Students are expected to abide by all of the policies stated in the Frontier Nursing University (FNU) Catalog. These policies are subject to change at any time and, unless otherwise noted, the revised or additional policies will apply to all students. Students will be notified of changes to the FNU Catalog via the Banyan Tree web portal (http://portal.frontier.edu). Upon being notified of changes, students are responsible for downloading and reading the most recent version of the FNU Catalog.

Accreditations

Frontier Nursing University (FNU) is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award master's degrees and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about accreditation of FNU.

Frontier Nursing University is licensed by the Kentucky Council of Postsecondary Education (1024 Capital Center Drive, Suite 320, Frankfort, KY 40601; Tel: 502-573-1555) to offer a Doctor of Nursing Practice degree and both certificates and a Master of Science in Nursing (MSN) for nurse-midwifery, family nurse practitioner, women's health care nurse practitioner specialties and psychiatric-mental health nurse practitioner specialties.

The nurse-midwifery post-graduate certificate program and master's program and doctor of nursing practice degree are accredited by the Accreditation Commission for Midwifery Education (ACME), 8403 Colesville Road, Suite 1230, Silver Spring, MD 20910-6374; Tel: 240-485-1803, acme@ACNM.org; www.midwife.org/acme

The Doctor of Nursing Practice, the Master of Science in Nursing, the Post-Graduate Certificate nursing programs, including the nurse-midwifery, family nurse practitioner, psychiatric-mental health nurse practitioner, and women's health care nurse practitioner tracks at Frontier Nursing University in Versailles, KY are accredited by the Accreditation Commission for Education in Nursing (ACEN).

Accreditation Commission for Education in Nursing (ACEN)
3390 Peachtree Road NE, Suite 1400
Atlanta, GA 30326
404-975-5000

The most recent accreditation decision made by the ACEN Board of Commissioners for the Doctor of Nursing Practice, the Master of Science in Nursing program and the post-graduate certificates, including the nurse-midwifery, family nurse practitioner, psychiatric-mental health nurse practitioner, and women's health care nurse practitioner nursing programs is Continuing Accreditation. View the public information disclosed by the ACEN regarding this program at http://www.acenursing.com/accreditedprograms/programsearch.htm

Guaranty Bond

The Guaranty Bond is maintained on file in the office of the Executive Vice President for Finance and Facilities of FNU at 2050 Versailles Road, Versailles, KY 40383. The Guaranty Bond is available for review upon request during normal business hours by any and all interested parties.
Civil Rights Notice of Non-Discrimination

Frontier Nursing University (FNU) is in full compliance with section 602 of Title VI of the Civil Rights Act of 1964. The FNU staffing policies, education programs and services rendered are administered uniformly without regard to and does not discriminate on the basis of race, color, religion, national origin, sex, physical or mental disability, sexual orientation, citizen status, pregnancy, genetic information, age, past, present, or future service in the Uniformed Services of the United States whether the individual is a smoker or nonsmoker, or any other basis prohibited by local, state, or federal law. The following person has been designated to handle inquiries regarding the nondiscrimination policies:

About Frontier Nursing University

Mission
Frontier Nursing University is a private, non-profit, non-residential graduate school of nursing offering community-based, distance education programs leading to the Doctor of Nursing Practice degree, the Master of Science in Nursing Degree and/or post-graduate certificates in advanced practice nursing specialties. Our mission is to provide accessible nurse-midwifery and nurse practitioner education to prepare competent, entrepreneurial, ethical and compassionate leaders in primary care to serve all individuals with an emphasis on women and families in diverse, rural and underserved populations.

Adopted FNU Board of Directors 1/5/2011

This mission is accomplished by:

- Offering a structured off-campus program of nurse-midwifery and nurse practitioner graduate and certificate education to nurses who choose to learn in their community and/or learn best through self-directed, independent study.
- Preparing nurse-midwives and nurse practitioners to establish and/or manage a practice including innovative methods of providing primary care services.
- Providing commitment and collaboration between FNU’s centralist academic structure and community-based clinical preceptors.
- Contributing to faculty and student development of scholarship in the areas of midwifery and advanced practice nursing education, practice and service.

Adopted FNU Board of Directors 10/17/2008

Vision Statement
Continually improve our status as a center of excellence for Midwifery and Nurse Practitioner Education.

Values

| C | Compassion |
| I | Innovation |
| R | Reflection |
| C | Community |
| L | Legacy |
| E | Excellence |
| U | Uniqueness |
| P | Primary Care |

Elaboration of the Vision

- Continue leadership in educating nurse-midwives and nurse practitioners to work in rural and other underserved areas.
- Maintain excellence in educating nurse-midwives and nurse practitioners in primary care.
- Demonstrate innovation in community-based distance education through the Community of Inquiry (CoI) model.
- Foster a culture of respect and service throughout the community.
- Plan for responsible and sustainable growth.
- Maintain responsible business and fiscal stewardship.
- Advance the legacy of Mary Breckinridge and the Frontier Nursing Service.

adopted Board of Directors 1/5/2011
Philosophy
The faculty of Frontier Nursing University (FNU) ascribe to a philosophy that includes the following beliefs:

**Person**
Individuals are unique, holistic beings, complex in nature with innate worth and dignity. As integrated biophysical, psychological, spiritual and socio-cultural beings, they are in constant interaction with an internal/external environment. Individuals have inherent power to be self-directed, to adapt behavior to work towards the highest potential for wellness, and to attain personal meaning for their lives within the context of their families and communities.

**Environment**
An individual’s environment is comprised of biophysical, psychological, sociocultural and spiritual dimensions. The way in which an individual responds to the environment affects a person’s level of wellness. The environment can be altered to positively affect a person’s health.

**Health**
Health is a dynamic process reflecting one’s biophysical, psychological, socio-cultural and spiritual state. Health is maximized when an individual’s optimum level of wellness is promoted, maintained or restored.

FNU fosters a commitment to holistic care and facilitates the development of assessment and management skills necessary for practice in an advanced health care provider role. Comprehensive, safe, and culturally sensitive primary health care that emphasizes prevention, is a right of all people. It addresses the ongoing and evolving needs of the family and the community. When individuals, families and communities are active in planning and developing health care systems to meet their needs, providers and institutions become more sensitive to their concerns.

**Nursing**
Nursing is the diagnosis and treatment of human responses to actual or potential health problems. A primary focus of nursing is health promotion and disease prevention.

Nursing is a relational practice that applies theoretical knowledge that includes the discipline of nursing, the sciences as well as arts and humanities.

Advanced practice nursing focuses on providing specialized care to clients in a variety of settings. The advanced practice nurse uses expanded knowledge and skills that require increased depth of critical thinking to address complex health care challenges. The scope of practice includes independent decision-making and management. Advanced practice nursing requires excellent communication skills needed to develop therapeutic relationships with clients and in order to effectively participate in consultation, collaboration or referral within a system of health care delivery.

**Education**
FNU assumes that undergraduate nursing education includes the science of nursing and incorporates knowledge from the humanities, and behavioral, physical, and social sciences.

In a perspective that places family needs in the center, the art and science of nurse-midwifery and nurse practitioner education evolves from a solid base of knowledge and skills acquired through a combination of study, observations and experiences that provide the way for safe and thoughtful health care, wherein choices and control reside within the family.

FNU supports multi-disciplinary collaboration both in education and practice. Inherent in the commitment to service and education is the obligation to participate in research. It is through research that valuable insights are made into clinical practice, teaching-learning methods and primary health care delivery.
Education at FNU is further based on the belief that:

- Nurse-midwifery and nurse practitioner education has essential content that is shared across the curriculum. The communication and collaboration of the faculty in the development and operations of the programs of FNU exemplify this belief.
- Learning occurs at a rate which varies with individuals. Learning is effective when self-directed, and with students assuming major responsibility for their own learning practice and evaluation. Learning is enhanced by essential structure that supports progress, motivation, and allows for various effective teaching strategies.
- Learning professional skills and responsibilities is enhanced through a clearly defined program of study implemented by master professional preceptors regardless of geographic location.
- Adult learners are self-motivated. They draw upon multiple experiences, which may not fit traditional learning structures. Faculty members guide a community of learners.
- Community-based education meets the needs of those learners for whom conventional residential education programs are not available or who learn best through directed independent study.
- The goal of the faculty of FNU is to foster autonomous learners who have the skills to think critically. Critical thinking skills are necessary for accurate assessment, diagnosis and management of client problems.
- The faculty/student relationship is characterized by mutual respect, responsibility and growth. Faculty and students share responsibility for creating a climate of mutual trust and open communication. Faculty offer support, facilitate learning and are role models for students.

**Statement of Scholarship**

Scholarship at Frontier Nursing University (FNU) is defined as those activities that systematically advance the teaching, research, and practice of midwifery, family nursing and women’s health care through rigorous inquiry. We concur with Boyer’s (1990) assertion that:

> “Theory leads to practice. But practice also leads to theory. And teaching at its best shapes both research and practice. Surely scholarship means engaging in original research. But the work of the scholar also means stepping back from one’s investigation, looking for connections, building bridges between theory and practice and communicating one’s knowledge effectively to students.”

At FNU, the scholarship of teaching, research and practice are all valued equally. We believe that the integration of teaching, research and practice creates the optimal environment for educating students. As described by Boyer, scholarship at FNU may include the following activities:

- **Discovery** - the pursuit of inquiry and investigation in search of new knowledge.
- **Integration** - making connections across disciplines and advancing knowledge through synthesis.
- **Application** – applying knowledge to the social issues of the times in a dynamic process that generates and tests new theory and knowledge
- **Teaching** – transmitting, transforming and extending knowledge

For our work to be considered scholarly it must meet the following criteria as described by Boyer (1990):

1. Clear goal;
2. Adequate preparation (investigation of what is known);
3. Appropriate method (disciplined and systematic);
4. Significant contribution;
5. Effective presentation;
6. Reflective critique.

We continue to explore a broad definition of the term “scholarly work” that includes a wide variety of activities that contribute to the advancement of knowledge. We are committed to using these six criteria to define and evaluate...

Scholarly Agenda 2012
The faculty of FNU has established a scholarly agenda that is consistent with the mission of FNU:

Our mission is to provide accessible nurse-midwifery and nurse practitioner education to prepare competent, entrepreneurial, ethical, and compassionate leaders in primary care to serve all individuals with an emphasis on women and families in diverse, rural, and underserved populations.

Thus, the scholarly agenda at FNU has two separate but interrelated foci:

**Focus One**
Improve health care services and the health status of women, children and families with a special emphasis on rural and underserved communities.

**Focus Two**
Develop and evaluate methods for educating nurse-midwives and nurse practitioners with a special emphasis on distance and online education.

Rev. 12-4-12

History
The Frontier Graduate School of Midwifery was started in 1939 by the Frontier Nursing Service (FNS) as a part of its demonstration project in the care of the mother and child in rural areas of Kentucky. When FNS began using nurse-midwives in the United States in 1925, it was able to secure a qualified staff in only two ways, by sending the American nurses to Great Britain for graduate training or by enlisting British nurses already qualified as midwives. In the early years, the FNS offered scholarships to American nurses to go to Great Britain for training in nurse-midwifery, and recruited British nurse-midwives.

From the beginning, Mary Breckinridge viewed nurse-midwifery as central to health care. When World War II started in 1939, a number of the British members of the FNS staff wished to return to their homes. Under war conditions, it was not possible to continue to send American nurses to Great Britain. The FNS immediately put into operation its plan for a graduate school of nurse-midwifery. The Frontier Graduate School of Midwifery enrolled its first class November 1, 1939. Frontier Nursing University has been in continuous operation since that time.

As the number of births decreased in Leslie County during the 1980s it became difficult to support a traditional midwifery program. In 1989 the nurse-midwifery program was transferred to the University of New Mexico. That class graduated on October 27, 1991 under the flag of Frontier Nursing University (FNU). During this time period, the Community-based Nurse-midwifery Education Program (CNEP) began as a pilot project funded by the PEW Foundation. The development of the CNEP was originally a cooperative effort of the Maternity Center Association (MCA), the National Association of Childbearing Centers (NACC), Frances Payne Bolton School of Nursing, Case Western Reserve University (FPBSON/CWRU) and the Frontier Nursing Service (FNS). The goal was to enable nurses to remain in their communities while obtaining graduate education as nurse-midwives and ultimately increase the number of practicing nurse-midwives working in underserved areas. The pilot project was very successful. In 1990, FNU recognized that the CNEP model of education matched its own goals and mission. The President of the School and the Board of Directors voted to adopt the CNEP as its nurse-midwifery education program in 1991. Since then CNEP has graduated over 1,775 nurse-midwives.

In the late 1960s as birth control options became more available and a wider array of health care treatment options were developed, the Frontier Nursing Service recognized that a different type of provider was needed. This provider would not provide birthing services but would provide a wide array of primary and chronic health care services to the entire family.

At this time FNU developed the first family nurse practitioner (FNP) program in the United States. In 1970, the name of the School was changed to Frontier School of Midwifery and Family Nursing to reflect the addition of the FNP program. The last classes to graduate from the traditional nurse-midwifery and family nurse practitioner
programs were in August of 1990. The family nurse practitioner program was discontinued at that time at the school focused on developing the distance learning nurse-midwifery education program.

The Community-Based Nurse-Midwifery Education Program was so successful in providing the opportunity for graduate education to nurses living in their own communities, the school leadership decided to re-establish the family nurse practitioner program using the same community-based model. The Community-based Family Nurse Practitioner (CFNP) education program was established in 1999. With the acceptance of CFNP class 1 in 1999, FNU came full circle in its mission to educate nurses to provide primary care that is comprehensive, safe, and culturally sensitive. In 2003 FNU transitioned the programs from certificate programs to begin a Master of Science in Nursing (MSN) program with two tracks: nurse-midwifery and family nurse practitioner. In 2005, FNU added the Women’s Health Care Nurse Practitioner track to the MSN options and added post-graduate certificates for all three tracks.

In October 2004, the members of the American Association of Colleges of Nursing (AACN) endorsed the Position Statement on the Practice Doctorate in Nursing which called for moving the level of preparation necessary for advanced nursing practice roles from the master’s degree to the doctorate level by the year 2015. FNU moved forward with plans to include the addition of a Post-Master’s Doctor of Nursing Practice (PM-DNP) in the program offerings in 2007. The first class of DNP students enrolled in October 2008. The introduction of the PM-DNP ensures that FNU remains a leading institution in advanced practice nursing education and offers quality programs at all levels to nurse-midwives and nurse practitioners throughout the country.

On July 1, 2011 the Frontier School of Midwifery and Family Nursing officially changed its name to Frontier Nursing University to better reflect its status as a graduate school of nursing.

In 2014, Frontier Nursing University began offering a newly developed curriculum for nurses who wish to become nurse-midwives and nurse practitioners. The new curriculum begins by completing a Master of Science in Nursing degree and then offers a seamless transition to a Companion Doctor of Nursing Practice (DNP) degree. This curriculum is designed to prepare nurse-midwives and nurse practitioners to be excellent clinicians and to have the expertise needed to translate evidence into best practices so that mothers, babies, and families receive the highest quality care. The goals include that the student becomes a leader in the healthcare system and influences the system to provide high quality patient care.

The new DNP program was designed to confer a Master of Science in Nursing (MSN) degree and offer a seamless transition to the Doctor of Nursing Practice (DNP) degree. The advantage to this program is that students can elect to complete both the MSN and DNP degree without interrupting their studies. Conferring the MSN allows the students to sit for the national certification exam and begin their work as clinicians in their communities. This meets our mission of providing care in rural and underserved areas. When students complete the requirements for the MSN they may choose to continue in the DNP program or step out with the MSN. This is the ideal curriculum for nurses who want either an MSN degree or an MSN plus Doctor of Nursing Practice degree. This plan furthers the FNU tradition of leadership in the education of nurse-midwives and nurse practitioners.

In 2016, in an effort to meet the needs of a shortage of mental health workers, the Psychiatric-Mental Health Nurse Practitioner specialty track was developed. This would be the fourth specialty track for the MSN program. The first class was admitted January 1, 2017.

**School Song**

**Verse 1:**
And therefore we have come, to join hands and hearts together
To give gentle care to families, united we learn. (Chorus)

**Verse 2:**
And when we have completed, this task that we have before us
Our culture of caring will circle the globe. (Chorus)
**Chorus:**
For the babies and for the mothers, the fathers and for the brothers,
The sisters and all the others, we come here to learn.

**Frontier Nursing Service**
Mary Breckinridge established the Frontier Nursing Service (FNS) in Leslie County, Kentucky in 1925, introducing the first nurse-midwives to the United States. Riding horses up mountains, through fog, flood, or snow the FNS nurses brought modern healthcare to one of the poorest and most inaccessible areas in the U.S. Mary Breckinridge demonstrated that care provided by nurse-midwives acting as both public health nurses and midwives to the total family would drastically cut infant and maternal mortality as well as morbidity and mortality for the entire community. A more detailed account of FNS may be found at their website: [Frontier Nursing Service](https://www.frontier.org/)

Department of Midwifery and Women’s Health

Description
The purpose of the Department of Midwifery and Women’s Health is to prepare nurse-midwives and women’s health nurse practitioners to care for individuals and families with a focus on those residing in rural or other underserved areas by offering a structured off-campus Community-based Nurse-midwifery Education Program (CNEP) and the Community-based Women’s Health Care Nurse Practitioner (CWHCNP) Education Program with an across the lifespan population focus.

Students in the CNEP receive an MSN with a nurse-midwifery concentration and can choose to seamlessly continue to complete the Companion Doctor of Nursing Practice (DNP) degree. A post-graduate certificate option in nurse-midwifery is also available for students who have already completed a MSN. CNEP graduates are eligible to take the national certification examination given by the American Midwifery Certification Board (AMCB) as soon as they complete all requirements for the MSN or post-graduate certificate.

Students in the CWHCNP program receive an MSN with a women’s health care nurse practitioner concentration and can choose to continue to complete the Companion Doctor of Nursing Practice (DNP) degree. A post-graduate certificate option as a WHCNP is also available. CWHCNP program graduates are eligible to take the national certification examination for women’s health care nurse practitioners given by the National Certification Council (NCC) as soon as they complete all requirements for the MSN or post-graduate certificate.

Purpose
The purpose of the Department of Midwifery and Women’s Health is to significantly increase the numbers of nurse-midwives and women’s health care nurse practitioners to meet the needs of women and families residing in all areas with a particular focus on rural and underserved areas as well as those choosing birth center care by:

- Offering a structured distance-learning education program for nurse-midwives and women’s health care nurse practitioners to nurses who choose to learn in their communities.
- Commitment and collaboration between FNU’s centralist academic structure and community-based clinical preceptors.
- Demonstrating innovative non-traditional models for completion of graduate education through our community-based distance education program.
- Preparing entrepreneurial advanced-practice nurses who are leaders in healthcare delivery.

Philosophy
Health is a dynamic process reflecting one’s physical, mental, and socio-cultural state. Together these parameters determine a person’s well-being and risk of illness.

Comprehensive, safe and culturally sensitive primary health care that emphasizes prevention is a right of all people. It begins with the individual and addresses the ongoing and evolving needs of the family and the community.

Continuity of care for the childbearing family and for women throughout their childbearing years and beyond with an emphasis on education, safety, comfort, and satisfaction, is the right of every woman. It is our firm belief that women have access to safe and sensitive health care where they are active participants in their care.

Education for nurse-midwives and women’s health care nurse practitioners that is offered by a qualified faculty with a curriculum comparable or superior to academic standards established by the professions may take place in a variety of settings.

Active clinicians in a variety of settings can be prepared to serve as preceptors.
Learning occurs at a rate that varies with individuals. It is effective with students assuming major responsibility for their own learning practice and evaluation while supported by engaged, qualified faculty.

Adult learners are self-motivated drawing upon multiple experiences that may not fit traditional learning structures. The community is their classroom and provides a rich learning environment.

The faculty-student relationship is a reflection of the nurse-midwife or nurse practitioner/client relationship in that it consists of mutual respect, responsibility, and growth. Faculty and students share responsibility for creating a climate of mutual trust and open communication.

CNEP and CWHCNP are joint ventures between students, their families, and faculty. We are a “community” dedicated to the goal of improving the quality and accessibility of healthcare to women and children by increasing the numbers of nurse-midwives and women’s health care nurse practitioners who can provide safe, sensitive care to women and families.

The Department of Midwifery and Women’s Health Care is committed to the recruitment and retention of faculty and students from underrepresented populations who express their dedication to service within their own communities.

Objectives
The objectives of the Department of Midwifery and Women’s Health is to prepare graduates who will be able to:

- Demonstrate safe, culturally sensitive health care for newborns and women across the lifespan.
- Use critical and reflective thinking skills to provide evidence based care.
- Lead knowledge generation in clinical practice to improve outcomes.
- Emulate the hallmarks of midwifery and women’s health care practice.
- Apply ethical principles to guide and evaluate decisions.
- Demonstrate an understanding of the political, legislative and economic environment within which nurse-midwives and women’s health care nurse practitioners provide care.
- Evaluate health care practice through peer review and quality improvement initiatives.
- Advocate for the empowerment of women, families and communities.
- Establish and maintain quality services in birth centers or other practice settings in a fiscally sound and financially responsible manner.
- Mentor and teach nurse-midwifery students or women’s health care nurse practitioner students in the clinical setting.
- Demonstrate leadership to initiate and guide change in clinical practice.
- Demonstrate Information literacy skills in complex decision making.
- Demonstrates an understanding of the appropriate use of technology to implement and evaluate health care.
Department of Family Nursing

Description
The purpose of the Department of Family Nursing is to prepare family nurse practitioners to care for individuals and families with a focus on those residing in rural or other underserved areas by offering a structured off-campus Community-based Family Nurse Practitioner (CFNP) program with an across the lifespan population focus.

Students in the CFNP receive an MSN with a family nurse practitioner (FNP) concentration and can choose to seamlessly continue to complete the Companion Doctor of Nursing Practice (DNP) degree. A post-graduate certificate option with a family nurse practitioner concentration is also available. CFNP graduates are eligible to take the national certification examination given by either the American Nurse Credentialing Center (ANCC) or the American Academy of Nurse Practitioners Certification Program (AANPCP) upon completion of all requirements for either the MSN or post graduate certificate.

Purpose
The purpose of CFNP specialty track is to educate nurse practitioners to meet the needs of families residing in all areas with a particular focus on rural and underserved areas, by:
- Offering a structured distance learning program of nurse practitioner education to nurses who choose to learn in their communities.
- Commitment and collaboration between FNU’s academic structure and community-based clinical nurse practitioner preceptors.
- Demonstrating innovative non-traditional models for completion of graduate education.
- Preparing entrepreneurial advanced-practice nurses who are leaders in healthcare delivery.

Philosophy
Health is a dynamic process reflecting one’s physical, mental and socio-cultural state. Together these parameters determine a person’s well-being and risk for illness.

Comprehensive, safe and culturally sensitive primary health care that emphasizes prevention is a right of all people. It begins with the individual and addresses the ongoing and evolving needs of the family and the community.

Nurse practitioner education, when it is offered by a qualified faculty and with a curriculum comparable or superior to academic standards established by the profession, may take place in a variety of settings.

Nurse practitioners in a variety of settings can be prepared to serve as preceptors.

Learning occurs at a rate that varies with individuals. It is effective with students assuming major responsibility for their own learning practice and evaluation while supported by engaged, qualified faculty.

Adult learners are self-motivated, drawing upon multiple experiences that may not fit traditional learning structures. The community is their classroom and provides a rich learning environment.

The faculty-student relationship is a reflection of the nurse practitioner/client relationship in that it consists of mutual respect, responsibility, and growth. Faculty and students share responsibility for creating a climate of mutual trust and open communication.

CFNP educational processes are a joint venture between students, their families, and faculty. We, too, are a "community,” dedicated to the goal of improving the quality and accessibility of health care by educating nurse practitioners that can provide safe, sensitive care to individuals and families.
The Department of Family Nursing is committed to the recruitment and retention of faculty and students from underrepresented populations who express their dedication to service within their own communities.

Objectives

The objectives of the Department of Family Nursing are to prepare graduates who will be able to:

- Deliver safe, culturally sensitive health care to clients across the lifespan.
- Apply critical and reflective thinking skills to provide evidence based care.
- Lead knowledge generation in clinical practice to improve health outcomes.
- Emulate characteristics of a professional.
- Apply ethical principles to guide and evaluate decisions.
- Demonstrate an understanding of the political, legislative and economic environment within which primary care is provided.
- Evaluate nurse practitioner practice through peer review and quality improvement initiatives.
- Advocate for the empowerment of clients, families and communities.
- Establish and maintain quality primary care services in a fiscally sound and financially responsible manner.
- Mentor and teach family nurse practitioner students in the clinical setting.
- Demonstrate leadership to initiate and guide change in clinical practice.
- Demonstrate information literacy skills in complex decision making.
- Demonstrates an understanding of the appropriate use of technology to implement and evaluate health care.
**Department of Psychiatric-Mental Health**

**Description**

The Department of Psychiatric-Mental Health Nursing prepares psychiatric mental health nurse practitioners to care for individuals with a focus on those residing in rural or other underserved areas by offering a structured off-campus Psychiatric Mental Health Nurse Practitioner (PMHNP) program with an across the lifespan population focus.

Students in the PMHNP track receive an MSN with a psychiatric mental health nurse practitioner concentration and can choose to continue to complete the Companion Doctor of Nursing Practice (DNP) degree. A post-graduate certificate option with a psychiatric mental health nurse practitioner concentration is also available. PMHNP graduates are eligible to take the national certification examination given by the American Nurse Credentialing Center (ANCC) upon completion of all requirements for either the MSN or post graduate certificate.

**Purpose**

To develop, cultivate and graduate competent psychiatric-mental health nurse practitioners that are ready to provide comprehensive, culturally sensitive and compassionate psychiatric care to their communities by:

- Offering a structured distance-learning program of nurse practitioner education to nurses who choose to learn in their communities.
- Commitment and collaboration between FNU’s academic structure and community-based licensed behavioral health preceptors.
- Demonstrating innovative non-traditional models for completion of graduate education.
- Preparing entrepreneurial advanced-practice nurses who are leaders in healthcare delivery.

**Philosophy**

Health is a dynamic process reflecting one’s physical, mental and socio-cultural state. Together these parameters determine a person’s well-being and risk for illness.

Comprehensive, safe and culturally sensitive mental health care that emphasizes prevention is a right of all people. It begins with the individual and addresses the ongoing and evolving needs of the family and the community.

Nurse practitioner education, when it is offered by a qualified faculty and with a curriculum comparable or superior to academic standards established by the profession, may take place in a variety of settings.

Licensed Mental Health Providers in a variety of settings can be prepared to serve as preceptors.

Learning occurs at a rate that varies with individuals. It is effective with students assuming major responsibility for their own learning practice and evaluation while supported by engaged, qualified faculty.

Adult learners are self-motivated, drawing upon multiple experiences that may not fit traditional learning structures. The community is their classroom and provides a rich learning environment.

The faculty-student relationship is a reflection of the nurse practitioner/client relationship in that it consists of mutual respect, responsibility, and growth. Faculty and students share responsibility for creating a climate of mutual trust and open communication.
PMHNP educational processes are a joint venture between students, their families, and faculty. We, too, are a “community,” dedicated to the goal of improving the quality and accessibility of health care by educating nurse practitioners that can provide safe, sensitive care to individuals and families.

The Department of Psychiatric-Mental Health Nursing is committed to the recruitment and retention of faculty and students from underrepresented populations who express their dedication to service within their own communities.

Objectives

The objectives of the Department of Psychiatric-Mental Health Nursing prepares graduates to:

● Deliver safe, culturally sensitive health care to clients across the lifespan.
● Apply critical and reflective thinking skills to provide evidence based care.
● Lead knowledge generation in clinical practice to improve health outcomes.
● Emulate characteristics of a professional.
● Apply ethical principles to guide and evaluate decisions.
● Demonstrate an understanding of the political, legislative, and economic environment within which mental health care is provided.
● Evaluate nurse practitioner practice through peer review and quality improvement initiatives.
● Advocate for the empowerment of clients, families and communities.
● Establish and maintain quality mental health care services in a fiscally sound and financially responsible manner.
● Mentor and teach psychiatric-mental health nurse practitioner students in the clinical setting.
● Demonstrate leadership to initiate and guide change in clinical practice.
● Demonstrate information literacy skills in complex decision making.
● Demonstrates an understanding of the appropriate use of technology to implement and evaluate health care.
Academic Offerings

In January 2014, FNU introduced a new curriculum that incorporated DNP Essentials into the MSN and PGC degree. At the same time, FNU introduced a “companion DNP” program of study designed specifically for students who completed the FNU MSN and PGC degree with the incorporated DNP Essentials. Students who entered the FNU MSN and PGC degree prior to January 1, 2014 followed a curriculum that did not include the DNP Essentials. Student who entered the FNU MSN after January 1, 2014 followed a curriculum that included the DNP Essentials.

In January 2017, FNU modified the Post Graduate Certificate program (PGC) of study. Students who entered the PGC degree prior to January 1, 2014 followed a curriculum that did not include the DNP Essentials. Students who entered the PGC between January 1, 2014 and January 1, 2017 followed a curriculum that included the DNP Essentials. Students who entered the PGC degree after January 1, 2017 followed a curriculum that did not include the DNP Essentials.

Current Program offerings include:
- Doctor of Nursing Practice (DNP)
- Master of Science in Nursing (MSN)
  - Curriculum includes DNP Essentials
- Post-Graduate Certificate (PGC)
  - Curriculum does not include DNP Essentials

See the descriptions below for details about each program option.

Doctor of Nursing Practice

Description

The FNU DNP program is a post-graduate program designed for family nurse practitioners, women’s health care nurse practitioners, certified nurse-midwives, pediatric nurse practitioners, adult nurse practitioners, geriatric nurse practitioners and psychiatric-mental health nurse practitioners to improve skills in the areas of leadership, clinical scholarship, evidence-based practice and clinical evaluation. All students entering the DNP program must be registered nurses who have completed a master’s degree in nursing or a related field and are nationally certified as a nurse-midwife or nurse practitioner. The DNP program builds upon and expands these nurse-midwife or nurse practitioner competencies.

The DNP curriculum has been carefully constructed to incorporate the eight essential competencies delineated by the American Association of Colleges of Nursing (AACN). The competencies address the following:
- Scientific underpinning for practice.
- Organizational and systems leadership for quality improvement and systems thinking.
- Clinical scholarship and analytical methods for evidence-based practice.
- Information systems/technology and patient care technology for the improvement and transformation of health care.
- Health care policy for advocacy in health care.
- Inter-professional collaboration for improving patient and population health outcomes.
- Clinical prevention and population health for improving the nation’s health.
- Advanced nursing practice.

FNU offers two curricular paths to earning the DNP. Each path has its own eligibility for entry:

Entry into the Post-Master’s DNP is available to applicants who:
- completed the MSN program at FNU that did not include the DNP Essentials, entered prior to January 1, 2014.
- completed the PGC program of study at FNU that did not include the DNP Essentials, entered prior to January 1, 2014 or entered after January 1, 2017. Students who began the PGC at FNU between January 1, 2014 and January 1, 2017 completed a curriculum that included the DNP Essentials.
- completed a MSN somewhere other than FNU.

Entry into the Companion DNP program is only available to FNU graduates who:
- completed the MSN program at FNU that included the DNP Essentials, entered after January 1, 2014 (Classes 108, 111, 114, 117, 119 and above).
- completed the PGC program of study at FNU that included the DNP Essentials, entered between January 1, 2014 and January 1, 2017 (Classes 119 - 154). Applicants who completed the PGC at FNU will have their transcripts evaluated prior to admission to determine an appropriate program of study.

Purpose
The purpose of the DNP program at FNU is to prepare nurse practitioner and nurse-midwife leaders who will evaluate and improve primary care practice.

The ultimate goal of the program is to improve the health care and the health status of populations with a focus on rural and underserved communities.

Philosophy
The Doctor of Nursing Practice Program draws on the clinical expertise of the faculty and students to prepare nurses at the highest clinical level to use their knowledge and clinical expertise to impact the health care of not only the individual but also the health care of the community, the region, and the nation. The PM-DNP program produces nursing leaders who focus on improving the health care system, improving access to care for the poor and underserved and promoting the outcomes of NM and NP practice through the use of clinical scholarship and evidence based practice.

Objectives
Graduates of the Doctor of Nursing Practice program will:
- Develop an advanced level of competence for practice that provides consumers with excellent primary care in an area of specialty.
- Demonstrate advanced levels of clinical scholarship.
- Critically analyze complex clinical situations and health care systems to promote optimal outcomes.
- Evaluate and apply conceptual models, theories, and research in order to improve the health status of diverse individuals and populations, with a focus on rural and underserved communities.
- Design, deliver, direct, evaluate and disseminate evidence-based practices to include research, statistics and epidemiological principles.
- Analyze the social, cultural, political and economic environment within the healthcare system.
- Apply ethical principles to guide and evaluate decisions.
- Demonstrate competence as a clinical educator.
- Demonstrate leadership to initiate and guide change in clinical practice.
- Advocate for the empowerment of clients, families and communities. (Health Policy)
- Demonstrate information literacy skills in complex decision making.
- Demonstrate an understanding of the appropriate use of technology to implement and evaluate health care.

On-Campus Attendance for the DNP
Students entering the DNP program via the traditional admissions process have one (1) required on-campus activity.

Prior to beginning the curriculum, all DNP students entering the program via Standard Admission (as described in the Admission Policies section of this catalog) will attend an in-person orientation to the program and the university known as Frontier Bound. While at Bound, students participate in activities designed to prepare them for their first term as a doctoral student at FNU including orientation to their coursework. FNU alumni who were
actively enrolled in a degree or certificate program within the last two years are excused from attending Frontier Bound in person and will instead attend a one-day virtual orientation Bound.

All FNU alumni entering the DNP program via Direct Admission (as described in the Admission Policies section of this catalog) will attend a one-day virtual orientation Bound. Direct Admission students are not required to physically attend a Bound prior to beginning the program.

FNU alumni who were actively enrolled as a student within the last two years may request to be excused from in-person Bound attendance and instead virtually attend meetings during the orientation Bound.

The required trip to Campus is a special event in the FNU experience and each student is expected to participate fully in all required activities. The student is responsible for all content, skills, and costs of making up or completing the program objectives if any time is missed. To receive credit for class work missed for any reason, the student must fulfill the objectives by special arrangement with the DNP Program Director. If a student knows they will need to miss any campus sessions, the DNP Program Director should be contacted prior to the campus visit to discuss the possibility of special arrangements.

Students are expected to stay on campus for the required trips. Exceptions may be made to stay off-campus for students who have health reasons which prohibit overnight stays on campus. Students seeking permission to stay off campus should contact the DNP Program Director with an explanation for the request. Requests should be made at least 2 weeks before the expected date of arrival. Students who are nursing mothers can make accommodations to stay in the family-designated housing on campus (See the Breastfeeding Children on Campus policy in this Catalog).

**PM-DNP Curriculum Overview**

The PM-DNP program is 30 semester credits. These include 8 credits (360 contact hours) of clinical practicum. The curriculum is delivered using distance education strategies. Students will present an oral presentation of their quality improvement projects to their practice stakeholders, student colleagues, and faculty.

The PM-DNP is designed for FNU graduates who began and completed the MSN or PGC program at FNU prior to January 1, 2014, FNU graduates who completed the PGC program of study at FNU starting January 1, 2017 or after, and individuals who completed a MSN somewhere other than FNU. Information about admission into the PM-DNP program can be found in the Admissions Policies section.

**PM-DNP Program Plan: Advancing Leadership and Scholarship**  
(22 didactic credits – 8 clinical credits)

- PC702 Epidemiology and Biostatistics (3-0)
- PC711 Nurse as Educator (3-0)
- PC713 Principles of Independent Practice (3-0)
- PC718 Evidence Based Practice (3-0)
- PC727 Ethics and Health Policy (3-0)
- PC728 Leadership and Organizational Dynamics (3-0)
- PC739 DNP Clinical Project Preparation (1-0)
- PC740 DNP Clinical Scholarship Planning (1-3)
- PC743 DNP Clinical Scholarship Implementation (0-4)
- PC744 DNP Clinical Scholarship Dissemination (2-1)

**Post master's DNP students who meet the following criteria are exempt from taking PC713 Principles of Independent Practice:**
- Frontier Nursing University CNEP, CFNP, or CWHCNP alumni and
- Completed the last course in the professional role series (NM638 or NP636) in Fall 2013 or later

Students have the option of completing the 30 credits of the PM-DNP program by following either a 5-term or 6-term program of study.
Companion DNP Curriculum Overview

Starting January 1, 2014, Frontier’s MSN curriculum was designed to integrate many of the DNP Essentials allowing FNU graduates who are completing the MSN to continue directly into the Companion DNP (CDNP) program. The Companion DNP is only available to FNU graduates who began and completed the MSN program at FNU after January 1, 2014 (Class 108, 111, 114, 117, 119 and above). The Companion DNP is also available to FNU graduates who began and completed the PGC program at FNU between January 1, 2014 and January 1, 2017. FNU graduates who began the PGC at FNU on or after January 1, 2017 completed a program of study that did not incorporate the DNP Essentials and are therefore not eligible to continue to the CDNP. Information about admission into the CDNP program can be found in the Admissions Policies section.

FNU graduates may apply to begin the Companion DNP coursework immediately after completing the MSN or PGC degree or take time off between the completion of the MSN or PGC and the beginning of the CDNP. The length of time taken between completing the MSN or PGC and starting the CDNP will determine the necessary steps for admission into the CDNP program. Information about Direct Admission entry into the CDNP or admission into the CDNP program after a break in studies can be found in the Admissions Policies section.

All students enrolled in the Companion DNP must pass the certification examination for nurse-midwife or nurse practitioner licensure no later than the end of the first term of the Companion DNP.

If an FNU CNEP graduate chooses to do the WHNP Certificate for CNEP Grads program, the student may choose to begin the Companion DNP coursework simultaneously with the WHCNP Certificate coursework. FNU CNEP graduates wishing to do the WHCNP Certificate separate from the Companion DNP may complete the WHCNP Certificate during the period between earning the MSN and beginning the Companion DNP or after completing the Companion DNP. FNU students are not allowed to complete any other FNU academic program simultaneously with the Companion DNP.

**Companion DNP Program Plan: Advancing Leadership and Scholarship**
(13 didactic credits – 8 clinical credits)

- PC711 Nurse as Educator (3-0)
- PC727 Ethics and Health Policy (3-0)
- PC728 Leadership and Organizational Dynamics (3-0)
- PC739 DNP Clinical Project Preparation (1-0)
- PC740 DNP Clinical Scholarship Planning (1-3)
- PC743 DNP Clinical Scholarship Implementation (0-4)
- PC744 DNP Clinical Scholarship Dissemination (2-1)

Students have the option of completing the 21 credits of the CDNP by following either a 4-term or 5-term program of study.

**Master of Science in Nursing**

**Description**

Frontier Nursing University (FNU) offers a Master of Science in Nursing (MSN) degree and post-master’s certificates leading to education as a certified nurse-midwife (CNM), family nurse practitioner (FNP), and/or a women’s health care nurse practitioner (WHCNP). FNU seeks to meet the needs of prospective nurse-midwives and nurse practitioners who do not want to leave their home communities to obtain the graduate education they desire to fulfill their professional aspirations. Didactic coursework is delivered using web-based, distance education courses allowing students to achieve their higher education goals without leaving home for classes. Using clinics, hospitals, and preceptors in their own community allows students to get the hands-on clinical experience required for these exciting health care professions. Two on-campus sessions are required, including an orientation prior to beginning studies, and intensive skill workshops prior to beginning the clinical practicum.
Starting in January 2014, Frontier Nursing University (FNU) offers a program plan for the Master of Science in Nursing (MSN) degree with integrated DNP Essentials. Because selected DNP Essentials are taught during the MSN, the Frontier MSN graduate has the option to seamlessly transition to a Companion Doctor of Nursing Practice (DNP) degree at FNU, a shorter program of study than the post-master’s DNP. Details about the Companion DNP degree can be found in the Doctor of Nursing Practice section of this catalog.

The MSN degree is designed for nurses who have either a baccalaureate degree or an associate degree in nursing and are seeking to obtain national certification as a certified nurse-midwife (CNM), family nurse practitioner (FNP), psychiatric-mental health nurse practitioner (PMHNP) and/or a women’s health care nurse practitioner (WHCNP). Students completing the MSN are eligible to sit for the appropriate national certification exam.

Purpose
The purpose of the MSN with the addition of the DNP Essentials at FNU is to prepare nurse practitioner and nurse-midwife clinicians and leaders who will practice, evaluate and improve primary health care.

The ultimate goal of the program is to improve the health care and the health status of populations with a focus on rural and underserved communities.

Philosophy
The MSN produces nursing leaders who focus on improving the health care system, improving access to care for the poor and underserved and promoting the outcomes of certified nurse-midwives (CNMs) and nurse practitioners (NPs) practice through the use of clinical scholarship and evidence based practice.

Health is a dynamic process reflecting one’s physical, mental, and psychosocial state. Together these parameters determine a person’s well-being and risk of illness.

Comprehensive, safe and culturally sensitive primary health care that emphasizes prevention is a right of all people. It begins with the individual and addresses the ongoing and evolving needs of the family and the community.

Continuity of care with emphasis on education, safety, comfort, and satisfaction, is the right of every family. It is our firm belief that families should have access to safe and sensitive health care where they are active participants in their care.

Education for nurse-midwives and nurse practitioners that is offered by a qualified faculty with a curriculum comparable or superior to academic standards established by the professions may take place in a variety of settings.

Active clinicians in a variety of settings can be prepared to serve as preceptors.

Adult learners are self-motivated drawing upon multiple experiences which may not fit traditional learning structures.

The community is the classroom for the student. Community-based education meets the needs of those learners for whom conventional residential programs are not available, or who learn best through self-directed study, and provides a rich learning environment for the student.

The faculty-student relationship consists of mutual respect, responsibility, and growth. Faculty and students share responsibility for creating a climate of mutual trust and open communication.

The educational programs are joint ventures between students, their families, and faculty. We are a “community” dedicated to the goal of improving the quality and accessibility of healthcare to women and children by increasing the numbers of nurse-midwives and women’s health care nurse practitioners who can provide safe, sensitive care to women and families.
Objectives
The objectives of MSN Program with integrated DNP Essentials are to prepare graduates who will be able to:

1. Deliver safe, culturally sensitive health care to clients across the lifespan.
2. Apply critical and reflective thinking skills to provide evidence based care.
3. Emulate characteristics of a professional.
4. Apply ethical principles to guide and evaluate decisions.
5. Analyze the social, cultural, political and economic environment within the healthcare system.
6. Evaluate nurse midwifery/ nurse practitioner practice through peer review and quality improvement.
7. Advocate for the empowerment of clients, families and communities. (Health Policies)
8. Establish and maintain quality health services in a fiscally sound and financially responsible manner.
9. Demonstrate information literacy skills in complex decision making.
10. Demonstrate an understanding of the appropriate use of technology to implement and evaluate health care.
11. Demonstrate leadership to initiate and guide change in clinical practice.

The objectives of the Companion DNP Plan are to provide the opportunity for students to:

1. Develop an advanced level of competence for practice that provides consumers with excellent primary care in an area of specialty.
2. Demonstrate advanced levels of clinical scholarship.
3. Critically analyze complex clinical situations and health care systems to promote optimal outcomes.
4. Evaluate and apply conceptual models, theories and level of evidence to improve the health status of diverse individuals and populations with a focus on rural and underserved communities.
5. Design, deliver, direct, evaluate and disseminate evidence-based best practices to include research, statistics and epidemiological principles.
6. Demonstrate competence as a clinical educator.

On-Campus Attendance for the MSN
MSN students have two (2) required on-campus activities.

Prior to beginning the curriculum, all MSN students will attend an in-person Bound, an orientation to the MSN and to the University. While at Bound, students participate in activities designed to prepare them for their first term as graduate students at FNU and are oriented to the rest of their coursework.

After completing didactic management coursework and prior to beginning clinical, students return to campus for an intensive Clinical Bound. Following successful completion of all Clinical Bound courses, students will transition into their clinical coursework.

The required trips to Campus are special events in the FNU experience and each student is expected to participate fully in all required activities. The student is responsible for all content, skills, and costs of making up or completing the program objectives if any time is missed. To receive credit for class work missed for any reason, the student must fulfill the objectives by special arrangement with the Department Chair for Frontier Bound or Clinical Transitions Coordinator for Clinical Bound. If a student knows they will need to miss any campus sessions, the Department Chair should be contacted prior to the campus visit to discuss the possibility of special arrangements.

Students are expected to stay on campus for the required trips. Exceptions may be made to stay off-campus for students who have health reasons which prohibit overnight stays on campus. Students seeking permission to stay off campus should contact the appropriate Department Chair with an explanation for the request. Requests should be made at least 2 weeks before the expected date of arrival. Students who are nursing mothers can make accommodations to stay in the family-designated housing on-campus. (See the Breastfeeding Children on Campus policy in this Catalog).
Sequencing of the MSN Program of Study

Frontier Bound Orientation
MSN students are required to come to Versailles, Kentucky for Frontier Bound, an orientation to Frontier Nursing University (FNU). During the three-day session, students meet members of their faculty and staff, their advisor, and their fellow students. Time is spent learning skills needed for distance learning, making lifelong friends, reviewing courses, asking questions, and beginning to plan how to be a Frontier student after returning home. Frontier Bound is an experience in fun, learning, and friendship. During Frontier Bound, students stay on the beautiful FNU campus and are pampered with delicious meals. Students must attend all Frontier Bound sessions in order to be eligible to enroll in their selected program of study.

Applicants who may request to be excused from Frontier Bound include students who are returning FNU alumni who were actively enrolled in a degree or certificate program within the last two years or current students who are transferring from one specialty track to another.

To obtain permission to be excused from attending Frontier Bound, the applicant must contact the Admissions Officer to initiate the process. The applicant will be required to submit a statement with their petition for the exception to the Frontier Bound attendance policy. The statement should indicate the applicant’s knowledge of current Frontier Bound content relative to the new academic program as well as any additional individual applicant needs. The Department Chair will determine if the applicant may be excused or if attendance is required at Frontier Bound. The decision of the Department Chair is final.

Levels I and II: Foundations for Practice and Clinical Management for Specialty Care
Students complete coursework for Levels I and II in their community. This web-based course of study is completed in 4-8 terms depending on whether the student is full-time or part-time. Students are in frequent contact with their faculty and fellow students through email, discussion forums, virtual meeting platforms, and phone. They also receive guidance and support from their Academic Advisor and Department Chair.

Level III: Clinical Bound
Clinical Bound is designed to develop and validate beginning clinical skills. To be eligible to attend Clinical Bound, students must have completed all prerequisite courses and submitted at least one clinical site for credentialing. Submission of a minimum of one clinical site must be completed prior to the registration period in which the student is registering for Clinical Bound courses. If no clinical sites are submitted for credentialing, the student will not be allowed to register for or attend Clinical Bound. Students return to Versailles, Kentucky for this six-day/five night skills-intensive experience which includes the completion of two, one-credit courses. During this period the student is validated as having acquired the skills necessary to begin a community-based clinical practicum. There is also time for informal communication between faculty and students. Upon successful completion of the Level III, students are eligible to begin their clinical practicum.

Level IV: Clinical Practicum
After attending Clinical Bound, students begin their clinical practicum. Students provide nurse practitioner or nurse-midwifery services in their community for four to ten months under the guidance of a master clinician preceptor. The FNU Regional Clinical Faculty (RCF) will provide guidance and support during this time to the student and the preceptor. In addition, the RCF evaluates both the clinical site and preceptor to ensure excellence before the student begins the clinical experience. There are required clinical experiences that will assist the student in developing necessary clinical skills. Students may choose, or be required, to use more than one clinical site in order to receive a variety of clinical experiences. Where the volume of clients will not make the experience goals possible, the student will be expected to use more than one clinical site.

MSN Program Plan Core Curriculum
All MSN students in every specialty track complete the following Core Curriculum courses in addition to the specific courses required by the specialty track.
Level I: Foundations for Practice  
(9 didactic credits – 0 clinical credits)  
PC701 Principles of Health Promotion (3-0)  
PC705 Advanced Pathophysiology (3-0)  
PC706 Advanced Physical Assessment, Clinical Reasoning, and Documentation (3-0)  

Level II: Clinical Management for Specialty Care  
(12 didactic credits – 0 clinical credits)  
PC702 Epidemiology and Biostatistics (3-0)  
PC707 Advanced Pharmacology Across the Lifespan (3-0)  
PC713 Principles of Independent Practice (3-0)  
PC718 Evidence Based Practice (3-0)  

Nurse-Midwifery MSN Program of Study  
In the Community-based Nurse-Midwifery Education Program (CNEP), students complete a modular course of study over two to three years. The classroom is the community in which the student lives. During the clinical practicum, CNEP students work closely with the certified nurse-midwives (CNMs) in their community. The FNU has preceptor sites across the United States with more added on a regular basis.  

The CNEP curriculum has a strong academic and clinical basis. In addition, the CNEP curriculum is unique in that it educates students not only to be nurse-midwives, but also to be entrepreneurs focusing on community assessment, market research, birth center development, and budgeting for a successful practice. The CNEP also has a strong primary care component which prepares students to take care of women across the lifespan. The Master of Science in Nursing (MSN) degree and a post-master’s certificate are offered in the nurse-midwifery specialty track.  

AABC “How to Start a Birth Center” Workshop  
All CNEP students are required to complete the “How to Start a Birth Center” workshop offered by the American Association of Birth Centers (AABC) as a program graduation requirement. CNEP students must complete either the in-person workshop or online workshop course prior to graduation from the MSN or Post-Graduate certificate portion of the program.  

FNU covers the registration fee for CNEP students and will only pay for one workshop registration per student. If a student does not attend a workshop for which they are registered, fails to cancel their registration in time for FNU to avoid being charged, or does not complete the online workshop within the allotted twelve (12) week timeframe, the student will be responsible for the registration fee for the workshop they do complete. Students are responsible for all other costs (materials, AABC membership, travel, etc.), excluding the registration fee. AABC provides FNU with an official roster of attendance for the in-person workshop and a course completion notification for those doing the online workshop.  

MSN Program Plan CNEP Curriculum Overview  

MSN Core Curriculum + MSN Specialty Track management courses = MSN completed  

Level II: Clinical Management for Specialty Care  
(25 didactic credits – 0 clinical credits)  
NM700 The Role of the Nurse-Midwife in Health Care Delivery Systems (3-0)  
NM701 Gynecologic Health (3-0)  
NM702 Care During Normal Pregnancy (3-0)  
NM703 Primary Care of Women (3-0)  
NM704 Midwifery Care during Labor and Birth (3-0)  
NM705 Postpartum and Newborn Care (3-0)
Family Nurse Practitioner MSN Program of Study

In the Community-based Family Nurse Practitioner (CFNP) education program, students complete a modular course of study over two to three years. The classroom is the community in which the student lives. During the clinical practicum, CFNP students work closely with a family nurse practitioner and other primary care providers in their community.

The CFNP curriculum has a strong academic and clinical basis. In addition, the CFNP curriculum is unique in providing a strong foundation in understanding the business of primary care. This includes assessing a community to discover the primary care needs, learning how to develop a plan for having a fiscally viable practice, and working within the license and insurance regulations of the student’s state. Women’s health, including care of the childbearing woman, is a strong component of the program. The Master of Science in Nursing (MSN) degree and a post-master’s certificate are offered in the family nurse practitioner specialty track.

MSN Program Plan CFNP Curriculum

MSN Core Curriculum - see MSN Program Plan Core Curriculum section above for course details
(21 didactic credits – 0 clinical credits)

Level II: Clinical Management for Specialty Care
(22 didactic credits – 0 clinical credits)
NP700 The Role of the Nurse Practitioner (3-0)
NP702 Primary Care I (3-0)
NP703 Gynecologic Health and Childbearing (4-0)
NP704 Primary Care: Pediatrics (3-0)
NP705 Primary Care II (3-0)
NP706 Primary Care III (3-0)
PC719 Psych Concepts for APRN (3-0)

Level III: Clinical Bound
(2 didactic credits – 0 clinical credits)
NP710 Clinical Skills for Family Nurse Practitioner Care (2-0)

Level IV: Clinical Practicum
(1 didactic credit – 15 clinical credits)
NP712 FNP Clinical I (0-3)
Women’s Health Care Nurse Practitioner MSN Program of Study
In the Community-based Women’s Health Care Nurse Practitioner (CWHCNP) Education Program, students complete a modular course of study over two to three years. The classroom is the community in which the student lives. During the clinical practicum, CWHCNP students work closely with women’s health care nurse practitioners, nurse-midwives, family nurse practitioners, and other primary care providers in their community.

The CWHCNP curriculum has a strong academic and clinical basis. In addition, the CWHCNP curriculum is unique in providing a strong foundation in understanding the business of women’s health care. This includes assessing a community to discover the primary care needs, learning how to develop a plan for having a fiscally viable practice, and working within the license and insurance regulations of the student’s state. The Master of Science in Nursing (MSN) degree and a post-master’s certificate are offered in the women’s health care nurse practitioner specialty track.

MSN Program Plan CWHCNP Curriculum

MSN Core Curriculum - see MSN Program Plan Core Curriculum section above for course details
(21 didactic credits – 0 clinical credits)

Level II: Clinical Management for Specialty Care
(19 didactic credits – 0 clinical credits)
NM701 Gynecologic Health (3-0)
NM702 Midwifery Care during Pregnancy (3-0)
NM703 Primary Care of Women (3-0)
WH707 Antepartum Complications and Comprehensive Postpartum Care (4-0)
NP700 The Role of the Nurse Practitioner (3-0)
PC719 Psych Concepts for APRN (3-0)

Level III: Clinical Bound
(2 didactic credits – 0 clinical credits)
NM710 Clinical Skills for Women’s Health Care (2-0)

Level IV: Clinical Practicum
(1 didactic credit – 15 clinical credits)
WH712 Women’s Health Clinical I (0-3)
WH713 Women’s Health Clinical II (0-3)
WH714 Women’s Health Clinical III (0-3)
WH715 Women’s Health Clinical IV (0-3)
WH716 Women’s Health Clinical V (0-3)
WH717 Women’s Health comprehensive exam and certification exam review (1-0)

MSN Completed: 58 credits (21 core credits + 22 didactic management credits + 15 clinical credits)

Psych-Mental Health Nurse Practitioner MSN Program of Study
In the Psychiatric-Mental Health Nurse Practitioner (PMHNP) education program, students complete a modular course of study over two to three years. The classroom is the community in which the student lives. During the clinical practicum, PMHNP students work closely with a PMHNP and other psychiatric and behavioral health care providers in their community.
The PMHNP curriculum has a strong academic and clinical basis. In addition, the PMHNP curriculum is unique in providing a strong foundation in understanding the business of primary behavioral health care. This includes assessing a community to discover the primary behavioral health needs, learning how to develop a plan for having a fiscally viable practice, and working within the license and insurance regulations of the student's state. Using integrated behavioral healthcare models and approaches across the lifespan, care of the seriously mentally ill and addictions medicine are strong components of the program. The Master of Science in Nursing (MSN) degree and a post-master’s certificate are offered in the PMHNP specialty track.

### MSN Program Plan PMHNP Curriculum

**MSN Core Curriculum** - see MSN Program Plan Core Curriculum section above for course details

(21 didactic credits – 0 clinical credits)

**Level II: Clinical Management for Specialty Care**

(18 didactic credits – 0 clinical credits)

- MH701 Psychopharmacologic/Neuroscience Foundations of Mental Health Care (3-0)
- MH705 Psychiatric-Mental Health Roles & Modalities of Care (3-0)
- MH707 Psychiatric Mental Health Assessment Across the Lifespan (3-0)
- MH708 Principles of Psychotherapy Across the Lifespan (3-0)
- MH709 PMHNP Concepts: Transition to Practice (3-0)
- MH720 Substance Use Disorder and Contemporary Issues in Mental Health (3-0)

**Level III: Clinical Bound**

(2 didactic credits – 0 clinical credits)

- MH710 Clinical Skills for Psych-Mental Health Care (2-0)

**Level IV: Clinical Practicum**

(1 didactic credits – 15 clinical credits)

- MH712 Psych-Mental Health Clinical I (0-3)
- MH713 Psych-Mental Health Clinical II (0-3)
- MH714 Psych-Mental Health Clinical III (0-3)
- MH715 Psych-Mental Health Clinical IV (0-3)
- MH716 Psych-Mental Health Clinical V (0-3)
- MH717 Psych-Mental Health Final Comprehensive Review (1-0)

**MSN Completed: 57 credits** (21 core credits + 21 didactic management credits + 15 clinical credits)

### Post-Graduate Certificate

**Description**

This program option is designed for applicants who have an MSN and are nationally certified as an APRN as a nurse practitioner or nurse-midwife. The plan will include completion of all course work for a post-graduate certificate (PGC) that will allow the student to sit for the certification examination as a certified nurse-midwife (CNM), family nurse practitioner (FNP), psych-mental health nurse practitioner (PMHNP) or a women’s health care nurse practitioner (WHCNP).

**Purpose**

The purpose of the PGC at FNU is to prepare nurse practitioner and nurse-midwife clinicians and leaders who will practice, evaluate and improve primary health care in an additional specialty. The ultimate goal of the program is to improve the health care and the health status of populations with a focus on rural and underserved communities.
Philosophy
The PGC program plan allows NPs and CNMs an opportunity to expand their scope of practice and produces nursing leaders who focus on improving the health care system, improving access to care for the poor and underserved and promoting the outcomes of NM and NP practice through the use of clinical scholarship and evidence based practice.

Objectives
The objectives of the PGC Program are to prepare graduates who will be able to:

- Deliver safe, culturally sensitive health care to clients across the lifespan.
- Apply critical and reflective thinking skills to provide evidence based care.
- Emulate characteristics of a professional.
- Apply ethical principles to guide and evaluate decisions.
- Analyze the social, political and economic environment within the healthcare system.
- Evaluate nurse midwifery/nurse practitioner practice through peer review and quality improvement.
- Advocate for the empowerment of clients, families and communities.
- Establish and maintain quality health services in a fiscally sound and financially responsible manner.
- Assume responsibility for the clinical education of nurse midwifery/nurse practitioner students.
- Demonstrate information literacy skills in complex decision making.
- Demonstrate an understanding of the appropriate use of technology to implement and evaluate health care.
- Demonstrate leadership to initiate and guide change in clinical practice.

On-Campus Attendance for the PGC
PGC students have two (2) required on-campus activities.

Prior to beginning the curriculum, PGC students will attend an in-person Bound, an orientation to the PGC and to the University. While at Bound, students participate in activities designed to prepare them for their first term as certificate students at FNU and are oriented to the rest of their coursework.

After completing didactic management coursework and prior to beginning clinical, students return to campus for an intensive Clinical Bound. Following successful completion of all Clinical Bound courses, students will transition into their clinical coursework.

Students entering the Women’s Health for CNEP Grads PGC are not required to attend any in-person Bounds.

The required trips to Campus are special events in the FNU experience and each student is expected to participate fully in all required activities. The student is responsible for all content, skills, and costs of making up or completing the program objectives if any time is missed. To receive credit for class work missed for any reason, the student must fulfill the objectives by special arrangement with the Department Chair for Frontier Bound or the Clinical Transitions Coordinator for Clinical Bound. If a student knows they will need to miss any campus sessions, the Department Chair or Clinical Director should be contacted prior to the campus visit to discuss the possibility of special arrangements.

Students are expected to stay on campus for the required trips. Exceptions may be made to stay off-campus for students who have health reasons which prohibit overnight stay on campus. Students seeking permission to stay off-campus should contact the appropriate Department Chair with an explanation for the request. Requests should be made at least 2 weeks before the expected date of arrival. Students who are nursing mothers can make accommodations to stay in the family-designated housing on-campus (See the Breastfeeding Children on Campus policy in this Catalog).
Sequencing of the PGC Program of Study

**Frontier Bound Orientation**

PGC students are required to come to Versailles, Kentucky for Frontier Bound, an orientation to Frontier Nursing University (FNU). During the three-day session, students meet members of their faculty and staff, their advisor, and their fellow students. Time is spent learning skills needed for distance learning, making lifelong friends, reviewing courses, asking questions, and beginning to plan how to be a Frontier student after returning home. Frontier Bound is an experience in fun, learning, and friendship. During Frontier Bound, students stay on the beautiful FNU campus and are pampered with delicious meals. Students must attend all Frontier Bound sessions in order to be eligible to enroll in their selected program of study.

Applicants who may be excused from Frontier Bound include students who are returning FNU alumni who completed a degree or certificate program within the last two years or current students who are transferring from one specialty track to another.

To obtain permission to be excused from attending Frontier Bound, the applicant must contact the Admissions Officer to initiate the process. The applicant will be required to submit a statement with their petition for the exception to the Frontier Bound attendance policy. The statement should indicate the applicant’s knowledge of current Frontier Bound content relative to the new academic program as well as any additional individual applicant needs. The Department Chair will determine if the applicant may be excused or if attendance at Frontier Bound is required. The decision of the Department Chair is final.

**Levels I and II: Foundations for Practice and Clinical Management for Specialty Care**

Students complete coursework for Levels I and II in their community. This web-based course of study is completed in 3-4 terms depending on whether the student is full-time or part-time. Students are in frequent contact with their faculty and fellow students through email, discussion forums, virtual meeting platforms, and phone. They also receive guidance and support from their Academic Advisor and Department Chair.

**Level III: Clinical Bound**

Clinical Bound is designed to develop and validate beginning clinical skills. To be eligible to attend Clinical Bound, students must have completed all prerequisite courses and submitted at least one clinical site for credentialing. Submission of a minimum of one clinical site must be completed prior to the registration period in which the student is registering for Clinical Bound courses. If no clinical sites are submitted for credentialing, the student will not be allowed to register for or attend Clinical Bound. Students return to Versailles, Kentucky for this six-day/five-night skills-intensive experience which includes the completion of two, one-credit courses. During this period the student is validated as having acquired the skills necessary to begin a community-based clinical practicum. There is also time for informal communication between faculty and students. Upon successful completion of Level III, students are eligible to begin their clinical practicum.

**Level IV: Clinical Practicum**

After attending Clinical Bound, students begin their clinical practicum. Students provide nurse practitioner or nurse-midwifery services in their community for four to ten months under the guidance of a master clinician preceptor. The FNU Regional Clinical Faculty (RCF) will provide guidance and support during this time to the student and the preceptor. In addition, the RCF evaluates both the clinical site and preceptor to ensure excellence before the student begins the clinical experience. There are required clinical experiences that will assist the student in developing necessary clinical skills. Students may choose, or be required, to use more than one clinical site in order to receive a variety of clinical experiences. Where the volume of clients will not make the experience goals possible, the student will be expected to use more than one clinical site.

**PGC Program Plan Nurse-Midwifery Curriculum**

*Students who did not complete the required courses for Admission may have those courses added to an individualized program of study by the Department Chair. See Admission Criteria for the Post-Graduate Certificate section of this catalog for details.*
Level II: Clinical Management for Specialty Care
(25 didactic credits – 0 clinical credits)
NM700 The Role of the Nurse-Midwife in Health Care Delivery Systems (3-0)
NM701 Gynecologic Health (3-0)
NM702 Care During Normal Pregnancy (3-0)
NM703 Primary Care of Women (3-0)
NM704 Midwifery Care during Labor and Birth (3-0)
NM705 Postpartum and Newborn Care (3-0)
NM706 Advanced Midwifery Care of Childbearing Women and Newborns (4-0)
PC719 Psych Concepts for APRN (3-0)

Level III: Clinical Bound
(1 didactic credit – 0 clinical credits)
NM711 Skills for Nurse-Midwifery Care (1-0)

Level IV: Clinical Practicum
(1 didactic credit – 12 clinical credits)
NM713 Nurse-Midwifery Clinical II (0-3)
NM714 Nurse-Midwifery Clinical III (0-3)
NM715 Nurse-Midwifery Clinical IV (0-3)
NM716 Nurse-Midwifery Clinical V (0-3)
NM717 Nurse-Midwifery Final Comprehensive Review (1-0)

Completion of AABC “How to Start a Birth Center” Workshop
Post-Graduate Certificate Completed: 39 total credits (27 didactic + 12 clinical)

PGC Program Plan Family Nurse Practitioner Curriculum

Students who did not complete the required courses for Admission may have those courses added to an individualized program of study by the Department Chair. See Admission Criteria for the Post-Graduate Certificate section of this catalog for details.

Level II: Clinical Management for Specialty Care
(22 didactic credits – 0 clinical credits)
NP700 The Role the Nurse Practitioner (3-0)
NP702 Primary Care I (3-0)
NP703 Gynecologic Health and Childbearing (4-0)
NP704 Primary Care Pediatrics (3-0)
NP705 Primary Care II (3-0)
NP706 Primary Care III (3-0)
PC719 Psych Concepts for APRN (3-0)

Level III: Clinical Bound
(1 didactic credit – 0 clinical credits)
NP711 Advanced Skills for Nurse Practitioner Care(1-0)

Level IV: Clinical Practicum
(1 didactic credit – 12 clinical credits)
NP713 FNP Clinical II (0-3)
NP714 FNP Clinical III (0-3)
NP715 FNP Clinical IV (0-3)
NP716 FNP Clinical V (0-3)
NP717 FNP Final Comprehensive Review (1-0)

Post-Graduate Certificate Completed: 36 total credits (24 didactic + 12 clinical)
PGC Program Plan Women’s Health Care Nurse Practitioner Curriculum

Students who did not complete the required courses for Admission may have those courses added to an individualized program of study by the Department Chair. See Admission Criteria for the Post-Graduate Certificate section of this catalog for details.

Level II: Clinical Management for Specialty Care
(19 didactic credits – 0 clinical credits)
NM701 Gynecologic Health (3-0)
NM702 Midwifery Care during Pregnancy (3-0)
NM703 Primary Care of Women (3-0)
WH707 Antepartum Complications and Comprehensive Postpartum Care (4-0)
NP700 The Role of the Nurse Practitioner (3-0)
PC719 Psych Concepts for APRN (3-0)

Level III: Clinical Bound
(1 didactic credit – 0 clinical credits)
WH711 Skills for Women’s Health Care (1-0)

Level IV: Clinical Practicum
(1 didactic credit – 12 clinical credits)
WH713 Women’s Health Clinical II (0-3)
WH714 Women’s Health Clinical III (0-3)
WH715 Women’s Health Clinical IV (0-3)
WH716 Women’s Health Clinical V (0-3)
WH717 Women’s Healthcare Final Comprehensive Review (1-0)

Post-Graduate Certificate Completed: 33 total credits (21 didactic + 12 clinical)

PGC Program Plan Psychiatric-Mental Health Nurse Practitioner Curriculum

Students who did not complete the required courses for Admission may have those courses added to an individualized program of study by the Department Chair. See Admission Criteria for the Post-Graduate Certificate section of this catalog for details.

Level II: Clinical Management for Specialty Care
(18 didactic credits – 0 clinical credits)
MH701 Psychopharmacologic/Neuroscience Foundations of Mental Health Care (3-0)
MH705 Psychiatric-Mental Health Roles & Modalities of Care (3-0)
MH707 Psychiatric Mental Health Assessment Across the Lifespan (3-0)
MH708 Principles of Psychotherapy Across the Lifespan (3-0)
MH709 PMHNP Concepts: Transition to Practice (3-0)
MH720 Substance Use Disorder and Contemporary Issues in Mental Health (3-0)

Level III: Clinical Bound
(1 didactic credit – 0 clinical credits)
MH711 Skills for Psych-Mental Health Care (1-0)

Level IV: Clinical Practicum
(1 didactic credit – 12 clinical credits)
MH713 Psych-Mental Health Clinical II (0-3)
MH714 Psych-Mental Health Clinical III (0-3)
MH715 Psych-Mental Health Clinical IV (0-3)
MH716 Psych-Mental Health Clinical V (0-3)
MH717 Psych-Mental Health Final Comprehensive Review (1-0)

Post-Graduate Certificate Completed: 32 credits (20 didactic + 12 clinical)
Additional Programs

**MSN Graduates Returning to Complete a Second Specialty**
All FNU graduates wishing to return to complete a post-graduate certificate in a second specialty must complete the application process. Transcripts are not required when applying to complete a post-graduate certificate in a second specialty track unless credits from another school are being evaluated for transfer. All applications will go through the Admissions Committee process.

**CNEP Graduates without an MSN Returning to Complete a Second Specialty**
CNEP graduates who have not completed a MSN must complete the second specialty track as a master’s completion program of study. All FNU students must graduate with either an MSN, a post-graduate certificate, a DNP or a PM-DNP. Post-baccalaureate certificates are no longer offered by FNU.

**MSN Completion for CNEP Graduates**
The FNU offers a Master of Science in Nursing (MSN) completion option for CNEP graduates without a master’s degree. There are two programs of study depending on when the CNEP was completed.

* **MSN Completion Program of Study for Graduates of CNEP Classes 1-29**
  PC706 Advanced Physical Assessment, Clinical Reasoning, and Documentation (3-0)
  PC707 Advanced Pharmacology (3-0)
  PC705 Advanced Pathophysiology (3-0)
  PC701 Principles of Health Promotion (3-0)
  NM703 Primary Care of Women (3-0)
  PC718 Evidence Based Practice (3-0)

* **MSN Completion Program of Study for Graduates of CNEP Classes 30-40**
  PC701 Principles of Health Promotion (3-0)
  PC718 Evidence Based Practice (3-0)

If any student in Classes 30-40 has not completed the specified graduate content from the list below, the course(s) will be added to the required program of study for that student. Course content must cover the lifespan.
  PC705 Advanced Pathophysiology (3-0)
  PC706 Advanced Physical Assessment, Clinical Reasoning, and Documentation (3-0)
  PC707 Advanced Pharmacology (3-0)

Frontier Nursing University cannot confirm its programs meet individual state requirements for professional licensure. Students and applicants should contact the licensing boards in their state of residence, or any state in which they may reside in the future, to determine whether the program meets state requirements for licensure. A directory for state boards of nursing can be found here: https://www.ncsbn.org/contact-bon.htm

**WHCNP Post-Graduate Certificate for CNEP Graduates**
FNU CNEP graduates with a master’s degree have the option of completing a post-graduate certificate as a Women’s Health Care Nurse Practitioner. The Women’s Health Care Nurse Practitioner (CWHCNP) Post-Graduate Certificate for CNEP Graduates provides additional supervised clinical experience in women’s health care and primary health care for CNEP graduates who wish to become certified as WHCNPs by the National Certification Council (NCC).

This program requires completion of an additional four credit hour clinical course in women’s health and primary care (WH639 for graduates of Class 30 and higher, N599 for graduates prior to Class 30). Upon completion of this
course, a PGC will be awarded and graduates will be eligible to take the NCC Women’s Health Care Nurse Practitioner Examination. Please note due to this certificate program being less than 33 weeks in length, students are not eligible to receive federal financial aid for these clinical courses. See Admissions Policies Section for more information.

Refresher program for Nurse-Midwives
FNU offers a refresher program for nurse-midwives who have been out of midwifery practice and current certification through the American Midwifery Certification Board (AMCB). The student will be admitted as a non-matriculating student.

Click here for non-matriculating student application
NOTE: Requirements for application include: – a CV, a signed letter of commitment from your clinical site and preceptor and an active nursing license should be included.

Upon admission, the student will meet with the Department Chair of Midwifery and Women’s Health to discuss an individualized program of study based upon the midwife’s experience, length of time out of practice, and intended scope of practice. The guidelines and competencies established by the ACNM will be utilized in the formation of the individualized program of study. At minimum, the program of study would include advanced didactic coursework focusing on the appropriate area of practice and clinical experiences with the same focus.

The minimal course requirements for any refresher student who is returning to full scope practice include (but are not limited to):
NM706 Advanced Midwifery Care of Childbearing Women and Newborns- 4 credit hours
NM716 Nurse-Midwifery Clinical V (final clinical course)- 3 credit hours
Minimum of 15 precepted births
Minimum of 15 precepted births
Other minimums for visit types will be established by Clinical Director and/or Department Chair
NM717 (Comps and Certification Exam Review)- 1 credit hour

All clinical policies regarding site selection, site credentialing, preceptor credentialing, and student credentialing apply. CNMs in the FNU NM Refresher program may utilize MDs to supervise required births during their clinical course.

After meeting with the Department Chair of Midwifery and Women’s Health, the student will meet with admissions, Bursar, credentialing, and the appropriate Regional Clinical Faculty as assigned by the Clinical Director of Midwifery. The student will be required to complete the comprehensive exam course. If deficiencies are noted, additional coursework and/or clinical may be required to complete the refresher. When all requirements are successfully completed, a letter of completion will be issued to the student. Completion of the FNU refresher coursework does not guarantee the student will meet state, certifying body, licensure or employer related requirements.

Refresher program for Master’s prepared Women’s Health Nurse Practitioners
FNU offers a refresher program for Women’s Health Nurse Practitioners who are masters prepared, have been out of practice and have up-to-date certification through the National Certification Corporation (NCC). The student will be admitted as a non-matriculating student.

Click here for non-matriculating student application
NOTE: Requirements for application include: a CV, a signed letter of commitment from your clinical site and preceptor and an active nursing license should be included.

Upon admission, the student will meet with the Department Chair of Midwifery and Women’s Health to discuss an individualized program of study based upon the NP’s experience, length of time out of practice, and intended scope of practice. At minimum, the program of study would include advanced didactic coursework focusing on the
appropriate area of practice and clinical experiences with the same focus. See examples below. Note that the actual program of study will be individually developed.

**Example:** For a WHNP who has been continually practicing but has not been doing any obstetrical care and needs a refresher in this area of practice only:

WH707 Antepartum Complications and Comprehensive Postpartum Care - 4 credit hours
WH716 (final clinical course) – 3 credit hours
WH717 - Women’s Health Comprehensive Review- 1 credit hour

**Example:** For a WHNP who has been completely out of practice for an extended period of time or who has not practiced after graduation:
NM701 Gynecologic Health- 3 credit hours
NM703 Primary Care of Women- 3 credit hours
WH707 Antepartum Complications and Comprehensive Postpartum Care - 4 credit hours
WH716 (clinical course)- 3 credit hours
WH717- Women’s Health Comprehensive Review- 1 credit hour

All clinical policies regarding site selection, site credentialing, preceptor credentialing, and student credentialing apply.

After meeting with the Department Chair of Midwifery and Women’s Health, the student will meet with the Registrar, Bursar, credentialing, and the appropriate Regional Clinical Faculty. The student will also be assigned an academic advisor. Upon completion of an individualized program of study, a letter of completion will be issued to the student. Completion of the FNU refresher coursework does not guarantee that the student will meet state, certifying body, licensure, or employer related requirements.

**Courses for Non-Matriculating Students**
Frontier Nursing University (FNU) offers graduate and continuing education courses for healthcare professionals. These online courses offer the opportunity to develop new knowledge and skills to expand the scope of clinical practice, to refresh the knowledge and skills of experienced advanced practice nurses, to gain the graduate credits necessary for prescriptive authority, or to become a better preceptor.

Courses are offered four times each year and start at the beginning of each term. Candidates should choose a term when they have the time to devote to the course work. Individuals are permitted to take up to two courses per term and may not take more than a total of two courses as a non-matriculated student at FNU. Seasoned faculty who are pioneers in distance education for nurse-midwives and nurse practitioners developed and teach these courses, taking into consideration the unique needs of adult learners.

**Graduate Courses**
Non-matriculating students can review the course descriptions in the FNU Catalog. Not all current FNU courses are available for non-matriculating students. Courses that are available to non-matriculating students are N400 Health Assessment, and PC702 Epidemiology and Biostatistics. The Department Chairs can be contacted to request possible approval for other desired course(s). The registration form for non-matriculating students is obtained by contacting the Admissions Office on the Versailles Campus at (859) 251-4700. Non-matriculated students are required to complete the Banyan Tree 101 Canvas course prior to starting any course work. All course work is started at the beginning of a term (see FNU Academic Calendar). Students must register for the courses 6 weeks prior to the beginning of the term in order to complete the requirements for the Banyan Tree 101 course and obtain the textbook. Courses which include secure exams require the use of an electronic proctor device.

**Continuing Education Courses**
FNU’s preceptor training program, the Gift of Precepting, is available at: http://www.frontier.edu/giftofprecepting/index.html. Registration is required and is found under the Pre-course Instruction tab located in the menu of the left side of the page. This course meets the American College of
Nurse-Midwives (ACNM) requirements for preceptor training and is approved by the ACNM Education Department for CEUs. This is an excellent source of information about precepting health professions students.

*Building a Practice in Your Home Community* is an interactive web-based course designed to teach the managerial skills necessary to own and operate a health care practice. This course was developed in collaboration with Partnerships for Training of the Robert Wood Johnson Foundation and George Washington University. It is available online at [http://learn.gwnursing.org/Education/practice/index.htm](http://learn.gwnursing.org/Education/practice/index.htm)

**Student Support**

Since its beginning in community-based education in 1989, the FNU faculty has discovered that community-based learners have special needs. This is why FNU offers so many different avenues of support for students.

**Faculty Support**

Every didactic course has a Course Coordinator, a faculty member responsible for the design of the course as well as providing support to students to maximize learning and assist students in meeting the course learning objectives. All FNU faculty members keep regular office and appointment hours each week and have a phone dedicated to FNU, allowing students to have easy access to them. Each FNU student is assigned a Regional Clinical Faculty (RCF) upon admission. The RCF can assist students in securing a clinical site and work with students and preceptors during the clinical practicum.

**Academic Advising**

Each FNU student is assigned an Academic Advisor upon admission. The Academic Advisor will remain with a student from the point of admission through to graduation to provide guidance on successfully completing the program of study. Advising staff assist students in understanding university academic policy and work closely with faculty to design, develop, and implement retention activities. For more information visit: [https://portal.frontier.edu/web/fnu/advising](https://portal.frontier.edu/web/fnu/advising).

**Clinical Advising**

The Clinical Advisors support students by providing assistance and resources in location clinical sites and preceptors, troubleshooting challenging situations and working one-on-one with students to navigate the overall clinical search process. Students are assigned a Clinical Advisor by specialty and can contact the advisors for individual support on an as-needed basis.

**Student Services**

The purpose of Student Services is to foster student learning and development by providing the highest quality services that enhance students’ educational experiences and prepare students to fulfill the mission of Frontier Nursing University. Student Services staff members assist faculty in developing, planning and implementing new student orientation. Bournes help students understand the process for identifying a preceptor and securing a clinical site, provide recruitment and retention activities for a diverse study body, collaborates with faculty to provide opportunities for students to develop cross-cultural competencies and skills for success in a diverse healthcare system, and coordinates the university Commencement ceremony. For more information visit [http://www.frontier.edu/student-services](http://www.frontier.edu/student-services).

**Diversity Impact Program**

The Diversity Impact Program (formerly called PRIDE: Promoting Recruitment and Retention to Increase Diversity in Nurse-Midwifery and Nurse Practitioner Education Program) is designed to promote diversity in nursing and midwifery by recruiting and retaining underrepresented students with the goal of becoming nurse-midwives or nurse practitioners. The Diversity Impact Program partners with institutions around the country to provide advanced practice nursing and midwifery to students who may not otherwise have access to graduate level programs in their area.

As a Diversity Impact member, students may attend Diversity Impact weekend on campus to reconnect with staff, faculty and classmates while learning more about issues related to diversity in nursing and midwifery. Diversity Impact students attend meetings once a term to explore issues relevant to diversity in the nursing and midwifery workforce, share experiences as a nurse and student with other students and discover resources to assist in the
goal of becoming a nurse-midwife or nurse practitioner. Interested students may learn more on the Diversity Impact webpage (www.frontier.edu/student-experience/diversity/) and can submit their application to the Diversity Impact Program Coordinator via email.

S.A.G.E. (Supporting Achievement in Graduate Education) Mentoring Program
The SAGE peer mentoring program was developed by students, for students. The birth of the program was from students who felt that they could reach out to others because they have “been there, done that.” SAGE is designed to provide a supportive network to students as they adjust academically and emotionally to graduate distance learning. All FNU students are encouraged to join SAGE and remain a part of the mentoring network even as alumni. Interested students should visit http://www.frontier.edu/student-services/sage-mentoring to submit the membership application.

Student Council
The Student Council is composed of elected student members from each FNU class who agree to act as class representatives. The mission of the Student Council is to help each FNU student’s experience to be as positive as possible. The Student Council believes that each individual is an integral part of the success of FNU. The Student Council encourages active student involvement in the issues that affect students and serves as student advocates to this end. The Student Council aims to achieve their mission through promoting good communication between students, faculty and administration. For further information about the Student Council, visit: http://www.frontier.edu/student-services/student-council.

Banyan Tree Communications Portal
FNU uses its own private communications portal, known as the Banyan Tree (BT). It allows users to access other students, faculty, or alumni on topics ranging from course updates, case studies, discussion groups, and assignments and practice issues to family and fun topics. With a computer, internet service and a good sense of humor, the members of the FNU community are always in touch. FNU has created a prerequisite electronic communication course: Banyan Tree 101 (BT101), which is taught with a hands-on approach with step-by-step instructions. BT101 was carefully designed to be non-threatening and non-intimidating. Additional instruction and practice are part of Frontier Bound. Students have access to technical support as necessary during regular business hours.

Library Services
The Alice Whitman Memorial Library is the academic library for Frontier Nursing University (FNU). A collection of books, journals, and audiovisuals is available to students and faculty whether on-campus or off-campus. FNU provides access to a large number of remote resources including bibliographic and full-text databases, online journals and texts, tutorials, and other relevant Websites. The FNU Director of Library Services acquaints all new students to the library as part of orientation and is available for student meetings by phone or email. More information about the library can be found at: https://portal.frontier.edu/web/fnu/library.

Alumni Association of Frontier Nursing University
The purpose of the FNU Alumni Association is to promote FNU, increase loyalty of alumni, and create a mutually beneficial relationship between the institution and alumni. The Alumni Association represents over 2,000 alumni who have graduated from FNU since its inception in 1939. Further information about the Alumni Association can be found at: http://www.frontier.edu/alumni.
Admissions Policies

Prerequisite Health Requirements for all FNU programs
A current health examination must be completed prior to attendance at any Frontier Bound or Clinical Bound and kept current (within one year) throughout the clinical experience. This health examination must include documentation of vaccination or immunity to Rubella, Measles, Mumps, Hepatitis B, Varicella, and freedom from tuberculosis in a communicable stage.

Technical and Performance standards
Upon admission, all students verify in writing that they are able to meet the following technical and performance standards with or without accommodations. The technical and performance standard are:

- Observational: Candidates must be able to observe demonstrations of physical and psychosocial nursing interventions. Candidates must be able to accurately assess the health status of patients. Observation and assessment of patients require the functional use of the senses of vision and hearing, as well as other sensory modalities.
- Communicative: The candidate must be able to communicate effectively and efficiently in oral and written forms with patients and with members of the health care team. The foci of nursing communication are gathering assessment data, patient teaching and the provision of emotional support for patients and their families.
- Motor: Candidates must have sufficient motor function to elicit information from patients by palpation, auscultation, percussion and other diagnostic maneuvers. Candidates must be able to execute motor movements reasonably required to provide general care and emergency treatments to patients. Such actions require moderate motor strength, coordination of both gross and fine muscular movements, equilibrium and functional use of the senses of touch and vision.
- Intellectual: Candidates must have the ability to measure, calculate, reason and analyze; they must be able to synthesize and apply complex information. Candidates must be fully alert and attentive and free of non prescribed controlled substances at all times in clinical settings.
- Behavioral/Social: Candidates must possess a level of emotional health that allows full utilization of intellectual abilities, the exercise of good judgment, prompt completion of all responsibilities attendant to the nursing diagnosis and care of patients, and the development of mature, empathetic and effective nurse-patient relationships. Candidates must be able to function effectively under stress.

Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics and the Nurse Practice Act is required.

Background Checks
All applicants will be required to complete a background check as the final step in the admissions process. Applicants will be admitted pending the successful completion of the background check. The background check must be completed after the admissions decision is made and prior to attendance at Frontier Bound. Applicants with felony convictions will not be admitted. Applicants with other types of convictions will be considered on an individual basis. This does not apply to non-matriculating applications or applicants from the FNU WHCNP specialty who completed a background check through FNU credentialing within twelve months.

Health Insurance, Illness and/or Injury
If a student is sick or injured during their enrollment at FNU, they should be seen in the nearest emergency room or health care clinic as appropriate. This would include any Bloodborne Pathogen Exposure. Students are required to carry health insurance or be a member of a health care sharing program during the entirety of their enrollment at FNU and will be personally responsible for any and all health care costs while enrolled at the FNU. Students will be required to provide proof of insurance coverage during the clinical credentialing process.
Residents of New York Applying to the MSN and PGC
Due to regulatory restrictions by the New York State Education Department, FNU MSN or PGC students can not attend clinicals in New York state. DNP applicants are eligible for admission.

Admissions Criteria for the Doctor of Nursing Practice (DNP)
FNU offers two curricular paths to earning the DNP. Each path has its own eligibility for entry and Admissions requirements:

Entry into the Post-Master’s DNP is available to applicants who:
- completed the MSN program at FNU that did not include the DNP Essentials, entered prior to January 1, 2014.
- completed the PGC program of study at FNU that did not include the DNP Essentials, entered prior to January 1, 2014 or entered after January 1, 2017. (Students who began the PGC at FNU between January 1, 2014 and January 1, 2017 completed a curriculum that included the DNP Essentials.)
- completed an acceptable MSN (as outlined below) somewhere other than FNU.

Entry into the Companion DNP program is only available to FNU graduates who:
- completed the MSN program at FNU that included the DNP Essentials, entered after January 1, 2014 (Classes 108, 111, 114, 117, 119 and above).
- completed the PGC program of study at FNU that included the DNP Essentials, entered between January 1, 2014 and January 1, 2017 (Classes 119 - 154). Applicants who completed the PGC at FNU will have their transcripts evaluated prior to admission to determine appropriate program of study.

FNU alumni and Non-FNU graduates will apply to the DNP through a standard admission process. Details regarding the Standard Admission process are listed below.

Current FNU students may apply to begin the DNP coursework directly after completing the MSN or PGC. Details regarding the Direct Admission process are listed below.

Standard Admission to the DNP Program
Applicants are expected to meet the following criteria for admission to Frontier Nursing University (FNU):
- Hold a master's of science degree in nursing (MSN), a master's in nursing (MN), or a MS in nursing OR have a master's degree in a related field (such as MPH or masters in midwifery or other area) granted from a nationally (CCNE or ACEN) accredited nursing program from a regionally accredited institution of higher learning; to check your program’s accreditation please visit http://ope.ed.gov/accreditation/search.aspx. Applicants who meet the minimum admissions criteria will be considered on an individual basis.
- Be a registered nurse with a national certification as a certified nurse-midwife, a family nurse practitioner, a women’s health care nurse practitioner, a pediatric nurse practitioner, an adult nurse practitioner, or a geriatric nurse practitioners, a geriatric-adult nurse practitioner, and a psychiatric mental health nurse practitioner with a current, active, registered nurse or advanced practice license in the United States with no encumbrances.
- Have a grade point average (GPA) of ≥3.0 from the master’s program.
- Frontier Nursing University seeks to admit applicants who have the necessary oral and written English language skills for successful graduate level work. Frontier Nursing University offers academic support programs for all students; however there is no university operated support program specifically for students needing assistance with the English language. Applicants whose primary language is not English and/or who have completed their tertiary education (level equivalent to U.S. college or university) in a non-English speaking institution, must take the internet-based TOEFL (iBT) and achieve the following minimum scores: Reading 22, Listening 22 Speaking 26 and Writing 24. To be considered official, test scores must be sent directly from the testing agency to the university. Frontier Nursing University's TOEFL code is 5692. Please provide this code to TOEFL when taking the exam to ensure test results are expedited to the University.
All Direct Admission DNP applicants must:
- Submit a resume or curriculum vitae
- Two essays (goal statement and time management)
- Three professional references
- Copy of RN license, current state APRN licensure and certification
- Submit TOEFL (iBT) results, if applicable (see above).

Applicants with questions regarding their qualifications for admission to FNU should contact the FNU Admissions Officer at: admissionscounselor@frontier.edu.

Each applicant is evaluated individually. The FNU Faculty Admissions Committee makes all admission decisions.

Direct Admission to the DNP for Current FNU Students
Applicants are expected to meet the following criteria for Direct Admission to the FNU DNP:
- Be a current FNU student who wants to begin the DNP degree as soon as possible following completion of the FNU MSN or PGC program. Students interested in starting the DNP at a later date will complete the Standard Admissions process as an FNU graduate.
- Complete the FNU MSN or PGC prior to beginning the DNP coursework. The degree must be officially conferred no later than the end of add/drop during the first term of DNP course registration. Direct Admission applicants will be admitted on a conditional basis until the FNU MSN or PGC degree is officially conferred.
  - Students who do not officially complete the MSN or PGC prior to the add/drop deadline will have their DNP course registration canceled. Students in this situation may reapply for Direct Admission in the subsequent term.
- Pass the nurse-midwife or nurse practitioner certification examination by the end of the first term of the DNP. Direct Admission applicants who do not have board certification at the point of application for admission will be admitted on a conditional basis until board certification is submitted.
  - If the certification is not obtained by the end of the first DNP term, students will be unable to continue in DNP coursework and must take an Academic Hiatus (AH), if eligible. Students will not be able to resume DNP coursework until certification is obtained. If certification is not obtained during the approved allowable AH(s), the student will be required to withdraw from FNU. Withdrawn students would be eligible to re-apply through the Standard Admission process as an FNU graduate after certification is completed.

All Direct Admission DNP applicants must:
- Submit one professional reference on the FNU supplied form
- Complete the Academic Summary form
- Submit a narrative statement on a topic outlined in the admissions application. The essay will be evaluated based on content and writing skills.
- Provide proof of board certification no later than the end of the first term of the DNP.
- Submit a completed application by the due date posted for the term to which (s)he is applying.
If a CNEP student chooses to complete the WHNP Certificate for CNEP Grads program, the student may choose to begin the DNP coursework simultaneously with the WHNP Certificate coursework, complete the WHNP Certificate prior to starting the DNP, or complete the WHNP Certificate after completing the DNP. CNEP students wishing to begin the WHNP Certificate and DNP simultaneously are expected to consult with the DNP Program Director and WHNP Department Chair prior to admission. CNEP students wishing to begin the WHNP Certificate and DNP simultaneously must complete the admission application for both programs by the established deadlines. Students are not allowed to complete any other FNU academic program simultaneously with the DNP.

Admission Criteria for the MSN

Applicants are expected to meet the following criteria for admission to Frontier Nursing University (FNU):

- Be a registered nurse with currently active licensure and educational preparation from an ACEN or CCNE accredited nursing program with accreditation current at the time of the applicant’s graduation.
  - Due to regulatory restrictions by the state of New York State Education Department, FNU MSN students can not complete clinicals in New York state.
- Registered nurses with an associate degree in nursing from a nursing program accredited by CCNE or ACEN with accreditation current at the time of the applicant’s graduation and a baccalaureate degree or higher degree in nursing without APRN certification from a CCNE or ACEN accredited nursing program and a regionally accredited institution of higher learning will be considered for admission to the MSN Program.
- Registered nurses without a baccalaureate or higher degree in nursing, who have completed a diploma or associate degree nursing program at a CCNE or ACEN accredited nursing program with accreditation current at the time of the applicant’s graduation and have a bachelor’s degree from a regionally accredited institution of higher learning in another discipline, will be considered for admission to the MSN Program with the additional requirement of a portfolio of relevant employment and academic experience.
- Have a grade point average (GPA) of ≥3.0 from the most recent degree earned (nursing or a related field).
- Be a registered nurse with a current, active, license in the United States with no encumbrances. If assignment to a clinical practice site requires that the student practice in another state, then the student is required to meet licensing requirements according to statutes and obtain the appropriate license.
- Have one year of RN nursing experience (LPN experience not included). For RNs with less than one year of RN experience, the Admissions Committee may consider other significant experience in a healthcare field related to the intended field of study, e.g., certified childbirth education, certified doula, certified lactation consultant, paramedic, and/or public health experience.
- Submit three healthcare professional references who are able to speak to your ability/potential to serve as an advanced practice nurse (NP or CNM) including at least two from nursing supervisors or CNM/NP/MD/DO professional colleagues and no more than one from a health professional peer (not a subordinate) on FNU-supplied forms.
- Applicants who have been enrolled in an MSN or DNP in another institution but have not finished their degree are asked to:
  - Include in their application essay information about why they want to leave the current MSN program and enter Frontier.
  - Have one of their three professional references be from the Clinical Director or advisor from their current MSN program.
- Frontier Nursing University seeks to admit applicants who have the necessary oral and written English language skills for successful graduate level work. Frontier Nursing University offers academic support programs for all students; however there is no university operated support program specifically for students needing assistance with the English language. Applicants whose primary language is not English and/or who have completed their tertiary education (level equivalent to U.S. college or university) in a non-English speaking institution, must take the internet-based TOEFL (iBT) and achieve the following minimum scores: Reading 22, Listening 22 Speaking 26 and Writing 24. To be considered official, test scores must be sent directly from the testing agency to the university. Frontier Nursing University's TOEFL code is 5692. Please provide this code to TOEFL when taking the exam to ensure test results are expedited to the University.
Primary Applicants

PC707 Advanced Pharmacology (3-0)

Additionally, for applicants whose primary language is not English, one of the three required professional letters of recommendation for admission must attest to the applicant's ability to adequately function in English in a professional clinical setting.

- Applicants residing outside the continental United States should review the policy related to international clinical sites.

Requirements

An undergraduate physical assessment course is not included as part of the curriculum within the programs of study but it is a course requirement for degree completion.

PHYSICAL ASSESSMENT

- Applicants having successfully completed a three-credit undergraduate or graduate-level physical assessment course taken at a regionally accredited institution of higher learning are not required to take physical assessment again in their FNU program of study. Content integrated into other courses (e.g., a high-credit nursing fundamentals course with multiple objectives unrelated to PA, the primary course description is not PA, and no comprehensive PA clinical skills check-off included) will NOT meet FNU requirements. A two (2) credit physical assessment course may be considered acceptable upon review of the course description and/or the course syllabus. Applicants must submit an official transcript reflecting completion of this course as part of their admissions packet.
- If the above parameters are not evident from the transcript, the course syllabus is required to be reviewed by the Admissions Committee to assess for sufficient course content and skills validation that permits acceptance as transfer credit.
- Applicants who have NOT successfully completed an undergraduate or graduate-level physical assessment course will have the course incorporated into the program of study.

Applicants with questions regarding their qualifications for admission to FNU should contact the FNU Admissions Counselor at: admissionscounselor@frontier.edu.

Each applicant is evaluated individually. The FNU Faculty Admissions Committee makes all admission decisions.

Go to the Application website now!

Admission Criteria for the Post-Graduate Certificate (PGC)

FNU alumni and Non-FNU graduates will apply to the PGC through a standard admission process. Details regarding the Standard Admission process are listed below.

Current FNU students may apply to begin the PGC coursework directly after completing their currently enrolled MSN, PGC, or DNP. Details regarding the Direct Admission process are listed below.

Requirements to Enter the PGC

Students must have had the content listed in the following courses in their prior MSN program successfully completed at an ACEN or CCNE accredited nursing program within a regionally accredited institution of higher learning. Prior transcripts will be reviewed. If the student has not completed any of the specified graduate content from the list below, the course(s) will be added to the required program of study for that student. Course descriptions and syllabi may be requested to assist in this evaluation. Course content must cover the lifespan. These courses do not count against the transfer credit limit.

- PC705 Advanced Pathophysiology (3-0)
- PC706 Advanced Physical Assessment, Clinical Reasoning, and Documentation (3-0)
- PC707 Advanced Pharmacology (3-0)
Students are responsible for understanding state specific educational requirements for licensure.

Applicants admitted into the Post-Graduate Certificate program can transfer credits according to the Course Transfer Policy and Procedure. The coursework approved as required courses (listed above) does not count toward the maximum allowable transfer credit.

Applicants with questions regarding their qualifications for admission should contact an FNU Admissions Officer at: admissionscounselor@frontier.edu.

Each applicant is evaluated individually. The FNU Faculty Admissions Committee makes all admission decisions.

Download the Application Packet now!

Standard Admission to the PGC Program
Applicants are expected to meet the following criteria for admission to Frontier Nursing University (FNU):

- Meet all prerequisite health requirements. Contact the Admissions Counselor with any questions about meeting this requirement.
- Have a master’s or higher degree in nursing from a CCNE or ACEN accredited program whose accreditation was current at the time of graduation from a regionally accredited institution of higher learning and with a concentration in one of the areas listed below. Current certification and/or state APRN licensure is not required.
  - Acute Care Nurse Practitioner (ACNP)
  - Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP)
  - Adult-Gerontology Acute Care Nurse Practitioner (AGACNP)
  - Adult Nurse Practitioner (ANP)
  - Adult Psychiatric-Mental Health Nurse Practitioner (PMHNP)
  - Certified Nurse-Midwife (CNM)
  - Emergency Room Nurse Practitioner (ENP)
  - Family Nurse Practitioner (FNP)
  - Gerontological Nurse Practitioner (GNP)
  - Neonatal Nurse Practitioner (NNP)
  - Pediatric Nurse Practitioner - Acute Care (PNP-AC)
  - Pediatric Nurse Practitioner - Primary Care (PNP-PC)
  - Psychiatric-Mental Health Nurse Practitioner (Across the Lifespan) (PMHNP)
  - Women’s Health Care Nurse Practitioner (WHCNP)
- Have a cumulative grade point average (GPA) of ≥3.0 from the most recent degree earned (nursing or a related field).
- Hold a current, active registered nurse license in the United States with no encumbrances. If assignment to a clinical practice site requires that the student practice in another state, then the student is required to meet licensing requirements according to statutes and obtain the appropriate license.
  - Due to regulatory restrictions by the New York State Education Department, FNU PGC students can not complete clinicals in New York state.
- Submit three healthcare professional references who are able to speak to your ability /potential to serve as an advanced practice nurse (NP or CNM) including at least two from nursing supervisors or CNM/NP/MD/DO colleagues and no more than one from a health professional peer (not a subordinate) on FNU-supplied forms.
- Frontier Nursing University seeks to admit applicants who have the necessary oral and written English language skills for successful graduate level work. Frontier Nursing University offers academic support programs for all students; however there is no university operated support program specifically for students needing assistance with the English language. Applicants whose primary language is not English and/or who have completed their tertiary education (level equivalent to U.S. college or university) in a non-English speaking institution, must take the internet-based TOEFL (iBT) and achieve the following minimum scores: Reading 22, Listening 22 Speaking 26 and Writing 24. To be considered official, test scores must be sent directly from the testing agency to the university. Frontier Nursing University's TOEFL code is 5692. Please provide this code to TOEFL when taking the exam to ensure test results are expedited to the University.
- “Primary language” is defined as an individual’s first acquired language and/or the language of educational instruction. The TOEFL requirement may be waived for students whose primary language is not English who present an official transcript of satisfactory academic work completed in English at an accredited American college or university, or a college or university in another country where English is the primary language.
- Additionally, for applicants whose primary language is not English, one of the three required professional letters of recommendation for admission must attest to the applicant’s ability to adequately function in English in a professional clinical setting.
  - Applicants residing outside the continental United States should review the policy related to international clinical sites.
  - Graduates of other types of nursing master’s programs may apply for transfer credit but are not eligible for the Post-Graduate Certificate option.

Admission Criteria for the MSN Completion for CNEP Graduates
- CNEP graduate
- Certification by the American Midwifery Certification Board, the ACNM Certification Council, or the ACNM

Enrollment Procedure for the MSN Completion for CNEP Graduates
1. Applicants complete the online MSN Completion Application Form.
2. FNU transcript is reviewed for individualized program of study.
3. Once the program of study has been finalized, a letter of acceptance and an invoice will be sent.
4. Upon receiving the letter of acceptance and invoice, the applicant will make an appointment with the Student Advisor to complete the MSN Completion Program of Study and will begin the Banyan Tree 101 (BT101) course.

Admission Criteria for the Women’s Health Care Nurse Practitioner Post-Graduate Certificate for CNEP Graduates
- FNU CNEP MSN or CNEP PGC graduate
- Be a currently active licensed registered nurse.

Enrollment Procedure for the Women’s Health Care Nurse Practitioner Post-Graduate Certificate (PGC) for CNEP Graduates
The CNEP graduate completes the Application for Women’s Health Certificate for CNEP Graduates. Once the application for enrollment has been submitted, the applicant will receive details from Admissions outlining the necessary steps for enrollment. Clinical Credentialing will also be notified. The Banyan Tree 101 (BT101) course must be retaken if there has been a new version of Banyan Tree since the student was last enrolled.

Admission Criteria for Non-Matriculating Students
- Health care professional
- Bachelor’s degree

Enrollment Procedure for Non-Matriculating Students
1. Applicants complete the Application for Non-Matriculating Students and send this signed form with tuition and applicable fees (application fee, Banyan Tree 101 (BT101) fee, and technology fee) to the FNU Registrar.
2. Upon receipt of the application, tuition, and fees, the Registrar sends a letter of acceptance that is copied to the Information Technology staff (IT staff). The student may begin the Banyan Tree 101 (BT101) course at this time.
3. Upon completion of the Banyan Tree 101 (BT101) course, the student registers for the course.
4. Courses must be started at the beginning of a term.
Admissions Cycle
The Admissions Committee considers applicants in an ongoing process after each applicant’s file is complete. Classes begin several times each year. A current Admissions Calendar can be found at http://www.frontier.edu/admissions/admissions-calendar.

Transcript Evaluation/Verification Process for International Students
Transcript Evaluation/Verification Process for all international students*

1. A detailed, course-by-course foreign transcript evaluation is required even if the foreign coursework has been accepted by a college or university in the United States (U.S.). In all instances, original, official documentation is required—we do not accept scanned, email, or facsimile copies.
2. The transcript evaluation company should be a member of the National Association of Credential Evaluation Services (NACES).

See a list of NACES members of NACE here: www.naces.org

*Frontier Nursing University recommends using World Education Services (WES) (http://www.wes.org/).

3. The evaluation should include the following information:
   - date the report was completed;
   - name, date of birth and gender;
   - a summary of evaluation;
   - country of education,
   - name of institution,
   - type of program,
   - dates of attendance,
   - title of credential,
   - date the credential was awarded,
   - the U.S. equivalency of the credential, comments, if any,
   - a list of all the courses completed as part of the postsecondary programs described in the evaluation report.
   - the list of courses should identify the title, the equivalent U.S. grade, the equivalent U.S. semester credits and the equivalent U.S. level of education for each course, and grade point average (GPA).

Clinical Site Selection
FNU students have a long tradition of identifying their own clinical sites usually in their communities. This process has worked well since 1989.

MSN and PGC applicants who already have a commitment from a preceptor will provide this information on their enrollment application. During the Frontier Bound orientation, the Clinical Outreach and Placement unit will provide information to students to support their clinical placement process. The information will include access to the Community Map, a database of preceptors and sites Frontier students have used in the past. Once students are enrolled they will attend information sessions to review the process of credentialing preceptors and clinical sites which is the responsibility of the Clinical Credentialing office but important for students to understand. We highly recommend finding appropriate preceptors early in the program. The process of credentialing sites can take several months and some states require advance notice and approval for students to complete clinical in their states. Once you receive a commitment from a preceptor, you will complete a Clinical Site Approval From (CSAF) (located in the Community Map). Upon acceptance by the student's clinical faculty, the Clinical Credentialing Office will begin credentialing the preceptor/s and site. MSN and PGC students may not complete clinical rotations in sites owned or administered by a family member, member of the household, at sites where they have a stake in ownership, or have a family member serve as a preceptor.
DNP applicants are strongly encouraged to identify potential clinical project sites and mentors as early in the program as possible since the clinical project initiatives are to be site driven. DNP clinical faculty are closely involved in assisting in the identification of appropriate sites and mentors. Once a commitment is received from a site and mentor, a Clinical Site Approval Form (CSAF) is submitted (located in the DNP Prep 101 Canvas course). Upon acceptance by the Clinical Credentialing Office, the staff will begin credentialing the site. The process of credentialing sites may take several months to complete. DNP students may not complete clinical projects in sites owned or administered by a first-degree family member, e.g. spouse, parent, or child. For further clarification regarding these requirements please contact the DNP Program Director.

Course Transfers and Challenges
FNU students may transfer up to 12 eligible credits into their program of study if the credits were earned at a regionally accredited institution of higher learning and nursing courses earned in an ACEN or CCNE accredited program that was accredited at the time the courses were completed. Challenge mechanisms are available for many academic courses.

For further information please review the FNU Course Transfer Policy and Procedure, Challenge Policy for Academic Courses.

Computer Skills Proficiency
FNU students are expected to be able to use a computer independently. Students are not expected to be computer experts, but there is a minimum level of computer skill that is necessary to successfully complete education at FNU. Below is a brief overview of expected computing skills.

Basic Computer Skills
- Re-size windows, have multiple windows open and move between them
- Navigate through the computer’s file/folder system
- Use the Search or Find File function to find files
- Identify name and version of computer software
- Install new software on the computer
- Use the Help menus
- Distinguish file types (e.g., Identify whether a file is a JPG or GIF)
- Create and name a new folder in Windows

Internet Skills
- “Surf the web” and identify the address (URL) of the web page being viewed
- Utilize Internet Tools (e.g., clear history or change security settings)
- Send/receive email and attachments

Software and Word Processor Skills
- Create and edit a document using Microsoft Word
- Create and edit a spreadsheet using Microsoft Excel
- Create and view a presentation in Microsoft PowerPoint
- Open and print a document in Adobe Acrobat Reader
- Copy, cut and paste sections of text
- Format text/character size (10pt, 12 pt), font (Times, Arial)
- Use bullets, lists and table functions
- Adjust margins and tabs
- Create headers and footers, paginate and create page breaks
- Zip and unzip documents

Less than Proficient Skills
If students are not proficient in a skill area, FNU requests that they take additional training. Simply put, FNU does not want the computer to be a barrier to a student’s education. There are mechanisms available to enhance
students’ learning experience and avoid wasting their precious time struggling with the computer. Click here for Computer Learning Resources suggestions.

Technology Requirements
As a distance learning program, FNU relies on technology, which is why it is so important for students to have the right equipment to ensure their success. FNU requires that all students own a laptop, a mobile device, and have a reliable Broadband internet connection. Although it is suggested that students obtain the highest quality products available to them, the following are the minimum technology requirements for the program:

Laptop Hardware Requirements:

<table>
<thead>
<tr>
<th>Component</th>
<th>The “minimum” requirement is for a student who may already own a laptop.</th>
<th>The “preferred” specification is for the student who is purchasing a new laptop.</th>
</tr>
</thead>

- OS X El Capitan (10.11)
- Chrome OS 42+ running Intel or ARM processor with 2 GB RAM

**Web Browsers that can be utilized:**
- Microsoft Internet Explorer 10 or higher
- Mozilla Firefox
- Google Chrome
- Apple Safari

**Other Software:**
- Microsoft Office 2013 or higher including Excel, Word, PowerPoint, Microsoft Office 2011 for Mac or higher including Excel, Word, PowerPoint
  - Please visit the [Microsoft Store](http://www.adobe.com/go/EN_US-H-GET-READER) for educational discounted prices.
- Adobe Acrobat Reader
- Adobe Flash Player
- Windows Media Player 11 or higher
- Apple QuickTime Player for Windows
- Apple iTunes for Windows
- Please be sure to protect your investment with Antivirus Software!
  - Free Virus and Malware protection options are available:
    - Sophos Antivirus
    - Avira Antivirus
    - MalwareBytes

**Internet Connection Requirements:**
Broadband Internet connection (DSL or cable modem); speeds of 10Mb download/3Mb upload minimum (the faster, the better). Please check with your Account Settings or the bill from your Internet Service Provider to verify you meet this requirement.

**Chromebooks:**
The use of Google Chromebooks can be used for most FNU online activities but certain limitations are evident when a course requires submissions in Microsoft Office. If you decide to use a Chromebook for your coursework, please ensure that you have access to Microsoft Office from another machine for specific course assignment requirements.

**Password:**
The use of a strong password is required at FNU. All new users are issued a strong password during the new account creation process. If you decide to change your password, all passwords are required to be at least 8 characters long, containing at least 1 uppercase, 1 number, and use of at least 1 special character.

**Mobile Requirement:**
Courses at FNU are enhanced with media that can be downloaded to your mobile device. Additionally, both your coursework and clinical rotations will involve using mobile applications. Therefore it is required for students to own a mobile device so that they may take advantage of these offerings. Both Android (version 2.2 or higher) and Apple (iOS 7 or higher) devices are supported. Devices should have a minimum of 16GB of memory.
There are a variety of devices that will satisfy this requirement so you may be wondering which is best. Unfortunately, we can’t really answer that question since it’s a very personal choice, but here are some things to consider:

- Operating System
- Device and Screen Size
- Data plan/phone service

Keep in mind that technology changes very quickly and certain mobile applications provided by FNU may update their minimum device requirements. The technology requirements web page is updated as soon as possible when these requirements change. If your device is no longer supported, you may need to purchase a new device.

Please bring both your laptop and mobile device with you to Frontier Bound. Both will be used in various sessions. You will have a hands-on, small group session with the IT Staff where you can ask technology questions and troubleshoot any problems with the devices.

If you have any further questions or need assistance in determining the appropriate equipment, please contact our Support Desk. We look forward to helping your student experience memorable and rewarding.

What’s the difference?
All devices offer internet browsing and handheld computing with third-party applications (“apps.”). The iPhone, of course, also offers wireless phone service. With an iPhone, users can access the Internet over the cellular network, but must pay a monthly data fee along with the phone bill. With a standard tablet, users must be connected to a wireless network in order to access the Internet, but there is no monthly fee. The iPad has an option for either.

Which device is best?
Device selections are diverse and will depend on students’ individual needs and preferences.

Preparing for Bounds
It is required that students bring a laptop and mobile device to Frontier Bound, to be used in various sessions. Students will have a group session with the IT staff to assist with technology questions and troubleshoot any problems with the devices.

If you have any further questions or need assistance in determining the appropriate equipment please email support@frontier.edu or call Support at (859) 251-4545. We look forward to helping make your student experience memorable and rewarding.

Courses at FNU are enhanced with media that can be downloaded to your mobile device. Additionally, both your coursework and clinical rotations will involve using mobile applications. Therefore it is required for students to own a mobile device so that they may take advantage of these offerings. Both Android (version 2.2 or higher) and Apple (iOS 7 or higher) devices are supported. Devices should have a minimum of 16GB of memory.

There are a variety of devices that will satisfy this requirement so you may be wondering which is best. Unfortunately we can’t really answer that question since it’s a very personal choice, but here are some things to consider:

- Operating System
- Device and Screen Size
- Data plan / phone service

Keep in mind that technology changes very quickly and certain mobile applications provided by FNU may update their minimum device requirements. The technology requirements web page is updated as soon as possible when these requirements change. If your device is no longer supported, you may need to purchase a new device.
Please bring both your laptop and mobile device with you to Frontier Bound. Both will be used in various sessions. You will have a hands-on, small group session with the IT Staff where you can ask technology questions and troubleshoot any problems with the devices.

If you have any further questions or need assistance in determining the appropriate equipment please contact our Support Desk. We look forward to helping make your student experience memorable and rewarding.

Scanning Requirement:
Due to the nature of distance learning it is often necessary for students to submit signed documents, handwritten pages, or a digital copy of a paper certificate. In order to accommodate these needs the University recommends that each student either 1) become proficient in the use of a digital camera (the one in a current iPhone is acceptable) to appropriately digitize paper documents or 2) have ready access to a digital scanner for digitization. A scanner or printer with an integrated scanner may offer a better quality and be an easier to implement solution than trying to utilize a camera as a scanner. In either case, the resulting file must be completely legible, submitted as a low to medium resolution JPG file, and typically smaller than 1MB per page.

Banyan Tree 101 (BT101) Requirement Prior to Starting Any Courses
Upon Admission to a new academic program or readmission to a program from which the student previously withdrew, all students must take Banyan Tree 101 (BT101). The BT101 course is customized to address the orientation needs for each program type: non-matric, MSN, PGC, DNP. BT101 provides details on Frontier Bound Orientation, prepares students for the FNU online learning environment, disseminates tips and skills for academic success, and facilitates mandatory content for all FNU students.

Current MSN and PGC students who are transferring from one specialty track to another are not required to retake BT101.

Applicants Who Are Registered Nurses with a Bachelor’s Degree in another Field
Applicants who are registered nurses with a bachelor’s degree in another field will be required to submit a portfolio. In addition, their transcripts will be reviewed to determine if they have completed the required prior coursework. After review of the portfolio and the transcripts, the need for additional coursework in undergraduate nursing theories and research will be determined.

Instructions for Portfolio (Non-BSN Applicants Only)
Applicants with a baccalaureate degree earned at a regionally accredited institution of higher learning in a discipline other than nursing must submit a portfolio detailing their employment and academic experiences. Applicants are expected to provide the information and meet the requirements listed below. It is important to carefully respond in detail to all of the items. Admission depends on a clear description of the applicant’s achievements. Applicants who do not meet all performance requirements but whose credentials reveal potential ability for graduate study may be referred to a committee for recommendations pertaining to their acceptance. In some instances, applicants may be required to fulfill prerequisites designated by the committee.

When assembling your portfolio the following information should be included in a notebook or folder.

1. Curriculum Vitae including:
   - Formal education, degree(s) obtained and major, school attended, dates.
   - All nursing and other positions held
   - Any relevant CE programs/courses taken.
   - Any published professional articles (in journals, hospital/agency publications, school newspapers, etc.).
2. A formal paper, divided into the following six sections. This paper is an essential aspect of the admission process and will be carefully evaluated in order to make a decision on your direct entry into the MSN program. Follow the guidelines carefully, speaking to all items. The paper will be evaluated on content, clarity of presentation, grammar, punctuation, etc.

Section 1. Description of the theoretical basis of your practice
- This description may be eclectic drawing on knowledge from behavioral, biologic and other theories, including one of a nurse theorist.
- Give two examples of application in practice.

Section 2. Description of teaching and counseling aspects of your practice
- Give three principles of teaching and describe how these have been applied using three examples of patient, family, or group teaching activities.
- Give three principles of counseling and describe how they have been applied in your work with patients/clinics or staff, or groups. Give at least three examples.

Section 3. Description of collaborative activities, with all members of the health team
- Define collaboration.
- Describe how collaboration is applied in your practice using three examples.

Section 4. Description of leadership and change
- Define and describe leadership.
- Give three examples of how you have functioned as a leader in your position (you do not need to have had a “formal” leadership position, a staff nurse can be a leader).
- Describe inhibitors and facilitators of change. Describe how you have participated in change giving two examples.

Section 5. Description of research knowledge/activities
- Describe content related to research that you have had in your nursing program and in your other collegiate programs. This can include courses in research or content related to reading and evaluating research that was incorporated into the courses such as sociology, biology, etc. Identify courses and content specifically.
- Describe how you incorporate research findings into your practice. Give one example.
- Describe any clinical research activities in which you have participated or which you have facilitated.

Section 6. Personal philosophy of nursing
- Describe your personal philosophy of nursing.
- Include an analysis of how nursing and general education in the baccalaureate or higher degree program has influenced this philosophy.
**Academic and General School Policies**

**Academic Evaluation Methods**
A variety of evaluation measures are used in the didactic courses, including graded assignments, examinations, and class participation. The evaluation measures for the Clinical Bound courses will also include demonstration of skills. Daily and monthly developmental assessment tools (DDATs and MDATs) will be used during the Clinical Practicum. Clinical progress will be evaluated through a collaborative effort among the student, preceptor, and Regional Clinical Faculty. A grade of A or B (equivalent of at least 80%) must be achieved in all courses.

**Academic Freedom Policy**
Frontier Nursing University is a private, non-profit, non-residential community-based, distance education graduate school offering a Master of Science in Nursing Degree, a Doctor of Nursing Practice degree and post-graduate certificates in advanced practice specialties. The mission is to provide a high quality education that prepares nurses to become competent, entrepreneurial, ethical and compassionate nurse-midwives and nurse practitioners who will provide primary care to women and families residing in all areas with a focus on rural and medically underserved populations. This mission is optimally accomplished in an atmosphere of free inquiry and discussion, referred to as academic freedom. FNU honors the following statements related to academic freedom.

There are three aspects of academic freedom and three aspects of academic responsibility. As a learned person each faculty member recognizes that people will judge the profession and FNU by what is stated in a teaching situation and in public.

As scholars, faculty members are entitled to full freedom to study, discuss, investigate, conduct research and publish in their areas and as appropriate to their respective roles and responsibilities. They are responsible for developing and improving their scholarly competence, practicing intellectual honesty, and seeking and stating the truth as they see it. Respect for the scholarly endeavors of other faculty and students, including their right to express their opinions, is necessary for all to have academic freedom.

As teachers, faculty members are entitled to freedom in discussing their subject but care should be taken in teaching controversial matter that has no relation to the subject. Faculty should present in their courses that which is described in the catalog and is approved by the faculty in their collective responsibility for the curriculum.

As a member of a profession, they are responsible for teaching the content that the profession deems necessary for the development of new professionals. As citizens, faculty members have the right to express their opinions without institutional censorship or discipline. Faculty members should remember that as learned members of their community, the community may judge their profession and their institution by their opinions. They should make sure their statements are accurate and that they speak as private citizens and not for Frontier Nursing University.

**Academic Hiatus Policy**
FNU encourages continuous enrollment and progression towards program completion. However, FNU recognizes some circumstances may force students to interrupt their studies temporarily. Students may petition the university to take a one term academic hiatus (AH): but are limited to a total of two terms AH every 365 days. Students wishing to take an AH in back-to-back terms must submit the petition request prior to each individual term. A single petition request form cannot be approved for both terms. Students should explore all possible options, such as taking a lower credit load, prior to deciding on an AH.

Planned leaves that are requested before the start of the term are considered non-emergency hiatus. Leaves requested after the beginning of the term may be granted for documented emergency situations which preclude the ability to effectively attend school (see **Emergency Academic Hiatus**).
**Academic Hiatus (Non-emergency)**

It is strongly recommended that a planned Academic Hiatus be requested *before* the beginning of the term for which the AH is being requested. The deadline to request an Academic Hiatus (Non-Emergency) is the last day of the add/drop period for the affected term. Students should reference the **Tuition & Fees** section of the catalog before requesting an Academic Hiatus on or after the first day of the term.

**Requesting an Academic Hiatus (Non-emergency)**

1. The student must first discuss their request for an AH with their Academic Advisor. In certain situations, the student may also be advised to speak with the Department Chair or Program Director prior to deciding on an AH.
   a. Students wishing to take an AH in back-to-back terms (i.e. two AH in a row) must consult with the Department Chair or Program Director prior to deciding on an AH.
2. The student must also discuss their request for an AH with their assigned Financial Aid Counselor to discuss the effects an AH will have on their financial aid.
   a. The student will be withdrawn from the Financial Aid Program during the Academic Hiatus time period. The grace period for student loan repayment begins upon the last date of academic engagement (i.e. the last date of the term prior to the AH). All students must discuss with the Financial Aid Office the implications of the AH on their loan repayment schedule. The student will complete the Status Change process per instructions in Self-Service.
3. The student will complete the Status Change process per instructions in Self-Service.
4. If a student does not enroll for a term and does not fill out a petition for an AH via the Status Change process in Self-Service prior to the last day of the add/drop period, the student will be officially withdrawn from FNU and must reapply and be readmitted to FNU.
5. If the AH is approved, the student, Department Chair, Program Director, Clinical Director, RCF, Registrar, Academic Advisor, Financial aid, and Bursar will be notified via the Status Change process.

**Emergency Academic Hiatus (EAH)**

FNU recognizes that in rare cases, students encounter emergencies that require an academic hiatus after a term begins. Leaves that start after the beginning of the term may be granted for emergencies of a serious or compelling nature such as an accident, traumatic event, sudden illness, death in the student’s immediate family, pregnancy complications, or the early birth of a child which would preclude the ability to effectively attend school. Other unusual or very special cases will be considered on their merit by the Student Policy Team of the Administrative Team at the request of the student’s Department Chair or Program Director. All “serious and compelling” situations require the appropriate documentation. Documentation may include verification of accident or illness (such as a letter from the treating provider or copies of medical bills), a letter from a licensed counselor, death certificate, or other appropriate documentation.

Students approved for an Emergency Academic Hiatus after the beginning of a term and on/before the last day of a term will be withdrawn from all courses for the term. Students interested in requesting an EAH but who qualify for an I or IP grade (see **Incomplete Grading Policy**) should consult with the Department Chair or Program Director to determine if the best option is an EAH or petitioning for the I or IP grade. An Emergency Academic Hiatus counts as one of the two allowable academic hiatus’ in a 365 day period. Students who do not have a reasonable expectation to return to their studies within this timeframe will be counseled to withdraw from the institution (see **Withdraw from FNU**).

**Requesting an Emergency Academic Hiatus**

1. The student must first discuss their request for an EAH with the Department Chair or Program Director.
   a. It is recommended that the student ensure all contact information is current in Self Service in the event that FNU must contact the student during the request process or during the EAH.
2. The student must also contact the Financial Aid Director to discuss the effects an EAH will have on their financial aid. The student should also contact the Bursar to learn how/if the EAH will impact their tuition and billing.
3. The student must send a letter, along with the appropriate documentation of the “serious and compelling” situation, to the Department Chair or Program Director explaining the EAH request. The letter should include a statement that he/she has met with Financial Aid and the Bursar and understands the financial implications of the EAH.

4. The Department Chair or Program Director will take the request to the FNU00202 Student Policy Team of the Administrative Team for review and decision.

5. The Department Chair or Program Director will notify the student of the decision immediately after review.

6. The student must complete the Status Change process per instructions in Self-Service immediately. If the AH is approved, the student, Department Chair, Program Director, Clinical Director, RCF, Registrar, Academic Advisor, Financial aid, and Bursar will be notified via the Status Change process.

If an emergency AH was granted for sudden illness or pregnancy (childbirth or complications from) the student must submit medical clearance documentation to the Department Chair or Program Director from a licensed healthcare provider. The release shall identify the date the student may return to school (didactic or clinical) along with any restrictions.

While on Academic Hiatus (non-Emergency) and Emergency Academic Hiatus

Students on AH are expected to check their FNU email account at least once per week for important university communications. Students continue to have access to the Banyan Tree Portal, FNU email, and the support of all of the FNU community while on AH.

While on AH, students may not do any coursework, submit any assignments or take any examinations. Students are strongly encouraged to not begin an AH with an incomplete grade in any of their courses. In the event this is unavoidable, the student must meet with the Course Coordinator upon return from the AH to discuss the course in which they have an incomplete grade. If the course has been significantly revised, the Course Coordinator may require the student to start the course over with the new course content, readings, assignments, and exams. It is the student’s responsibility to notify her/his Regional Clinical Faculty and preceptor of the AH.

Financial Aid Responsibilities Related to an Academic Hiatus (non-Emergency) and Emergency Academic Hiatus

If a student holds or has held a federal Stafford or Grad PLUS loan they will be withdrawn from the student loan program and will not be eligible for loan disbursements during their AH. A federal withdrawal calculation will be completed and may result in FNU and the student refunding unearned funds to the Direct Loan Program. Please see the Tuition Policies Related to Academic Hiatus in the Tuition and Fees section of this Catalog for complete details about how tuition and financial aid are affected by an AH. Students who have been withdrawn from the Federal Financial Aid Program will enter their grace period. In the event a student enters loan repayment during AH and isn’t financially prepared to make payments they must contact their lender to discuss their options. To view a Financial Aid Question/Answer section on AH and how it affects a student’s financial aid visit the Financial Aid FAQ.

Return from an AH

- Students are strongly encouraged to submit the Status Change form to return from AH no less than six weeks prior to the start of the term they wish to return. This will allow students to register for coursework on time. All requests to return from AH must be received no later than the last day of the add/drop period the term the student wishes to return. Students returning from AH will not be eligible to enroll in courses until the return from AH Status Change form has been processed.
  - DNP students who need to take PC740: DNP Clinical Planning course immediately following an AH MUST submit the Return from AH Status Change form at least six weeks prior to the start of the term they wish to return. DNP students who do not submit the Return from AH within this timeframe will not be eligible to register for PC740 during the term immediately following the AH. If there are no other required courses on the POS, DNP students in this situation will be required to take an additional AH (if eligible) or withdraw from FNU.
  - MSN & PGC students who will be returning from AH and entering immediately into Clinical Bound or clinical courses must have submitted at least one clinical site, all compliance documents, and the Return from AH Status Change form at least two weeks prior to start of the term they wish to return. MSN & PGC students who do not submit each of these items within this timeframe will not
be eligible to register during the term immediately following the AH. If there are no other required
courses on the POS, MSN & PGC students in this situation will be required to take an additional
AH (if eligible) or withdraw from FNU.

- If an emergency AH was granted for sudden illness or pregnancy (childbirth or complications from) the
  student must submit medical clearance documentation to the Department Chair or Program Director from
  a licensed healthcare provider. The release shall identify the date the student may return to school
  (didactic or clinical) along with any restrictions.
- The student must consult with his/her Academic Advisor to review and approve the revised Program of
  Study.
- If a student does not enroll for a term and does not fill out a petition for an AH via the Status Change
  process in Self-Service prior to the last day of the add/drop period, the student will be officially withdrawn
  from FNU and must reapply and be readmitted to FNU.

Academic Standards Committee
- The President or Dean of Nursing may convene an Academic Standards Committee (ASC) upon an
  appeal of a dismissal or a grade appeal that is not mediated at the Department Chair or Program Director
  level. The ASC will consist of a three-person committee of faculty members who were not directly
  involved in the assignment of the grade or the original decision to dismiss. The ASC will include at least
  one faculty member with senior academic faculty experience (defined at the President's or Dean's discretion).
- The student will be granted the opportunity to address the ASC by telephone conference call and/or by
  written statement.
- In the case of appeals or course grades, the ASC shall examine all data pertaining to the appeal and
  make written recommendations to the President of FNU. All attempts at resolution of the issue are to be
  documented in minutes.
- In the case of appeals of dismissal, the purpose of the ASC review is to assure that there was no bias, no
  error of application of policy, and that the student received due process. The purpose of the ASC is not to
  review the dismissal decision, but to review the procedures and processes that were used to arrive at the
  decision.
- The Department Chair or Program Director who handled the Appeal of Course Grade or a Student Policy
  Team of the Administrative Team member involved in the decision to dismiss will be available to the ASC
  during the conference call for questions and/or clarification.
- The ASC members will review all documentation pertaining to the grade assignment or dismissal. These
  documents will also be made available to the student.
- The appeal process shall be completed within 45 days after receipt of the student's letter to the President
  requesting an appeal of dismissal or 45 days after the President or Dean is notified of an appeal of a
  course grade.
- The recommendation of the ASC shall be communicated to the President or Dean who will then inform
  the student via both email and by certified letter of his/her decision.

Accommodations for Military Service
Students who have military service responsibilities (active duty or reserves) shall notify the appropriate
Department Chair or Program Director upon admission. In the event there is a change in duty status (for example
a reservist being called up for active duty) that interrupts coursework the student will communicate with the
Course Coordinator and the appropriate Department Chair or Program Director to formulate an action plan.
Documentation of change in military status and projected timeframe may be requested. Consideration for active
duty and completion of clinical hours will be evaluated on a case-by-case basis. FNU supports military service
and will make every effort and reasonable allowance to allow students to complete their program successfully.

Americans with Disabilities Act (ADA) and Section 504 Policy
It is the policy of FNU that no otherwise qualified individual with a disability shall, solely by reason of his/her
disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any
program or activity receiving Federal financial assistance. FNU does not discriminate in admission to, access to,
or participation in its programs or activities. FNU’s policies and practices will not discriminate against students with disabilities, and will make accessible to qualified individuals with disabilities its facilities, programs and activities.

A. As used in this policy and the implementing administrative guidelines, “an individual with a disability” means a person who has, had a record of, or is regarded as having a physical or mental impairment that substantially limits one or more major life activities.

B. An impairment that is episodic in nature or in remission may be considered a disability if it would substantially limit a major life activity when active.

C. The determination of whether an impairment substantially interferes with a major life activity must be made without regard to the ameliorative effects of mitigating measures such as medication, medical supplies, equipment or appliances, low vision devices (not including ordinary eyeglasses or contact lenses), prosthetics (including limbs and devices), hearing aids and cochlear implants or other implantable hearing devices, mobility devices, oxygen therapy equipment or supplies, assistive technology, reasonable accommodations or auxiliary aids or services or learned behavior or adaptive neurological modifications.

Identification of Disability and Request for Accommodation
A student has no obligation to inform FNU that he/she has a disability; however, if a student requests that an accommodation be provided, the student must identify himself or herself as having a disability. The disclosure of a disability is voluntary.

Every student who is identifying a disability and seeking a reasonable accommodation must provide documentation that he/she has a disability i.e. that is an impairment that substantially limits a major life activity, and supports the need for a reasonable accommodation. The documentation must identify how a student’s ability to function is limited as a result of his/her disability. The primary purpose of the documentation is to establish a disability in order to help FNU work interactively with the student to identify appropriate services and/or accommodations. The focus is on whether the information adequately documents the existence of a current disability and need for reasonable accommodation. Documentation may also be requested to determine if a device or practice used by the student reduces or eliminates the effects of the student’s impairment.

The student may be asked to provide documentation from an appropriate healthcare provider or qualified specialist including specific information which documents and supports the existence or diagnosis of the impairment, as well as specific information about the accommodations which may be needed. The documentation must indicate that the impairment substantially limits a major life activity. Students submitting documentation that is more than five (5) years old or is deemed insufficient in meeting the necessary requirements listed above will be asked to submit a current or more specific FNU documentation form.

The documentation regarding the impairment and the accommodation that is being requested must be provided in writing to the ADA/504 Coordinator. A form, Documentation of Disability, is available for use in this regard.

Procedures
Upon receipt of a request for a reasonable accommodation and the necessary documentation FNU will engage in an interactive process with the student to determine the existence of a disability and if necessary the reasonable accommodation which will allow the student to participate in FNU’s programs. FNU is not required to provide accommodations that will alter or waive essential academic requirements or that will fundamentally alter the nature of a service, program or activity. Upon conclusion of the interactive process, the determination of whether there is a disability which affects a major life activity and/or the reasonable accommodation shall be documented.

FNU is unable to make accommodations for facilities not owned or operated by the university. There are also aspects to the role of advanced practice nursing in the clinical setting that may be ineligible for modification. For example, in the clinical setting it is not reasonable for students to be approved for guaranteed extended time to see clients. Students are encouraged to consider their need for accommodation and initiate conversations as necessary and appropriate when communicating with potential clinical sites, preceptor, and organizations administering certification exams.
Confidentiality
All records pertaining to a student or employee's disability including the request for accommodation and documentation of a disability, evaluation and diagnosis shall be kept confidential. The information will be shared only with those faculty members and others who are required to have access to this information. Any accommodations that are required for examinations will be shared with external testing servicing provider used by FNU.

ADA/504 Coordinator
FNU's ADA/504 Coordinator is:

Antiracism Policy

SUBJECT: Americans have been living in a racist atmosphere for over 400 years. Although progress has been made to improve the lives of people of color, systemic and structural racism still exists. People of color are subjected to social injustices daily. White privilege and white supremacy continue to plague the advancement of people of color. Dismantling racism is essential to achieving equitable nursing education, practices, policies, and research and distributive justice in the healthcare delivery system and improving healthcare services and outcomes for people of color.

PURPOSE: The purpose of this policy is to promulgate Frontier Nursing University's (FNU) strong stance against racism. FNU establishes this policy in an effort to eliminate intolerance, inequities and academic disparities throughout the University. As a University, we are intentional in our efforts to replace the factors that may lead to inequities, including racism, discrimination, and prejudice, with attitudes and behaviors that reflect acceptance, belonging, compassion, integrity, understanding, fairness, cooperation, and respect. Working towards equity at FNU includes the following goals:

Create an environment that promotes diversity, equity and inclusion, and promotes the success of all community members.

- Objective 1: Increase the percentage of students, faculty, staff, preceptors, Board of Directors, and administrators from racially and other underrepresented groups and rural communities.
- Objective 2: Integrate Diversity, Equity, and Inclusion as core values throughout the community.
- Objective 3: Ensure a diverse and inclusive curriculum with a focus on health equity and the factors that impact it.
- Objective 4: Implement strategies to retain at least 85% of enrolled students.
- Objective 5: Increase faculty and staff satisfaction and retention with a focus on underrepresented groups.

POLICY: Any form of racism will not be tolerated at FNU, on any FNU related platforms (e.g., courses, social media, email, online meeting platforms, etc.) or committed by any FNU employees, students or affiliates. See the Communications Policy in this Catalog.

GLOSSARY:
Antiracism- Antiracism is the active process of identifying and eliminating racism by changing systems, organizational structures, policies and practices and attitudes, so that power is redistributed and shared equitably.

Racism
1. occurs when an expression of Racial Prejudice emerges from a more powerful/privileged location in the hierarchy, and is directed at an individual/group in a less powerful/privileged location;
2. occurs where the target of the prejudice has less power than the perpetrator;
3. is top-down;
4. is an exercise of power;
5. refers not only to social attitudes towards non-dominant ethnic and racial groups but also to social structures and actions which oppress, exclude, limit and discriminate against such individuals and groups. Such social attitudes originate in and rationalize discriminatory treatment;
6. can be seen in discriminatory laws, residential segregation, poor health care, inferior education, unequal economic opportunity and the exclusion and distortion of the perspectives of non-dominant cultures in institutions (Thomas, 1987);
7. refers to “a system in which one group of people exercises power over another on the basis of skin color; an implicit or explicit set of beliefs, erroneous assumptions, and actions based on an ideology of the inherent superiority of one racial group over another, and evident in organizational or institutional structures and programs as well as in individual thought or behaviour patterns” (Henry & Tator, 2006, p. 352).

**Forms of Racism**- include but are not limited to offensive jokes, slurs, epithets or name-calling, physical assaults or threats, microaggressions, intimidation, ridicule or mockery, insults or put-downs, offensive objects or pictures, and interference with work or academic performance.

**Microaggressions**- Microaggression is referred to as brief and commonplace daily verbal, behavioral, and/or environmental indignities, whether intentional or unintentional, that communicate hostile, derogatory, or negative racial slights and insults toward people of color.

**Racial Harassment**- Racial harassment involves targeting an individual because of his/her race or ethnicity. The harassment may include words, deeds, and actions that are specifically designed to make the target feel degraded due to their race and ethnicity.

**Racial harassment is wrong because:**
- It identifies a person’s racial or ethnic background as a negative rather than a positive characteristic
- It makes the victim feel powerless
- It insults and degrades
- It creates a climate that often leads to mistrust among students, faculty, and staff
- It is inhumane
- It affects the health of the person targeted

Racial or ethnic jokes have a history. They originated in times when a race or group of people were socially under attack and lacked the power to respond effectively. These jokes, whether intended or not, are reminders of that history and in some instances the present. Racial or ethnic jokes can:
- Endanger a worker’s job performance and student’s academic performance through stress
- Create an environment where more serious forms of discrimination and abuse can take place

**PROCEDURE:** Any employee who violates this policy will be subjected to disciplinary action up to and including termination of employment. Any student who violates this policy will be subjected to disciplinary action up to and including dismissal from the University. This policy applies to all faculty, staff, students, people seeking to work or study at FNU, volunteers, service providers, contractors, customers/clients, and visitors.

If you have experienced or are experiencing any form of racism, please submit your complaint here ([Bias Reporting Form](http://www.aclrc.com/racism-and-power)).

See the Student Bias Reporting Policy in this Catalog for guidelines and disciplinary actions for reported acts of racism.

**Please note:** Racial harassment is only one form of harassment. Racial harassment may subject the offender to other forms of discipline as it relates to harassment.

[Policy Format](http://www.aclrc.com/racism-and-power)
Student Bias Reporting Policy

SUBJECT: Frontier Nursing University (FNU) embraces an atmosphere built on the culture of caring. FNU respects the equitable perspectives of students regardless of race/ethnicity, color, gender, age, sexual orientation, religion, disability, military service, socioeconomic status, and/or national origin. The mission of FNU is to provide accessible nurse-midwifery and nurse practitioner education to prepare competent, entrepreneurial, ethical, and compassionate leaders in primary care to serve all individuals with an emphasis on women and families in diverse, rural, and underserved populations. To accomplish this mission, FNU must visibly support suspected bias reporting that affords all students with the opportunity to learn in a safe environment.

PURPOSE: The purpose of this policy is to create a safe place for students to report suspected bias and to mitigate the potential for harm due to incidents of bias. Reports may be anonymous, if desired. All reports of suspected bias will prompt an investigation and follow up. Reports of bias should be submitted to Human Resources. Any student who has been found to negligently exhibit bias will be subjected to disciplinary action. There will be no retaliation against students who report incidents of suspected bias. This policy is intended to create a University climate that ensures acts of bias will not be tolerated.

All bias incidents will be tracked and kept confidential by all involved parties (e.g., The Chief Diversity and Inclusion Officer (CDIO), the Dean; the President; Anti Racism and Bias Advisory Council (ABAC); Department Chair; Course Coordinator; Human Resources (HR), etc.). However, de-identified data describing the incidence of bias and outcomes of investigations may be collected and reported annually for University strategic planning and potential policy revisions.

GLOSSARY:

The AntiRacism and Bias Advisory Council:

Purpose: The Anti Racism and Bias Advisory Council (ABAC) is a group of 5 individuals (employees) who will serve as an advisory board for the antiracism policy and the employee and student bias reporting policies. The advisory council will report to the Chief Diversity and Inclusion Officer (CDIO).

Members of the Advisory Council: Members of this group will be 4 faculty and staff volunteers (and 2 alternates) with evidence of DEI education, training, and/or experiences, and 1 executive sponsor. The members may serve on the council for a total of 1 year. The Executive Sponsor for this group will be the CDIO. The executive sponsor member of the ABAC will be responsible for senior management accountability for the University DEI goals. The Executive Sponsor will serve as coach, facilitator and tiebreaker. The Executive Sponsor will serve in this role for 1 year.

Explicit Bias: Explicit bias is the traditional conceptualization of bias. With explicit bias, individuals are aware of their prejudices and attitudes toward certain groups. Positive or negative preferences for a particular group are conscious.

Implicit Bias: Implicit biases involve associations outside conscious awareness that lead to a negative evaluation of a person on the basis of irrelevant characteristics such as race or gender.

Bias Incident: A situation in which an individual(s) feels they have directly experienced bias based on their identity, including race/ethnicity, color, gender, age, sexual orientation, religion, disability, military service, socioeconomic status, and/or national origin.

Examples of Bias:

- Overt racism and racist comments
- Unfair grading based on identity
- Microaggressions
- Bias including but not limited to:
  - Color
  - Gender
PROCEDURE:

1. Individuals who feel they have directly experienced bias should report suspected bias incidents on this form (Bias Reporting Form) which will go directly to Human Resources.
2. The process for investigation of a suspected bias incident will begin in Human Resources. The Human Resources Director, or their designee, will remove identifying information from the bias reporting form and submit it to the CDIO.
3. The CDIO would convene the ABAC.
   a. The CDIO, the Dean and/or the Department Chair will notify the individual that committed the suspected bias offense they have been involved in a reported bias incident.
4. The ABAC will assess the suspected bias incident report and determine if a bias incident has occurred and make recommendations.
   a. Individuals accused of a possible violation will have an opportunity to make a written and/or verbal statement to the ABAC during a conference call. The ABAC may also ask questions of the individual, but individuals are not required to answer those questions.
   b. The Individual who originally reported the incident will have an opportunity to make a verbal statement to the ABAC during a conference call. The ABAC may also ask questions of the individual, but individuals are not required to answer those questions.
   c. Documentation gathered by the CDIO regarding the alleged incident(s) will be submitted to the ABAC and the individual being reviewed.
   d. The ABAC may choose to speak with faculty, staff and/or students who have direct knowledge of the possible incident.
   e. The ABAC will submit to the CDIO written minutes of their meeting to include whether or not a bias incident occurred and their recommended actions.
5. The Dean, Department Chair, Program Director, and the CDIO will develop a plan and implement as appropriate.

One or more of the following actions may be recommended by the ABAC:

1. **Conversation:** The CDIO, Dean, Department Chair, and/or Program Director may have a conversation regarding the incident with the person(s) perceived as responsible for a bias related-incident, respecting wishes for anonymity or otherwise.
2. **Mediation:** The CDIO, Dean, Department Chair, and/or Program Director could arrange mediation between the individual reporting the incident and the person(s) involved in the incident.
3. **Referral:** Support and counseling for the affected individual and/or accused individual could be arranged.
4. **Education:** on bias
5. **Disciplinary Action:** Under certain circumstances and when institutional policy is violated, disciplinary action may be taken toward the person(s) who precipitated the incident. This could include a bias improvement plan suspension with or without pay or dismissal from the university.
6. **No Further Action:** This could be an outcome, for example, if the individual reporting the incident chooses not to further pursue it or if it cannot be determined that laws or institutional policies were violated.

★ Consultation with the CDIO is permissible.
★ Reports will become a part of the student file.

*Depending on the severity of the bias incident, the ABAC may recommend any of the above actions up to and including termination. Thus, an employee may be terminated from the University on the first offense, or a student may be dismissed on the first offense. Also, see the Antiracism Policy in this Catalog.*
Assignment of Credit Hours

Frontier Nursing University has sound policies and procedures that conform to federal and state regulations and commonly accepted practices for distance education in higher education for defining a credit hour and determining the amount of credit awarded for courses and programs.

The definition of a credit hour is relevant to the preparation of curricula at Frontier Nursing University. Goals of establishing credit hour equivalency include: (1) enabling students to meet program objectives and graduate in a timely manner by ensuring that student workload is sufficient, but not excessive, for the credit hours assigned and (2) allowing faculty to design and deliver courses requiring an appropriate amount of faculty and student time.

Although Frontier Nursing University operates on the basis of four terms per year, the decision was made to use semester credits, rather than quarter credits, as a basis for credit calculation. The reason for this is that semester credits are the most commonly used measure of student engagement across U.S. institutions of higher education. Earned semester credits are more easily interpreted than quarter credits if, for example, a Frontier Nursing University graduate applies to a doctoral or other program at another institution.

The number of semester credit hours is proportional to student workload of activities designed to learn and master knowledge, skills, and abilities to meet course and program objectives. Examples of learning and evaluation activities include, but are not limited to: attending synchronous, web-based, faculty-facilitated sessions; interacting with faculty and other students in online forums, completing readings, study guides, formal writing assignments, reflection assignments and other structured learning activities, watching instructional videos created by faculty or outside experts; taking ungraded and graded quizzes and examinations; completing clinical hours and clinical skill competencies, and other out-of-class work associated with a course. Student variables such as capability, motivation, and background will have a strong impact on the amount of time required by an individual student to complete assigned work. Therefore, the guidelines in this policy should be considered to be principles that are not to be interpreted as strict rules.

For didactic coursework, one credit hour should equate to approximately 60 hours of total work to complete the course. This is based on a traditional formula for semester credits of one hour of class time and three hours of study time for each credit every week for 15 weeks. Therefore, a three-hour course should take a student approximately 180 hours to complete. This guideline is not intended to require that student workload be measured; rather, it is a guideline that is applied when determining the number of credit hours to be assigned to a course.

For clinical coursework, one credit hour should equate to a minimum of 45 hours of clock time in clinical activities to complete the course. Therefore, the required 15 hours for the Clinical Practicum should require a minimum of 675 hours of clinical hours to complete. In the clinical area, students are expected to record total hours. They must meet the required minimum number of hours, the required minimum clinical experiences, and established clinical competencies to complete the clinical courses.

The following table outlines the approximate number of hours of study per week correlated to credits per term. The total hours for the number of credits are divided by 11 weeks.
The intent of this policy is to ensure that student workload for a given number of credit hours is appropriate for the credit hours assigned. However, it must be recognized that a uniform workload across all curricula for identical numbers of credit hours is not possible. By the nature of the curricula involved and the national expectations of advanced practice nursing education, and the skills and experience of the student, two courses with the same number of credit hours can be significantly easier or more difficult for a particular student. With these exceptions in mind, the definition of a credit hour carries with it significant flexibility while ensuring that a student’s overall course load will be commensurate with the number of credit hours being taken.

Breast Pump Availability
A Medela Symphony electric breast pump is available for students’ use. The student is responsible for the accessory kit (cups, tubing, bottles). Contact the Campus Operations Coordinator at (859) 251-4700 to arrange for its use.

Breastfeeding Children on Campus
Students may be able to bring their breastfeeding child to campus when accompanied by an appropriate care provider and based on the available space. Additional guests and/or children are not permitted on campus. The student must obtain permission from the Campus Operations Coordinator prior to the scheduled on-campus event. Housing is available on campus for the student, caregiver and breastfeeding child. Additional fees will apply.

1. The care provider, breastfeeding child and student will be assigned housing at FNU if available on a first come, first serve basis.  
2. Only breastfeeding children and one care provider per breastfeeding infant may accompany the student.  
3. If no housing is available on-site, a room on campus will be available for care providers and breastfeeding children for use during class hours.  
4. The breastfeeding child may not be taken into the classroom during class hours. If the infant needs to nurse during class hours, the student must return to the assigned room or the assigned outside areas for that purpose.  
5. The student will be responsible for obtaining any class information that is missed.
6. During meals, the breastfeeding child and care provider can access the Dining Hall. The care provider cannot visit other buildings while on campus.

7. Please see the Tuition and Fees section of the Catalog for current fees for accommodations and meals for the care providers.

8. Space is limited, therefore only one room/apartment can be provided for the Mother, breastfeeding child and care provider. We only have twin size beds on campus, however both mother and care provider will have separate twin beds.

9. We do not have cribs/baby beds on campus. We suggest that you bring a portable crib for the breastfeeding child.

Case Days
Case Management Days are seminars organized by the Regional Clinical Faculty. They provide opportunities for group learning and networking within the region. Students doing their clinical practicum present cases to facilitate group discussion of management options and to promote the pathways of critical thinking. All FNU students, preceptors, other FNU faculty, students from other schools, and anyone interested are invited to attend. A student may participate in a Case Day in any community in which it is being held.

Challenge Policy for Academic Courses
Challenge mechanisms are available for many academic courses at the discretion of the student’s Department Chair or Program Director. Students must have had similar content in a prior academic graduate program. Courses that are challenged require tuition payment equal to that of taking the entire course. Intent to challenge a course must be declared at the time of enrollment in FNU and will be included as a part of the student’s program of study. Students may challenge a maximum of six (6) credits total.

The challenge option includes an assessment of theory and content contained within the most recently revised didactic course. This may include examinations and/or other required assignments as defined by the Course Coordinator responsible for that content area. The Course Coordinator and student will identify an agreed upon deadline to have all challenge coursework completed and graded.

Students should review the course syllabus being challenged to guide their study prior to the challenge examinations. FNU course syllabi can be found on the FNU portal. A passing score of 80% on the challenge enables the student to receive a passing grade and credit for a didactic course. A score of less than 80% on the challenge will result in a failing grade and requires the student to take the course during the standard term at the regular rate of tuition and submit all required graded assignments and examinations in the second attempt.

THE FOLLOWING COURSES ARE AVAILABLE FOR CHALLENGE:

- PC701 Principles of Health Promotion
- PC702 Epidemiology and Biostatistics
- PC705 Advanced Pathophysiology
- PC706 Advanced Physical Assessment, Clinical Reasoning and Documentation
- PC707 Advanced Pharmacology Across the Lifespan
- PC711 Nurse as Educator
- PC718 Evidence Based Practice
- PC728 Leadership and Organizational Dynamics
- PC727 Ethics and Health Policy
- NM700 Role of the Nurse-Midwife
- NM701 Gynecologic Health
- NM703 Primary Care of Women
- NP700 Role of the Nurse Practitioner
- NP703 Gynecologic Health and Childbearing
- NP704 Primary Care Pediatrics
PROCEDURE
1. The student should first consult with his or her Academic Advisor who can assist with determining the student’s potential eligibility and need for course challenge.
2. The student may then submit the official request for course challenge to the Department Chair or Program Director. If the student is deemed to have adequate prior knowledge of the courses content and is approved for course challenge, the Department Chair or Program Director will consult with the Course Coordinator to determine the challenge plan.
3. Once the challenge plan is determined, the Department Chair or Program Director will inform the student, Course Coordinator, Registrar, and Bursar of the course challenge approval.
4. The course challenge plan will be coordinated between the student and the Course Coordinator and will include a timeline for submission of requirements.
5. The student will contact the FNU Bursar to remit payment for the challenge.
6. Once payment is received, the Registrar will add the course to the student’s transcript and the Department Chair or Program Director will coordinate access to the course.
7. Once the student completes the course challenge requirements and the course grade will be submitted by the Course Coordinator to the Registrar.
8. If the course challenge is not successful, the Department Chair and Academic Advisor will coordinate procedures for retaking the course in the Program of Study.

Commencement Ceremony Participation
FNU celebrates graduates at an annual Commencement ceremony. The event takes place in Kentucky and any FNU Graduate whose degree was officially conferred since the previous year’s Commencement is invited to participate. Current FNU students whose degree has not yet been officially conferred must meet eligibility criteria by the stated deadline as outlined on the Commencement page on the FNU portal.

Graduates attending Commencement are encouraged to invite family and friends to join the celebration. Students earning multiple degrees from FNU may choose to participate in the Commencement ceremony after each degree or wait and participate once after all degrees are earned.

See the Graduation Requirements section of this catalog for more details on requirements for degree conferral.

Communications Policy
Communication in FNU is a vital part of our relationships with each other and with FNU as a whole. Students must conduct themselves in a professional manner in both written and verbal communication. Professional communication is the responsibility of the student. By choosing to disregard the communication expectations listed here, the student risks being placed on a Performance Plan for communication issues. Dismissal from FNU for infractions of the Communication Policy may result if unprofessional behaviors continue.

To meet the expectations for professional communication, students are required to:
- Display courtesy to faculty and staff regarding their office hours. Messages may be left on voicemail during “off” hours, but must show regard and awareness of the different time zones.
- Communicate with faculty, staff and other students in a respectful way even when problems may exist.
- Utilize proper channels when approaching a problem. If a problem arises, students must discuss the issues with the involved faculty member first.
- Respond to any faculty or staff email or phone contact within three (3) business days.
- Meet with faculty or staff within three (3) days of the faculty or staff’s request for a meeting with a student.
- Communicate at least once per term at the mid-term with the Academic Advisor by either phone or email to update the Academic Advisor on course progress and plan registration for the following term.
- While enrolled in clinical courses, students will communicate at least twice biweekly with Regional clinical Faculty on course progress.
- Abide by all communication policies stated in specific courses or as listed in the course forums in Canvas.
- Submit name, address, and phone number changes within 14 days using the Profile tab in the FNU Portal.
• Use FNU systems for all official correspondence with FNU and between FNU members. Outside vendors (e.g., Hotmail, EarthLink, etc.) may not be used. Communications using non-FNU services cannot be verified by FNU, will not be considered official, and may be discarded.
• Abide by electronic communications etiquette, using appropriate language.
• Check FNU email at least twice each week while enrolled in FNU.
• Use the out of office setting when they will be unable to answer FNU email for more than 72 hours.

Email Signature
All Frontier students are required to use the following template for email signatures on their frontier.edu email accounts. This includes all emails sent from the frontier.edu email, regardless of its origination (PC, smartphone, mobile device, tablet, etc.):
[Your full name], [Your degrees]
[Your frontier email address]
[Your program, class #]
Frontier Nursing University
[Phone with area code]
[state of residence] [time zone]
Personal Pronouns (optional)
Academic Advisor: [Academic Advisor’s name]
RCF: [RCF’s name]
Projected Clinical Bound date: [Term, Year]

Example:
Sally Smith, BSN, RN
Sally.Smith@frontier.edu
CNEP Class 1
Frontier Nursing University
(606) 672-2312
State of Residence: KY (EST)
Professional Advisor: Jane Doe
RCF: Dane Joe*
Projected Clinical Bound date: Spring 2013*

*For PM-DNP students, omit the RCF name and Projected Clinical Bound date.

Please refer to the Banyan Tree 101 (BT101) course for details on creating an email signature on your PC. Students may need to consult a user’s manual for creating an email signature on other devices (smartphones, tablets, mobile devices, etc.). Should you include any additional information or content, it must appear after the signature and be of a professional nature. Consider that the entire signature will be included in all correspondence sent via email.

Areas of the Banyan Tree that must be checked at least twice each week are:
• Email.
• FNU Portal page for important announcements.
• Course Forums in Canvas (for currently enrolled courses).

Social Media Participation Guidelines
Expectations for professional communication extend to social media sites such as Facebook, Twitter, Flickr, blogs, message boards, etc. Online social media sites provide a great way for students to connect, collaborate, and communicate, and FNU supports this interaction. FNU encourages students to use social media technologies wisely by following these guidelines:
• Be aware that these sites are public, even closed/private sites can be easily accessible by others. Before posting something, ask yourself if you would want your instructors, patients, or potential employers to see it.
• Be safe online. Do not share personal information or passwords. Use privacy settings to protect your information.
- Be careful about what you say. Refrain from abusive, discriminatory, or foul language and hate speech. Do not post something illegal, libelous, or potentially harmful. Refrain from making personal attacks, defamatory statements, and comments that violate the privacy of an individual.
- Follow copyright guidelines when posting work that is not your own. Give attribution (when paraphrasing or using short quotations) or verify that you have permission to use the work (when using a work in its entirety).
- Note that images and pictures may also be protected under copyright laws. Verify that you have permission to use an image or that it is covered under a Creative Commons license. If posting images that include other people, seek their permission first.
- Adhere to the requirements already stated in the Communications Policy regarding respectful communication. Promote civility, handle disagreements with respect, and engage in dialogue in accordance with the FNU Culture of Caring, Community of Inquiry, and Honor Code Policy.

As health care professionals, students also have a duty to respect their role as caregivers and to protect patients’ privacy and the reputation of FNU. Students may NOT:
- Post any information or images relating to patient encounters on social media sites.
- Post content related to academic work, including assignments and examinations from FNU courses.
- Represent themselves as another person.
- Post pictures or descriptions that demonstrate participation of students, faculty, or staff engaging in behavior that could impact their professional reputation.

FNU Sponsored Social Media Platforms
The opinions and/or views expressed on FNU sponsored social media platforms, including, but not limited to, Facebook, Twitter, LinkedIn, and Instagram, represent the thoughts of individuals and online communities, and not those necessarily of FNU or any of its employees, board of directors, partners or affiliates. The opinions and views expressed on these pages do not in any way reflect the views of the site they are posted on, other sites affiliated with the site, the staff involved with maintaining the site, or any members of the site. FNU reserves the right to remove or deny access to FNU sponsored social media pages for any inappropriate behavior. FNU reserves the sole right to review, edit and/or delete any comments it deems are inappropriate.

All links to other websites from FNU’s social media pages and groups are provided as a service to readers. Links to external content do not constitute an endorsement of those sites by FNU, and as such FNU is not responsible for the content of external websites.

By submitting content to any of FNU’s social media pages or groups, participants understand and acknowledge that this information is available to the public and that FNU may use this information for internal and external promotional purposes and fundraising purposes. Please note that other participants may use your posted information beyond the control of FNU. Individuals who do not wish to have the information you have made available via this site used, published, copied, and/or reprinted, should refrain from participating in FNU sponsored social media platforms.

For more information, see FNU Social Media Guidelines.

Comprehensive Review Course
The Final Comprehensive Review course provides a review of the student’s educational experience and assesses student preparedness for board certifying exams. The course consists of content review and exams which are taken with the FNU remote proctor software.

If a student has previously been approved for paper exams, please refer to the Examination Security Policy and Procedure for Paper Based Proctored Exams, outlined in the catalog.

It is recommended that the Final Comprehensive Review course is taken during the term in which the student is registered for his/her final clinical course. The grade for the Final Comprehensive Review course will be reported to the Registrar and to the student within one calendar week of course completion.
If a student does not achieve a passing grade in the Final Comprehensive Review Course, the student will be placed on a performance plan and will be required to retake the course the following term. The degree will not be conferred until after the student has retaken and completed the Final Comprehensive Review course and all other degree requirements have been met.

Continuous Registration Policy
Students must be either registered for courses or on an official academic hiatus every term until their degrees are awarded. Students are not registered during the current term for courses in which they took a grade of incomplete during the preceding term, thus finishing an incomplete course but not registering for any new courses does not meet the requirement for continuous registration. Failure to register for courses or be on an official academic hiatus for any term (Winter, Spring, Summer, Fall) constitutes withdrawal from FNU. Responsibility to maintain registration rests with the student.

Course Registration Policy and Procedure
The registration period for the following term will occur during weeks seven and eight of the current term. All students must meet the following conditions before online registration can be completed:

1. MSN and PGC students in the didactic portion of their degree and all DNP students must communicate with their Academic Advisor. MSN and PGC students in the clinical portion of their degree must communicate with their RCF. After this communication occurs, the Advisor or RCF will mark the student as eligible to register for the upcoming term.
2. The student must register within the dates of the open registration period via Self-Service. These occur during weeks seven and eight of each term and are announced on the web portal page.
3. All pre and co-requisites must be followed for appropriate registration. Please consult with your Academic Advisor or RCF before making any changes in course order so that potential future consequences as a result of deviating from the standard order in the program of study is understood.
4. Maximum didactic course load for any student is 9 credit hours AND maximum 3 courses. The maximum clinical course load for any student is 12 hours.

Only when all conditions have been met will you be able to register online.

Procedure for Online Registration:
Go to the portal page and on the left side is a button that says Self Service. Click on that button.

1. Enter your Frontier username/password and hit the login button.
2. Click on the Register Tab.
3. Click on Traditional Courses.
4. Click on the registration period.
5. When you first enter, your course cart will be empty. Click on “Section Search” to add a course.
6. Enter a course code (without any spaces) in the course code box and click search.
7. Click on ADD to add the course to your course cart.
8. A popup will appear. If you need to enter more courses click on view cart, otherwise you can click on Proceed to Registration.
9. Review your course cart. If you would like to add another course, click “Add Section”. If you would like to remove a specific course you can click on “Remove” and if you are finished you can click on the “Register” button to proceed to registration.
10. When you have proceeded to registration you have one last chance to look at all of the courses in your course cart. If everything is properly accounted for, click on the Next button.
11. If you have not encountered any errors, you only need to click on the “Finished” button and you will be enrolled in your courses for the upcoming term.

If you encounter an error message during the finalization process, please contact Technical Support by emailing Support@frontier.edu.

Students who register after the registration period ends will be charged a Late Registration Fee.
Access to Courses
Students have access to all course syllabi. Students may not be actively working in a course unless they are registered for that course. Students must be aware that courses may change from term to term including content, books, and required assignments. Faculty will post the final version of each syllabus two weeks prior to the start of the next term. Students are encouraged to review the course syllabus prior to the start date. Books should be ordered to ensure receipt prior to the beginning of the term. Textbooks for courses will be listed six (6) weeks prior to the next term on the online bookstore: http://frontier.textbookx.com/

Enrollment Following Frontier Bound
Students who attend Frontier Bound are expected to enroll in FNU at the beginning of the next term. Students who are unable to enroll in courses the term following Frontier Bound must formally withdraw from FNU. In order to be considered for admission they will need to reapply to the program and pay the current application fee. If there are no changes that would affect the admission decision, the student will be offered admission if they re-apply within six (6) months following the Frontier Bound they attended. Students may use their previous admission materials except for the application form if applying within the six (6) months after the Frontier Bound and if there are no changes that would need to be considered by the Admissions Committee. If the student enrolls in FNU within six (6) months after attending Frontier Bound, they would not have to attend Frontier Bound again.

Roll Call and Student Attendance at the Beginning of the Term
At the beginning of every term, student attendance will be verified in each course. The Course Coordinator will post a thread in the course forum named Roll Call. Every student is required to respond to the Roll Call during the first 72 hours of the term (by midnight of the third calendar day of the term). This is the final step in course registration. Students who do not respond to the Roll Call thread will void their registration and automatically be dropped from the course. Students who are dropped from all courses for which they are registered will be withdrawn from FNU. Students who request to re-enroll in a course after failing to respond to roll call will be charged a course re-enrollment fee. See the Tuition and Fees section of this Catalog for current fees.

Adding and Dropping Courses
Students may add or drop a course until Monday of week two (2) of the term. A change in registration becomes effective only when the Add/Drop Form is completed by the student and submitted to the Registrar. All Add/Drop forms must be submitted by midnight on Monday of week two (2) of the term. The student should also send a copy of the Add/Drop form to the Academic Advisor and the Course Coordinator.

Individual courses dropped within the allowable time frame will not appear on the student’s official transcript provided the student remains enrolled in at least one course for the term.

If a student does not answer roll call, drops all of their registered courses and does not request an academic hiatus or enroll in another course for the term before the end of the allowable add/drop period, it is considered a withdrawal from FNU and the individual courses that were dropped will not appear on the student’s official transcript.

If a student answers roll call and subsequently requests to drop all of their registered courses and does not request an academic hiatus before the end of the allowable add/drop period, it is considered a withdrawal from FNU and the individual courses that were dropped will appear on the student’s official transcript with a W and incur financial consequences.

For details on roll call policy and procedures, see the Student Attendance at the Beginning of the Term policy.

Withdrawal from a Course
Withdrawal from a course is a serious decision that has multiple academic and financial consequences. Students who withdraw from courses in multiple terms are at risk for failure to make Satisfactory Academic Progress.
Continued enrollment in the program and financial aid may be jeopardized when the requirements are not met for Satisfactory Academic Progress.

The number of courses from which a student can withdraw (outside of an approved Emergency Academic Hiatus) is three. Withdrawal from a fourth course will result in review by the Student Policy Team of the Administrative Team for possible dismissal. Students who need to withdraw from all courses in a term after the beginning of a term must request an Emergency Academic Hiatus (see Emergency Academic Hiatus policy). A student who withdraws from a course at any time in the term or for any reason after the add/ drop period, will be charged full tuition for a course retake when they re-enroll in the course. If a student withdraws from all of their registered courses in a given term and is not approved for an Emergency Academic Hiatus, it is considered a withdrawal from FNU (see Emergency Academic Hiatus policy).

All course withdrawals require a change in the student’s Program of Study which is done in collaboration with the student’s Advisor.

1. The first time a student requests a course withdrawal, the student will meet with their Advisor to discuss the situation requiring withdrawal and to revise the Program of Study. The student should have a specific plan for dealing with any academic or personal issues that are identified in this discussion.
2. The second time a student requests to withdraw from a course the student must discuss the need for withdrawal with the Advisor prior to withdrawing from the course. The student will then submit a written Learning Plan to the Department Chair for approval that addresses a desire and concrete plan to avoid additional course withdrawals.
3. If a student requests a third withdraw from a course the student must meet with the Department Chair and will be placed on a Performance Plan to address any new or continuing academic or personal issues.
4. Withdrawal from a fourth course will result in review by the Student Policy Team of the Administrative Team for possible dismissal.

A student may withdraw from a specific course only one time and may have access to a course a maximum of two times. Access to a course is defined as 1) completion of a course (regardless of grade) or 2) a course withdrawal. Dropping a course during the add/drop period is not considered “course access.” This means, however, that if a student withdraws from a course, re-enrolls, and then fails the course, the student will be unable to complete the course and may be dismissed from the University. Exceptions to this policy must be considered only for extreme circumstances beyond the student’s control and will be approved by the Student Policy Team of the Administrative Team at the request of the student’s Department Chair.

Process for Withdrawal from a Course:
1. Meet with the Academic Advisor to discuss any options.
2. Complete the course withdrawal form.
3. Submit course withdrawal form to advisor, course coordinator of affected course, registrar and Department Chair or Program Director.
4. Meet with the Academic Advisor and Department Chair or Program Director to revise the program of study.

The assignment of grades for course withdrawals is as follows:

Course Withdrawal Before Eight Weeks (or 56 calendar days) into the Term
Students may withdraw from a course for any reason up to the 56th calendar day of the term. Students must consult with their Advisor, complete the Course Withdrawal form, and send it via email to the Registrar by midnight of the 56th calendar day of the term. The Course Coordinator and the student’s Advisor should be copied on this email. Students who withdraw before the 56th calendar day of the term shall receive a grade of “W”. The withdrawal date is the date on the email sent to the Registrar with the Course Withdrawal form attached.

Withdrawal from a course that is a corequisite for other courses in which the student is concurrently enrolled will necessitate the formation of a signed Performance Plan. The Performance Plan will include the requirement that the co-requisite course be successfully completed in the subsequent term.
The withdrawal policy does not apply to Clinical Bound courses (PC714, NM711, NP711, and WH711). For these courses, withdrawal may only occur before starting the coursework for the given course on campus. Exceptions will be considered in circumstances that qualify for Emergency Academic Hiatus and with supporting documentation.

The eligibility to withdraw from a course within the first 56 calendar days of the term does not apply to any course in which the student has:
- attempted all course assignments and exams in a didactic course (either through completion of work or having missed the assignment or exam deadline), or
- completed all clinical hours and clinical assignments for the individual clinical course.

Course Withdrawal After Eight Weeks (or 56 calendar days) into the Term

After the 56th calendar day of the term students who withdraw from a course will receive a failing course grade (WF). The student that has “serious or compelling reasons” may petition to withdraw after the 56th calendar day of a term with a “W” recorded on their transcript from a course (or courses). The standard of “serious and compelling” applies to situations, such as illness or accident, clearly beyond the student’s control.

Examples of serious and compelling reasons include:
- An extended absence due to a verifiable accident, illness, or personal problem serious enough to cause withdrawal from FNU.
- An extended absence due to a death in the student’s immediate family.

Other unusual or very special cases will be considered on their merit by the Student Policy Team of the Administrative Team at the request of the student’s Department Chair or Program Director.

All petitions for receiving a “W” for a course withdrawal after 56 calendar days must be accompanied by documentation of the “serious and compelling” reasons for withdrawal. Documentation may include: verification of accident or illness (such as a letter from the treating provider or copies of medical bills), a letter from a licensed counselor, death certificate, or other appropriate documentation.

The following situations DO NOT fall under the intent of “serious and compelling”:
- Grade anticipated in class is not sufficiently high, or student is doing failing work (including plagiarism).
- Failure to access online courses, complete assignments, or take an exam.
- Dissatisfaction with the course material, instructional method, or instructor.
- Course is harder than expected.
- Pressure of other courses, employment, and/or participation in other activities.
- A change of specialty track.
- Lack of awareness of the withdrawal process or procedures.

Students must file a petition with their Department Chair or Program Director for each course in which they wish to receive a W instead of a WF after the 56th calendar day of the term, stating their serious and compelling reasons for withdrawal with appropriate documentation included. Petitions shall be approved by the student’s Department Chair or Program Director. Upon approval, the Department Chair or Program Director will submit the petition and the grade of “W” to the Registrar with a copy to the student’s Advisor and the Course Coordinator for that course. The petition will be placed in the student’s file.

Course Transfer Policy and Procedure

FNU students are eligible to transfer a maximum of 12 credits into their program of study if the credits were earned at a regionally accredited institution of higher learning and nursing courses earned in an ACEN or CCNE accredited program that was accredited at the time the courses were completed and meet the following criteria:
- Only didactic MSN, PGC, and DNP courses may be transferred. Clinical, and DNP project courses may not be transferred.
- Courses must meet comparable objectives, essentials, and competencies as are included in the FNU course (example: if AACN DNP Essentials are included in the FNU course, they must also be present in the transferred course). Courses submitted for credit for advanced pathophysiology, advanced
pharmacology, or advanced physical assessment must be offered as part of a nurse practitioner or nurse-midwifery program.

- Courses will be eligible for consideration of transfer credit if the student has completed a course with a B or better with equivalent content in a prior academic graduate program.
- Courses must total the number of workload credits of the FNU course, e.g. if the intended FNU course awards 3 semester credits, the total number of credits from the transferred course(s) must equal 3 semester credits. The conversion of quarter credits to semester credits will be done by dividing the number of quarter credits by 1.5.
- Coursework completed on a pass/fail or satisfactory/unsatisfactory basis will not be considered for transfer unless the course was only offered to students on a pass/fail or satisfactory/unsatisfactory basis and it is clear from the transcript that a pass or satisfactory grade is equivalent to a B or better.
- Graduate level courses applied to undergraduate degrees are not eligible for transfer.
- Variables that influence course transfer include the age of the course and the student’s certification and clinical practice experience. To be considered for transfer, courses (1) must be part of a previously completed graduate degree OR (2) be less than or equal to two years old at the time of admission. Approved transfer credit that was not part of a previously completed graduate degree will affect the maximum allowable date for degree completion. Approved transfer credit that was not part of a previously completed graduate degree must be no older than five years at the point of completing the FNU degree. The latest date for degree completion will be communicated by the Department Chair or Program Director who is approving the transfer credit.

Students may submit one to two previous courses to transfer for a single FNU course, e.g. submitting a biostatistics course syllabus and an epidemiology course syllabus to transfer for the FNU Epi & Biostatistics course. More than two previous courses intended to transfer for a single FNU course will not be considered for transfer credit. Students with a content background in a particular subject but who do not have a specific course to transfer, e.g. a degree in nursing education wishing to obtain credit for FNU’s Nurse as Educator course, should consider the Challenge Policy for Academic Courses.

Grades from transferred courses do not factor into the FNU GPA. The course transfer fee for review of materials is assessed, whether or not a course is accepted for transfer credits. Transfer credits are to be calculated in determining Satisfactory Academic Progress.

Students are strongly encouraged to submit all transfer course requests prior to attending Bound orientation. Students should not register for a course for which they intend to request transfer credits until the transfer course review has been completed by the Department Chair or Program Director. There is no appeal process for declined transfer credit; the decision of the Department Chair or Program Director is final.

If a student registers for a course and subsequently requests transfer credit for the same course, the student will be responsible for meeting all university deadlines regarding course registration and payment, including the course add/drop deadline, course withdrawal deadline, grading policies, and tuition refund policies. If a student receives a final grade of F in an FNU course, requests for transfer credit review for previously completed coursework to replace the failed course will not be considered.

Courses that are eligible for consideration of transfer credit for the MSN, PGC, and DNP include:

- PC701 Principles of Health Promotion
- PC702 Epidemiology and Biostatistics*
- PC705 Advanced Pathophysiology
- PC706 Advanced Physical Assessment, Clinical Reasoning, and Documentation
- PC707 Advanced Pharmacology Across the Lifespan
- PC711 Nurse as Educator
- PC718 Evidence Based Practice*
- PC719 Psych Concepts for APRNs
- PC728 Leadership and Organizational Dynamics
- PC729 Health Policy and Advocacy
- NM700 Role of the Nurse-Midwife
- NM701 Gynecologic Health
- NM703 Primary Care of Women
International Student Remittance and Transfer Review Fee

The student remits the transfer review fee.

Transferability of Frontier Credit to Other Institutions

Frontier Nursing University develops the curriculum based on a policy which assigns workload for a credit hour. This definition of a credit hour at FNU is found in this catalog under Assignment of Credit. This standard along with the institutional accreditation of FNU provides an increased possibility that credits would be able to be transferred to another institution. That said, students should be aware that transfer of credit is always the responsibility of the receiving institution. Any student interested in transferring credit hours should check with the receiving institution directly to determine to what extent, if any, credit hours can be transferred.

Degree Completion Policy

Students are expected to earn their degree within the parameters of Satisfactory Academic Progress. Students will have the following maximum allowable time frames to complete their degree. All of the maximum allowable time frames include any time out of school such as an Academic Hiatus or Emergency Academic Hiatus.

Continuously enrolled students who do not complete coursework within the timeframe as noted below will be brought forward to the Student Policy Team of the Administrative Team to determine eligibility to continue at FNU. If approved to continue, the student may be required to complete additional coursework.
Maximum Allowable Time Frames

- Students enrolled in the MSN must complete the MSN coursework within five years.
- Students who entered FNU via the ADN Bridge Entry Option, must complete the MSN within five years from the date of Crossing the Bridge. A student who withdraws from the university after completion of all Bridge coursework will not be required to repeat the Bridge coursework if readmitted to FNU. *FNU is no longer admitting students into the ADN Bridge Entry Option program. The last cohort to enter the Bridge Program was April 2020.*
- Students enrolled in the Companion DNP must complete the DNP coursework within two years.
- Students enrolled in the PM-DNP must complete all PM-DNP courses within 2½ years.
- Students enrolled in the PGC must complete their program of study within twice the timeframe outlined in the Program of Study.
- The MSN Completion for CNEP Graduates must be completed within 1½ years of enrollment into the completion program.
- The WHCNP Post-Graduate Certificate for CNEP Graduates must be completed within one year.

Any student who is readmitted to the university after a withdrawal or dismissal with intent to complete the MSN degree (including students previously admitted to the ADN Bridge Entry Option who have completed the Bridge Year) must meet with their advisor and the appropriate Department Chair or Program Director to determine the feasibility of completing their degree within five years of their initial MSN coursework. If this is not feasible, the student will have to start coursework from the beginning.

Students readmitted to the university to complete any program other than the MSN must meet with the appropriate Department Chair or Program Director to determine the feasibility of completing the degree within a reasonable timeframe and to determine if any prior coursework will be applicable to the new admission.

Additional information about the process of readmission to the university can be found in the Admissions policy section of this catalog.

Programs of Study Time Frames

Depending on the program, students may choose between two or more program plan time frames to complete their degree. In the faster plans, students will complete 5-9 credits per term and will be expected to study at least 30-50 hours per week. Students selecting the slower paced plans will complete 3-6 credits per term and can expect to study at least 22-33 hours per week.

Students will declare their intended program of study time frame at the start of the degree. Students are allowed to make changes as desired during the program, keeping in mind the maximum allowable time frames. Students will work with their academic advisor to maintain appropriate progress towards degree completion.

<table>
<thead>
<tr>
<th>Program of Study</th>
<th>Program Length Options in Number of Terms*^</th>

* Students must complete the degree according to the maximum allowable time frames.

^ There may be circumstances that prevent a student from selecting a particular plan, e.g. the addition of physical assessment for students who do not present an acceptable course upon admission.
Digital Millennium Copyright Act Notice
NOTICE TO COPYRIGHT OWNERS
FNU respects the intellectual property of others, and we ask our users to do the same.

If you believe that your work has been copied in a way that constitutes copyright infringement, you must provide FNU’s Copyright Agent the following information, which must be in writing:

1. A physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.
2. Identification of the copyrighted work claimed to have been infringed, or if multiple copyrighted works at a single online site are covered by a single notification, a representative list of such works at that site.
3. Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit FNU to locate the material.
4. Information reasonably sufficient to permit FNU to contact the complaining party, such as an address, telephone number, and, if available, an email address at which the complaining party may be contacted.
5. A statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law.
6. A statement that the information in the notification is accurate, and under penalty of perjury, that the complaining party is authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

FNU’s Designated Agent for Notice of claims of copyright infringement is Frost Brown Todd, LLC:

By Fax: (502) 581-1087

Dismissal from FNU

Students dismissed from FNU will be withdrawn from all current coursework and any registration for new courses is canceled at the time of dismissal. Students are responsible for any tuition and fees incurred prior to dismissal. Students may choose to appeal the dismissal (see Appeal of Dismissal). Students may not participate in any coursework during an appeals process.

Dismissal from FNU is a decision made by the Student Policy Team of the Administrative Team. Reasons for dismissal include, but are not limited to, the following:
- Two course failures.
- Infraction of the Honor Code.
- Infraction of the Harassment Policy.
- Infraction of the Drug and Alcohol Policy.
- Infraction of the Tobacco Use Policy.
- Infraction of the policy regarding Limitations to Attending Births While Enrolled in FNU Programs
- Infraction of the policy regarding Advanced Practice as an enrolled FNU Student Failure to meet FNU time deadlines, including payment of tuition and fees.
- Unsatisfactory academic performance.
- Failure to maintain Satisfactory Academic Progress
- Unsatisfactory clinical performance including, but not limited to, dismissal from a clinical site.
- Unprofessional conduct in relation to interaction with others (student, faculty, staff, preceptor, client).
• Violations of the Communication Policy including persistent deficiencies in written or verbal communication.
• Failure of a performance plan.
• Withdrawing from a course for the fourth time.
• Exceeding the limit of allowable course access.
• Starting a clinical site prior to completion of credentialing the site, preceptor, and/or student.
• Failure to maintain a current and unencumbered RN license.

Students who receive a second course failure will be dismissed upon receipt of the second failing grade. Students dismissed for a second course failure will be withdrawn from all current coursework in accordance with the Course Withdrawal Policy and any registrations for future coursework will be canceled at the time of dismissal.

Students who are eligible for dismissal for any reason other than two-course failure will be notified by email (via their frontier.edu email account) upon identification of the reason for the potential dismissal. At the time the potential dismissal is identified, the student will be put on probation and will not be allowed to continue in current coursework or register for future courses. The student will remain financially responsible for current to date assessed tuition and fees but no new tuition and fees will be charged to the student while on probation.

The Student Policy Team of the Administrative Team will review the potential dismissal within ten (10) business days of when the student is notified that they are being brought forth for dismissal. The student will be notified by email (via their frontier.edu email account) of the scheduled date of the Student Policy Team of the Administrative Team meeting at which the possibility of dismissal will be reviewed.

The student may submit a written statement to the Student Policy Team of the Administrative Team including any explanation the student wishes the Student Policy Team of the Administrative Team to consider. This statement must be sent by email (via their frontier.edu email account) to the Department Chair at least three (3) business days (Monday through Friday) before the date of the scheduled Student Policy Team of the Administrative Team.

The student will be notified of the decision of the Student Policy Team of the Administrative Team in writing by email (via their frontier.edu email account) immediately following the Student Policy Team of the Administrative Team meeting. If the decision is to dismiss, a certified letter will be sent within five (5) business days of the Student Policy Team of the Administrative Team meeting. The dismissal date recorded on the student's transcript will be the date of the Student Policy Team of the Administrative Team's decision.

MSN, PGC, and DNP students who are dismissed from FNU and intend to apply for readmission to FNU at a later date should consult the Degree Completion Policy for allowable completion timeframes for readmitted students. It is possible for students to be required to retake previously completed courses upon readmission.

**Appeal of Dismissal**

A dismissal due to two course failures may be appealed by letter to the Student Policy Team of the Administrative Team within ten (10) business days after the date of dismissal notification. The appeal must be sent to the student’s Department Chair or Program Director and shall state the justification for the appeal. Justification for the course failure dismissal appeal should meet the standard of a “serious or compelling situation” that impeded the student’s ability to be successful in the coursework. The course failure dismissal appeal should also include actions the student has taken to ensure academic success should the dismissal be overturned. The decision of the Student Policy Team to either uphold or reverse the course failure dismissal will be communicated to the student in writing within ten (10) business days after submission of all appeal materials. Students wishing to appeal the decision of the Student Policy Team may escalate their dismissal appeal for two course failures to the President. Students dismissed due to two course failures may not appeal to the President without first appealing to the Student Policy Team.

A dismissal decision of the Student Policy Team of the Administrative Team may be appealed by letter to the President within ten (10) business days after the date of dismissal notification. Students seeking a second appeal of the two course failure dismissal must submit a letter to the President within ten (10) business days after the appeal decision of the Student Policy Team. The appeal must be sent to the President in writing and shall state the justification for the appeal. An appeal will only be heard if the appeal is made on the basis of bias, an error in
the application of policy, or for lack of due process. A copy of the Student Policy Team of the Administrative Team
minutes pertinent to a student’s dismissal is available to the student upon request. If the President determines the
appeal is being made on the basis of bias, an error in application of policy, or lack of due process then an
Academic Standards Committee (ASC) will be convened. The ASC shall examine all data pertaining to the appeal
and make written recommendations to the President of FNU. The decision of the President shall be
communicated to the student in writing and is the final decision.

Students dismissed from FNU are withdrawn from all current coursework and any registration for future
coursework is canceled at the time of dismissal. Students are not eligible to complete any coursework during the
appeal process. If a student’s dismissal is overturned as a result of an appeal, the student will be reinstated to the
university and enrolled in coursework for the term immediately following the successful appeal.

**Estimating the Timeline for Beginning the MSN Clinical Practicum**

It is important that students give the preceptor a realistic idea of when they will be ready to begin MSN clinicals. Expectations may change as students move through Levels I and II and plan to attend Clinical Bound. Many sites have commitments to other educational programs or internal constraints that impact their scheduling of a FNU student. Students are responsible for communicating with the Primary Preceptor and the Regional Clinical Faculty (RCF), as well as the Clinical Director if changes occur with their original timeline. The student may need to renegotiate clinical time if their actual timeline varies from the original agreement with the preceptor. During Levels I and II periodic contacts with the RCF and the Primary Preceptor are recommended, as well as the required contacts with the Student Advisor.

**FNU Evaluations**

All FNU evaluation forms submit directly into a secure database. Course faculty, Department Chairs and Program Directors are able to view an anonymous report containing totals and comments, without student names.

Course faculty, Department Chairs and Program Directors cannot see who submitted any evaluation. Course Coordinators use the Course Evaluation reports in the course revision process to improve the next version of the course. The Department Chairs and Program Directors are able to view course evaluation reports to look for trends related to teaching, faculty performance and course effectiveness. The staff member responsible for verifying completion of course evaluations is only able to see a tracking report that includes the student’s name, class number, and a list of courses that have been evaluated, but not the student’s course evaluations.

FNU must have complete student evaluations in order to complete our institutional effectiveness plan. In order to collect evaluation data the following policies apply:

- Students must complete all course evaluations as the last assignment in each course. Failure to complete
  the evaluation will result in an Incomplete (I) grade. The student needs to notify their instructor once they
  have completed the evaluation so the instructor can change the grade.
- Students may start the Clinical Practicum after completing all Clinical Bound evaluations.

**Examination Policies**

FNU endeavors to maintain a secure testing environment to facilitate exam integrity. The University adheres to
the standards of academic integrity as articulated by the FNU Honor Code Policy. Cheating on examinations is
contrary to both academic integrity standards and ethical standards as articulated in the FNU Honor Code Policy.

All electronic examinations are accessible to students according to dates set by the Course Coordinator. If a
student experiences a problem during an exam and cannot resume access to the examination in a reasonable
amount of time, the student should immediately open a ticket with FNU Technical Support.

If the score on an examination is below 80%, this constitutes an examination failure. Please refer to the FNU
Grading and Failure Policy.
Examination Policy for Remotely Proctored Exams

Frontier Nursing University (FNU) will assure accurate student identification along with test integrity and security in the administration of examinations in a distance learning setting via remote proctoring. The proctoring process includes: an identity validation of the student taking the test, maintenance of examination integrity by blocking other software or hardware during testing, and monitoring of student behavior during examinations to demonstrate that inappropriate behavior is not taking place.

Examinations are proctored through a computer-assisted proctoring service chosen by FNU. Students taking online examinations are required to use this system. Online examinations will not be available to students unless the proctoring system is used or specific designated testing accommodations are in place for that student.

Currently proctored examinations utilize a standard webcam and microphone and are delivered through a Chrome web browser extension. The system automatically flags audio and video to be reviewed for any possible Honor Code and Exam Policy violations that may have occurred during an examination.

1. Students will affirm the Honor Code statement once in each course that has proctored examinations.
2. Students will use the proctoring software selected by FNU for all examinations.
3. Examinations are confidential material. Students may not make a copy of any examination in any form including handwriting questions onto their own paper, discussing questions in course forums or in social media, or copying questions into email. If students want to discuss specific examination questions with faculty, students should make an appointment for a live discussion with the faculty member. Students should not email any specifics of examination questions to anyone, including faculty.
4. Students may not discuss the contents of any examination with anyone other than the responsible faculty. Examples of honor code violations could include but are not limited to: discussing examination contents with others at any time before, during, or after an examination, receiving any type of assistance (except from FNU tech support or FNU faculty) during the examination, having someone else take the examination under the student’s username and password, emailing specific exam items, or copying any part of an examination in any form. An Honor Code Violation is considered grounds for dismissal from FNU.

Rules for Taking a Proctored Examination

Students are expected to learn and follow the rules for taking examinations using the computerized proctoring system. The online testing environment should mimic the “in class” testing environment, and must conform to the following:

- Use a desk or table to take your exam as if you are in a classroom setting. If there are reasons you cannot do this then you must contact your Course Coordinator before you take an exam.
- Test in a quiet, secure, fully lighted room. No music shall be played in the background.
- Lighting must be “daylight” quality and overhead is preferred if at all possible. If overhead is not possible, the light source should not be behind the student.
- No other people in the room at any time during the examination.
- If pets are in the room they must not interfere with testing (noise, on the keyboard, in front of the camera).
- No communicating with others by any means, with the exception of contact with FNU IT support staff or Proctorio support staff or the faculty member.
- No talking aloud during the examination. You may not read the questions aloud to yourself.
- No leaving the room at any time for any reason.
- No eating or drinking during the examination.
- All other books, papers, notebooks or other materials, unless specifically permitted in written guidelines for a particular examination, must be removed. You may use the electronic whiteboard provided by Proctorio, but a physical whiteboard is not allowed.
- No other portable electronic devices shall be in the room including cell phones. If a student encounters a testing issue and needs to retrieve a cell phone, announce this to the camera so your issue can be documented during the exam (For example, say to the camera "My screen just went blank and I am now getting my phone to call support..."). Send a follow-up email to your Course Coordinator about the incident immediately after the exam.
- No writing may be visible on desk or on walls.
- You may not use headphones.
- Any other computer monitors or televisions in the testing environment must be powered off.
- The webcam and microphone must be operational.
- A proper ID (driver’s license or FNU ID) must be clearly shown at the beginning of each exam.
- The room scan should be completed in a standing position. The desk and surrounding areas, including the floor, must be clearly shown. If your testing device has a built-in camera, such as on a laptop, you must show your screen and surrounding work area using a mirror. Please review how to do a proper room scan before taking your exam.

Using the computer proctoring system allows students to have 5 minutes after the examination has been completed to review the examination and see the correct answer to any missed questions. Some courses may offer an alternative to the 5-minute review, to best meet the needs of students. The student will not be allowed to make any changes to the examination during this time period. All testing conditions and the Honor Code remains in effect during this review.

Examination Violations
All examination videos will be reviewed and made available to the faculty and program administrators. If any suspicious activity is determined to be an exam rules policy violation, the faculty will notify the student so that the behavior can be corrected for subsequent exams. Additionally, the faculty will record the violation on the institutional secure exam violation report. If any suspicious exam activity is determined to be a potential Honor Code Policy violation, it will be reported to the appropriate FNU Course Coordinator who will determine if an infraction occurred. If there is suspicion of cheating, this is a potential Honor Code violation that will be addressed according to the policy (please refer to the Honor Code Policy).

Once the student has been notified of a violation, the student is expected to review all of the rules for exams and adhere to them in all future exams. If a student repeatedly violates the rules for taking a proctored examination, whether it is the same rule or a different rule, the student will be asked to complete a Learning Plan, be placed on a Performance Plan, or be referred for possible dismissal from FNU as appropriate to the context of the situation. Depending on the severity of the examination violation, the student may be referred immediately for possible dismissal from FNU.

Examination Security Policy and Procedure for Paper Based Proctored Exams
This policy is in effect only for students with an authorized accommodation that includes the necessity of a paper based exam. See Americans with Disabilities & Learning Disabilities
- Students are not to discuss the contents of any examination with anyone other than the responsible faculty.
- A test is not to be opened by the student until the student and the proctor are ready for the student to take the examination.
- Examinations are treated as confidential material. This means students do not make a copy of any examination in any form.
- Only the proctor is responsible for receiving and photocopying examinations. Students may never be involved in this process.
The proctor must prepare an examination for mailing. The student may only handle a completed examination after the proctor has placed it in an envelope and both the proctor and student have signed the sealed flap.

The use of a computer is not acceptable for any examinations.

FNU relies on examination proctors to ensure the academic integrity of the University’s examinations. By agreeing to proctor examinations, the proctor takes personal responsibility for the security of the examination material. Acting as a proctor for a nurse-midwifery or nurse practitioner student is an act of professional volunteerism. Without such volunteerism, FNU would not be successful. The examination proctor may be a nurse-midwife or nurse practitioner in the clinical setting where the FNU student will acquire clinical experience or a nursing supervisor or administrator, an educator, a testing administrator, a military officer of higher rank than the student, or a librarian. Testing centers may be used, although they often require a fee. Any financial obligation associated with securing a proctor will be the responsibility of the student. Other types of individuals may serve as proctors with approval from the student’s Department Chair or Program Director. The proctor cannot have a personal relationship with the student. A personal relationship is defined as a relative, a close friend, a person the student is dating, or any person living in the same household as the student.

The FNU student identifies an appropriate examination proctor and supplies the proctor with the Proctor Approval Application. If the student’s clinical preceptor is going to be the proctor, the preceptor must still complete the Proctor Approval Application. Other CNMs or NPs in the proctor’s practice or office personnel may not be substituted unless they have also completed the Proctor Approval Application. After the proctor has applied and been approved, the FNU ADA Coordinator sends the proctor a letter announcing the approval.

If a proctor’s address changes, the proctor must contact the ADA Coordinator. Address changes for proctors cannot be submitted by students.

Examinations will be automatically sent to the proctor at the end of the Add/Drop period. Students who live outside the United States or who plan to take examinations in the first two weeks of the term should contact their Department Chair or Program Director to discuss the possibility of special arrangements for the mailing of their examinations. Students who need to change proctors after a term has begun should contact the ADA Coordinator immediately. The ADA Coordinator will work closely with the student and course faculty to determine immediate needs regarding pending exam deadlines. The student is responsible for identifying a new proctor and submitting the necessary Proctor Approval Application as soon as possible but no more than ten (10) days after the loss of the original proctor. Once a new proctor is approved, the student’s examinations will be mailed to the proctor within two (2) business days. If a student withdraws from a course, the proctor will be notified in writing and must destroy all examinations for that course.

The proctor provides the student with a quiet room, devoid of reference materials and computers, where a closed book examination may be completed. After the examination is completed the proctor ensures the examinations secure return for grading by course faculty in a sealed envelope. It is the student’s responsibility to provide the course faculty grader’s name and address and mailing materials and to pay any charges for copying and for mailing. The student should bring a stamped and addressed envelope to the examination. The proctor’s return address should be on the envelope, not the student’s.

The student is responsible for signing the Written Proctored Exam Security Statement, Honor Code Affirmation and returning the signed copy with each exam. Exams received without this signed statement will not be graded.

Specific duties of the proctor begin with the receipt of the examination. The proctor:

1. Checks the examination(s) to ensure that each has the correct number of legible pages.
2. Contacts the FNU ADA Coordinator at (606) 672-2312 for assistance if an examination is incomplete or poorly photocopied.
3. Keeps the examination(s) in a locked, secure place until administration.
4. Ensures that the examination site is free of distractions and reference materials. Students may bring writing implements and blank paper to the examination, but no books, laptop computers, notes, or other references.
5. Reviews the number of questions, possible number of points, and time allotted for the test with the student before administering.
6. Reminds the student periodically during the examination of time limits.
7. Photocopies the completed examination. The student should not be involved in the photocopying process.
8. Places the photocopy of the examination in a sealed envelope and locks it in a secure area.
9. Signs the statement on the examination indicating that the Examination Security Policy and Procedure have been followed.
10. Places the original examination in the stamped envelope addressed to the examination grader, which was provided by the student. The return address should be that of the proctor.
11. Seals the envelope and signs the sealed flap of the envelope.
12. Has the student sign the sealed flap of the envelope if the student will be mailing the examination. The student’s signature on the sealed flap of the envelope is not required if the proctor will be mailing the examination.
13. Mail the envelope to the faculty grader within one business day of the examination's administration. The proctor may permit the student to mail the examination only if after the envelope has been sealed it is signed by both the proctor and the student. It is recommended that examinations be sent via Priority Mail with Delivery Confirmation. Do not send material by overnight mail, certified mail, or any other mechanism that requires a signature. If the faculty member is not at home, it can delay receipt of the examination and can result the examination being returned to the proctor.
14. Destroys the examination photocopy after the student receives the examination grade. The student should notify the proctor as soon as the grade is received.
15. In the event that a student withdraws from a course, takes an Academic Hiatus, changes proctors, or withdraws from FNU after the examinations have been mailed, the proctor will be notified in writing and must destroy all examinations.

### Grading Policies

#### Graded Assignments

Graded Assignments may include papers, oral presentations, forum assignments, open-book post-tests, worksheets, and any other type of assignment sent to faculty for feedback and a grade. Submission instructions (e.g., APA format) should be followed. Most Graded Assignments are completed by the individual student and must represent their individual work. Some Graded Assignments may be specifically designated as appropriate for group work. Students who have questions about whether a Graded Assignment is to be completed by an individual or group should seek clarification from the course faculty. Collaborative work on an individual Graded Assignment is an Honor Code Violation and may result in dismissal from FNU.

The course policy for assignments (graded or ungraded) is stated in the instructions for each course. The faculty for each course determines whether or not there are options for resubmission based on the course objectives. Please read course instructions carefully.

Faculty will make every attempt to return all graded assignments within five business days of the due date. This excludes holidays and weekends. This guideline may be extended by a Course Coordinator if the assignment includes a lengthy written paper which may take extensive grading time. Any extensions of this timeline will be clearly stated in the course.

#### Grading and Failure Policy and Procedure

A grade of less than 80% constitutes an assignment or examination failure. In courses that have exams, students must achieve a passing total exam average (80% or better), in addition to a passing course average (80% overall), in order to earn a passing grade for the course.

When a student fails an exam or assignment, the University’s goal is to help students master the content and learn appropriate study, writing, and test taking habits so that assignment and examination failures do not recur. To this end, the following procedures will be followed:

1. Anytime a student receives below an 80% on an exam or assignment the course faculty will notify the student and offer a review so the student can understand all content and develop strategies for success.
2. The student will make an appointment with the course faculty who will:
   a. Review the exam/assignment to discuss the content the student was unable to master.
   b. Discuss reasons for the poor performance and ideas for improvement.
   c. Refer students to the Academic Resource Center and Advising as indicated to assist with study tips, test taking issues, and time management.
3. The course faculty will notify the student’s Academic Advisor regarding the interaction with the student.

Course Grading System
The marks used in all official reports of students’ grades are: A, B, F, S, U, W, WF, T, G, I and IP. The performance level and quality points assigned to those grades are as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Performance Level</th>
<th>Quality Points per Term</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Consistently Outstanding, 90-100%</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Satisfactory, 80-89.99%</td>
<td>3</td>
</tr>
<tr>
<td>F</td>
<td>Failure, 79.99% or below</td>
<td>0</td>
</tr>
<tr>
<td>S</td>
<td>Satisfactory, 80% or better</td>
<td>Not applicable-no impact on the FNU GPA</td>
</tr>
<tr>
<td>U</td>
<td>Unsatisfactory, 79.99% or below</td>
<td>Not applicable-no impact on the FNU GPA</td>
</tr>
<tr>
<td>W</td>
<td>Withdraw</td>
<td>Not applicable-no impact on the FNU GPA</td>
</tr>
<tr>
<td>WF</td>
<td>Withdraw Failing</td>
<td>Not applicable-no impact on the FNU GPA</td>
</tr>
<tr>
<td>T</td>
<td>Transfer</td>
<td>Not applicable-no impact on the FNU GPA</td>
</tr>
<tr>
<td>G</td>
<td>Gap Analysis</td>
<td>Not applicable-no impact on the FNU GPA</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete (temporary mark)</td>
<td>Not applicable-no impact on the FNU GPA</td>
</tr>
<tr>
<td>IP</td>
<td>In Progress (temporary mark)</td>
<td>Not applicable-no impact on the FNU GPA</td>
</tr>
</tbody>
</table>

All credits are based on a term system (see Assignment of Credit Hours). A grade of A, B, or S (equivalent of at least 80%) must be achieved in all courses. All courses use the A/B/F course grading system unless otherwise indicated in the course description. Students must complete courses using the grading system established in the course (A/B/F unless specified as S/U) and are not allowed to request alternative grading systems. For example, if a course is taught using the A/B/F grading system the student cannot request to complete the course using the S/U grading system. The designations W (prior to the 56th day of a term) or WF (after the 56th day of a term) will be recorded to indicate passing or failure in those instances in which a student withdraws from a course before completing the work. (see Withdrawal from a Course).
When a student is required to repeat a course, both the original and repeat enrollments will be noted on the student’s transcript. However, only credit and grade points earned for the most recent grade are counted in computing the grade point average (GPA) and determining the number of credits successfully completed.

An Incomplete (I) grade is used only for academic courses. (see Incomplete Grade Policy). An In Progress (IP) grade is used only for clinical courses. It denotes that the clinical course is in progress but the course is not yet complete. (see In Progress (IP) Grade Policy). A grade of I or IP does not remain on the transcript but is replaced by the completion grade.

Grading
Successful completion of a course requires that the final course grade AND the exam average (if applicable) must earn a grade of B or higher.

- A = 100-90
- B = 89.99-80
- F = 79.99 or less

Assignment and exam grades are not rounded up and remain as decimal points in the electronic grade book.

The final average of all exams is not rounded up. It must equal 80.00% to pass.

Final course grades are not mathematically rounded up.

Good academic standing is defined by all of the following:
- The student is making Satisfactory Academic Progress (SAP) as defined by the SAP policy.
- The student has no current Performance Plan in effect or is making satisfactory progress toward resolution of Performance Plan.
- GPA of 3.0.

Reporting of Grades
In accordance with the Family Educational Rights Privacy Act (FERPA), also known as the Buckley Amendment, all students’ grades are treated as confidential information. At the completion of each term, the faculty members send students’ grades to the Registrar. A student may request a current transcript from the Registrar at any time.

Incomplete (I) Grade Policy
- An "Incomplete" (I) grade will be assigned only if a majority of the work for an academic course has been completed and there is still the opportunity for the student to be successful in the course. The Course Coordinator determines what constitutes the majority of work for a course.
- There must be evidence that the student can successfully complete the course if given an Incomplete grade.
- Students must submit a Petition for Incomplete Grade form to the Course Coordinator no later than the last day of the term as publicized in the FNU academic calendar. The requirements necessary to complete the course and a timeline for the student to complete the coursework must be defined by the student on the Petition for Incomplete Grade form.
- The deadline for finishing the Incomplete coursework is the 30th day of the term following when the Incomplete occurs as publicized in the FNU academic calendar.
- Per the Academic Hiatus policy, students are not permitted to do any coursework, submit any assignments or take any examinations while on AH. Students are strongly encouraged not to begin an AH with an incomplete grade in any of their courses. If a student begins an AH with an incomplete grade and the course is significantly revised, the Course Coordinator may require the student to complete assignments in accordance with the new course content. (see Academic Hiatus Policy).
- Upon completing the requirements, the Course Coordinator will submit a new grade to the Registrar. The Registrar will then replace the Incomplete grade with an A, B, or F. Internally, the student record will reflect an IA, IB, or IF.
- An Incomplete grade may not be removed by re-enrolling in the course.
An Incomplete grade is a temporary grade that converts to an F if all course requirements are not completed by the incomplete deadline, as published in the FNU Academic Calendar, and all submitted work is considered to be a final submission on that date. In the event that revisions of an assignment are allowed prior to the incomplete deadline, students must consider faculty grading time and submit the outstanding coursework no less than five (5) business days in advance of the incomplete deadline. After the incomplete deadline has passed, no further revisions or submissions are accepted.

If a student withdraws from the institution without completing the Incomplete course(s), the grade will be changed to a WF. Under compelling circumstances, the student may petition the Student Policy Team of the Administrative Team for the grade to be a W.

In-Progress (IP) Grade Policy

- An “In Progress” (IP) grade will be assigned to a clinical course that is in progress but not yet complete in a given term. There must be evidence that the student can successfully complete the clinical course if given an IP grade.
- Students may be granted an IP no later than the last day of the term as publicized in the FNU academic calendar.
- An IP grade must be converted to a permanent grade by the last day of the term subsequent to the term in which the student registered for the course.
- Per the Academic Hiatus policy, students are not permitted to do any coursework, submit any assignments, take any examinations, or participate in clinical while on AH. Students are encouraged not to begin an AH with an In Progress grade in any of their courses. See Academic Hiatus Policy.
- Upon completing the requirements of the clinical course or at the end of the IP period, the RCF will submit a new grade to the Registrar. The Registrar will then replace the IP grade with an A, B, or F. Internally, the student record will reflect IPA, IPB, or IPF.
- An IP grade is a temporary grade that converts to an F if all course requirements are not completed by the end of the IP period. All work must be turned in by the IP deadline. With the support of their RCF, students may petition for an extension to an IP grade.
- If a student withdraws from the institution without completing the IP course(s), the grade will be changed to a WF. Under compelling circumstances, for example clinical progression, inability to find a site or preceptor, the student may petition the Student Policy Team of the Administrative Team for the grade to be a W.

Individual Academic Work, Study Groups, and Study Buddies

- All Graded Assignments and examinations must represent individual effort. The exceptions to this are explicit in the course instructions.
- Copies of Graded Assignments must not be sent to or received from anyone other than the faculty.
- A student’s work is her or his own work. It is not work that another student did. It is not work done after reviewing an instructor’s critique on work returned to another student. It is not work that a student copied from an article or text without appropriate citation.
- Students should be very clear about what assignments are graded and what activities are not graded (for example, Study Guide and Let’s Practice). Graded Assignments must be completed independently unless the instructions explicitly and specifically permit group work. Non-graded activities may be worked on with a study buddy or a study group, most Graded Assignments may not.
- If a student has any doubt about whether a specific assignment may be done jointly with another student, this should be discussed with the Course Faculty.
- Students are permitted to share resources with study groups and/or study buddies, but Graded Assignments, unless specified or approved prior to submission as group work, should reflect the individual student’s level of understanding of the content area because this is the basis for the student’s practice upon entering the profession.
- Each student must process the information gathered by the study group or study buddy and make sure the information is complete and accurate. Each student must individually form their own opinions by completing the Required Readings, course activities (Study Guide and Let’s Practice), Graded Assignments, and examinations.
Course Failure Policy
In the event of a course failure:

- One (1) course failure will result in the initiation of an academic Performance Plan. (see the Learning and Performance Plans).
- Two (2) course failures within a degree (MSN* or DNP) program or post-graduate certification program will result in dismissal from FNU. An exception to this is the Final Comprehensive Review Course MH717, NM717, NP717, and WH717; failure of the Final Comprehensive Review Course does NOT count as a second course failure under this policy.

All course failure(s) will be reflected on the student’s transcript (see the Grading System Policy). Students may choose to appeal a grade (see the Appeal of Course Grades). Students may choose to appeal dismissal (see the Appeal of Dismissal).

*The Bridge Program was an entry option into the MSN program until April 2020. A course failure in the Bridge Year (if applicable) carries into the MSN program.

Appeal of Course Grades
Students may appeal a course grade by contacting the Course Coordinator. If the student and Course Coordinator are unable to reach an agreement about the grade, the Department Chair or Program Director should be contacted. Course grades must be appealed no later than the end of the term following the term in which the grade was received. For example, a grade from the Spring Term must be appealed no later than the end of the Summer Term. All examinations and assignments for a course will be destroyed at the end of the term following the term in which the student completed the course.

The Department Chair or Program Director’s responsibility is to strive to mediate a resolution that is satisfactory to all parties involved. Appeals that are not resolved satisfactorily for all parties through discussions should be communicated in writing to the Dean of FNU. The Dean will convene the Academic Standards Committee (ASC).

The ASC shall examine all data pertaining to the appeal and make written recommendations to the Dean of FNU. All attempts at resolution of the issue are to be documented in minutes. The decision of the Dean shall be communicated to the student in writing and is the final decision.

Graduation Requirements
To be eligible for any degree a student must complete the following graduation requirements in addition to the specific course requirements for each degree program. The course requirements for each degree program can be found in the Academic Offerings section of this catalog. The graduation date indicated on the student’s transcript and diploma will be the date that all graduation requirements are completed. FNU processes graduations on a rolling basis throughout the year. It is important to note that once a student has met all FNU graduation requirements he/she is no longer covered by FNU’s liability insurance and is no longer eligible for financial aid. No further clinical experiences may be obtained as an FNU student once graduation requirements have been met.

- Submission of final grades for all required courses. Incomplete (I) and In-Progress (IP) grade are temporary grades, not final grades (see the Incomplete Grade Policy and Procedure).
- No overdue financial balances on the student account.

The following graduation requirements are specific to the completion of the degrees indicated.

MSN and Post-Graduate Certificate:
- Receipt of all end of clinical paperwork including the signed Declaration of Safety (DOS) from the primary preceptor, the final Stage 4 MDAT from the RCF, and the completed End of Clinical Record.
- CNEP Students ONLY: Proof of attendance for the AABC “How to Start a Birth Center” Workshop. AABC provides FNU with the roster of attendees after each workshop.
Grievance Procedure
Grievances should always be resolved at the most immediate level possible.

If the grievance relates to an academic course, the student should begin by communicating the problem to the individual course faculty member involved. If that is not successful, then they should take the matter to the Course Coordinator, and if still unsuccessful to the appropriate Department Chair or Program Director. If the situation pertains to a clinical course in the MSN or PGC program, it should be discussed with the Clinical Director.

For problems related to clinical matters in the MSN or PGC program, the student should consult the Regional Clinical Faculty first and if unsuccessful proceed to their Clinical Directors. The student’s Clinical Director is always available to discuss any situation with the student during this process. The Clinical Director’s responsibility is to strive to mediate a resolution that is satisfactory to all parties involved.

Grievances that are not resolved satisfactorily for all parties through discussions should be communicated in writing to the Dean of FNU. The Dean may choose to convocate the Honor Code Council or the Academic Standards Committee depending on the nature of the grievance.

The Council or the Committee shall examine all data pertaining to the grievance and make written recommendations to the Student Policy Team of the Administrative Team (for Honor Code Councils) or the Dean (for Academic Standards Committees) of FNU. All attempts at resolution of the issue are to be documented in minutes. The decision of the Dean shall be communicated to the student in writing and is the final decision.

Harassment Policy
Frontier Nursing University does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities.

We expect all of our students, faculty, and staff to be treated with fairness, respect, and dignity. Harassment of any of these individuals will not be tolerated. Any form of harassment related to an individual’s race, color, sex, religion, national origin, age, or disability is a violation of this policy and will be treated as a disciplinary matter, including the possibility of dismissal.

The term harassment includes:
- Slurs and any other offensive remarks, jokes, graphic material, or other offensive verbal, written or physical conduct.
- Sexual advances, requests for sexual favors, unwelcome or offensive touching, and other verbal, graphic, or physical conduct of a sexual nature.

If students have questions about what constitutes harassing behavior, they should contact their Department Chair, Program Director, or the Frontier Nursing University (FNU) Human Resources Manager (606-672-2312). If a student feels they are being harassed, they should immediately notify the Student Council Representative, Student Advisor, or another member of the faculty or administration with whom they feel comfortable discussing the situation. Alternatively, the student may call the FNU Human Resources Manager (606-672-2312).

Faculty should notify the appropriate Department Chair, Program Director or refer to the FNU Employee Handbook and follow the procedure there. It is FNU policy to investigate all reported violations.

Health Insurance, Illness and/or Injury
If a student is sick or injured during their enrollment at FNU, they should be seen in the nearest emergency room or health care clinic as appropriate. This would include any Bloodborne Pathogen Exposure. Students are required to carry health insurance or be a member of a health care sharing program during the entirety of their enrollment at FNU and will be personally responsible for any and all health care costs while enrolled at the FNU. Students will be required to provide proof of insurance coverage during the clinical credentialing process.
**Honor Code Policy**

There are unique opportunities in the adult-learner, self-paced, distance model of education to demonstrate the highest standards of ethical behavior and conduct. There are also unique opportunities to violate these standards. FNU regards academic honesty and scholarly integrity to be essential to the education of our students; violations are not tolerated. No student shall claim credit for another’s work or accomplishments or use another’s ideas in a written paper or presentation without appropriate citations and references. Students may be dismissed for violation of FNU standards of conduct.

Violations of the expected standards of conduct include, but are not limited to, the following:

- **Cheating:** Cheating is the attempt to gain an improper advantage in an academic evaluation. Among the forms that this kind of dishonesty can take are: obtaining a copy of an examination before it is officially available, learning an examination question from another student before taking the examination, or consulting an unauthorized source during an examination. These sources could include electronic sources, paper sources, or human sources. Submitting part or all of the work done by another student as one’s own work is also cheating. This also includes sharing your own work with other students in any form (via email, posting on the internet, etc.).

- **Plagiarism:** Plagiarism is the representation of another person’s ideas or writing as one’s own. The most obvious form of this kind of dishonesty is the presentation of another person’s ideas as something one has written. Paraphrasing another’s writing without proper acknowledgment may also be considered plagiarism. See the **Plagiarism Policy and Procedure** for further information and clarification.

- **Unprofessional Conduct:** Including lying, misrepresenting the truth, and falsifying records (including, but not limited to, the clinical log).

- **Criminal Conduct:** Such as stealing, drunkenness, or illegal drug use while on FNU property or in a clinical site.

- **Unauthorized Sharing of Course Materials:** Course materials are the property of FNU. Any unauthorized sharing or distribution of course materials without the consent of faculty is prohibited.

It is the student’s responsibility to behave in an honorable and ethical manner.

It is also the student’s responsibility to report any suspected violation to a Student Council Representative.

Any member of the FNU Community may bring suspected honor code violations to the attention of the Department Chair or Program Director.

When a suspected honor code violation involves a specific didactic or clinical course(s) the following steps will be followed:

1. For suspected violations in a didactic course, the Course Faculty and Course Coordinator will review the evidence and may discuss with the involved student(s). For suspected violations in a clinical course, the RCF and Clinical Director will review the evidence and may discuss it with the involved student(s).
2. The Course Coordinator or Clinical Director will discuss with the Department Chair or Program Director
3. The Department Chair or Program Director will discuss the suspected honor code violation with the involved student(s).
4. If the Department Chair or Program Director determines there is sufficient concern of a possible Honor Code Violation, the suspected violation will be sent to the Student Policy Team of the Administrative Team for review. All involved parties (students, faculty, and staff) will be given an opportunity to submit a written statement.
5. If the Student Policy Team of the Administrative Team determines that there is adequate evidence that an honor code violation may have occurred, the involved student(s) will be notified via email that a possible violation has been brought forward. The charge will be documented in the student’s academic record and an Honor Code Council will be convened according to the defined procedures. Convening the Honor Code Council will be at the discretion of the Student Policy Team of the Administrative Team.
6. If the Honor Code Council finds that a violation of the Honor Code has occurred, the violation will be documented in the student’s academic record and the Student Policy Team of the Administrative Team will determine the appropriate consequences and necessary actions.
When a suspected honor code violation does not involve specific didactic or clinical course(s), the following steps will be followed:

1. The Department Chair or Program Director will review the evidence and consult with the student(s), faculty, and/or staff reporting the incident.
2. The Department Chair or Program Director will discuss the suspected honor code violation with the involved student(s).
3. If the Department Chair or Program Director determines there is sufficient concern of a possible honor code violation, the suspected violation will be sent to the Student Policy Team of the Administrative Team for review. All involved parties (students, faculty, and staff) will be given an opportunity to submit a written statement.
4. If the Student Policy Team of the Administrative Team determines that there is adequate evidence that an honor code violation may have occurred, the involved student(s) will be notified via email that a possible violation has been brought forward. The charge will be documented in the student’s academic record and an Honor Code Council will be convocated according to the defined procedures. Convening the Honor Code Council will be at the discretion of the Student Policy Team of the Administrative Team.
5. If the Honor Code Council finds that a violation of the Honor Code has occurred, the violation will be documented in the student’s academic record and the Student Policy Team of the Administrative Team will determine the appropriate consequences and necessary actions.

**Honor Code Council Procedure**

In the adult-learner model, the primary guardians of the FNU Honor Code are the students themselves. The students, therefore, have the responsibility for monitoring appropriate behavior and for resolution of violations. The Honor Code Council will consist of six Student Council Representatives and a faculty facilitator. If the required number of students cannot be recruited from the Student Council Representatives, students may be recruited from the general student body. The faculty facilitator will be a faculty member who was not involved in the Honor Code Violation allegation. The role of the faculty facilitator is to counsel the students regarding the process and FNU policy. The entire process from the date of the reported charge to the date of the final decision of the Student Policy Team of the Administrative Team and notification of the students involved should be as expedient as possible. The review will not take greater than 45 days.

1. After a possible Honor Code Violation has been reported, the Student Policy Team of the Administrative Team will make the decision to convocate an Honor Code Council (HCC).
2. The Department Chair or Program Director for their specialty track will notify the student(s) in question, via email, that:
   a. An Honor Code Council (HCC) is being convened and will be provided with details concerning the nature of the alleged violation(s).
   b. Students are allowed to continue coursework until the issue is resolved. Faculty will not submit any final grades for the courses that are involved in the alleged honor code violation. If the review is still in progress at the end of the term, students will receive an Incomplete for any didactic courses and an In-Progress for any clinical courses that are involved in the alleged honor code violation during the Honor Code Council process. If the process extends across terms, students will be allowed to enroll in the courses for their next term.
   c. Students can make a written statement to the HCC with an explanation and clarification of the circumstances related to the alleged violation(s). They will need to send these materials to the Chief Operations Officer or her/his designee.
   d. Students will have an opportunity to make a verbal statement to the HCC during a conference call. The HCC may also ask questions of the student(s), via the faculty facilitator, but student(s) are not required to answer those questions.
   e. Documentation gathered by the Department Chair or Program Director from faculty and other students involved in the alleged violation(s) will be submitted to the HCC and the student(s) being reviewed.
   f. The Department Chair or Program Director will identify at least one faculty involved in the alleged violation to speak with the HCC during the proceedings. The HCC is required to speak with the designated faculty member and may also choose to speak with faculty and other students who have direct knowledge of the possible violation(s).
3. When the Chief Operations Officer receives the written statement(s), s/he, or her/his designee, will remove the student’s name(s) from all documents, changing the name(s) to “Student A, “Student B”, etc.

4. The Chief Operations Officer, or her/his designee, will recruit seven members of the student council and schedule a conference call. One of the seven students acts as an alternate in case a student needs to withdraw from the HCC. If seven members of the student council are not available, then members of the student body will be asked to volunteer.

5. Before the conference call, the Chief Operations Officer, or her/his designee, will email the HCC regarding the possible violation/s. This will include the student’s statements (with names redacted) as well as any other related documentation (also with names redacted) that pertains to the possible violation/s including assignment instructions when appropriate. At this time the HCC will be notified of the date and time of the HCC meeting. In addition, course coordinators, course faculty, regional clinical faculty and/or additional students with direct knowledge of the possible violation/s will be notified of the HCC date and time to be on standby for possible communication with the HCC.

6. The HCC will then meet, via conference call, to investigate the alleged violation/s. The meeting will be held according to the following steps:
   a. The HCC will establish a list of questions for the designated faculty member involved in the violation(s) as identified by the Department Chair or Program Director.
   b. The faculty facilitator will call the designated faculty member involved in the violation(s) and join her/him in the conference call. The faculty facilitator will ask the HCC’s questions. The designated faculty will then have an opportunity to make a verbal statement. The faculty facilitator will ensure that the designated faculty has been disconnected from the call.
   c. The HCC will establish a list of questions that they have for the student(s) in question.
   d. Then the faculty facilitator will call Student A and join her/him into the conference call. The faculty facilitator will ask the student the HCC’s questions, informing them that they do not have to answer any of the questions. Student A will then have an opportunity to make a verbal statement. The faculty facilitator will ensure that Student A has been disconnected from the call and then follow this same procedure for Student B and any other students, if appropriate.
   e. The HCC may request to speak with additional course faculty, regional clinical faculty, staff, and/or students with direct knowledge of the possible violations for clarification or account of what occurred.
   f. The HCC will then investigate the possible violation/s and render an opinion as to whether or not an Honor Code Violation has been committed. It is not the responsibility of the HCC to suggest disciplinary action.
   g. The faculty facilitator will record the minutes using the established template and forward the findings to the Student Policy Team of the Administrative Team.

7. The Student Policy Team of the Administrative Team will review the results of the HCC, or attestation of admission, and makes a determination regarding whether or not any actions are to be taken. Examples of possible actions (non-inclusive list): course or assignment failure, performance plans, and/or dismissal from the university.
   a. In the event there is a question regarding academic integrity of a course grade (possible Honor code violation) that is discovered after the course is complete and the grade has been officially submitted to the Registrar, the course grade may be revised and/or placed on suspension by using incomplete for didactic courses or in progress for clinical courses until the work in question is either cleared or found in violation of the FNU Honor Code.
   b. In the event a student initiates a university withdrawal before the honor code question is resolved, it will be documented in the student’s academic record that an HCC was convocated but not completed. The nature of the alleged violation will also be documented in the student’s academic record. Any ungraded courses at the time of withdrawal will be awarded a W or WF, depending on the timing of the withdrawal and in accordance with the academic calendar.

8. Once the Student Policy Team of the Administrative Team reviews the results of the HCC, or attestation of admission, and makes a determination regarding consequences, the Faculty in the courses involved in the alleged violation will submit grades earned by the student during the honor code process.

9. The appropriate Department Chair or Program Director will notify the student via email of the determination of the HCC (whether or not an Honor Code Violation/s was committed) and any decisions or actions of the Student Policy Team of the Administrative Team.

10. If it is determined that an Honor Code violation occurred, the violation will be documented in the student’s academic record.
**Admission of Honor Code Violation**
A student who is suspected of an honor code violation may admit the honor code violation and waive the right to a convocation of the Honor Code Council. In this situation, the student will be required to discuss the honor code violation with the Department Chair or Program Director. The student will then be required to meet with the Director of Student Retention & Records and the student’s Academic Advisor to sign an Attestation of Honor Code Violation regarding the violation and waiver of the Honor Code Council. The Student Policy Team of the Administrative Team will determine the consequences of such a violation. An admission of an honor code violation does not mitigate the potential consequences.

**Intellectual Property Policy for FNU Students**
Student work products, produced by course requirement and used as a basis of grading, remain the property of the student. A student working with a faculty member on a faculty member’s project is considered to be doing faculty work and is covered under the faculty policy.

**International Health Experience**
FNU has an International Health subcommittee which offered an international health experience for selected students and faculty in Guatemala and Haiti during 2006-2011. This program is not currently being offered through Frontier.

**Learning Plans and Performance Plans**

**Learning Plans**
If a student experiences a specific problem in either a didactic or clinical course, the student may be asked by the Department Chair (if the situation relates to a didactic course), the Clinical Director (if the situation relates to a clinical course), Program Director (PM-DNP students), Course Coordinator, Course Faculty, Regional Clinical Faculty, or Preceptor to write a Learning Plan. This student generated plan will identify the problem, the resources needed to resolve the issue, and a time frame for resolution. Examples of situations where Learning Plans may be initiated include delayed academic progress, problems with clinical skills, delayed submission of academic work, examination failures, second course withdrawal (excluding approved EAH), or issues regarding communication. The Learning Plan is written by the student in consultation with the Course Coordinator, Course Faculty, Regional Clinical Faculty, Clinical Director, Program Director, or Department Chair. Learning Plans for a second course withdrawal will be written by the student in consultation with the Department Chair (MSN and PGC students) or Program Director (PM-DNP students). Learning Plans are designed to improve student success by addressing a specific issue within a course and are not recorded on the student’s academic record. Failure to participate in the Learning Plan process is grounds for initiating a Performance Plan.

**Performance Plans**
A Performance Plan is initiated when a student is having a serious or multifaceted problem in either didactic coursework or clinical performance related, but not limited to academic performance, academic progress, and communication. Performance Plans are implemented to address and provide support in an area in which the student must improve in order to be academically and/or clinically successful. Examples of situations that prompt a Performance Plan include failure of a didactic course, third course withdrawal (excluding approved EAH), unsafe clinical care, failure of multiple tests and/or assignments, prolonged or arrested academic progress, poor communication, plagiarism, or professional issues. Performance Plans are recorded on the student’s academic record. Additional tuition and/or added term fees may be incurred if academic or clinical remediation extends beyond the original anticipated timeframe for program completion.

**Performance Plans Initiated by Didactic Course Failure**
The Performance Plan process for didactic course failure will begin once the final grade of F is posted to the student’s transcript. Students will establish the Performance Plan with their professional advisor no later than the last day of drop/add the following term (or 1 week after an F grade changes to an F). A required component of the
Performance Plan is for students to establish a Course Success Plan with the Course Coordinator of the repeated course no later than 2 weeks after the start of the term (or 1 week after an I grade changes to an F). The Performance Plan will largely focus on life factors, i.e. time management related to school/home/work responsibilities or test anxiety, and the Course Success Plan will focus on specific academic areas of improvement, i.e. improving performance on a specific type of assignment or techniques to improve comprehension of specific concepts. The Course Coordinator of the failed course will be contacted and participate in formulating the Course Success Plan. A Performance Plan initiated by a didactic course failure will be considered completed when the student successfully completes the repeated course. Because a second course failure results in academic dismissal, there is no escalation to a second Performance Plan due to a repeated course failure. Failure to participate in the process or agree to the terms of a Performance Plan is grounds for review for dismissal from FNU.

Performance Plans Initiated by Communication, Professionalism, Third Course Withdrawal, Plagiarism, and Clinical Issues
The Performance Plan process for all situations other than a didactic course failure will be initiated by the Department Chair (MSN and PGC students in didactic coursework), Clinical Director (MSN and PGC students in clinical coursework), or Program Director (PM-DNP students). A Performance Plan initiated by communication, professionalism, plagiarism, and clinical issues may be initiated at any point in time and is not strictly related to academic success in a course. A Performance Plan will be considered completed when the student successfully meets the objectives set forth in the Performance Plan within the established timeframe as designated in the Performance Plan. Failure to meet the objectives set forth in the Performance Plan within the established timeframe will result in a re-evaluation of the plan, escalation to a second Performance Plan, or review for potential dismissal from FNU. Failure to participate in the process or agree to the terms of a Performance Plan is grounds for review for dismissal from FNU.

Licensure
All students are required to maintain a current and unencumbered RN license while enrolled at FNU. If assignment to a clinical practice site requires that the student practice in another state, then the student is required to meet licensing requirements according to statutes and obtain the appropriate license.

Limitations to Attendance at Out of Hospital (OOH) Births While Enrolled in FNU Programs
FNU students (any specialty or degree) who are direct entry, licensed, or lay midwives and are not enrolled in a clinical course and attending a clinical site approved by FNU for out of hospital births must adhere to the established limitations to practice and attendance at out of hospital births (see the Midwifery and Nurse Practitioner Practice by FNU Students policy). Any questions regarding this policy should be directed to the appropriate Department Chair or Program Director.

FNU students (any specialty or degree) who are not direct entry, licensed, or lay midwives and are not enrolled in a clinical course in a clinical site approved for out of hospital births:
Frontier Nursing University encourages students to experience normal birth outside the hospital and accepts and supports the American College of Nurse-Midwives Position Statement on Homebirth that provides for the safety of mother and baby. If students plan to observe a birth in a birth center or home in any capacity or function in the role of RN, birth assistant, doula, etc., the following guidelines must be followed:

1) Written pre-approval by the Department Chair or Program Director and Clinical Director
   a) Please contact the appropriate Department Chair, Program Director, or Clinical Director to arrange a meeting to discuss and obtain written approval for attendance at out of hospital births while an FNU student
2) Experience must be with a licensed provider who has malpractice insurance coverage.
3) FNU students cannot be present at an out of hospital birth for Vaginal Birth after Caesarean Section (VBAC), multiple gestation, or breech birth.
Any questions regarding this policy should be directed to the appropriate Department Chair or Program Director.
Advanced Practice as an Enrolled FNU Student

FNU students may not practice in an unlicensed advanced practice role while enrolled as a student in a FNU. Practicing as an unlicensed nurse practitioner or midwife could have serious implications for the FNU malpractice coverage, and the viability of FNU. Practicing as an unlicensed advanced practice nurse while enrolled as a Frontier student, except with the direct supervision of the preceptor during the Clinical Practicum, will result in automatic dismissal from FNU.

Midwifery and Nurse Practitioner Practice by Frontier Students

Nurse-midwifery and nurse practitioner students may not practice as midwives or nurse practitioners while enrolled at FNU unless they are licensed and certified as a nurse-midwife and or nurse practitioner. FNU considers acting as the birth attendant to be considered the practice of midwifery. Students must not catch a baby because someone suggests they might as well get this experience now and have a head start on what they are going to be doing later even if that someone is a well-intentioned physician or certified nurse-midwife. Students (in any program and specialty) may not continue practicing as a direct entry, licensed, or lay midwife and may not be in attendance (in any capacity) at an out of hospital birth while enrolled as an FNU student while enrolled in the CNEP. Practicing as a direct entry, licensed, or lay midwife while enrolled as a FNU student will result in consideration for dismissal from FNU. Any questions regarding this policy should be directed to the appropriate Department Chair or Program Director. Practicing as a midwife or nurse practitioner could have serious implications for FNU. Practicing as a midwife or nurse practitioner while enrolled as a Frontier student, except with the direct supervision of the preceptor during the Clinical Practicum, will result in automatic dismissal from FNU.

Nurse practitioner students may not practice in an unlicensed advanced practice role while enrolled in any FNU program. Nurse practitioner students may not continue practicing as a direct entry, licensed, or lay midwife while enrolled in FNU. Practicing as an unlicensed nurse practitioner or as a midwife could have serious implications for the student and the University. Practicing as an unlicensed advanced practice nurse while enrolled as a FNU student, except with the direct supervision of the preceptor during the Clinical Practicum, will result in consideration for dismissal from FNU. Practicing as a direct entry, licensed, or lay midwife while enrolled as a FNU student will result in consideration for dismissal from FNU.

Frontier Nursing University encourages students to be exposed to birth outside the hospital and accepts the American College of Nurse-Midwives Position Statement on Homebirth that provides for the safety of mother and baby. If students plan to observe a birth in a birth center or home or function in the role of RN, birth assistant, doula, etc. it must be with a licensed provider who has malpractice insurance coverage. An FNU student cannot be present at an out of hospital Vaginal Birth after Caesarean (VBAC) unless it is at a Commission for Accreditation of Birth Centers (CABC) accredited birth center with approval for VBAC. FNU students cannot be present at an out of hospital birth for multiple gestation or breech birth. Students should contact the Clinical Director to discuss this before attending any out-of-hospital birth.

Nurse practitioner students may not practice in an unlicensed advanced practice role while enrolled in the CFNP, PMHNP or CWHCNP. Nurse practitioner students may not continue practicing as a direct entry, licensed, or lay midwife while enrolled in FNU. Practicing as an unlicensed nurse practitioner or as a midwife could have serious implications for the FNU malpractice coverage, and the viability of FNU. Practicing as an unlicensed advanced practice nurse while enrolled as a Frontier student, except with the direct supervision of the preceptor during the Clinical Practicum, will result in automatic dismissal from FNU. Practicing as a direct entry, licensed, or lay midwife while enrolled as a Frontier student will result in automatic dismissal from FNU.

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act of 1974 (FERPA), ensures students have the right to privacy in their education records and affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student’s education records within 45 days of the day Frontier Nursing University (FNU) receives a request for access.
A student should submit to the Registrar a written request that identifies the record(s) the student wishes to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Registrar, the student will be advised of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.
   - A student who wishes to ask FNU to amend a record should write the FNU Registrar, clearly identify the part of the record the student wants changed, and specify why it should be changed.
   - If FNU decides not to amend the record as requested, FNU will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
   - The right to provide written consent before FNU discloses personally identifiable information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.
   - FNU discloses education records without a student’s prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by FNU in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom FNU has contracted as its agent to provide a service instead of using FNU employees or officials (such as an attorney, auditor, collection agent, or clinical site); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for FNU.

3. The right to file a complaint with the U.S. Department of Education concerning alleged failures by FNU to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

   Family Policy Compliance Office
   U.S. Department of Education
   400 Maryland Avenue, SW
   Washington, DC 20202-5901

Disclosure of Directory Information

The Family Educational Rights and Privacy Act (FERPA), allows FNU to disclose appropriately designated “directory information” without written consent, unless a student has advised FNU to the contrary. The primary purpose of directory information is to allow FNU to include this type of information in certain school publications. Publication examples include:

- The FNU Directory
- Newsletter Articles
- Alumni Listings
- Commencement programs
- Student Council Lists

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a student’s prior written consent. Outside organizations include, but are not limited to, organizations such as the American College of Nurse-Midwives or the American College of Nurse Practitioners and/or companies that publish textbooks or make commencement pins and regalia.

If a student does not want FNU to disclose directory information without their prior written consent, the student must notify FNU in writing by the first day of each term. The notice should be sent directly to the Registrar. This notification will result in the student’s name not being included in course roster lists or the school directory. The result is that the student will be responsible for directly assuring that everyone who needs their contact information has that information.
FNU has designated the following information as directory information:
- Student’s name
- Participation in officially recognized activities (For example: Student Council, SAGE mentoring)
- Address
- Telephone listing
- Electronic mail (email) address
- Photograph
- Degrees, honors, and awards received
- Major field of study
- Dates of attendance

Pets on Campus
No pets allowed on campus. Only service animals are permitted.

Plagiarism Policy and Procedure
Plagiarism is the representation of another person’s ideas or writing as one’s own. Plagiarism is an infraction of academic integrity prohibited by the FNU Honor Code.

The most serious form of plagiarism involves an entire work or section of work taken verbatim from another source and submitted as original work. A serious breach in academic integrity, related to plagiarism, will result in the student being referred to the Student Policy Team of the Administrative Team for a possible Honor Code Violation, which may result in the convening of an Honor Code Council. An Honor Code violation can lead to dismissal from Frontier Nursing University.

Any of these examples are considered plagiarism and constitutes a serious breach of academic integrity:
1. Submitting a paper, examination, or assignment written by another.
2. Word-for-word copying of another’s writing from the internet, hard copy text, and/or personal communication, without enclosing the copied passage in quotation marks and acknowledging the source using appropriate APA format.
3. The use of a unique term or concept taken from a source without acknowledging that source.
4. The paraphrasing or abbreviated restating of someone else’s ideas without acknowledging that person.
5. Falsely citing a reference that was never actually consulted, or making up a citation.
6. Falsely reporting data that was never actually collected or that showed contrary results.
7. Unacknowledged multiple authors or collaboration on a project or paper.
8. Unless expressly approved, submitting previous work, or parts of previous work, from any FNU course (including a repeated course) or course work from any other program.

Minor examples of plagiarism - Writing Errors
The following examples are considered minor breaches of academic integrity:
1. Missing citations
2. Verbatim copying of a single sentence
3. Poor adaptation of a sentence with a citation present
4. Pasting of a sentence with an incorrect citation that does not designate the material as being a direct quote.

Because continually submitting work with writing errors constitutes plagiarism, when an instance of plagiarism is determined by the faculty to be a writing error and not a serious example of plagiarism, the following steps will be taken:
1. Course faculty examine the student’s academic record to determine if the student has had a previous statement entered about writing errors or possible plagiarism.
2. Course Coordinator to send an email to the student describing the concern of possible plagiarism and include the passage(s) in question. The email should ask the student to provide the original passage, the passage in question, the original source, an explanation of how they approached citing this passage, and
if the student had any outside help with the passage or citation (for every passage in question). The email should also request a meeting with the student to discuss the information.
3. Student must review the plagiarism policy and honor code statement before the meeting.
4. Course Coordinator meets with the student and decides if plagiarism occurred, and if so, the type of plagiarism.
5. Course Coordinator determines if the offense is serious enough to be brought to the attention of the Department Chairs. If so, the information will be sent via email to the Department Chairs for further investigation and decision to take the issue to Honor Code Council.
6. Course Coordinator enters the information into the student’s academic record with an alert to the Academic Advisor.

Prerequisites and Planning for Clinical Bound

Clinical Bound Prerequisites

The prerequisites to attending Clinical Bound are:
- The student must meet all prerequisite health requirements.
- Successful completion of all courses that are prerequisite to Clinical Bound.
- Completion of Level I and Level II Course Evaluations.
- Completion of Clinical Bound preparatory course readings and assignments.
- Submission of registration materials to the Versailles Campus
- Completion of Pre-Clinical Interview with Regional Clinical Faculty (RCF)
- Certification in Basic Cardiac Life Support (BCLS) offered by either the American Heart Association or Red Cross must be current and remain current throughout the Clinical Practicum for all students. ACLS certification cannot be substituted for BCLS certification.
- Certification in Neonatal Resuscitation offered by the American Academy of Pediatrics and American Heart Association must be current and remain current throughout the Clinical Practicum for nurse-midwifery students.
- Students must have an identified clinical site that has been submitted to the Clinical Credentialing Department. This must be accomplished before the registration period in which the student is registering for Clinical Bound courses. Students cannot be registered for Clinical Bound until a site has been identified and submitted to Clinical Credentialing.

Note that successful completion of the Clinical Bound PC course (sequenced first in Clinical Bound schedule) is required before progression to the specialty Clinical Bound courses is allowed. If a student is unable to successfully complete the Clinical Bound PC course, they must withdraw from their specialty Clinical Bound course.

Clinical Bound Planning

All students will have a phone meeting with their Student Advisor two terms before they intend to attend Clinical Bound to discuss their academic progress and plan to complete all prerequisites prior to the scheduled Clinical Bound. The Advisor reviews progress with the student and sets realistic goals regarding attending Clinical Bound. The student is reminded that the RCF needs to be contacted for a pre-clinical interview prior to attending Clinical Bound.

The student contacts the appropriate RCF as soon as sites are identified to review the clinical plan and to have clinical sites approved and submitted to credentialing by the RCF. The student meets with the RCF up to 3 terms before going to Clinical Bound to get an assigned CB date. The student has to have approved sites before being assigned a specific CB date. If the student needs to change CB dates, the student must send a request letter to the RCF and to the appropriate Department Chair and Clinical Director for review. It is the student’s responsibility to notify their RCF, their preceptor, Credentialing, and the Versailles campus if there is any change to their CB date.

Any physical limitations and/or needed accommodations that may affect a student’s full participation in clinical must be discussed with the Department Chair and Clinical Director prior to Clinical Bound.
Clinical Prerequisites
- The student must meet all prerequisite clinical compliance requirements described in the Clinical Compliance section of this catalog.
- Successful completion of all courses that are prerequisite to Clinical Courses.
- Completion of Clinical Bound Course Evaluations.
- Review individual site contracts through My Clinical Plan. The student is responsible for any site specific requirements that are described in the Clinical Site Agreement and must meet those requirements at their own expense.
- Have final approval for each clinical site from RCF before attending the first day of clinical at the site.
- Mobile clinical resources are provided by the FNU Library one time only for a subscription period of one year (which begins upon registration of the application).

Probation (formerly Suspension)
A student who is on probation is not allowed access to any course work or to any forums. They will retain access to the email system and the portal page including FNU Catalog and directory.

Professional Conduct
FNU recognizes that honor is an individual’s achievement and cannot be imposed by others. The efforts of each individual affects the group — the “all for one, one for all” principle. The benefits of honorable conduct by each individual, whether student, faculty, staff, or administration, are obvious. The reputation of FNU is enhanced by honorable conduct and the value of the education received in FNU is increased. Conversely, FNU’s reputation and the value of an FNU education could be damaged by violations.

FNU expects the highest ethical standards from its students. The nurse practitioner and nurse-midwifery professions demand that individuals be prepared to practice competently and safely and be accountable for all their behaviors. Integrity, moral soundness, honesty, uprightness in character and actions—these are a few of the definitions of professional conduct. Integrity is the most critical characteristic students bring to FNU and it will be the most critical characteristic they will take with them into professional practice.

Research
Students who are planning to complete a research requirement and desiring to utilize FNU related data must review the Policies and Procedures Related to Research and complete a research application. These documents are available from the Office of Research.

Safety and Security While on the Versailles Campus
For assistance call a Campus Safety & Security team member at (This ring central number is TBD) or in an emergency, call 911 from any campus RingCentral phone (If you need to call 911 in an emergency and you are not on campus, please use a cell phone ensuring that you are not using the RingCentral Mobile phone app or use another phone to dial 911. RingCentral will dial the 911 operator in Versailles KY and will see 2050 Lexington Rd as the originating location).
FNU offers a comprehensive safety and security program including 24 hour security presence when faculty and students are present, video surveillance throughout our campus, a card key door control access system for all student buildings and monitored fire alarm protection devices in all student buildings. The FNU Safety & Security team enjoys having a great relationship with the Versailles Police (VPD) and Fire & Rescue Departments and is a critical component of FNU’s Campus Safety and Security plan.

When students are in residence at the Versailles campus, a Safety & Security officer will be on duty. When faculty and students are present, only authorized students, faculty, and staff will gain entrance to the FNU grounds from 10:00 pm EST to 6:00 am EST. Students, faculty, and staff will be required to identify themselves to the Safety & Security officer upon entering the FNU grounds. The Safety & Security officer will notify the VPD immediately of any infraction of the law. All students, faculty, and staff are expected to cooperate with FNU’s Safety & Security officer.
Students, faculty, and staff should maintain awareness of campus safety, and immediately report issues and circumstances that may reduce safety and security for our FNU community to the Facilities and Security Manager, the Safety and Security officer on duty or complete an Accident & Incident report form.

FNU is not liable for student’s’ faculty or staff’s personal possessions on the school campus. While on the Versailles campus students should take the following actions to protect themselves and their belongings:
1. Know and follow the FNU safety policies.
2. Carry your keys in your hand when walking to your car.
3. Be aware of your surroundings.
4. Be familiar with the general layout of the buildings and walkways (walk around campus during the day to familiarize yourself).
5. Walk or jog in groups and stay in well lit areas.
6. Follow instructions of school employees, law enforcement officials, or other emergency response personnel.
7. Stay away from isolated areas.
8. Do not carry large amounts of cash.
9. Do not display expensive jewelry.
10. Keep doors locked when alone and during the night hours.
11. Do not let strangers in any FNU buildings.
12. Lock valuables when not attended.
13. Lock car doors.

Pursuant to the provisions of the Federal Crime and Campus Security Act of 1990, FNU makes crime rates and statistics available as well as security policies and procedures to interested parties. To receive a copy of this information, please contact the Facilities and Security Manager on campus, (859) 251-2036.

Facilities and Security Manager contact information:
David Fritz
(859) 993-6936 Extension 4661, Direct line: (859) 251-2036 & Cell Phone: (859) 388-0322.
Email david.fritz@frontier.edu

**Satisfactory Academic Progress (SAP)**

Federal regulations require all students who receive financial assistance through federal student aid Title IV programs make satisfactory, measurable progress towards a degree or approved program of study. Satisfactory Academic Progress (SAP) consists of three components measured by qualitative and quantitative progress; these are GPA, pace, and maximum credit hours (time frame). Students must meet the following standards to achieve SAP.

These standards are for financial aid purposes only and neither replaces nor overrides the academic policies of Frontier Nursing University. Students should review the University’s academic policies to ensure full compliance. SAP will be reviewed during each term a student is enrolled.

**Qualitative Progress – Cumulative GPA**

In order to achieve qualitative SAP, a student must maintain a cumulative GPA of 3.0 or greater. Grades received for transferred courses from other institutions are not included in Frontier Nursing University’s GPA calculations.
Quantitative Progress – Cumulative Pace

Quantitative progress measures the pace at which a student must progress through their degree program. This consists of two components: completion rate and maximum credit hours (time frame).

Completion rate

This quantitative component requires that a student earn 66.67% of the coursework he/she attempts cumulatively. For example, a student who attempts 9 credit hours in one term, must earn at least 6 of those hours in order to meet this requirement.

Maximum credit hours (time frame) for degree completion

Students are expected to complete their degree within a maximum credit hours (timeframe) as determined by the University. Maximum credit hours (time frame) for degree completion is determined by evaluating the cumulative percentage of attempted hours vs. required degree hours. A student’s total cumulative attempted hours may not exceed 150% of the minimum hours needed to complete his/her degree program. For example, a student working towards a Master of Science in Nursing degree consisting of 64 credit hours may not attempt more than 96 hours to earn the degree. Refer to academic policy for maximum number of years allowable for degree completion.

*All prior course work at Frontier Nursing University counts towards SAP, not just those terms in which the student is receiving federal student aid.*

Treatment of course repeats, transfer credits, failed courses, incompletes, S/U grades, and withdrawals in relation to SAP

Failure to meet SAP requirements

Financial Aid Warning

SAP will be reviewed at the end of each term a student is academically enrolled. Students who do not meet the standards of SAP at the end of a term will automatically be placed on warning for the following term of enrollment. If a student is placed on warning due to an I or IP grade, SAP will be reassessed once the I or IP grade is replaced with a passing grade, as defined in the University’s catalog. The I or IP grade must be replaced either within the time frame stated in the university catalog or by the extension date provided by the Student Review Committee. The warning will be lifted once the grade is replaced and the student has met SAP.

Financial Aid Suspension

At the end of the warning period term, the student must again be making SAP as outlined in the policy. A student who fails to do so will be placed on financial aid suspension and will no longer be eligible for federal student aid Title IV funding. Financial aid suspension will be lifted once the student is back in compliance with the SAP policy.

Financial Aid Probation

If a student is placed on financial aid suspension, he/she has the right to appeal this decision. If the appeal is approved, the student will be placed on financial aid probation and will be permitted to receive federal student aid Title IV funding for ONE term. If it is determined it will take the student more than one term to regain eligibility the financial aid office will collaborate with the student’s Advisor and/or the Department Chair to create a specialized academic plan. The student’s progress will be checked each term to determine if the student is meeting the requirements within the academic plan.

SAP appeals

Students may submit a Satisfactory Academic Progress Appeal if their schooling was adversely affected by one of the following situations:

1. Injury or illness of the student, includes both physical or mental illness
2. Death of a family member
3. Other extenuating and unforeseeable circumstances

Within the SAP appeal, students must submit all of the following:

A. Supporting documentation of the situation which caused the student to fall below the minimum standards
B. Written explanation of what has changed which would allow the student to successfully progress in their studies AND
C. Specify what measure(s) are being taken to ensure academic progress will improve if the appeal is granted
The appeal must be made in writing and should be accompanied by appropriate supporting documentation. Appeals are to be submitted to the Financial Aid Office for evaluation. Decisions will be communicated to the student within 14 days of the time the appeal was submitted via his/her Frontier Nursing University email account.

*W, I, or IP grades are not counted as successfully completed courses. I and IP grades are counted as successfully completed courses only after they have been converted to a passing grade.

- Attempted Credits: 21
- Successfully Completed: 15
- SAP Percentage: 15 / 21 = 71%

**Student Loan Deferments**

Student Loan Deferments are processed by the Registrar’s office. Please allow a five (5) business day turnaround time for the completion of paperwork. Please note it is the student’s responsibility to ensure that lenders receive the completed paperwork and to ensure that their status is current with all lenders.

**Substance Use**

**Alcohol & Drug Prevention Program & Policy**

Under the “Drug Free Workplace Act of 1988” and the “Drug Free Schools and Communities Act Amendments of 1991” Frontier Nursing University is required to notify all employees and students of its specific alcohol and drug policy program. The elements of the policy and program include consequences that may follow the use of alcohol and other drugs, and sanctions that may be applied both by the University and by external authorities. The law requires that individuals be notified of possible sources of assistance for problems that may arise as a result of use.

This policy is intended to educate members of the University community about the health risks associated with the use and abuse of alcohol and other drugs and about the resources available for counseling and therapy. In
addition, in order to assure a work and learning environment that promotes the University's mission and proper function, the University prohibits the unlawful possession, use, or distribution of alcohol or illicit drugs by faculty, staff, or students. Federal and state sanctions also apply to such conduct.

Prevention strategies include efforts to change inappropriate community norms regarding alcohol and other drug use, to alter environmental factors that support inappropriate use, and to provide information and skills regarding sensible use.

FNU reserves the right to test for drugs and/or alcohol those students who could reasonably be suspected of drug or alcohol abuse, based on appearance, smell, speech, irrational or unusual behavior, or carelessness or disregard for the safety of others. This suspicion may be raised by students, faculty, staff, preceptors, or other concerned parties. Urine or blood samples would be obtained under the supervision of an appropriate health care professional. Results of any drug/alcohol test may be shared with the members of the Student Policy Team of the Administrative Team and may result in disciplinary action up to and including dismissal. The drug/alcohol tests will not be conducted if an individual refuses to submit, however, refusal to submit may result in immediate referral to the Student Policy Team of the Administrative Team for dismissal.

Health Risks
The use or abuse of alcohol and other drugs increase the risk for a number of health related and other medical, behavioral, and social problems. These include acute health problems related to intoxication or overdose (blackouts, convulsions, coma, death); physical and psychological dependence; malnutrition; long-term health problems, including cirrhosis of the liver, organic brain damage, high blood pressure, heart disease, ulcers, and cancer of the liver, mouth, throat, and stomach; contracting diseases, such as AIDS, through the sharing of hypodermic needles; pregnancy problems including miscarriages, stillbirths and learning disabilities; fetal alcohol syndrome (physical and mental birth defects); psychological or psychiatric problems; diminished behavior (hangovers, hallucinations, disorientation, slurred speech); unusual or inappropriate risk-taking which may result in physical or emotional injury, or death; violent behavior towards others, such as assaults and rape; accidents caused by operating machinery while impaired; impaired driving resulting in alcohol and drug-related arrest, traffic accidents, injuries, and fatalities; negative effects on academic or work performance; conflict with co-workers, classmates, family, friends, and others; conduct problems resulting in disciplinary actions, including loss of employment; and legal problems including imprisonment.

Counseling and Treatment Programs
The University encourages individuals with alcohol or other drug-related problems to seek assistance. If a student is enrolled in or seeks counseling for alcohol or other drug-related problems, he/she is required to discuss the situation with the appropriate Department Chair, Program Director or Clinical Director to formulate a plan for support during the educational process. Access this link for Confidential Assistance for Frontier Nursing University students, faculty and staff members.

Counseling and Support Services
Additional information on local, state, and national resources can be accessed by clicking the Confidential Assistance link.

University Sanctions
Unlawful possession, use, manufacture, or distribution of alcohol or illicit drugs by faculty, staff, or students may lead to sanctions within the University, the severity of which shall increase as the seriousness of the violation increases. Consequences may include:

- A verbal or written disciplinary warning, with notice that repetition of the offense or continuation of the offense may result in a more serious sanction up to and/or including separation from the University;
- Required completion of an appropriate rehabilitation program, at the student's expense, in order to continue enrollment or employment;
- Required ongoing plan of support for the student which may include ongoing drug testing and reporting;
- Suspension from the University (student) or from employment (employee) or from a specific University activity or facility for a fixed period of time or until completion of specified conditions, such as completion of an appropriate rehabilitation program, at the individual's expense;
- Expulsion from the University (student) or termination of employment (faculty and staff)
Other Appropriate Sanctions: External Sanctions
Unlawful possession, use, manufacture, or distribution of alcohol or illicit drugs may also lead to a referral to the appropriate local, state, and/or federal authorities for prosecution for a misdemeanor or felony, depending on the nature of the offense. The sanctions for such offenses may include fines and/or imprisonment.

For example, under federal laws trafficking in drugs such as heroin or cocaine may result in sanctions up to and including life imprisonment for a first offense involving 100 grams or more. Fines for such an offense can reach $4 million. Offenses involving lesser amounts, 10-99 grams may result in sanctions up to and including 20 years imprisonment and fines of up to $20 million. A first offense for trafficking in marijuana may lead to sanctions up to life imprisonment for an offense involving 1,000 kg or more or up to 5 years imprisonment for an offense involving less than 50 kg. Such an offense carries with it fines that can reach $4 million for an individual offender.

In Kentucky, first offense driving under the influence of alcohol or a controlled substance will result in a fine of $200 - $500 and imprisonment in the county jail for 2 – 30 days. A second offense within a five year period will result in a fine of $300 - $500, imprisonment in the county jail for 7 days – 6 months, and possibly community service labor for 10 days to 6 months.

Employee Reporting Requirement
Under the Drug-Free Workplace Act of 1988, in addition to the other requirements of this policy, a faculty or staff member who works in any capacity under a federal grant or contract must notify his or her University supervisor or department head, in writing, of his or her conviction for a violation of any criminal drug statute no later than five calendar days after such conviction. This applies to direct charge employees and to the indirect charge employees who perform any support or overhead functions related to the grant.

Distribution of Policy
A copy of this policy statement shall be located in the FNU catalog which is available to all faculty, staff, and students via the Banyan Tree Portal Page.

Review of University Program and Policy
Biennially, the University shall review its “Alcohol and Drugs Prevention Program and Policy” to determine the program’s and policy’s effectiveness and implement changes, if needed, and to ensure that the University's disciplinary sanctions are consistently enforced.

To be under the influence of drugs or alcohol while providing patient care could jeopardize the health and safety of clients and would be a prime cause for the Student Policy Team of the Administrative Team to recommend dismissal.

A complete copy of the Frontier Nursing University Substance Abuse Policy and Comprehensive Substance Abuse Testing Program is available to any student. This may be obtained by calling the Human Resources Director on the Versailles Campus at (859) 251-4700.

Tobacco Use Policy
Introduction
Frontier Nursing University is committed to the prevention of illness and injury through the provision and maintenance of healthy and safe conditions on its premises and due diligence in its activities.

Frontier Nursing University endeavours to provide a healthy and hazard-free environment and minimize risks by adherence to all relevant legislation, and where appropriate, through the development and implementation of additional internal standards, programs and procedures.

Frontier Nursing University recognizes scientific evidence indicating that tobacco products are harmful to one’s health and to the health of others through exposure to secondhand smoke. Tobacco use, such as smoking, dipping and chewing, can cause many illnesses such as cardiovascular and respiratory diseases and cancer. In
fact, cigarette smoking is the leading cause of preventable death and disability worldwide. Non-users exposed to secondhand tobacco smoke can also incur illnesses such as asthma, bronchitis, cancer, chronic pulmonary and cardiovascular diseases.

Frontier Nursing University recognizes tobacco as an addictive substance and is committed to providing information aimed at providing protection from secondhand tobacco smoke while supporting those addicted to nicotine with resources for smoking cessation services such as counseling and medications.

**Purpose**
The purpose of this policy is to:
- provide protection from secondhand tobacco smoke
- communicate smoking and tobacco use restrictions
- recognize that tobacco is an addictive substance, and provide tobacco cessation support to members of the campus community who are addicted to tobacco products
- prevent tobacco uptake, and promote a tobacco-free lifestyle and tobacco cessation
- reduce the ability of tobacco companies to normalize tobacco products and tobacco use
- reduce fire risks

**Scope**
This policy applies to anyone on the Frontier Nursing University Versailles campus.

All events hosted on Frontier Nursing University Versailles Campus are subject to this policy.

**Definitions**
“Smoking” means inhaling, exhaling, burning, carrying or possessing any lighted tobacco products, including cigarettes, cigars, beedi, pipe tobacco, water-pipes, hookahs or any other lit tobacco products, as well as any product consumed in a similar manner; or the use of a vaping device with or without nicotine or tobacco products, electronic cigarettes or any other device intended to simulate lighted tobacco use.

“Tobacco products” means cigarettes, cigars, pipe tobacco, hookah, smokeless tobacco, snuff, chewing tobacco, smokeless pouches, dissolvable tobacco products like orbs (dissolvable tobacco pellets), sticks, and strips or any other forms of ignitable or smokeless tobacco.

“University property” means the Frontier Nursing University Versailles Campus including the interiors and exteriors of all buildings, land, parking facilities, university-owned or -leased vehicles (regardless of location), athletic facilities.

**Policy Statements**

**PART A: Sale and Promotion of Tobacco Products**
Frontier Nursing University prohibits the promotion, advertising, or sale of any tobacco products or related paraphernalia on Frontier Nursing University owned, rented or leased property.

In addition and in accordance with the federal Tobacco Act, corporate tobacco sponsorship of Frontier Nursing University events or groups is prohibited.

Frontier Nursing University, employees, students and retailers operating in buildings owned, rented or leased by Frontier Nursing University are prohibited from entering into contractual agreements with tobacco companies or companies that promote tobacco.

**PART B: Support for Tobacco Cessation**
**Students:** All students can get tobacco cessation assistance from local state funded programs. Tobacco cessation medications (prescription and over-the-counter) are usually covered in personal insurance plans.

**PART C: Designated Tobacco Use Areas**
There are no outdoor Designated Tobacco Areas at Frontier Nursing University Versailles Campus, smoking and smokeless tobacco use are prohibited on campus, including all properties and vehicles owned, rented or leased
by Frontier Nursing University. All forms of tobacco use in personal vehicles on the Versailles campus is prohibited. All persons who wish to smoke, vape, or use tobacco products will be directed to an adjacent property to use tobacco products.

Signs at building entrances and the main points of entry to the Versailles campus (i.e., building entrances, campus entry, parking lots, walking trails, etc.,) shall indicate the non-tobacco status of the university.

**Compliance with Tobacco Use Policy**

Student failure to comply with the tobacco use policy will invoke disciplinary action. The first offense will result in a verbal and written warning and further explanation of the policy by the Administrative person on campus. A second offense may result in a request to leave the property. Other disciplinary actions will be outlined according to the performance plan policy as outlined in the University catalog.

**Education about Tobacco Use Policy**

The Tobacco Free Campaign will issue an announcement about the new initiative along with a timeline of events and go-live date of the policy. Education and promotional items will be utilized to increase awareness to all stakeholders of the new initiative.

Students will receive information on the tobacco free policy upon admission to the University, in the catalog. In addition, students attending campus for Campus tours, Frontier Bound, Clinical Bound, PMHNP Bound, PM-DNP Bound, and graduation will receive information in their event material.

Frontier Nursing University Tobacco Free Ambassadors program is aimed at creating an environment of campus ownership and responsibility for maintaining a tobacco free campus. This is a university-wide initiative comprised of staff, faculty and students who are empowered to educate the campus community about the FNU Tobacco Free policy, encourage and monitor compliance. The Tobacco Free Ambassador program will utilize an evidence-based smoking cessation module along with simulations on how to effectively approach and educate tobacco users about the policy. Tobacco Free Ambassadors will recognize tobacco users with positive reinforcement incentives and provide friendly reminders and information to students, employees, and visitors using tobacco products on campus. These interactions are central to promoting a healthier campus.

**PART D: Participation of Tobacco Companies in Job Recruitment Fairs**

Companies that manufacture, distribute or sell tobacco products are excluded from participating in campus career fairs and other recruitment activities.

**PART E: Contracts with Tobacco Companies**

Frontier Nursing University will not knowingly accept funding or other forms of support, including research grants, staff positions, or student scholarships, from tobacco companies or from any agencies or foundations in which the tobacco industry has an influence, either directly or indirectly.

**PART F: Investments in Tobacco Companies**

The Frontier Nursing University Board of Directors has adopted a socially responsible investment policy and does not invest, directly or indirectly, in any tobacco company.

**Transcript Requests**

The permanent academic record of all students enrolled at Frontier Nursing University and all alumni is maintained in the Office of the Registrar. Transcripts are available from the Registrar only upon student or alumnus written and signed request. No transcript will be provided for any student who has outstanding financial obligations to FNU. Requests for transcripts can be made online from the Registrar section of the [FNU Portal](https://www.fnu.edu) and the request will be completed once payment has been made.

The current fee for transcripts can be found in the [Tuition and Fees](https://www.fnu.edu) section of the FNU catalog.
Transfer from One Specialty Track to Another
Students may request a track change between specialties within the same degree at any time. In order to be considered for the track change, the student must be in good academic standing. Students must request permission and receive approval from the Department Chair of the specialty track they wish to leave and the Department Chair of their intended new track. Students changing tracks within a single department only need approval from their current Department Chair.

If a student receives approval from both Department Chairs and is allowed to change tracks, the student must submit the required status change form and remit payment for the Track Change fee. The student will work with their Academic Advisor, in consultation with the Department Chair as needed, to set up the new Program of Study.

Approved track change requests will be effective on the student’s academic record in the immediately subsequent term. If a student is approved to change tracks the same term they are on academic hiatus, the track change will be effective in the first term following the hiatus. If a student is approved to change tracks after the first day of a term, but prior to the end of add/drop, the student may request permission of the Department Chair or Program Director for the change to be effective in the current term. The Department Chair or Program Director will inform the Registrar of this special approval.

Updating Personal Information on the Student Record
FNU relies on current and accurate records to provide adequate support to students, and for federal and state reporting guidelines, and for internal reporting and planning. Students are required to report changes as indicated below:

Address Change
Once a student is enrolled at FNU, the address reported during the application process will be used as the student’s address of residence. If a student moves while enrolled at FNU, they must change their address of residence through Self-service. As stated in the Licensure policy in this Catalog, students are responsible for maintaining a current and unencumbered RN license in their state of residence.

Due to regulatory restrictions by the New York State Department of Education, FNU MSN or PGC students can not attend clinical experiences in New York state. Current MSN or PGC students with a need or desire to move to New York state while enrolled in the MSN or PGC should consult with their Department Chair immediately.

Gender Change
Once a student is enrolled at FNU they can request a change in gender to be made to their academic record. To request an official gender change to the academic record, please contact the Registrar, registrar@frontier.edu for processing. Students receiving financial aid should contact FNU Financial Aid or the Department of Education to determine if additional documentation may be required. Students who have not yet matriculated into the university should contact their Admissions Officer.

Name Change
Once a student is enrolled at FNU they can request the name on their academic record be changed by submitting legal documentation or a form of government-issued ID (e.g. passport, driver’s license, etc.). To request an official name change, enrolled students should complete the Name Change Request form through the Status Change process in their Self-Service account. Students who have not yet matriculated into the university should send the required documentation to their Admissions Officer.
Withdrawal from FNU

A student may decide to withdraw from FNU at any time. This decision should be discussed with the appropriate Department Chair or Program Director to explore alternative options. Once the final decision has been made, the student must submit a written request via the Status Change form. The date of the withdrawal will be determined by the date of the Status Change form submission and in accordance with federal financial aid guidelines.

Students are expected to remain academically engaged in all registered courses in a given term. When it is identified that a student is no longer participating in a course, the Course Coordinator and the Department Chair or Program Director will collaborate to determine if the student is considered academically engaged. If it is determined that a student is no longer academically engaged in any of their registered courses in a given term, the student will be brought forward to the Student Policy Team of the Administrative Team. Students that are determined by the Student Policy Team to be academically unengaged will be withdrawn from FNU. The official date of withdrawal will be the last date of academic engagement.

Courses in progress at the time of institutional withdrawal will be granted a W or WF grade in accordance with the Withdrawal From a Course policy. If the institutional withdrawal occurs during the add/drop period, any courses in progress will be processed according to the Adding and Dropping Courses policy.

MSN, PGC, and DNP students who choose to withdraw from FNU but have the intent to apply for readmission to FNU at a later date should consult the Degree Completion Policy for allowable completion timeframes for readmitted students. It is possible for students to be required to retake previously completed courses upon readmission.

Students admitted via the ADN Bridge Entry Option who choose to withdraw from FNU but have the intent to apply for readmission at a later date should consult the Degree Completion Policy for allowable completion timeframes for readmitted students. *FNU is no longer admitting students into the ADN Bridge Entry Option program. The last cohort to enter the Bridge Program was April 2020.*
Clinical Project Policies in the DNP

The policies in this section apply to all FNU students enrolled in the DNP program. Policies are listed separately for easy reference. All other FNU policies also apply to students during the DNP Clinical Practicum.

Checklist for Students Beginning the Clinical Practicum in the DNP

The complete timeline for DNP students preparing for entry into clinical can be found in the DNP Clinical Prep course in Canvas. The timeline and course in Canvas contain the most accurate and up-to-date requirements. Attendance at Clinical Bound is not required for students in the DNP program.

Prior to beginning the Clinical Practicum students will:

- Complete all required Clinical Compliance requirements [see Clinical Compliance section]
  - DNP students submit the Clinical Site Approval Form per the instructions in DNP Clinical Prep 101 in Canvas.
  - Potential clinical sites must be credentialed before students can begin clinical experiences at the site.
- Review the DNP Clinical Practicum Policies in the FNU Catalog.
- Contact site sponsor and mentor to finalize arrangements for clinical.
- Arrange a pre-clinical advising meeting with the assigned DNP clinical faculty (by state) in the term prior to entry into the DNP Clinical Planning course (PC740).
- Submit the DNP Clinical Site Sponsor and Mentor Agreement

Clinical Compliance Requirements for DNP Students

All FNU students completing a clinical project are required to maintain current Clinical Compliance throughout the clinical experience. Documentation for all Clinical Compliance requirements, except the CSAF, are completed via Castlebranch.

All FNU students should review Clinical Compliance instructions as outlined in DNP Clinical Prep course in Canvas including the FNU Blood Borne Pathogen Exposure Plan.

The following Clinical Compliance requirements must be on file with FNU before students are permitted to register for PC740: DNP Clinical Planning. Clinical sites may have additional requirements, which students are required to complete in order to rotate at the site.

- Clinical Site Approval From (CSAF) for the project site is submitted via the instructions in DNP Clinical Prep 101. This is the only requirement not submitted via CastleBranch.
- If DNP students are employed in their clinical site, they do not have to maintain current clinical compliance for the university but must adhere to all/any requirements of their employer.
- If DNP students are volunteering in their project site, the following requirements must be completed in CastleBranch.
  - Unencumbered nursing license in all states, or eligible for nursing compact state licensure, where clinicals will be completed unless the student is rotating at a site that permits any US nursing license. (military, Indian Health Services, etc). RN license verification must be completed through Nursys Quick Confirm.
  - Certification in Basic Cardiac Life Support (BCLS/BLS) for adults, pediatrics, and infants offered by either the American Heart Association (AHA, preferred), an approved AHA course provider, or the American Red Cross. Must be current and remain current throughout the Clinical Practicum for all students. ACLS is not a substitute. AHA certification cards issued by a course instructor must meet the criteria described by the AHA.
  - Clinical background check (see Background Check Policy and Procedure section of this Catalog for additional details).
Complete all sections of the FNU Student Health Verification Form including documentation of vaccinations or titers per the guidelines in the Health Form Guidelines and Checklist. Non-university forms will not be accepted. FNU Student Health Verification Form cannot be older than 12 months at any time during the clinical project. It is the student's responsibility to keep these documents current.

- OSHA/HIPAA training module and the HIPAA Agreement Form in DNP Clinical Prep 101.
- Documentation that the student is enrolled in a personal health insurance plan or maintains membership through a health sharing program in lieu of personal health insurance. Maintaining health insurance or membership in a health care sharing program is required for the entirety of the clinical experience and a student's enrollment at FNU. Clinical sites may not accept health sharing membership programs.
- FNU records release form.

**DNP Clinical Site Sponsor and Mentor**

The purpose of having a DNP Clinical Site Sponsor and Mentor is to ensure the project expectations and potential time commitments are clear to all parties at the start. DNP students may not complete clinical projects in sites owned or administered by a first-degree family member, e.g. spouse, parent, or child. For further clarification of this requirement please contact the DNP Program Director.

The student, the site sponsor, and the site mentor must sign the Sponsor/Mentor agreement form no later than Week 8 prior to the term the student enrolls in PC740. Additional details can be found in the DNP Clinical Prep 101 course in Canvas.

**Role Definitions:**

- **Sponsor** - No defined level of education, has authority over some day-to-day operations, can help facilitate QI project development and implementation, will serve as a champion for the project (examples: office manager, nurse manager of hospital unit).
- **Mentor** - QI or clinical practice expertise, respected as a leader in the setting, will help facilitate the development and implementation of a plan (examples: medical or clinical director, physician or APRN, or QI leader).

**Background Check Policy and Procedure for DNP Students**

DNP students who are volunteering at their project site are required to have a background check prior to starting their clinical project. The process for obtaining the background check is outlined in the DNP Clinical Prep 101 course in Canvas. This should be done the term prior to enrolling in PC740. A background check cannot be older than 12 months at any time during the clinical project. Occasionally, a clinical site will require a specific type of background check. If this is the case, the student will be notified of this with instructions as soon as the FNU Clinical Credentialing Coordinator is made aware through the contract review process.

Any findings on the pre-clinical licensure or background check will be reported to the DNP Program Director who will report the information to the DNP site sponsor and mentor and the clinical site(s) for their review.

**Doctor of Nursing Practice Clinical Experience Requirements**

The purpose of the DNP project is for the student to grow in nursing leadership and develop expertise in quality improvement.

DNP students complete quality improvement projects/initiatives within clinical settings, ideally at the site of APRN employment. All hours are completed during the 3 term DNP clinical course series through a series of structured clinical assignments designed to support the planning, implementation, evaluation and dissemination of a quality improvement project/initiative. Students who desire to use out of hospital clinical sites for their DNP project initiatives must discuss this plan with their Clinical Faculty early in the process. Birth centers must meet FNU
credentialing criteria and be nationally accredited by the Commission for Accreditation of Birth Centers (CABC) to be eligible for use during the clinical project.

During the 360 contact hours in the project, the student builds and broadens their quality improvement experiences and leadership. The project/initiative provides an opportunity to demonstrate application-level learning in the change process, synthesizing evidence, and planning for implementation of evidence into practice. Practicum activities are not a restudy of basic APRN skills. Clinical project hours do not include time spent on assignments for any other courses not included within the Clinical courses. Students may only accrue clinical hours within the following courses: PC739, PC740, PC743, PC744.

Clinical Problem Resolution for DNP Students
FNU has a well-defined clinical problem resolution pathway available to students, site sponsors and mentors. The tools in the problem resolution process are the Problem Identification Sheet, the Learning Plan, and the Performance Plan. The DNP Continuity Faculty is to be notified of any identified clinical problems.

A student should continue to attend clinical while the process of problem resolution takes place unless suspended from clinical. Any student involved in the problem resolution process who fails to be present for a clinical session, without the express written permission of the DNP Director, may be suspended from FNU.

In the event that either the site sponsor and mentor or the DNP Continuity Faculty has determined that appropriate student progress is not occurring, or that appropriate supervision cannot take place within the current site, a student may be required to relocate to a site designated by the DNP Continuity Faculty and Program Director. Such relocation will be at the student’s expense and is not optional. In order to graduate, students must be able to meet all the requirements of the DNP program.

Clinical Site Changes for DNP Students
It is the responsibility of the student to ensure the clinical site has gaps in care congruent with the quality improvement initiative for the DNP program. IfWhere the volume of clients will not support the requirements needed for the project in a reasonable period of time, the student will be expected to either obtain a new clinical site or use more than one clinical site, as long as all sites have been properly credentialed. Students who need to change a clinical site must do so in consultation with the DNP Continuity Faculty and depending on when the change occurs, the student may need to repeat the Planning course to ensure the baseline data for their project is from the appropriate clinical sites. A student should first discuss contacting other sites with the DNP Continuity Faculty and DNP Program Director.

DNP Clinical Supervision
DNP site sponsors and mentors should adjust their level of supervision to the level of the student’s development. The site sponsor and mentor can refer to the FNU site sponsor and mentor guidelines or obtain guidance from the DNP Clinical Faculty for assistance in this area.

Malpractice Coverage for DNP Clinical Students
FNU provides professional liability (malpractice) insurance for clinical students during the DNP clinical project. Coverage ends once the student completes clinical courses and graduates from FNU.

Pre-clinical Orientation Meeting with DNP Mentor/Sponsor
Before beginning the Clinical Practicum, the student will schedule a pre-clinical orientation meeting with the site sponsor and mentor(s). During this conference the student and site sponsor and mentor(s) should complete a detailed and comprehensive review of all aspects of the proposed DNP clinical project including team building, tools and checklists, plan for implementation, objectives for quality improvement.
Professional Attributes and Behaviors Expected of Students during the Clinical Practicum

Timeliness: Students are expected to comply with the clinical schedule, contact the site sponsor and mentor if a change in the schedule, such as late arrival or absence, is necessary, and stay throughout the clinical session.

Ethical Practice: Students are expected to provide care without discrimination regarding such features as age, gender, race, ethnicity, religion, lifestyle, socioeconomic status, sexual orientation, disability or nature of health problem.

Confidential Communication: Students are expected to maintain and handle client records in accordance with legal and privacy standards.

Professional Competencies: Students are expected to maintain licensure and certifications (e.g., basic life support, neonatal resuscitation, etc.) related to professional scope of work, knowledge, and skills.

Commitment to Evidence-Based Clinical Decision-Making: Students are expected to support management plans with current evidence from the professional literature.

Self-Assessment: Students are expected to reflect on clinical experiences, including issues or problems encountered, and to recognize accomplishments and continued educational needs.

Preparedness: Students are expected to prepare for anticipated client needs, but remain flexible in response to emerging priorities.

Appearance: Students are expected to wear professional attire that is congruent with the practice setting and to be well groomed at all times. Students are required to wear their FNU picture IDs at all times. The only jewelry items that may be worn in the clinical setting are a watch, a wedding band, and small earrings (maximum two per ear). Other visible body piercing will not be allowed in the clinical area.

Effective Communication: Students are expected to communicate with clients in a manner that conveys interest, respect, and concern; use reasonable measures to ensure appropriate communication if language barriers exist; write legibly on medical records; use words and titles that convey dignity and respect; and ask questions to seek clarification.

Adapted from the University of Michigan Nurse-Midwifery Program

International Clinical Sites in the DNP

Students completing the clinical courses in the DNP program may petition the DNP Program Director for permission to complete the clinical hours in an international site. If there are any questions or concerns about the DNP clinical experience, the student may be required to complete their clinical hours within the United States. Students may contact the DNP Program Director for further clarification of this policy.
Clinical Practicum Policies in the MSN, PGC, and Refresher

The policies in this section apply to all FNU students in the MSN, Post-Graduate Certificate, and Refresher programs. Policies are listed separately for easy reference. All other FNU policies also apply to students during the Clinical Practicum.

Checklist for Beginning the Clinical Practicum in the MSN, PGC and Refresher Program

The complete timeline for MSN & PGC students preparing for Clinical Bound and entry into clinical can be found in the Clinical Bound 101 Course in Canvas. The timeline and course in Canvas contain the most accurate and up-to-date requirements. Attendance at Clinical Bound is not required for the following students:

- CNM/CMs in the CNEP Refresher program
- WHNPs in the WH Refresher program
- Former FNU CNEP graduates pursuing the women’s health post-graduate certificate (PGC)

Prior to beginning the Clinical Practicum students will:

- Complete all required Clinical Compliance requirements [see Clinical Compliance section]
  - Contact their Regional Clinical Faculty (RCF) to discuss clinical site preparation and requirements prior to completing and submitting the Clinical Site Approval Form (CSAF).
    - The CSAF is submitted through the Community Map, Instructions for completing the CSAF can be found in CB 101 (Canvas).
    - The RCF will assign a Clinical Bound date once the student has at least one clinical site accepted by their RCF on My Clinical Plan.
    - Students with incomplete clinical compliance [see Clinical Compliance section] prior to open registration will result in a registration block preventing Clinical Bound course registration.
    - Clinical sites and preceptors must be credentialed before students can begin clinical experiences at the site.
- Review the Clinical Practicum Policies in the FNU Catalog.
- Review CB 101 to prepare for Clinical Bound and the clinical practicum
- Contact preceptor to finalize arrangements for clinical.
- Arrange a pre-clinical orientation meeting with preceptor before or after Clinical Bound.
- Schedule the Transition to Clinical Interview with RCF prior to attending Clinical Bound. Complete necessary forms and upload to RCF before scheduled interview.

Clinical Compliance Requirements for MSN, PGC, and Refresher Students

All FNU students completing a clinical practicum are required to maintain current Clinical Compliance throughout the clinical experience. Documentation for all Clinical Compliance requirements, except the CSAF, are completed via Castlebranch.

All FNU students should review Clinical Compliance instructions as outlined in CB 101 including the FNU Blood Borne Pathogen Exposure Plan.

The following Clinical Compliance requirements must be on file with FNU before students are permitted to register for their CB term courses. Failure to complete clinical compliance requirements prior to open registration the term before CB will result in a block preventing registration for Clinical Bound and all courses taken at CB. Clinical sites may have additional requirements, in which students are required to complete in order to rotate at the site.

- Clinical Site Approval Form (CSAF) accepted by your RCF. This is the only requirement not submitted via CastleBranch and instead through My Clinical Plan.
• Order the appropriate clinical compliance requirements according to the instructions in CB101 via CastleBranch and connect your CastleBranch account to your FNU Profile > My Compliance.
• Unencumbered nursing license in all states, or eligible for nursing compact state licensure, where clinicals will be completed unless the student is rotating at a site that permits any US nursing license. (military, Indian Health Services, etc). RN license verification must be completed through Nursys Quick Confirm.
• Certification in Basic Cardiac Life Support (BCLS/BLS) for adults, pediatrics, and infants offered by either the American Heart Association (AHA, preferred), an approved AHA course provider, or the American Red Cross. Must be current and remain current throughout the Clinical Practicum for all students. ACLS is not a substitute. AHA certification cards issued by a course instructor must meet the criteria described by the AHA.
• Clinical background check (see Background Check Policy and Procedure section of this Catalog for additional details).
• Complete all sections of the FNU Student Health Verification Form including documentation of vaccinations or titers per the guidelines in the Health Form Guidelines and Checklist. Non-university forms will not be accepted. FNU Student Health Verification Form cannot be older than 12 months at any time during the clinical practicum. It is the student’s responsibility to keep these documents current.
• OSHA/HIPAA training module and the HIPAA Agreement Form in CB 101.
• Documentation that the student is enrolled in a personal health insurance plan or maintains membership through a health sharing program in lieu of personal health insurance. Maintaining health insurance or membership in a health care sharing program is required for the entirety of the clinical experience and a student’s enrollment at FNU. Clinical sites may not accept health sharing membership programs.
• FNU records release form.

For Nurse-Midwifery students:
• Maintain current neonatal resuscitation certification through the American Academy of Pediatrics (AAP) or an AAP approved course. All lessons must be completed.
• Provide evidence of current education in fetal heart monitoring skills throughout your clinical practicum. Current education is defined in the CastleBranch To-Do List requirements.
• Clinical site(s) must include hospital birth experience. Out of hospital birth experience in an approved home birth practice or a birth center is recommended (but not required). Note that one of the requirements for a birth center is accreditation by the Commission for the Accreditation of Birth Centers (CABC). Your clinical plan needs to be approved by your RCF in coordination with the Clinical Director.

For Women’s Health Care Nurse Practitioner Students:
• Provide evidence of current education in fetal heart monitoring skills throughout your clinical practicum. Current education is defined in the CastleBranch To-Do List requirements.

**Background Check Policy and Procedure for MSN and PGC Students**

All FNU students are required to have a background check prior to starting their clinical practicum. The process for obtaining the background check is outlined in the CB 101 course in Canvas. This should be done the term prior to attending clinical bound. A background check cannot be older than 12 months at any time during the clinical practicum. Occasionally, a clinical site will require a specific type of background check. If this is the case, the student will be notified of this with instructions as soon as the FNU Clinical Credentialing Coordinator is made aware through the contract review process.

Any findings on the pre-clinical licensure or background check will be reported to the Clinical Director who will report the information to the preceptor(s) and the clinical site(s) for their review.

**Clinical Requirements for MSN and PGC Students**

The integration of practice and theory is the hallmark of the FNU Clinical Practicum in advanced practice nursing. During the clinical experience a student is expected to master the clinical skills necessary to become a safe beginning level nurse-midwife or nurse practitioner. FNU students must complete a minimum number of clinical hours, a minimum number of calendar weeks in which clinical is done, minimum requirements for clinical
Clinical experiences in all areas of practice as evidenced by completion of required clinical visits, a signed declaration of safety, and the RCF’s final approval. The FNU minimum clinical experience for MSN students is 675 clinical hours and sixteen (16) weeks of clinical. The FNU minimum clinical experience for post-graduate students is 540 clinical hours with fourteen (14) weeks of clinical. These minimum clinical requirements apply to all specialty tracks. FNU students should plan to complete clinical in two to three terms. This allows time for coursework and adequate time to integrate didactic work and clinical skills.

The inclusion of a clinical immersion experience has been shown to help develop student assimilation into the role of advanced practice nurses. FNU requires a combination of a minimum number of hours for the clinical practicum as well as specific clinical experiences in each specialty track. RCFs may specify limitations on hours, types of experiences, etc. at their discretion in consultation with the Clinical Director (CD).

- Clinical experiences may overlap such that one patient encounter could count for two categories, but a single visit may not count for more than two categories.
- When observing patient care during the orientation process in a preceptor site, students may count this time toward the clinical hour requirement.
- Patient visits cannot be counted toward required clinical experiences if they are only observed. Exceptions: Midwifery students may count four observed births and Psychiatric-Mental Health students may count therapy visit types, both group and individual.
- Students may count four hours toward the clinical hour requirement for attending a Case Day. Students may count six hours, rather than four for attending, toward the clinical hour requirement for presenting at an in-person Case Day.
- For virtual case days: clinical students in attendance count actual hours in the meeting, and presenters count actual attendance hours plus two (2) hours’ time for preparation time.
- Students may count a maximum of two Case Days toward the clinical hour requirement (not to exceed 10 hours total).
- Students may count attendance at staff meetings in the clinical site toward the clinical hour requirement (not to exceed four hours total).
- Students may count up to four hours toward the clinical hour requirement for attending a professional organization meeting; with a maximum of two professional organization meetings toward the clinical hour requirement. The RCF must approve these meetings prior to attendance for these to count.
- Students may count up to 4 hours of clinical orientation if required by the site.
- Students may count continuing education programs toward the clinical hour requirement if approved by the Clinical Director.
- In no instance may a student record more than 30 hours of non-direct patient care (exclusive of clinical course simulations) as defined above.

Any student who will be out of clinical must inform their RCF if the absence from clinical continues for more than 14 days, additionally the Clinical Director is to be informed.

**Nurse-Midwifery Required MSN and PGC Clinical Experiences**

Minimum number of clinical hours per week:

- 16/week in NM712-716 for students who attended CB prior to Winter term 2019
- 20/week in NM712-715 and 30/week in NM716 for students who attended CB Winter term 2019 or after

Maximum number of clinic/office hours per week: 32 dependent upon call schedule.

Please meet with your RCF to discuss any proposed exceptions.

- 10 preconception care visits
- 30 new antepartum visits
- 140 return antepartum visits
- 40 labor management experiences
- 40 births (including 4 observations, at least 5 continuity clients, at least 5 without epidurals)
- 40 newborn assessments
- 20 breastfeeding support visits
- 40 postpartum visits (2 hours to 14 days)
- 30 postpartum visits (2 to 8 weeks)
- 40 common health problems
Sleep, Rest, and Safety Policy for Nurse-Midwifery Students
Clinicians and students are frequently required to be on call or on duty for prolonged periods, the following guidelines will help minimize sleep deprivation. Some flexibility to these guidelines can be applied if a birth is imminent.

In accordance with guidelines from ACNM and ACOG:

1. Students should take a rest break of at least 4 hours following 16 hours of active work.
2. Students should arrive to the clinical rotation rested and with a minimum of 4 hours of sleep following a night call or night shift.
3. There is no restriction of “on-call” time for low volume sites where the student will often sleep through the night, so long as other guidelines are followed. However, active patient care should not exceed 40 hours per week averaged over a 4 week period.
4. Following a long work shift, a brief rest period or short nap is recommended before attempting to drive home.

Women’s Health Care Nurse Practitioner Required MSN and PGC Clinical Experiences
Minimum number of clinical hours per week:
- 16/week WH712-716 for students who attended CB prior to Winter term 2019
- 20/week in WH712-715 and 30/week in WH716 for students who attended CB Winter term 2019 or after

Maximum number of clinic/office hours per day: 10*
Maximum number of clinic/office hours per week: 40
Please meet with your RCF to discuss any proposed exceptions.
- 30 new antepartum visits
- 120 return antepartum visits
- 25 postpartum visits (< 8 wks)
- 300 gynecologic care visits
- 25 post/perimenopausal visits
- 100 primary care visits

Family Nurse Practitioner Required MSN and PGC Clinical Experiences
Minimum number of clinic hours per week:
- 16/week in NP712-716 for students who attended CB prior to Winter term 2019
- 20/week in NP712-715 and 30/week in NP716 for students who attended CB Winter term 2019 or after

Maximum number of clinic/office hours per day: 10*
Maximum number of clinic/office hours per week: 40
Please meet with your RCF to discuss any proposed exceptions.
- 10 Newborn exams
- 20 One month to 5 years well exams
- 20 One month to 5 years episodic exams
- 20 6 to 12 years well exams
- 20 6 to 12 years episodic exams
- 20 13 to 19 years well exams
- 20 13 to 19 years episodic exams
- 150 Adult episodic or wellness care
- 100 Chronic illness care (age <65)
- 50 Geriatric episodic or wellness care (age >65)
- 70 Geriatric chronic illness care (age >65)
- 20 Gynecologic visits to include wellness or episodic care (Must include 10 Speculum/bi-manual exams)
- 20 Antepartum visits (new or returning)
- 20 Mental health visits
- 10 Men’s health visits
Psych-Mental Health Nurse Practitioner Required MSN and PGC Clinical Experiences

Minimum number of clinic hours per week:
- 16/week in MH712-716 for students who attended CB prior to Winter term 2019
- 20/week in MH712-715 and 30/week in MH716 for students who attended CB Winter term 2019 or after

Maximum number of clinic/office hours per day: 10*
Maximum number of clinic/office hours per week: 40

Please meet with your RCF to discuss any proposed exceptions.
- 50 Child or adolescent visits
- 50 Adult visits
- 20 Geriatric visits
- 20 Acute/Crisis Care Management
- 300 Medication Management
- 50 Substance Use Disorder Management
- 20 Psychotherapy sessions

Required Clinical Experiences for CWHCNP Certificate for CNEP graduates (students only enrolled in WH639/N599)

Minimum number of clinic hours per week: 17
- 1 week in WH639/N599 for students

Maximum number of clinic/office hours per day: 12*
Maximum number of clinic/office hours per week: 40

Students enrolled WH639/N599 in CWHCNP must complete 180 total clinical hours in the following:
- WH639:
  - 60 hours primary care
  - 120 hours Women’s Health care
- N599
  - 90 hours primary care
  - 90 hours Women’s Health care

Of the required 180 clinical hours, a total of 72 hours can be spent with a credentialed physician if desired.

Insertion and Removal of Subdermal Contraceptive Implant (Nexplanon ®/Implanon ®)

Students are not required to become certified in this procedure as part of the FNU credentialing process.

Students may insert and remove subdermal contraceptive implants under the direct supervision of a Nexplanon certified preceptor if they meet the following conditions:

1. Complete the training certificate process for Nexplanon/Implanon at Clinical Bound. Upload a copy of the training completion form to your clinical course in Canvas.
2. Upload a copy of a previous Nexplanon certificate to your clinical course in Canvas

Any deviation from this policy will result in the student being referred to the Student Review Committee.

MSN and PGC Clinical Problem Resolution

FNU has a well-defined clinical problem resolution pathway available to students and preceptors. The tools in the problem resolution process are the Problem Identification Sheet, the Learning Plan, and the Performance Plan. The Regional Clinical Faculty (RCF) is to be notified of any identified clinical problems. The Daily and Monthly Developmental Assessment Tools (DDATs and MDATs) should reflect the preceptor’s and/or the student’s concerns.
A student must continue to attend clinical while the process of problem resolution takes place unless suspended from clinical. Any student involved in the process who fails to be present for a clinical session, without the express written permission of the RCF, may be suspended from FNU.

In the event that either the preceptor or the RCF has determined that appropriate student progress is not occurring, or that appropriate supervision cannot take place within the current site, a student may be required to relocate to a site designated by the RCF/Clinical Director. Such relocation will be at the student’s expense and is not optional. In order to graduate, students must be able to fulfill the clinical requirements of FNU and demonstrate safe and competent care.

**MSN and PGC Clinical Site Changes**

It is the responsibility of the (RCF), in consultation with the Clinical Director, to determine that a site meets the student’s clinical needs. Individual student needs and site concerns may occasionally require a change in clinical sites. A student may also need to use more than one site to either meet the clinical experience requirements or to experience a variety of clinical situations. Where the volume of clients will not allow the required numbers to be attained in a reasonable period of time, the student will be expected to use more than one clinical site. This may require relocating from the student’s community and possibly out of state. Students who need to change a clinical site must do so in consultation with the RCF in the region in which they currently reside. A student should not contact an RCF from another area of the country, nor should a student contact sites without first discussing this with the RCF and Clinical Director.

**Clinical Site Requirements Prior to Beginning the MSN and PGC Clinical Practicum**

Each student will have chosen a clinical site and will have obtained site approval from the RCF prior to registration for Clinical Bound. Students may not complete MSN or PGC clinical rotations in sites owned or administered by a family member, member of the household, or at sites where they have a stake in ownership. MSN and PGC students may not have a family member serve as a preceptor.

After the site has accepted the student, an Affiliation Agreement must be completed between FNU and the clinical site. No student may begin his or her clinical experience until FNU receives a signed Affiliation Agreement, verification the clinical site maintains professional liability insurance with acceptable limits, the preceptor has been fully credentialed, and the Pre-Clinical Site Visit has been scheduled/made if required. The student must be cleared by Clinical Credentialing and receive final approval to attend a clinical site by the RCF. Each student must meet both FNU and individual site requirements as determined by the contract between FNU and the site. **Starting clinical prior to the completion of site and/or preceptor credentialing is considered grounds for dismissal.** Affiliation agreements should be directed to the Clinical Credentialing office.

Midwifery students who desire to use out of hospital clinical sites during the clinical practicum should discuss this plan with their Regional Clinical Faculty and Clinical Director. Birth centers must meet FNU credentialing criteria and be nationally accredited by the Commission for Accreditation of Birth Centers (CABC) to be eligible for use during the clinical practicum.

**Clinical Rotation Fees**

FNU evaluates clinical rotation fees charged by a clinical site on an individual basis. If deemed appropriate, the university pays the rotation fee once the site provides an invoice to the university. FNU does not pay for preceptor-finding services, preceptor-for-hire services, rotation fees without an invoice, materials or supplies shipped to the site in lieu of payment, or cash payments made to sites.
Clinical Rotations at Home birth clinical sites

Home birth sites may be utilized for clinical practicum if all FNU credentialing requirements are met including malpractice insurance. Home birth sites that provide home TOLAC/VBAC, multiple gestation or breech birth are ineligible and may not be used for any portion of the clinical practicum by any FNU students. Home birth practices are reviewed and approved by the Clinical Director and the Director of Clinical Credentialing prior to the clinical practicum.

FNU students cannot function in the capacity of a birth assistant at births that occur in the student’s clinical site. All labors and births in the clinical experience must be attended by the CNM, student and a third person acting in the role of birth assistant. FNP, PMHNP, and WHNP students are not permitted to attend births as part of their clinical experience.

MSN and PGC Clinical Rotations at Birth Center Sites Offering Birth Center Trial of Labor after Cesarean Services

Students in a clinical rotation at a Commision for the Accreditation of Birth Centers (CABC) accredited birth centers offering trial of labor after cesarean (TOLAC) services or birth center TOLAC services may not provide pregnancy-related care in the birth center to any pregnant client who has had a prior cesarean section and is planning a TOLAC in an out of hospital setting. This prohibits visits or care during the antepartum, intrapartum or postpartum period and prohibits care of the newborn of a vaginal birth after cesarean (VBAC) client.

Trial of Labor After Cesarean (TOLAC) Services Attestation for Out of Hospital (OOH) Sites

All students planning clinical rotations at a homebirth or CABC accredited birth center site are required to sign an attestation of their understanding of OOH TOLAC policies prior to beginning their clinical rotation with that site. Any preceptors working in an out of hospital birth site are required to attest to their understanding of this policy. Violation of this policy may result in student dismissal from the University and ineligibility of the site for any future FNU student experiences.

The MSN and PGC Clinical Site Visit

The RCF evaluates student performance at the Clinical Site Visit. During the Clinical Site Visit, the student must be able to demonstrate to the preceptor(s) and the RCF integration of didactic and clinical knowledge/skills and application in the student’s area of specialty. The student should be able to demonstrate safe care for clients as appropriate to their progress in the program.

One Clinical Site Visit is conducted for each student. Additional Clinical Site Visits may be made depending on the student and/or site needs. Both students and preceptors will have an opportunity to provide a written evaluation of the Clinical Site Visit.

MSN and PGC Clinical Supervision

Preceptors should adjust their level of supervision to the level of the student’s development. The preceptor can refer to the FNU preceptor training course or obtain guidance from the RCF for help in this area.

Nurse-midwifery Students

Nurse-midwifery students will generally be allowed to use no more than four clinical sites for their direct clinical experiences unless approved by RCF. A clinical site may have multiple locations that count as one site, for clarification please reach out to your RCF or Clinical Credentialing Coordinator.
CNEP students may perform up to 20% of total clinical hours with an approved MD or DO. This may include a maximum of 8 births.

In accordance with the Accreditation Commission for Midwifery Education (ACME), Nurse-midwifery students must have in-the-room FNU-credentialed NP, CNM, CM, or Board certified MD or DO supervision for all procedures, births and suturing.

Suitable sites for nurse-midwifery students include, but are not limited to:

- FNU eligible birth centers
- Hospital maternity units
- FNU approved Home birth settings
- Women’s health practices
- Community health centers
- Public health department
- Family practice offices

The primary preceptor for nurse-midwifery students must be a Certified Nurse-Midwife. Additional preceptors for nurse-midwifery clinical courses may include licensed/certified health professionals of the following types:

- Certified Midwives (CMs)
- Family Nurse Practitioners (FNPs)
- Women’s Health Care Nurse Practitioners (WHCNPs)
- American Board of Obstetrics and Gynecology certified Allopathic physicians (MDs)
- American Osteopathic Association board certified in OB/GYN Osteopathic physicians (DOs)

Women’s Health Care Nurse Practitioner Students

Women’s Health Nurse Practitioner students must have in-the-room FNU-credentialed NP, CNM, CM, or MD or DO supervision for all procedures, and suturing.

Women’s Health Nurse Practitioner students will generally be allowed to use no more than three separate clinical sites for their direct clinical experiences. Clinical observation may be arranged for specialty sites but will not count towards the nurse practitioner student’s total clinical hours.

Women’s Health Nurse Practitioner students may spend up to a total of 20% of the clinical practicum hours with an MD or DO physician preceptor.

Clinical experiences that are supervised by an MD or DO will be counted towards the required number of patient visits for the nurse practitioner student.

Suitable sites for women’s health nurse practitioner students include, but are not limited to:

- Community health centers
- Public health departments
- WH/OB GYN/Midwifery practice

The primary preceptor for Women’s Health Nurse Practitioner students should be a Women’s Health Nurse Practitioner. Additional preceptors for Women’s Health nurse practitioner clinical courses may include licensed/certified health professionals of the following types:

- Certified Midwives (CMs)
- Family Nurse Practitioners (FNPs)
- Women’s Health Care Nurse Practitioners (WHCNPs)
- Allopathic physicians (MDs)
- Osteopathic physicians (DOs)

Client encounters for CWHCNP students students include sexual and reproductive healthcare for all individuals across the spectrum of identity, including lesbians, bisexual, queer, and heterosexual women, transgender women, people who identify as gender neutral or nonbinary, and people on the transmasculine spectrum. The
WHNP program curriculum prepares the student to provide sexual and reproductive health promotion/disease prevention education, counseling, assessment, diagnosis, and management of common sexual and reproductive health problems, inclusive of all gender identities.

**Family Nurse Practitioner Students**

- Nurse practitioner students will generally be allowed to use no more than four separate clinical sites for their direct clinical experiences. Clinical observation may be arranged for additional sites but will not count towards the nurse practitioner student’s total clinical hours and must be approved by credentialing, RCF, and Clinical Director.
- FNP students may spend up to a total of 40% of the clinical practicum hours with an MD or DO.
- Suitable primary care sites include, but are not limited to:
  - Community health centers
  - Public health departments
  - Family practice offices
  - Internal medicine offices
  - Pediatrics
  - WH/OGYN/Midwifery
  - Geriatrics
  - Specialty sites (sites pertinent to the FNP scope of practice and for no more than 20% of total clinical time):
    i. Convenient Care/Fast Track ED, Neurology, Cardiology, Endocrinology, Pulmonology, Dermatology, Gastroenterology, Mental Health, Orthopedics (adult), Nephrology, Rheumatology, ENT, and Urology are the only approved specialty sites.
    ii. No more than one specialty rotation may be completed during the clinical practicum.
    iii. Prior to completing rotations in specialty sites the student must complete and demonstrate satisfactory progress in primary care rotations.
    iv. Students must be able to achieve the following learning objectives for a specialty rotation to be approved:
      1. Have the ability to provide direct care to the patient; includes history, examination, diagnosis, and development of the plan of care.
      2. Demonstrate the relevance of the specialty rotation and its relationship to the primary care provider for ongoing patient care.

Preceptors for these courses may include licensed/certified health professionals of the following types:

- Nurse-midwives
- Nurse practitioners
- Allopathic physicians (MDs)
- Osteopathic physicians (DOs)

**Psychiatric Mental Health Nurse Practitioner Students**

- Nurse practitioner students will generally be allowed to use no more than four separate clinical sites for their direct clinical experiences. Clinical observation may be arranged for additional sites but will not count towards the nurse practitioner student’s total clinical hours and must be approved by credentialing, RCF, and Clinical Director.
- Suitable psychiatric mental health sites include but are not limited to:
  - Community Mental Health Centers
  - Intensive Outpatient Programs
  - Substance Abuse treatment centers
  - Private psychiatric offices
  - Crisis centers
  - Inpatient psychiatric units
  - Telehealth opportunities; no more than 20% or 135 hours allowed in this setting
  - Integrated Behavioral Health in Primary care
  - Long-term Care Facilities

Preceptors for these rotations include licensed/certified PMH professionals of the following types (must be at least Master's prepared):

- Psychiatric Mental Health Nurse Practitioners
PMHCNS with prescriptive authority
- Psychiatrists (no limit on the amount of time allowed with MD/DO)
- Licensed Clinical Social Worker
- Psychologist (PsyD or PhD)
- Licensed Drug and Alcohol Counselor
- Other: Licensed master’s prepared therapy providers with approval form the Clinical Director

Preceptor Honorarium
FNU offers an honorarium to clinical preceptors in appreciation for working with clinical students. The payment amount is based on the program and number of hours the preceptor spends with a student.

Completion of Clinical for MSN and PGC Nurse-Midwifery Students
When the primary preceptor determines that the student is functioning as a safe beginning-level nurse-midwife, the preceptor will sign the Declaration of Safety (DOS) and the students will submit the form into Canvas. The DOS is the declaration by the clinical preceptor that the student is a safe beginning-level practitioner in the skills delineated in the Core Competencies of the American College of Nurse-Midwives. Timing of signing the DOS is at the preceptor’s discretion. Signing the DOS does not necessarily signify the end of the Clinical Practicum. If the DOS is signed before the student completes all required clinical hours or experiences, the student will still be required to complete the CNEP requirements for clinical hours and experiences.

The clinical grades reflect the evaluation of the student’s clinical work by the RCF and the student’s preceptor(s). The RCF will submit the student’s final clinical grades when the RCF has received the following items from the student, appropriately co-signed by the preceptor:
- Clinical Assignments
- Daily Developmental Assessment Tools.
- Monthly Developmental Assessment Tool.
- In addition to the above, for NM716
  - Completed Clinical Visits/skills.
  - Completion of 675 hours (540 hours of PGC students) documented in Clinical Log
  - Satisfactory site visit.
  - Signed Declaration of Safety (DOS).

Completion of Clinical for MSN and PGC Nurse Practitioner Students
When the primary preceptor determines that the student is functioning at a safe beginning-level nurse practitioner, the APRN preceptors will sign the Declaration of Safety (DOS) and the students will submit the form into Canvas. For PMH students a psychiatrist may sign the DOS in lieu of a PMHNP. The DOS is the declaration by the clinical preceptor that the student is a safe beginning-level practitioner in the skills delineated in the Core Competencies of the National Organization of Nurse Practitioner Faculties. Timing of signing the DOS is at the preceptor’s discretion. Signing the DOS does not necessarily signify the end of the Clinical Practicum. If the DOS is signed before the student completes all required clinical hours or experiences, the student will still be required to complete all specialty track requirements for clinical hours and experiences.

When the student has completed all clinical hours and experiences and all of the required documentation has been received by the Regional Clinical Faculty (RCF), the RCF will submit the final clinical grades for the student. The clinical grades reflect the evaluation of the student’s clinical work by the RCF and the student’s preceptor(s). These grades are based on the course rubrics. End of Clinical assignments for NP/MH must be submitted within two weeks of completing clinical or grade reduction will occur.

The RCF will submit the student’s final grade all clinical courses after student submission of the following:
- Clinical assignments
- Daily Developmental Assessment Tools
- Monthly Developmental Assessment Tools
- In addition to the above, for WH/NP/MH716:
  - All visit types are completed
  - Completion of 675 hours (540 hours for PGS students) documented in Clinical Log
  - Satisfactory student clinical evaluation by RCF
  - Signed Declaration of Safety
  - End of Clinical From

**Completion of Clinical for CWHCNP PGC for CNEP Graduates**
- 180 hours of supervised clinical experience
- Completion of MDATs with preceptor
- End of clinical paperwork completed within two weeks

**Developmental Assessment Tools (DATs) & Monthly Developmental Assessment Tools (MDATs) for the MSN and PGC**

The Clinical Practicum is evaluated through FNU's Daily and Monthly Developmental Assessment Tools (DATs). The DATs are designed to evaluate application of theory to practice, safe psychomotor skills, and appropriate professional conduct. The student self-evaluates and is evaluated by the preceptor(s). Students are expected to demonstrate through their evaluations continual progress toward the provision of safe, independent care. The Daily DATs (DDATs) are specifically designed to encourage the student to reflect on her/his learning.

FNU is highly invested in the formative evaluation process for students in clinical. Clinical evaluation is a very important process requiring timely, written, objective documentation. This means:
- Each clinical session should start with a review of the student’s goals for the day and the preceptor’s expectations for that clinical session. This should be followed by a selection of appropriate clients for the student’s care.
- At the end of each day (and after each birth, for CNEP students) the preceptor and student should conference to review the experience, complete the DDAT, and formulate a plan for the next clinical session.
- Should any questions arise about the content of any clinical activity, the student and/or preceptor should refer to specific clinical behaviors within the Monthly Developmental Assessment Tool (MDAT).
- Each month the student and preceptor will complete the MDAT to determine at what stage the student is in each area of assessment. By the end of clinical, the student should have met the criteria in all levels.

**MSN and PGC Limitations During Clinical**

Students are welcome to observe advanced practice skills, but risk management prohibits students from performing these skills. Certain procedures are beyond the scope of an entry-level nurse-midwifery or nurse practitioner program.

Students must not perform the following advanced practice procedures even if they have previously performed these skills. These include but are not limited to:
1. Vacuum-assisted deliveries.
2. Ultrasound.
3. Colposcopy.
4. Repair of fourth degree perineal lacerations.
5. Circumcisions.
6. First assisting at cesarean section or other major surgery.
7. Repair of facial lacerations and/or suturing of hand lacerations.
8. Joint aspirations /injections
9. Any procedure that requires advanced or specialized training that has not been undertaken as part of the FNU program.
These skills may not be part of the student clinical experience due to liability issues. Students should review the Clinical Supervision Policy to identify experiences requiring direct preceptor supervision. Nurse practitioner students should contact their Regional Clinical Faculty prior to performing any procedures not taught during Level III/Clinical Bound.

An FNU student cannot be present at out of hospital Vaginal Birth after Caesarean (VBAC), multiple gestation or breech birth.

**MSN and PGC Observational Experiences**
Observational experiences for FNU students have different types of credentialing requirements. For students in the MSN and/or PGC clinical courses, participation in an observational role of any clinician may require full site, preceptor, and student credentialing.

**Malpractice Coverage for MSN and PGC students**
FNU provides professional liability (malpractice) insurance for clinical students during the clinical practicum.

Coverage ends once the student completes clinical courses and graduates from FNU. In order to insure that proper risk management is carried out during the Clinical Practicum, the student may not:
- Obtain clinical experiences at any site unless the site has been cleared by Credentialing and the RCF.
- Participate in clinical care as a student in any setting, in other than a clearly defined observational role, with anyone who does not have malpractice insurance and an Affiliation Agreement with FNU. For example, the student may care for laboring women in a hospital with a CNM who has an Affiliation Agreement with FNU and malpractice insurance for that hospital setting. The student may not attend home births with that CNM if the CNM does not have malpractice insurance for the home birth portion of her practice.
- Work as a nurse, nurse-midwife, or nurse practitioner in the same unit, office, or clinic where the student is in clinical as an FNU student. There is an obvious challenge to the student in terms of role transition and this blending of roles puts FNU at risk in terms of liability.
- Work in any capacity requiring client care in a birth center or home birth practice while a student is having clinical experience in that practice.

Once a student has completed all graduation requirements, he/she is no longer covered by FNU's liability insurance. No further clinical experiences may be obtained as an FNU student.

The Regional Clinical Faculty or Clinical Director should be contacted if a student has any questions about these requirements.

**MSN and PGC Pre-clinical Orientation Meeting with Preceptor**
Before beginning the Clinical Practicum, the student will schedule a pre-clinical orientation meeting with the preceptor(s). During this conference the student and preceptor(s) should discuss the following:
1. The student’s background, skills (developmental level as reviewed at Clinical Bound), and areas identified as needing special attention. The need for an orientation period. Students need to observe the clinic and other appropriate clinical areas to become oriented to the clinical setting. The length of this orientation will vary depending on the student’s familiarity with the setting.
2. Dress requirements in this practice. Students are required to wear their FNU picture IDs at all times.
3. The mechanism by which the student should communicate with the preceptor should illness or emergency necessitate a missed clinical day.
4. The practice guidelines/protocols for the nurse-midwifery or nurse practitioner service. If possible, each student should receive a copy of the practice guidelines/protocols.
5. The student's clinical schedule and the needs of the site. This should include a review of the requirements during the Clinical Practicum. The preceptor should review the student’s Clinical Practicum timeline at this meeting.
6. The beginning clinical assignment should be discussed.
a. CNEP students are encouraged to begin their clinical experience in antepartum or women’s health with one preceptor.
b. CFNP students may begin clinical in women’s health, pediatrics, or family practice.
c. CFNP students may not begin clinical in a specialty site.
d. CWHCNP students may begin their clinical in obstetrics, gynecology, or primary care.
e. PMHNP students may not begin clinical rotations via telehealth.

7. The preceptor should clarify the expectations regarding physician and other consultations. Any special considerations in dealing with hospital, office, or clinic personnel or with clients, and any expectations for attendance at staff meetings, case review, grand rounds, or other department functions should be discussed.

8. Any concerns that either the student or preceptor may have regarding the clinical experience.

9. Timely completion of the Daily and Monthly Developmental Assessment Tools (DATs) each day. The student and preceptor should formulate a workable schedule so that the daily DATs can be completed and discussed immediately following each clinical session and the monthly DATs each month.

10. Communication with the Regional Clinical Faculty (RCF). The student should remind the preceptor that the RCF will be contacting the preceptor every month and the student every 2 weeks. Discuss the importance of regular communication between the RCF and preceptor and the importance of this in the student’s educational process.

Professional Attributes and Behaviors Expected of Students during the MSN and PGC Clinical Practicum

**Timeliness:** Students are expected to comply with the clinical schedule, contact the preceptor if a change in the schedule, such as late arrival or absence, is necessary, and stay throughout the clinical session.

**Ethical Practice:** Students are expected to provide care without discrimination regarding such features as age, gender, race, ethnicity, religion, lifestyle, socioeconomic status, sexual orientation, disability or nature of health problem.

**Confidential Communication:** Students are expected to maintain and handle client records in accordance with legal and privacy standards.

**Professional Competencies:** Students are expected to maintain licensure and certifications (e.g., basic life support, neonatal resuscitation, etc.) related to professional scope of work, knowledge, and skills.

**Commitment to Evidence-Based Clinical Decision-Making:** Students are expected to support management plans with current evidence from the professional literature.

**Self-Assessment:** Students are expected to reflect on clinical experiences, including issues or problems encountered, and to recognize accomplishments and continued educational needs.

**Preparedness:** Students are expected to prepare for anticipated client needs, but remain flexible in response to emerging priorities.

**Appearance:** Students are expected to wear professional attire that is congruent with the practice setting and to be well groomed at all times. Students are required to wear their FNU picture IDs at all times. The only jewelry items that may be worn in the clinical setting are a watch, a wedding band, and small earrings (maximum two per ear). Other visible body piercing will not be allowed in the clinical area.

**Effective Communication:** Students are expected to communicate with clients in a manner that conveys interest, respect, and concern; use reasonable measures to ensure appropriate communication if language barriers exist; write legibly on medical records; use words and titles that convey dignity and respect; and ask questions to seek clarification.

*Adapted from the University of Michigan Nurse-Midwifery Program*
Regular and Timely Communication with the RCF for MSN and PGC Students

During the Clinical Practicum, the Regional Clinical Faculty (RCF) is the student’s academic and clinical advisor. While enrolled in clinical courses, students will communicate at least biweekly with Regional Clinical Faculty on course progress. Professional behavior is expected in all communication and will adhere to the FNU Communication Policy. In the case of an urgent clinical incident and the RCF is unavailable, the student should contact the Clinical Director. If the Clinical Director is unavailable, the student should contact the Department Chair.

Risk Management and Incident Report Procedure for MSN and PGC Students

Any incident occurring in the clinical setting should be brought to the attention of the RCF immediately. If the RCF is not available the appropriate Clinical Director is to be contacted. The student should not discuss the incident with anyone except the preceptor prior to having spoken In to speaking with their Regional Clinical Faculty unless required by legal authorities.

After discussion with the RCF the student is to schedule a meeting with the Clinical Director and this should occur within 24 hours of the event. If the student’s Clinical Director is not available the student or preceptor should contact the Department Chair. Do not write any description of the incident or refer to the incident in an email or forum or social media posting.

- Complete the Incident Report Form. The RCF will direct the student to the location of the form on the FNU Portal Statements on the Incident Report should be strictly factual.
- When the Incident Report Form is completed, send it via US mail to the Clinical Director. The Clinical Director will forward it after review to the Risk Manager for the Frontier Nursing University.
- The student should not discuss the incident with other students or faculty. Students are further advised to avoid making statements while in a highly emotional state. If the student or preceptor has a question about whether an incident merits reporting, they should contact the RCF or Clinical Director for guidance.

Time Frame for Beginning the MSN and PGC Clinical Practicum after Clinical Bound

It is important for student learning that clinical skills taught at Clinical Bound be used shortly thereafter in the clinical site. If students anticipate requesting an Academic Hiatus (AH) around the time of attending Clinical Bound, the hiatus should be taken prior to attending Clinical Bound. It is expected that students will begin their clinical experience within two weeks of returning from Clinical Bound. If there is a delay of greater than 16 weeks before beginning the clinical experience, students will be required to return to Clinical Bound and complete Clinical Bound Independent Study coursework. The student will incur all costs associated with return to Clinical Bound (course registration for the hours the appropriate Clinical Bound Independent Study, fees, travel, etc.).

Any student who begins clinical and then is out of clinical for greater than 16 consecutive weeks before receiving a satisfactory grade in MH/NP/NM/WH712 (or 713 for PGCs) will be required to complete Clinical Bound Independent Study at Clinical Bound before returning to clinical. Students who have successfully completed MH/NP/NM/WH712 (or 713 for PGCs) and are out of clinical for more than 16 consecutive weeks will be reviewed on a case by case basis by the Student Review Committee for an individualized plan for returning to clinical. The student will incur all costs associated with return to Clinical Bound (course registration for the hours the appropriate Clinical Bound Independent Study, fees, travel, etc.).

A student who is readmitted to FNU following withdrawal or dismissal from the university will be required to repeat Clinical Bound and will be required to repeat any previously completed clinical coursework.
Working During the MSN and PGC Clinical Practicum
In order to gain the maximum benefit from the clinical experience students are advised not to work during the Clinical Practicum. When FNU students are in clinical, they are specifically prohibited from working in any capacity in the clinical site. Students must not work as a nurse, nurse-midwife, or nurse practitioner in the same unit, office, or clinic where they are in clinical as an FNU student. The Clinical Director or RCF should be consulted if there are any questions about this policy.

When working as a nurse or advanced practice nurse in any setting, it is the student’s responsibility to practice within the scope of the current nursing license. A student must not assume any additional responsibilities in their place of employment based on the additional advanced knowledge gained from FNU study.

International MSN and PGC Clinical Sites
Due to regulatory, credentialing, workload, and financial considerations, students enrolled in the MSN or PGC clinical courses are required to complete all clinical requirements within the continental United States (US) and the Hawaiian islands. MSN and PGC students may contact their Clinical Director for further clarification of this policy. The US territories which include Guam, US Virgin Islands, Puerto Rico, and US military bases not located in the continental US are considered international sites and will not be approved for MSN or PGC students.
Banyan Tree Policies

Banyan Tree User Agreement

- **Welcome!** Welcome to Frontier Nursing University, Inc. ("FNU") Banyan Tree Web Portal! The Banyan Tree is one important way that we at the School communicate and share information over long distances. Through the Banyan Tree, you can meet fellow students, ask questions, contact instructors, prepare for upcoming events and access educational materials and applications.

- **Our Rules.** For our web portal to function at its best, we have certain terms and conditions that govern our site.

- **Updates and Amendments.** We may update and amend this User Agreement at any time by posting the modified version of the User Agreement on this site. The modified version of this User Agreement will automatically become effective with respect to you 10 days after it is first posted on the site. Your continued use of this site 10 days after the updated and/or amended User Agreement has been posted or at any time after you have received notice of the updating or amending of the Agreement means you agree to be legally bound by the User Agreement as modified. This Agreement was last modified as of Oct. 11, 2005.

- **Eligibility.** The Banyan Tree web portal has some areas that are accessible by the general public and other areas that are accessible only by an Authorized User. An Authorized User includes only students, faculty, and other employees and agents of FNU. If you are not an Authorized User, you are not authorized to access or use the restricted portions of the site.

- **Privacy.** Our privacy policy is set forth in full at [http://www.midwives.org/forms/privacypolicy.asp](http://www.midwives.org/forms/privacypolicy.asp) and is incorporated into and made a part of this Agreement.

- **Information; Site Availability.** The Banyan Tree contains some material supplied by us and other material supplied by third parties. We make no representation or warranty with respect to the material provided by others. With respect to the material supplied by us, we endeavor to keep such material current and accurate, however, due to the inevitability of human and computer error, we make no representation or warranty with respect to the accuracy, completeness or timeliness of information on the site supplied by us. To the extent you note an error on the site that is of substance, we would appreciate notice from you to the contact person noted in paragraph 14 below so that we can take prompt action to correct any such errors. Due to the ever-evolving state of our distance learning program, we may change, suspend or eliminate all or any aspect of this site at any time, including the availability of any feature or data, without notice or liability to you, if we deem it appropriate or advisable to do so.

- **Dealing with Advertisers and Third Parties.** Your dealings or correspondence with advertisers or third parties featured on or linked to this site, including the purchase of and payment for goods and services, and any understandings and representations associated with such dealings are solely between you and the advertisers and/or third parties. You agree that we are not responsible or liable for any loss incurred by you that results from your dealings with such advertisers or third parties, or the presence of advertisers or third parties in our site.

- **System Integrity.** You agree to not use any software, scheme or device to interfere or attempt to interfere with the proper working of the Banyan Tree portal. You agree not to disclose or share your password with any third parties or using your password for any unauthorized purpose. You agree to take reasonable precautions against the inadvertent disclosure of your password, including those suggested in the Banyan Tree 101 (BT101) materials. Finally, you agree to use the Banyan Tree portal only for authorized purposes. The only purpose for which the Banyan Tree is authorized for use is the furtherance of the education of the students of FNU and the providing of educational services by FNU, all in accordance with the policies of FNU. Any use of the Banyan Tree contrary to the policies of FNU is prohibited.
Copyright and Use of Materials. The information and materials on this web site are protected under United States copyright laws and worldwide copyright laws and treaty provisions and are owned by FNU or other third parties. You may download a copy of any of the materials on this site for personal, non-commercial use, provided you do not delete or change any copyright or trademark notice. You must obtain the permission of FNU, and in some cases, other third parties, to make any other use of the materials. In no case may you create any kind of hyperlink to or framing of this site without the prior written consent of FNU.

Trademarks. "Frontier School of Midwifery and Family Nursing", "Frontier Nursing University", "Frontier Nursing Service", “CNEP”, “CFNP”, “CWHCNP”, “Mary Breckinridge” and “Banyan Tree” (among other marks) are all service marks of FNU.

NO WARRANTY. YOU AGREE THAT YOU USE THIS WEB SITE AT YOUR OWN RISK. WE HAVE TAKEN COMMERCIALLY REASONABLE STEPS TO PROVIDE A SECURE AND EFFECTIVE WEB SITE, HOWEVER, WE ARE SOMETIMES AT THE MERCY OF THIRD PARTIES, ACTS OF NATURE AND/OR UNPREDICTABLE TECHNOLOGY. THEREFORE, WE DO NOT GUARANTEE CONTINUOUS, UNINTERRUPTED OR SECURE ACCESS TO OUR SITE. FURTHER, WE [AND OUR SUPPLIERS] PROVIDE THE BANYAN TREE WEB SITE AND OUR SERVICES AND PRODUCTS “AS IS” AND WITHOUT ANY WARRANTY OR CONDITION, EXPRESS OR IMPLIED, UNLESS OTHERWISE NOTED. [OUR SUPPLIERS MAY MAKE SOME EXPRESS WARRANTIES WITH RESPECT TO THEIR PRODUCTS OR SERVICES, AND TO THE EXTENT THOSE EXIST, SUCH SUPPLIERS WILL SEPARATELY PROVIDE THOSE WARRANTIES TO YOU [IN WRITING] OR NOTE THEM ON THIS SITE.] WE [AND OUR SUPPLIERS] SPECIFICALLY DISCLAIM THE IMPLIED WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT WITH RESPECT TO THIS SITE [AND ANY GOODS OR SERVICES OFFERED OR SOLD THROUGH THIS SITE.] Some states do not allow the disclaimer of implied warranties, so the foregoing disclaimer may not apply to you. Check your local laws for any restrictions or limitations regarding the exclusion of implied warranties.

LIMIT OF LIABILITY. YOU AGREE THAT IN NO EVENT WILL WE [OR OUR SUPPLIERS] (OR ANY AFFILIATES, OFFICERS, DIRECTORS OR EMPLOYEES OF THE FOREGOING) BE LIABLE FOR ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS) ARISING OUT OF OR IN CONNECTION WITH YOUR USE OF THIS WEB SITE [OR THE PURCHASE OF GOODS OR SERVICES THROUGH THIS WEB SITE], EVEN IF WE HAVE BEEN ADVISED OF THE POSSIBILITY THAT SUCH DAMAGE WILL OCCUR. FURTHER YOU AGREE THAT NEITHER WE [NOR OUR SUPPLIERS] (OR ANY AFFILIATES, OFFICERS, DIRECTORS OR EMPLOYEES OF THE FOREGOING) WILL BE LIABLE FOR ANY TECHNICAL, HARDWARE OR SOFTWARE FAILURE OF ANY KIND, ANY INTERRUPTION IN THE AVAILABILITY OF OUR SITE, ANY DELAY IN OPERATION OR TRANSMISSION, ANY INCOMPLETE OR GARBLED TRANSMISSION, COMPUTER VIRUS, LOSS OF DATA, OR OTHER SIMILAR LOSS.

TO THE EXTENT WE MAY HAVE BREACHED ANY TERM OF THIS AGREEMENT, YOU AGREE THAT YOUR ONLY REMEDY IS TO DISCONTINUE USE OF THIS WEB SITE.

If you are a California resident, you waive California Civil Code § 1592, which says: “A general release does not extend to claims which the creditor does not know or suspect to exist in his favor. At the time of executing the release, which if known by him must have materially affected his settlement with the debtor.”

Compliance with FNU Rules and Regulations and all Laws. When using this site, you agree to comply with all FNU rules and regulations as set forth in the FNU Catalog and, in addition, you agree to comply with all applicable laws, statutes, ordinances and regulations regarding your use of this site [and any purchase or sale of goods and/or services through this site].

Notices. If you want to send us a notice in relation to this Agreement, you must send it by email to the following address: support@frontier.edu. We may notify you by sending notice to your email address or
by mailing you notice by U.S. mail return receipt requested to our most current mailing address that we have for you. You agree that any notices sent by email will be deemed delivered and received 72 hours after being sent. You agree that any notices sent by U.S. mail as provided in this paragraph will be deemed delivered and received three days after the date of mailing.

- **Dispute Resolution.** All disputes arising between the parties concerning the validity, construction or effect of this Agreement, or the rights and obligations created hereunder, shall be brought before a conciliation committee of designated FNU representatives, which committee shall, within two weeks of being informed of the dispute in writing, recommend an approach for settlement of the dispute between the parties and transmit such recommendation to both parties for due consideration. To the extent such attempt at settlement fails, the parties agree to submit to non-binding mediation at the initiation of either party. The mediator shall be chosen by the agreement of the parties, shall be independent of the parties, and shall have experience in the resolution of commercial disputes. Each party shall pay one-half of the costs of such mediation. To the extent that the dispute remains unresolved following mediation, then you agree that any claim or controversy relating to this Agreement or this web site will be settled by binding arbitration in accordance with the Commercial Arbitration Rules of the American Arbitration Association. You agree that the arbitration will be conducted and that judgment on the arbitration award may be enforced by any court having proper jurisdiction. You agree that the costs of conducting the arbitration will be divided equally between you and us. Either of us may seek interim or preliminary relief from a court for the purpose of protecting your or our rights pending the completion of the arbitration; provided, however, that you agree that any legal proceedings arising out of or in connection with this Agreement or our site will be brought by you or us in the appropriate state or federal court in [Lexington,] Kentucky.

- **Governing Law.** You agree that this Agreement is governed by the laws of the Commonwealth of Kentucky, excluding any application of conflicts of laws rules or principles. You agree that the sole jurisdiction and venue for any litigation arising from your use of [or purchase of products or services through,] our site shall be an appropriate federal or state court located in Lexington, Kentucky.

- **Offensive, Libelous or Unlawful Messages; Copyright and Other Restrictions on Use of Service.**
  
  - **No Offensive Content.** You agree that you will not use, or allow others to use your account to post, transmit, promote, or facilitate the distribution of any threatening, abusive, libelous, defamatory, obscene, pornographic, profane or otherwise objectionable or disruptive information or material of any kind. Objectionable information or material includes, but would not be limited to, sexual comments or images, racial slurs, and comments that would offend a reasonable person on the basis of her or his age, sex, race, sexual orientation, religious or political beliefs, national origin or disability. You also may not use the Banyan Tree to promote, or influence others to support, your personal political or religious agenda or beliefs or to otherwise disrupt the normal course of business of FNU.
  
  - **No Illegal Material Or Encouragement Of Illegal Behavior.** You agree that you will not use, or allow others to use your account to post, transmit, promote, or facilitate the distribution of any unlawful or illegal material, including but not limited to material that would constitute or encourage a criminal offense, give rise to civil liability or otherwise violate any applicable local, state, national or international law. You agree that you will not use this site to commit a crime, or to plan, encourage or help others to commit a crime.
  
  - **No Violation Of Copyright, Trademark Or Trade Secret Rights.** You agree that you will not use the site to publish, post, distribute or disseminate another's proprietary information, including but not limited to trademarks, service marks, trade secrets or copyrighted information, without the express authorization of the rights holder.
  
  - **No “Spamming,” Advertisements Or Chain Letters.** You agree that you will not use, or allow others to use your account to post, transmit, promote, or facilitate the distribution of any unsolicited advertising (including but not limited to mass or bulk email), promotional materials or other forms of solicitation to other individuals or entities. You will not post or transmit to persons not personally known to you requests for money, petitions for signature, chain letters or letters
relating to pyramid schemes. Except as specifically permitted by this site, you will not post or transmit any advertising, promotional materials or any other form of solicitation. We reserve the right, in our sole discretion, to determine whether such post or transmission constitutes an advertisement, promotional material or any other form of solicitation.

- **No “Hacking.”** You agree that you will not use, or allow others to use your account to unlawfully access other computers or services, or to cause a disruption of service to other online users.

- **No System Disruption.** You may not use, or allow others to use your account to cause disruption of the normal use of the Banyan Tree by others, including, without limitation, taking actions intended to crash the site or otherwise slowing or inhibiting the operation of the site.

- **No Impersonation Of Others.** You agree that you will not impersonate another user or otherwise falsify another person’s username in email or in any post or transmission to any Banyan Tree newsgroup, forum, mailing list or other similar groups or lists.

- **No “Viruses.”** You agree that you will not use, nor allow others to use your account to intentionally transmit computer “viruses” or other harmful software programs and that you will use your best efforts to prevent the unintentional transmission of such viruses or other harmful software programs.

**FNU Right to Remove**

FNU reserves the right not to post any data or materials to, or to remove any data or materials from its site, without notice or liability to you. You agree to release FNU (and all affiliates, and all officers, directors and employees of FNU and affiliates) from any claims or allegations that may result from such removal. Further, you agree to release FNU (and all affiliates, and all officers, directors and employees of FNU and affiliates) from any liability or cost arising out of any action or inaction of any other user of the site that is in violation of law or of this or other agreements with us. If you are a California resident, you waive California Civil Code § 1592, which says: “A general release does not extend to claims which the creditor does not know or suspect to exist in his favor. At the time of executing the release, which if known by him must have materially affected his settlement with the debtor.”

**Banyan Tree Privacy Policy**

This policy applies with respect to the information that Frontier Nursing University (“FNU”) collects and can access from the Banyan Tree Web Site, located at portal.frontier.edu, www.midwives.org, and www.frontier.edu and server. Amendments to this policy will be posted in FNU Catalog and will be effective when posted. Your agreement to the Banyan Tree User Agreement constitutes your agreement to and acceptance of this Privacy Policy.

The Banyan Tree is provided by FNU for two purposes. One is to provide a vehicle through which FNU can deliver to its students quality distance learning in the field of Midwifery and Family Nursing. The other is to provide certain features that are characteristic of an online community, such as email, chat rooms, and bulletin boards.

**INFORMATION COLLECTED**

Access to several parts of the Banyan Tree web site is restricted. We collect information from you for the purpose of confirming your identity so that you may have access to the restricted areas of the web site. The information we collect is username, password, and unique biographic data.

**USE OF INFORMATION**

In general, we will only use the information you provide to us for the purpose of confirming your identity to allow access to restricted parts of the web site and to contact and communicate with you, and to allow faculty and other students contact and communicate with you, in connection with the educational courses and other educational offerings we make available through the Banyan Tree. [We also track use, anonymously, of the various components of the web site and the use of various materials that we have
posted, so we can determine the usefulness of that feature or posted item.] We do not sell any of the information provided to us through the Banyan Tree to outside third parties and do not otherwise provide it to third parties.

USE OF IP ADDRESSES
We may use your IP Address to investigate technical and policy issues, as noted above, and to help diagnose problems and to administer online exams.

USE OF COOKIES
When you view our web portal, we might store some information on your computer. This information will be in the form of a “cookie” or similar file. Cookies are small pieces of information stored on your hard drive, not on our site. Cookies do not spy on you or otherwise invade your privacy, and they cannot invade your hard drive and steal information. Rather, they help you navigate our web portal as easily as possible. We use cookies to prevent you from having to reenter all your registration data at each connection.

SECURITY
Our site has in place security measures that are consistent with industry standards to protect against the loss, misuse or alteration of the information under our control. While there is no such thing as “perfect security” on the Internet, we will take reasonable steps to protect against unauthorized access to the Banyan Tree.

PUBLIC FORUMS
The Banyan Tree provides social networking, chat rooms, forums, message boards and/or new groups for use by students, faculty, administrators and other authorized users of the Banyan Tree. Please remember that any information that is disclosed in these areas becomes public information, and you should have no expectation of privacy with respect to information provided in these venues.

E-MAIL
FNU does not monitor emails. However, FNU reserves the right to access such emails at any time and use the information contained in such emails if such information relates to a violation of FNU policies or of state or federal law.

OTHER WEB SITES LINKS
The Banyan Tree web portal connects to other sites. FNU is not responsible for the privacy practices or content of such web sites, and we recommend that you review each web site’s privacy policy before providing any personal information to or through such web portal.

CORRECT UPDATE
You can change or modify information previously provided to FNU through this web site. This may be done through the following methods:

Email the information to update to support@frontier.edu

Visit the Directory section of the site and follow the appropriate instructions. We will take reasonable steps to change or correct your information in our records.

NO OPT OUT
If you choose to participate in the distance learning program offered by FNU through the Banyan Tree, you may not opt-out of receiving communications from us and from faculty, administrators, students and others associated with FNU.

Contacting us:
- If you have any questions about this privacy policy, the practices of this site, or your dealings with this web site, you can contact us by support@frontier.edu.
Banyan Tree Access
The Banyan Tree is accessible to FNU faculty, staff, preceptors, students, independent contractors, and administration. Each group has differing access to different parts of the Tree.

- Alumni and preceptors have general user access, including email.

Checking E-mail
Students are required to check email at least twice weekly while enrolled. Faculty are required to check email a minimum of three times weekly.

Computer Access On-Campus
Students are required to bring their laptops with them during on-campus academic events. To best accommodate student computer needs, FNU makes available high-speed wireless Internet in most campus buildings.

In addition desktop workstations are located in the library. These systems are Internet connected and include Microsoft Office, Acrobat reader, Skype and other common software applications. Students wishing to access Canvas, or other on-line systems will need to remember to bring their credentials to campus, as the public computers will not have their password stored as on their personal machines.

Limited printing and copying are available from the systems in the library.

File Naming Standard
All courses require students to submit work electronically and instructors need to be able to identify submissions by file name. In addition, files with the same name can cause overwriting (deleting) of existing files, which could result in one student's assignment being overwritten by another student's work.

The following file naming standard will be utilized for all student submissions:

FirstName LastName CourseNumber AssignmentName, (For example: Jane Doe PC600 Assign2).
- Use your entire first and last names as they appear in the Canvas gradebook (no nicknames or abbreviations)
- The file naming standard applies to all submissions, regardless of file type (Word document, slide show, pdf, etc.)

Document format: When using Microsoft Word, files are saved in DOCX format. All students and faculty are required to use Microsoft Office 2010 or higher for PCs and 2011 or higher for Word for Mac, which can natively read and write DOCX format. Using a DOCX file format removes the burden of having to manually save the file in a readable format and fully supports all formatting, notations, and embedding of the Office Suite.

Liability, Honor Code, and Privacy
Business email is not considered private property under federal rules of Civil Procedure. An opponent has the right to obtain copies of email pertinent to litigation. All participants should be aware that email messages are potentially open to subpoena in malpractice cases. Cases should be well enough disguised, so that patients cannot be identified. Patients, preceptors, doctors, nurse-midwives, nurse practitioners, and other health care providers should not be mentioned by name. Discussion of clinical incidents with potential risk management ramifications and significant FNU problems should not take place in Frontier email.
Office Correspondence
The FNU email system must be used for all office correspondence with FNU and between FNU members. Outside vendors (e.g., such as Hotmail, EarthLink, etc.) may not be used. Communications using non-Frontier services cannot be verified by FNU, will not be considered official, and may be discarded.

Technical Support
The Information Technology staff offers technical support for:
- The Banyan Tree portal, forums, chat, and FNU web sites.
- Canvas and testing support for students and faculty.
- Student and faculty frontier.edu email issues.
- Course and project development for faculty working on FNU projects.
- Mobile device support when used to interface with FNU content.
- Password and account access for all university systems.

Computer assistance is available through Knowledgebase, trouble tickets, email, or phone. The IT staff strives to respond to every issue within one business day. When technical support is needed, students should begin by reviewing the Banyan Tree 101 (BT101) course which contains the answers to many common questions. The Knowledge base system on the portal page contains the answers to many common questions. The student’s BT101 instructor is the first person to call for help if the answer cannot be found elsewhere. If the instructor cannot help or is unavailable, referral may be made to another member of the IT staff. If problems are out of the IT staff’s scope of practice, seeking assistance from a local technician will be recommended. Some technical issues may be referred, such as:

- Computer hardware problems ---> Manufacturer or local technician.
- Internet connections ---> Local Internet Service Provider (ISP).
- Printer problems ---> Manufacturer or local technician.
- Issues related to skills not meeting FNU standards ---> Class or tutorial.
**Tuition and Fees**

Frontier Nursing University is a non-profit. Tuition and fees are maintained at lower levels through gifts of alumni, foundations, corporations, and friends of the Frontier. Tuition rates may change at any time deemed necessary by the FNU Board of Directors.

**Tuition Policy and Plan**

The tuition billing for each term is calculated as the rate per credit hour multiplied by the number of credits registered. Tuition is currently set at the following rate:

- **$636 per credit hour**

Billing will be adjusted for any changes to enrollment made during the add / drop period. After add / drop has ended, there will be no adjustments to billing unless the student withdraws from FNU. For more information on withdrawal policies see the sections below entitled "Tuition Refund and Return of Financial Fund Source Policy - Withdraw from FNU" and "Tuition Policy Regarding Re-entry after Withdrawal".

**Please note that upon registration for on-campus events, accommodations will have been made for your requested stay. Once students have registered, the nightly fee is non-refundable.*
### AABC “How to Start a Birth Center” Workshop

All CNEP students are required to complete the “How to Start a Birth Center” workshop offered by the American Association of Birth Centers (AABC) as a program graduation requirement. CNEP students must complete either the in-person workshop or online workshop course prior to graduation from the MSN or Post-Graduate certificate portion of the program.

FNU covers the registration fee for CNEP students and will only pay for one workshop registration per student. If a student does not attend a workshop for which they are registered, fails to cancel their registration in time for FNU to avoid being charged, or does not complete the online workshop within the allotted twelve (12) week timeframe, the student will be responsible for the registration fee for the workshop they do complete. Students are responsible for all other costs (materials, AABC membership, travel, etc.), excluding the registration fee. AABC provides FNU with an official roster of attendance for the in-person workshop and a course completion notification for those doing the online workshop.

### Late Payment Fee

A student owing a balance ten calendar days after the due date for payment of tuition or fees will be invoiced a late payment fee.

### Probation Due to Non-Payment Policy

Any student not paying tuition at the time it is due will be put on probation. From the date of probation, the student can no longer submit any coursework, nor can the student take or submit any examinations. The time period during which the student is on probation will be included in their program time frame. Faculty will be notified via email that all grading of the student’s work is to stop. A Late Payment Fee will be assessed if the payment is received more than ten calendar days after the due date. Upon full payment of all tuition and fees due, or notification by the financial aid office that funds have been set to disburse, the student will be reinstated and faculty will be advised via email to accept the student’s work.

From the day the probation occurs, the student will be given up to 60 days to make payment in full. If payment is not made within 60 days of the due date, the student will be dismissed from FNU. An appeal to this dismissal is possible (see Dismissal from FNU).

### Tuition Discount for FNU Preceptors

CNMs and NPs who have served as preceptors for FNU students within the past 2 years may receive a 10% discount on tuition for individual courses taken as a non-matriculating student (taking courses but not seeking a degree) and WH639 or N99 for CNEP graduates to receive a WHCNP post-graduate certificate at FNU.

Eligible preceptors can contact the Bursar for account adjustments.

### Tuition Extensions

An extension of sixty (60) days may be granted to students receiving federal, state or private scholarships or Stafford Loans when they first enter FNU and are in the process of completing the required paperwork.
Tuition Policies Related to Academic Hiatus (non-emergency and emergency)

Ordinarily, an AH will start at the beginning of a term. In this situation, there is no immediate effect on tuition and fees since the previous term will be completed and the next term’s tuition and fees will be assessed when the student returns. However, in the event payment for a term a student is on AH is received it will be refunded to the proper fund source. If a student takes an Emergency Academic Hiatus (EAH) during a term in progress, a withdrawal calculation will be completed to determine the amount the student owes for that term. Necessary adjustments to charges and funds received for that term will be made.

Example:
A student’s Emergency AH is approved on the 18th day of a 75 day term. The student’s financial responsibility will be 24% (18 / 75 = 24%) of tuition and applicable fees. FNU is eligible to retain 24% of funds received to pay for tuition and applicable fees. The remaining 76% of funds received are classified as unearned and will be refunded to the proper fund source (lender, VA, student, and etc.).

If a student is approved for an Emergency AH on or after the 46th day (>60%) of a term, the student will be responsible for 100% of all charges for the term and will not receive a tuition/fee reduction. It is recommended that students speak with the Financial Aid Services or Bursar prior requesting an Emergency AH.

A student’s financial aid package will be recalculated based on the same proportion as above, in accordance with the Higher Education Amendments of 1998, public law 105-244. Details can be found in the Federal Student Handbook available in Financial Aid Services.

Students have a right to appeal decisions regarding financial transactions. The process begins with the Bursar in Accounting Services.

Tuition for Repeating a Course
If a student must repeat a course for any reason (such as hiatus, withdrawing or failing), the student must repay the tuition for the entire course at the current per-credit-hour rate. The repeated course is billed along with any other courses registered. Students should contact Financial Aid regarding eligibility of financial aid for repeats.

Tuition Rate for Non-Matriculating Students
Non-matriculating students (those taking courses but not seeking a degree) will pay the current per credit hour rate for each course to be registered. Payment must be received before registration can occur. All courses must be started at the beginning of a term. All other policies apply equally to non-matriculating students.

Tuition Refund and Return of Financial Fund Source Policy (Title IV, VA educational benefits, personal payments, and etc.)– Withdraw from FNU
The completion of registration contractually obligates the student and the student’s benefactors to pay all of the student’s tuition and fees for the entire term. However, FNU has established a withdrawal and refund policy so that the School and the student may share the loss equitably when it is necessary for the student to withdraw from FNU. FNU has adopted the federal refund calculation so that all tuition charged to a student’s account is directly proportional to the percent of enrollment period attended. Refunds are based on the percentage of time that a student is enrolled up to 60% of the enrollment period. The enrollment period is always one (1) term. The date of the withdrawal from FNU will be determined by the date the student completes the university withdrawal status change form.
To determine the percentage of enrollment period (one term) attended, divide the number of calendar days attended by the number of calendar days in the enrollment period (75) and round to the nearest decimal point.

Example:
A student withdraws from FNU on the 18th day of a 75 day term. The student’s financial responsibility will be 24% (18/75 = 24%) of tuition and applicable fees. FNU is eligible to retain 24% of funds received to pay for tuition and applicable fees. The remaining 76% of funds received are classified as unearned and will be refunded to the proper fund source (lender, VA, student, and etc.)

If a student withdraws from FNU on or after the 46th day (>60%) of the term, the student will be responsible for 100% of all charges for the term and will not receive a tuition/fee reduction. It is recommended that students speak with the Financial Aid Services or Bursar prior to withdrawing.

A student's financial aid package will be recalculated based on the same proportion as above, in accordance with the Higher Education Amendments of 1998, public law 105-244. Details can be found in the Federal Student Handbook available in Financial Aid Services.

Students have a right to appeal decisions regarding financial transactions. The process begins with the Bursar in Accounting Services.

**Tuition Policy Regarding Re-entry after Withdrawal**
A student entering FNU after having withdrawn must complete the full application process and will be considered as a new applicant. Courses previously taken at FNU will be considered for transfer; however no transfer fees will be assessed. If admitted, the student will be charged tuition for the credit hours registered at the current tuition rate per credit hour.

**Tuition Statements**
Tuition Statements are made available to students approximately two weeks prior to the start of the term. Statements are updated at the end of add/drop to reflect any changes. Students will be notified by the Bursar with information about how to access the statements through the student portal. No paper statements are mailed.

**Requesting Documentation from Bursar Office**
If you need a verification of payment from the Bursar office, please send a written request via email stating the term (Ex. Spring 2020), the course number(s) and the term the class was completed. You will receive the documentation via email within 5 business days of making the request.

**Financial Aid**

**Federal Direct Unsubsidized Loan**
The Federal Direct Unsubsidized Loan is not a need-based loan and currently has a fixed interest rate of 6.6%. Students are responsible for the interest from the day the loan is disbursed. Although students may request that the interest on the Federal Direct Unsubsidized Loan be deferred while enrolled in school and during the six-month grace period, FNU strongly recommends that students make interest payments. Students will find their monthly payments greatly reduced if interest payments are made while enrolled. Principal and interest payments on this loan must be made beginning six months after the student ceases enrollment at FNU.
Federal Graduate PLUS Loan
The Federal Graduate PLUS Loan currently has a fixed interest rate of 7.6%, is a creditworthy loan (can be approved or denied based on credit score) and is not need-based. Students are responsible for the interest from the day the loan is disbursed. Although students may request that the interest on the Federal Graduate PLUS Loan be deferred while enrolled in school. Payment on the Federal Graduate PLUS Loan will be due within 45 days after the student ceases enrollment either by graduation, withdrawal or Emergency Academic Hiatus (EAH).

Financial Aid Disbursements
Financial aid disbursements are scheduled to be requested from Direct Loans after the add/drop period each term. Students must be meeting Satisfactory Academic Progress (SAP) in order to be considered eligible for federal student loans. Students who are not meeting SAP may be placed on financial aid Warning and possibly Probation losing eligibility to receive federal funds. Please refer to the SAP policy for full details.

Federal funds are received by FNU electronic fund transfer and are applied to student accounts approximately two to three days after receipt of funds. Once funds are on student accounts, tuition and fees are paid, and any eligible residuals are processed and sent to students within 14 business days of receipt of the funds.

Financial Aid during an Academic Hiatus
Students who are approved for an official Academic Hiatus (AH) may have to begin making their student loan payments while on AH. Students should refer to the AH Policy for further information about financial aid during an AH.

Financial Aid Eligibility Guideline for Post-Graduate Certificate Programs
Students enrolled in a post-graduate certificate program that is less than 33 weeks are not eligible for federal financial aid.

Financial Aid Refund Policy
This policy applies to those students who receive loans from the Direct Loan Program as administered by the U.S. Department of Education.

Students who receive federal loans from the U.S. Department of Education and withdraw or take an EAH from their FNU educational program may be required to refund a portion of their student loans received during that term. Students who withdraw or take an EAH on or before the 60 percent (45th day) of completion of the term for which they are enrolled will generally owe a refund. Refunds are determined using the Title IV Refund calculation provided by the U.S. Department of Education. Money is refunded based on those regulations.

Financial Aid Literacy
Students should be aware of all financial aspects during their educational career, not just student loan debt. Students need to be cautious of how certain money blunders or unscrupulous decisions can burden them with debt for many years.

Please see the Financial Aid website (http://www.frontier.edu/financial-aid) for a list of various web sites offering hints, tips and real-life scenarios on how to make the best financial decisions to assist in paving the road to a more secure financial future. When in doubt, call and talk to your FNU Financial Aid Officer. We are here to help you.
FNU Scholarships
Frontier Nursing University offers scholarship monies to students based on availability, and student eligibility. Eligibility is based on the student’s academic record, length of time in the program and the requirement outlined in the scholarships.
The following are scholarships and awards that are typically available to the student.

Kitty Ernst Scholarship
This scholarship is awarded annually to a CNEP student who shows leadership ability as well as academic and clinical excellence.

Alice Adams Scholarship
The Frontier Nursing Service Foundation awards this scholarship in honor of Alice Adams.

Alumni Scholarship
The Frontier Nursing Service Foundation awards this scholarship in honor and with the help of Alumni.

Arronson Scholarship
This scholarship is available for students in financial need who are in good academic standing.

Berea College Appalachian Fund Scholarship
The Frontier Nursing Service Foundation awards this scholarship from a grant provided by the Berea College Appalachian Fund in Berea, KY.

Daughters of Colonial Wars
This scholarship is given by the Daughters of the Colonial Wars (DCW), who have been long time supporters of the Frontier Nursing Service.

Margaret Ferguson Scholarship
This Frontier Nursing Service Foundation awards this scholarship in honor of Margaret Ferguson.

Kate Ireland Scholarship
The Frontier Nursing Service (FNS) Foundation awards this scholarship in honor of Kate Ireland. Ms. Ireland was a longtime supporter of FNS, a prior courier, past Chairman of the FNS Board of Governors, and former Honorary National Chairperson of the Frontier Nursing Service.

Betty Lou Johnson Scholarship
This scholarship is awarded in honor of Betty Lou Johnson to an FNP student who returns to school later in life, demonstrates academic excellence and has a commitment to working in underserved areas.

Mardi Perry Scholarship
This scholarship is available due to the efforts of the Boston Committee of the Frontier Nursing Service. The award is made annually to a student committed to offering midwifery services in the New England region.

Nancy B. Taylor Scholarship
The Frontier Nursing Service Foundation awards this scholarship in honor of Nancy B. Taylor. This award is given to a student who plans for international health work after graduation.

Family Nurse Practitioner Scholarship
This scholarship is made possible by donations designated for Family Nurse Practitioner Scholarships. This award is given to family nurse practitioner students in good academic standing.

FNP Leadership Award
Given by the FNS foundation, this award will be given annually to a nurse practitioner student who demonstrated leadership ability as well as academic and clinical excellence. Faculty members are asked to consider students that meet these criteria and nominate the student for the award. The student should be in good academic standing and in Level IV.

**Jessie Smith Noyes Scholarship**
This scholarship is awarded by the Frontier Nursing Service Foundation to a FNU student. The student must be in good academic standing and have an interest in women’s health issues.

**May Scaife Scholarship**
This scholarship is awarded by the Frontier Nursing Service Foundation in memory of Margaret Ferguson to a student in good academic standing.

**Preceptor Scholarship**
This scholarship is for Level IV students. The monies for this award have been donated by past and current FNU preceptors. The student must be in good academic standing.

**Susan Preston Wilson Scholarship**
This scholarship is awarded by the Frontier Nursing Service Foundation to an FNP student or graduate in honor of Susan Preston Wilson. The student must be in good academic standing.

**Helen Barber Scholarship**
This scholarship is awarded by the Frontier Nursing Foundation to a CNM student or graduate in honor of Helen Barber. Helen Barber was a courier for the Frontier Nursing Service. Mrs. Barber established the Helen M. Barber Revocable Trust in 1998 and designated a portion to fund scholarships for the training of students in midwifery at Frontier Nursing University. The student must be in good academic standing.

**Student Scholarship**
This scholarship is awarded by the Frontier Nursing Service Foundation to an FNU student in good academic standing. The scholarship is funded by FNU donors who specify student scholarship with their contributions.

**External Scholarships and Financial Aid**
There are numerous sources of scholarships and financial aid including federal, state, and local agencies and organizations. Further information about external scholarships and financial aid is available at the [FNU Financial Aid website](#).

**Preferred Lenders List**
Although federal student loans are available to all students who qualify, some students may choose to pursue a loan in addition to, or in lieu of federal student loans. In the event a student is interested in applying for an alternative/private loan, the Financial Aid Office recommends conducting an internet search to determine the best fit based upon your individual needs.

A few things to know or consider when applying for a personal loan are:
- Does your bank offer private student loans? If not, there are other financial and lending institutions that specialize in private student loans.
- Private student loans are approved, and interest rates are based on the student's credit score. The higher the credit score, the lower the interest rate.
- Private student loans cannot be consolidated with federal student loans.
- Remember that payments are based on the months of repayment (term) of the loan.
- Inquire if the lending agency offers a financial hardship program once you enter repayment.
- Inquire about an early pay-off option, there may or may not be a penalty for early pay-off.
Faculty and Staff Roles

Administration

President
- Responsible and accountable for the administration of Frontier Nursing University (FNU).
- Provides vision and leadership and is responsible for giving strategic direction for all aspects of the University.
- The President makes recommendations to the FNU Board of Directors relating to the general policies of the institution and to the maintenance of coordination among its several functions.
- The President has authority and responsibility for planning, budgeting, personnel matters, and overall advancement of the university.
- Implements policy and directs all functions of FNU Policy development and assures all functions are in keeping with the mission and philosophy of FNU. The FNU Board of Directors participates in these processes.
- The President provides direction to the Dean and the administrative leadership to ensure the efficient, economical and effective use of all organizational resources to meet the identified goals of the University, and provides a vision for the future.

Chief Diversity and Inclusion Officer (CDIO)
- Brings leadership, vision, integrity and a team-oriented philosophy to the diversity and inclusion efforts at Frontier Nursing University (FNU).
- The CDIO is responsible for leading the University on matters of equity, diversity, and inclusion and will educate the FNU-community regarding the importance and advantages of a culture that values and supports each member of our community.
- The CDIO will lead the development of a vision and effective strategy that champions the importance and value of a diverse and inclusive environment.
- The CDIO is a member of the President’s Cabinet.

Dean of Nursing
- Responsible and accountable for the academic and student affairs of Frontier Nursing University (FNU).
- The Dean provides vision and leadership for academic programs and is responsible for providing strategic direction for faculty and all academic nursing programs. The Dean has authority and responsibility for academic policies of the institution.
- The Dean has both the responsibility for curriculum, instruction, and other academic matters including student affairs and accreditation.
- The Dean of Nursing is a member of the President's Cabinet.

Associate Dean of Academic Affairs
- The Associate Dean is a key contributor to the establishment and accomplishment of Frontier Nursing University (FNU) academic goals.
- The Associate Dean provides direction to the faculty to achieve the goals of FNU
- Provides leadership of the curriculum oversees the development of the curriculum to ensure a quality that meets all the standards of the specialty certification bodies, accreditation bodies, and all regulatory bodies.
- Is knowledgeable concerning distance education practices and techniques and assists faculty and staff in remaining current concerning distance education practices and techniques.
- Takes responsibility as needed for applications and reports related to accreditation.

Department Chair of Family Nursing, Department Chair of Midwifery and Women’s Health, and Department Chair of Psychiatric-Mental Health
The Department Chair is one of the key contributors to the establishment and accomplishment of the School’s and, in turn, the departmental goals.

- The Department Chair provides direction to the faculty, staff and students within the department to achieve the goals of the school. Among the goals are those related to education, research and service as well as the attainment of cultural diversity, fiscal soundness, and infrastructure development.
- Directs all functions of the assigned department in keeping with the overall policies established by the FNU Dean of Nursing, President of FNU, and the FNU Board of Directors and in compliance with any and all credentialing, regulatory or other guidelines, in order that the strategic objectives can be attained.
- Provides leadership and direction in ensuring the efficient, economical, and effective utilization of all organizational resources to meet the identified needs of the department and the school.
- Assumes responsibility for teaching, service, research and development activities in the Department.
- Qualifications for the Department Chair of Family Nursing, Department Chair of Midwifery and Women’s Health, and Department Chair of Psychiatric-Mental Health include the following: Certification by the appropriate professional board, a Doctoral degree in Nursing or related area, experience in teaching, administration, and clinical practice, experience with and knowledge of educational technology, excellent interpersonal and problem solving skills, must possess analytical ability for project development and support, must have the capacity to learn and evaluate new technical procedures and concepts, and must have the ability to work productively and independently.

Clinical Directors

- Assume responsibility for the administration of the clinical portion of their specialty track and the smooth functioning of the clinical programs. They are the administrative liaisons with the Department Chairs. They are students’ contact during the clinical portion of the program and for issues that are not resolved with the Course Coordinators of clinical courses, or Regional Clinical Faculty (RCF).
- Are responsible for the quality of the clinical sites for area of specialty.
- Provide individual and group student guidance and monitor individual and group student progress.
- Is responsible for coordinating the clinical component of FNU.
- Monitors the teaching and evaluative functions for the clinical practicum.
- Works with the Department Chairs, the Regional Clinical Faculty, and the Director of Credentialing to ensure that the clinical practicum is a true integration of theory and practice and a high quality experience for each student.
- Qualifications for the Clinical Directors include the following: Must hold a national certification in the specialty area(s) as either a nurse-midwife or nurse practitioner, must hold a Doctoral degree, and must have a minimum of five years of experience with clinical teaching of advanced practice nursing and/or midwifery students as appropriate.

Post-Master’s Doctor of Nursing Practice Director

- Assumes responsibility for the overall administration and smooth functioning of the PM-DNP Program
- Is responsible for the overall integrity of the PM-DNP curriculum
- Assures that the program is in compliance with accrediting bodies, and adheres to the by-laws and policies of FNU
- Is knowledgeable concerning distance education practices and techniques and assists faculty and staff in remaining current in these areas.
- Provides individual and group student guidance and monitor individual and group student progress.
- Qualifications for the PM-DNP Director include the following: National certification as a nurse practitioner and or nurse-midwife, current licensure as a registered nurse and nurse practitioner and or nurse-midwife, Doctoral degree in nursing, experience in teaching, administration and clinical practice, experience with and knowledge of educational technology, strong analytical, organizational, interpersonal, communication and problem solving skills, and the ability to work productively and independently.

FNU Administrative Team

The Administrative Team is comprised of the President, the Dean of Nursing, the Department Chair of Family Nursing, the Department Chair of Midwifery and Women’s Health, the Department Chair of the Psychiatric-Mental Health Nurse Practitioner Specialty Track, the Associate Dean of Academic Affairs, the Clinical Director of Family Nursing, the Clinical Director of Midwifery and Women’s Health, the PM-DNP Director, a faculty representative (quarterly term), the Executive Vice-President for Facilities and Finance, the Chief Operations Officer, the Director
of Enrollment Management and Financial Aid, the Director of Student Retention and Academic Records, the Director of Clinical Credentialing, the Director of Clinical Outreach and Placement and the Director of IT. The Administrative Team meets to monitor program issues related to FNU.

Student Policy Team of the Administrative Team
The Student Policy Team of the Administrative Team is composed of at least four members of the Administrative Team. The Student Policy Team of the Administrative Team meets to discuss student issues as needed. The student’s advisor and/or course coordinator involved may be invited to attend a particular meeting as appropriate.

Faculty

Course Coordinators (CCs)
- Assume responsibility for an individual course or a sequence of courses.
- Design the course objectives, content, and evaluation measures. Depending on the course, there may be Course Faculty or Teaching Associates to assist.
- Teach by structuring the learning experience and answering students’ questions. May also teach in person at Frontier Bound or Clinical Bound.
- Are always available to students by phone during office hours or appointment times and via email, may be available at Frontier Bound or Clinical Bound.
- Act as Student Advisors and as such provide students with support, counseling, and assistance in completing their programs of study.
- Qualifications for Course Coordinators include the following: Certification by the appropriate national professional board, Doctorate in nursing preferred, and experience in teaching and education preferred.

Course Faculty
- Participate in development, implementation, and evaluation of a course and may teach at Clinical Bound.
- Assist with grading and student counseling related to the course.
- Are always available to students by phone during office hours or appointment times and via email, may be available at Frontier Bound or Clinical Bound.
- Report to their assigned Course Coordinator.
- Qualifications for Course Faculty include the following: national certification in specialty area, doctorate in nursing or related field preferred, and experience in teaching and education preferred.

Regional Clinical Faculty (RCFs)
- Are experienced nurse-midwives or nurse practitioners residing in the region that they coordinate.
- Serve as the liaison between the clinical sites, the Clinical Credentialing Coordinator, the Preceptors, the students, and the appropriate Clinical Director.
- Guide students through the Clinical Practicum, fostering the networking of students in their area.
- Visit sites to assess student progress and to ensure positive learning environments.
- Evaluate clinical performance and assign the clinical grades with input from the Preceptors.
- Qualifications for Regional Clinical Faculty include the following: Nationally certified in nurse-midwifery or appropriate advanced practice nursing specialty, active in nurse-midwifery or nurse practitioner community, Master’s degree or Doctorate in nursing or related field, experience as a clinical preceptor and strong communication, problem solving, management, organization and computer skills.

Preceptors
Are certified nurse-midwives, nurse practitioners, or other health care providers with appropriate degrees and national certification for their specialties. Through preceptor training and conversations with the RCF, they become thoroughly familiar with the School, its philosophy, and curriculum.
Are responsible for the education of FNU students in clinical sites.
Guide and supervise the students as they meet clinical objectives and become safe beginning practitioners.
Qualifications for Preceptors include the following:
- Unencumbered advanced practice license or AMCB certification and unencumbered appropriate state licensing for midwives, national certification in specialty area(s)
- A Master’s degree in Nursing or related area is required for NP preceptors, CNM preceptors may be approved without a Master’s degree
Teaching Associates (TAs)
- Are certified nurse-midwives and nurse practitioners who assist Course Coordinators by grading assignments and examinations, doing library research, and helping with teaching at Clinical Bound.
- Report to their assigned Course Coordinator.
- Qualifications for the Teaching Associates include the following: National certification in specialty area (s) and a Master’s degree with experience in nursing, midwifery/advanced practice or related areas.

Instructional Designer
- Works with the faculty and a team of IT specialists to develop online courses and explore new technologies for effective learning formats.
- Works with the Associate Dean of Academic Affairs in the assessment of learning outcomes and in conducting research for best practices and emerging distance-learning methodologies related to the development and improvement of instructional systems.
- Qualifications for the Instructional Designer include the following: master's degree or higher in instructional design, experience with graduate nursing or healthcare preferred, minimum of three years of experience in instructional development and demonstrated experience and record of managing projects to successful completion.

Director of Library Services Is responsible for the development and evaluation of library services and resources. Responsible for the effective operation of the FNU Library.
- Provides library instruction during Frontier Bound, Clinical Bound, and via phone and email.
- Works with faculty and students to make sure that the resources necessary for the curriculum are available.
- Assists students and faculty in obtaining any resource required.
- Qualifications for the Director of Library Services include the following: American Library Association accredited Master's of Library Science, medical and academic library experience, AHIP membership preferred, and strong interpersonal, communication, leadership, organizational, and computer technology skills.

Assistant Director of Library Services
- Assist faculty and students with online searching and locating library resources.
- Assist with maintaining course readings and textbook lists.
- Qualifications for the Information Services Librarian include the following: American Library Association accredited Master’s of Library Science, knowledge of library operations and services, ability to perform technical and public service responsibilities and excellent writing and grammar skills.

Information Services Librarian
- Provides library services to faculty, students and staff of the Frontier Nursing University (FNU).
- These services include, but are not limited to, handling reference inquiries, providing instruction, and performing a variety of other technical and public services tasks relative to library operation. The Information Services Librarian is a member of the FNU Faculty.

Staff (all located on the Versailles Campus)

Academic Advisors
Provides individual and group advising to students in all FNU programs.
Work with faculty and staff across the institution partners across the university to improve student success and assist in student degree completion.

Academic Records Officer
Manages academic records for all current and former students including degree conferral, enrollment/degree verifications, and production of transcripts in compliance with University policies and the Family Educational Rights and Privacy Act (FERPA).
Assists in maintaining, troubleshooting, and enhancing the University's data management and related systems. Works in cooperation with the Registrar and others to ensure academic policies and procedures are followed and proper student records are maintained.

**Campus Operations Coordinator**
Receives registration forms for campus events (Frontier/PM-DNP Bounds and Clinical Bounds) and handles student’s accommodations on campus. Supports faculty and students in activities related to all forms of instructional materials. Manages the Gift Shop.

**Accountants**
Support the operations of FNU by conducting functions such as payment processing, reconciliements, analyses, reporting, and various administrative functions.

**Administrative Assistants**
Provides administrative support to the FNU Administrative Team. The following individuals/units have Administrative Assistants: President (Executive Assistant) Dean, Chief Operations Officer, Admissions, Advancement, Clinical Credentialing and DEI.

**Admissions Officers**
Serves as a direct link between prospective students and FNU. Assists in all aspects of the admissions process, from inquiry to enrollment. Advise prospective students as they make decisions about furthering their education by providing information about FNU programs, its missions, admissions procedures, and student life.

**Assistant Director of Clinical Credentialing**
Works with the Director of Clinical Credentialing to maintain current and complete records of all student clinical file data during the clinical practicum and all clinical site files. Oversees efficient and effective processes for the student credentialing experience while maintaining a high level of customer service to students, clinical sites, preceptors and other FNU faculty and staff.

**Associate Director of Financial Aid**
Manages all aspects of the application and processing of Federal Student Loans. Orientes students to the process. Advises students regarding financial aid issues.

**Bursar**
Responsible for all aspects of a student’s financial account including billing, recording payments, processing refunds, and collection on outstanding balances. Manages student direct deposit authorizations, company tuition assistance and third-party provider documentation and invoicing. Supports 1098-T processing.

**Chief Advancement Officer**
Responsible for identifying and developing strategic partnerships and opportunities pursued to advance the mission of FNU. Develops the overall strategy for planning and implementing a fundraising strategy to build the endowment and raise funds for the organizational budget consistent with the mission and purpose of FNU. This position leads a team that is responsible for the following advancement functions: development, alumni relations, external affairs, grants management, and the FNU Courier Program.

**Chief Operations Officer**
Responsible for the daily operations of FNU. Directs and oversees activities related to budgeting, operations and personnel administration. The Chief Operations Officer is a member of the President’s Cabinet.
Clinical Advisors
Responsible for assisting students in identifying appropriate site placement and preceptors by providing resources and support in utilizing the clinical app and community map. Acting as support for students in site and preceptor identification, and keeping them abreast of clinical site placement timelines. Meets with students in small groups and on an individual basis as needed to support the student(s) in clinical site identification.

Clinical Credentialing Coordinators
Manages the clinical site Affiliation Agreements, providing a direct link between the clinical sites, the FNU Administration, and the School’s legal counsel.

Clinical Services Coordinator
Provides support and customer service to all preceptors with the goal of relationship building and preceptor retention. Assists DCOP with outreach activities designed to increase the number of preceptors.

Controller
Responsible for audit support, payables management, Bursar management, regulatory filings, general ledger accounting, internal controls, and other administrative functions.

Courier Program Coordinator/Development Officer
Oversee all aspects of the Courier program, which includes operations, training, communications, budgeting, fundraising, program evaluation and refinement and perform key leadership tasks to ensure successful program implementation. Works with the development team in coordinating events, communications and donor relations, particularly with former Couriers, to raise funds to support FNU.

Data Reporting Administrator
Coordinates effort to develop, implement and evaluate a data standards policy to improve data accuracy, integration, access and integrity. Monitors ongoing compliance and effectiveness of the process. Manipulates and organizes data for reporting purposes. Enter and collect data, and produce reports for various purposes.

Director of Campus Operations
Provides leadership, direction, and oversight of the FNU Versailles Campus Operations. Cultivates residential experiences that are welcoming and inclusive of all students, employees, and other visitors. Ensure a high quality residential experience for all guests, from arrival to departure.

Director of Clinical Credentialing
Oversees the Clinical Credentialing department. Assures written evidence of compliance with Standards of Practice and accreditation of the educational programs. Coordinates the system of risk management and liability insurance and the computerized Student Management System.

Director of Clinical Outreach and Placement
Responsible for providing leadership and overall management of the Clinical Outreach and Placement Unit. Develop, implement and assess innovative processes for the Clinical Outreach and Placement Unit to facilitate clinical placement for students. Ensures students have appropriate information and tools to assist them in successfully obtaining a clinical site.

Director of Enrollment Management and Financial Aid
Responsible for providing leadership for enrollment and financial aid. Collaborates with University leadership in leading the development, implementation, and ongoing evaluation of a comprehensive enrollment management plan that fosters an integrative recruitment and admission effort consistent with the University’s strategic goals. Directs managerial responsibility and oversight for all FNU personnel in admissions and Financial Aid.

Director of Informational Technology
Leads the IT staff in creating educational resources for FNU in a variety of formats and media and supports technologies employed by FNU.

**Director of Institutional Assessment**
Responsible for data collection, reporting, data management, and technical/systems support.

**Director of Marketing and Communications**
Coordinates all marketing activities to build awareness of Frontier Nursing University.

**Director of Student Retention and Academic Records**
Provides overall management and direction to the FNU Academic Advising Center, Registrar and Student Services staff.

**Diversity and Inclusion Coordinator**
Responsible for supporting the Chief Diversity and Inclusion Officer (CDIO) and the Assistant Director of Diversity and Inclusion in developing, planning and implementing strategies designed to increase enrollment and retention of students, faculty, and staff from diverse backgrounds. Oversees all activities involved in Frontier’s Diversity Impact Program.

**Enterprise Systems Administrator**
Helps drive the strategy, design, and implementation of innovative and integrated systems to support FNU’s rapidly scaling business. Partners with business stakeholders and team members to manage the end-to-end operation, implementation and integration of systems and data services. Responsible for data and information governance, control, policy design and implementation, and effective exploitation of all Frontier Nursing University data. Helps mature the department’s long-term tactics on the relationship of technical systems, data storage, and extracts to the business opportunities facing Frontier Nursing University.

**Executive Vice President for Finance and Facilities**
Responsible for financial and fiscal management aspects of FNU operations and for the development and management of facilities. The Executive Vice President for Finance and Facilities is a member of the President’s Cabinet.

**External Affairs Coordinator**
Cultivates and manages relationships with external stakeholders including the Board of Directors, Frontier Trustees, external organizations, corporations, and media.

**Facilities and Security Manager**
Oversees the management, maintenance, security and upkeep of all Frontier Nursing University facilities in Versailles, KY.

**Financial Aid Officers**
Assists student inquiries over the phone and Internet.
Processes and sends award letters.
Helps to complete loan applications.
Checks student records regarding satisfactory progress in order to monitor financial aid and disbursement of loan checks.

**Food Services Manager**
Responsible for providing a high-quality experience for the students, faculty, staff and visitors of Frontier Nursing University while on campus. The Food Service Manager oversees cleanliness, inventory, and overall operation of the upper level of the dining facility with a primary focus to the Food Service Unit and kitchen operation and in accordance with current federal, state, and local standards, guidelines and regulations governing the facility. Responsible for the planning and execution of all dining and catering services to include special events and programming.

**Housekeeper**
Responsible for providing a high-quality experience for the students, faculty, staff and visitors of Frontier Nursing University while on campus. Responsible for ensuring the interior and exterior facility areas are clean, safe, and have a sanitary and an attractive environment.

**Human Resources Director**

Responsible for the overall administration, coordination and evaluation of the human resource functions of the FNU including advising administration on policy issues. The human resource functions of FNU include employee recruitment and retention, benefits management and counseling, training and development, compensation administration, employee evaluations and regulatory compliance. The Human Resources Director is responsible for developing and maintaining systems to support the HR function and to ensure the integrity of employee demographic and employment data and for maintaining all personnel, benefits and payroll information. The Human Resources Director has direct managerial responsibility of Human Resource staff.

**Human Resources Specialist**

Process, verify, and maintain personnel related documentation, including staffing, recruitment, training, grievances, performance evaluations, classifications, paid time off and employee leaves of absence. Explain and interpret company personnel policies, benefits, and procedures to employees or job applicants.

**IT Analyst**

Works with the FNU Faculty and Staff to document work procedures and develop new workflows to improve each business process function. Additionally, the position will be tasked with managing the requirements gathering and delivery of all FNU reports development. The work will improve quality, reduce errors, and design new business processes in support of FNU management, operators, faculty, and staff to gather and analyze information and make improvement recommendations.

**Support Analyst**

Provide Tier 1 technical support for students, faculty, and staff.

**Learning Support Coordinator**

Oversees services designed to meet the needs of students at FNU to reach their full potential by facilitating and enhancing learning experiences and providing practical support for students. Works with students, faculty and staff to support student learning and develop student success initiatives.

**Library Technician**

Manages document delivery and interlibrary loan operations.

**LMS Coordinator**

Primary administrator for the Learning Management System (LMS). This role will assists Faculty with updates and additions to the LMS course content. This position has primary responsibility for integrating audio/video/graphic content for courses into the LMS.

**Maintenance Staff**

Responsible for FNU owned Facilities maintenance/repairs with all applicable safety and state regulations met. Responsible for appropriate use of facility supplies and equipment to minimize loss, waste and fraud.

**Marketing and Student Recruitment Coordinator**

Work closely with Director of Marketing and Communications to design, implement and evaluate strategies to recruit new students with a focus on recruitment of minority students and students residing in rural and/or underserved areas.

**Process and Application Developer**

Takes ownership of the developed applications, workflow automation programming, and FNU code repository. Works closely with the Support Services Manager and Process & Reporting Analyst in the technology-driven development of FNU coded assets and workflow automations. Responsible for developing, reviewing, and
approving code, technical designs, unit tests, and production promotions.

Registrar
Manages the course registration process.
Maintains accurate student records in accordance with federal policy (FERPA) and accreditation standards
Transcribes to the official student transcript all grades submitted by the faculty.

Senior Accountant Support the operations of FNU by conducting month-end closing, financial data analysis, account reconciliations and financial reporting. Interacts with stakeholders and supports the Controller in implementing sound financial controls across the university.

Senior Development and Alumni Relations Officer
Works with the Chief Advancement Officer in building and sustaining successful relationships with students, alumni, major donors, and supporters. Strategize and implement the annual campaign, major gifts campaign, planned giving program, membership initiatives, and special campaigns; helps design and implement donor recognition events, and publication of fundraising materials.

Senior Grants Management Officer
Coordinates with the Chief Advancement Officer in researching, writing, and submitting federal and private grant applications. This position also manages all recognition, reporting and accountability for grant funding.

Social Media and Communications Manager
Supports the development, implementation and monitoring of social media campaigns across a number of platforms and will gather, manage and distribute content for electronic publications, social media and blogs.

Student Services Coordinator
Coordinates planning materials, online programming for students, preparatory information sessions, and evaluation surveys for student orientation.
Student Council liaison between students and FNU staff and faculty.
Coordinates annual commencement ceremony.

Support Services Manager
Manages the performance of FNU Support Services to students, faculty, and staff ensuring service levels are achieved.
Responsible for leading the IT Support staff in delivering on expectations in regards to performance, meeting defined metrics/benchmarks, and that standards and processes are followed to provide effective customer service and meet requirements.

Systems Librarian
Administers and maintains the digital systems of the FNU library. This includes the management of the library’s online presence, such as the institutional repository and the library’s website and web services.
The Digital Resources Coordinator will also perform other technical and public services tasks relative to library operation.
**Course Numbering System**

N400-499  ADN-MSN Bridge Entry Option Courses  
PC600-699  Core Courses for MSN and Post-Graduate Certificate  
PC700-799  Core Courses for MSN, Post-Graduate Certificate, and DNP*  
MH700-799  Psych/Mental Health Nurse Practitioner Courses for MSN and Post-Graduate Certificate  
NM600-799  Nurse-Midwifery Courses for MSN and Post-Graduate Certificate  
NP600-799  Nurse Practitioner Courses for MSN and Post-Graduate Certificate  
WH600-799  Women's Health Courses for MSN and Post-Graduate Certificate  
N700-799  Doctor of Nursing Practice Courses  
*(Starting January 2014, the curriculum was redesigned to include both MSN and DNP Essentials in these courses.)*

**Course Descriptions**

**Active Courses**

**MH701 Psychopharmacologic/Neuroscience Foundations of Mental Health Care (3-0)**  
The psychiatric mental health nurse practitioner student will examine evidence-based psychopharmacology interventions used in the treatment of mental illness across the lifespan. Emphasis is placed on neurobiological processes underlying psychopathology and psychopharmacology used in clinical decision making while engaging in a variety of learning activities.  
Prerequisite: Admission to FNU PC705, PC706, PC707, MH705, MH707 or permission as a non-matriculating student.

**MH705 Psychiatric-Mental Health Roles and Modalities of Care (3-0)**  
This course examines the traditional and evolving roles of the psychiatric mental health care nurse practitioner. Mental health care delivery is viewed through a historical, ethical, and cultural lens. Mental health policy is discussed in relation to relevant practice standards. Scope and standards of the advanced psychiatric mental health nurse practitioner are critically appraised and reviewed.  
Prerequisite: Admission to FNU or permission as non-matriculating student.

**MH707 Psychiatric-Mental Health Assessment Across the Lifespan (3-0)**  
The focus of this course for the psychiatric advanced practice nurse is the theoretical and foundational knowledge required to develop diagnostic assessment(s) of individuals with mental health disorders across the lifespan. Through discussion, case studies and a variety of assignments, students will incorporate assessment data to support diagnostic conclusions.  
Prerequisite: Admission to FNU  
Prerequisite or concurrent: PC705, PC706, PC707

**MH708 Principles of Psychotherapy Across the Lifespan (3-0)**  
This course describes principles of multiple psychotherapeutic modalities. Emphasis is placed on developing psychotherapeutic skills relevant to the Psychiatric Mental Health Nurse Practitioner role. This course reviews communication techniques to facilitate the therapeutic process of the patient-provider relationship across the lifespan.  
Prerequisite: PC705, PC706, PC707, MH705, MH707

**MH709 PMHNP Concepts: Transition to Practice (3-0)**  
This course examines approaches to care of persons across the lifespan, including evidence-based diagnosis, management, and coordination of care with integrated interdisciplinary approaches. The course focuses on mental health care and recovery, mental health advocacy, and health promotion and illness prevention emphasizing the support network including family and community resources.  
Prerequisite: MH701, MH 708
MH710 Skills for Psych-Mental Health NP Care (2-0)
This course refines critical thinking and diagnostic reasoning skills. Students practice and demonstrate cognitive, affective and psychomotor skills for assessment and diagnosis of health and mental health.
Prerequisite: Final passing grades posted for all core and specialty track didactic courses (with the exception of PC713); submission of a clinical site (to My Clinical Plan) that is accepted by the RCF.

MH711 Skills for Psych-Mental Health NP Care (1-0)
This course refines critical thinking and diagnostic reasoning skills. Students practice and demonstrate cognitive, affective and psychomotor skills for assessment and diagnosis of health and mental health.
Prerequisite: Final grades posted for all core and specialty track didactic courses (with the exception of PC713); submission of a clinical site (to My Clinical Plan) that is accepted by the RCF.

MH712 PMHNP Clinical I (0-3)
This is the first of five clinical courses for the PMHNP student which provides the opportunity to practice health assessment skills, critical thinking, diagnostic reasoning, clinical management and counseling strategies across the lifespan under the supervision of a nationally certified or boarded health care provider and guided through an enriched virtual learning model by faculty. The student is at a beginning level and will start to apply the management process to coordinate health care delivery and plan the mental health care for individuals and families across the lifespan using theoretical and recommended practice guidelines for psychiatric-mental health care.
Prerequisite: MH710

MH713 PMHNP Clinical II (0-3)
This is the second of five clinical courses for the PMHNP student which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified or boarded health care provider preceptor. The student is at an advanced beginning level and will apply the management process to coordinate the primary care for individuals and families across the lifespan using theoretical and recommended practice guidelines for psychiatric-mental health care.
Prerequisite: MH712 (MSN students) or MH711 (PGC students)

MH714 PMHNP Clinical III (0-3)
This is the third of five clinical courses for the PMHNP student which provides the opportunity to practice advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified or boarded health care provider preceptor. The student is at an intermediate level and will begin to analyze the management process to coordinate the primary care for individuals and families across the lifespan using theoretical and recommended practice guidelines for psychiatric/mental health care. The student will begin to manage individuals with more complex needs.
Prerequisite: MH713

MH715 PMHNP Clinical IV (0-3)
This is the fourth of five clinical courses for the PMHNP student which provides the opportunities to advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified or boarded health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to coordinate primary care for individuals and families across the lifespan while evaluating theoretical and recommended practice guidelines for psychiatric mental health care. The student will manage individuals with more complex needs and comorbidities.
Prerequisite: MH714

MH716 PMHNP Clinical V (0-3)
This is the last of the five clinical courses for the PMHNP student which provides the opportunities to advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies
across the lifespan under the supervision of a nationally certified or boarded health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to coordinate primary care for individuals across the lifespan while evaluating theoretical and recommended practice guidelines for psychiatric-mental health care. The student will manage individuals with more complex mental health needs and comorbidities.

Prerequisite: **MH715**

**MH717 PMHNP Final Comprehensive Review (1-0)**
This course is a comprehensive review of program content for the Psychiatric-Mental Health Nurse Practitioner student. It is taken as a didactic course in the last clinical term. The course offers an opportunity for students to assess preparedness for board certifying exams.

Prerequisite: **MH didactic and clinical courses through MH714**
Prerequisite or concurrent: **MH715, MH716**

**MH718 Psych-Mental Health Independent Study (variable)**
This course is designed for students to complete supervised study related to psychiatric-mental health nurse practitioner care. Course content varies according to student needs and interests. This course may be completed a maximum of three (3) times under different subtitles.

Prerequisite: **Permission of instructor.**

**MH720 Substance Use Disorder and Contemporary Issues in Mental Health (3-0)**
The theoretical and foundational knowledge required of the advanced practice nurse to care for persons with substance use disorders is the focus of this course. The care of the LGBTQ+ community and other special populations will be emphasized. This course explores the evaluation and management of individuals with substance use disorders and contemporary issues in mental health. Through discussion, assignments, and self-reflection, students will examine the impact of bias on patient care.

Prerequisite: **MH701, MH708**

**N400 Health Assessment (3-0)**
The focus of the course is to enhance the health assessment knowledge, attitudes, and psychomotor skills of the Registered Nurse. The holistic approach in history taking and physical examination serves as the foundation for clinical practice of the advanced practice nurse and incorporates age, developmental status, and culture with evidence-based practice.

Prerequisite: **None**

**N599 Advanced Clinical Practicum in Women’s Health Care (0-4)**
This clinical course provides the opportunity for the student to focus on critical thinking/diagnostic reasoning and clinical management/ counseling skills in providing health and illness care to women in a primary care setting. This intensive clinical experience allows nurse- midwives to further integrate women’s health and primary care didactic and clinical knowledge and skills. Focus includes health promotion and disease prevention for women across the lifespan, and the diagnosis and management of common primary care problems with emphasis on gynecologic concerns. The student is expected to begin the management of more complex health issues and to demonstrate increasingly complex clinical judgment. N599 requires 90 hours of primary care and 90 hours of women’s health care supervised clinical experience. Students are encouraged to seek opportunities to advance and build on their current clinical skills. Of the required 180 clinical hours, a total of 72 hours can be spent with an MD if desired.

Prerequisite: **This course is open only to CNEP graduates prior to Class 30 with a Master’s Degree.**

**NM700 The Role of the Nurse-Midwife in Health Care Delivery Systems (3-0)**
This course explores the history of nurse-midwifery in the United States and is designed to orient students to the roles, settings, responsibilities, and requirements for certified nurse-midwife (CNM) practice. The course will explore how interdisciplinary team relationships and professional organizations influence midwifery scope of practice, as well as how regulations affect the profession’s ability to respond to the health needs of communities. After examining demographics, key health indicators, and disparities in their home communities, students will identify existing and potential strategies to address community needs.
Prerequisite: Admission to FNU

**NM701 Gynecologic Health (3-0)**
Students will participate in learning activities designed to increase clinical reasoning and management skills while learning foundational concepts in the provision of person-centered gynecologic health care across the lifespan. Emphasis is placed on recognizing and supporting normal developmental transitions (menarche, menopause) and the wide range of healthy sexual functioning and reproductive life planning needs. Shared decision making is practiced to create individualized care plans for people with common gynecologic concerns and needs that consider socioeconomic, cultural, and political contexts. Students will work through diagnostic and management challenges to improve skills in addressing complexity.

Prerequisite: NM703
Prerequisite or concurrent: NM702

**NM702 Care During Normal Pregnancy (3-0)**
Providing holistic care before and during pregnancy promotes optimal health and improves maternal and neonatal outcomes. In this didactic course, nurse-midwifery and women's health nurse practitioner students explore the components of care for clients during the preconception period and during healthy, uncomplicated pregnancies. Students explore this content through a series of essential questions. At each visit, how do midwives and WHNPs: Assess maternal well-being and determine normalcy; assess fetal well-being and determine normalcy; determine current gestational age; promote health; provide anticipatory guidance; promote health equity, dismantle systemic racism, and provide anti-racist care; incorporate patient-centered care; and consider the strength of evidence for what we do?

Prerequisite: PC705, PC706, PC707
Prerequisite or concurrent: PC703 or PC718, NM703

**NM703 Primary Care of Women (3-0)**
This course provides the knowledge base for clinical management of the primary health care needs of women throughout the lifespan with appropriate consultation, collaboration, and referral. Content focuses on common health problems and deviations from normal for the essentially healthy woman. Emphasis is placed on comparing different management options through a review of literature in order to assist women in making informed choices and participating in decisions about their care.

Prerequisite: PC705
Prerequisite or concurrent: PC703 or PC718, PC706, PC707

**NM704 Midwifery Care during Labor and Birth (3-0)**
Midwifery care during labor and birth is based on theoretical foundations, evidence, and shared decision making. Students evaluate and apply these concepts to formulate plans for uncomplicated labor and birth based on appropriate data and accurate diagnoses.

Prerequisite: PC705, PC706, PC707
Prerequisite or concurrent: PC703 or PC718, NM703

**NM705 Postpartum and Newborn Care (3-0)**
Providing evidence-based care during the postpartum period improves outcomes and health for the client, newborn, and family for a lifetime. Students begin with anatomy and physiology of the fetal-newborn transition and postpartum changes and apply that foundation to formulate care plans for the healthy newborn and postpartum client. Utilizing a diversity, equity, and inclusion framework, students will educate families and determine appropriate management plans to promote optimal postpartum and newborn outcomes.

Prerequisite: PC705, PC706, PC707
Prerequisite or concurrent: PC703 or PC718, NM703

**NM706 Advanced Midwifery Care of Childbearing Women and Newborns (4-0)**
Comprehensive midwifery care includes anticipating, identifying, and managing antepartum, intrapartum, postpartum, and newborn complications. Evidence-based practice and clinical reasoning skills are utilized as students participate in activities that identify subjective and objective data, diagnoses, and management...
prerequisite or concurrent: seasoned clinical preceptors.

Midwifery collaboration to This NM714 Nurse-Midwifery Clinical III (0-3)

Prerequisite or concurrent: midwifery by seasoned clinical preceptors. Hallmarks care courses

This NM713 Nurse-Midwifery Clinical II (0-3)

Prerequisite: guided through an enriched virtual learning model by faculty. The student is at a beginning level and will start to

This is the first of five clinical courses for the nurse midwifery student, which provides the opportunity to practice health assessment skills, critical thinking, diagnostic reasoning, clinical management and counseling strategies across the lifespan under the supervision of a nationally certified and boarded health care provider preceptor and guided through an enriched virtual learning model by faculty. The student is at a beginning level and will start to apply the management process to coordinate an individual's primary, gynecological, and pregnancy-related needs using theoretical and evidence-based practice guidelines for midwifery care.

Prerequisite: NM710

NM713 Nurse-Midwifery Clinical II (0-3)

This is the second of five midwifery clinical courses in which content learned in the foundational and management courses is applied. Students use sound rationale in applying the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: NM712 (MSN students) or NM711 (PGC students)

NM714 Nurse-Midwifery Clinical III (0-3)

This is the third of five midwifery clinical courses in which content learned in the foundational and management courses is applied. Students demonstrate sound judgment in applying the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle, with appropriate consultation, collaboration and referral as indicated by client needs. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: NM713
NM715 Nurse-Midwifery Clinical IV (0-3)
This is the fourth of five midwifery clinical courses in which content learned in the foundational and management courses is applied. Students are becoming independent in applying the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle, with appropriate consultation, collaboration and referral as indicated by client needs. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.
Prerequisite or concurrent: NM714

NM716 Nurse-Midwifery Clinical V (0-3)
This is the fifth and final midwifery clinical course in which content learned in the foundational and management courses is applied. The student is able to independently apply the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle, and to appropriately handle emergency situations. Parameters for safe practice are integrated and practice scope is delineated for a safe and competent, beginning nurse-midwife. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.
Prerequisite or concurrent: NM715

NM717 Nurse-Midwifery Final Comprehensive Review (1-0)
Success on board certification and the comprehensive exam is influenced by preparation, self-assessment and remediation. Students utilize the core practice competencies and advanced practice essentials to guide preparation for exams and review.
Prerequisite: NM didactic and clinical courses through NM714
Prerequisite or concurrent: NM715, NM716

NM718 Nurse-Midwifery Independent Study (variable)
This course is designed for students to complete supervised study related to nurse-midwifery care. The content varies according to individual needs and interests. This course may be completed a maximum of three (3) times under different subtitles.
Prerequisite: Permission of Instructor

NP700 The Role of the Nurse Practitioner (3-0)
This course explores advanced practice nursing and its history. Students examine interdisciplinary collaboration and leadership roles to enhance communication in the healthcare environment. Students participate in activities related to role transition, scope of practice, professional organizations, and community health improvement.
Prerequisite: Admission to FNU

NP702 Primary Care I (3-0)
This course focuses on the primary care management of clients across the adult lifespan. Students will integrate pathophysiology, pharmacology, physical assessment skills and use evidence-based clinical practice guidelines to assess, diagnose, and develop a strategy to manage specific medical conditions.
Prerequisite: PC718, PC705, PC706, PC707

NP703 Gynecologic Health and Childbearing (4-0)
Family nurse practitioners play an integral role in optimizing gynecologic health across the lifespan through health screening, health promotion, and disease management. Students will apply the clinical decision making process to the management of common gynecological, pregnancy, and postpartum states through a variety of learning activities. Students will appraise healthcare delivery in a context of patient-centered care, health equity, and intersectionality.
Prerequisite: PC703 or PC718, PC705, PC706, PC707

NP704 Primary Care: Pediatrics (3-0)
This course focuses on developmental surveillance and management of common developmental problems in children from infancy through adolescence. Family dynamics, strategies for health maintenance, anticipatory
NP705 Primary Care II (3-0)
This course focuses on the synthesis and application of theory, research, pathophysiology, assessment, and pharmacology to effectively address the complexities of health and disease in adults. This course also refines diagnostic reasoning strategies needed for primary care management of clients across the adult lifespan. Systems of focus include gastrointestinal, cardiovascular and endocrine.
Prerequisite: PC718, PC705, PC706, PC707
Prerequisite or concurrent: NP702

NP706 Primary Care III (3-0)
Building upon pathophysiology, pharmacology, and physical assessment concepts, students focus on clinical reasoning and evidence-based guidelines to address assessment, diagnosis, and management of specific medical conditions in primary care of the adult. Management of select lower respiratory, psychiatric, and neurologic conditions will be presented. In addition, primary care of the older adult is emphasized with a focus on common geriatric syndromes. Themes relating to the role of the family nurse practitioner, effective healthcare team communication, and shared decision-making are reinforced.
Prerequisite: PC703 or PC718, PC705, PC706, PC707
Prerequisite or concurrent: NP702

NP710 Advanced Skills for Nurse Practitioner Care (2-0)
Nurse practitioners possess essential knowledge, skills and attitudes that enable them to provide evidence based care. Students apply knowledge, practice assessment, refine diagnostic reasoning, and create plans of care during diverse simulated patient care scenarios across the lifespan.
Prerequisite: Final passing grades posted for all core and specialty track didactic courses (with the exception of PC713); submission of a clinical site (to My Clinical Plan) that is accepted by the RCF.

NP711 Advanced Skills for Nurse Practitioner Care (1-0)
This course refines critical thinking and diagnostic reasoning skills and provides students with an opportunity to demonstrate cognitive, affective and psychomotor skills necessary for accurate diagnosis of health status.
Prerequisite: Final grades posted for all core and specialty track didactic courses (with the exception of PC713); submission of a clinical site (to My Clinical Plan) that is accepted by the RCF.

NP712 FNP Clinical I (0-3)
This is the first of five clinical courses providing the FNP student the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, clinical management and counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor and guided through an enriched virtual learning model by faculty. The student is at a beginning level and will start to apply the management process to plan the primary care for individuals across the lifespan while utilizing evidence-based practice guidelines.
Prerequisite: NP710

NP713 FNP Clinical II (0-3)
This is the second of five clinical courses for the FNP student which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced beginning level and will apply the management process to plan primary care for individuals across the lifespan while interpreting evidence-based practice guidelines.
Prerequisite: NP712 (MSN students) or NP711 (PGC students)
NP714 FNP Clinical III (0-3)
This is the third of five clinical courses for the FNP student which provides the opportunity to practice advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an intermediate level and will apply and begin to analyze the management process to provide primary care for individuals across the lifespan while appraising evidence-based practice guidelines. The student will begin to manage individuals with more complex needs.
Prerequisite: NP713

NP715 FNP Clinical IV (0-3)
This is the fourth of five clinical courses for the FNP student which provides the opportunities to advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to provide primary care for individuals across the lifespan while evaluating evidence-based practice guidelines. The student will manage individuals with more complex needs and comorbidities.
Prerequisite: NP714

NP716 FNP Clinical V (0-3)
This is the last of the five clinical course for the FNP student which provides the opportunities to advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to provide primary care for individuals across the lifespan while evaluating evidence-based practice guidelines. The student will manage individuals with more complex needs and comorbidities.
Prerequisite: NP715

NP717 FNP Final Comprehensive Review (1-0)
This course provides a comprehensive review for Family Nurse Practitioner students with the goal of preparing students for successful transition to clinical practice.
Prerequisite: NP didactic and clinical courses through NP714
Prerequisite or concurrent: NP715 and NP716

NP718 Nurse Practitioner Independent Study (variable)
This course is designed for students to complete supervised study related to nurse practitioner care. The content varies according to individual needs and interests. This course may be completed a maximum of three (3) times under different subtitles.
Prerequisite: Permission of instructor

PC701 Principles of Health Promotion (3-0)
The advanced practice nurse utilizes health promotion strategies to provide care for individuals and populations. Principles of advanced practice, client-centered care, behavior change, and evidence-based practice will be addressed. Using standards of practice, students will identify current gaps in population-based health promotion strategies in the context of health systems. Strategies that incorporate clear and respectful communication skills will be employed to promote cultural sensitivity, inclusivity, ethical care, and social justice in the healthcare environment.
Prerequisite: Admission to Frontier Nursing University (or permission as non-matriculating student)

PC702 Epidemiology and Biostatistics (3-0)
This course focuses on the use of biostatistical and epidemiological methods to examine health-related states and events and evaluate population health. Students learn to measure and manage health data, create data files and data dictionaries, perform descriptive and inferential data analyses and graphic displays, and interpret health statistics. The concepts of health promotion, disease prevention, and risk reduction are explored along with theories of disease causation and progression. Emphasis is on the critical evaluation and translation of
epidemiological research findings to provide the foundation for evidence-based practice to improve population health.
Prerequisite: Admission to Frontier Nursing University (or permission as non-matriculating student)

PC705 Advanced Pathophysiology (3-0)
Pathophysiology for Primary Care provides the student advanced practice nurse with a scientific basis for practice. This course presents an integrated approach to Pathophysiology that demonstrates the interdependence of body systems and the effects of key pathophysiologic processes. Clinical content is included as an application of Pathophysiology and will assist the student to understand the disease processes and genetic/cultural/ethnic variables.
Prerequisite: Admission to FNU (or permission as non-matriculating student)

PC706 Advanced Physical Assessment, Clinical Reasoning, and Documentation (3-0)
This course presents the comprehensive and holistic examination of the person across the lifespan by the advanced practice nurse, utilizing current evidence for patient-centered interviewing, physical exam, clinical reasoning and the effect of bias on patient outcomes Psychomotor skills for the advanced practice nurse are developed.
Prerequisite: Admission to FNU (or permission as non-matriculating student); and N400 or a 3-credit physical assessment course that satisfies FNU requirements found on the Admissions website
Prerequisite or concurrent: PC705

PC707 Advanced Pharmacology Across the Lifespan (3-0)
Evidence, safety, and ethics provide the foundation to APRN prescribing and quality patient care. Students will use evidenced based resources for safe, ethical, and legal prescribing of medications to diverse populations across the life span, with an emphasis on patient centered care and shared decision making.
Prerequisite: Admission to FNU (or permission as non-matriculating student)
Prerequisite or concurrent: PC705, PC706

PC711 Nurse as Educator (3-0)
Students examine the role of the DNP-prepared advanced practice nurse as a clinical nurse educator. Emphasis is on: facilitation of learning in the healthcare environment; effective interpersonal communication and collaborative interprofessional relationships; facilitation of learner development and socialization; implementation of evidence-based clinical teaching strategies and theory-based instruction; implementation of evidence-based clinical assessment and evaluation strategies; application of legal and ethical principles to create a safe learning environment; modeling of respect for diversity among learners, members of the healthcare team, professional colleagues, clients, and family members; and modeling of reflective practice, self-care, and coping skills.
Prerequisite: Admission to DNP program

PC713 Principles of Independent Practice (3-0)
This course explores the role of nurse practitioners and nurse-midwives as entrepreneurs. Students evaluate nurse-led service innovations with emphasis on health promotion and disease prevention as core business functions. Participants evaluate the role of quality assurance and quality improvement across practice models. Within interdisciplinary teams, students share experiences integrating business and leadership principles as they propose nurse-led and/or interprofessional business plans. Students demonstrate knowledge of practice management, workforce development, contract negotiation, credentialing, accreditation, the revenue cycle, grant funding, and marketing.
Prerequisite: MH705 or NP700 or NM700 OR admission to DNP program

PC716 Advanced Physical Assessment, Clinical Reasoning and Documentation for Advanced Practice Nurses (4-0)
This course presents the comprehensive and holistic examination of the person across the lifespan by the advanced practice nurse, utilizing current evidence for patient-centered interviewing, physical exam, clinical reasoning and the effect of bias on patient outcomes. Psychomotor skills for the advanced practice nurse are evaluated. 
Prerequisite or concurrent: PC705
PC718 Evidence Based Practice (3-0)
Critical appraisal of peer-reviewed literature is essential for high quality evidence-based clinical practice. Students learn important skills to assess the relevance, quality, and application of evidence to clinical practice in an effort to improve the safety and quality of healthcare. Learning activities are designed to help the student develop their ability to critically appraise and synthesize peer-reviewed literature, and disseminate the findings. Prerequisite: Admission to FNU (or permission as non-matriculating student)
Prerequisite or concurrent: PC702

PC719 Psych Concepts for APRN (3-0)
APRNs frequently encounter patients with mental health concerns in primary care practice. Familiarity with the knowledge and skills needed to care for this patient population is an integral part of providing comprehensive patient-centered care. Students will be introduced to the lived experiences of people with common mental health diagnoses; identify essential community mental health resources; learn to form therapeutic relationships while practicing self-care; and identify screening methods, diagnostic criteria, and pharmacologic and non-pharmacologic management of commonly encountered psychiatric disorders. Prerequisite or concurrent: NP700 or NM700, PC707

PC728 Leadership and Organizational Dynamics (3-0)
This course examines the leadership role of the nurse as one that influences health care delivery through leadership theories and principles. Focus is on leadership approaches, principles, competencies, styles with emphasis on teamwork, communication, decision-making, and the business realities of leading within a health care system. Theories and issues related to leadership, organizational processes, organizational change, strategic planning, and interpersonal group dynamics are examined. Prerequisite: Admission to DNP program

PC727 Ethics and Health Policy (3-0)
Advanced practice nurses lead social justice efforts, analysis of ethical issues, and review of policy. Students will apply scholarly and leadership skills, in the policy and practice arenas, to improve the health of individuals and communities through self reflection, policy critique and ethical analysis. Prerequisite: PC702, PC718

PC729 Health Policy and Advocacy (2-0)
Advanced practice nurses lead social justice efforts, and revision of policy. Students will apply scholarly and leadership skills, in the policy and practice arenas, to improve the health of individuals and communities through self reflection, and policy critique. Prerequisite: PC702, PC718

PC739 DNP Clinical Preparation (1-0)
This course provides foundational preparation for students to effectively start their DNP clinical project courses in subsequent terms. Students will review biostatistical concepts, quality and safety initiatives, develop an understanding of the role of diversity, inclusion, and professionalism, and hone scholarly writing abilities. In addition, students will identify a suitable clinical site, obtain approval for their DNP QI project, and identify a mentor and sponsor and complete clinical compliance for their site. Prerequisite/Co-requisite: PC711

PC740 DNP Clinical Scholarship Planning (1-3)
This course exposes students to the latest evidence-based clinical practice resources, clinical safety and systems analysis tools, as well as interprofessional, collaborative learning networks. Students demonstrate competence with clinical scholarship related to care of individuals, families and populations while exploring the fundamental processes of information literacy, family centered systems, and systems level safety. Learners are guided through the process of planning a quality improvement project within a healthcare delivery system to translate evidence into practice. Students apply quality improvement theories, processes and methods and gain practical
experience with the fundamentals of systems improvement. Learners practice information literacy, and quality improvement process literacy while continuing to develop scholarly communication skills.

Prerequisite: Completion of FNU MSN program (Class 119 and higher or Bridge class 108 and higher) and APRN certification OR Admission to PM DNP program and completion of PC702, PC713, PC718. All students must complete PC739 or DNP Clinical Prep 101 in the term immediately preceding.

PC743 DNP Clinical Scholarship Implementation (1-3)
This course guides students through the process of working within a healthcare delivery system to translate evidence into practice. Students use rapid cycle improvement methods to implement an evidence based practice project throughout the term. Within interdisciplinary teams, students gain practical and academic experience with the fundamentals of systems improvement. Students complete plan, do, study, act cycles, evaluate data to inform small tests of change, and complete a clinical practicum summary. Learners practice interprofessional team building, family centered systems improvement and practice quality improvement process literacy while continuing to develop scholarly communication skills.

Prerequisite: PC740

PC744 DNP Clinical Scholarship Dissemination (2-1)
This course is the third of a three-part series designed to develop clinical practice scholars. Students explore sustainability, spread and scale of their DNP project. This course guides students through the dissemination phase of translating the evidence into practice. Learners demonstrate interprofessional leadership skills and best practices in program dissemination. Students complete their DNP clinical portfolio by creating the business case for quality, value and financial stewardship. Student learners demonstrate advanced levels of clinical judgement, systems thinking, and accountability in designing, delivering and evaluating evidence based care to improve population health. Finally, the role of DNP leaders in maintenance of a healthy work environment and prevention of professional burnout are explored.

Prerequisite: PC741 or PC743

PC790 Independent Study (variable)
This course is designed for students to complete supervised study related to content in PC courses. The content varies according to individual needs and interests. This course may be completed a maximum of three (3) times under different subtitles.

Prerequisite: Permission of instructor

WH639 Advanced Clinical Practicum in Women’s Health Care (0-4)
This clinical course provides the opportunity for the student to focus on critical thinking/diagnostic reasoning and clinical management/ counseling skills in providing health and illness care to women in a primary care setting. This intensive clinical experience allows nurse-midwives to further integrate women’s health and primary care didactic and clinical knowledge and skills. Foci include health promotion and disease prevention for women across the lifespan, and the diagnosis and management of common primary care problems with emphasis on gynecologic concerns. The student is expected to begin the management of more complex health issues and to demonstrate increasingly complex clinical judgment. WH639 requires 60 hours of primary care and 120 hours of women’s health care supervised clinical experience. Student is encouraged to seek opportunities to advance and build on their current clinical skills. Of the required 180 clinical hours, a total of 72 hours can be spent with an MD if desired.

Prerequisite: This course is open only to CNEP graduates from Class 30 and higher with a master’s degree.

WH707 Antepartum Complications and Comprehensive Postpartum Care (4-0)
Women’s healthcare nurse practitioners utilize evidence-based practice and clinical reasoning skills to deliver person centered care from puberty through the adult lifespan. Students utilize the clinical decision making process during learning activities that include commonly encountered conditions and complications during the perinatal and postpartum periods. Cultural humility, shared decision making, interprofessional collaboration, and professionalism principles are incorporated into all course learning activities.

Prerequisite: NM702
**WH710 Clinical Skills for Women's Health (2-0)**
This course provides the student with the opportunity to learn and practice women's health care skills synchronously with faculty and peers. Students will apply and further develop their skills for assessment and management of gynecological conditions, antepartum and postpartum conditions, initial evaluation of labor status, and provision of evidence-based client education. Students will also learn and practice suturing and common office procedures, and will learn basic examination skills for the male reproductive system. Women's health care skills will be furthered by participation in simulated clinic visits.
Prerequisite: Final passing grades posted for all core and specialty track didactic courses (with the exception of PC713); submission of a clinical site (to My Clinical Plan) that is accepted by the RCF.

**WH711 Skills for Women’s Health Care (1-0)**
This course provides the student with the opportunity to learn and practice women's health care skills synchronously with faculty and peers. Students will apply and further develop their skills for assessment and management of gynecological conditions, antepartum and postpartum conditions, initial evaluation of labor status, and provision of evidence-based client education. Students will also learn and practice suturing and common office procedures, and will learn basic examination skills for the male reproductive system. Women's health care skills will be furthered by participation in simulated clinic visits.
Prerequisite: Final grades posted for all core and specialty track didactic courses (with the exception of PC713); submission of a clinical site (to My Clinical Plan) that is accepted by the RCF.

**WH712 Women’s Health Clinical I (0-3)**
This is the first of five clinical courses for the WHNP which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/counseling strategies across the lifespan, including gynecologic health and the childbearing cycle, under the supervision of a nationally certified health care provider preceptor and guided through an enriched virtual learning model by faculty. The student is at a beginning level and will start to apply the management process to plan the primary, gynecologic, and childbearing care for individuals across the lifespan while utilizing evidence-based practice guidelines.
Prerequisite: WH710

**WH713 Women’s Health Clinical II (0-3)**
This is the second of three clinical courses in which content learned in the foundational and management courses is applied. Students demonstrate sound judgment in applying the management process to the care of women throughout the lifespan, including the childbearing cycle, with appropriate consultation, collaboration and referral as indicated by client needs.
Prerequisite or concurrent: WH712 (MSN students) or WH711 (PGC students)

**WH714 Women’s Health Clinical III (0-3)**
This is the third clinical course in which content learned in the foundational and management courses is applied. The student is able to independently apply the management process to the care of women throughout the lifespan, including the childbearing cycle. Parameters for safe practice are integrated and practice scope is delineated for a safe and competent, beginning nurse practitioner.
Prerequisite or concurrent: WH713

**WH715 Women’s Health Clinical IV (0-3)**
This is the fourth of five clinical course for the WH NP student which provides the opportunities to advance health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to provide primary care for individuals across the lifespan while evaluating evidence-based practice guidelines. The student will manage individuals with more complex needs and comorbidities.
Prerequisite or concurrent: WH714
WH716 Women’s Health Clinical V (0-3)
This is the last of five clinical course for the WHNP student which provides the opportunities to advance health assessment skills, critical thinking/diagnostic reasoning, and clinical management/ counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process to provide primary care for individuals across the lifespan while evaluating evidence-based practice guidelines. The student will manage individuals with more complex needs and comorbidities.
Prerequisite or concurrent: WH715

WH717 Women’s Healthcare Final Comprehensive Review (1-0)
Success on board certification and the comprehensive exam is influenced by preparation, self-assessment and remediation. Students utilize the core practice competencies and advanced practice essentials to guide preparation for exams and review.
Prerequisite: WH didactic and clinical courses through WH714
Prerequisite or concurrent: WH715, WH716

WH718 Women’s Health Independent Study (variable)
This course is designed for students to complete supervised study related to nurse practitioner care. The content varies according to individual needs and interests. This course may be completed a maximum of three (3) times under different subtitles.
Prerequisite or concurrent: Permission of Instructor

Retired Courses

MH702 Psychotherapy Foundations of Mental Health Care (3-0) [RETIRED]
This course presents essential knowledge and models to support the nurse psychotherapist role. Emphasis is placed on holistic conceptualization of mental health care of individuals and groups across the lifespan. This course reviews communication theories to facilitate the therapeutic process of the nurse-patient relationship.
Prerequisite: PC705, PC706, PC707, MH703, MH705

MH703 Psychiatric-Mental Health Care of Individuals & Groups (3-0) [RETIRED]
The focus of this course for the psychiatric advanced practice nurse is the theoretical and foundational knowledge required to develop diagnostic assessment of individuals with mental disorders across the lifespan.
Prerequisite: PC705, PC706, PC707

MH704 Psychiatric Care of Serious Mental Illness & Vulnerable Populations/Families (3-0) [RETIRED]
This course examines evidence-based care of individuals with serious mental illnesses and emotional disorders, including treatment-resistant and/or relapsing illness. The course focuses on mental health care and recovery, including mental health advocacy, health promotion and illness prevention in the context of the support network, family and community, with particular attention to persons in underserved and rural populations.
Prerequisite: MH701, MH 702

MH706 Integrating Psychiatric-Mental Health Care (3-0) [RETIRED]
This course examines integrated approaches to care of persons across the lifespan, including evidence-based diagnosis, management, and coordination of care with collaborative interdisciplinary approaches. Health needs are viewed in the context of the person’s habitat and support network, requiring integration of care across multiple health delivery and social support systems. Emphasis is placed on nursing contributions in integrated care at the registered and advanced practice nursing roles. Models for consultation-liaison nursing are explored, as well as telehealth strategies for quality health care delivery
Prerequisite: MH701, MH702
N404 Statistics (3-0) [RETIRED]
This course provides the foundation for using statistical concepts to evaluate research for use in evidence-based practice. Students will learn descriptive statistics, sampling techniques, types of errors, probability theory and the concepts of measurement, reliability and validity, and hypothesis testing. Students will use the statistical software package, SPSS™, to analyze data and interpret results using common inferential statistical tests, such as the t-test, ANOVA, correlation, simple linear regression, as well as chi square and other nonparametric tests.
Prerequisite: None

N405 Nursing Theory (3-0) [RETIRED]
This course introduces the student to the major nurse theorists and gives an overview of nursing theory. The course is designed to prepare students to utilize the literature to examine the relationship of theory to research and practice and reflect on nursing theories that have personal significance for them in their practice.
Prerequisite: None

N406 Leadership (3-0) [RETIRED]
This course will examine the leadership role of the nurse as one that influences the health of individuals, families, and communities. Focus of course content is on leadership skills as they apply to leadership potential. Leadership theories are examined and applied to promote ethical care and effective leadership during times of conflict.
Prerequisite: Admission to ADN Bridge Entry Option

N408 Community Health Nursing (3-0) [RETIRED]
This course will focus on the concepts of community health nursing. Emphasis is placed on developing a tool to assess community health with a goal of improving the health of an aggregate population.
Prerequisite: N406

N409 Community Health Nursing Practicum (1-2) [RETIRED]
This course will focus on community health nursing practicum experiences within a designated community setting that are designed to develop beginning skills in interprofessional coalition building and collaboration. Students will utilize the community assessment findings from N408 Community Health Nursing to develop a plan to address the health needs of an aggregate population.
Prerequisite: N408

N410 Nursing Research (3-0) [RETIRED]
This course focuses on the understanding of the research process and the identification, interpretation, and the utilization of credible research evidence to improve nursing care in primary care practice. Various approaches to the research process are explored. Ethical, moral and legal issues related to nursing research in advanced practice are considered.
Prerequisite: N404
Prerequisite or concurrent: N405

N702 Evidence-Based Practice I (3-0) [RETIRED]
In this course, the theories, concepts, and methods relevant to the review, analysis, synthesis, and application of scientific evidence to nursing and health care practice will be discussed. The ethical, legal, cultural, and financial implications of evidenced based advanced nursing practice will be integrated into the discussion. Students will explore literature related to their selected health care issue and will identify and refine their Capstone Project goals.
Prerequisite: None

N703 Evidence-Based Practice II (3-0) [RETIRED]
This course focuses on the conduct of clinical scholarship. Content includes transformational research approaches and evidence-based practice processes. Students will continue the development of their Capstone Project proposal utilizing theoretical approaches and empirical evidence, including health outcomes data. An implementation plan for the DNP project will be defined.
Prerequisite: PC702, N702
N704 Leadership and Organizational Theory 3-0 [RETIRED]
This course examines the leadership role of the nurse as one that influences health care delivery and policy decision-making. Focus is on transformational leadership, measurement of outcomes, data driven decision-making, and the business realities of leading within health care system. Theories and issues related to leadership, organizational processes, organizational change, strategic planning, and interpersonal group dynamics are examined.
Prerequisite: PC702, PC718

N705 Ethics and Health Care Policy (3-0) [RETIRED]
In the first part of this course the students will apply an ethical model to case study, in order to understand the ethical considerations related to health policy and healthcare research. Students will analyze health policy and its impact on primary care delivery systems. Issues examined will include ethics, advocacy for social justice, health disparities, equity in relation to health care policy, access, quality and financing. Students will learn strategies for engaging in the process of health care policy development.
Prerequisite: PC702, PC718

N706 Evidence Based Practice and Information Technology (3-0) [RETIRED]
This course emphasizes the use of computerized systems in clinical evaluation and practice. Students will examine the social, ethical, and legal issues associated with information technology in a healthcare environment.
Prerequisite: PC702, PC718

N711 DNP Practicum I (0-4) [RETIRED]
This course provides leadership experiences in a healthcare setting commensurate with the student’s advanced practice area. It provides an opportunity for students to further synthesize learning gained through the program, effectively incorporating new knowledge and skills to expand their advanced practice. Students will select a clinical site that is relevant to the development and implementation of their DNP Project.
Prerequisite: PC702, N702, N703, N720A, N720B

N712 DNP Practicum II (0-4) [RETIRED]
This practice includes leadership experiences designed to allow the student to explore, identify and develop expertise in the chosen DNP project area and reflect upon and develop innovative solutions for complex healthcare problems. Students will select a practicum site that is relevant to the development of deep knowledge in their chosen DNP project area.
Concurrent: N720C

N720A DNP Project (1-0) [RETIRED]
The purpose of the DNP Project is to provide the student the opportunity to complete an in-depth analysis and synthesis of a selected health care issue that will contribute to the improvement of a health care practice or system. Students will be expected to integrate.

N720B DNP Project (1-0) [RETIRED]
The purpose of the DNP Project is to provide the student the opportunity to complete an in-depth analysis and synthesis of a selected health care issue that will contribute to the improvement of a health care practice or system. Students will be expected to integrate.

N720C DNP Project (2-0) [RETIRED]
The purpose of the DNP Project is to provide the student the opportunity to complete an in-depth analysis and synthesis of a selected health care issue that will contribute to the improvement of a health care practice or system. Students will be expected to integrate.
Prerequisite: N720B

NM601 The Role of Midwifery and Birth Centers in America (2-0) [RETIRED]
This is the first course in a four-course series that will examine the framework of practice for Certified Nurse-Midwives. The content of this course includes the historical development and evolution of nurse-midwifery,
birth centers, the American College of Nurse Midwives, and the American Association of Birth Centers (AABC) (formerly known as the National Association of Childbearing Centers (NACC). Each of these content areas are examined within the social, political, and economic contexts over the past century. Content included in the course will highlight the major turning points in the interrelated development of medicine, nursing, and nurse-midwifery within the major social, political, and economic changes, from the industrial revolution to the establishment of the medical industrial complex to the technological revolution of the new millennium. Course content also includes the impact of the development of the birth center concept on delivery of maternity care. While attending the AABC “How to Start a Birth Center” Workshop, students will learn about small business principles for establishing and maintaining a midwifery practice or service using the birth center as a case study.

Prerequisite: None

**NM602 Reproductive Anatomy and Physiology (2-0) [RETIRED]**
This course provides a basis for midwifery and women’s health care nurse practitioner practice by presenting information on reproductive physiology including female and male reproductive anatomy, reproduction, basic embryology and fetal development, maternal anatomical and physiological alterations associated with pregnancy, labor, and birth.

Prerequisite: None

**NM609 Market Research (1-0) [RETIRED]**
In this course the student investigates the readiness of consumers and providers in the community for nurse-midwives and birth centers by conducting market research.

Prerequisite: NM601

**NM610 Community Assessment (1-0) [RETIRED]**
This course is designed as a practicum in learning about your community. The course takes the student into the community to gather firsthand information on: the legal base for practice and the operation of a birth center; general information on the community’s population characteristics, economy, transportation and health indicators; availability and access to maternity care services and social support agencies.

Prerequisite: NM601

Prerequisite or concurrent: PC618

**NM617 Antepartum Care (4-0) [RETIRED]**
This course is made up of a sequence of modules designed to provide a knowledge base for clinical midwifery management of the healthy pregnant woman. Content for this course covers the basics of prenatal care, and stresses the developmental changes that can be expected during the course of pregnancy. Promotion of optimal health and outcome by the provision of midwifery care is discussed. Prevention of problems through the promotion of healthy behaviors by the pregnant woman and her family is a key focus of the course. Emphasis is also on midwifery teaching and supportive care that enhances the normal processes of pregnancy and birth.

Prerequisite: PC605 and NM602

Prerequisite or concurrent: PC612

**NM618 Intrapartum Care (4-0) [RETIRED]**
This course is designed to assist the midwifery student in attaining the basic knowledge needed to provide care during an uncomplicated labor and birth. Emphasis is placed on comparing different management options through a review of literature in order to assist women in making informed choices and participating in decisions about their care during labor and birth.

Prerequisite: PC605 and NM602

Prerequisite or concurrent: PC612

**NM619 Postpartum and Newborn Care (3-0) [RETIRED]**
This course focuses on normal anatomical changes of the puerperium, including lactation, and the normal anatomical and physiologic changes of the fetus and newborn. It is designed to provide a foundation for the management of care of the basically normal postpartum woman and newborn. Content also includes breastfeeding, postpartum, and newborn teaching, as well as societal, and cultural issues surrounding the mother/infant dyad. Some controversies in newborn care will be covered.
Prerequisite: PC605 and NM602  
Prerequisite or concurrent: PC612

**NM621 Advanced Antepartum Care (3-0) [RETIRED]**  
This course is designed to provide knowledge needed to anticipate, identify, and manage antepartum complications and variations of normal, some of which will require the midwife to consult, collaborate, or refer. Emphasis is placed upon the importance of timely diagnosis and appropriate collaborative management using evidence-based care practices. This course also provides the knowledge base needed to more fully address selected management issues that the midwife will take up with all clients such as prenatal genetic screening and diagnosis, and issues related to the extremes of childbearing age.  
Prerequisite: NM617

**NM622 Advanced Intrapartum Care (3-0) [RETIRED]**  
This course is designed to provide knowledge needed to anticipate, identify, and manage intrapartum complications and variations of normal, many of which require the midwife to consult, collaborate, or refer. Risk factors, current research, and management controversies related to complications and variations of normal, as well as immediate management steps for emergency conditions are covered.  
Prerequisite: NM618

**NM623 Advanced Postpartum and Newborn Care (2-0) [RETIRED]**  
This course focuses on the theory and concepts of nurse-midwifery management in the care of postpartum women, newborns, and their families. Emphasis is placed on continuity of care for the family after birth. It includes postpartum and newborn complications.  
Prerequisite: NM619

**NM629 Skills for Nurse-Midwifery Care (1-0) [RETIRED]**  
This course provides the student with the opportunity to learn and practice intrapartum, postpartum, and newborn skills in an on-campus didactic classroom and clinical skills laboratory. The intrapartum content includes beginning suturing skills, hand maneuvers for normal birth and third stage, and management of selected intrapartum complications and variations of normal. Students will begin to develop their clinical assessment skills related to normal postpartum clients as well as clients experiencing selected postpartum complications. Assessment of the newborn, including complete physical examination, is presented and practiced.  
Prerequisite: all core courses, NM specialty courses and clinical site submission for credentialing

**NM630 Advanced Women’s Health Care (1-0) [RETIRED]**  
This course focuses on caring for women with complex women’s health and gynecological conditions. The emphasis is on recognition of signs and symptoms, initial evaluation and management, and appropriate collaborative management.  
Prerequisite: PC615

**NM638 Health Policy: Birth Centers as a Case Study (1-0) [RETIRED]**  
In this course, the student will be immersed in health policy and finance by designing a birth center that meets the needs of the community and is integrated into the healthcare delivery system. The program of care will be delineated including plans for quality assurance. A budget will be calculated, and revenue projected. The viability of the birth center will be determined.  
Prerequisite: NM609, NM610

**NM640 Nurse-Midwifery Independent Study (variable) [RETIRED]**  
This course is designed for students to complete supervised study related to nurse-midwifery care. The content varies according to individual needs and interests.  
Prerequisite: Permission of instructor

**NM641 Nurse-Midwifery Clinical I (0-3) [RETIRED]**  
This is the first of four clinical courses in which content learned in the foundational and management courses is applied. Students begin to apply the nurse-midwifery management process to the care of women throughout the
lifespan, including the childbearing cycle. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or Concurrent: NM629

**NM642 Nurse-Midwifery Clinical II (0-3) [RETIRED]**

This is the second of four clinical courses in which content learned in the foundational and management courses is applied. Students use sound rationale in applying the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: NM641

**NM643 Nurse-Midwifery Clinical III (0-3) [RETIRED]**

This is the third of four clinical courses in which content learned in the foundational and management courses is applied. Students demonstrate sound judgment in applying the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle, with appropriate consultation, collaboration and referral as indicated by client needs. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: NM642

**NM644 Nurse-Midwifery Clinical IV (0-6) [RETIRED]**

This is the fourth and final clinical course in which content learned in the foundational and management courses is applied. The student is able to independently apply the nurse-midwifery management process to the care of women throughout the lifespan, including the childbearing cycle, and to appropriately handle emergency situations. Parameters for safe practice are integrated and practice scope is delineated for a safe and competent, beginning nurse-midwife. The American College of Nurse-Midwives Hallmarks of Midwifery guide the clinical experience. Students are guided in learning the art and science of midwifery by seasoned clinical preceptors.

Prerequisite or concurrent: NM630, NM638, NM643

**NM645 Comprehensive Final Review (0-0) [RETIRED]**

The purpose of this course is to provide a review of NM content for the comprehensive exam and the Certified Nurse-Midwife certification exam.

Prerequisite or Concurrent: Prerequisite: NM didactic and clinical courses through NM714

Prerequisite or Concurrent: NM715, NM716

**NP607 Role of the Nurse Practitioner in the Health Care Delivery System (3-0) [RETIRED]**

This course explores the history of advanced practice registered nurse (APN) roles in the current socio-political environment, preparing students to serve in a leadership role to shape the delivery of effective health care. An overview of various communication methods, community assessment, and epidemiological principles is provided. Students will complete a local Community Assessment, including all aspects of the current healthcare delivery system.

Prerequisite: None.

**NP611 Care of the Childbearing Woman (3-0) [RETIRED]**

This course is made up of a sequence of modules designed to provide the knowledge base for beginning clinical nurse-practitioner management of the healthy pregnant and postpartum woman. Content for this course covers the basics of postpartum and prenatal care such as assessment of fetal wellbeing, nutrition in pregnancy, and the developmental changes that can be expected during the course of pregnancy. Promotion of optimal health and outcome by the provision of prenatal care is discussed. Prevention of problems through the promotion of healthy behaviors by the pregnant woman and her family is a key focus of the course. Emphasis is also on client teaching and supportive care that enhances the normal processes of pregnancy and birth, management of the postpartum period, and support of breastfeeding.

Prerequisite: PC605
Prerequisite or concurrent: PC606 and PC612

NP614 Primary Health Care II: Chronic Problems (3-0) [RETIRED]
This course is the second of five courses in Primary Care that uses simulated data to focus on assessment, differential diagnosis, pharmacologic and non-pharmacologic management of clients with chronic pathology. Clinical research and standards of care provide evidenced-based rationales for clinical decision-making.
Prerequisite: PC605, PC612, PC617, and PC618

NP615 Primary Health Care III: Advanced Diagnostics and Urgent Care (2-0) [RETIRED]
This course refines critical thinking and diagnostic reasoning skills and provides students with an opportunity to demonstrate cognitive, affective and psychomotor skills necessary for accurate diagnosis of health status. Urgent treatment for common emergencies, their differential diagnoses, and primary care management are also covered in this course.
Prerequisite: PC612 and PC617

NP619 Primary Care of Children (3-0) [RETIRED]
This course focuses on surveillance and management of common developmental problems in children from infancy through adolescence. Strategies for health maintenance, anticipatory guidance, and management of common acute and chronic pediatric health problems are emphasized. Family dynamics and structure are discussed in this course.
Prerequisite: PC605, PC606, and PC612

NP621 Primary Health Care IV: Psychosocial Problems in Primary Care (1-0) [RETIRED]
This course is designed to introduce the nurse practitioner student to the spectrum of behavioral and mental disorders commonly encountered in the primary care setting. Focus is placed on psychiatric evaluation, screening, and counseling techniques that facilitate diagnosis and early intervention for individuals with psychological disorders. Clinical research and standards of care provide evidence-based rationales for clinical decision-making.
Prerequisite: PC605, PC606, and PC612.

NP629 Advanced Skills for Primary Care (1-0) [RETIRED]
This course provides the student with the opportunity to learn and practice skills for advanced diagnosis, management of common emergencies, and newborn assessment in an on-campus didactic classroom and clinical laboratory. Content and skills include suturing, radiology, and pediatric exams. Students will participate in clinical simulations of orthopedic, cardiac, respiratory and emergency care. Primary care skills will be furthered by clinic and hospital clinical observational experiences.
Prerequisite: NP614, NP615
Prerequisite or concurrent: all core courses are prerequisite (with the exclusion that NP621 and NP619 may be taken concurrent) plus clinical site submission for credentialing

NP635 Primary Health Care V: Complex Health Problems in Primary Care (1-0) [RETIRED]
This integration course in the Primary Health Care series assists the learner to apply critical thinking to the management of complex health problems. Complex health problems are those that involve multiple or severe physical, social, or psychological problems. The case study development requires the learner to consider family, developmental, and social theories as well as the principles of assessment, physical diagnosis, management, and evaluation.
Prerequisite: NP641 and NP642

NP636 Healthcare Finance (1-0) [RETIRED]
This course focuses on issues that are relevant to advance practice registered nurses (APRNs) and related to professional roles, responsibilities and building a practice. The course is designed to build upon the student's current knowledge of primary care practice settings. Covered content will include developing a business plan (including marketing strategies) for a future practice, which may prompt the student to open his or her own health
care practice. Students will also provide grant proposal information to begin the entrepreneur funding process and create an effective resume.
Prerequisite or concurrent: PC628 and NP/WH629

NP637 Healthcare Policy (1-0) [RETIRED]
This course focuses on issues that are relevant to advance practice registered nurses (APRNs) related to professional roles and responsibilities. The course is designed to build upon the student's current knowledge of professional practice as it pertains to health policy and primary care practice settings. Content covered will include developing a political fact sheet, a peer chart review and a professional resume.
Prerequisite or concurrent: PC628, NP/ WH629, and NP/WH641

NP640 Nurse Practitioner Independent Study (variable) [RETIRED]
This course is designed for students to complete supervised study related to nurse practitioner care. The content varies according to individual needs and interests.
Prerequisite: Permission of instructor

NP641 Family Nurse Practitioner Clinical I (0-3) [RETIRED]
This is the first of four clinical courses for the FNP student which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at a beginning level and will start to apply the management process to plan the primary care for individuals across the lifespan while utilizing evidence-based practice guidelines.
Prerequisite or concurrent: PC628, NP629

NP642 Family Nurse Practitioner Clinical II (0-3) [RETIRED]
This is the second of four clinical courses for the FNP student which provides the opportunity to practice health assessment skills, critical thinking/diagnostic reasoning, and clinical management/counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced beginning level and will apply the management process to plan primary care for individuals across the lifespan while interpreting evidence-based practice guidelines.
Prerequisite or concurrent: NP641

NP643 Family Nurse Practitioner Clinical III (0-3) [RETIRED]
This is the third of four clinical courses for the FNP student which provides the opportunity to practice advanced health assessment skills, critical thinking/diagnostic reasoning, and clinical management/counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an intermediate level and will apply and begin to analyze the management process to provide primary care for individuals across the lifespan while appraising evidence-based practice guidelines. The student will begin to manage individuals with more complex needs.
Prerequisite or concurrent: NP642

NP644 Family Nurse Practitioner Clinical IV (0-6) [RETIRED]
This is the fourth and final clinical course for the FNP student which provides the opportunities to advance health assessment skills, critical thinking/diagnostic reasoning, and clinical management/counseling strategies across the lifespan under the supervision of a nationally certified health care provider preceptor. The student is at an advanced level and will apply, analyze, and synthesize the management process evaluating evidence-based practice guidelines. The student will manage individuals with more complex needs and comorbidities.
Prerequisite or concurrent: NP635, NP636, NP637, NP643

NP645 Comprehensive Final Review (0-0) [RETIRED]
Family nurse practitioner students take this course in the final term of clinical. Content learned throughout all didactic and clinical courses is tested. Students are guided through self-paced reviews and tested on individual content areas, then comprehensively on a final exam.
Prerequisite or Concurent: Prerequisite: NP didactic and clinical courses through NP714
Prerequisite or Concurrent: NP715, NP716
PC600 Health Promotion and Disease Prevention (2-0) [RETIRED]
This course presents theory, strategies, and guidelines necessary for the promotion of personal, client, and community health. Students explore strategies to incorporate disease prevention and health promotion into daily routines. Students consider cultural humility and communication and the therapeutic relationship in clinical settings. Students apply health behavior theory to assess supports and barriers to healthy outcomes in their clients. Students find evidence for and apply screening guidelines across the lifespan. Students identify programs and policies that promote health on a community level. Throughout the course, ethics, theory, client centered practice, and evidence inform the presentations.
Prerequisite: **Licensure as a registered nurse**
Prerequisite or concurrent: **N409 for Bridge students**

PC604 Pathophysiology for Primary Care (3-0) [RETIRED]
Pathophysiology for Primary Care provides the student advanced practice nurse with a scientific basis for practice. This course presents an integrated approach to Pathophysiology that demonstrates the interdependency of body systems and the effects of key pathophysiological processes. Clinical content is included as an application of Pathophysiology and will assist the student to understand the disease processes and cultural/ethnic variables.
Prerequisite: **None**

PC605 Physical Assessment: Interviewing, Documentation, and Decision Making (2-0) [RETIRED]
This course uses the nurse-midwife/nurse practitioner management process as a framework for developing critical thinking and diagnostic reasoning skills needed for caring for the primary care patient. Focus includes: **recognition of symptom patterns; selection and interpretations of common screening and diagnostic laboratory tests; communication of information using SOAP format; consideration of the patient as partner in the diagnostic process.**
Prerequisite: **None**
Prerequisite or concurrent: **PC604**

PC606 Theories and Concepts of Advanced Primary Care Nursing (3-0) [RETIRED]
This course provides the theoretical and conceptual framework for advanced nursing practice in primary care and focuses on the relationship of theory and knowledge development in nursing to research and practice. Emphasis is placed on the theories and concepts commonly used by nurse midwives and nurse practitioners in primary care. The contemporary meaning of praxis and its relation to nursing and development of nursing knowledge is introduced.
Prerequisite: **Statistics course within the last ten years**

PC612 Pharmacology for Advanced Practice (3-0) [RETIRED]
Principles of pharmacodynamics and pharmacokinetics across the lifespan serve as the foundation for this comprehensive course in pharmacology for prescribers. Emphasis is placed on understanding the physiological action of drugs, expected client responses, and major side effects. Issues related to evidence-based pharmacologic practice and legal aspects of prescribing are examined.
Prerequisite: **PC605**
Prerequisite or concurrent: **PC618**

PC615 Women’s Health Care (3-0) [RETIRED]
This course encompasses promotion and maintenance of gynecologic health, as well as the assessment, diagnosis, and management of common gynecologic conditions across the lifespan. Clinical considerations specific to the different physical and psychosocial life stages of women are presented. Emphasis is placed upon the importance of providing evidence-based gynecologic care. The influence of the interrelationship of gender, social class, culture, ethnicity, sexual orientation, economic status, and socio-political power differentials upon women’s health care is also discussed.
Prerequisite: **PC605**
Prerequisite or concurrent: **PC606 and PC612**
PC617 Primary Health Care I: Acute and Common Problems (3-0) [RETIRED]
The focus of this course is the refinement of diagnostic reasoning strategies needed for primary care management of adults with commonly occurring health problems. Definitions of primary care and the diagnostic reasoning process will be presented. Principles of teaching/learning, family assessment, cost analysis and cultural beliefs are integrated in the development of evidence-based management plans for those common and acute illnesses most likely to be encountered in the primary care setting. Clinical research and standards of care provide evidence-based rationales for clinical decision-making.
Prerequisite: PC605.
Prerequisite or concurrent: PC612.

PC618 Research (3-0) [RETIRED]
The research course focuses on the analysis and critical evaluation of research methodology appropriate to nursing practice. Emphasis will be on use of research in one’s practice as a consumer, participant and originator of clinical research.
Prerequisite: PC606 and a statistics course within the last ten years.

PC628 Skills for Primary Care (1-0) [RETIRED]
This course provides the student with the opportunity to learn and practice health assessment, women’s health, and antepartum hands-on skills in an on-campus didactic classroom and clinical laboratory. Students also participate in role plays and clinical scenarios in preparation for interaction with clients during the clinical practicum.
Prerequisite or concurrent: all core courses are prerequisite (with the exclusion that NP621 and NP619 may be taken concurrent for FNP students), plus clinical site submission for credentialing

PC700 Communication and Introduction to Scholarly Writing (3-0) [RETIRED]
This course provides an overview of the concepts and skills of scholarly written communication in various contexts. Emphasis is placed on techniques used in academic and scholarly writing.
Prerequisite: Admission to Frontier Nursing University (or permission as non-matriculating student)

PC703 Evidence Based Practice (3-0) [RETIRED]
In this course, the theories, concepts, and methods relevant to the review, analysis, synthesis, and application of scientific evidence to nursing practice and health care will be explored. The facilitators and barriers to evidenced based advanced nursing practice will be addressed in the course.
Prerequisites: PC700, PC701, completion of a statistics course in the last 10 years
Prerequisite or concurrent: PC702

PC704A Translating the Evidence to Advanced Practice I (1-0) [RETIRED]
This course guides students through the process of working within a healthcare delivery system to translate evidence into practice. Students are introduced to quality improvement theories, processes and structures. Within interdisciplinary teams, students gain practical and academic experience with the fundamentals of systems improvement. Students complete the preliminary steps of selecting a clinical issue, gathering evidence and translating evidence to practice. Students draft a charter, writing an aim statement while selecting process, balancing, and outcome measures. Learners practice information literacy, and quality improvement process literacy while continuing to develop scholarly communication skills.
Prerequisite: Completion of FNU MSN program (Class 119 and higher or Bridge class 108 and higher) OR Admission to PM DNP program and completion of PC702, PC713, PC718
Concurrent: PC720

PC704B Translating the Evidence to Advanced Practice II (1-0) [RETIRED]
This course guides students through the process of working within a healthcare delivery system to translate evidence into practice. Students use rapid cycle improvement methods to implement an evidence based practice project throughout the term. Within interdisciplinary teams, students gain practical and academic experience with the fundamentals of systems improvement. Students complete plan, do, study, act cycles, evaluate data to inform small tests of change, and complete a clinical practicum summary. Learners practice interprofessional team
building, family centered systems improvement and practice quality improvement process literacy while continuing to develop scholarly communication skills.
Prerequisite: PC704A and PC720
Concurrent: PC721

PC704C Translating the Evidence to Advanced Practice III [RETIRED]
This course guides students through the dissemination phase of translating the evidence into practice. Learners demonstrate interprofessional leadership skills and best practices in program dissemination.
Prerequisite: PC704B and PC721
Concurrent: PC722

PC708 Leadership (2-0) [RETIRED]
This course examines the leadership role of the nurse as one that influences health care delivery through leadership theories and principles. Focus is on leadership approaches, principles, competencies, styles with emphasis on teamwork, communication, decision-making, and the business realities of leading within a health care system. Theories and issues related to leadership, organizational processes, organizational change, strategic planning, and interpersonal group dynamics are examined.
Prerequisite: Completion of FNU MSN (Class 119 and higher or Bridge class 108 and higher)

PC709 Health Policy (1-0) [RETIRED]
Students will analyze health policy and its impact on primary care delivery systems. Issues examined will include advocacy for social justice, health disparities, equity in relation to health care policy, access, quality and financing. Students will learn strategies for engaging in the process of health care policy development.
Prerequisite: Completion of FNU MSN (Class 119 and higher or Bridge class 108 and higher)

PC714 Clinical Bound: Skills for Advanced Practice (1-0) [RETIRED]
This course provides the student with the opportunity to learn and practice health assessment and women’s health hands-on skills in an on-campus didactic classroom and clinical laboratory. Students also participate in role plays and clinical scenarios in preparation for interaction with clients during the clinical practicum.
Prerequisite: Final grades posted for all core and specialty track didactic courses (with the exception of PC713); clinical site submission for credentialing

PC720 DNP Clinical I (0-2) [RETIRED]
This course is designed to develop clinical practice scholars by mentoring students who are providing direct patient care. The content exposes students to the latest evidence-based clinical practice resources, care coordination tools, and interprofessional, collaborative learning networks. Students demonstrate competence with clinical scholarship related to care of individuals, families and populations while exploring the fundamental processes of onboarding, ongoing performance evaluation, communication frameworks, diagnostic expertise, risk management and complex care transitions. Throughout the course, students explore family centered systems, issues of equity and social justice, as well as financial stewardship, cost and value.
Prerequisite: Completion of FNU MSN program (Class 119 and higher or Bridge class 108 and higher) OR Admission to PM DNP program and completion of PC702, PC713, PC718
Concurrent: PC704A

PC721 DNP Clinical II (0-3) [RETIRED]
This course is the second of a three-part series designed to develop clinical practice scholars. The class exposes students to the latest evidence-based clinical practice resources, clinical quality assurance tools, and interprofessional, collaborative learning networks. Students demonstrate competence with clinical scholarship related to care of individuals, families and populations while exploring the fundamental processes of team building, change management, performance measurement, and implementation.
Prerequisite: PC704A, PC720
Concurrent: PC704B
PC722 DNP Clinical III (0-3) [RETIRED]
This course is the third of a three-part series designed to develop clinical practice scholars. Students demonstrate advanced levels of clinical judgement, systems thinking, and accountability in designing, delivering and evaluating evidence based care to improve population health. Students complete their DNP clinical portfolio by exploring complex care coordination, financial stewardship, risk management and sentinel event analysis. Finally, the role of DNP leaders in maintenance of a healthy work environment and prevention of professional burnout are explored.
Prerequisite: PC704B, PC721
Concurrent/Corequisite: PC704C

PC730 DNP Clinical Scholarship Planning (1-2) [RETIRED]
This course exposes students to the latest evidence-based clinical practice resources, clinical safety and systems analysis tools, and interprofessional, collaborative learning networks. Students demonstrate competence with clinical scholarship related to care of individuals, families and populations while exploring the fundamental processes of information literacy, onboarding, performance evaluation, family centered systems, and systems level safety. The course guides students through the process of planning a quality improvement project within a healthcare delivery system to translate evidence into practice. Students apply quality improvement theories, processes and methods and gain practical experience with the fundamentals of systems improvement. Learners practice information literacy, and quality improvement process literacy while continuing to develop scholarly communication skills.
Prerequisite: Completion of FNU MSN program (Class 119 and higher or Bridge class 108 and higher) and APRN certification OR Admission to PM DNP program and completion of PC702, PC713, PC718

PC731 DNP Clinical Scholarship Implementation (1-3) [RETIRED]
This course guides students through the process of working within a healthcare delivery system to translate evidence into practice. Students use rapid cycle improvement methods to implement an evidence based practice project throughout the term. Within interdisciplinary teams, students gain practical and academic experience with the fundamentals of systems improvement. Students complete plan, do, study, act cycles, evaluate data to inform small tests of change, and complete a clinical practicum summary. Learners practice interprofessional team building, family centered systems improvement and practice quality improvement process literacy while continuing to develop scholarly communication skills.
Prerequisite: PC704A + PC720, OR PC730

PC732 DNP Clinical Scholarship Dissemination (1-3) [RETIRED]
This course is the third of a three-part series designed to develop clinical practice scholars. Students explore sustainability, spread and scale of their DNP project. This course guides students through the dissemination phase of translating the evidence into practice. Learners demonstrate interprofessional leadership skills and best practices in program dissemination. Students complete their DNP clinical portfolio by exploring complex care coordination, financial stewardship, risk management and sentinel event analysis. Learners Students demonstrate advanced levels of clinical judgement, systems thinking, and accountability in designing, delivering and evaluating evidence based care to improve population health. Finally, the role of DNP leaders in maintenance of a healthy work environment and prevention of professional burnout are explored.
Prerequisite: PC704B + PC721, OR PC731

PC741 DNP Clinical Scholarship Implementation (1-4) [RETIRED]
This course guides students through the process of working within a healthcare delivery system to translate evidence into practice. Students use rapid cycle improvement methods to implement an evidence based practice project throughout the term. Within interdisciplinary teams, students gain practical and academic experience with the fundamentals of systems improvement. Students complete plan, do, study, act cycles, evaluate data to inform small tests of change, and complete a clinical practicum summary. Learners practice interprofessional team building, family centered systems improvement and practice quality improvement process literacy while continuing to develop scholarly communication skills.
Prerequisite: PC740
This course is the third of a three-part series designed to develop clinical practice scholars. Students explore sustainability, spread and scale of their DNP project. This course guides students through the dissemination phase of translating the evidence into practice. Learners demonstrate interprofessional leadership skills and best practices in program dissemination. Students complete their DNP clinical portfolio by creating the business case for quality, value and financial stewardship. Learners Students demonstrate advanced levels of clinical judgement, systems thinking, and accountability in designing, delivering and evaluating evidence based care to improve population health. Finally, the role of DNP leaders in maintenance of a healthy work environment and prevention of professional burnout are explored.
Prerequisite: PC741

**WH629 Skills for Women’s Health Care (1-0) [RETIRED]**
This course provides the student with the opportunity to learn and practice women’s health care skills in an on-campus didactic classroom and clinical laboratory. Students will begin to develop their assessment and management skills related to normal postpartum clients as well as clients experiencing selected postpartum complications. Women’s health care skills will be further billed by clinical observation of nurse practitioners and nurse-midwives providing gynecologic, obstetric and primary care.
Prerequisite: all core courses, applicable specialty courses and clinical site submission for credentialing

**WH634 Care of the Childbearing Woman II (3-0) [RETIRED]**
This course builds on the antepartum and postpartum material learned in previous courses and is designed to further the knowledge base for nurse practitioner care of women throughout the childbearing cycle. Critical thinking, clinical management, and education strategies are emphasized.
Prerequisite or concurrent: NP611

**WH640 Women’s Health Care Independent Study (variable) [RETIRED]**
This course is designed for students to complete supervised study related to women’s health care. The content varies according to individual needs and interest.
Prerequisite: Permission of instructor

**WH641 Women’s Health Clinical I (0-3) [RETIRED]**
This is the first of four clinical courses in which content learned in the foundational and management courses is applied. Students use a holistic approach in beginning to apply the management process to the gynecologic, obstetric, and primary care of women throughout the lifespan. Students are guided in learning by seasoned clinical preceptors.
Prerequisite or concurrent: PC628, WH629, NM630

**WH642 Women’s Health Clinical II (0-3) [RETIRED]**
This is the second of four clinical courses in which content learned in the foundational and management courses is applied. Students develop skill in using sound rationale in applying the management process to the gynecologic, obstetric, and primary care of women throughout the lifespan. Students are guided in learning by seasoned clinical preceptors.
Prerequisite or concurrent: WH641

**WH643 Women’s Health Clinical III (0-3) [RETIRED]**
This is the third of four clinical courses in which content learned in the foundational and management courses is applied. Students demonstrate sound judgment in applying the management process to the gynecologic, obstetric, and primary care of women throughout the lifespan with appropriate consultation, collaboration and referral as indicated by client needs. Students are guided in learning by seasoned clinical preceptors.
Prerequisite or concurrent: WH642

**WH644 Women’s Health Clinical IV (0-6) [RETIRED]**
This is the fourth and final clinical course in which content learned in the foundational and management courses is applied. The student is able to independently apply the management process to the gynecologic, obstetric, and primary care of women throughout the lifespan, and to appropriately handle emergency situations. Parameters for
safe practice are integrated and practice scope is delineated for a safe and competent, beginning nurse practitioner. Students are guided in learning by seasoned clinical preceptors.
Prerequisite or concurrent: **NM630, NP636, NP637, WH634, WH643**

**WH645 Comprehensive Final Review (0-0) [RETIRED]**
This course provides a review of the WHNP content for comprehensive exam and WHCNP Certification.
Prerequisite or Concurrent: **Prerequisite: WH didactic and clinical courses through WH 714**
Prerequisite or Concurrent: **WH 715, WH 716**

**WH705 Postpartum Care (2-0) [RETIRED]**
This course focuses on normal anatomical and physiological changes of the puerperium, including anatomy and physiology of lactation, and addressing maternal concerns of newborn care. It is designed to provide a foundation for the management of care of the basically normal postpartum woman. Content also includes breastfeeding, postpartum, and newborn teaching, as well as societal, and cultural issues surrounding the mother/infant dyad.
Prerequisite: **PC705, PC706, PC707**
Prerequisite or concurrent: **PC703 or PC718**

**WH706 Complex Care of the Childbearing Women (3-0) [RETIRED]**
This course provide the nurse practitioner with the knowledge needed to anticipate, identify, and manage the complications of childbearing, including appropriate consultation, collaboration, or referral. Emphasis is placed on continuity of care and seamless transitions of care. Risk factors, current research, timely diagnosis, and management using evidence-based care practices are addressed.
Prerequisite: **NM702, WH705**
FNU Frequently Used Acronyms

AANP American Academy of Nurse Practitioners: national professional organization for nurse practitioners, AANP has a certification program for family nurse practitioners

ACEN Accreditation Commission for Education in Nursing (formerly NLNAC, National League for Nursing Accrediting Commission) a national accrediting body for all types of nursing education programs

ACNM American College of Nurse-Midwives: national professional organization for nurse-midwives

ACME Accreditation Commission for Midwifery Education (formerly ACNM Division of Accreditation): plans, implements and evaluates the accreditation process of nurse-midwifery and midwifery education programs and freestanding institutions of higher education that offer nurse-midwifery/midwifery education programs.

ADN Associate Degree in Nursing

AH Academic Hiatus

AMCB American Midwifery Certification Board: the national certifying body for nurse-midwives

ANCC American Nurses Credentialing Center: national nursing credentialing organization that offers family nurse practitioner certification

BT Banyan Tree: FNU’s private communication portal

CCNE Commission on Collegiate Nursing Education: a national accrediting agency for nursing education programs

CFNP Community-based Family Nurse Practitioner Education Program: the FNU family nurse practitioner specialty track

CNEP Community-based Nurse-midwifery Education Program: the FNU nurse-midwifery specialty track

CNM Certified Nurse-Midwife

CompDNP A DNP program of study available to specific FNU graduates; this is a program of study that is different than the PM-DNP

CWCHCNP Community-based Women’s Health Care Education Program: the FNU women’s health care specialty track

DAT Developmental Assessment Tool: evaluation method used during the Clinical Practicum, both daily (DDATs) and monthly (MDATs)

DNP Doctor of Nursing Practice

FNP Family Nursing Practitioner

FNS Frontier Nursing Service: Rural healthcare system founded by Mary Breckinridge that previously included a hospital, home health agency, rural healthcare clinics, and the FNU.

FNU Frontier Nursing University

FSMFN Frontier School of Midwifery and Family Nursing (former name of FNU, changed in 2011)

FNU Frontier Nursing University

IT Staff Information Technology Staff

LMS Learning Management System

MSN Master of Science in Nursing

NCC National Certification Corporation: national nursing credentialing organization that offers women’s health care nurse practitioner certification

PM-DNP Post-Master’s Doctor of Nursing Practice; this program of study is different than the companion DNP

PMHNP Psych-Mental Health Nurse Practitioner

PGC Post-Graduate Certificate

RCF Regional Clinical Faculty

SACSCOC Southern Association of Colleges and Schools Commission on Colleges: the regional accrediting body in the eleven U.S. Southern states

WHCNP Women’s Health Care Nurse Practitioner
