week: 40

Students enrolled WH639/N599 in CWHCNP must complete 180 total clinical hours in the following:

- WH639:
 - 60 hours primary care
 - 120 hours Women's Health care
- N599
 - 90 hours primary care
 - 90 hours Women's Health care

Insertion and Removal of Subdermal Contraceptive Implant (Nexplanon ®/Implanon ®)

Students may insert and remove subdermal contraceptive implants under the **direct** supervision of their preceptor (trained in this procedure) if they meet the following conditions:

1. Completion of the manufacturer's mandatory training by the student.
2. Copy of the training certificate has been uploaded into Canvas.

Students are not required to become certified in this procedure as part of the FNU credentialing process. The training certificate may be submitted at any time, but is **REQUIRED** before any insertion/removal is performed. Any deviation from this policy will result in the student being referred to the Student Review Committee.

Doctor of Nursing Practice Clinical Experience Requirements

The purpose of the DNP practicum is to grow in nursing leadership and the development of expertise in quality improvement.

DNP students complete quality improvement projects within clinical settings, ideally at the site of APRN employment. All hours are completed during the 3 term DNP clinical course series through a series of structured clinical assignments designed to support the planning, implementation, evaluation and dissemination of a quality improvement project. Students who desire to use out of hospital clinical sites for their DNP project should discuss this plan with their Clinical Faculty. Birth centers must meet FNU credentialing criteria and be nationally accredited by the Commission for Accreditation of Birth Centers (CABC) to be eligible for use during the clinical project.

During the 360 contact hours in the practicum, the student builds and broadens experience and leadership. The practicum provides an opportunity to demonstrate application level learning in the change process, synthesizing evidence, and planning for implementation of evidence into practice. Practicum activities are NOT a restudy in basic APRN skills and practicum hours do not include time spent on assignments for any other coursework.

Clinical Problem Resolution

FNU has a well-defined clinical problem resolution pathway available to students and preceptors. The tools in the problem resolution process are the Problem Identification Sheet, the Learning Plan, and the Performance Plan. The Regional Clinical Faculty (RCF) is to be notified of any identified clinical problem. The Daily and Monthly Developmental Assessment Tools (DDATs and MDATs) should reflect the preceptor's and/or the student's concerns.

A student must continue to attend clinical while the process of problem resolution takes place unless suspended from clinical. Any student involved in the process who fails to be present for a clinical session, without the express written permission of the RCF, may be suspended from FNU.

In the event that either the preceptor or the RCF has determined that appropriate student progress is not occurring, or that appropriate supervision cannot take place within the current site, a student may be required to relocate to a site designated by the RCF/Clinical Director. Such relocation will be at the student's expense and is not optional. In order to graduate, students must be able to fulfill the clinical requirements of FNU and demonstrate safe and competent care.

Clinical Site Changes

It is the responsibility of the (RCF), in consultation with the Clinical Director, to determine that a site meets the student's clinical needs. Individual student needs and site concerns may occasionally require a change in clinical sites. A student may also need to use more than one site to either meet the clinical experience requirements or to experience a variety of clinical situations. Where the volume of clients will not allow the required numbers to be attained in a reasonable period of time, the student will be expected to use more than one clinical site. This may require relocating from the student's community and possibly out of state. Students who need to change a clinical site must do so in consultation with the RCF in the region in which they currently reside. A student should not contact an RCF from another area of the country, nor should a student contact sites without first discussing this with the RCF and Clinical Director.

Clinical Site Requirements Prior to Beginning the Clinical Practicum

Each student will have chosen a clinical site and will have obtained site approval from the RCF prior to registration for Clinical Bound.

After the site has accepted the student, an Affiliation Agreement must be completed between FNU and the clinical site. No student may begin his or her clinical experience until FNU receives a signed Affiliation Agreement, verification the clinical site maintains professional liability insurance with acceptable limits, the preceptor has been fully credentialed, and the Pre-Clinical Site Visit has been scheduled/made if required. The student must be cleared by Clinical Credentialing and receive final approval to attend a clinical site by the RCF. Each student must meet both FNU and individual site requirements as determined by the contract between FNU and the site. **Starting clinical prior to the completion of site and/or preceptor credentialing is considered grounds for dismissal.** Affiliation agreements should be directed to the Clinical Credentialing office.

Midwifery students who desire to use out of hospital clinical sites during the clinical practicum should discuss this plan with their Regional Clinical Faculty. Birth centers must meet FNU credentialing criteria and be nationally accredited by the Commission for Accreditation of Birth Centers (CABC) to be eligible for use during the clinical practicum. Home birth sites may be utilized for clinical practicum if all FNU credentialing requirements are met including malpractice insurance. Home birth sites that provide home VBAC, multiple gestation or breech birth are not eligible and may not be used for any portion of the clinical practicum by any FNU students. Home birth practices are reviewed and approved by the Clinical Director and the Director of Clinical Credentialing prior to the clinical practicum. FNU students cannot function in the capacity of birth assistant at births that occur in the student's clinical site. All labors and births in the clinical experience must be attended by the CNM, student and a third person acting in the role of birth assistant. FNP, PMHNP, and WHNP students are not permitted to attend any birth experience.

Clinical Rotations at Birth Center Sites Offering Home Birth/Birth Center VBAC Services

Students in clinical rotation at CABC accredited birth centers offering home birth VBAC services or birth center VBAC services may not provide any care to these clients either in the birth center or at home. The student may not work with any pregnant VBAC client or attend associated home visits for any reason.

Students in clinical rotation at CABC accredited birth centers offering home birth VBAC services or birth center VBAC services will be required to sign an attestation of their understanding of this policy prior to beginning their rotation with that site. Violation of this policy may result in dismissal from the University.

The Clinical Site Visit

The RCF evaluates student performance at the Clinical Site Visit. During the Clinical Site Visit, the student must be able to demonstrate to the preceptor(s) and the RCF integration of didactic and clinical knowledge/skills and application in the student's area of specialty. The student should be able to demonstrate safe care for clients as appropriate to their progress in the program.

One Clinical Site Visit is conducted for each student. Additional Clinical Site Visits may be made depending on the student and/or site needs. Both students and preceptors will have an opportunity to provide a written evaluation of the Clinical Site Visit.

Clinical Supervision

Preceptors should adjust their level of supervision to the level of the student's development. The preceptor can refer to the FNU preceptor training course or obtain guidance from the RCF for help in this area.

Nurse-midwifery Students

- Nurse-midwifery students must have in-the-room supervision for all births and all suturing. As the student becomes more advanced this may only entail the preceptor's quiet presence in a corner of the room, but the preceptor's presence is required.
- When there is no opportunity in a community for CNM supervision of students for experiences such as gynecologic or newborn care, a nurse-midwifery student may be precepted by a nurse practitioner, provided an Affiliation Agreement is in place.
- Physicians cannot supervise a nurse-midwifery student for labors and births. These experiences must be supervised by the CNM preceptor.
- With the preceptor's knowledge and approval, a nurse-midwifery student may obtain additional clinical experiences and/or suturing experience with a physician, provided the physician is a member of the preceptor's practice and an Affiliation Agreement is in place. These experiences may or may not count toward the required number of patient visits and should be discussed with the student's RCF.

Nurse Practitioner Students

- Nurse practitioner students will generally be allowed to use no more than four separate clinical sites for their direct clinical experiences. Clinical observation may be arranged for additional sites but will not count towards the nurse practitioner student's total clinical hours and must be approved by credentialing, RCF, and Clinical Director.
- FNP students may spend up to a total of 40% of the clinical practicum hours with an MD or DO.
- Suitable primary care sites include, but are not limited to:
 - Community health centers
 - Public health departments
 - Family practice offices
 - Internal medicine offices
 - Pediatrics
 - WH/OBGYN/Midwifery
 - Geriatrics
 - Specialty sites (sites pertinent to the FNP scope of practice and for no more than 20% of total clinical time):
 - i. Convenient Care, Neurology, Cardiology, Endocrinology, Pulmonology, Dermatology, gastroenterology, mental health, and Fast Track/ED are the only approved specialty sites.
 - ii. No more than one specialty rotation may be completed during the clinical practicum.
 - iii. Specialty hours can be used as part of the Learning Plan, as approved by the RCF, for low scores in content area on the APEA predictor exam.
 - iv. Prior to completing rotations in specialty sites the student must complete and demonstrate satisfactory progress in primary care rotations
 - v. Students must be able to achieve the following learning objectives for a specialty rotation to be approved:

1. Have the ability to provide direct care to the patient; includes history, examination, diagnosis, and development of the plan of care.
2. Demonstrate the relevance of the specialty rotation and its relationship to the primary care provider for ongoing patient care.

Preceptors for these courses may include licensed/certified health professionals of the following types:

- Nurse-midwives
- Nurse practitioners
- Allopathic physicians (MDs)
- Osteopathic physicians (DOs)
- Suitable psychiatric mental health sites include but are not limited to:
 - Community Mental Health Centers
 - Intensive Outpatient Programs
 - Substance Abuse treatment centers
 - Private psychiatric offices
 - Crisis centers
 - Inpatient psychiatric units
 - Telehealth opportunities
 - Integrated Behavioral Health in Primary care
 - Long-term Care Facilities

Preceptors for these rotations include licensed/certified PMH professionals of the following types (must be at least Master's prepared):

- Psychiatric Mental Health Nurse Practitioners
- PMHCNS (may not use for med management)
- Psychiatrists (no limit on amount of time allowed with MD)
- Licensed Clinical Social Worker
- Psychologist (PsyD or PhD)
- Licensed Drug and Alcohol Counselor
- Client encounters for CWHCNP students are to be limited to female clients with the exception of male partners being evaluated/treated for sexually transmitted infections.
- CWHCNP PGC for CNEP Graduates may spend up to 72 hours of the clinical experience for WH639 and N599 with a physician preceptor.

Completion of Clinical for MSN and PGC Nurse-Midwifery Students

When the primary preceptor determines that the student is functioning as a safe beginning-level nurse-midwife, the preceptor will sign the Declaration of Safety (DOS) and the students will submit the form into Canvas. The DOS is the declaration by the clinical preceptor that the student is a safe beginning-level practitioner in the skills delineated in the Core Competencies of the American College of Nurse- Midwives. Timing of signing the DOS is at the preceptor's discretion. Signing the DOS does not necessarily signify the end of the Clinical Practicum. If the DOS is signed before the student completes all required clinical hours or experiences, the student will still be required to complete the CNEP requirements for clinical hours and experiences.

The clinical grades reflect the evaluation of the student's clinical work by the RCF and the student's preceptor(s). The RCF will submit the student's final clinical grades when the RCF has received the following items from the student, appropriately co-signed by the preceptor:

- Clinical Assignments
- Daily Developmental Assessment Tools.
- Monthly Developmental Assessment Tool.
- In addition to the above, for NM716
 - Completed Clinical Visits/skills.
 - Completion of 675 hours (540 hours of PGC students) documented in Clinical Log
 - Satisfactory site visit.
 - Signed Declaration of Safety (DOS).

Completion of Clinical for MSN and PGC Nurse Practitioner Students

When the primary preceptor determines that the student is functioning at a safe beginning-level nurse practitioner, the APRN preceptor will sign the Declaration of Safety (DOS) and the students will submit the form into Canvas. For PMH students a psychiatrist may sign the DOS in lieu of a PMHNP. The DOS is the declaration by the clinical preceptor that the student is a safe beginning-level practitioner in the skills delineated in the Core Competencies of the National Organization of Nurse Practitioner Faculties. Timing of signing the DOS is at the preceptor's discretion. Signing the DOS does not necessarily signify the end of the Clinical Practicum. If the DOS is signed before the student completes all required clinical hours or experiences, the student will still be required to complete all specialty track requirements for clinical hours and experiences.

When the student has completed all clinical hours and experiences and all of the required documentation has been received by the Regional Clinical Faculty (RCF), the RCF will submit the final clinical grades for the student. The clinical grades reflect the evaluation of the student's clinical work by the RCF and the student's preceptor(s). These grades are based on the course rubrics. End of Clinical assignments for NP/MH must be submitted within two weeks of completing clinical or grade reduction will occur.

The RCF will submit the student's final grade all clinical courses after student submission of the following:

- Clinical assignments
- Daily Developmental Assessment Tools
- Monthly Developmental Assessment Tools
- In addition to the above, for WH/NP/MH716:
 - All visit types are completed
 - Completion of 675 hours (540 hours for PGS students) documented in Clinical Log
 - Satisfactory student clinical evaluation by RCF
 - Signed Declaration of Safety
 - End of Clinical Form

Completion of Clinical for CWCHNP PGC for CNEP Graduates

- 180 hours of supervised clinical experience
- Completion of WDATs with preceptor
- End of clinical paperwork completed within two weeks

Completion of clinical for Doctor of Nursing Practice

Students in the DNP Program must complete 360 clinical hours. The hours and activities during the clinical are documented in the clinical log. Completion of the clinical hours and logs for the DNP program are approved by the DNP Clinical faculty.

Developmental Assessment Tools (DATs) & Monthly Developmental Assessment Tools (MDATs)

The Clinical Practicum is evaluated through FNU's Daily and Monthly Developmental Assessment Tools (DATs). The DATs are designed to evaluate application of theory to practice, safe psychomotor skills, and appropriate professional conduct. The student self-evaluates and is evaluated by the preceptor(s). Students are expected to demonstrate through their evaluations continual progress toward the provision of safe, independent care. The Daily DATs (DDATs) are specifically designed to encourage the student to reflect on her/his learning.

FNU is highly invested in the formative evaluation process for students in clinical. Clinical evaluation is a very important process requiring timely, written, objective documentation. This means:

- Each clinical session should start with a review of the student's goals for the day and the preceptor's expectations for that clinical session. This should be followed by a selection of appropriate clients for the student's care.
- At the end of each day (and after each birth, for CNEP students) the preceptor and student should conference to review the experience, complete the DDAT, and formulate a plan for the next clinical session.
- Should any questions arise about the content of any clinical activity, the student and/or preceptor should refer to specific clinical behaviors within the Monthly Developmental Assessment Tool (MDAT).
- Each month the student and preceptor will complete the MDAT to determine at what stage the student is in each area of assessment. By the end of clinical, the student should have met the criteria in all levels.

Limitations During Clinical

Students are welcome to observe advanced practice skills, but risk management prohibits students from performing these skills. Certain procedures are beyond the scope of an entry-level nurse-midwifery or nurse practitioner program.

Students must not perform the following advanced practice procedures even if they have previously performed these skills. These include but are not limited to:

1. Vacuum-assisted deliveries.
2. Ultrasound.
3. Colposcopy.
4. Repair of fourth degree perineal lacerations.
5. Circumcisions.
6. First assisting at cesarean section or other major surgery.
7. Repair of facial lacerations and/or suturing of hand lacerations.
8. Joint aspirations /injections
9. Any procedure that requires advanced or specialized training that has not been undertaken as part of the FNU program.

These skills may not be part of the student clinical experience due to liability issues. Students should review the Clinical Supervision Policy to identify experiences requiring direct preceptor supervision. Nurse practitioner students should contact their Regional Clinical Faculty prior to performing any procedures not taught during Level III/Clinical Bound.

An FNU student cannot be present at out of hospital Vaginal Birth after Caesarean (VBAC), multiple gestation or breech birth.

Observational Experiences

Observational experiences for FNU students have different types of credentialing requirements. For Bridge students participating in the home health care observation experience in N409 Community Health Nursing Practicum, a memorandum of understanding signed by the health professional, student, and the university is required. For students in the MSN and/or DNP clinical courses, participation in an observational role of any clinician may require full site, preceptor, and student credentialing.

Malpractice Coverage

FNU provides professional liability (malpractice) insurance for clinical students during the clinical practicum.

Coverage ends once the student completes clinical and graduates from FNU. In order to insure that proper risk management is carried out during the Clinical Practicum, the student may not:

- Obtain clinical experiences at any site unless the site has been cleared by Credentailing and the RCF.
- Participate in clinical care as a student in any setting, in other than a clearly defined observational role, with anyone who does not have malpractice insurance and an Affiliation Agreement with FNU. For example, the student may care for laboring women in a hospital with a CNM who has an Affiliation Agreement with FNU and malpractice insurance for that hospital setting. The student may not attend

home births with that CNM if the CNM does not have malpractice insurance for the home birth portion of her practice.

- Work as a nurse, nurse-midwife, or nurse practitioner in the same unit, office, or clinic where the student is in clinical as an FNU student. There is an obvious challenge to the student in terms of role transition and this blending of roles puts FNU at risk in terms of liability.
- Work in any capacity requiring client care in a birth center or home birth practice while a student is having clinical experience in that practice.

Once a student has completed all graduation requirements, he/she is no longer covered by FNU's liability insurance. No further clinical experiences may be obtained as an FNU student.

The Regional Clinical Faculty or Clinical Director should be contacted if a student has any questions about these requirements.

Pre-clinical Orientation Meeting with Preceptor

Before beginning the Clinical Practicum, the student will schedule a pre-clinical orientation meeting with the preceptor(s). During this conference the student and preceptor(s) should discuss the following:

1. The student's background, skills (developmental level as reviewed at Clinical Bound), and areas identified as needing special attention. The need for an orientation period. Students need to observe the clinic and other appropriate clinical areas to become oriented to the clinical setting. The length of this orientation will vary depending on the student's familiarity with the setting.
2. Dress requirements in this practice. Students are required to wear their FNU picture IDs at all times.
3. The mechanism by which the student should communicate with the preceptor should illness or emergency necessitate a missed clinical day.
4. The practice guidelines/protocols for the nurse-midwifery or nurse practitioner service. If possible, each student should receive a copy of the practice guidelines/protocols.
5. The student's clinical schedule and the needs of the site. This should include a review of the requirements during the Clinical Practicum. The preceptor should review the student's Clinical Practicum timeline at this meeting.
6. The beginning clinical assignment should be discussed.
 - a. CNEP students are encouraged to begin their clinical experience in antepartum or women's health with one preceptor.
 - b. CFNP students may begin clinical in women's health, pediatrics, or family practice.
 - c. CFNP students may not begin clinical in a specialty site.
 - d. CWHCNP students may begin their clinical in obstetrics, gynecology, or primary care.
 - e. PMHNP students may not begin clinical rotations via telehealth.
7. The preceptor should clarify the expectations regarding physician and other consultations. Any special considerations in dealing with hospital, office, or clinic personnel or with clients, and any expectations for attendance at staff meetings case review, grand rounds, or other department functions should be discussed.
8. Any concerns that either the student or preceptor may have regarding the clinical experience.
9. Timely completion of the Daily and Monthly Developmental Assessment Tools (DATs) each day. The student and preceptor should formulate a workable schedule so that the daily DATs can be completed and discussed immediately following each clinical session and the monthly DATs each month.
10. Communication with the Regional Clinical Faculty (RCF). The student should remind the preceptor that the RCF will be contacting the preceptor every month and the student every 2 weeks. Discuss the importance of regular communication between the RCF and preceptor and the importance of this in the student's educational process.

Professional Attributes and Behaviors Expected of Students during the Clinical Practicum

Timeliness: Students are expected to comply with the clinical schedule, contact the preceptor if a change in the schedule, such as late arrival or absence, is necessary, and stay throughout the clinical session.

Ethical Practice: Students are expected to provide care without discrimination regarding such features as age, gender, race, ethnicity, religion, lifestyle, socioeconomic status, sexual orientation, disability or nature of health problem.

Confidential Communication: Students are expected to maintain and handle client records in accordance with legal and privacy standards.

Professional Competencies: Students are expected to maintain licensure and certifications (e.g., basic life support, neonatal resuscitation, etc.) related to professional scope of work, knowledge, and skills.

Commitment to Evidence-Based Clinical Decision-Making: Students are expected to support management plans with current evidence from the professional literature.

Self-Assessment: Students are expected to reflect on clinical experiences, including issues or problems encountered, and to recognize accomplishments and continued educational needs.

Preparedness: Students are expected to prepare for anticipated client needs, but remain flexible in response to emerging priorities.

Appearance: Students are expected to wear professional attire that is congruent with the practice setting and to be well groomed at all times. Students are required to wear their FNU picture IDs at all times. The only jewelry items that may be worn in the clinical setting are a watch, a wedding band, and small earrings (maximum two per ear). Other visible body piercing will not be allowed in the clinical area.

Effective Communication: Students are expected to communicate with clients in a manner that conveys interest, respect, and concern; use reasonable measures to ensure appropriate communication if language barriers exist; write legibly on medical records; use words and titles that convey dignity and respect; and ask questions to seek clarification.

Adapted from the University of Michigan Nurse-Midwifery Program

Regular and Timely Communication with the RCF

During the Clinical Practicum, the Regional Clinical Faculty (RCF) is the student's academic and clinical advisor. The RCF is available as needed and will communicate with the student twice a month and as indicated t. These contacts must be prearranged and adhered to by mutual agreement between the student and the RCF. Professional behavior is expected in all communication and will adhere to FNU Communication Policy. The RCFs responsibilities require frequent travel therefore all meetings should be scheduled. If an urgent issue occurs and the RCF is unavailable, the student should contact the Clinical Director.

Risk Management and Incident Report Procedure

Any incident occurring in the clinical setting should be brought to the attention of the RCF immediately. If the RCF is not available the appropriate Clinical Director is to be contacted. The student should not discuss the incident with anyone except the preceptor prior to having spoken in to speaking with their Regional Clinical Faculty unless required by legal authorities.

After discussion with the RCF the student is to schedule a meeting with the Clinical Director and this should occur within 24 hours of the event. If the student's Clinical Director is not available the student or preceptor should contact the Associate Dean. Do not write any description of the incident or refer to the incident in an email or forum or social media posting.

- Complete the Incident Report Form. The RCF will direct the student to the location of the form on the FNU Portal. Statements on the Incident Report should be strictly factual.
- When the Incident Report Form is completed, send it via US mail to the Clinical Director. The Clinical Director will forward it after review to the Risk Manager for the Frontier Nursing University.

- The student should not discuss the incident with other students or faculty. Students are further advised to avoid making statements while in a highly emotional state. If the student or preceptor has a question about whether an incident merits reporting, they should contact the RCF or Clinical Director for guidance.

Time Frame for Beginning the Clinical Practicum after Clinical Bound

It is important for student learning that clinical skills taught at Clinical Bound be used shortly thereafter in the clinical site. If students anticipate requesting an Academic Hiatus (AH) around the time of attending Clinical Bound, the AH should be taken prior to attending Clinical Bound. It is expected that students will begin their clinical experience within two weeks of returning from Clinical Bound. If there is a delay of greater than 16 weeks before beginning the clinical experience, students will be required to repeat Clinical Bound including coursework. The student will incur all costs associated with return to CB (course registration, fees, travel, etc.)

Working During the Clinical Practicum

In order to gain the maximum benefit from the clinical experience students are advised not to work during the Clinical Practicum. When FNU students are in clinical they are specifically prohibited from working in any capacity in the clinical site. Students must not work as a nurse, nurse-midwife, or nurse practitioner in the same unit, office, or clinic where they are in clinical as an FNU student. The Clinical Director or RCF should be consulted if there are any questions about this policy.

When working as a nurse or advanced practice nurse in any setting, it is the student's responsibility to practice within the scope of the current nursing license. A student must not assume any additional responsibilities in their place of employment based on the additional advanced knowledge gained from FNU study.

Midwifery and Nurse Practitioner Practice by Frontier Students

Nurse-midwifery and nurse practitioner students may not practice as midwives or nurse practitioners while enrolled at FNU unless they are licensed and certified as a nurse-midwife and or nurse practitioner. Catching a baby is considered the practice of midwifery. Students must not catch a baby because someone suggests they might as well get this experience now and have a head start on what they are going to be doing later even if that someone is a well-intentioned physician or certified nurse-midwife. Students may not continue practicing as a direct entry, licensed, or lay midwife while enrolled in the CNEP. Practicing as a midwife or nurse practitioner could have serious implications for FNU. Practicing as a midwife or nurse practitioner while enrolled as a Frontier student, except with the direct supervision of the preceptor during the Clinical Practicum, will result in automatic dismissal from FNU.

Frontier Nursing University encourages students to be exposed to birth outside the hospital and accepts the American College of Nurse-Midwives Position Statement on Homebirth that provides for safety of mother and baby. If students plan to observe a birth in a birth center or home or function in the role of RN, birth assistant, doula, etc. it must be with a licensed provider who has malpractice insurance coverage. An FNU student cannot be present at out of hospital Vaginal Birth after Caesarean (VBAC) unless it is at a CABC accredited birth center with approval for VBAC. FNU students cannot be present at an out of hospital birth for multiple gestation or breech birth. Students should contact the Clinical Director to discuss this before attending any out-of-hospital birth.

Nurse practitioner students may not practice in an unlicensed advanced practice role while enrolled in the CFNP, PMHNP or CWHCNP. Nurse practitioner students may not continue practicing as a direct entry, licensed, or lay midwife while enrolled in FNU. Practicing as an unlicensed nurse practitioner or as a midwife could have serious implications for the FNU malpractice coverage, and the viability of FNU. Practicing as an unlicensed advanced practice nurse while enrolled as a Frontier student, except with the direct supervision of the preceptor during the Clinical Practicum, will result in automatic dismissal from FNU. Practicing as a direct entry, licensed, or lay midwife while enrolled as a Frontier student will result in automatic dismissal from FNU.

International Clinical Sites

Due to regulatory, credentialing, workload, and financial considerations, students enrolled in the MSN or PGC clinical courses are required to complete all clinical requirements within the United States MSN students may contact their Clinical Director for further clarification of this policy. The US territories which includes Guam, US Virgin Islands and Puerto Rico are considered international sites and will not be approved for MSN or PGC students.

Students completing the clinical courses in the DNP program may petition the DNP Director for permission to complete the clinical hours in an international site. If there are any questions or concerns about the DNP clinical experience, the student may be required to complete the clinical hours within the United States. Student may contact the DNP Director for further clarification of this policy.

Banyan Tree Policies

Banyan Tree User Agreement

- **Welcome!** Welcome to Frontier Nursing University, Inc. ("FNU") Banyan Tree Web Portal! The Banyan Tree is one important way that we at the School communicate and share information over long distances. Through the Banyan Tree, you can meet fellow students, ask questions, contact instructors, prepare for upcoming events and access educational materials and applications.
- **Our Rules.** For our web portal to function at its best, we have certain terms and conditions that govern our site.
- **Updates and Amendments.** We may update and amend this User Agreement at any time by posting the modified version of the User Agreement on this site. The modified version of this User Agreement will automatically become effective with respect to you 10 days after it is first posted on the site. Your continued use of this site 10 days after the updated and/or amended User Agreement has been posted or at any time after you have received notice of the updating or amending of the Agreement means you agree to be legally bound by the User Agreement as modified. This Agreement was last modified as of Oct.11, 2005.
- **Eligibility.** The Banyan Tree web portal has some areas that are accessible by the general public and other areas that are accessible only by an Authorized User. An Authorized User includes only students, faculty, and other employees and agents of FNU. If you are not an Authorized User, you are not authorized to access or use the restricted portions of the site.
- **Privacy.** Our privacy policy is set forth in full at <http://www.midwives.org/forms/privacypolicy.asp> and is incorporated into and made a part of this Agreement.
- **Information; Site Availability.** The Banyan Tree contains some material supplied by us and other material supplied by third parties. We make no representation or warranty with respect to the material provided by others. With respect to the material supplied by us, we endeavor to keep such material current and accurate, however, due to the inevitability of human and computer error, we make no representation or warranty with respect to the accuracy, completeness or timeliness of information on the site supplied by us. To the extent you note an error on the site that is of substance, we would appreciate notice from you to the contact person noted in paragraph 14 below so that we can take prompt action to correct any such error. Due to the ever evolving state of our distance learning program, we may change, suspend or eliminate all or any aspect of this site at any time, including the availability of any feature or data, without notice or liability to you, if we deem it appropriate or advisable to do so.
- **Dealings with Advertisers and Third Parties.** Your dealings or correspondence with advertisers or third parties featured on or linked to this site, including the purchase of and payment for goods and services, and any understandings and representations associated with such dealings are solely between you and the advertisers and/or third parties. You agree that we are not responsible or liable for any loss incurred by you that results from your dealings with such advertisers or third parties, or the presence of advertisers or third parties on our site.
- **System Integrity.** You agree to not use any software, scheme or device to interfere or attempt to interfere with the proper working of the Banyan Tree portal. You agree not to disclose or share your password with any third parties or use your password for any unauthorized purpose. You agree to take reasonable precautions against the inadvertent disclosure of your password, including those suggested in the Banyan Tree 101 (BT101) materials. Finally, you agree to use the Banyan Tree portal only for authorized purposes. The only purpose for which the Banyan Tree is authorized for use is the furtherance of the education of the students of FNU and the providing of educational services by FNU, all in accordance with the policies of FNU. Any use of the Banyan Tree contrary to policies of FNU is prohibited.

- **Copyright and Use of Materials.** The information and materials on this web site are protected under United States copyright laws and worldwide copyright laws and treaty provisions and are owned by FNU or other third parties. You may download a copy of any of the materials on this site for personal, non-commercial use, provided you do not delete or change any copyright or trademark notice. You must obtain the permission of FNU, and in some cases, other third parties, to make any other use of the materials. In no case may you create any kind of hyperlink to or framing of this site without the prior written consent of FNU.
- **Trademarks.** “Frontier School of Midwifery and Family Nursing”, “Frontier Nursing University”, “Frontier Nursing Service”, “CNEP”, “CFNP”, “CWHCNP”, “Mary Breckinridge” and “Banyan Tree” (among other marks) are all service marks of FNU.
- **NO WARRANTY.** YOU AGREE THAT YOU USE THIS WEB SITE AT YOUR OWN RISK. WE HAVE TAKEN COMMERCIALLY REASONABLE STEPS TO PROVIDE A SECURE AND EFFECTIVE WEB SITE, HOWEVER, WE ARE SOMETIMES AT THE MERCY OF THIRD PARTIES, ACTS OF NATURE AND/OR UNPREDICTABLE TECHNOLOGY. THEREFORE, WE DO NOT GUARANTEE CONTINUOUS, UNINTERRUPTED OR SECURE ACCESS TO OUR SITE. FURTHER, WE [AND OUR SUPPLIERS] PROVIDE THE BANYAN TREE WEB SITE AND OUR SERVICES AND PRODUCTS “AS IS” AND WITHOUT ANY WARRANTY OR CONDITION, EXPRESS OR IMPLIED, UNLESS OTHERWISE NOTED. [OUR SUPPLIERS MAY MAKE SOME EXPRESS WARRANTIES WITH RESPECT TO THEIR PRODUCTS OR SERVICES, AND TO THE EXTENT THOSE EXIST, SUCH SUPPLIERS WILL SEPARATELY PROVIDE THOSE WARRANTIES TO YOU [IN WRITING] OR NOTE THEM ON THIS SITE.] WE [AND OUR SUPPLIERS] SPECIFICALLY DISCLAIM THE IMPLIED WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT WITH RESPECT TO THIS SITE [AND ANY GOODS OR SERVICES OFFERED OR SOLD THROUGH THIS SITE.] Some states do not allow the disclaimer of implied warranties, so the foregoing disclaimer may not apply to you. Check your local laws for any restrictions or limitations regarding the exclusion of implied warranties.
- **LIMIT OF LIABILITY.** YOU AGREE THAT IN NO EVENT WILL WE [OR OUR SUPPLIERS] (OR ANY AFFILIATES, OFFICERS, DIRECTORS OR EMPLOYEES OF THE FOREGOING) BE LIABLE FOR ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS) ARISING OUT OF OR IN CONNECTION WITH YOUR USE OF THIS WEB SITE [OR THE PURCHASE OF GOODS OR SERVICES THROUGH THIS WEB SITE], EVEN IF WE HAVE BEEN ADVISED OF THE POSSIBILITY THAT SUCH DAMAGE WILL OCCUR. FURTHER YOU AGREE THAT NEITHER WE [NOR OUR SUPPLIERS] (OR ANY AFFILIATES, OFFICERS, DIRECTORS OR EMPLOYEES OF THE FOREGOING) WILL BE LIABLE FOR ANY TECHNICAL, HARDWARE OR SOFTWARE FAILURE OF ANY KIND, ANY INTERRUPTION IN THE AVAILABILITY OF OUR SITE, ANY DELAY IN OPERATION OR TRANSMISSION, ANY INCOMPLETE OR GARBLED TRANSMISSION, COMPUTER VIRUS, LOSS OF DATA, OR OTHER SIMILAR LOSS.
- TO THE EXTENT WE MAY HAVE BREACHED ANY TERM OF THIS AGREEMENT, YOU AGREE THAT YOUR ONLY REMEDY IS TO DISCONTINUE USE OF THIS WEB SITE.
- If you are a California resident, you waive California Civil Code § 1592, which says: “A general release does not extend to claims which the creditor does not know or suspect to exist in his favor. At the time of executing the release, which if known by him must have materially affected his settlement with the debtor.”
- **Compliance with FNU Rules and Regulations and all Laws.** When using this site, you agree to comply with all FNU rules and regulations as set forth in the FNU Catalog and, in addition, you agree to comply with all applicable laws, statutes, ordinances and regulations regarding your use of this site [and any purchase or sale of goods and/or services through this site].
- **Notices.** If you want to send us a notice in relation to this Agreement, you must send it by email to the following address: support@frontier.edu. We may notify you by sending notice to your email address or

by mailing you notice by U.S. mail return receipt requested to our most current mailing address that we have for you. You agree that any notices sent by email will be deemed delivered and received 72 hours after being sent. You agree that any notices sent by U.S. mail as provided in this paragraph will be deemed delivered and received three days after the date of mailing.

- **Dispute Resolution.** All disputes arising between the parties concerning the validity, construction or effect of this Agreement, or the rights and obligations created hereunder, shall be brought before a conciliation committee of designated FNU representatives, which committee shall, within two weeks of being informed of the dispute in writing, recommend an approach for settlement of the dispute between the parties and transmit such recommendation to both parties for due consideration. To the extent such attempt at settlement fails, the parties agree to submit to non-binding mediation at the initiation of either party. The mediator shall be chosen by the agreement of the parties, shall be independent of the parties, and shall have experience in the resolution of commercial disputes. Each party shall pay one-half of the costs of such mediation. To the extent that the dispute remains unresolved following mediation, then you agree that any claim or controversy relating to this Agreement or this web site will be settled by binding arbitration in accordance with the Commercial Arbitration Rules of the American Arbitration Association. You agree that the arbitration will be conducted and that judgment on the arbitration award may be enforced by any court having proper jurisdiction. You agree that the costs of conducting the arbitration will be divided equally between you and us. Either of us may seek interim or preliminary relief from a court for the purpose of protecting your or our rights pending the completion of the arbitration; provided, however, that you agree that any legal proceeding arising out of or in connection with this Agreement or our site will be brought by you or us in the appropriate state or federal court in [Lexington,] Kentucky.
- **Governing Law.** You agree that this Agreement is governed by the laws of the Commonwealth of Kentucky, excluding any application of conflicts of laws rules or principles. You agree that the sole jurisdiction and venue for any litigation arising from your use of [or purchase of products or services through,] our site shall be an appropriate federal or state court located in Lexington, Kentucky.
- **Offensive, Libelous or Unlawful Messages; Copyright and Other Restrictions on Use of Service.**
 - **No Offensive Content.** You agree that you will not use, or allow others to use, your account to post, transmit, promote, or facilitate the distribution of any threatening, abusive, libelous, defamatory, obscene, pornographic, profane or otherwise objectionable or disruptive information or material of any kind. Objectionable information or material includes, but would not be limited to, sexual comments or images, racial slurs, and comments that would offend a reasonable person on the basis of her or his age, sex, race, sexual orientation, religious or political beliefs, national origin or disability. You also may not use the Banyan Tree to promote, or influence others to support, your personal political or religious agenda or beliefs or to otherwise disrupt the normal course of business of FNU.
 - **No Illegal Material Or Encouragement Of Illegal Behavior.** You agree that you will not use, or allow others to use, your account to post, transmit, promote, or facilitate the distribution of any unlawful or illegal material, including but not limited to material that would constitute or encourage a criminal offense, give rise to civil liability or otherwise violate any applicable local, state, national or international law. You agree that you will not use this site to commit a crime, or to plan, encourage or help others to commit a crime.
 - **No Violation Of Copyright, Trademark Or Trade Secret Rights.** You agree that you will not use the site to publish, post, distribute or disseminate another's proprietary information, including but not limited to trademarks, service marks, trade secrets or copyrighted information, without the express authorization of the rights holder.
 - **No "Spamming," Advertisements Or Chain Letters.** You agree that you will not use, or allow others to use, your account to post, transmit, promote, or facilitate the distribution of any unsolicited advertising (including but not limited to mass or bulk email), promotional materials or other forms of solicitation to other individuals or entities. You will not post or transmit to persons not personally known to you requests for money, petitions for signature, chain letters or letters

relating to pyramid schemes. Except as specifically permitted by this site, you will not post or transmit any advertising, promotional materials or any other form of solicitation. We reserve the right, in our sole discretion, to determine whether such post or transmission constitutes an advertisement, promotional material or any other form of solicitation.

- **No “Hacking.”** You agree that you will not use, or allow others to use, your account to unlawfully access other computers or services, or to cause a disruption of service to other online users.
- **No System Disruption.** You may not use, or allow others to use, your account to cause disruption of the normal use of the Banyan Tree by others, including, without limitation, taking actions intended to crash the site or otherwise slowing or inhibiting the operation of the site.
- **No Impersonation Of Others.** You agree that you will not impersonate another user or otherwise falsify another person’s username in email or in any post or transmission to any Banyan Tree newsgroup, forum, mailing list or other similar groups or lists.
- **No “Viruses.”** You agree that you will not use, nor allow others to use, your account to intentionally transmit computer “viruses,” or other harmful software programs and that you will use your best efforts to prevent the unintentional transmission of such viruses or other harmful software programs.

FNU Right to Remove

FNU reserves the right not to post any data or materials to, or to remove any data or materials from, its site, without notice or liability to you. You agree to release FNU (and all affiliates, and all officers, directors and employees of FNU and affiliates) from any claims or allegations that may result from such removal. Further, you agree to release FNU (and all affiliates, and all officers, directors and employees of FNU and affiliates) from any liability or cost arising out of any action or inaction of any other user of the site that is in violation of law or of this or other agreements with us. If you are a California resident, you waive California Civil Code § 1592, which says: “A general release does not extend to claims which the creditor does not know or suspect to exist in his favor. At the time of executing the release, which if known by him must have materially affected his settlement with the debtor.”

Banyan Tree Privacy Policy

This policy applies with respect to the information that Frontier Nursing University (“FNU”) collects and can access from the Banyan Tree Web Site, located at portal.frontier.edu, www.midwives.org, and www.frontier.edu and server. Amendments to this policy will be posted in FNU Catalog and will be effective when posted. Your agreement to the Banyan Tree User Agreement constitutes your agreement to and acceptance of this Privacy Policy.

The Banyan Tree is provided by FNU for two purposes. One is to provide a vehicle through which FNU can deliver to its students quality distance learning in the field of Midwifery and Family Nursing. The other is to provide certain features that are characteristic of an online community, such as email, chat rooms, and bulletin boards.

INFORMATION COLLECTED

Access to several parts of the Banyan Tree web site is restricted. We collect information from you for the purpose of confirming your identity so that you may have access to the restricted areas of the web site. The information we collect is username, password, and unique biographic data.

USE OF INFORMATION

In general, we will only use the information you provide to us for the purpose of confirming your identity to allow access to restricted parts of the web site and to contact and communicate with you, and to allow faculty and other students contact and communicate with you, in connection with the educational courses and other educational offerings we make available through the Banyan Tree. [We also track use, anonymously, of the various components of the web site and the use of various materials that we have

posted, so we can determine the usefulness of that feature or posted item.] We do not sell any of the information provided to us through the Banyan Tree to outside third parties and do not otherwise provide it to third parties.

USE OF IP ADDRESSES

We may use your IP Address to investigate technical and policy issues, as noted above, and to help diagnose problems and to administer online exams..

USE OF COOKIES

When you view our web portal, we might store some information on your computer. This information will be in the form of a “cookie” or similar file. Cookies are small pieces of information stored on your hard drive, not on our site. Cookies do not spy on you or otherwise invade your privacy, and they cannot invade your hard drive and steal information. Rather, they help you navigate our web portal as easily as possible. We use cookies to prevent you from having to reenter all your registration data at each connection.

SECURITY

Our site has in place security measures that are consistent with industry standards to protect against the loss, misuse or alteration of the information under our control. While there is no such thing as “perfect security” on the Internet, we will take reasonable steps to protect against unauthorized access to the Banyan Tree.

PUBLIC FORUMS

The Banyan Tree provides social networking, chat rooms, forums, message boards and/or new groups for use by students, faculty, administrators and other authorized users of the Banyan Tree. Please remember that any information that is disclosed in these areas becomes public information, and you should have no expectation of privacy with respect to information provided in these venues.

E-MAIL

FNU does not monitor emails. However, FNU reserves the right to access such emails at any time and use the information contained in such emails if such information relates to a violation of FNU policies or of state or federal law.

OTHER WEB SITES LINKS

The Banyan Tree web portal connects to other sites. FNU is not responsible for the privacy practices or content of such web sites, and we recommend that you review each web site’s privacy policy before providing any personal information to or through such web portal.

CORRECT UPDATE

You can change or modify information previously provided to FNU through this web site. This may be done through the following methods:

Email the information to update to **support@frontier.edu**

Visit the Directory section of the site and follow the appropriate instructions. We will take reasonable steps to change or correct your information in our records.

NO OPT OUT

If you choose to participate in the distance learning program offered by FNU through the Banyan Tree, you may not opt-out of receiving communications from us and from faculty, administrators, students and others associated with FNU.

Contacting us:

- If you have any questions about this privacy policy, the practices of this site, or your dealings with this web site, you can contact us by **support@frontier.edu**.

Banyan Tree Access

The Banyan Tree is accessible to FNU faculty, staff, preceptors, students, independent contractors, and administration. Each group has differing access to different parts of the Tree.

- Alumni and preceptors have general user access, including email.

Checking E-mail

Students are required to check email at least twice weekly while enrolled. Faculty are required to check email a minimum of three times weekly.

Computer Access On-Campus

Students are required to bring their laptops with them during on-campus academic events. To best accommodate student computer needs, FNU makes available high-speed wireless Internet in most campus buildings.

In addition desktop workstations are located in the library. These systems are Internet connected and include Microsoft Office, Acrobat reader, Skype and other common software applications. Students wishing to access Canvas, or other on-line systems will need to remember to bring their credentials to campus, as the public computers will not have their password stored as on their personal machines.

Limited printing and copying are available from the systems in the library.

File Naming Standard

All courses require students to submit work electronically and instructors need to be able to identify submissions by file name. In addition, files with the same name can cause overwriting (deleting) of existing files, which could result in one student's assignment being overwritten by another student's work.

The following file naming standard will be utilized for all student submissions:

FirstName LastName CourseNumber AssignmentName, (For example: Jane Doe PC600 Assign2).

- Use your entire first and last names as they appear in the Canvas gradebook (no nicknames or abbreviations)
- The file naming standard applies to all submissions, regardless of file type (Word document, slide show, pdf, etc.)

Document format: When using Microsoft Word, files are saved in DOCX format. All students and faculty are required to use Microsoft Office 2010 or higher for PCs and 2011 or higher for Word for Mac, which can natively read and write DOCX format. Using a DOCX file format removes the burden of having to manually save the file in a readable format and fully supports all formatting, notations, and embedding of the Office Suite.

Liability, Honor Code, and Privacy

Business email is not considered private property under federal rules of Civil Procedure. An opponent has the right to obtain copies of email pertinent to litigation. All participants should be aware that email messages are potentially open to subpoena in malpractice cases. Cases should be well enough disguised, so that patients cannot be identified. Patients, preceptors, doctors, nurse-midwives, nurse practitioners, and other health care providers should not be mentioned by name. Discussion of clinical incidents with potential risk management ramifications and significant FNU problems should not take place in Frontier email.

Office Correspondence

The FNU email system must be used for all office correspondence with FNU and between FNU members. Outside vendors (e.g., such as Hotmail, EarthLink, etc.) may not be used. Communications using non-Frontier services cannot be verified by FNU, will not be considered official, and may be discarded.

Printing from the Computers

Access to the vast resources of the Internet is provided via the computers in the library and computer lab. The fee for printing is \$.05 per page. Fees should be paid to the secretary prior to leaving FNU.

Technical Support

The Information Technology staff offers technical support for:

- The Banyan Tree portal, forums, chat, and FNU web sites.
- Canvas and testing support for students and faculty.
- Student and faculty frontier.edu email issues.
- Course and project development for faculty working on FNU projects.
- Mobile device support when used to interface with FNU content.
- Password and account access for all university systems.

Computer assistance is available through Knowledgebase, trouble tickets, email, or phone. The IT staff strives to respond to every issue within one business day. When technical support is needed, students should begin by reviewing the Banyan Tree 101 (BT101) course which contains the answers to many common questions. The Knowledge base system on the portal page contains the answers to many common questions. The student's BT101 instructor is the first person to call for help if the answer cannot be found elsewhere. If the instructor cannot help or is unavailable, referral may be made to another member of the IT staff. If problems are out of the IT staff's scope of practice, seeking assistance from a local technician will be recommended. Some technical issues may be referred, such as:

- Computer hardware problems ---> Manufacturer or local technician.
- Internet connections ---> Local Internet Service Provider (ISP).
- Printer problems ---> Manufacturer or local technician.
- Issues related to skills not meeting FNU standards ---> Class or tutorial.

Tuition and Fees

Frontier Nursing University is a non-profit. Tuition and fees are maintained at lower levels through gifts of alumni, foundations, corporations, and friends of the Frontier. Tuition rates may change at any time deemed necessary by the FNU Board of Directors.

Tuition Policy and Plan

The tuition billing for each term is calculated as the rate per credit hour multiplied by the number of credits registered. Tuition is currently set at the following rate:

- \$580 per credit hour

Billing will be adjusted for any changes to enrollment made during the add / drop period. After add / drop has ended, there will be no adjustments to billing unless the student withdraws from FNU. For more information on withdrawal policies see the sections below entitled “Tuition Refund and Return of Title IV Funds Policy – Withdraw from FNU” and “Tuition Policy Regarding Re-entry after Withdrawal”.

Total Program Costs under Per-Credit Hour Billing

Specialty	Degree	# of Credits	Total Cost
Nurse-Midwifery (CNEP)	MSN	64	\$37,120
Nurse-Midwifery (CNEP)	MSN+DNP	83	\$48,140
Family Nurse Practitioner (CFNP)	MSN	61	\$35,380
Family Nurse Practitioner (CFNP)	MSN+DNP	80	\$46,400
Psych-Mental Health Nurse Practitioner (PMHNP)	MSN	60	\$34,800
Psych-Mental Health Nurse Practitioner (PMHNP)	MSN+DNP	79	\$45,820
Women’s Health Care Nurse Practitioner (CWHCNP)	MSN	59	\$34,220
Women’s Health Care Nurse Practitioner (CWHCNP)	MSN+DNP	78	\$45,240
Bridge CNEP	ADN to MSN	85	\$49,300
Bridge CNEP	ADN to MSN+DNP	104	\$60,320
Bridge CFNP	ADN to MSN	82	\$47,560
Bridge CFNP	ADN to MSN+DNP	101	\$58,580

Post-Master's DNP	DNP	28	\$16,240
-------------------	-----	----	----------

Fees and Variable Expenses for All Students

All Fees are subject to change without notice

Application Fee* (<i>non-refundable</i>)	\$100
Non-Matriculating Application Fee* (<i>non-refundable</i>)	\$50
Application Fee for FNU Alumni* (<i>non-refundable</i>)	\$50
Banyan Tree 101 (BT101) Course* (<i>non-refundable</i>)	\$100
Frontier/Bridge/PM-DNP Bound Fee* (<i>If Student registers for Bound but does not attend, they will receive a \$375 refund of the Bound Fee.</i>)	\$575
Clinical Bound Fee (<i>room and board</i>)	\$65 / night**
Clinical Bound Lab Fee	\$200
Crossing the Bridge Fee	\$65 / night**
Course Re-Enrollment Fee*	\$50 / course
Graduation Fee	\$150
Incomplete Fee (<i>Didactic Courses Only</i>)*	\$50 / course
Daily Campus Fee for students staying off-campus*	\$25 / day
Preceptor Fee for Midwifery or WH Refresher*	\$500
Technology Fee	\$250 / term
Course Transfer Review Fee*	\$100 / course
Diploma Replacement, PM-DNP or DNP*	\$40
Diploma Replacement, MSN or PGC*	\$30
Transcript Fee*	\$10 / transcript
Transfer from One Specialty Track to Another Fee*	\$100
Tuition Late Payment*	\$150
Late Registration Fee*	\$50
Meals (<i>for care providers staying off-campus</i>)*	\$25 / day

Accommodations (shared room with student and meals) for care providers of breastfeeding infant*	\$65 / night**
Transportation Fee <i>(payable if student uses transportation provided by FNU to and/or from the Lexington airport and Hyden campus)*</i>	\$75

* These fees cannot be paid with financial aid funds.

**Please note that upon registration for on-campus events, accommodations will have been made for your requested stay. Once students have registered, the nightly fee is non-refundable.

Fees that can be covered by financial aid include: Clinical Bound, Crossing the Bridge, Clinical Bound Lab, Graduation, and Technology fees.

All tuition and fees are subject to change without notice.

Estimated Variable Expenses

Computer and software	\$2,000
Internet access	\$70 / month
Textbooks	\$2,500
Travel <i>(Frontier Bound, Bridge Bound, Clinical Bound, PM-DNP Bound, PM-DNP Intensive, AABC Workshop and Crossing the Bridge)</i>	\$600 per trip

AABC “How to Start a Birth Center” Workshop

All CNEP students are required to complete the “How to Start a Birth Center” workshop offered by the American Association of Birth Centers (AABC) as a program graduation requirement. CNEP students must complete either the in-person workshop or online workshop course prior to graduation from the MSN or Post-Graduate certificate portion of the program.

FNU covers the registration fee for CNEP students and will only pay for one workshop registration per student. If a student does not attend a workshop for which they are registered, fails to cancel their registration in time for FNU to avoid being charged, or does not complete the online workshop within the allotted twelve (12) week timeframe, the student will be responsible for the registration fee for the workshop they do complete. Students are responsible for all other costs (materials, AABC membership, travel, etc.) excluding the registration fee. AABC provides FNU with an official roster of attendance for the in-person workshop and a course completion notification for those doing the online workshop.

Late Payment Fee

A student owing a balance ten calendar days after the due date for payment of tuition or fees will be invoiced a late payment fee.

Probation Due to Non-Payment Policy

Any student not paying tuition at the time it is due will be put on probation. From the date of probation, the student can no longer submit any coursework, nor can the student take or submit any examinations. The time period during which the student is on probation will be included in their program time frame. Faculty will be notified via email that all grading of the student's work is to stop. A Late Payment Fee will be assessed if the payment is received more than ten calendar days after the due date. Upon full payment of all tuition and fees due, or

notification by the financial aid office that funds have set to disburse, the student will be reinstated and faculty will be advised via email to accept the student's work.

From the day the probation occurs, the student will be given up to 60 days to make payment in full. If payment is not made within 60 days of the due date, the student will be dismissed from FNU. An appeal to this dismissal is possible (see **Dismissal from FNU**).

Tuition Discount for FNU Preceptors

CNMs and NPs who have served as preceptors for FNU students within the past 2 years may receive a 10% discount on tuition for individual courses taken as a non-matriculating student (taking courses but not seeking a degree) and WH639 or N99 for CNEP graduates to receive a WHCNP post-graduate certificate at FNU.

Preceptors will be informed of this discount by a message at the bottom of the preceptor invoice. The discount will be valid on course enrollment that occurs within 24 months of the date of the invoice.

Preceptors need to include a copy of this invoice with their application in order to receive the 10% discount.

Tuition Extensions

An extension of sixty (60) days may be granted to students receiving federal, state or private scholarships or Stafford Loans when they first enter FNU and are in the process of completing the required paperwork.

Tuition Policies Related to Academic Hiatus

Ordinarily, an AH will start at the beginning of a term. In this situation, there is no immediate effect on tuition and fees since the previous term will be completed and the next term's tuition and fees will be assessed when the student returns. If a student takes an emergency Academic Hiatus (AH) during a term in progress, a withdrawal calculation will be completed to determine the amount the student owes for that term. Necessary adjustments to charges and funds received for that term will be made.

Example:

Student takes an AH on the 18th day of a 75 day term. The student's financial responsibility will be 24% ($18 / 75 = 24\%$) of tuition and applicable fees. FNU is eligible to retain 24% of funds received to pay for tuition and applicable fees. The remaining 76% of funds received are classified as unearned and will be refunded to the proper source. This may be the student or may be a lender/funder as appropriate. If a student takes an AH on or after the 46th day of a term, the student will be responsible for 100% of all charges for that term.

Tuition and Fee Payments and Return From Academic Hiatus

All students must return from an AH at the beginning of a term. Because any monetary credit for the term in which the AH occurred will have been refunded to the student or the lender as appropriate, there will be no prior credit counted toward future tuition. Please see the following section for more information.

Tuition for Repeating a Course

If a student must repeat a course for any reason (such as hiatus, withdrawing or failing), the student must repay for the entire course at the current per-credit-hour rate. The repeated course is billed along with any other courses registered. Students should contact Financial Aid regarding eligibility of financial aid for repeats.

Tuition Rate for Non-Matriculating Students

Non-matriculating students (those taking courses but not seeking a degree) will pay the current per credit hour rate for each course to be registered. Payment must be received before registration can occur. All courses must be started at the beginning of a term. All other policies apply equally to non-matriculating students.

Tuition Refund and Return of Title IV Funds Policy– Withdraw from FNU

The completion of registration contractually obligates the student and the student's benefactors to pay all of the student's tuition and fees for the entire term. However, FNU has established a withdrawal and refund policy so that the School and the student may share the loss equitably when it is necessary for the student to withdraw from FNU. FNU has adopted the federal refund calculation so that all tuition charged to a student's account is directly proportional to the percent of enrollment period attended. Refunds are based on the percentage of time that a student is enrolled up to 60% of the enrollment period. The enrollment period is always one (1) term. The date of the withdrawal from FNU will be determined by the postmark on the envelope of a written withdrawal request, the sent date of a withdrawal request transmitted by email, or a later date specified by the student.

To determine the percentage of enrollment period (one term) attended, divide the number of calendar days attended by the number of calendar days in the enrollment period (75) and round to the nearest decimal point.

Example:

Student withdrawals from FNU on the 18th day of a 75 day term. The student's financial responsibility will be 24% ($18/75 = 24\%$) of tuition and applicable fees. FNU is eligible to retain 24% of funds received to pay for tuition and applicable fees. The remaining 76% of funds received are classified as unearned and will be refunded to the proper fund source. This may be the student or may be a lender/funder as appropriate. If the student withdrawal after the 46th day of the term, the student will be responsible for 100% of all charges for that term.

Based on the above calculation, federal funds may not cover all unpaid institutional charges and may have the effect of requiring the student to repay funds that have been disbursed to them. It is recommended students speak with their Financial Aid Officer prior to withdrawing from FNU.

Students who receive scholarships and/or financial aid of any kind will have their aid packages recalculated based on the same proportion as above, in accordance with the Higher Education Amendments of 1998, public law 105-244. Details can be found in the Federal Student Handbook available in the Office of Financial Aid.

Students have a right to appeal decisions regarding financial transactions. The process begins with the Bursar in the Accounting Department.

After a student has been enrolled for more than 60% of the total calendar days in the term, they will be past the timeframe to be refunded and will be charged for 100% of that term's tuition.

Tuition Policy Regarding Re-entry after Withdrawal

A student entering FNU after having withdrawn must complete the full application process and will be considered as a new applicant. Courses previously taken at FNU will be considered for transfer; however no transfer fees will be assessed. If admitted, the student will be charged tuition for the credit hours registered at the current tuition rate per credit hour.

Tuition Statements

Tuition Statements are made available to students approximately two weeks after the registration period is over. These statements will include all charges for the Term. Students will be notified by the Bursar with information about how to access the statements through the student portal. No paper statements are mailed.

Requesting Documentation from Bursar Office

If you need a verification of payment from the Bursar office, please send a written request via email stating the term (Ex. Spring 2016), the course number(s) and the term the class was completed. You will receive the documentation via email within 5 business days of making the request.

Financial Aid

Additional information about FNU Financial Aid is available at: <http://www.frontier.edu/financial-aid>.

Federal Direct Unsubsidized Loan

The Federal Direct Unsubsidized Loan is not a need-based loan and currently has a fixed interest rate of 6.6%. Students are responsible for the interest from the day the loan is disbursed. Although students may request that the interest on the Federal Direct Unsubsidized Loan be deferred while enrolled in school and during the six-month grace period, FNU strongly recommends that students make interest payments. Students will find their monthly payments greatly reduced if interest payments are made while enrolled. Principal and interest payments on this loan must be made beginning six months after the student ceases enrollment at FNU.

Federal Graduate PLUS Loan

The Federal Graduate PLUS Loan currently has a fixed interest rate of 7.6%, is a creditworthy loan (can be approved or denied based on credit score) and is not need-based. Students are responsible for the interest from the day the loan is disbursed. Although students may request that the interest on the Federal Graduate PLUS Loan be deferred while enrolled in school. Payment on the Federal Graduate PLUS Loan will be due within 45 days after the student ceases enrollment either by graduation, withdrawal or Emergency Academic Hiatus (EAH).

Financial Aid Disbursements

Financial aid disbursements are scheduled to be requested from Direct Loans after the add/drop period each term. Students must be meeting Satisfactory Academic Progress (SAP) in order to be considered eligible for federal student loans. Students who are not meeting SAP may be placed on financial aid Warning and possibly Probation losing eligibility to receive federal funds. Please refer to the SAP policy for full details.

Federal funds are received by FNU electronic fund transfer and are applied to student accounts approximately two to three days after receipt of funds. Once funds are on student accounts, tuition and fees are paid, and any eligible residuals are processed and sent to students within 14 business days of receipt of the funds.

Financial Aid during an Academic Hiatus

Students who are approved for an official Academic Hiatus (AH) may have to begin making their student loan payments while on AH. Students should refer to the AH Policy for further information about financial aid during an AH.

Financial Aid Eligibility Guideline for Post-Graduate Certificate Programs

Students enrolled in a post-graduate certificate program that is less than 33 weeks are not eligible for federal financial aid.

Financial Aid Refund Policy

This policy applies to those students who receive loans from the Direct Loan Program as administered by the U.S. Department of Education.

Students who receive federal loans from the U.S. Department of Education and withdraw or take an EAH from their FNU educational program may be required to refund a portion of their student loans received during that term. Students who withdraw or take an EAH on or before the 60 percent (45th day) of completion of the term for

which they are enrolled will generally owe a refund. Refunds are determined using the Title IV Refund calculation provided by the U.S. Department of Education. Money is refunded based on those regulations.

Financial Aid Literacy

Students should be aware of all financial aspects during their educational career, not just student loan debt. Students need to be cautious of how certain money blunders or unscrupulous decisions can burden them with debt for many years.

Please see the Financial Aid website (<http://www.frontier.edu/financial-aid>.) for a list of various web sites offering hints, tips and real-life scenarios on how to make the best financial decisions to assist in paving the road to a more secure financial future. When in doubt, call and talk to your FNU Financial Aid Officer. We are here to help you.

FNU Scholarships

Frontier Nursing University offers scholarship monies to students based on availability, and student eligibility. Eligibility is based on the student's academic record, length of time in the program and the requirement outlined in the scholarships.

The following are scholarships and awards that are typically available to the student.

Kitty Ernst Scholarship

This scholarship is awarded annually to a CNEP student who shows leadership ability as well as academic and clinical excellence.

Alice Adams Scholarship

The Frontier Nursing Service Foundation awards this scholarship in honor of Alice Adams.

Alumni Scholarship

The Frontier Nursing Service Foundation awards this scholarship in honor and with the help of Alumni.

Arronson Scholarship

This scholarship is available for students in financial need who are in good academic standing.

Berea College Appalachian Fund Scholarship

The Frontier Nursing Service Foundation awards this scholarship from a grant provided by the Berea College Appalachian Fund in Berea, KY.

Daughters of Colonial Wars

This scholarship is given by the Daughters of the Colonial Wars (DCW), who have been long time supporters of the Frontier Nursing Service.

Margaret Ferguson Scholarship

This Frontier Nursing Service Foundation awards this scholarship in honor of Margaret Ferguson.

Kate Ireland Scholarship

The Frontier Nursing Service (FNS) Foundation awards this scholarship in honor of Kate Ireland. Ms. Ireland was a longtime supporter of FNS, a prior courier, past Chairman of the FNS Board of Governors, and former Honorary National Chairperson of the Frontier Nursing Service.

Betty Lou Johnson Scholarship

This scholarship is awarded in honor of Betty Lou Johnson to an FNP student who returns to school later in life, demonstrates academic excellence and has a commitment to working in underserved areas.

Mardi Perry Scholarship

This scholarship is available due to the efforts of the Boston Committee of the Frontier Nursing Service. The award is made annually to a student committed to offering midwifery services in the New England region.

Nancy B. Taylor Scholarship

The Frontier Nursing Service Foundation awards this scholarship in honor of Nancy B. Taylor. This award is given to a student who plans for international health work after graduation.

Family Nurse Practitioner Scholarship

This scholarship is made possible by donations designated for Family Nurse Practitioner Scholarships. This award is given to family nurse practitioner students in good academic standing.

FNP Leadership Award

Given by the FNS foundation, this award will be given annually to a nurse practitioner student who demonstrated leadership ability as well as academic and clinical excellence. Faculty members are asked to consider students that meet these criteria and nominate the student for the award. The student should be in good academic standing and in Level IV.

Jessie Smith Noyes Scholarship

This scholarship is awarded by the Frontier Nursing Service Foundation to a FNU student. The student must be in good academic standing and have an interest in women's health issues.

May Scaife Scholarship

This scholarship is awarded by the Frontier Nursing Service Foundation in memory of Margaret Ferguson to a student in good academic standing.

Preceptor Scholarship

This scholarship is for Level IV students. The monies for this award have been donated by past and current FNU preceptors. The student must be in good academic standing.

Susan Preston Wilson Scholarship

This scholarship is awarded by the Frontier Nursing Service Foundation to an FNP student or graduate in honor of Susan Preston Wilson. The student must be in good academic standing.

Helen Barber Scholarship

This scholarship is awarded by the Frontier Nursing Foundation to a CNM student or graduate in honor of Helen Barber. Helen Barber was a courier for the Frontier Nursing Service. Mrs. Barber established the Helen M. Barber Revocable Trust in 1998 and designated a portion to fund scholarships for the training of students in midwifery at Frontier Nursing University. The student must be in good academic standing.

Student Scholarship

This scholarship is awarded by the Frontier Nursing Service Foundation to an FNU student in good academic standing. The scholarship is funded by FNU donors who specify student scholarship with their contributions.

External Scholarships and Financial Aid

There are numerous sources of scholarships and financial aid including federal, state, and local agencies and organizations. Further information about external scholarships and financial aid is available at the [FNU Financial Aid website](#).

Preferred Lenders List

Although federal student loans are available to all students who qualify, some students may choose to pursue a loan in addition to, or in lieu of federal student loans. In the event a student is interested in applying for an

alternative/private loan, the Financial Aid Office recommends conducting an internet search to determine the best fit based upon your individual needs.

A few things to know or consider when applying for a personal loan are:

- Does your bank offer private student loans? If not, there are other financial and lending institutions that specialize in private student loans.
- Private student loans are approved, and interest rates are based determine on the student's' credit score. The higher the credit score, the lower the interest rate.
- Private student loans cannot be consolidated with federal student loans.
- Remember that payments are based on the months of repayment (term) of the loan.
- Inquire if the lending agency offers a financial hardship program once you enter repayment.
- Inquire about an early pay-off option, there may or may not be a penalty for early pay-off.

Faculty and Staff Roles

Administration

President

- Responsible and accountable for the administration of Frontier Nursing University (FNU).
- Provides vision and leadership and is responsible for giving strategic direction for all aspects of the University.
- The President makes recommendations to the FNU Board of Directors relating to the general policies of the institution and to the maintenance of coordination among its several functions.
- The President has authority and responsibility for planning, budgeting, personnel matters, and overall advancement of the university.
- Implements policy and directs all functions of FNU Policy development and assures all functions are in keeping with the mission and philosophy of FNU. The FNU Board of Directors participates in these processes.
- The President provides direction to the Dean and the administrative leadership to ensure the efficient, economical and effective use of all organizational resources to meet the identified goals of the University, and provides vision for the future.

Dean of Nursing

- Responsible and accountable for the academic and student affairs of Frontier Nursing University (FNU).
- The Dean provides vision and leadership for academic programs and is responsible for providing strategic direction for faculty and all academic nursing programs. The Dean has authority and responsibility for academic policies of the institution.
- The Dean has both the responsibility for curriculum, instruction, and other academic matters including student affairs and accreditation.

Associate Dean of Academic Affairs

- The Associate Dean is a key contributor to the establishment and accomplishment of Frontier Nursing University (FNU) academic goals.
- The Associate Dean provides direction to the faculty to achieve the goals of FNU
- Provides leadership of the curriculum oversees the development of the curriculum to ensure a quality that meets all the standards of the specialty certification bodies, accreditation bodies, and all regulatory bodies.
- Is knowledgeable concerning distance education practices and techniques and assists faculty and staff in remaining current concerning distance education practices and techniques.
- Takes responsibility as needed for applications and reports related to accreditation.

Associate Dean of Family Nursing and Associate Dean of Midwifery and Women's

Health The Associate Dean is one of the key contributors to the establishment and accomplishment of the School's and, in turn, the departmental goals.

- The Associate Dean provides direction to the faculty, staff and students within the department to achieve the goals of the school. Among the goals are those related to education, research and service as well as the attainment of cultural diversity, fiscal soundness, and infrastructure development.
- Directs all functions of the assigned department in keeping with the overall policies established by the FNU Dean of Nursing, President of FNU, and the FNU Board of Directors and in compliance with any and all credentialing, regulatory or other guidelines, in order that the strategic objectives can be attained.
- Provides leadership and direction in ensuring the efficient, economical, and effective utilization of all organizational resources to meet the identified needs of the department and the school.
- Assumes responsibility for teaching, service, research and development activities in the Department.
- Qualifications for the Associate Dean of Family Nursing and Associate Dean of Midwifery and Women's Health include the following: Certification by the appropriate professional board, a Doctoral degree in Nursing or related area, experience in teaching, administration, and clinical practice, experience with and

knowledge of educational technology, excellent interpersonal and problem solving skills, must possess analytical ability for project development and support, must have the capacity to learn and evaluate new technical procedures and concepts, and must have the ability to work productively and independently.

Clinical Directors

- Assume responsibility for the administration of the clinical portion of their specialty track and the smooth functioning of the clinical programs. They are the administrative liaisons with the Associate Deans. They are students' contact during the clinical portion of the program and for issues that are not resolved with the Course Coordinators of clinical courses, or Regional Clinical Faculty (RCF).
- Are responsible for the quality of the clinical sites for area of specialty.
- Provide individual and group student guidance and monitor individual and group student progress.
- Is responsible for coordinating the clinical component of FNU.
- Monitors the teaching and evaluative functions for the clinical practicum.
- Works with the Associate Deans, the Regional Clinical Faculty, and the Director of Credentialing to ensure that the clinical practicum is a true integration of theory and practice and a high quality experience for each student.
- Qualifications for the Clinical Directors include the following: Must hold a national certification in the specialty area (s) as either a nurse-midwife or nurse practitioner, must hold a Doctoral degree, and must have a minimum of five years of experience with clinical teaching of advanced practice nursing and/or midwifery students as appropriate.

Post-Master's Doctor of Nursing Practice Director

- Assumes responsibility for the overall administration and smooth functioning of the PM-DNP Program
- Is responsible for the overall integrity of the PM-DNP curriculum
- Assures that the program is in compliance with accrediting bodies, and adheres to the by-laws and policies of FNU
- Is knowledgeable concerning distance education practices and techniques and assists faculty and staff in remaining current in these areas.
- Provides individual and group student guidance and monitor individual and group student progress.
- Qualifications for the PM-DNP Director include the following: National certification as a nurse practitioner and or nurse-midwife, current licensure as a registered nurse and nurse practitioner and or nurse-midwife, Doctoral degree in nursing, experience in teaching, administration and clinical practice, experience with and knowledge of educational technology, strong analytical, organizational, interpersonal, communication and problem solving skills, and the ability to work productively and independently.

Director of the Psychiatric-Mental Health Nurse Practitioner Specialty Track

- Directs all functions of the assigned education track in keeping with the overall policies established by the President, the Dean of FNU, the FNU Board of Directors and in compliance with any and all credentialing, regulatory or other guidelines, in order that the strategic objectives of the FNU can be attained.
- The PD of PMHNP Specialty Track provides leadership and direction in ensuring the efficient, economical, and effective utilization of all organizational resources to meet the identified needs of the program and the FNU.
- The PD of PMHNP Specialty Track works with the Dean, Associate Deans, and faculty to ensure a quality curriculum that meet all core competencies and or other related criteria established by the appropriate credentialing, regulatory, or accrediting organizations.

ADN Bridge Entry Option Director

- Assumes responsibility for the overall administration and the smooth functioning of the ADN Bridge Entry Option.
- Is responsible for the overall integrity of the Bridge curriculum.
- Assures the smooth functioning of the Bridge entry option, including at a minimum that the option is in compliance with accrediting bodies, and adheres to the by-laws and policies of FNU.
- Is knowledgeable concerning distance education practices and techniques and assists faculty and staff in remaining current in these areas.

- Provides individual and group student guidance and monitors individual and group student progress.
- Works with Course Faculty to develop and maintain criteria for success in academic and/or clinical courses.
- Qualifications of the ADN Bridge Entry Option Director include the following: Certification by the appropriate professional board, Doctoral degree in nursing, experience in teaching, administration and clinical practice, experience with and knowledge of educational technology, strong analytical, organizational, communication, interpersonal and problem solving skills, analytical ability for project development, the ability work productively and independently and the capacity to learn and evaluate new technical procedures and concepts for application within the program.

FNU Administrative Team

The Administrative Team is comprised of the President, the Dean of Nursing, the Associate Dean of Family Nursing, the Associate Dean of Midwifery and Women's Health, the Director of the Psychiatric/Mental Health Nurse Practitioner Specialty Track, the Associate Dean of Academic Affairs, the Clinical Director of Family Nursing, the Clinical Director of Midwifery and Women's Health, the ADN Bridge Entry Option Director, the PM-DNP Director, a faculty representative (quarterly term), the Executive Vice-President for Facilities and Finance, the Chief Operations Officer, the Director of Enrollment Management and Financial Aid and the Director of Student Retention and Academic Records. The Administrative Team meets to monitor program issues related to FNU.

Sub-Committee of the Administrative Team

The Sub-Committee of the Administrative Team is comprised of at least four members of the Administrative Team. The Sub-Committee of the Administrative Team meets to discuss student issues as needed. The student's advisor and/or course coordinator involved may be invited to attend a particular meeting as appropriate.

Faculty

Course Coordinators (CCs)

- Assume responsibility for an individual course or a sequence of courses.
- Design the course objectives, content, and evaluation measures. Depending on the course, there may be Course Faculty or Teaching Associates to assist.
- Teach by structuring the learning experience and answering students' questions. May also teach in person at Frontier Bound or Clinical Bound.
- Are always available to students by phone during office hours or appointment times and via email, may be available at Frontier Bound or Clinical Bound.
- Act as Student Advisors and as such provide students with support, counseling, and assistance in completing their programs of study.
- Qualifications for Course Coordinators include the following: Certification by the appropriate national professional board, Doctorate in nursing preferred, and experience in teaching and education preferred.

Course Faculty

- Participate in development, implementation, and evaluation of a course and may teach at Clinical Bound.
- Assist with grading and student counseling related to the course.
- Are always available to students by phone during office hours or appointment times and via email, may be available at Frontier Bound or Clinical Bound.
- Report to their assigned Course Coordinator.
- Qualifications for Course Faculty include the following: national certification in specialty area, doctorate in nursing or related field preferred, and experience in teaching and education preferred.

Regional Clinical Faculty (RCFs)

- Are experienced nurse-midwives or nurse practitioners residing in the region that they coordinate.
- Serve as the liaison between the clinical sites, the Clinical Credentialing Coordinator, the Preceptors, the students, and the appropriate Clinical Director.
- Guide students through the Clinical Practicum, fostering the networking of students in their area.
- Visit sites to assess student progress and to ensure positive learning environments.
- Evaluate clinical performance and assign the clinical grades with input from the Preceptors.

- Qualifications for Regional Clinical Faculty include the following: Nationally certified in nurse-midwifery or appropriate advanced practice nursing specialty, active in nurse-midwifery or nurse practitioner community, Master's degree or Doctorate in nursing or related field, experience as a clinical preceptor and strong communication, problem solving, management, organization and computer skills.

Preceptors

Are certified nurse-midwives, nurse practitioners, or other health care providers with appropriate degrees and national certification for their specialties. Through preceptor training and conversations with the RCF, they become thoroughly familiar with the School, its philosophy, and curriculum.

Are responsible for the education of FNU students in the clinical sites.

Guide and supervise the students as they meet clinical objectives and become safe beginning practitioners.

Qualifications for Preceptors include the following:

- Unencumbered advanced practice license or AMCB certification and unencumbered appropriate state licensing for midwives, national certification in specialty area(s)
- A Master's degree in Nursing or related area is required for NP preceptors, CNM preceptors may be approved without a Master's degree

Teaching Associates (TAs)

- Are certified nurse-midwives and nurse practitioners who assist Course Coordinators by grading assignments and examinations, doing library research, and helping with teaching at Clinical Bound.
- Report to their assigned Course Coordinator.
- Qualifications for the Teaching Associates include the following: National certification in specialty area (s) and a Master's degree with experience in nursing, midwifery/advanced practice or related areas.

Instructional Designer

- Works with the faculty and team of IT specialists to develop online courses and explore new technologies for effective learning formats.
- Works with the Associate Dean of Academic Affairs in the assessment of learning outcomes and in conducting research for best practices and emerging distance-learning methodologies related to the development and improvement of instructional systems.
- Qualifications for the Instructional Designer include the following: master's degree or higher in instructional design, experience with graduate nursing or healthcare preferred, minimum of three years of experience in instructional development and demonstrated experience and record of managing projects to successful completion.

Director of Library Services Is responsible for the development and evaluation of library services and resources. Responsible for the effective operation of the FNU Library.

- Provides library instruction during Frontier Bound, Clinical Bound, and via phone and email.
- Works with faculty and students to make sure that the resources necessary for the curriculum are available.
- Assists students and faculty in obtaining any resource required.
- Qualifications for the Director of Library Services include the following: American Library Association accredited Master's of Library Science, medical and academic library experience, AHIP membership preferred, and strong interpersonal, communication, leadership, organizational, and computer technology skills.

Assistant Director of Library Services

- Assist faculty and students with online searching and locating library resources.
- Assist with maintaining course readings and textbook lists.
- Qualifications for the Information Services Librarian include the following: American Library Association accredited Master's of Library Science, knowledge of library operations and services, ability to perform technical and public service responsibilities and excellent writing and grammar skills.

Information Services Librarian

- Provides library services to faculty, students and staff of the Frontier Nursing University (FNU).

- These services include, but are not limited to, handling reference inquiries, providing instruction, and performing a variety of other technical and public services tasks relative to library operation. The Information Services Librarian is a member of the FNU Faculty.

Staff

Academic Advisors (Lexington Office)

Provides individual and group advising to students in all FNU programs.

Work with faculty and staff across the institution partners across the university to improve student success and assist in student degree completion.

Academic Records Officer (Lexington Office)

Manages academic records for all current and former students including degree conferral, enrollment/degree verifications, and production of transcripts in compliance with University policies and the Family Educational Rights and Privacy Act (FERPA).

Assists in maintaining, troubleshooting, and enhancing the University's data management and related systems.

Works in cooperation with the Registrar and others to ensure academic policies and procedures are followed and proper student records are maintained.

Academic Resource Coordinator (Hyden Campus)

Receives registration forms for campus events (Bridge/Frontier/PM-DNP Bounds and Clinical Bounds) and handles student's accommodations on campus.

Oversees maintenance of equipment and inventory.

Supports faculty and students in activities related to all forms of instructional materials.

Manages the Outpost Gift Shop.

Administrative Assistants (Lexington Office)

Provides administrative support to the FNU Administrative Team.

Admissions Officers (Hyden Campus)

Serves as a direct link between prospective students and FNU.

Assists in all aspects of the admissions process, from inquiry to enrollment.

Advise prospective students as they make decisions about furthering their education by providing information about FNU programs, its missions, admissions procedures, and student life.

Assessment Coordinator (Lexington Office)

Responsible for data collection, reporting, data management, and technical/systems support.

Assistant Director of Financial Aid (Lexington Office)

Manages all aspects of the application and processing of Federal Student Loans.

Orients students to the process.

Advises students regarding financial aid issues.

Associate Director of Development and Alumni Relations (Lexington Office)

Works with the Chief Advancement Officer in building and sustaining successful relationships with students, alumni, major donors, and supporters.

This position works with the Chief Advancement Officer and the Development Team to strategize and implement the annual campaign, major gifts campaign, planned giving program, membership initiatives, and special campaigns; helps design and implement donor recognition events, and publication of fundraising materials.

Bursar

Responsible for all aspects of a student's financial account including billing, recording payments, processing refunds, and collection on outstanding balances.

Manages student direct deposit authorizations, company tuition assistance and third-party provider documentation and invoicing.
Supports 1098-T processing.

Campus Services Coordinator (Hyden Campus)

Coordinates housekeeping and meal preparation.

Chief Advancement Officer (Lexington Office)

Responsible for identifying and developing strategic partnerships and opportunities pursued to advance the mission of FNU.

Develops the overall strategy for planning and implementing a fundraising strategy to build the endowment and raise funds for the organizational budget consistent with the mission and purpose of FNU. This position leads a team that is responsible for the following advancement functions: development, alumni relations, external affairs, grants management, and the FNU Courier Program.

Chief Operations Officer (Lexington Office)

Responsible for the daily operations of FNU.

Directs and oversees activities related to budgeting, operations and personnel administration.

Serves as principal contact and source of information for FNU President.

Clinical Credentialing Coordinators (Lexington Office)

Manages the clinical site Affiliation Agreements, providing the direct link between the clinical sites, the FNU Administration, and the School's legal counsel.

Clinical Site Facilitator (Lexington Office)

Ensures all students understand the appropriate time line for securing a preceptor and clinical site for their intended Clinical Bound.

Develops resources to guide students in their search for an appropriate clinical site placement.

Controller (Lexington Office)

Responsible for audit support, payables management, Bursar management, regulatory filings, general ledger accounting, internal controls, and other administrative functions.

Data Reporting Administrator (Lexington Campus)

Coordinates effort to develop, implement and evaluate a data standards policy to improve data accuracy, integration, access and integrity. Monitors ongoing compliance and effectiveness of the process. Manipulates and organizes data for reporting purposes. Enter and collect data, and produce reports for various purposes.

Development Assistant (Hyden Campus)

Manages alumni database.

Gives tour of historical facilities.

Works with the development committee to build and sustain relationships with students, alumni and donors.

Development Officer (Lexington Office)

Works with the development committee to build and sustain relationships with students, alumni and donors.

Digital Resource Coordinator (Lexington Office)

Administers and maintains the digital systems of the FNU library. This includes management of the library's online presence, such as the institutional repository and the library's website and web services. The Digital Resources Coordinator will also perform other technical and public services tasks relative to library operation.

Director of Clinical Credentialing (Lexington Office)

Oversees the Clinical Credentialing department.

Assures written evidence of compliance with Standards of Practice and accreditation of the educational programs. Coordinates the system of risk management and liability insurance and the computerized Student Management System.

Director of Enrollment Management and Financial Aid (Lexington Office)

Responsible for providing leadership for enrollment and financial aid.

Collaborates with University leadership in leading the development, implementation, and ongoing evaluation of a comprehensive enrollment management plan that fosters an integrative recruitment and admission effort consistent with the University's strategic goals.

Directs managerial responsibility and oversight for all FNU personnel in admissions and Financial Aid.

Director of Informational Technology IT Manager (Lexington Office)

Leads the IT staff in creating educational resources for FNU in a variety of formats and media and supports technologies employed by FNU.

Director of Marketing and Communications (Lexington Office)

Coordinates all marketing activities to build awareness of Frontier Nursing University.

Director of Student Retention and Academic Records (Lexington Office)

Provides overall management and direction to the FNU Academic Advising Center, Registrar and Student Services staff.

Enterprise Systems Administrator (Lexington Office)

Helps drive the strategy, design, and implementation of innovative and integrated systems to support FNU's rapidly scaling business. Partners with business stakeholders and team members to manage the end-to-end operation, implementation and integration of systems and data services. Responsible for data and information governance, control, policy design and implementation, and effective exploitation of all Frontier Nursing University data. Helps mature the department's long-term tactics on the relationship of technical systems, data storage, and extracts to the business opportunities facing Frontier Nursing University.

Executive Vice President for Finance and Facilities (Lexington Office)

Responsible for financial and fiscal management aspects of FNU operations and for the development and management of facilities.

Facilities Manager (Hyden Campus and Wendover)

Oversees the management, maintenance and upkeep of all Frontier Nursing University owned facilities.

Financial Aid Officers (Lexington Office)

Assists student inquiries over the phone and Internet.

Processes and sends award letters.

Helps to complete loan applications.

Checks student records regarding satisfactory progress in order to monitor financial aid and disbursement of loan checks.

Housekeeping / Cook staff (Hyden Campus and Wendover)

Responsible and prepare a variety of tasks and operations for preparation of food to be served complying with all applicable sanitation, health, and personal hygiene standards and following established food production programs and procedures.

Responsible for cleaning and maintaining all facilities with all applicable cleaning procedures for a clean/sanitary environment at all times.

Human Resources and Site Manager (Hyden Campus)

Organizes and coordinates campus operations and procedures.

Provides direction and leadership to the campus staff.

Responsible for the overall planning, organizing, implementing and controlling of human resource functions of FNU.

Junior Support Analyst (Hyden Campus)

Provide Tier 1 technical support for students, faculty, and staff.

Library Technician (Lexington Office)

Manages document delivery and interlibrary loan operations.

Maintenance Staff (Hyden Campus and Wendover)

Responsible for FNU owned Facilities maintenance/repairs with all applicable safety and state regulations met.

Responsible for appropriate use of facility supplies and equipment to minimize loss, waste and fraud.

Multimedia Communications Specialist

Supports the development, implementation and monitoring of social media campaigns across a number of platforms and will gather, manage and distribute content for electronic publications, social media and blogs.

Process and Application Developer (Lexington Office)

Takes ownership of the developed applications, workflow automation programming, and FNU code repository.

Works closely with the Support Services Manager and Process & Reporting Analyst in the technology-driven development of FNU coded assets and workflow automations. Responsible for developing, reviewing, and approving code, technical designs, unit tests, and production promotions.

Process and Reporting Analyst (Lexington Office)

Works with the FNU Faculty and Staff to document work procedures and develop new workflows to improve each business process function. Additionally, the position will be tasked with managing the requirements gathering and delivery of all FNU reports development. The work will improve quality, reduce errors, and design new business processes in support of FNU management, operators, faculty, and staff to gather and analyze information and make improvement recommendations.

Receptionist (Hyden Campus)

Assists the Registrar with entering new student data into the School Management System (SMS).

Assumes responsibility for incoming phone calls, mail, supplies, and processing all inquiries.

Mails information packets (brochures, catalogs, etc.).

Registrar (Hyden Campus)

Processes all applications for admission and all requests for transcripts.

Acts as the primary liaison with the Financial Aid Officer and the Admissions Committee.

Transcribes to the official student transcript all grades submitted by the faculty.

Senior Accountants (Lexington Office)

Support the operations of FNU by conducting functions such as payment processing, reconcilements, analyses, reporting, and various administrative functions.

Senior Infrastructure Analyst & Systems Integrator (Lexington Office)

Responsible for designing, implementation, maintenance, and operation of FNU servers, hosting, networks, backups, disaster recovery planning, application services, and application integrations throughout the enterprise.

Student Recruitment Coordinator (Lexington Office)

Work closely with Director of Marketing and Communications to design, implement and evaluate strategies to recruit new students with a focus on recruitment of minority students and students residing in rural and/or underserved areas.

Student Services Coordinator (Hyden Campus)

Coordinates planning materials, online programming for students, preparatory information sessions, and evaluation surveys for student orientation.

Student Council liaison between students and FNU staff and faculty.

Coordinates annual commencement ceremony.

Student Services / PRIDE Coordinator (Lexington Office)

Facilitates the admission of students in collaboration with the Admissions Committee.

The Student Services Coordinator is also responsible for overseeing all activities involved in the Frontier PRIDE Program. The Frontier PRIDE (Promoting Recruitment and Retention to Increase Diversity in Nurse-midwifery and Nurse Practitioner Education) Program is aimed to address the lack of diversity within the nursing workforce by working to recruit and retain underrepresented students in FNU programs.

Support Services Manager (Hyden Campus)

Manages the performance of FNU Support Services to students, faculty, and staff ensuring service levels are achieved.

Responsible for leading the IT Support staff in delivering on expectations in regards to performance, meeting defined metrics/benchmarks, and that standards and processes are followed to provide effective customer service and meet requirements.

Course Descriptions

Active Courses

MH701 Psychopharmacologic/Neuroscience Foundations of Mental Health Care (3-0)

This course examines acquired and inherited vulnerability to mental health disorders through genetic, physiological, environmental, and developmental perspectives across the lifespan. This course emphasizes evidence-based pharmacologic, somatic, and complementary/alternative mental health interventions from a neurophysiological perspective.

Prerequisite: Admission to FNU or permission as non-matriculating student, PC705, PC706, PC707

MH702 Psychotherapy Foundations of Mental Health Care (3-0)

This course presents essential knowledge and models to support the nurse psychotherapist role. Emphasis is placed on holistic conceptualization of mental health care of individuals and groups across the lifespan. This course reviews communication theories to facilitate the therapeutic process of the nurse-patient relationship.

Prerequisite: Admission to FNU

MH703 Psychiatric-Mental Health Care of Individuals & Groups (3-0)

This course for psychiatric advanced practice nursing presents the theoretical and foundational knowledge to provide assessment, diagnosis, psychotherapeutic interventions and psychopharmacological care of persons across the lifespan with mental disorders.

Prerequisite: MH701, MH702

MH704 Psychiatric Care of Serious Mental Illness & Vulnerable Populations/Families (3-0)

This course examines evidence-based care of individuals with serious mental illnesses and emotional disorders, including treatment-resistant and/or relapsing illness. The course focuses on mental health care and recovery, including mental health advocacy, health promotion and illness prevention in the context of the support network, family and community, with particular attention to persons in underserved and rural populations.

Prerequisite: MH701, MH 702

MH705 Psychiatric-Mental Health Roles and Modalities of Care (3-0)

This course examines traditional and evolving roles of mental health care providers, care delivery, and interventions from a historical, ethical, cultural and policy perspective, with in-depth study of the psychiatric-mental health advanced practice nursing roles. Scope and Standards of Psychiatric Mental Health Nursing and Advanced Practice are critically reviewed.

Prerequisite: Admission to FNU or permission as non-matriculating student

MH706 Integrating Psychiatric-Mental Health Care (3-0)

This course examines integrated approaches to care of persons across the lifespan, including evidence-based diagnosis, management, and coordination of care with collaborative interdisciplinary approaches. Health needs are viewed in the context of the person's habitat and support network, requiring integration of care across multiple health delivery and social support systems. Emphasis is placed on nursing contributions in integrated care at the registered and advanced practice nursing roles. Models for consultation-liaison nursing are explored, as well as telehealth strategies for quality health care delivery

Prerequisite: MH701, MH702

MH711 Skills for Psych-Mental Health NP Care (1-0)

This course refines critical thinking and diagnostic reasoning skills. Students practice and demonstrate cognitive, affective and psychomotor skills for assessment and diagnosis of health and mental health.

Prerequisite: all core courses, MH Didactic Courses and clinical site submission for credentialing

Prerequisite or concurrent: PC714 (MSN students)

MH712 PMHNP Clinical I (0-3)

This is the first of five clinical courses for the PMHNP student which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/counseling strategies across the lifespan under the supervision of a nationally certified or boarded health care provider. The student is at a beginning level and will start to apply the management process to coordinate primary health care and plan the mental health care for individuals and families across the lifespan using theoretical and recommended practice guidelines for psychiatric-mental health care.

Prerequisite MH711

MH713 PMHNP Clinical II (0-3)

This is the second of five clinical courses for the PMHNP student which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified or boarded health care provider preceptor. The student is at an advanced beginning level and will apply the management process to coordinate the primary care for individuals and families across the lifespan using theoretical and recommended practice guidelines for psychiatric-mental health care.

Prerequisite: MH712 (MSN students) or MH711 (PGC students)

MH714 PMHNP Clinical III (0-3)

This is the third of five clinical courses for the PMHNP student which provides the opportunity to practice advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified or boarded health care provider preceptor. The student is at an intermediate level and will apply and begin to analyze the management process to coordinate the primary care for individuals and families across the lifespan using theoretical and recommended practice guidelines for psychiatric/mental health care. The student will begin to manage individuals with more complex needs.

Prerequisite: MH713

MH715 PMHNP Clinical IV (0-3)

This is the fourth of five clinical courses for the PMHNP student which provides the opportunities to advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified or boarded health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to coordinate primary care for individuals and families across the lifespan while evaluating theoretical and recommended practice guidelines for psychiatric mental health care. The student will manage individuals with more complex needs and comorbidities.

Prerequisite: MH714

MH716 PMHNP Clinical V (0-3)

This is the last of the five clinical courses for the PMHNP student which provides the opportunities to advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified or boarded health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to coordinate primary care for individuals across the lifespan while evaluating theoretical and recommended practice guidelines for psychiatric-mental health care. The student will manage individuals with more complex mental health needs and comorbidities.

Prerequisite: MH715

MH717 PMHNP Final Comprehensive Review (1-0)

This course is a comprehensive review of care management for Psychiatric-Mental Health Nurse Practitioner students, taken as a final didactic course taken in the last clinical term. Students are guided through self-paced reviews and tested comprehensively with a final written exam.

Prerequisite: MH didactic and clinical courses through MH713

Prerequisite or concurrent: MH714, MH715, MH716

MH718 Psych-Mental Health Independent Study (variable)

This course is designed for students to complete supervised study related to psychiatric-mental health nurse practitioner care. Course content varies according to student needs and interest.

Prerequisite: Permission of instructor.

N400 Physical Assessment (3-0)

This course is designed to provide the knowledge base and technical competencies essential to history taking and physical examination. The content in this course will serve as a foundation for the assessment skills necessary for the clinical management decisions the nurse-midwife and nurse practitioner must make in providing care to clients and their families across the lifespan.

For Class 153 and lower: Prerequisite: Licensure as a registered nurse

For Class 156 and higher: Prerequisite: None

N404 Statistics (3-0)

This course provides the foundation for using statistical concepts to evaluate research for use in evidence-based practice. Students will learn descriptive statistics, sampling techniques, types of errors, probability theory and the concepts of measurement, reliability and validity, and hypothesis testing. Students will use the statistical software package, SPSS™, to analyze data and interpret results using common inferential statistical tests, such as the t-test, ANOVA, correlation, simple linear regression, multiple regression, as well as chi square and other nonparametric tests.

For Class 153 and lower: Prerequisite: Licensure as a registered nurse

For Class 156 and higher: Prerequisite: None

N405 Nursing Theory (3-0)

This course introduces the student to the major nurse theorists and gives an overview of nursing theory. The course is designed to prepare students to utilize the literature to examine the relationship of theory to research and practice and reflect on nursing theories that have personal significance for them in their practice.

For Class 153 and lower: Prerequisite: PC700

For Class 156 and higher: Prerequisite: PC700

N406 Leadership (3-0)

This course will examine the leadership role of the nurse as one that influences the health of individuals, families, and communities. Focus of course content is on leadership skills as they apply to leadership potential. Leadership theories are examined and applied to promote ethical care and effective leadership during times of conflict.

For Class 153 and lower: Prerequisite: PC700; Prerequisite or concurrent: N405

For Class 156 and higher: Prerequisite: Admission to ADN Bridge Entry Option

N408 Community Health Nursing (3-0)

This course will focus on the concepts of community health nursing. Emphasis is placed on developing a tool to assess community health with a goal of improving the health of an aggregate population.

For Class 153 and lower: Prerequisite: **N406** Prerequisite or concurrent: **N405**

For Class 156 and higher: Prerequisite: **N406**

N409 Community Health Nursing Practicum (1-2)

Utilize the community assessment findings from N408 Community Health Nursing to develop a plan to address the health needs of an aggregate population. This course will focus on community health nursing practicum experiences within a designated community setting that are designed to develop beginning skills in interprofessional coalition building and collaboration.

For Class 153 and lower: Prerequisite: **N408**

For Class 156 and higher: Prerequisite: **N408**

N410 Nursing Research (3-0)

This course focuses on the understanding of the research process and the identification, interpretation, and the utilization of credible research evidence to improve nursing care in primary care practice. Various approaches to the research process are explored. Ethical, moral and legal issues related to nursing research in advanced practice are considered.

For Class 153 and lower: Prerequisite: **N404 and N405**; Prerequisite or concurrent: **PC700, N404, N405**

For Class 156 and higher: Prerequisite: **N404, N405**

N599 Advanced Clinical Practicum in Women's Health Care (0-4)

This clinical course provides the opportunity for the student to focus on critical thinking/diagnostic reasoning and clinical management/ counseling skills in providing health and illness care to women in a primary care setting. This intensive clinical experience allows nurse- midwives to further integrate women's health and primary care didactic and clinical knowledge and skills. Focus includes health promotion and disease prevention for women across the lifespan, and the diagnosis and management of common primary care problems with emphasis on gynecologic concerns. The student is expected to begin the management of more complex health issues and to demonstrate increasingly complex clinical judgment. N599 requires 90 hours of primary care and 90 hours of women's health care supervised clinical experience. Student is encouraged to seek opportunities to advance and build on their current clinical skills. Of the required 180 clinical hours, a total of 72 hours can be spent with an MD if desired.

Prerequisite: **This course is open only to CNEP graduates prior to Class 30 with a Master's Degree.**

NM640 Nurse-Midwifery Independent Study (variable)

This course is designed for students to complete supervised study related to nurse-midwifery care. The content varies according to individual needs and interest.

Prerequisite: **Permission of instructor**

NM700 The Role of the Nurse-Midwife in Health Care Delivery Systems (3-0)

The content of this course includes the historical development and evolution of nurse-midwifery, birth centers. The course will highlight the major turning points in the interrelated development of medicine, nursing, and nurse-midwifery within the major social, political, and economic changes, from the industrial revolution to the establishment of the medical industrial complex to the technological revolution of the new millennium. Course content includes the impact of the development of the birth center concept on the delivery of maternity care. Also included in the course is content regarding the role and function of nurse-midwives, including the evidence and ethical basis of nurse-midwifery practice, the legal regulation of nurse-midwives, health policy as it impacts nurse-midwifery practice, and the critical role individual nurse-midwives play in sustaining the profession, and transitioning roles from nurse to nurse-midwife.

Prerequisite: **Admission to FNU**

Prerequisite or concurrent: **PC700, PC701**

NM701 Women's Health (3-0)

This course encompasses promotion and maintenance of gynecologic health, as well as the assessment, diagnosis, and management of common gynecologic conditions across the lifespan. Clinical considerations specific to the different physical and psychosocial life stages of women are presented. Genetics related to preconception and genetic markers are discussed. Emphasis is placed upon the importance of providing evidence-based gynecologic care. The influence of the interrelationship of gender, social class, culture, ethnicity, sexual orientation, economic status, and socio-political power differentials upon women's health care is also discussed.

Prerequisite: **PC705, PC706, PC707**

Prerequisite or concurrent: **PC703 or PC718**

NM702 Midwifery Care during Pregnancy (3-0)

This course is made up of a sequence of modules designed to provide the knowledge base for clinical midwifery management of the healthy pregnant woman. Content for this course covers the basics of prenatal care and stresses the developmental changes that can be expected during the course of pregnancy. Promotion of optimal health and pregnancy outcomes through the provision of midwifery care is discussed. Prevention of problems by promoting healthy behaviors by the pregnant woman and her family is a key focus of the course. Emphasis is placed on midwifery teaching and supportive care that enhances the normal processes of pregnancy and birth.

Prerequisite: **PC705, PC706, PC707**

Prerequisite or concurrent: **PC703 or PC718, NM703**

NM703 Primary Care of Women (3-0)

This course provides the knowledge base for clinical management of the primary health care needs of women throughout the lifespan with appropriate consultation, collaboration, and referral. Content focuses on common health problems and deviations from normal for the essentially healthy woman. Emphasis is placed on comparing different management options through a review of literature in order to assist women in making informed choices and participating in decisions about their care.

Prerequisite: **PC705**

Prerequisite or concurrent: **PC703 or PC718, PC706, PC707**

NM704 Midwifery Care during Labor and Birth (3-0)

This course is designed to assist the midwifery student in attaining the basic knowledge needed to provide care during an uncomplicated labor and birth. Emphasis is placed on comparing different management options through a review of literature in order to assist women in making informed choices and participating in decisions about their care during labor and birth.

Prerequisite: **PC705, PC706, PC707**

Prerequisite or concurrent: **PC703 or PC718, NM703**

NM705 Midwifery Care of Postpartum Women and Newborns (3-0)

This course focuses on normal anatomical and physiological changes of the puerperium, including anatomy and physiology of lactation, and the normal anatomical and physiologic changes of the fetus and newborn. It is designed to provide a foundation for the management of care of the basically normal postpartum woman and newborn. Content also includes breastfeeding, postpartum, and newborn teaching, as well as societal, and cultural issues surrounding the mother/infant dyad. Some controversies in newborn care will be covered.

Prerequisite: **PC705, PC706, PC707**

Prerequisite or concurrent: **PC703 or PC718, NM703**

NM706 Advanced Midwifery Care of Childbearing Women and Newborns (4-0)

This course is designed to provide knowledge needed to anticipate, identify, and manage select antepartum, intrapartum, postpartum and newborn complications and deviations of normal, some of which will require consultation, collaboration, or referral. Emphasis is placed upon the importance of identification of risk factors, timely diagnosis and appropriate management using evidence-based care practices.

Prerequisite: **NM702, NM704, NM705**

NM711 Skills for Nurse-Midwifery Care (1-0)

This course provides the student with the opportunity to learn and practice intrapartum, immediate postpartum, and newborn skills in an on-campus classroom and clinical laboratory. The intrapartum content includes beginning suturing skills, hand maneuvers for normal birth and third stage, and management of select intrapartum and immediate postpartum complications and variations of normal. Didactic content accompanying the intrapartum and immediate postpartum complications is presented, discussed, and tested. Assessment of the newborn, specifically including complete physical examination, is presented, practiced, and tested.

Prerequisite: **Final grades posted for all core and specialty track didactic courses (with the exception of PC713); clinical site submission for credentialing**

NM712 Nurse-Midwifery Clinical I (0-3)

This is the first of five midwifery clinical courses in which content learned in the foundational and management courses is applied. Students a holistic approach in beginning to apply the nurse-midwifery management process to the care women throughout the lifespan, including the childbearing cycle. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite: **NM711**

NM713 Nurse-Midwifery Clinical II (0-3)

This is the second of five midwifery clinical courses in which content learned in the foundational and management courses is applied. Students use sound rationale in applying the nurse-midwifery management process to the care women throughout the lifespan, including the childbearing cycle. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: **NM712**

NM714 Nurse-Midwifery Clinical III (0-3)

This is the third of five midwifery clinical courses in which content learned in the foundational and management courses is applied. Students demonstrate sound judgment in applying the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle, with appropriate consultation, collaboration and referral as indicated by client needs. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: **NM713**

NM715 Nurse-Midwifery Clinical IV (0-3)

This is the fourth of five midwifery clinical courses in which content learned in the foundational and management courses is applied. Students are becoming independent in applying the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle, with appropriate consultation, collaboration and referral as indicated by client needs. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: **NM714**

NM716 Nurse-Midwifery Clinical V (0-3)

This is the fifth and final midwifery clinical course in which content learned in the foundational and management courses is applied. The student is able to independently apply the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle, and to appropriately handle emergency situations. Parameters for safe practice are integrated and practice scope is delineated for a safe and competent, beginning nurse-midwife. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: **NM715**

NM717 Nurse-Midwifery Final Comprehensive Review (1-0)

The purpose of this course is to provide a review of NM content for the comprehensive exam and the Certified Nurse Midwife Certification exam.

Prerequisite: **NM didactic and clinical courses through NM713**

Prerequisite or concurrent: **NM714, NM715, NM716**

NM718 Nurse-Midwifery Independent Study (variable)

This course is designed for students to complete supervised study related to nurse-midwifery care. The content varies according to individual needs and interest.

Prerequisite: **Permission of Instructor**

NP700 The Role of the Nurse Practitioner (3-0)

This course explores the history of advanced practice nursing roles in the current socio-political environment, preparing students to serve in a leadership role in interdisciplinary team and to shape the delivery of effective health care to families. Application of communication methods, community assessment strategies, and epidemiological principles are utilized. Students will complete a local Community Assessment including all aspects of the current healthcare delivery system.

Prerequisite: **Admission to FNU**

Prerequisite or concurrent: **PC700**

NP702 Primary Care I (3-0)

This course focuses on synthesis and application of theory, research, pathophysiology, assessment and pharmacology to effectively address the complexities of both health and disease in all adults. This course also refines the diagnostic reasoning strategies needed for primary care management of clients across the adult lifespan. Systems of focus include disorders of the ears, eyes, nose, throat, neck, musculoskeletal system, joint and repetitive disorders, renal and bladder disorders, male genitourinary, dermatology, anemia and other blood disorders.

Prerequisite: **PC703 or PC718, PC705, PC706, PC707**

NP703 Women's Health and Childbearing (4-0)

This course is designed to provide the knowledge base for beginning clinical nurse –practitioner management of gynecologic health, healthy pregnant and postpartum women. The content covers assessment, diagnosis, and management of common gynecologic conditions, prenatal care, pregnancy and postpartum care across the lifespan. Clinical considerations specific to the different physical and psychosocial life stages of women are presented. Genetics related to preconception and genetic markers are discussed. Emphasis is placed upon the importance of providing evidence-based care to women. Promotion of healthy pregnancy, and supportive care that enhances the normal process of pregnancy, birth management of the postpartum period and support of breastfeeding will be presented. The influence of the interrelationship of gender, social class, culture, ethnicity, sexual orientation, economic status, and socio-political power differentials upon women's health care is also discussed.

Prerequisite: **PC703 or PC718, PC705, PC706, PC707**

NP704 Primary Care: Pediatrics (3-0)

This course focuses on developmental surveillance and management of common developmental problems in children from infancy through adolescence. Strategies for health maintenance, anticipatory guidance, and management of common acute and chronic pediatric health problems using an evidence based approach are emphasized. Family dynamics and structure are discussed in this course as well.

Prerequisite: **PC703 or PC718, PC705, PC706, PC707, NP702**

NP705 Primary Care II (3-0)

This course focuses on synthesis and application of theory, research, pathophysiology, assessment and pharmacology to effectively address the complexities of both health and disease in all adults. This course also refines the diagnostic reasoning strategies needed for primary care management of clients across the adult lifespan. Systems of focus include gastrointestinal, cardiovascular and endocrine.

Prerequisite: **PC703 or PC718, PC705, PC706, PC707**

Prerequisite or concurrent: **NP702**

NP706 Primary Care III (3-0)

This course focuses on synthesis and application of theory, research, pathophysiology, assessment and pharmacology to effectively address the complexities of both health and disease in all adults. Adult lifespan issues will be discussed with added emphasis on primary care of the older adult. Comprehensive management across settings, evaluation of care, role implementation, and influences of contextual factors on health care services for the terminally ill and older adult including palliative and end of life care are presented. Systems of focus include Geriatrics, Respiratory, Mental Health and Neurology.

Prerequisite: **PC703 or PC718, PC705, PC706, PC707**

Prerequisite or concurrent: **NP702**

NP711 Advanced Skills for Nurse Practitioner Care (1-0)

This course refines critical thinking and diagnostic reasoning skills and provides students with an opportunity to demonstrate cognitive, affective and psychomotor skills necessary for accurate diagnosis of health status.

Prerequisite: **Final grades posted for all core and specialty track didactic courses (with the exception of PC713); clinical site submission for credentialing**

NP712 FNP Clinical I (0-3)

This is the first of five clinical courses for the FNP student which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at a beginning level and will start to apply the management process to plan the primary care for individuals across the lifespan while utilizing evidence-based practice guidelines.

Prerequisite: **PC714, NP711**

NP713 FNP Clinical II (0-3)

This is the second of five clinical courses for the FNP student which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced beginning level and will apply the management process to plan primary care for individuals across the lifespan while interpreting evidence-based practice guidelines.

Prerequisite: **NP712**

NP714 FNP Clinical III (0-3)

This is the third of five clinical courses for the FNP student which provides the opportunity to practice advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an intermediate level and will apply and begin to analyze the management process to provide primary care for individuals across the lifespan while appraising evidence-based practice guidelines. The student will begin to manage individuals with more complex needs.

Prerequisite: **NP713**

NP715 FNP Clinical IV (0-3)

This is the fourth of five clinical courses for the FNP student which provides the opportunities to advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to provide primary care for individuals across the lifespan while evaluating evidence-based practice guidelines. The student will manage individuals with more complex needs and comorbidities.

Prerequisite: **NP714**

NP716 FNP Clinical V (0-3)

This is the last of the five clinical course for the FNP student which provides the opportunities to advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across

the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to provide primary care for individuals across the lifespan while evaluating evidence-based practice guidelines. The student will manage individuals with more complex needs and comorbidities.

Prerequisite: **NP715**

NP717 FNP Final Comprehensive Review (1-0)

This course is taken in the last clinical term and provides a comprehensive review of management content for Family Nurse Practitioner students. Students are guided through self-paced reviews and tested on individual content areas, then comprehensively on a final exam

Prerequisite: **NP didactic and clinical courses through NP713**

Prerequisite or concurrent: **NP714, NP715, NP716**

NP718 Nurse Practitioner Independent Study (variable)

This course is designed for students to complete supervised study related to nurse practitioner care. The content varies according to individual needs and interest.

Prerequisite: **Permission of instructor**

PC700 Communication and Introduction to Scholarly Writing (3-0)

This course provides an overview of the concepts and skills of scholarly written communication in various contexts. Emphasis is placed on techniques used in academic and scholarly writing.

Prerequisite: **Admission to Frontier Nursing University (or permission as non-matriculating student)**

PC701 Principles of Health Promotion (3-0)

Students will apply principles of advanced practice to promote the health of individuals and populations. Principles of client centered care and theory based care to promote health will be explored in depth. Other principles addressed include: evidence-based care as a standard of practice; care for populations within a context of health systems; clear and respectful communication in the context of cultural sensitivity; and ethical care and social justice.

Prerequisite: **Admission to Frontier Nursing University (or permission as non-matriculating student)**

PC702 Epidemiology and Biostatistics (3-0)

In this course, emphasis is on population health and the determinants of health-related states and events. Core epidemiological concepts of disease causation and progression, modes of disease transmission, surveillance, screening, prevention, risk reduction, and health promotion are examined. Descriptive and analytic epidemiological methods are explored in the context of advanced practice nursing. Students learn to create and manage basic data sets, perform data analyses and graphic displays, and interpret health statistics. Focus is on critical appraisal and translation of the results of epidemiological investigations and statistical analyses to improve population health.

Prerequisite: **Admission to Frontier Nursing University (or permission as non-matriculating student); and N404 or a statistics course that satisfies FNU requirements found on the Admissions website**

PC705 Advanced Pathophysiology (3-0)

Pathophysiology for Primary Care provides the student advanced practice nurse with a scientific basis for practice. This course presents an integrated approach to Pathophysiology that demonstrates the interdependency of body systems and the effects of key pathophysiologic processes. Clinical content is included as an application of Pathophysiology and will assist the student to understand the disease processes and genetic/cultural/ethnic variables.

Prerequisite: **Admission to FNU (or permission as non-matriculating student)**

PC706 Advanced Physical Assessment, Clinical Reasoning, and Documentation (3-0)

This course presents the comprehensive and holistic examination of the human person across the lifespan utilizing appropriate psychomotor skill and medical interview techniques. Assessment and clinical documentation, includes physical, social, emotional, developmental, cultural and spiritual needs of the patient and the family.

Students are introduced to the process of critical-thinking and decision-making, utilizing most current evidence, to make sound clinical judgments and arrive at differential diagnoses.

Prerequisite: **Admission to FNU (or permission as non-matriculating student); and N400 or a 3-credit physical assessment course that satisfies FNU requirements found on the Admissions website**

Prerequisite or concurrent: **PC705**

PC707 Advanced Pharmacology Across the Lifespan (3-0)

This course focuses on the role of the advanced practice nurse in applying principles of pharmacodynamics, pharmacokinetics and pharmacotherapeutics in diverse populations across the lifespan as a foundation for prescriptive authority. Emphasis is placed on the decision making process utilized in patient-centered, evidence-based prescribing, educating and monitoring. Ethical, cultural and legal issues related to prescribing are highlighted.

Prerequisite: **Admission to FNU (or permission as non-matriculating student)**

Prerequisite or concurrent: **PC705, PC706**

PC711 Nurse as Educator (3-0)

Students will examine the role of the nurse leader as educator with emphasis on the role of the advanced practice nurse as preceptor in the clinical setting. Concepts of learning styles, caring, coaching, and diversity, models of clinical instruction, implementation strategies, and evaluation methods are emphasized. Legal and ethical issues are also examined.

Prerequisite: **Completion of FNU MSN (Class 119 and higher or Bridge class 108 and higher) OR Admission to PM DNP program**

PC713 Principles of Independent Practice (3-0)

This course explores the role of nurse practitioners and nurse-midwives as entrepreneurs. Students evaluate nurse-led service innovations with emphasis on health promotion and disease prevention as core business functions. Participants evaluate the role of quality assurance and quality improvement across practice models. Within interdisciplinary teams, students share experiences integrating business and leadership principles as they propose nurse-led and/or interprofessional business plans. Students demonstrate knowledge of practice management, workforce development, contract negotiation, credentialing, accreditation, the revenue cycle, grant funding, marketing and effective use of health information technology.

Prerequisite: **NP700 or NM700 OR admission to DNP program**

PC714 Clinical Bound: Skills for Advanced Practice (1-0)

This course provides the student with the opportunity to learn and practice health assessment and women's health hands-on skills in an on-campus didactic classroom and clinical laboratory. Students also participate in role plays and clinical scenarios in preparation for interaction with clients during the clinical practicum.

Prerequisite: **Final grades posted for all core and specialty track didactic courses (with the exception of PC713); clinical site submission for credentialing**

PC718 Evidence Based Practice (3-0)

This course introduces essential concepts for identifying relevant evidence, evaluating the quality of evidence, and discussing the application of evidence to clinical practice to improve quality of care.

Prerequisite: **Admission to FNU (or permission as non-matriculating student)**

Prerequisite or concurrent: **PC702**

PC728 Leadership and Organizational Dynamics (3-0)

This course examines the leadership role of the nurse as one that influences health care delivery through leadership theories and principles. Focus is on leadership approaches, principles, competencies, styles with emphasis on teamwork, communication, decision-making, and the business realities of leading within a health care system. Theories and issues related to leadership, organizational processes, organizational change, strategic planning, and interpersonal group dynamics are examined.

Prerequisite: **Completion of FNU MSN (Class 119 and higher or Bridge Class 108 and higher) OR Admission to PM DNP program**

PC729 Health Policy and Advocacy (2-0)

Following the example of Mary Breckinridge and the provisions of our own nursing code of ethics, today's nurse leaders should champion those without a strong voice in political arenas. We have credibility, clinical expertise, and scholarly capacity that should be used on the behalf of our profession and our patients to advocate for socially just health policy. In order to do that, nurse leaders must understand current policy issues that affect health, health care, health equity, and health systems, particularly nursing scope of practice. We also must influence development, approval, and implementation of effective and ethical health policies. In this course, students consider the evidence for health related policies, parse the process of developing and implementing health policy, apply strategies of persuasion and advocacy, and analyze health issues in terms of social justice and policy solutions. Participants focus on applying scholarly skills in the policy arena for the common good.

Prerequisite: **PC702, PC718**

PC740 DNP Clinical Scholarship Planning (1-3)

This course exposes students to the latest evidence-based clinical practice resources, clinical safety and systems analysis tools, as well as interprofessional, collaborative learning networks. Students demonstrate competence with clinical scholarship related to care of individuals, families and populations while exploring the fundamental processes of information literacy, family centered systems, and systems level safety. Learners are guided through the process of planning a quality improvement project within a healthcare delivery system to translate evidence into practice. Students apply quality improvement theories, processes and methods and gain practical experience with the fundamentals of systems improvement. Learners practice information literacy, and quality improvement process literacy while continuing to develop scholarly communication skills.

Prerequisite: **Completion of FNU MSN program (Class 119 and higher or Bridge class 108 and higher) and APRN certification OR Admission to PM DNP program and completion of PC702, PC713, PC718**

PC741 DNP Clinical Scholarship Implementation (1-4)

This course guides students through the process of working within a healthcare delivery system to translate evidence into practice. Students use rapid cycle improvement methods to implement an evidence based practice project throughout the term. Within interdisciplinary teams, students gain practical and academic experience with the fundamentals of systems improvement. Students complete plan, do, study, act cycles, evaluate data to inform small tests of change, and complete a clinical practicum summary. Learners practice interprofessional team building, family centered systems improvement and practice quality improvement process literacy while continuing to develop scholarly communication skills.

Prerequisite: **PC740**

PC742 DNP Clinical Scholarship Dissemination (1-1)

This course is the third of a three-part series designed to develop clinical practice scholars. Students explore sustainability, spread and scale of their DNP project. This course guides students through the dissemination phase of translating the evidence into practice. Learners demonstrate interprofessional leadership skills and best practices in program dissemination. Students complete their DNP clinical portfolio by creating the business case for quality, value and financial stewardship. Learners demonstrate advanced levels of clinical judgement, systems thinking, and accountability in designing, delivering and evaluating evidence based care to improve population health. Finally, the role of DNP leaders in maintenance of a healthy work environment and prevention of professional burnout are explored.

Prerequisite: **PC741**

PC790 Independent Study (variable)

This course is designed for students to complete supervised study related to content in PC courses. The content varies according to individual needs and interest.

Prerequisite: **Permission of instructor**

WH639 Advanced Clinical Practicum in Women's Health Care (0-4)

This clinical course provides the opportunity for the student to focus on critical thinking/diagnostic reasoning and clinical management/ counseling skills in providing health and illness care to women in a primary care setting. This intensive clinical experience allows nurse-midwives to further integrate women's health and primary care didactic and clinical knowledge and skills. Foci include health promotion and disease prevention for women

across the lifespan, and the diagnosis and management of common primary care problems with emphasis on gynecologic concerns. The student is expected to begin the management of more complex health issues and to demonstrate increasingly complex clinical judgment. WH639 requires 60 hours of primary care and 120 hours of women's health care supervised clinical experience. Student is encouraged to seek opportunities to advance and build on their current clinical skills. Of the required 180 clinical hours, a total of 72 hours can be spent with an MD if desired.

Prerequisite: This course is open only to CNEP graduates from Class 30 and higher with a master's degree.

WH707 Antepartum Complications and Comprehensive Postpartum Care (4-0)

This course provides the women's healthcare nurse practitioner student with the knowledge and skills needed to care for women experiencing (1) selected complications during pregnancy; (2) a normal postpartum period; and (3) selected postpartum complications. Emphasis is placed on normal anatomical and physiologic changes during the postpartum period, lactation, and maternal concerns about newborn care. The course also emphasizes appropriate consultation, collaboration, referral, continuity of care, shared decision-making, and evidence based practice while managing antepartum complications and providing comprehensive postpartum care.

Prerequisite: NM702

WH711 Skills for Women's Health Care (1-0)

This course provides the student with the opportunity to learn and practice intrapartum, postpartum, and newborn skills in an on-campus didactic classroom and clinical laboratory. The intrapartum content includes beginning suturing skills, hand maneuvers for normal birth and third stage, and management of selected intrapartum complications and variations of normal. Students will begin to develop their clinical assessment skills related to normal postpartum clients as well as clients experiencing selected postpartum complications. Assessment of the newborn, including complete physical examination and selected complications, is presented.

Prerequisite: Final grades posted for all core and specialty track didactic courses (with the exception of PC713); clinical site submission for credentialing

WH712 Women's Health Clinical I (0-3)

This is the first of three clinical courses in which content learned in the foundational and management courses is applied. Students use sound rationale in applying the management process to the care women throughout the lifespan, including the childbearing cycle. Students are guided in learning the art and science of advanced practice nursing by seasoned clinical preceptors.

Prerequisite or concurrent: PC714, WH711

WH713 Women's Health Clinical II (0-3)

This is the second of three clinical courses in which content learned in the foundational and management courses is applied. Students demonstrate sound judgment in applying the management process to the care of women throughout the lifespan, including the childbearing cycle, with appropriate consultation, collaboration and referral as indicated by client needs. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: WH712

WH714 Women's Health Clinical III (0-3)

This is the third clinical course in which content learned in the foundational and management courses is applied. The student is able to independently apply the management process to the care of women throughout the lifespan, including the childbearing cycle. Parameters for safe practice are integrated and practice scope is delineated for a safe and competent, beginning nurse practitioner. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: WH713

WH715 Women's Health Clinical IV (0-3)

This is the fourth of five clinical course for the WH NP student which provides the opportunities to advance health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an

advanced level and will apply, analyze, and synthesize the management process to provide primary care for individuals across the lifespan while evaluating evidence-based practice guidelines. The student will manage individuals with more complex needs and comorbidities.

Prerequisite or concurrent: **WH714**

WH716 Women's Health Clinical V (0-3)

This is the last of five clinical course for the WHNP student which provides the opportunities to advance health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to provide primary care for individuals across the lifespan while evaluating evidence-based practice guidelines. The student will manage individuals with more complex needs and comorbidities.

Prerequisite or concurrent: **WH715**

WH717 Women's Healthcare Final Comprehensive Review (1-0)

This course provides a review of the WHNP content for comprehensive exam and WHCNP Certification.

Prerequisite: **WH didactic and clinical courses through WH713**

Prerequisite or concurrent: **WH714, WH715, WH716**

WH718 Women's Health Independent Study (variable)

This course is designed for students to complete supervised study related to nurse practitioner care. The content varies according to individual needs and interest.

Prerequisite or concurrent: **Permission of Instructor**

Retired Courses

N702 Evidence-Based Practice I (3-0) [RETIRED]

In this course, the theories, concepts, and methods relevant to the review, analysis, synthesis, and application of scientific evidence to nursing and health care practice will be discussed. The ethical, legal, cultural, and financial implications of evidenced based advanced nursing practice will be integrated into the discussion. Students will explore literature related to their selected health care issue and will identify and refine their Capstone Project goals.

Prerequisite: **None**

N703 Evidence-Based Practice II (3-0) [RETIRED]

This course focuses on the conduct of clinical scholarship. Content includes transformational research approaches and evidence-based practice processes. Students will continue the development of their Capstone Project proposal utilizing theoretical approaches and empirical evidence, including health outcomes data. An implementation plan for the DNP project will be defined.

Prerequisite: **PC702, N702**

N704 Leadership and Organizational Theory 3-0 [RETIRED]

This course examines the leadership role of the nurse as one that influences health care delivery and policy decision-making. Focus is on transformational leadership, measurement of outcomes, data driven decision-making, and the business realities of leading within health care system. Theories and issues related to leadership, organizational processes, organizational change, strategic planning, and interpersonal group dynamics are examined.

Prerequisite: **PC702, PC718**

N705 Ethics and Health Care Policy (3-0) [RETIRED]

In the first part of this course the students will apply an ethical model to case study, in order to understand the ethical considerations related to health policy and healthcare research. Students will analyze health policy and its impact on primary care delivery systems. Issues examined will include ethics, advocacy for social justice, health

disparities, equity in relation to health care policy, access, quality and financing. Students will learn strategies for engaging in the process of health care policy development.
Prerequisite: **PC702, PC718**

N706 Evidence Based Practice and Information Technology (3-0) [RETIRED]

This course emphasizes use of computerized systems in clinical evaluation and practice. Students will examine the social, ethical, and legal issues associated with information technology in a healthcare environment.
Prerequisite: **PC702, PC718**

N711 DNP Practicum I (0-4) [RETIRED]

This course provides leadership experiences in a healthcare setting commensurate with the student's advanced practice area. It provides an opportunity for students to further synthesize learning gained through the program, effectively incorporating new knowledge and skills to expand their advanced practice. Students will select a clinical site that is relevant to the development and implementation of their DNP Project.
Prerequisite: **PC702, N702, N703, N720A, N720B**

N712 DNP Practicum II (0-4) [RETIRED]

This practicum includes leadership experiences designed to allow the student to explore, identify and develop expertise in the chosen DNP project area and reflect upon and develop innovative solutions for complex healthcare problems. Students will select a practicum site that is relevant to the development of deep knowledge in their chosen DNP project area.
Concurrent: N720C

N720A DNP Project (1-0) [RETIRED]

The purpose of the DNP Project is to provide the student the opportunity to complete an in-depth analysis and synthesis of a selected health care issue that will contribute to the improvement of a health care practice or system. Students will be expected to integrate.

N720B DNP Project (1-0) [RETIRED]

The purpose of the DNP Project is to provide the student the opportunity to complete an in-depth analysis and synthesis of a selected health care issue that will contribute to the improvement of a health care practice or system. Students will be expected to integrate.

N720C DNP Project (2-0) [RETIRED]

The purpose of the DNP Project is to provide the student the opportunity to complete an in-depth analysis and synthesis of a selected health care issue that will contribute to the improvement of a health care practice or system. Students will be expected to integrate
Prerequisite: N720B

NM601 The Role of Midwifery and Birth Centers in America (2-0) [RETIRED]

This is the first course in a four-course series that will examine the framework of practice for Certified Nurse-Midwives. The content of this course includes the historical development and evolution of nurse-midwifery, birth centers, the American College of Nurse Midwives, and the American Association of Birth Centers (AABC) (formerly known as the National Association of Childbearing Centers (NACC). Each of these content areas are examined within the social, political, and economic contexts over the past century. Content included in the course will highlight the major turning points in the interrelated development of medicine, nursing, and nurse-midwifery within the major social, political, and economic changes, from the industrial revolution to the establishment of the medical industrial complex to the technological revolution of the new millennium. Course content also includes the impact of the development of the birth center concept on delivery of maternity care. While attending the AABC "How to Start a Birth Center" Workshop, students will learn about small business principles for establishing and maintaining a midwifery practice or service using the birth center as a case study.
Prerequisite: **None**

NM602 Reproductive Anatomy and Physiology (2-0) [RETIRED]

This course provides a basis for midwifery and women's health care nurse practitioner practice by presenting information on reproductive physiology including female and male reproductive anatomy, reproduction, basic embryology and fetal development, maternal anatomical and physiological alterations associated with pregnancy, labor, and birth.

Prerequisite: **None**

NM609 Market Research (1-0) [RETIRED]

In this course the student investigates the readiness of consumers and providers in the community for nurse-midwives and birth centers by conducting market research.

Prerequisite: **NM601**

NM610 Community Assessment (1-0) [RETIRED]

This course is designed as a practicum in learning about your community. The course takes the student into the community to gather firsthand information on: the legal base for practice and the operation of a birth center; general information on the community's population characteristics, economy, transportation and health indicators; availability and access to maternity care services and social support agencies.

Prerequisite: **NM601**

Prerequisite or concurrent: **PC618**

NM617 Antepartum Care (4-0) [RETIRED]

This course is made up of a sequence of modules designed to provide the knowledge base for clinical midwifery management of the healthy pregnant woman. Content for this course covers the basics of prenatal care, and stresses the developmental changes that can be expected during the course of pregnancy. Promotion of optimal health and outcome by the provision of midwifery care is discussed. Prevention of problems through the promotion of healthy behaviors by the pregnant woman and her family is a key focus of the course. Emphasis is also on midwifery teaching and supportive care that enhances the normal processes of pregnancy and birth.

Prerequisite: **PC605 and NM602**

Prerequisite or concurrent: **PC612**

NM618 Intrapartum Care (4-0) [RETIRED]

This course is designed to assist the midwifery student in attaining the basic knowledge needed to provide care during an uncomplicated labor and birth. Emphasis is placed on comparing different management options through a review of literature in order to assist women in making informed choices and participating in decisions about their care during labor and birth.

Prerequisite: **PC605 and NM602**

Prerequisite or concurrent: **PC612**

NM619 Postpartum and Newborn Care (3-0) [RETIRED]

This course focuses on normal anatomical changes of the puerperium, including lactation, and the normal anatomical and physiologic changes of the fetus and newborn. It is designed to provide a foundation for the management of care of the basically normal postpartum woman and newborn. Content also includes breastfeeding, postpartum, and newborn teaching, as well as societal, and cultural issues surrounding the mother/infant dyad. Some controversies in newborn care will be covered.

Prerequisite: **PC605 and NM602**

Prerequisite or concurrent: **PC612**

NM621 Advanced Antepartum Care (3-0) [RETIRED]

This course is designed to provide knowledge needed to anticipate, identify, and manage antepartum complications and variations of normal, some of which will require the midwife to consult collaborate, or refer. Emphasis is placed upon the importance of timely diagnosis and appropriate collaborative management using evidence-based care practices. This course also provides the knowledge base needed to more fully address selected management issues that the midwife will take up with all clients such as prenatal genetic screening and diagnosis, and issues related to the extremes of childbearing age.

Prerequisite: **NM617**

NM622 Advanced Intrapartum Care (3-0) [RETIRED]

This course is designed to provide knowledge needed to anticipate, identify, and manage intrapartum complications and variations of normal, many of which require the midwife to consult, collaborate, or refer. Risk factors, current research, and management controversies related to complications and variations of normal, as well as immediate management steps for emergency conditions are covered.

Prerequisite: **NM618**

NM623 Advanced Postpartum and Newborn Care (2-0) [RETIRED]

This course focuses on the theory and concepts of nurse-midwifery management in the care of postpartum women, newborns, and their families. Emphasis is placed on continuity of care for the family after birth. It includes postpartum and newborn complications.

Prerequisite: **NM619**

NM629 Skills for Nurse-Midwifery Care (1-0) [RETIRED]

This course provides the student with the opportunity to learn and practice intrapartum, postpartum, and newborn skills in an on-campus didactic classroom and clinical skills laboratory. The intrapartum content includes beginning suturing skills, hand maneuvers for normal birth and third stage, and management of selected intrapartum complications and variations of normal. Students will begin to develop their clinical assessment skills related to normal postpartum clients as well as clients experiencing selected postpartum complications. Assessment of the newborn, including complete physical examination, is presented and practiced.

Prerequisite: **all core courses, NM specialty courses and clinical site submission for credentialing**

NM630 Advanced Women's Health Care (1-0) [RETIRED]

This course focuses on caring for women with complex women's health and gynecological conditions. The emphasis is on recognition of signs and symptoms, initial evaluation and management, and appropriate collaborative management.

Prerequisite: **PC615**

NM638 Health Policy: Birth Centers as a Case Study (1-0) [RETIRED]

In this course, the student will be immersed in health policy and finance by designing a birth center that meets the needs of the community and is integrated into the health care delivery system. The program of care will be delineated including plans for quality assurance. A budget will be calculated, and revenue projected. The viability of the birth center will be determine.

Prerequisite: **NM609, NM610**

NM640 Nurse-Midwifery Independent Study (variable) [RETIRED]

This course is designed for students to complete supervised study related to nurse-midwifery care. The content varies according to individual needs and interest.

Prerequisite: **Permission of instructor**

NM641 Nurse-Midwifery Clinical I (0-3) [RETIRED]

This is the first of four clinical courses in which content learned in the foundational and management courses is applied. Students begin to apply the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or Concurrent: **NM629**

NM642 Nurse-Midwifery Clinical II (0-3) [RETIRED]

This is the second of four clinical courses in which content learned in the foundational and management courses is applied. Students use sound rationale in applying the nurse-midwifery management process to the care women throughout the lifespan, including the childbearing cycle. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: **NM641**

NM643 Nurse-Midwifery Clinical III (0-3) [RETIRED]

This is the third of four clinical courses in which content learned in the foundational and management courses is applied. Students demonstrate sound judgment in applying the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle, with appropriate consultation, collaboration and referral as indicated by client needs. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: **NM642**

NM644 Nurse-Midwifery Clinical IV (0-6) [RETIRED]

This is the fourth and final clinical course in which content learned in the foundational and management courses is applied. The student is able to independently apply the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle, and to appropriately handle emergency situations. Parameters for safe practice are integrated and practice scope is delineated for a safe and competent, beginning nurse-midwife. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: **NM630, NM638, NM643**

NM645 Comprehensive Final Review (0-0) [RETIRED]

The purpose of this course is to provide a review of NM content for the comprehensive exam and the Certified Nurse-Midwife certification exam.

Prerequisite or Concurrent: **Prerequisite: NM didactic and clinical courses through NM714**

Prerequisite or Concurrent: NM715, NM716

NP607 Role of the Nurse Practitioner in the Health Care Delivery System (3-0) [RETIRED]

This course explores the history of advanced practice registered nurse (APN) roles in the current socio-political environment, preparing students to serve in a leadership role to shape the delivery of effective health care. An overview of various communication methods, community assessment, and epidemiological principles is provided. Students will complete a local Community Assessment, including all aspects of the current healthcare delivery system.

Prerequisite: **None.**

NP611 Care of the Childbearing Woman (3-0) [RETIRED]

This course is made up of a sequence of modules designed to provide the knowledge base for beginning clinical nurse-practitioner management of the healthy pregnant and postpartum woman. Content for this course covers the basics of postpartum and prenatal care such as assessment of fetal wellbeing, nutrition in pregnancy, and the developmental changes that can be expected during the course of pregnancy. Promotion of optimal health and outcome by the provision of prenatal care is discussed. Prevention of problems through the promotion of healthy behaviors by the pregnant woman and her family is a key focus of the course. Emphasis is also on client teaching and supportive care that enhances the normal processes of pregnancy and birth, management of the postpartum period, and support of breastfeeding.

Prerequisite: **PC605**

Prerequisite or concurrent: **PC606 and PC612**

NP614 Primary Health Care II: Chronic Problems (3-0) [RETIRED]

This course is the second of five courses in Primary Care that uses simulated data to focus on assessment, differential diagnosis, pharmacologic and non-pharmacologic management of clients with chronic pathology. Clinical research and standards of care provide evidenced-based rationales for clinical decision-making.

Prerequisite: **PC605, PC612, PC617, and PC618**

NP615 Primary Health Care III: Advanced Diagnostics and Urgent Care (2-0) [RETIRED]

This course refines critical thinking and diagnostic reasoning skills and provides students with an opportunity to demonstrate cognitive, affective and psychomotor skills necessary for accurate diagnosis of health status. Urgent

treatment for common emergencies, their differential diagnoses, and primary care management are also covered in this course.

Prerequisite: **PC612 and PC617**

NP619 Primary Care of Children (3-0) [RETIRED]

This course focuses on surveillance and management of common developmental problems in children from infancy through adolescence. Strategies for health maintenance, anticipatory guidance, and management of common acute and chronic pediatric health problems are emphasized. Family dynamics and structure are discussed in this course.

Prerequisite: **PC605, PC606, and PC612**

NP621 Primary Health Care IV: Psychosocial Problems in Primary Care (1-0) [RETIRED]

This course is designed to introduce the nurse practitioner student to the spectrum of behavioral and mental disorders commonly encountered in the primary care setting. Focus is placed on psychiatric evaluation, screening, and counseling techniques that facilitate diagnosis and early intervention for individuals with psychological disorders. Clinical research and standards of care provide evidence-based rationales for clinical decision-making.

Prerequisite: **PC605, PC606, and PC612.**

NP629 Advanced Skills for Primary Care (1-0) [RETIRED]

This course provides the student with the opportunity to learn and practice skills for advanced diagnosis, management of common emergencies, and newborn assessment in an on-campus didactic classroom and clinical laboratory. Content and skills include suturing, radiology, and pediatric exams. Students will participate in clinical simulations of orthopedic, cardiac, respiratory and emergency care. Primary care skills will be furthered by clinic and hospital clinical observational experiences.

Prerequisite: **NP614, NP615**

Prerequisite or concurrent: **all core courses are prerequisite (with the exclusion that NP621 and NP619 may be taken concurrent) plus clinical site submission for credentialing**

NP635 Primary Health Care V: Complex Health Problems in Primary Care (1-0) [RETIRED]

This integration course in the Primary Health Care series assists the learner to apply critical thinking to the management of complex health problems. Complex health problems are those that involve multiple or severe physical, social, or psychological problems. The case study development requires the learner to consider family, developmental, and social theories as well as the principles of assessment, physical diagnosis, management, and evaluation.

Prerequisite: **NP641 and NP642**

NP636 Healthcare Finance (1-0) [RETIRED]

This course focuses on issues that are relevant to advance practice registered nurses (APRNs) and related to professional roles, responsibilities and building a practice. The course is designed to build upon the student's current knowledge of primary care practice settings. Covered content will include developing a business plan (including marketing strategies) for a future practice, which may prompt the student to open his or her own health care practice. Students will also provide grant proposal information to begin the entrepreneur funding process and create an effective resume.

Prerequisite or concurrent: **PC628 and NP/WH629**

NP637 Healthcare Policy (1-0) [RETIRED]

This course focuses on issues that are relevant to advance practice registered nurses (APRNs) related to professional roles and responsibilities. The course is designed to build upon the student's current knowledge of professional practice as it pertains to health policy and primary care practice settings. Content covered will include developing a political fact sheet, a peer chart review and a professional resume.

Prerequisite or concurrent: **PC628, NP/ WH629, and NP/WH641**

NP640 Nurse Practitioner Independent Study (variable) [RETIRED]

This course is designed for students to complete supervised study related to nurse practitioner care. The content varies according to individual needs and interest.

Prerequisite: **Permission of instructor**

NP641 Family Nurse Practitioner Clinical I (0-3) [RETIRED]

This is the first of four clinical courses for the FNP student which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at a beginning level and will start to apply the management process to plan the primary care for individuals across the lifespan while utilizing evidence-based practice guidelines.

Prerequisite: **PC628, NP629**

NP642 Family Nurse Practitioner Clinical II (0-3) [RETIRED]

This is the second of four clinical courses for the FNP student which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced beginning level and will apply the management process to plan primary care for individuals across the lifespan while interpreting evidence-based practice guidelines.

Prerequisite or concurrent: **NP641**

NP643 Family Nurse Practitioner Clinical III (0-3) [RETIRED]

This is the third of four clinical courses for the FNP student which provides the opportunity to practice advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an intermediate level and will apply and begin to analyze the management process to provide primary care for individuals across the lifespan while appraising evidence-based practice guidelines. The student will begin to manage individuals with more complex needs.

Prerequisite or concurrent: **NP642**

NP644 Family Nurse Practitioner Clinical IV (0-6) [RETIRED]

This is the fourth and final clinical course for the FNP student which provides the opportunities to advance health assessment skills, critical thinking/diagnostic reasoning, and clinical management/counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process evaluating evidence-based practice guidelines. The student will manage individuals with more complex needs and comorbidities.

Prerequisite or concurrent: **NP635, NP636, NP637, NP643**

NP645 Comprehensive Final Review (0-0) [RETIRED]

Family nurse practitioner students take this course in the final term of clinical. Content learned throughout all didactic and clinical courses is tested. Students are guided through self-paced reviews and tested on individual content areas, then comprehensively on a final exam.

Prerequisite or Concurrent: **Prerequisite: NP didactic and clinical courses through NP714**

Prerequisite or Concurrent: NP715, NP716

PC600 Health Promotion and Disease Prevention (2-0) [RETIRED]

This course presents theory, strategies, and guidelines necessary for the promotion of personal, client, and community health. Students explore strategies to incorporate disease prevention and health promotion into daily routines. Students consider cultural humility and communication and the therapeutic relationship in clinical settings. Students apply health behavior theory to assess supports and barriers to healthy outcomes in their clients. Students find evidence for and apply screening guidelines across the lifespan. Students identify programs and policies that promote health on a community level. Throughout the course, ethics, theory, client centered practice, and evidence inform the presentations.

Prerequisite: **Licensure as a registered nurse**

Prerequisite or concurrent: **N409 for Bridge students**

PC604 Pathophysiology for Primary Care (3-0) [RETIRED]

Pathophysiology for Primary Care provides the student advanced practice nurse with a scientific basis for practice. This course presents an integrated approach to Pathophysiology that demonstrates the interdependency of body systems and the effects of key pathophysiologic processes. Clinical content is included as an application of Pathophysiology and will assist the student to understand the disease processes and cultural/ethnic variables.

Prerequisite: **None**

PC605 Physical Assessment: Interviewing, Documentation, and Decision Making (2-0) [RETIRED]

This course uses the nurse-midwife/nurse practitioner management process as a framework for developing critical thinking and diagnostic reasoning skills needed for caring for the primary care patient. Focus includes: **recognition of symptom patterns; selection and interpretations of common screening and diagnostic laboratory tests; communication of information using SOAP format; consideration of the patient as partner in the diagnostic process.**

Prerequisite: **None**

Prerequisite or concurrent: **PC604**

PC606 Theories and Concepts of Advanced Primary Care Nursing (3-0) [RETIRED]

This course provides the theoretical and conceptual framework for advanced nursing practice in primary care and focuses on the relationship of theory and knowledge development in nursing to research and practice. Emphasis is placed on the theories and concepts commonly used by nurse midwives and nurse practitioners in primary care. The contemporary meaning of praxis and its relation to nursing and development of nursing knowledge is introduced.

Prerequisite: **Statistics course within the last ten years**

PC612 Pharmacology for Advanced Practice (3-0) [RETIRED]

Principles of pharmacodynamics and pharmacokinetics across the lifespan serve as the foundation for this comprehensive course in pharmacology for prescribers. Emphasis is placed on understanding the physiological action of drugs, expected client responses, and major side effects. Issues related to evidence-based pharmacologic practice and legal aspects of prescribing are examined.

Prerequisite: **PC605.**

Prerequisite or concurrent: **PC618.**

PC615 Women's Health Care (3-0) [RETIRED]

This course encompasses promotion and maintenance of gynecologic health, as well as the assessment, diagnosis, and management of common gynecologic conditions across the lifespan. Clinical considerations specific to the different physical and psychosocial life stages of women are presented. Emphasis is placed upon the importance of providing evidence-based gynecologic care. The influence of the interrelationship of gender, social class, culture, ethnicity, sexual orientation, economic status, and socio-political power differentials upon women's health care is also discussed.

Prerequisite: **PC605**

Prerequisite or concurrent: **PC606 and PC612**

PC617 Primary Health Care I: Acute and Common Problems (3-0) [RETIRED]

The focus of this course is the refinement of diagnostic reasoning strategies needed for primary care management of adults with commonly occurring health problems. Definitions of primary care and the diagnostic reasoning process will be presented. Principles of teaching/learning, family assessment, cost analysis and cultural beliefs are integrated in the development of evidence-based management plans for those common and acute illnesses most likely to be encountered in the primary care setting. Clinical research and standards of care provide evidence-based rationales for clinical decision-making.

Prerequisite: **PC605.**

Prerequisite or concurrent: **PC612.**

PC618 Research (3-0) [RETIRED]

The research course focuses on the analysis and critical evaluation of research methodology appropriate to nursing practice. Emphasis will be on use of research in one's practice as a consumer, participant and originator of clinical research.

Prerequisite: **PC606 and a statistics course within the last ten years.**

PC628 Skills for Primary Care (1-0) [RETIRED]

This course provides the student with the opportunity to learn and practice health assessment, women's health, and antepartum hands-on skills in an on-campus didactic classroom and clinical laboratory. Students also participate in role plays and clinical scenarios in preparation for interaction with clients during the clinical practicum.

Prerequisite or concurrent: **all core courses are prerequisite (with the exclusion that NP621 and NP619 may be taken concurrent for FNP students), plus clinical site submission for credentialing**

PC703 Evidence Based Practice (3-0) [RETIRED]

In this course, the theories, concepts, and methods relevant to the review, analysis, synthesis, and application of scientific evidence to nursing practice and health care will be explored. The facilitators and barriers to evidenced based advanced nursing practice will be addressed in the course.

Prerequisites: **PC700, PC701, completion of a statistics course in the last 10 years**

Prerequisite or concurrent: **PC702**

PC704A Translating the Evidence to Advanced Practice I (1-0) [RETIRED]

This course guides students through the process of working within a healthcare delivery system to translate evidence into practice. Students are introduced to quality improvement theories, processes and structures. Within interdisciplinary teams, students gain practical and academic experience with the fundamentals of systems improvement. Students complete the preliminary steps of selecting a clinical issue, gathering evidence and translating evidence to practice. Students draft a charter, writing an aim statement while selecting process, balancing, and outcome measures. Learners practice information literacy, and quality improvement process literacy while continuing to develop scholarly communication skills.

Prerequisite: **Completion of FNU MSN program (Class 119 and higher or Bridge class 108 and higher) OR Admission to PM DNP program and completion of PC702, PC713, PC718**

Concurrent: **PC720**

PC704B Translating the Evidence to Advanced Practice II (1-0) [RETIRED]

This course guides students through the process of working within a healthcare delivery system to translate evidence into practice. Students use rapid cycle improvement methods to implement an evidence based practice project throughout the term. Within interdisciplinary teams, students gain practical and academic experience with the fundamentals of systems improvement. Students complete plan, do, study, act cycles, evaluate data to inform small tests of change, and complete a clinical practicum summary. Learners practice interprofessional team building, family centered systems improvement and practice quality improvement process literacy while continuing to develop scholarly communication skills.

Prerequisite: **PC704A and PC720**

Concurrent: **PC721**

PC704C Translating the Evidence to Advanced Practice III [RETIRED]

This course guides students through the dissemination phase of translating the evidence into practice. Learners demonstrate interprofessional leadership skills and best practices in program dissemination.

Prerequisite: **PC704B and PC721**

Concurrent: **PC722**

PC708 Leadership (2-0) [RETIRED]

This course examines the leadership role of the nurse as one that influences health care delivery through leadership theories and principles. Focus is on leadership approaches, principles, competencies, styles with emphasis on teamwork, communication, decision-making, and the business realities of leading within a health

care system. Theories and issues related to leadership, organizational processes, organizational change, strategic planning, and interpersonal group dynamics are examined.

Prerequisite: **Completion of FNU MSN (Class 119 and higher or Bridge class 108 and higher)**

PC709 Health Policy (1-0) [RETIRED]

Students will analyze health policy and its impact on primary care delivery systems. Issues examined will include advocacy for social justice, health disparities, equity in relation to health care policy, access, quality and financing. Students will learn strategies for engaging in the process of health care policy development.

Prerequisite: **Completion of FNU MSN (Class 119 and higher or Bridge class 108 and higher)**

PC720 DNP Clinical I (0-2) [RETIRED]

This course is designed to develop clinical practice scholars by mentoring students who are providing direct patient care. The content exposes students to the latest evidence-based clinical practice resources, care coordination tools, and interprofessional, collaborative learning networks. Students demonstrate competence with clinical scholarship related to care of individuals, families and populations while exploring the fundamental processes of onboarding, ongoing performance evaluation, communication frameworks, diagnostic expertise, risk management and complex care transitions. Throughout the course, students explore family centered systems, issues of equity and social justice, as well as financial stewardship, cost and value.

Prerequisite: **Completion of FNU MSN program (Class 119 and higher or Bridge class 108 and higher) OR Admission to PM DNP program and completion of PC702, PC713, PC718**

Concurrent: PC704A

PC721 DNP Clinical II (0-3) [RETIRED]

This course is the second of a three-part series designed to develop clinical practice scholars. The class exposes students to the latest evidence-based clinical practice resources, clinical quality assurance tools, and interprofessional, collaborative learning networks. Students demonstrate competence with clinical scholarship related to care of individuals, families and populations while exploring the fundamental processes of team building, change management, performance measurement, and implementation.

Prerequisite: **PC704A, PC720**

Concurrent: **PC704B**

PC722 DNP Clinical III (0-3) [RETIRED]

This course is the third of a three-part series designed to develop clinical practice scholars. Students demonstrate advanced levels of clinical judgement, systems thinking, and accountability in designing, delivering and evaluating evidence based care to improve population health. Students complete their DNP clinical portfolio by exploring complex care coordination, financial stewardship, risk management and sentinel event analysis. Finally, the role of DNP leaders in maintenance of a healthy work environment and prevention of professional burnout are explored.

Prerequisite: **PC704B, PC721**

Concurrent:Corequisite: **PC704C**

PC730 DNP Clinical Scholarship Planning (1-2) [RETIRED]

This course exposes students to the latest evidence-based clinical practice resources, clinical safety and systems analysis tools, and interprofessional, collaborative learning networks. Students demonstrate competence with clinical scholarship related to care of individuals, families and populations while exploring the fundamental processes of information literacy, onboarding, performance evaluation, family centered systems, and systems level safety. The course guides students through the process of planning a quality improvement project within a healthcare delivery system to translate evidence into practice. Students apply quality improvement theories, processes and methods and gain practical experience with the fundamentals of systems improvement. Learners practice information literacy, and quality improvement process literacy while continuing to develop scholarly communication skills.

Prerequisite: **Completion of FNU MSN program (Class 119 and higher or Bridge class 108 and higher) and APRN certification OR Admission to PM DNP program and completion of PC702, PC713, PC718**

PC731 DNP Clinical Scholarship Implementation (1-3) [RETIRED]

This course guides students through the process of working within a healthcare delivery system to translate evidence into practice. Students use rapid cycle improvement methods to implement an evidence based practice project throughout the term. Within interdisciplinary teams, students gain practical and academic experience with the fundamentals of systems improvement. Students complete plan, do, study, act cycles, evaluate data to inform small tests of change, and complete a clinical practicum summary. Learners practice interprofessional team building, family centered systems improvement and practice quality improvement process literacy while continuing to develop scholarly communication skills.

Prerequisite: **PC704A + PC720, OR PC730**

PC732 DNP Clinical Scholarship Dissemination (1-3) [RETIRED]

This course is the third of a three-part series designed to develop clinical practice scholars. Students explore sustainability, spread and scale of their DNP project. This course guides students through the dissemination phase of translating the evidence into practice. Learners demonstrate interprofessional leadership skills and best practices in program dissemination. Students complete their DNP clinical portfolio by exploring complex care coordination, financial stewardship, risk management and sentinel event analysis. Learners demonstrate advanced levels of clinical judgement, systems thinking, and accountability in designing, delivering and evaluating evidence based care to improve population health. Finally, the role of DNP leaders in maintenance of a healthy work environment and prevention of professional burnout are explored.

Prerequisite: **PC704B + PC721, OR PC731**

WH629 Skills for Women's Health Care (1-0) [RETIRED]

This course provides the student with the opportunity to learn and practice women's health care skills in an on-campus didactic classroom and clinical laboratory. Students will begin to develop their assessment and management skills related to normal postpartum clients as well as clients experiencing selected postpartum complications. Women's health care skills will be further billed by clinical observation of nurse practitioners and nurse-midwives providing gynecologic, obstetric and primary care.

Prerequisite: **all core courses, applicable specialty courses and clinical site submission for credentialing**

WH634 Care of the Childbearing Woman II (3-0) [RETIRED]

This course builds on the antepartum and postpartum material learned in previous courses and is designed to further the knowledge base for nurse practitioner care of women throughout the childbearing cycle. Critical thinking, clinical management, and education strategies are emphasized.

Prerequisite or concurrent: **NP611**

WH640 Women's Health Care Independent Study (variable) [RETIRED]

This course is designed for students to complete supervised study related to women's health care. The content varies according to individual needs and interest.

Prerequisite: **Permission of instructor**

WH641 Women's Health Clinical I (0-3) [RETIRED]

This is the first of four clinical courses in which content learned in the foundational and management courses is applied. Students use a holistic approach in beginning to apply the management process to the gynecologic, obstetric, and primary care of women throughout the lifespan. Students are guided in learning by seasoned clinical preceptors.

Prerequisite or concurrent: **PC628, WH629, NM630**

WH642 Women's Health Clinical II (0-3) [RETIRED]

This is the second of four clinical courses in which content learned in the foundational and management courses is applied. Students develop skill in using sound rationale in applying the management process to the gynecologic, obstetric, and primary care of women throughout the lifespan. Students are guided in learning by seasoned clinical preceptors.

Prerequisite or concurrent: **WH641**

WH643 Women's Health Clinical III (0-3) [RETIRED]

This is the third of four clinical courses in which content learned in the foundational and management courses is applied. Students demonstrate sound judgment in applying the management process to the gynecologic, obstetric, and primary care of women throughout the lifespan with appropriate consultation, collaboration and referral as indicated by client needs. Students are guided in learning by seasoned clinical preceptors.

Prerequisite or concurrent: **WH642**

WH644 Women's Health Clinical IV (0-6) [RETIRED]

This is the fourth and final clinical course in which content learned in the foundational and management courses is applied. The student is able to independently apply the management process to the gynecologic, obstetric, and primary care of women throughout the lifespan, and to appropriately handle emergency situations. Parameters for safe practice are integrated and practice scope is delineated for a safe and competent, beginning nurse practitioner. Students are guided in learning by seasoned clinical preceptors.

Prerequisite or concurrent: **NM630, NP636, NP637, WH634, WH643**

WH645 Comprehensive Final Review (0-0) [RETIRED]

This course provides a review of the WHNP content for comprehensive exam and WHCNP Certification.

Prerequisite or Concurrent: **Prerequisite: WH didactic and clinical courses through WH 714**

Prerequisite or Concurrent: **WH 715, WH 716**

WH705 Postpartum Care (2-0) [RETIRED]

This course focuses on normal anatomical and physiological changes of the puerperium, including anatomy and physiology of lactation, and addressing maternal concerns of newborn care. It is designed to provide a foundation for the management of care of the basically normal postpartum woman. Content also includes breastfeeding, postpartum, and newborn teaching, as well as societal, and cultural issues surrounding the mother/infant dyad.

Prerequisite: **PC705, PC706, PC707**

Prerequisite or concurrent: **PC703 or PC718**

WH706 Complex Care of the Childbearing Women (3-0) [RETIRED]

This course provide the nurse practitioner with the knowledge needed to anticipate, identify, and manage the complications of childbearing, including appropriate consultation, collaboration, or referral. Emphasis is placed on continuity of care and seamless transitions of care. Risk factors, current research, timely diagnosis, and management using evidence-based care practices are addressed.

Prerequisite: **NM702, WH705**

FNU Frequently Used Acronyms

ACEN Accreditation Commission for Education in Nursing (formerly NLNAC, National League for Nursing Accrediting Commission) a national accrediting body for all types of nursing education programs, FNU is accredited by ACEN

AANP American Academy of Nurse Practitioners: national professional organization for nurse practitioners, AANP has a certification program for family nurse practitioners

ACNM American College of Nurse-Midwives: national professional organization for nurse-midwives

ACME Accreditation Commission for Midwifery Education (formerly ACNM Division of Accreditation): plans, implements and evaluates the accreditation process of nurse-midwifery and midwifery education programs and freestanding institutions of higher education that offer nurse-midwifery/midwifery education programs.

ACNP American College of Nurse Practitioners: national professional organization for nurse practitioners

ADN Associate Degree in Nursing

AH Academic Hiatus

AMCB American Midwifery Certification Board: the national certifying body for nurse-midwives

ANCC American Nurses Credentialing Center: national nursing credentialing organization that offers family nurse practitioner certification

BT Banyan Tree: FNU's private communication portal

CCNE Commission on Collegiate Nursing Education: a national accrediting agency for nursing education programs

CFNP Community-based Family Nurse Practitioner Education Program: the FNU family nurse practitioner specialty track

CNEP Community-based Nurse-midwifery Education Program: the FNU nurse-midwifery specialty track

CNM Certified Nurse-Midwife

Companion DNP A DNP program of study available to specific FNU graduates; this is a program of study that is different than the PM-DNP

CWHCNP Community-based Women's Health Care Education Program: the FNU women's health care specialty track

DAT Developmental Assessment Tool: evaluation method used during the Clinical Practicum, both daily (DDATs) and monthly (MDATs)

DNP Doctor of Nursing Practice

FNP Family Nursing Practitioner

FNS Frontier Nursing Service: health care system that combines education and service through a hospital, home health agency, rural healthcare clinics, and FNU

FNU Frontier Nursing University

FPBSON/CWRU Frances Payne Bolton School of Nursing/Case Western Reserve University: FNU formerly held a longstanding affiliation with FPBSON/CWRU

FSMFN Frontier School of Midwifery and Family Nursing (former name of FNU)

FNU Frontier Nursing University

IT Staff Information Technology Staff

LMS Learning Management System

MSN Master of Science in Nursing

NCC National Certification Corporation: national nursing credentialing organization that offers women's health care nurse practitioner certification

PM-DNP Post-Master's Doctor of Nursing Practice; this program of study is different than the companion DNP

PMHNP Psych-Mental Health Nurse Practitioner

PGC Post-Graduate Certificate

RCF Regional Clinical Faculty

SACSCOC Southern Association of Colleges and Schools Commission on Colleges : the regional accrediting body in the eleven U.S. Southern states, FNU is accredited by SACSCOC

SYSOP Systems operator: the person who administers the Banyan Tree portal and has complete access to all of the system

WHCNP Women's Health Care Nurse Practitioner
